Contact Electrification Induced by Monolayer Modification of a Surface and Relation to Acid-Base Interactions.
PB94-185378 03,034

ACID BONDED REACTION CEMENTS
Development of an Adhesive Bonding System.
PB94-199056 00,145

Polymeric Calcium Phosphate Cements Derived from Poly(methyl vinyl ether-maleic acid).
PB96-164264 00,180

ACID GAS PRODUCTION
Acid Gas Production in Inhibited Diffusion Flames.
PB95-180576 01,390

ACIDIFICATION
Procedure for the Study of Acidic Calcium Phosphate Precursor Phases in Enamel Mineral Formation.
PB95-164448 03,564

ACIDITY
Carbon Acidities of Aromatic Compounds. 1. Effects of In-Ring Aza and External Electron-Withdrawing Groups.
PB94-216595 00,860

ACOUSTIC ABSORPTION
Absorption of Ultrasonic Waves in Air at High Frequencies (10-20 MHz).
PB94-199007 04,182

Absorption of Sound in Gases between 10 and 25 MHz: Argon.
PB94-199015 04,183

ACOUSTIC DATA
Properties of Working Fluids for Thermoacoustic Refrigerators.
AD-A297 420/2 04,864

ACOUSTIC DETECTION
Correlations between Electrical and Acoustic Detection of Partial Discharge in Liquids and Implications for Continuous Data Recording.
PB96-204490 02,248

ACOUSTIC EMISSION
High-Sensitivity Acoustic Emission Sensor/Preamplifier Subsystems.
PB95-125704 02,900

Thermoacoustic Technique for Determining the Interface and/or Interply Strength in Polymeric Composites.
PB95-161824 03,158

Acoustic Emission of Structural Materials Exposed to Open Flames.
PB95-164810 00,296

ACOUSTIC EMISSIONS
Interaction of Rayleigh Waves with a Rib Attached to a Plate.
PB94-199023 04,184

Early Detection of Room Fires Through Acoustic Emission. (NIST Reprint).
PB95-180311 00,298

ACOUSTIC MEASUREMENT
Noncontact Ultrasonic Inspection of Train Rails for Stress.
PB95-162673 04,851

National Voluntary Laboratory Accreditation Program Acoustical Testing Services.
PB95-182234 04,188

ACOUSTIC MEASUREMENTS
Speed-of-Sound Measurements in Liquid and Gaseous Air.
PB95-151957 *04,186*

ACOUSTIC RESONATORS
Speed-of-Sound Measurements in Liquid and Gaseous Air.
PB95-151957 *04,186*

ACOUSTIC SCATTERING
Reconstructing Stratified Fluid Flow from Reciprocal Scattering Measurements.
PB95-107256 *04,202*

ACOUSTIC TESTING
National Voluntary Laboratory Accreditation Program Acoustical Testing Services.
PB95-182234 *04,188*

ACOUSTIC VELOCITY
Speed-of-Sound Measurements in Liquid and Gaseous Air.
PB95-151957 *04,186*

Thermodynamic Properties of Two Gaseous Halogenated Ethers from Speed-of-Sound Measurements: Difluoromethoxy-Difluoromethane and 2-Difluoromethoxy-1,1,1-Trifluoroethane.
PB96-102413 *04,189*

ACOUSTICAL INSTRUMENTS
Determination of Acoustic Center Correction for Type LS2aP Condensor Microphones.
PB96-204508 *04,190*

ACOUSTICS
Determination of Sheet Steel Formability Using Wide Band Electromagnetic-Acoustic Transducers.
PB96-186036 *02,279*

Effect of Liftoff on Accuracu of Phase Velocity Measurements Made with Electromagnetic-Acoustic Transducers.
PB96-186044 *02,280*

Sensor System for Intelligent Processing of Hot-Rolled Steel.
PB96-186069 *03,373*

Well-Shielded EMAT for On-Line Ultrasonic Monitoring of GMA Welding.
PB96-186077 *02,879*

ACOUSTICS & SOUND
Electroacoustics for Characterization of Particulates and Suspensions. Proceedings of a Workshop. Held in Gaithersburg, Maryland on February 3-4, 1993.
PB94-112695 *00,725*

Absorption of Sound in Gases between 10 and 25 MHz: Argon.
PB94-199015 *04,183*

Interaction of Rayleigh Waves with a Rib Attached to a Plate.
PB94-199023 *04,184*

Benchmarks for the Evaluation of Speech Recognizers.
PB94-211539 *01,566*

Elastic Constants of Isotropic Cylinders Using Resonant Ultrasound.
PB94-211919 *04,497*

Examination of Objects Made of Wood Using Air-Coupled Ultrasound.
PB95-125712 *03,404*

Ultrasonic Measurement of Sheet Anisotropy and Formability.
PB95-153235 *03,213*

Electroacoustic Characterization of Particle Size and Zeta Potential in Moderately Concentrated Suspensions.
PB96-119425 *01,079*

Electrokinetic Sonic Analysis of Silicon Nitride Suspensions.
PB96-123575 *03,073*

Band-Limited, White Gaussian Noise Excitation for Reverberation Chambers and Applications to Radiated Susceptibility Testing.
PB96-165410 *01,960*

Ultrasound Power Measurement Techniques at NIST.
PB96-179569 *02,684*

Ultrasonic NDE of Sprayed Ceramic Coatings.
PB96-201157 *02,761*

Determination of Acoustic Center Correction for Type LS2aP Condensor Microphones.
PB96-204508 *04,190*

Transient Analysis of a Line-Focus Transducer Probing a Liquid/Solid Interface.
PB97-118681 *02,763*

Material Characterization By a Time-Resolved and Polarization-Sensitive Ultrasonic Technique.
PB97-122576 *02,764*

ACQUISITION
AutoBid 2.0: The Microcomputer System for Police Patrol Vehicle Selection.
PB96-154570 *04,871*

ACQUISITIONS
Federal Implementation Guideline for Electronic Data Interchange: ASC X12 003040 Transaction Set 838 Trading Partner Profile (Vendor Registration), Implementation Convention.
PB96-112651 *03,674*

ACRONYMS
Some Basics on Who's Who and What's What in Seismic Safety.
PB95-150926 *00,435*

ACRYLATE
Synthesis of Hybrid Organic-Inorganic Materials from Interpenetrating Polymer Network Chemistry.
PB96-180054 *02,994*

ACRYLATES
Facile Synthesis of Novel Fluorinated Multifunctional Acrylates.
PB94-198389 *01,207*

ACRYLIC RESINS
Preparation and Characterization of Cyclopolymerizable Resin Formulations.
PB96-146840 *01,285*

ACRYLONITRILE POLYMERS
Acrylonitrile-Butadiene-Styrene (ABS) Plastic Drain, Waste, and Vent Pipe and Fittings.
AD-A310 724/0 *00,327*

ACTIS DATA BASE
Tribological Data: Needs and Opportunities.
PB95-140596 *03,237*

ACTIVATION
Evaluation of Sprinkler Activation Prediction Methods.
PB96-141056 *00,304*

ACTIVATION ANALYSIS
Local Area Networks in NAA: Advantages and Pitfalls.
PB94-172095 *00,527*

High-Sensitivity Determination of Iodine Isotopic Ratios by Thermal and Fast Neutron Activation.
PB94-213386 *00,555*

Neutron Capture Prompt Gamma-Ray Activation Analysis at the NIST Cold Neutron Research Facility.
PB94-213394 *00,556*

Scattering and Absorption Effects in Neutron Beam Activation Analysis Experiments.
PB94-216140 *00,557*

Effects of Target Shape and Neutron Scattering on Element Sensitivities for Neutron-Capture Prompt Gamma-ray Activation Analysis.
PB94-216157 *00,558*

Cold Neutron Prompt Gamma Activation Analysis at NIST: A Progress Report.
PB95-175964 *00,602*

Neutron Scattering by Hydrogen in Cold Neutron Prompt Gamma-Activation Analysis.
PB95-175972 *00,603*

Measuring Hydrogen by Cold-Neutron Prompt-Gamma Activation Analysis.
PB96-111877 *00,612*

Effects of Target Temperature on Analytical Sensitivities of Cold-Neutron Capture Prompt gamma-ray Activation Analysis.
PB96-112131 *00,616*

SUM and MEAN: Standard Programs for Activation Analysis.
PB96-112149 *00,617*

ACTIVE CONTROL
Modified Optimal Algorithm for Active Structural Control.
PB96-165949 *00,472*

ACTIVE SITE IONICITY
Active Site Ionicity and the Mechanism of Carbonic Anhydrase.
PB94-212974 *00,843*

ACTIVITY COEFFICIENT
Model for Calculating Virial Coefficients of Natural Gas Hydrocarbons with Impurities.
PB96-156047 *04,064*

ACUTE EXPOSURE
Documentation for Immediately Dangerous to Life or Health Concentrations (IDLHs).
PB94-195047 *03,602*

ADA PROGRAMMING LANGUAGE
Ada Compiler Validation Summary Report: Certificate Number: 931029S1.11330, Digital Equipment Corporation, DEC Ada for DEC OSF/1 AXP Systems, Version 3.1, DEC 3000 Model 400 AXP Workstation, DEC 3000 Model 400 AXP Workstation.

Ada Compiler Validation Summary Report: Certificate Number 940902S1.11377 UNISYS Corporation. IntegrAda for Windows NT, Version 1.0. Intel Deskside Server with Intel 80486DX266 => Intel Deskside Server with Intel 80486DX266.
AD-A288 571/3 *01,658*

Ada Compiler Validation Summary Report: Certificate Number 940902S1.11376. UNISYS Corporation IntegrAda for Windows NT, Version 1.0. Intel Deskside Server for Intel Pentium 60 MHz =>. Intel Deskside Server with Intel Pentium 60 MHz.
AD-A288 572/1 *01,659*

Ada Compiler Validation Summary Report: Certificate Number 94101251.11379 TISOFT, Inc. Green Hills Optimizing Ada Compileer, Version 1.8.7 with PATCK ID 1 COMPAQ ProLiiant 2000 Model 55/66 => COMPAQ ProLiant 2000 Model 5/66.
AD-A288 573/9 *01,660*

Ada Complier Validation Summary Report: Certificate Number: 940929S1.11378. Digital Equipment Corporation DEC Ada for DEC OSF/1 AXP Systems, Version 3.2; DEC 3000 Model 400 AXP Workstation => DEC 3000 Model 400 AXP Workstation.
AD-A288 574/7 *01,661*

Ada Compiler Validation Summary Report. Certificate Number 941117S1.11380. Electronic Data Systems Corp. Compiler: OC Systems Legacy Ada/370, Release 1.4.1 (without optimization).
AD-A289 895/5 *01,662*

ADA Compiler Validation Summary Report, VC Number 950303S1.11381. Digital Equipment Corporation - Compiler Name: DEC Ada for OpenVMS Alpha Systems, Version 3.2.
AD-A293 709/2 *01,663*

Ada Compiler Validation Summary Report, VC No. 950609S1.11390 Digital Equipment Corporation - Compiler Name: DEC Ada Version 3.2 for OpenVMS VAX Systems.
AD-A296 794/1 *01,664*

ADA; Category: Software Standard; Subcategory: Programming Language.
FIPS PUB 119-1 *01,667*

Validated Products List (Cobol, Fortran, ADA, Pascal, MUMPS, SQL).
PB94-937300 *01,700*

Validated Products List (Cobol, Fortran, ADA, Pascal, MUMPS, SQL).
PB95-937300 *01,738*

ADAPTERS

Single-Port Technique for Adaptor Efficiency Evaluation.
PB96-176441 *02,088*

ADENOSINE MONOPHOSPHATES

Thermochemistry of the Reactions between Adenosine, Adenosine 5'-monophosphate, Inosine, and Inosine 5'-monophosphate; the Conversion of L-histidine to (Urocanic Acid+Ammonia).
PB94-213113 *03,460*

ADHESION

Interaction of Some Coupling Agents and Organic Compounds with Hydroxyapatite: Hydrogen Bonding, Adsorption and Adhesion.
PB94-172616 *00,140*

Surface Forces and Adhesion between Dissimilar Materials Measured in Various Environments.
PB94-172970 *03,033*

Peeling a Polymer from a Surface or from a Line.
PB94-199809 *01,213*

Effects of Adhesive Thickness, Open Time, and Surface Cleanness on the Peel Strength of Adhesive-Bonded Seams of EPDM Rubber Roofing Membrane.
PB95-151338 *00,372*

Diffusion of Water along 'Closed' Mica Interfaces.
PB96-180039 *02,993*

Pressurized Internal Lenticular Cracks at Healed Mica Interfaces.
PB96-180252 *02,997*

Adhesion, Contact Electrification, and Acid-Base Properties of Surfaces.
PB96-204425 *03,693*

ADHESIVE BONDING

Clinical Perspective on Dentin Adhesives.
PB94-211240 *00,146*

Micromechanics of Fracture in Rubber-Toughened Epoxies.
PB94-212222 *03,011*

Modified Surface-Active Monomers for Adhesive Bonding to Dentin.
PB95-151163 *00,158*

Characteristics of Adhesive-Bonded Seams Sampled from EPDM Roof Membranes.
PB95-162491 *00,377*

Pulse-Echo Ultrasonic Evaluation of the Integrity of Seams of Single-Ply Roof Membranes.
PB95-163804 *00,381*

Polymerization Initiation by N-p-Tolylglycine: Free-Radical Reactions Studied by Pulse and Steady-State Radiolysis.
PB95-180014 *01,269*

New Surface-Active Comonomer for Adhesive Bonding.
PB96-204052 *03,579*

ADHESIVE TAPES

Performance of Tape-Bonded Seams of EPDM Membranes: Comparison of the Peel Creep-Rupture Response of Tape-Bonded and Liquid-Adhesive-Bonded Seams.
PB96-183249 *03,012*

ADHESIVES

Adhesion of Composites to Dentin and Enamel.
PB94-199049 *00,144*

Development of an Adhesive Bonding System.
PB94-199056 *00,145*

Modified Surface-Active Monomers for Adhesive Bonding to Dentin.
PB95-151163 *00,158*

ADIABATIC CALORIMETERS

High-Temperature Adiabatic Calorimeter for Constant-Volume Heat Capacity Measurements of Compressed Gases and Liquids.
PB95-168860 *00,989*

ADIABATIC CONDITIONS

Review of Flows Driven By Natural Convection in Adiabatic Shafts.
PB96-147897 *01,416*

ADMIXTURES

Interaction between Naphthalene Sulfonate and Silica Fume in Portland Cement Pastes.
PB94-199759 *01,315*

Study on the Reuse of Plastic Concrete Using Extended Set-Retarding Admixtures.
PB96-122130 *00,402*

Guide to a Format for Data on Chemical Admixtures in a Materials Property Database.
PB96-165394 *01,327*

Guide to a Format for Data on Chemical Admixtures in a Materials Property Database. (Reannouncement with new abstract).
PB96-186192 *01,328*

ADSORBATES

Vibrational Relaxation Measurements of Carbon Monoxide on Metal Clusters.
PB94-211810 *00,820*

Picosecond Measurement of Substrate-to-Adsorbate Energy Transfer: The Frustrated Translation of CO/Pt(111)--Translation.
PB95-126041 *00,895*

Time-Resolved Measurements of Energy Transfer at Surfaces.
PB95-141198 *00,913*

Time-Resolved Measurements of Energy Transfer at Surfaces.
PB95-153037 *00,947*

ADSORPTION

Adsorption of Low-Molecular-Weight Sodium Polyacrylate on Hydroxyapatite.
PB94-172608 *00,139*

Interaction of Some Coupling Agents and Organic Compounds with Hydroxyapatite: Hydrogen Bonding, Adsorption and Adhesion.
PB94-172616 *00,140*

Topological Influences on Polymer Adsorption and Desorption Dynamics.
PB94-212479 *01,227*

Characterization of the Adsorption-Fouling Layer Using Globular Proteins on Ultrafiltration Membranes.
PB94-212909 *00,842*

Characterization of Cytochrome c/Alkanethiolate Structures Prepared by Self-Assembly on Gold.
PB95-164638 *00,987*

Interaction of Chlorhexidine Digluconate with and Adsorption of Chlorhexidine on Hydroxyapatite.
PB95-175907 *03,566*

Water Adsorption at Polymer/Silicon Wafer Interfaces.
PB95-181178 *01,022*

Determination of Total Protein Adsorbed on Solid (Membrane) Surface by a Hydrolysis Technique: Single Protein Adsorption.
PB96-167093 *03,552*

Adsorption of Potassium N-phenylglycinate on Hydroxyapatite: Role of Solvents and Ionic Charge.
PB96-180161 *01,159*

ADV (ADVANCED DIGITAL VIDEO)

Report on the Workshop on Advanced Digital Video in the National Information Infrastructure. Held in Washington, D.C. on May 10-11, 1994.
PB95-103677 *01,472*

ADVANCED DIGITAL VIDEO

Report on the Workshop on Advanced Digital Video in the National Information Infrastructure. Held in Washington, D.C. on May 10-11, 1994.
PB95-103677 *01,472*

ADVANCED MATERIALS

NIST Workshop on Nanostructured Material (1st): Report of an Industrial Workshop Conducted by the National Institute of Standards and Technology. Held in Gaithersburg, Maryland on May 14-15, 1992.
PB94-218567 *02,973*

Control of Friction and Wear of Alpha-Alumina with a Composite Solid-Lubricant Coating.
PB95-125969 *03,225*

New Materials, Advanced Ceramics and Standards.
PB95-140208 *03,047*

Recent VAMAS Activity in Ceramics.
PB95-162681 *03,051*

Structural Ceramics Database. Topical Report, June 1989-May 1991.
PB95-203758 *03,060*

Room-Temperature Flexure Fixture for Advanced Ceramics.
PB95-210498 *03,061*

ADVANCED TECHNOLOGY

Opportunities for Innovation: Advanced Surface Engineering.
PB94-176666 *02,697*

ADVANCED TECHNOLOGY LABORATORY

Design of Technically Complex Facilities.
PB97-119101 *02,695*

AERODYNAMICS

Aerodynamic Phenomena in Stellar Atmospheres - A Bibliography.
AD-A278 521/0 *00,046*

AEROSOL GENERATORS

Experimental Optimization of Peak Shape with Application to Aerosol Generation.
PB94-185535 *00,501*

Ultrafine Combustion Aerosol Generator.
PB94-200300 *01,373*

AEROSOL SPECTROMETERS

Stochastic Modeling of a New Spectrometer.
PB96-157870 *04,068*

AEROSOLS

Global Climatic Effects of Aerosols: The AAAR Symposium.
PB95-108791 *00,122*

Radiometric Model of the Transmission Cell-Reciprocal Nephelometer.
PB95-150132 *00,124*

Controlled Nucleation in Aerosol Reactors for Supression of Agglomerate Formation.
PB95-151973 *00,672*

Measurement of the Uniformity of Particle Deposition of Filter Cassette Sampling in a Low Velocity Wind Tunnel.
PB95-163754 *02,549*

Sources of Urban Contemporary Carbon Aerosol.
PB95-175659 *02,551*

AEROSPACE

Light-Weight Alloys for Aerospace Applications II.
PB96-190244 *03,375*

AEROSPACE ENVIRONMENTS

In-Space Welding: Visions and Realities.
PB95-163234 *04,830*

AEROSPACE VEHICLES

Combustion of a Polymer (PMMA) Sphere in Microgravity.
N96-15569/2 *01,354*

AFFINITY CHROMATOGRAPHY

Affinity Chromatography on Inorganic Support Materials.
PB95-163820 *03,467*

AGAROSE

Small Angle Neutron Scattering Studies of Structural Characteristics of Argarose Gels.
PB96-112305 *03,475*

AGGLOMERATION

Controlled Nucleation in Aerosol Reactors for Supression of Agglomerate Formation.
PB95-151973 *00,672*

AGGREGATES

Digital Simulation of the Aggregate-Cement Paste Interfacial Zone in Concrete.
PB95-125993 *00,363*

AGING (MATERIALS)

Aging in Glasses Subjected to Large Stresses and Deformations.
PB95-107041 *03,235*

Suggestions for a Logically-Consistent Structure for Service Life Prediction Standards.
PB95-125795 *00,358*

Aging Effects on XRF Measurements of Solder Coatings.
PB95-140927 *03,123*

Nonstationary Behavior of Partial Discharge during Insulation Aging.
PB95-163580 *01,902*

Partial Discharge: Induced Aging of Cast Epoxies and Related Nonstationary Behavior of the Discharge Statistics.

Characterization of the Hydrogen Induced Cold Cracking Susceptibility at Simulated Weld Zones in HSLA-100 Steel.
PB94-174505 03,746

Effect of Transformation of Alloy on Transient and Residual Stresses in a Porcelain-Metal Strip.
PB94-198397 00,143

Comparison of Techniques for Nondestructive Composition Measurements in CdZnTe Substrates.
PB96-103098 02,703

Evolution Equations for Phase Separation and Ordering in Binary Alloys.
PB96-119243 02,979

Anisotropy of Interfaces in an Ordered Alloy: A Multiple-Order-Parameter Model.
PB96-131594 04,741

Characterization of the Structure of YD3 by Neutron Powder Diffraction.
PB96-186150 01,161

Charpy Impact Test as an Evaluation of 4 K Fracture Toughness.
PB96-190194 03,219

ALPHA ORIONIS STAR
Four Years of Monitoring alpha Orionis with the VLA: Where Have All the Flares Gone.
PB94-185212 00,048

GHRS Observations of Cool, Low-Gravity Stars. 1. The Far-Ultraviolet Spectrum of alpha Orions (M2 Iab).
PB96-112016 00,094

ALPHA PARTICLES
Systematics of Alpha-Particle Energy Spectra and Lineal Energy (Y) Spectra for Radon Daughters.
PB94-185139 03,615

Monte Carlo and Analytic Methods in the Transport of Electrons, Neutrons, and Alpha Particles.
PB96-111612 04,033

ALPHA SOURCES
Measurement and Calibration of Large-Area Alpha-Particle Sources at NIST.
PB94-172855 03,791

ALPHA TOXIN
Protonation Dynamics in an Ion Channel Pore.
PB96-161757 03,589

ALTERNATING CURRENT
AC-DC Difference Characteristics of High-Voltage Thermal Converters.
PB96-148093 02,083

ALTERNATING ELECTRIC FIELDS
Energy Transduction between a Concentration Gradient and an Alternating Electric Field.
PB94-216363 03,461

ALTERNATIVE REFRIGERANTS
Permeation Tube Approach to Long-Term Use of Automatic Sampler Retention Index Standards.
PB96-167291 00,639

ALTERNATIVES
Inhibition of Premixed Methane-Air Flames by Halon Alternatives.
PB96-146741 01,414

In Search of Alternative Fire Suppressants.
PB96-164165 03,285

ALUMINA
Objective Evaluation of Short-Crack Toughness Curves Using Indentation Flaws: Case Study on Alumina-Based Ceramics.
PB96-179429 03,079

Texture Measurement of Sintered Alumina Using the March-Dollase Function.
PB96-179494 04,784

Effect of Grain Size on Hertzian Contact Damage in Alumina.
PB96-179601 03,083

Indentation Fatigue: A Simple Cyclic Hertzian Test for Measuring Damage Accumulation in Polycrystalline Ceramics.
PB96-180013 03,084

Flaw-Tolerance and Crack-Resistance Properties of Alumina-Aluminum Titanate Composites with Tailored Microstructures.
PB97-110324 03,101

ALUMINIUM ALLOYS
Evaluation of the Environmentally Induced Fracture Resistance of Ductile Nickel Aluminide. Technical Report Number 1, Final report. October-December 1990.
DE94017331 03,306

Comparison of the Corrosion Rates of FeAl, Fe(sub 3)Al and Steel in Distilled Water and 0.5 M Sodium Chloride. Technical Report Number 2, January--March 1991.
DE94017332 03,186

Evaluation of the Electrochemical Behavior of Ductile Nickel Aluminide and Nickel in a pH 7.9 Solution. Technical Report Number 3, April-June 1991.
DE94017351 03,307

ALUMINIUM BASE ALLOYS
Study of Laser Resonance Ionization Mass Spectrometry Using a Glow Discharge Source.
DE94018566 03,308

ALUMINIUM OXIDES
Densification of Nano-Size Powders. 1994 Report.
DE94013486 03,027

Low temperature fabrication from nano-size ceramic powders.
DE95013505 03,029

ALUMINUM
Cryogenic Materials Data Handbook.
AD-A286 675/4 03,303

Use of Sum Rules on the Energy-Loss Function for the Evaluation of Experimental Optical Data.
PB95-150736 04,264

Ultrasonic Method for Reconstructing the Two-Dimensional Liquid-Solid Interface in Solidifying Bodies.
PB95-161782 03,349

Effect of Microstructure on Phase Formation in the Reaction of Nb/Al Multilayer Thin Films.
PB95-168415 03,352

Standard Reference Material 1744: Aluminum Freezing-Point Standard.
PB95-251732 01,055

Factors Significant to Precracking of Fracture Specimens.
PB96-109558 03,358

Electrical Characterization of Integrated Circuit Metal Line Thickness.
PB96-138433 02,414

ALUMINUM ALLOYS
Electrochemical Synthesis of Metal and Intermetallic Composites.
AD-A294 088/0 03,304

Fracture Testing of Large-Scale Thin-Sheet Aluminum Alloy.
AD-A306 625/5 *03,305*

Fracture Behavior of Large-Scale Thin-Sheet Aluminum Alloy.
N95-19494/0 *03,311*

Temperature Increases in Aluminum Alloys during Mechanical-Impact Tests for Oxygen Compatibility.
PB94-172962 *03,316*

Thermodynamic Calculation of the Ternary Ti-Al-Nb System.

Light-Weight Alloys for Aerospace Applications II.
PB96-190244 *03,375*

ALUMINUM ANTIMONY ALLOYS
Assessment of the Al-Sb System.
PB94-200474 *03,329*

ALUMINUM BASE ALLOYS
Study of Laser Resonance Ionization Mass Spectrometry Using a Glow Discharge Source.
PB96-123203 *03,360*

ALUMINUM FLUORIDES
New Rydberg States of Aluminum Monofluoride Observed by Resonance-Enhanced Multiphoton Ionization Spectroscopy.
PB94-199544 *00,797*

ALUMINUM GALLIUM ARSENIDE
Al L2,3 Core Excitons in AlxGa1-x as Studied by Soft-X-ray Reflection and Emission.
PB96-157839 *04,067*

X-ray Reflectivity Determination of Interface Roughness Correlated with Transport Properties of (AlGa)As/GaAs High Electron Mobility Transistor Devices.
PB97-111868 *04,149*

ALUMINUM GALLIUM ARSENIDES
Time-Resolved Measurements of the Polarization State of Four-Wave Mixing Signals from GaAs Multiple Quantum Wells.
PB96-201058 *04,796*

ALUMINUM GAS CYLINDERS
Stability/Instability of Gas Mixtures Containing 1,3-Butadiene in Treated Aluminum Gas Cylinders.
PB95-162285 *02,546*

ALUMINUM GRAPHITE COMPOSITES
Thermal Expansion of an SiC Particle-Reinforced Aluminum Composite.
PB94-213204 *03,144*

ALUMINUM INTERMETALLICS
Coherent Precipitates in the BCC/Orthorhombic Two Phase Field of the Ti-Al-Nb System.
PB94-198694 *03,317*

Crystallographic Characterization of Some Intermetallic Compounds in the Al-Cr System.
PB94-198702 *03,318*

ALUMINUM-LITHIUM ALLOYS
Reaction Sensitivities of Al-Li Alloys and Alloy 2219 in Mechanical-Impact Tests.
PB94-172764 *03,314*

Aluminum-Lithium Alloys: Evaluation of Fracture Toughness by Two Test Standards, ASTM Method E 813 and E 1304.
PB96-190236 *03,374*

ALUMINUM MANGANESE ALLOYS
Effect of Mn Content on the Microstructure of Al-Mn Alloys Electrodeposited at 150C.
PB95-126355 *03,343*

ALUMINUM MONOFLUORIDE
New Rydberg States of Aluminum Monofluoride Observed by Resonance-Enhanced Multiphoton Ionization Spectroscopy.
PB94-199544 *00,797*

ALUMINUM NIOBATES
Improved Crystallographic Data for Aluminum Niobate (AlNbO4).
PB95-107306 *04,523*

ALUMINUM NITRIDE
Effect of Beam Voltage on the Properties of Aluminum Nitride Prepared by Ion Beam Assisted Deposition.
PB97-118616 *01,995*

ALUMINUM OXALATE
Effects of Aluminum Oxalate/Glycine Pretreatment Solutions on Dentin Permeability.
PB95-164505 *03,565*

ALUMINUM OXIDE
Characterization of the Densification of Alumina by Multiple Small-Angle Neutron Scattering. (Reannouncement with New Availability Information).
AD-A249 179/3 *03,024*

Tribological Characteristics of Alpha-Alumina at Elevated Temperatures.
PB94-211018 *02,963*

Effect of Microstructure on the Wear Transition of Zirconia-Toughened Alumina.
PB94-211778 *03,141*

Mechanism of Mild to Severe Wear Transition in Alpha-Alumina.
PB94-212354 *03,233*

Observed and Theoretical Creep Rates for an Alumina Ceramic and a Silicon Nitride Ceramic in Flexure.
PB94-212958 *03,040*

Interface Modification and Characterization of Silicon Carbide Platelets Coated with Alumina Particles.
PB95-108734 *03,121*

Control of Friction and Wear of Alpha-Alumina with a Composite Solid-Lubricant Coating.
PB95-125969 *03,225*

Fabrication of Flaw-Tolerant Aluminum-Titanate-Reinforced Alumina.
PB95-162533 *03,161*

Wear Model for Alumina Sliding Wear.
PB95-163796 *03,239*

Dielectric Properties of Single Crystals of Al2O3, LaAlO3, SrTiO3, and MgO at Cryogenic Temperatures.
PB95-180477 *02,266*

Stability and Surface Energies of Wetted Grain Boundaries in Aluminum Oxide.
PB95-202750 *03,059*

Wear Transitions in Monolithic Alumina and Zirconia-Alumina Composites.
PB96-103163 *03,168*

ALUMINUM OXIDES
Effect of Green Density and the Role of Magnesium Oxide Additive on the Densification of Alumina Measured by Small-Angle Neutron Scattering. (Reannouncement with New Availability Information).
AD-A244 582/3 *03,022*

Evolution of the Pore Size Distribution in Final-Stage Sintering of Alumina Measured by Small-Angle X-ray Scattering. (Reannouncement with New Availability Information).
AD-A249 178/5 *03,023*

Measuring Matching Wear Scars on Balls and Flats.
PB95-151528 *03,153*

Residual Stresses in Aluminum-Mullite (alpha-Alumina) Composites.
PB95-152880 *03,155*

Flat and Rising R-Curves for Elliptical Surface Cracks from Indentation and Superposed Flexure.
PB95-161295 *03,156*

Fabrication of Transparent gamma-Al2O3 from Nanosize Particles.
PB95-175493 *03,054*

ALUMINUM TITANATE
Flaw-Tolerance and Crack-Resistance Properties of Alumina-Aluminum Titanate Composites with Tailored Microstructures.
PB97-110324 *03,101*

ALUMINUM TITANATES
Fabrication of Flaw-Tolerant Aluminum-Titanate-Reinforced Alumina.
PB95-162533 *03,161*

AMALGAM
Wear of Enamel against Glass-Ceramic, Porcelain, and Amalgam.
PB96-179593 *03,082*

AMBIENT TEMPERATURE
Ambient Temperature Synthesis of Bulk Intermetallics.
PB95-169074 *00,168*

AMERICAN ASSOCIATION OF AEROSOL RESEARCH
Global Climatic Effects of Aerosols: The AAAR Symposium.
PB95-108791 *00,122*

AMINE/N-NITROSODIMETHYL
Unusual Spin-Trap Chemistry for the Reaction of Hydroxyl Radical with the Carcinogen N-Nitrosodimethylamine.
PB95-151643 *00,692*

AMINES
New Surface-Active Comonomer for Adhesive Bonding.
PB96-204052 *03,579*

AMINO ACIDS
L-threo-beta-Hydroxyhistidine, an Unprecedented Iron(III) Ion-Binding Amino Acid in a Pyoverdine-type Siderophore from Pseudomonas fluorescens 244.
PB94-211620 *00,553*

Protonation Dynamics of the alpha-Toxin Ion Channel from Spectral Analysis of pH-Dependent Current Fluctuations.
PB96-161740 *03,652*

AMMONIA
Self Broadening in the nu1 Band of NH3.
PB94-216371 *00,857*

Photodissociation of Ammonia at 193.3nm: Rovibrational State Distribution of the NH2(A(2)A1) Fragment.
PB95-151775 *00,937*

Equilibrium and Calorimetric Investigation of the Hydrolysis of L-Tryptophan to (Indole + Pyruvate + Ammonia).
PB95-163317 *00,661*

Viscosity of Ammonia.
PB96-145933 *01,117*

AMMONIA COMPLEXES
Microwave and Submillimeter Spectroscopy of Ar-NH3 States Correlating with Ar+NH3(j=1, k=1).
PB95-152211 *00,942*

AMMONIA RADICALS
Photodissociation of Ammonia at 193.3nm: Rovibrational State Distribution of the NH2(A(2)A1) Fragment.
PB95-151775 *00,937*

AMMONIUM COMPOUNDS
Use of Kinetic Energy Distributions to Determine the Relative Contributions of Gas Phase and Surface Fragmentation in KeV Ion Sputtering of a Quaternary Ammonium Salt.
PB95-126108 *00,570*

AMMONIUM IONS
Planar Waveguide Optical Sensors.
PB94-200185 *03,586*

AMORPHOUS FERROMAGNETS
Polarization Analysis of the Magnetic Excitations in Invar and Non-Invar Amorphous Alloys.
PB94-216116 *04,516*

AMORPHOUS SILICON
Plasma Chemistry in Disilane Discharges.
PB94-211075 *02,514*

Nanoscale Study of the As-Grown Hydrogenated Amorphous Silicon Surface.
PB95-150595 *04,573*

AMORPHOUSE PHASES
Extrapolation of the Heat Capacity in Liquid and Amorphous Phases.
PB97-111421 *04,147*

AMPEROMETRIC
Novel Amperometric Immunosensor for Procainamide Employing Light Activated Labels.
PB96-163662 *00,512*

AMPERTURE AMPLITUDE DISTRIBUTION
Planar Near-Field Measurements and Microwave Holography for Measuring Aperture Distribution on a 60 GHz Active Array Antenna.
PB96-167366 *03,762*

AMPHETAMINE
Determination of Amphetamine and Methamphetamine in a Lyophilized Human Urine Reference Material.
PB95-175444 *03,597*

AMPICILLIN
Thermodynamics of the Hydrolysis of Penicillin G and Ampicillin.
PB94-172467 *03,596*

AMPLIFIER DESIGN
New 5 and 10 MHz High Isolation Distribution Amplifier.
PB96-190202 *01,510*

AMPLIFIER NOISE
Terminal Invariant Description of Amplifier Noise.
PB95-153573 *02,043*

Comparison of Three Techniques for the Precision Measurement of Amplifier Noise.
PB95-163663 *02,349*

Measurement Accuracies for Various Techniques for Measuring Amplifier Noise.
PB95-163671 *02,350*

AMPLIFIERS
Design Criteria for BJT Amplifiers with Low l/f AM and PM Noise.
PB96-200365 *02,442*

Frequency Synthesis and Metrology at 10(-17) and Beyond.
PB97-113187 *02,101*

AMPLITUDE MODULATION
Investigations of AM and PM Noise in X-Band Devices.
PB95-180022 *02,062*

Practical Standards for PM and AM Noise at 5, 10 and 100 MHz.
PB95-181129 *01,546*

Secondary Standard for PM and AM Noise at 5, 10, and 100 MHz.
PB96-123187 *01,554*

Origin of l/f PM and AM Noise in Bipolar Junction Transistor Amplifiers.
PB96-200787 *02,096*

Reducing the 1/f AM and PM Noise in Electronics for Precision Frequency Metrology.
PB97-113195 *02,102*

ANALINES
Inelastic Neutron Scattering Studies of Nonlinear Optical Materials: p-Nitroaniline Adsorbed in ALPO-5.
PB95-107223 *00,874*

ANALOG CIRCUITS
Developing Linear Error Models for Analog Devices.
PB95-150520 *02,037*

Diakoptic and Large Change Sensitivity Analysis.
PB95-150538 *02,038*

ANALOG TO DIGITAL CONVERTERS
Developing Linear Error Models for Analog Devices.
PB95-150520 *02,037*

ANALYSIS OF VARIANCE
Anova Estimates of Variance Components for a Class of Mixed Models.
PB96-141163 *03,448*

ANALYTICAL CHEMISTRY
Airborne Asbestos Method: Standard Test Method for High Precision Counting of Asbestos Collected on Filters. Version 1.0.
PB94-163003 *00,525*

Airborne Asbestos Method: Standard Test Method for Verified Analysis of Asbestos by Transmission Electron Microscopy. Version 2.0.
PB94-163045 *00,526*

Raman and Fluorescence Spectra Observed in Laser Microprobe Measurements of Several Compositions in the Ln-Ba-Cu-O System.
PB94-172210 *04,440*

Radiance Temperature (in the Wavelength Range 519-906 nm) of Tungsten at Its Melting Point by a Pulse-Heating Technique.

Concentrations of Chlorinated Hydrocarbons, Heavy Metals and Other Elements in Tissues Banked by the Alaska Marine Mammal Tissue Archival Project.
PB95-209870 *02,590*

Certification of Polychlorinated Biphenyl Congeners and Chlorinated Pesticides in a Whale Blubber Standard Reference Material.
PB96-103023 *03,745*

National Status and Trends Program Specimen Bank: Sampling Protocols, Analytical Methods, Results, and Archive Samples.
PB97-119226 *02,598*

ANIONS

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 11. NO2(+), NO2(-), and NO3(-).
AD-A275 828/2 *00,708*

Temperature Dependence of the Rate Constants for Reactions of the Sulfate Radical, SO4-, with Anions.
PB94-212172 *00,828*

Temperature Dependence of the Rate Constants for Reactions of the Carbonate Radical with Organic and Inorganic Reductants.
PB94-212206 *00,831*

ANISOLE

Thermal Decomposition of Hydroxy- and Methoxy-Substituted Anisoles.
PB94-173036 *00,767*

ANISOTROPHY

Ultrasonic Measurement of Sheet Anisotropy and Formability.
PB95-153235 *03,213*

ANISOTROPIC MATERIALS

Microwave Dielectric Properties of Anisotropic Materials at Cryogenic Temperatures.
PB96-137765 *02,412*

ANISOTROPY

Convection and Morphological Stability During Directional Solidification.
N95-14548/8 *03,310*

Anisotropic Phase Separation Kinetics in a Polymer Blend Solution Following Cessation of Shear Studied by Light Scattering.
PB95-151247 *01,241*

Anisotropy of Polarized X-ray Emission from Atoms and Molecules.
PB95-163002 *04,621*

ANISTROPY

Fluorescence Anisotropy Measurements on a Polymer Melt as a Function of Applied Shear Stress.
PB94-199296 *01,209*

Hemispherical Test Fixture for Measuring the Wavefields Generated in an Anisotropic Solid.
PB96-190087 *03,181*

Notion of a xi-Vector and a Stress Tensor for a General Class of Anisotropic Diffuse Interface Models.
PB96-193776 *04,78E*

ANNEALING

Magnetostriction and Giant Magnetoresistance in Annealed NiFe/Ag Multilayers.
PB96-102603 *04,716*

Low Magnetostriction in Annealed NiFe/Ag Giant Magnetoresistive Multilayers.
PB96-146691 *04,762*

Annealing of Bragg Gratings in Hydrogen-Loaded Optical Fiber.
PB96-155437 *04,361*

Effect of Intermediate Thermal Processing on Microstructural Changes of Oxygen Implanted Silicon-on-Insulator Material.
PB96-160213 *02,982*

Antiferromagnetic Interlayer Correlations in Annealed Ni80Fe20/Ag Multilayers.
PB97-122220 *03,109*

ANNELING

Oxygen Annealing of Ex-situ YBCO/Ag Thin-Film Interfaces.
PB96-141312 *04,758*

ANNULAR FLOW

Single-Phase Heat Transfer and Pressure Drop Characteristics of an Integral-Spine-Fin Within an Annulus.
PB94-194073 *03,805*

Single-Phase Heat Transfer and Pressure Drop Characteristics of an Integral-Spine Fin Within an Annulus.
PB97-122386 *04,179*

ANOMALOUS DISPERSIONS

Theoretical Form Factor, Attenuation and Scattering Tabulation for Z=1-92 from E=1-10 eV to E=0.4-1.0 MeV.
PB96-145594 *01,104*

ANSI/ASHRAE STANDARD 124-1991

Predicting the Energy Performance Ratings of a Family of Type I Combination Appliances.
PB95-105524 *02,504*

ANTENNA ARRAYS

Optically Linked Three-Loop Antenna System for Determining the Radiation Characteristics of an Electrically Small Source.
PB95-161915 *02,005*

ANTENNA MEASUREMENTS

Planar Near-Field Alignment.
PB94-172491 *01,998*

New Extrapolation/Spherical/Cylindrical Measurement Facility at the National Institute of Standards and Technology.
PB95-153755 *02,004*

ANTENNA RADIATION PATTERNS

Correction Factor for Nonplanar Incident Field in Monopole Calibrations.
PB95-108643 *02,002*

ANTENNAS

Standard Probes for Electromagnetic Field Measurements.
PB94-185436 *01,999*

Planar Near-Field Measurements of Low-Sidelobe Antennas.
PB94-219235 *02,001*

Dual Frequency mm-Wave Radiometer Antenna for Airborne Remote Sensing of Atmosphere and Ocean.
PB95-180378 *02,006*

Standard Antennas for Electromagnetic Interference Measurements and Methods to Calibrate Them.
PB96-102561 *02,007*

Dual-Frequency Millimeter-Wave Radiometer Antenna for Airborne Remote Sensing of Atmosphere and Ocean.
PB96-112289 *02,009*

Comparison of k-Correction and Taylor-Series Correction for Probe-Position Errors in Planar Near-Field Scanning.
PB96-147137 *02,012*

Standard Source Method for Reducing Antenna Factor Errors in Shielded Room Measurements.
PB96-183157 *02,013*

Methodology for Electromagnetic Interference Measurements.
PB96-200126 *02,014*

Comparison of Ultralow-Sidelobe-Antenna Far-Field Patterns Using the Planar-Near-Field Method and the Far-Field Method.
PB96-200373 *02,015*

General Order 'N' Analytic Correction of Probe-Position Errors in Planar Near-Field Measurements.
PB96-200688 *01,562*

Novel Hot-Electron Microbolometer.
PB96-201025 *01,977*

ANTHROPOMETRY

Bibliography on Apparel Sizing and Related Issues.
PB94-161924 *02,806*

Body Dimensions for Apparel.
PB94-187739 *02,813*

ANTIFERROMAGNETIC COUPLING

Magnetic Structure Determination for Annealed Ni80Fe20/Ag Multilayers Using Polarized-Neutron Reflectivity.
PB96-176615 *03,739*

ANTIFERROMAGNETIC MATERIALS

Comment on 'Phase Transitions in Antiferromagnetic Superlattices'.
PB95-152971 *04,587*

ANTIFERROMAGNETICS

Antiferromagnetic Interlayer Correlations in Annealed Ni80Fe20/Ag Multilayers.
PB97-122220 *03,109*

ANTIFERROMAGNETISM

Concurrent Enhancement of Kerr Rotation and Antiferromagnetic Coupling in Epitaxial Fe/Cu/Fe Structures.
PB94-198769 *04,466*

ANTIMONY
Epitaxial Growth of Sb/GaSb Structures: An Example of V/III-V Heteroepitaxy.
PB95-202560 *04,693*

ANTIMONY CLUSTERS
Photoelectron Spectroscopy of Small Antimony Cluster Anions: Sb(-), Sb2(-), Sb3(-), and Sb4(-).
PB95-203139 *01,045*

ANTITHROMBIN III
Thermodynamic Analysis of Heparin Binding to Human Antithrombin.
PB94-199593 *03,455*

ANTIVIRAL AGENTS
Radiation Chemistry of Cyanine Dyes: Oxidation and Reduction of Merocyanine 540.
PB94-211661 *00,818*

APATITE/HYDROXY
Effect of Ethanol on the Solubility of Hydroxyapatite in the System Ca(OH)2-H3PO4-H2O at 25C and 33C.
PB95-169231 *00,169*

APATITES
Effect of Supersaturation on Apatite Crystal Formation in Aqueous Solutions at Physiologic pH and Temperature.
PB96-135215 *03,571*

APDE (APPLICATION PROTOCOL DEVELOPMENT ENVIRONMENT)
APDE Demonstration System Architecture. National PDES Testbed Report Series.
PB94-154325 *02,767*

APERTURES
Aperture Excitation of Electrically Large, Lossy Cavities.
PB94-145711 *00,029*

Aperture Excitation of Electrically Large, Lossy Cavities.
PB95-175675 *00,031*

High Accuracy Measurement of Aperture Area Relative to a Standard Known Aperture.
PB95-261954 *01,919*

Third Generation Water Bath Based Blackbody Source.
PB96-122148 *04,046*

APPAREL CLOTHING
Survey of Standards for the U.S. Fiber/Textile/Apparel Industry.
PB96-193792 *03,199*

APPEARANCE POTENTIAL
Appearance Potentials of Ions Produced by Electron-Impact Induced Dissociative Ionization of SF6, SF4, SF5Cl, S2F10, SO2, SO2F2, SOF2, and SOF4.
PB96-119730 *01,080*

APPLICATION PORTABILITY PROFILE
Application Portability Profile (APP): The U.S. Government's Open System Environment Profile Version 3.0.
PB96-158712 *01,753*

APPLICATION PROGRAMS (COMPUTERS)
User Interface Component of the Applications Portability Profile Category: Software Standard; Subcategory: Application Program Interface.
FIPS PUB 158-1 *01,793*

APPLICATION PROTOCOLS
APDE Demonstration System Architecture. National PDES Testbed Report Series.
PB94-154325 *02,767*

Extensions of the Prototype Application Protocol of Ready-to-Wear Apparel Pattern Making.
PB96-128194 *03,198*

APPLICATION SPECIFIC INTEGRATED CIRCUITS
Custom Integrated Circuit Comparator for High-Performance Sampling Applications.
PB94-213147 *02,320*

APPLICATIONS PROGRAMS (COMPUTERS)
Open System Environments.
N94-36857/8 *01,674*

Associated Object Model for Distributed Systems.
PB94-212016 *01,694*

Security in Open Systems.
PB95-105383 *01,473*

APPLIED MATHEMATICS
Computer Systems Laboratory Computing and Applied Mathematics Laboratory Technical Accomplishments, October 1994-March 1996.
PB96-193768 *01,638*

APPROXIMATION
Higher-Order Approximations in Ionospheric Wave-Propagation.
AD-A292 471/0 *04,420*

APS (APPLICATION PROTOCOLS)
Issues and Recommendations for a STEP Application Protocol Framework. National PDES Testbed.
PB94-160868 *02,770*

AQEOUS SPECIES
Summary of the Apparent Standard Partial Molal Gibbs Free Energies of Formation of Aqueous Species, Minerals, and Gases at Pressures 1 to 5000 Bars and Temperatures 25 to 1000C.
PB96-145891 *01,113*

AQUEOUS ELECTROLYTES
Absolute Determination of Electrolytic Conductivity for Primary Standard KC1 Solutions from 0 to 50C.
PB94-172798 *00,765*

AQUEOUS IRON
Thermodynamic Properties of the Aqueous Ions (2+ and 3+) of Iron and the Key Compounds of Iron.
PB96-145958 *01,119*

AQUEOUS PHASE
Free Radical Chemistry of the Atmospheric Aqueous Phase.
PB96-148101 *00,117*

AQUEOUS SOLUTIONS
Apparent Molar Heat Capacities and Apparent Molar Volumes of Aqueous Glucose at Temperatures from 298.15 K to 327.01 K.
PB94-212800 *03,459*

Two Phase Aqueous Extraction: Rheological Properties of Dextran, Polyethylene Glycol, Bovine Serum Albumin and Their Mixtures.
PB95-161998 *00,676*

Standard States, Reference States and Finite-Concentration Effects in Near-Critical Mixtures with Applications to Aqueous Solutions.
PB95-164349 *00,979*

Critical Lines for Type-III Aqueous Mixtures by Generalized Corresponding-States Models.
PB96-102371 *01,063*

Significant Contributions of IAPWS to the Power Industry, Science and Technology.
PB96-123252 *01,088*

Critical Review of Rate Constants for Reactions of Transients from Metal Ions and Metal Complexes in Aqueous Solution.
PB96-145859 *01,109*

System for Intercomparing Standard Solutions of Beta-Particle Emitting Radionuclides.
PB96-159637 *03,707*

ARC DISCHARGES
Decomposition of SF6 and Production of S2F10 in Power Arcs.
PB96-122619 *01,084*

ARC MODELS
Mathematical Models of Transport Phenomena Associated with Arc-Welding Processes: A Survey.
PB96-135058 *02,870*

ARC SPECTRA
Arc Spectra of Gallium, Indium, and Thallium.
AD-A295 411/3 *00,718*

ARC WELDING
Status Report: AWS Standards for Identifying Arc Welds (A91.1) and Recording Weld Data (A9.2).
PB95-162855 *02,861*

Through-the-Arc Sensing for Measuring Gas Metal Arc Weld Quality in Real Time.
PB95-164463 *02,908*

ARCHIE
Using Archie to Find Files on the INTERNET.
PB95-168605 *02,727*

ARCHITECTURE (COMPUTERS)
Overview of NASREM: The NASA/NBS Standard Reference Model for Telerobot Control System Architecture.
PB94-194560 *04,831*

AREA
High Accuracy Measurement of Aperture Area Relative to a Standard Known Aperture.
PB95-261954 *01,919*

ARGININE
Thermochemistry of the Hydrolysis of L-arginine to (L-citrulline + Ammonia) and of the Hydrolysis of L-arginine to (L-ornithine + Urea).
PB95-150801 *03,463*

ARGON
Measurement of the Thermal Properties of Electrically Conducting Fluids Using Coated Transient Hot Wires.
DE94017816 *00,722*

Absorption of Sound in Gases between 10 and 25 MHz: Argon.
PB94-199015 *04,183*

Atomic Transition Probability Ratios between Some Ar I 4s-4p and 4s-5p Transitions.
PB94-211554 *03,842*

Ion Broadening Parameters for Several Argon and Carbon Lines.
PB94-211562 *03,843*

Intermolecular HF Motion in Ar(sub n)HF Micromatrices (n=1,2,3,4,): Classical and Quantum Calculations on a Pairwise Additive Potential Surface.
PB95-107025 *03,871*

Vibration, Rotation, and Parity Specific Predissociation Dynamics in Asymmetric OH Stretch Excited ArH2O: A Half Collision Study of Resonant V-V Energy Transfer in a Weakly Bound Complex.
PB95-107140 *00,872*

Interatomic Potential of Argon.
PB95-141180 *00,912*

Interatomic Potential of Argon.
PB95-152989 *00,945*

Electrical Sensors for Monitoring rf Plasma Sheaths.
PB95-162962 *04,412*

Energy Dependences of Absorption in Beryllium Windows and Argon Gas.
PB96-102124 *04,020*

Ion Kinetics and Symmetric Charge-Transfer Collisions in Low-Current, Diffuse (Townsend) Discharges in Argon and Nitrogen.
PB96-123658 *04,051*

Absence of Quantum-Mechanical Effects on the Mobility of Argon Ions in Helium Gas at 4.35 K.
PB97-122543 *01,194*

ARGON COMPLEXES
Infrared and Microwave Spectroscopy of the Argon - Propyne Dimer.
PB94-198892 *00,794*

High-Resolution Infrared Overtone Spectroscopy of ArHF via Nd:YAG/Dye Laser Difference Frequency Generation.
PB94-211448 *00,816*

Spectroscopic Puzzle in ArHF Solved: The Test of a New Potential.
PB94-216058 *00,850*

Microwave and Submillimeter Spectroscopy of Ar-NH3 States Correlating with Ar+NH3(j=1, k=1).
PB95-152211 *00,942*

Vibrational Dependence of the Anisotropic Intermolecular Potential of Ar-HCl.
PB95-202685 *01,029*

Vibrational Dependence of the Anisotropic Intermolecular Potential of Ar-HF.
PB95-202693 *01,030*

Slit-Jet Near-Infrared Spectroscopy and Internal Rotor Dynamics of the ArH2O van der Waals Complex: An Angular Potential-Energy Surface for Internal H2O Rotation.
PB95-202792 *01,033*

Photodissociation Dynamics in Quantum State-Selected Clusters: A Test of the One-Atom Cage Effect in Ar-H2O.
PB95-203121 *01,044*

ARGON HYDRIDES
Ion Kinetic-Energy Distributions in Argon rf Glow Discharges.
PB95-141008 *04,409*

ARGON IONS
Determination of Atomic Data Pertinent to the Fusion Energy Program. Progress Report for FY 92.
DE94004400 *04,402*

Backscattering in Electron-Impact Excitation of Multiply Charged Ions.
PB94-185345 *03,799*

Use of an Ion Energy Analyzer: Mass Spectrometer to Measure Ion Kinetic-Energy Distributions from RF Discharges in Argon-Helium Gas Mixtures.
PB94-185717 *04,406*

Evidence for Significant Backscattering in Near-Threshold Electron-Impact Excitation of Ar(7+)(3s yields 3p).
PB95-126405 *03,883*

Ion Kinetic-Energy Distributions in Argon rf Glow Discharges.
PB95-141008 *04,409*

Kinetic-Energy Distributions of Ions Sampled from Argon Plasmas in a Parallel-Plate, Radio-Frequency Reference Call.
PB95-161964 *03,935*

Ion Kinetic-Energy Distributions and Balmer-alpha (Halpha) Excitation in Ar-H2 Radio-Frequency Discharges.
PB96-102959 *04,029*

ARGON PLASMA
Electrical Characterization of Radio-Frequency Discharges in the Gaseous Electronics Conference Reference Call.
PB95-164612 *01,905*

ARITHMETIC UNITS
MasPar MP-1 as a Computer Arithmetic Laboratory.
PB95-189437 *01,627*

AROMATIC COMPOUNDS
Detection of Aromatic Compounds Based on DNA Intercalation Using an Evanescent Wave Biosensor.
PB96-111976 *03,473*

AROMATIC POLYCYCLIC HYDROCARBONS
Shape Selectivity in Reversed-Phase Liquid Chromatography for the Separation of Planar and Non-Planar Solutes.
PB95-162608 *00,596*

ARRAYS
Step-Edge and Stacked-Heterostructure High-Tc Josephson Junctions for Voltage-Standard Arrays.
PB96-102066 *04,702*

Direct Observation of Vortex Dynamics in Two-Dimensional Josephson-Junction Arrays.
PB96-102223 *02,067*

Stable Phase Locking in a Two-Cell Ladder Array of Josephson Junctions.
PB96-111679 *04,722*

Performance and Reliability of NIST 10-V Josephson Arrays.
PB96-148051 *02,419*

Novel Vortex Dynamics in Two-Dimensional Josephson Arrays.
PB96-200167 *02,091*

Superconductor- Normal-Superconductor Junctions for Programmable Voltage Standards.
PB96-200241 *02,093*

Design of High-Frequency, High-Power Oscillators Using Josephson-Junction Arrays.
PB96-200258 02,094

High-Power, High-Frequency Oscillators Using Distributed Josephson-Junction Arrays.
PB96-200266 02,095

High Power Generation with Distributed Josephson-Junction Arrays.
PB97-111520 02,099

ARSENIC

Vibrational Distributions of As2 in the Cracking of As4 on Si(100) and Si(111).
PB94-198314 00,784

Single-Photon Ionization and Detection of Ga, In, and As(sub n) Species in GaAs Growth.
PB95-152815 00,591

In-situ Monitoring of Molecular Beam Epitaxial Growth Using Single Photon Ionization.
PB95-202222 01,023

Direct Detection of Atomic Arsenic Desorption from Si(100).
PB95-202230 01,024

Single-Photon Laser Ionization Time-of-Flight Mass Spectroscopy Detection in Molecular-Beam Epitaxy: Application to As4, As2, and Ga.
PB95-203337 01,052

ARTIFICIAL INTELLIGENCE

Intelligent Processing of Materials, Technical Activities 1993 (NAS-NRC Assessment Panel, April 21-22, 1994).
PB94-164183 02,809

Hierarchical Interaction between Sensory Processing and World Modeling in Intelligent Systems.
PB94-198256 01,580

Role of World Modeling and Value Judgment in Perception.
PB94-198264 01,581

Theory of Intelligent Systems.
PB94-198272 01,582

Intelligent Control for Multiple Autonomous Undersea Vehicles.
PB94-211877 03,747

Publications of the Intelligent Systems Division (Previously Robot Systems Division) Covering the Period January 1971-April 1994.
PB94-217098 02,935

Intelligent Control of an Inert Gas Atomization Process.
PB95-141057 03,344

Reference Model Architecture for Intelligent Systems Design.
PB95-143137 01,789

Exposure: An Expert System Fire Code.
PB95-162913 04,868

Unified Telerobotic Architecture Project (UTAP) Standard Interface Environment (SIE), May 1995.
PB95-242350 02,938

Intelligent Processing of Materials, Technical Activities 1994 (NAS-NRC Assessment Panel, April 6-7, 1995).
PB96-115050 03,359

ARTIFICIAL MEMBRANES

Determination of Osmotic Pressure and Fouling Resistances and Their Effects on Performance of Ultrafiltration Membranes.
PB94-212891 00,841

Characterization of the Adsorption-Fouling Layer Using Globular Proteins on Ultrafiltration Membranes.
PB94-212909 00,842

Supported Phospholipid/Alkanthiol Biomimetic Membranes: Insulating Properties.
PB95-180782 03,470

Phospholipid/Alkanethiol Bilayers for Cell-Surface Receptor Studies by Surface Plasmon Resonance.
PB96-102900 03,472

ARTIFICIAL SATELLITES

Frozen Orbits for Satellites Close to an Earth-Like Planet.
PB96-102165 04,839

ARTIFICIAL SUPERLATTICES

Magnetic Rare Earth Artificial Metallic Superlattices.
PB95-162293 04,611

ARYL ETHERS

Thermal Decomposition of Hydroxy- and Methoxy-Substituted Anisoles.
PB94-173036 00,767

ASBESTOS

Airborne Asbestos Method: Standard Test Method for High Precision Counting of Asbestos Collected on Filters. Version 1.0.
PB94-163003 00,525

Airborne Asbestos Method: Standard Test Method for Verified Analysis of Asbestos by Transmission Electron Microscopy. Version 2.0.
PB94-163045 00,526

Proficiency Tests for the NIST Airborne Asbestos Program, 1990.
PB94-188836 00,535

Proficiency Tests for the NIST Airborne Asbestos Program - 1991.
PB94-193828 00,537

Proficiency Tests for the NIST Airborne Asbestos Program - 1992.
PB94-194362 00,539

Airborne Asbestos Method: Standard Practice for Recording Transmission Electron Microscopy Data for the Analysis of Asbestos Collected onto Filters. Version 1.0.
PB94-210168 00,552

National Voluntary Laboratory Accreditation Program: Bulk Asbestos Analysis.
PB95-138129 02,541

Guidelines for Refractive Index Measurements of Asbestos.
PB95-151189 02,543

Proficiency Tests for the NIST Airborne Asbestos Program, 1993.
PB96-106463 00,610

Airborne Asbestos Analysis: National Voluntary Laboratory Accreditation Program.
PB96-147392 02,566

Airborne Asbestos Method: Bootstrap Method for Determining the Uncertainty of Asbestos Concentration. Version 1.0.
PB96-214614 00,646

ASCORBIC ACID

Temperature Dependence of the Rate Constants for Reaction of Inorganic Radicals with Organic Reductants.
PB94-198280 00,783

Ascorbic and Dehydroascorbic Acids Measured in Plasma Preserved with Dithiothreitol or Metaphorphoric Acid.
PB94-216330 03,495

Measurement of Ascorbic Acid in Human Plasma and Serum: Stability, Intralaboratory Repeatability, and Interlaboratory Reproducibility.
PB97-112445 03,511

ASHRAE STANDARD 62-1989

Ventilation, Carbon Dioxide and ASHRAE Standard 62-1989.
PB95-162095 02,544

ASPERGILLUS FUMIGATUS

Rapid Method for the Isolation of Genomic DNA from 'Aspergillus fumigatus'.
PB96-147061 03,488

ASPERITY

Asperity-Asperity Contact Mechanisms Simulated by a Two-Ball Collision Apparatus.
PB95-164158 02,966

ASPHALT PAVEMENTS

Development of a Method for Measuring Water-Stripping Resistance of Asphalt/Siliceous Aggregate Mixtures.
PB96-202296 01,329

ASSIGNMENT MODELS

Moments of the Quartic Assignment Statistic with an Application to Multiple Regression.
PB95-181103 03,442

ASSOCIATIVE IONIZATION

Ultracold Collisions: Associative Ionization in a Laser Trap.
PB94-213238 03,859

ASTM STP 1199

Introduction to ASTM 1199 'Wear Test Selection for Design and Application'.
PB95-162517 03,238

ASTRONOMICAL SATELLITES

FUSE: The Far Ultraviolet Spectrograph Explorer.
PB94-213410 00,063

ASTROPHYSICS

Papers on the Symposium on Collision Phenomena in Astrophysics, Geophysics, and Masers.
AD-A280 291/6 00,047

ASYMMETRY PARAMETERS

Vibrationally Resolved Photoelectron Angular Distributions and Branching Ratios for the Carbon Dioxide Molecule in the Wavelength Region 685-795 Angstrom.
PB96-201207 04,131

ASYNCHRONOUS TRANSFER MODE

Asynchronous Transfer Mode Procurement and Usage Guide.
PB95-174967 01,481

NIST ATM Network Simulator: Operation and Programming, Version 1.0.
PB96-106851 01,487

Strategy to Support Multipoint Communication Service Over Native ATM Service.
PB96-176672 01,507

ATAXIA TELANGIECTASIA

Modification of Deoxyribose-Phosphate Residues by Extracts of Ataxia Telangiectasia Cells.
PB94-212602 03,458

ATM (ASYNCHRONOUS TRANSFER MODE)

Asynchronous Transfer Mode Procurement and Usage Guide.
PB95-174967 01,481

NIST ATM Network Simulator: Operation and Programming, Version 1.0.
PB96-106851 01,487

Strategy to Support Multipoint Communication Service Over Native ATM Service.
PB96-176672 01,507

ATMOSPHERIC CHEMISTRY

Thermodynamic Properties of Gas Phase Species of Importance to Ozone Depletion.
PB94-198215 00,126

Atmospheric Reactivity of alpha-Methyl-Tetrahydrofuran.
PB95-163705 02,548

Atmospheric Lifetimes of HFC-143a and HFC-245fa: Flash Photolysis Resonance Fluorescence Measurements of the OH Reaction Rate Constants.
PB97-112577 00,118

Kinetics of the Reaction of the Sulfate Radical with the Oxalate Anion.
PB97-119127 01,186

ATMOSPHERIC DIFFUSION

Smoke Plume Trajectory from In situ Burning of Crude Oil: Field Experiments.
PB96-200993 02,597

ATMOSPHERIC SCATTERING

Radiometric Model of the Transmission Cell-Reciprocal Nephelometer.
PB95-150132 00,124

ATMOSPHERIC TEMPERATURE

Modulation of Fossil Fuel Production by Global Temperature Variations, 2.
PB94-146636 02,533

ATOM-ATOM COLLISIONS

Intersystem Crossing in Collisions of Aligned Ca(4s5p (1)P) + He: A Half Collision Analysis Using Multichannel Quantum Defect Theory.
PB94-211133 00,813

Astrophysical Aspects of Neutral Atom Line Broadening.
PB94-213287 00,061

Associative Ionization in Collisions of Slowed and Trapped Sodium.
PB95-125886 03,880

Hydrogen Balmer Alpha Line Shapes for Hydrogen-Argon Mixtures in a Low-Pressure rf Discharge.
PB95-153433 03,924

Three-Vector Correlation Study of Orientation and Coherence Effects in Na(3p, (2)P1/2 inversely maps (2)P3/2)+He: Semiclassical and Quantum Calculations.
PB95-202453 03,979

Laser Preparation and Probing of Initial and Final Orbital Alignment in Collision-Induced Energy Transfer Ca(4s5p,(1)P1) + He yields Ca(4s5p,(3)P2) + He.
PB95-203261 04,003

Initial and Final Orbital Alignment Probing of the Fine-Structure-Changing Collisions among the Ca (4s)(1)(4p)(1), (3)PJ States with He: Determination of Coherence and Conventional Cross-Sections.
PB95-203279 04,004

ATOM COOLING

sigma+-sigma- Optical Molasses in a Longitudinal Magnetic Field.
PB95-161840 03,934

ATOM LITHOGRAPHY

Nanofabrication of a Two-Dimensional Array Using Laser-Focused Atomic Deposition.
PB96-119417 04,732

Microlithography by Using Neutral Metastable Atoms and Self-Assembled Monolayers.
PB96-190038 02,441

ATOM-MOLECULE COLLISIONS

Collision-Induced Emission in the Fundamental Vibration-Rotation Band of H2.
PB94-199445 03,811

Vibrational Energy Transfer in S1 p-Difluorobenzene. A Comparison of Low and Room Temperature Collisions.
PB95-108619 00,883

Preferential In-Plane Rotational Excitation of H2O (001) by Translational-to-Vibrational Transfer from 2.2 eV H Atoms.
PB95-202875 01,035

ATOM OPTICS

Laser-Focused Atomic Deposition.
PB95-161618 04,604

Using Atom Optics to Fabricate Nanostructures.
PB96-141247 04,757

ATOM PROBES

Performance of a Reflectron Energy Compensating Mirror.
PB94-199460 00,547

ATOM RADICAL REACTIONS

Laser Flash Photolysis, Time-Resolved Fourier Transform Infrared Emission Study of the Reaction Cl + C2H5 yields HCl(v) + C2H4.
PB95-203238 01,049

ATOM TRAPS

Localization of Atoms in a Three-Dimensional Standing Wave.
PB95-163887 03,944

Reduction of Light-Assisted Collisional Loss Rate from a Low-Pressure Vapor-Cell Trap.
PB95-202248 03,971

Numerical Solution of the Nonlinear Schroedinger Equation for Small Samples of Trapped Neutral Atoms.
PB95-202578 03,985

Probing Bose-Einstein Condensed Atoms with Short Laser Pulses.
PB95-202818 03,991

Behavior of Atoms in a Compressed Magneto-Optical Trap.
PB95-203105 *03,999*

Improved Hyperfine Measurements of the Na NP Excited State Through Frequency-Controlled Dopplerless Spectroscopy in a Zeeman Magneto-Optic Laser Trap.
PB95-203840 *04,012*

Comment on <<A Dynamic Electric Trap for Ground-State Atoms>>.
PB96-200290 *04,123*

ATOMIC ABSORPTION

Application of a Novel Slurry Furnace AAS Protocol for Rapid Assessment of Lead Environmental Contamination.
PB96-112354 *02,526*

ATOMIC BEAMS

Atomic Beam Splitters and Mirrors by Adiabatic Passage in Multilevel Systems.
PB94-216439 *03,867*

Laser Focusing of Atoms: A Particle Optics Approach.
PB94-216660 *03,870*

Velocity Distribution of Atomic Beams by Gated Optical Pumping.
PB95-180519 *01,542*

Nanofabrication of a Two-Dimensional Array Using Laser-Focused Atomic Deposition.
PB96-119417 *04,732*

ATOMIC CLOCKS

Utc Dissemination to the Real-Time User.
N19960042622 *01,521*

Confidence on the Three-Point Estimator of Frequency Drift.
PB95-163838 *01,539*

Non-Neutral Ion Plasmas and Crystals, Laser Cooling, and Atomic Clocks.
PB95-175113 *03,957*

Time and Frequency: Bibliography of NIST Publications, March 1995.
PB95-220463 *01,548*

Accurate Measurement of Time.
PB96-119482 *01,552*

Atomic Clock.
PB96-119490 *01,553*

ATOMIC CLUSTERS

Photoelectron Spectroscopy of Negatively Charged Bismuth Clusters: Bi(-)2, Bi(-)3, and Bi(-)4.
PB95-108494 *00,880*

Photoelectron Spectroscopy of Small Antimony Cluster Anions: Sb(-), Sb2(-), Sb3(-), and Sb4(-).
PB95-203139 *01,045*

ATOMIC COLLISIONS

Three-Vector Correlation Theory for Orientation/Alignment Studies in Atomic and Molecular Collisions.
PB94-211109 *03,834*

Intersystem Crossing in Collisions of Aligned Ca(4s5p (1)P) + He: A Half Collision Analysis Using Multichannel Quantum Defect Theory.
PB94-211133 *00,813*

Theory of Atomic Collisions at Ultracold Temperatures.
PB94-212560 *03,851*

Associative Ionization in Collisions of Slowed and Trapped Sodium.
PB95-125886 *03,880*

Hyperfine Effects and Associative Ionization of Ultracold Sodium.
PB95-151221 *03,903*

Laser Assisted Collisions at Ultracold Temperatures.
PB95-161220 *03,929*

Three-Vèctor Correlation Study of Orientation and Coherence Effects in Na(3p, (2)P1/2 inversely maps (2)P3/2)+He: Semiclassical and Quantum Calculations.
PB95-202453 *03,979*

n-Vector Correlations in Collision Dynamics with Atomic Orbital Alignment: The Importance of Coherence Denoting Azimuthal Structure for n (greater than or equal to) 3.
PB95-202545 *03,983*

Collisional Energy Transfer between Excited-State Strontium and Noble-Gas Atoms.
PB95-202958 *03,995*

Energy-Pooling Collisions in Barium.
PB95-203030 *03,997*

Laser Preparation and Probing of Initial and Final Orbital Alignment in Collision-Induced Energy Transfer Ca(4s5p,(1)P1) + He yields Ca(4s5p,(3)P2) + He.
PB95-203261 *04,003*

Initial and Final Orbital Alignment Probing of the Fine-Structure-Changing Collisions among the Ca (4s)(1)(4p)(1), (3)PJ States with He: Determination of Coherence and Conventional Cross-Sections.
PB95-203279 *04,004*

Orbital Alignment and Vector Correlations in Inelastic Atomic Collisions.
PB96-122742 *04,047*

Atom Cooling and Trapping, and Collisions of Trapped Atoms.
PB96-122916 *04,048*

Laser Modification of Ultracold Collisions: Experiment.
PB96-157987 *04,075*

ATOMIC DATA

Spectral Data for Highly Ionized Krypton, Kr V through Kr XXXVI.
PB96-145917 *01,115*

Resonance Ionization Spectroscopy/Resonance Ionization Mass Spectrometry Data Service. V-Data Sheets for Ga, Mn, Sc, and Tl.
PB96-158068 *00,625*

ATOMIC DEPOSITION

Nanostructure Fabrication via Laser-Focused Atomic Deposition (Invited).
PB96-204094 *04,132*

ATOMIC ENERGY LEVELS

Atomic Energy Levels As Derived from the Analyses of Optical Spectra. Volume 1. Section 1. The Spectra of Hydrogen, Deuterium, Helium, Lithium Beryllium, Boron, Carbon, Nitrogen, Oxygen, and Fluorine.
AD-A278 130/0 *03,764*

Atomic Energy Levels in Crystals.
AD-A280 150/4 *04,431*

Atomic Energy Levels. As Derived From the Analyses of Optical Spectra. Volume 3.
AD-A280 279/1 *00,714*

Wavelengths and Energy Levels of Neutral Kr(84) and Level Shifts in All Kr Even Isotopes.
PB94-140605 *03,780*

Energy Levels of Germanium, Ge I through Ge XXXII.
PB94-162351 *00,747*

Spectrum and Energy Levels of Five-Times-Ionized Niobium (Nb VI).
PB94-185246 *04,226*

Spectrum and Energy Levels of Triply Ionized Barium (Ba IV).
PB95-140877 *03,888*

Precision Lifetime Measurements of Cs 6p (2)P1/2 and 6p (2)P3/2 Levels by Single-Photon Counting.
PB95-203816 *04,010*

Designations of ds(2)p Energy Levels in Neutral Zirconium, Hafnium, and Rutherfordium (Z=104).
PB96-180120 *04,116*

ATOMIC FLUIDS

Conditions for Existence of a Reentrant Solid Phase in a Sheared Atomic Fluid.
PB94-211380 *04,198*

ATOMIC FORCE MICROSCOPES

Development of a Calibrated Atomic Force Microscope.
PB94-185683 *02,894*

Increasing the Value of Atomic Force Microscopy Process Metrology Using a High-Accuracy Scanner, Tip Characterization, and Morphological Image Analysis.
PB96-190293 *02,758*

Scanned Probe Microscope Tip Characterization Without Calibrated Tip Characterizers.
PB96-190368 *02,759*

ATOMIC FORCE MICROSCOPY

Force Calibrations in the Nanonewton Regime.
PB95-168696 *03,949*

Flexible-Diaphragm Force Microscope.
PB95-180915 *03,966*

Morphological Estimation of Tip Geometry for Scanned Probe Microscopy.
PB95-203444 *02,662*

Recent Results in Magnetic Force Microscopy.
PB96-103130 *04,721*

Effects of Etching on the Morphology and Surface Resistance of YBa2Cu3O7-delta Films.
PB96-135355 *02,410*

Development of Highly Conductive Cantilevers for Atomic Force Microscopy Point Contact Measurements.
PB96-138573 *04,751*

ATOMIC FOUNTAIN

Laser-Cooled Neutral Atom Frequency Standards.
PB96-160312 *04,086*

ATOMIC INTERACTIONS

Measurement of the Atomic Na(3P) Lifetime and of Retardation in the Interaction between Two Atoms Bound in a Molecule.
PB97-122360 *04,178*

ATOMIC IONS

Early Dielectronic Recombination Measurements: Singly Charged Ions.
PB94-211158 *03,836*

Bonding in Doubly Charged Diatomics.
PB95-164315 *00,976*

ATOMIC MANIPULATION

Nanostructure Fabrication via Direct Writing with Atoms Focused in Laser Fields.
PB95-150272 *04,564*

Atomic Manipulation of Polarizable Atoms by Electric Field Directional Diffusion.
PB95-150587 *04,572*

Manipulation of Adsorbed Atoms and Creation of New Structures on Room-Temperature Surfaces with a Scanning Tunneling Microscope.
PB95-151536 *04,578*

ATOMIC MASS

New Values for Silicon Reference Materials, Certified for Isotope Abundance Ratios. Letter to the Editor.
PB94-219268 *00,863*

ATOMIC & MOLECULAR STUDIES

Production and Spectroscopy of Small Polyatomic Molecular Ions Isolated in Solid Neon. (Reannouncement with New Availability Information).
AD-A234 043/8 *00,704*

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 6. CO4(-). (Reannouncement with New Availability Information).
AD-A238 415/4 *00,705*

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 7. CO(+), C2O2(+), and C2O2(-). (Reannouncement with New Availability Information).
AD-A239 729/7 *00,706*

Vibrational Spectra of Molecular Ions Isolated in Solid Neon: HCCH+ and HCC-. (Reannouncement with New Availability Information).
AD-A253 551/6 *00,707*

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 11. NO2(+), NO2(-), and NO3(-).
AD-A275 828/2 *00,708*

Atomic Energy Levels As Derived from the Analyses of Optical Spectra. Volume 1. Section 1. The Spectra of Hydrogen, Deuterium, Helium, Lithium Beryllium, Boron, Carbon, Nitrogen, Oxygen, and Fluorine.
AD-A278 130/0 *03,764*

Ultraviolet Multiplet Table. Finding List for Spectra of the Elements Molybdenum to Lanthanum (Z = 42 to 57); Hafnium to Radium (Z = 72 to 88).
AD-A278 131/8 *00,709*

Atomic Energy Levels in Crystals.
AD-A280 150/4 *04,431*

Arc Spectra of Gallium, Indium, and Thallium.
AD-A295 411/3 *00,718*

Infrared and Near-Infrared Spectra of HCC and DCC Trapped in Solid Neon.
AD-A295 578/9 *03,773*

Thermal Decomposition Pathways in Nitramine Propellants.
AD-A295 896/5 *03,753*

Spectroscopic Study of Reaction Intermediates and Mechanisms in Nitramine Decomposition and Combustion.
AD-A296 061/5 *03,774*

Microwave Spectrum and Structure of CH3NO2-H20.
AD-A296 377/5 *00,719*

Molecular Microwave Spectra Tables.
AD-A296 498/9 *00,720*

Physical Properties of Some Purified Aliphatic Hydrocarbons.
AD-A297 265/1 *00,657*

Determination of Atomic Data Pertinent to the Fusion Energy Program. Progress Report for FY 92.
DE94004400 *04,402*

Electron-atom collision studies using optically state selected beams. Progress report, May 15, 1987--May 14, 1988.

BACKSCATTERING SPECTROMETERS
Design of a High-Flux Backscattering Spectrometer for Ultra-High Resolution Inelastic Neutron Measurements.
PB96-179577 *02,992*

BACTERIA
Total Surface Areas of Group IVA Organometallic Compounds: Predictors of Toxicity to Algae and Bacteria.
PB94-211331 *00,814*

Holographic Properties of Triton X-100-Treated Bacteriorhodopsin Embedded in Gelatin Films.
PB96-119284 *03,761*

Autofluorescence Detection of 'Escherichia coli' on Silver Membrane Filters.
PB96-163639 *03,590*

Bacterial Enumeration in Storage Water.
PB96-163647 *03,591*

BACTERIORHODOPSIN
Retinal-Protein Complexes as Optoelectronic Components.
PB95-150397 *02,146*

Bacteriorhodopsin Immobilized in Sol-Gel Glass.
PB95-151429 *03,532*

Bacteriorhodopsin Retains Its Light-Induced Proton-Pumping Function After Being Heated to 140C.
PB96-102728 *03,471*

Rapid pH Change Due to Bacteriorhodopsin Measured with a Tin-Oxide Electrode.
PB96-112081 *03,544*

Holographic Properties of Triton X-100-Treated Bacteriorhodopsin Embedded in Gelatin Films.
PB96-119284 *03,761*

Optical Properties of Triton X-100-Treated Purple Membranes Embedded in Gelatin Films.
PB96-123500 *03,546*

BALANCES
Precision Laboratory Standards of Mass and Laboratory Weights.
AD-A280 562/0 *02,618*

BALL-BAR STANDS
NIST SRM 9983 High-Rigidity Ball-Bar Stand. User Manual.
PB95-255840 *02,669*

BALLE-FLYGARE SPECTROMETERS
Experimental Studies of Line Shapes from a Balle-Flygare Spectrometer.
PB94-199452 *00,796*

BALMER LINES
Excitation of Balmer Lines in Low-Current Discharges of Hydrogen and Deuterium.
PB95-150546 *03,893*

Hydrogen Balmer Alpha Line Shapes for Hydrogen-Argon Mixtures in a Low-Pressure rf Discharge.
PB95-153433 *03,924*

BAND SIZE
Interlaboratory Comparison of Autoradiographic DNA Profiling Measurements. 2. Measurement Uncertainty and Its Propagation.
PB96-112123 *03,545*

BAND STRUCTURE OF SOLIDS
Band-to-Band Photoluminescence and Luminescence Excitation in Extremely Heavily Carbon-Doped Epitaxial GaAs.
PB95-150413 *04,570*

BAND THEORY
Substitution-Induced Midgap States in the Mixed Oxides RxBa1-ChiTiO3-Delta, with R=Y, La, and Nd.
PB95-140505 *04,541*

BANDPASS FILTERS
Systematic Studies of the Effect of a Bandpass Filter on a Josephson-Junction Noise Thermometer.
PB95-162970 *03,939*

BARIUM
Short-Range Correlation and Relaxation Effects on the (6p(2))(1)SO Autoionizing State of Atomic Barium.
PB95-202289 *03,973*

Energy-Pooling Collisions in Barium.
PB95-203030 *03,997*

Excitation Transfer in Barium by Collisions with Noble Gases.
PB96-200274 *01,163*

BARIUM BISMUTH OXIDES
Powder Neutron Diffraction Investigation of Structure and Cation Ordering in Ba2+xBi2-xO6-y.
PB95-180865 *01,015*

BARIUM BISMUTHATES
Powder Neutron Diffraction Investigation of Structure and Cation Ordering in Ba2+xBi2-xO6-y.
PB95-180865 *01,015*

BARIUM BORATES
High-Efficiency, High-Power Difference-Frequency Generation of 0.9-1.5 mu m Light in BBO.
PB95-202255 *04,317*

BARIUM COMPOUNDS
Epitaxial Growth of BaTiO3 Thin Films at 600C by Metalorganic Chemical Vapor Deposition.
PB96-122510 *03,071*

BARIUM COPPER OXALATES
X-Ray Powder Diffraction Data for BaCu(C2O4)2.6H2O.
PB95-151767 *04,583*

BARIUM IONS
Fine Structure of Negative Ions of Alkaline-Earth-Metal Atoms.
PB94-211182 *03,837*

Spectrum and Energy Levels of Triply Ionized Barium (Ba IV).
PB95-140877 *03,888*

Thermodynamic Properties of the Aqueous Ba(sup 2+) Ion and the Key Compounds of Barium.
PB96-145834 *01,107*

BARIUM IRON TITANATE
Preparation, Crystal Structure, Dielectric Properties, and Magnetic Behavior of Ba2Fe2Ti4O13.
PB96-186176 *01,162*

BARIUM OXIDES
Crystal Chemistry and Phase Equilibria Studies of the BaO(BaCO3)-R2O3-CuO Systems. 4. Crystal Chemistry and Subsolidus Phase Relationship Studies of the CuO-Rich Region of the Ternary Diagrams, R=Lanthanides.
PB95-151759 *00,936*

Surface Geometry of BaO on W(100): A Surface-Extended X-Ray-Absorption Fine-Structure Study.
PB95-164414 *00,980*

Magnetic Dielectric Oxides: Subsolidus Phase Relations in the BaO: Fe2O3: TiO2 System.
PB96-176524 *01,156*

BARIUM PARTIAL DENSITY
Barium Contributions to the Valence Electronic Structure of YBa2Cu3O7-delta, PrBa2Cu3O7-delta, and Other Barium-Containing Compounds.
PB96-158019 *04,076*

BARIUM TITANATES
Photoelectron Spectroscopic Study of the Valence and Core-Level Electronic Structure of BaTiO3.
PB94-212149 *04,500*

Surface Core-Level Shifts of Barium Observed in Photoemission of Vacuum-Fractured BaTiO3 (100).
PB94-212156 *04,501*

BARKHAUSEN EFFECT
Langevin Approach to Hysteresis and Barkhausen Modeling in Steel.
PB94-185675 *03,206*

Analytical Expressions for Barkhausen Jump Size Distributions.
PB95-180345 *04,680*

BARRIERS
Helping to Reduce Technical Barriers to Trade.
PB96-190046 *00,491*

Methodology for Developing and Implementing Alternative Temperature-Time Curves for Testing the Fire Resistance of Barriers for Nuclear Power Plant Applications.
PB96-193784 *03,742*

TBT Agreement Activities of the National Institute of Standards and Technology, 1995.
PB97-104178 *00,499*

Stacking the Cards in Europe: One Company's Story.
PB97-110126 *00,493*

BARS
Degradation of Powder Epoxy Coated Panels Immersed in a Saturated Calcium Hydroxide Solution Containing Sodium Chloride.
PB96-101050 *01,344*

BASE ISOLATION
Modified Optimal Algorithm for Active Structural Control.
PB96-165949 *00,472*

BASELINE MEASUREMENTS
Indoor Air Quality Impacts of Residential HVAC Systems. Phase 2.A Report: Baseline and Preliminary Simulations.
PB95-178893 *02,554*

BAYARD-ALPERT GAGES
Comments on the Stability of Bayard-Alpert Ionization Gages.
PB96-103080 *02,673*

BAYARD-ALPERT IONIZATION GAGES
Influence of the Filament Potential Wave Form on the Sensitivity of Glass-Envelope Bayard-Alpert Gages.
PB95-175014 *02,657*

Long-Term Stability of Bayard-Alpert Gauge Performance: Results Obtained from Repeated Calibrations against the National Institute of Standards and Technology Primary Vacuum Standard.
PB96-123567 *02,676*

BAYS (STRUCTURAL UNITS)
Use of Computer Models to Predict Temperature and Smoke Movement in High Bay Spaces.
PB94-145976 *00,191*

BCC LATTICES
Transformation of BCC and B2 High Temperature Phases to HCP and Orthorhombic Structures in the Ti-Al-Nb System. Part 1. Microstructural Predictions Based on a Subgroup Relation between Phases.
PB96-169065 *03,370*

Transformation of BCC and B2 High Temperature Phases to HCP and Orthorhombic Structures in the Ti-Al-Nb System. Part 2. Experimental TEM Study of Microstructures.
PB96-169073 *03,371*

BEAD-ROD MODEL
Effect of Hydrodynamic Interactions on a Terminally Anchored Bead-Rod Model Chain.
PB95-141156 *01,237*

BEAM ADDITION METHOD
Beamcon III, a Linearity Measurement Instrument for Optical Detectors.
PB96-113576 *04,337*

BEAM CALIBRATION
Calorimeters for Calibration of High-Dose Dosimeters in High-Energy Electron Beams.
PB96-135272 *04,055*

BEAM-COLUMN JOINTS
Model Precast Concrete Beam-to-Column Connections Subject to Cyclic Loading.
PB95-153094 *00,438*

Partially Prestressed and Debonded Precast Concrete Beam-Column Joints.
PB95-153102 *00,439*

Seismic Performance Behavior of Precast Concrete Beam-Column Joints.
PB95-153110 *00,440*

BEAM LINES
Beam Line for Highly Charged Ions.
PB97-111256 *04,143*

BEAM MIRRORS
Atomic Beam Splitters and Mirrors by Adiabatic Passage in Multilevel Systems.
PB94-216439 *03,867*

BEAM SPLITTERS
Atomic Beam Splitters and Mirrors by Adiabatic Passage in Multilevel Systems.
PB94-216439 *03,867*

BEAM VOLTAGE
Effect of Beam Voltage on the Properties of Aluminum Nitride Prepared by Ion Beam Assisted Deposition.
PB97-118616 *01,995*

BEAMS
Generalized Optical Theorem for On-Axis Gaussian Beams.
PB97-122345 *04,177*

BEAMS (RADIATION)
Merged-Beams Energy-Loss Technique for Electron-Ion Excitation: Absolute Total Cross Sections for O(5+) (2s yields 2p).
PB96-102058 *04,017*

Beamcon III, a Linearity Measurement Instrument for Optical Detectors.
PB96-113576 *04,337*

BEAMS (STRUCTURAL)
Model Precast Concrete Beam-to-Column Connections Subject to Cyclic Loading.
PB95-153094 *00,438*

Partially Prestressed and Debonded Precast Concrete Beam-Column Joints.
PB95-153102 *00,439*

Seismic Performance Behavior of Precast Concrete Beam-Column Joints.
PB95-153110 *00,440*

BEAMS (SUPPORTS)
Performance of 1/3-Scale Model Precast Concrete Beam-Column Connections Subjected to Cyclic Inelastic Loads. Report No. 4.
PB95-179024 *00,444*

Simplified Design Procedure for Hybrid Precast Concrete Connections.
PB96-154836 *00,405*

Shear Design of High-Strength Concrete Beams: A Review of the State-of-the-Art.
PB96-214713 *01,330*

BEAMSPLITTERS
Deep-UV Excimer Laser Measurements at NIST.
PB96-141031 *04,355*

BEANS
Thermodynamics of the Binding of Galactopyranoside Derivatives to the Basic Lectin from Winged Bean (Psophocarpus Tetrogonolobus).
PB95-162715 *03,465*

BEDS
Measurement of Room Conditions and Response of Sprinklers and Smoke Detectors during a Simulated Two-Bed Hospital Patient Room Fire.
PB94-213717 *00,292*

BENCH TESTS
Modern Test Methods for Flammability.
PB94-198447 *01,370*

BEND STICK MODELS
Effects of Variable Excluded Volume on the Dimensions of Off-Lattice Polymer Chains.
PB94-212941 *01,229*

BENDING
Bending-Induced Phase Shifts in Dual-Mode Planar Optical Waveguides.
PB95-161329 *04,271*

BENEFIT-COST ANALYSIS
Building Life Cycle Cost Computer Program (BLCC) Version 4.22-95 (for Microcomputers).
PB95-503397 *00,268*

Building Life Cycle Cost Computer Program (BLCC) Version 4.4-97 (for Microcomputers).
PB97-500342 *00,284*

BENZENE
Carbon Acidities of Aromatic Compounds. 1. Effects of In-Ring Aza and External Electron-Withdrawing Groups.
PB94-216595 *00,860*

Calculation of Enthalpy and Entropy Differences of Near-Critical Binary Mixtures with the Modified Leung-Griffiths Model.
PB95-108635 *00,885*

Correlation of the Ideal Gas Properties of Five Aromatic Hydrocarbons.
PB95-175816 *01,002*

Doppler-Free Spectroscopy of Large Polyatomic Molecules and van der Waals Complexes.
PB96-119581 *04,339*

BENZENE COMPLEXES
Van der Waals Bond Lengths and Electronic Spectral Shifts of the Benzene-Kr and Benzene-Xe Complexes.
PB95-151387 *00,932*

BENZILIC ACID
Determination of 3-Quinuclidinyl Benzilate (Qnb) and Its Major Metabolites in Urine by Isotope Dilution Gas Chromatography Mass Spectrometry.
PB94-199379 *03,492*

BENZOCYCLOBUTENE
Homogeneous Gas Phase Decyclization of Tetralin and Benzocyclobutene.
PB95-151049 *00,928*

BENZOIC ACIDS
Automated, High Precision Coulometric Titrimetry. Part 2. Strong and Weak Acids and Bases.
PB95-150207 *00,576*

BENZOYL PEROXIDE
Copper Ion-Mediated Modification of Bases in DNA in Vitro by Benzoyl Peroxide.
PB94-198231 *03,645*

BERYLLIUM
Energy Dependences of Absorption in Beryllium Windows and Argon Gas.
PB96-102124 *04,020*

BERYLLIUM IONS
Experimental Results on Normal Modes in Cold, Pure Ion Plasmas.
PB95-175105 *03,956*

Precise Spectroscopy for Fundamental Physics.
PB96-112164 *04,040*

BESSEL FUNCTIONS
Portable Vectorized Software for Bessel Function Evaluation.
PB94-198975 *01,690*

BETA DOSIMETRY
Extrapolation Chamber Measurements on (90)Sr + (90)Y Beta-Particle Ophthalmic Applicator Dose Rates.
PB95-153375 *03,626*

BETA HYDRI STAR
Distant Future of Solar Activity: A Case Study of Beta Hydri. 3. Transition Region, Corona, and Stellar Wind.
PB94-185220 *00,049*

BETA PARTICLES
Measurement of Radial Dose Distributions Around Small Beta Particle Emitters Using High Resolution Radiochromic Foil Dosimetry.
PB95-164604 *03,518*

Angular Variation of the Personal Dose Equivalent, Hp(0.07), for Beta Radiation and Nearly Monoenergetic Electron Beams: Preliminary Results.
PB95-168472 *03,630*

System for Intercomparing Standard Solutions of Beta-Particle Emitting Radionuclides.
PB96-159637 *03,707*

BETZ-QUARTZ
Wear of Enamel against Glass-Ceramic, Porcelain, and Amalgam.
PB96-179593 *03,082*

BIAS
Error Propagation Biases in the Calculation of Indentation Fracture Toughness for Ceramics.
PB94-172434 *03,032*

BIBLIOGRAPHIC DATABASES
Evolution of a United States Information System.
PB96-157896 *02,713*

BIBLIOGRAPHIES
Bibliography of Books and Published Reports on Gas Turbines, Jet Propulsion, and Rocket Power Plants.
AD-A278 138/3 *01,445*

Bibliography of Books and Published Reports on Gas Turbines, Jet Propulsion, and Rocket Power Plants, January 1950 through December 1953.
AD-A278 213/4 *01,446*

Aerodynamic Phenomena in Stellar Atmospheres - A Bibliography.
AD-A278 521/0 *00,046*

Survey of the Literature on Heat Transfer from Solid Surfaces to Cryogenic Fluids.
AD-A286 680/4 *04,193*

Preliminary List of References Containing Compilations of Data on Properties of Materials.
AD-A302 670/5 *03,243*

Metrology for Electromagnetic Technology: A Bibliography of NIST Publications.
PB94-159761 *02,116*

Bibliography on Apparel Sizing and Related Issues.
PB94-161924 *02,806*

BFRL Fire Publications, 1993.
PB94-164191 *00,192*

Publications of the Manufacturing Engineering Laboratory Covering the Period January 1989-September 1992.
PB94-165966 *02,750*

Bibliography of the NIST Electromagnetic Fields Division Publications.
PB94-165990 *01,875*

NIST Serial Holdings, 1994.
PB94-178068 *02,745*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, October to December 1993 with 1994/1995 EEEL Events Calendar.
PB94-193752 *02,307*

Bibliography of Photon Total Cross Section (Attenuation Coefficient) Measurements 10 eV to 13.5 GeV, 1907-1993.
PB94-193760 *03,804*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, January to March 1994 with 1994/1995 EEEL Events Calendar.
PB94-193810 *02,308*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, July to September 1993 with 1994 EEEL Events Calendar.
PB94-194354 *02,309*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, January to March 1994 with 1994/1995 EEEL Events Calendar.
PB94-213774 *01,883*

Bibliography of Computer Security Glossaries.
PB94-216710 *01,587*

Publications of the Intelligent Systems Division (Previously Robot Systems Division) Covering the Period January 1971-April 1994.
PB94-217098 *02,935*

Bibliography of the NIST Electromagnetic Fields Division Publications.
PB95-135562 *01,886*

Metrology for Electromagnetic Technology: A Bibliography of NIST Publications.
PB95-135588 *02,143*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, April to June 1994 with 1994/1995 EEEL Events Calendar.
PB95-143186 *02,329*

Building and Fire Research Laboratory Publications, 1993.
PB95-143202 *00,369*

Evaluating Investments in Law Enforcement Equipment: An Annotated Bibliography.
PB95-151379 *04,867*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, July to September 1994 with 1994/1995 EEEL Events Calendar.
PB95-170395 *02,360*

NIST Serial Holdings, 1995.
PB95-188926 *02,746*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, July to September 1994 with 1995 EEEL Events Calendar.
PB95-198925 *01,912*

Publications of the National Institute of Standards and Technology 1992 Catalog.
PB95-200747 *00,014*

Building and Fire Research Laboratory Publications, 1994.
PB95-226684 *00,398*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, January to March 1995 with 1995 EEEI Events Calendar.
PB95-242277 *02,373*

Bibliography of the NIST Optoelectronics Division.
PB96-128210 *02,193*

Metrology for Electromagnetic Technology: A Bibliography of NIST Publications, September 1995.
PB96-128269 *01,938*

Classified Bibliography: Insulation Condition Monitoring Methods, 1989-1995.
PB96-131586 *02,232*

Catalogue of Electromagnetic Environment Measurements, 30-300 Hz.
PB96-155452 *01,943*

Publications 1995: NIST Building and Fire Research Laboratory.
PB96-183074 *00,226*

Publications of the National Institute of Standards and Technology 1993 Catalog.
PB96-183215 *00,017*

Bibliography of the NIST Electromagnetic Fields Division Publications.
PB96-210778 *01,980*

Experimentally Measured Total X-ray Attenuation Coefficients Extracted from Previously Unprocessed Documents Held by the NIST Photon and Charged Particle Data Center.
PB97-114474 *04,165*

Bibliography of the NIST Optoelectronics Division.
PB97-116040 *02,207*

Metrology for Electromagnetic Technology: A Bibliography of NIST Publications.
PB97-116057 *04,396*

BICRYSTALS
Electromagnetic Coupling Character of (001) Twist Boundaries in Sintered Bi2Sr2CaCu2O8+x Bicrystals.
PB96-176573 *01,963*

BIDIRECTIONAL SCATTERING DISTRIBUTION FUNCTIONS
Rayleigh Scattering Limits for Low-Level Bidirectional Reflectance Distribution Function Measurements.
PB95-180030 *04,307*

BILIRUBIN
Molar Absorptivities of Bilirubin (NIST SRM 916A) and Its Neutral and Alkaline Azopigments.
PB94-211042 *03,456*

BIMATERIAL INTERFACE
Diffusive Crack Growth at a Bimaterial Interface.
PB96-204110 *03,090*

BIMATERIALS
Asymmetric Tip Morphology of Creep Microcracks Growing Along Bimaterial Interfaces.
PB94-200243 *03,138*

BIMOLECULAR REACTION
Bimolecular Interactions in (Et)3SiOH:Base:CCl4 Hydrogen-Bonded Solutions Studied by Deactivation of the Free OH-Stretch Vibration.
PB97-118657 *04,166*

BINARY ALLOY SYSTEMS
Thermodynamic Assessment and Calculation of the Ti-Al System.
PB94-212644 *03,337*

BINARY ALLOYS
Convection and Morphological Stability During Directional Solidification.
N95-14548/8 *03,310*

Effects of Crystalline Anisotropy and Buoyancy-Driven Convection on Morphological Stability.
PB94-200441 *03,328*

BINARY MIXTURES
Calculation of Enthalpy and Entropy Differences of Near-Critical Binary Mixtures with the Modified Leung-Griffiths Model.
PB95-108635 *00,885*

Thermodynamic Properties of the Methane-Ethane System.
PB95-125779 *00,891*

Experimental Method for Obtaining Critical Densities of Binary Mixtures: Application to Ethane + n-Butane.
PB95-151148 *00,930*

Measurements of the Virial Coefficients and Equation of State of the Carbon Dioxide + Ethane System in the Supercritical Region.
PB95-151353 *03,906*

Stability/Instability of Gas Mixtures Containing 1,3-Butadiene in Treated Aluminum Gas Cylinders.
PB95-162285 *02,546*

Viscosity of the Saturated Liquid Phase of Six Halogenated Compounds and Three Mixtures.
PB95-162368 *00,960*

Critical Properties and Vapor-Liquid Equilibria of the Binary System Propane + Neopentane.
PB95-175683 *00,999*

Critical Lines for Type-III Aqueous Mixtures by Generalized Corresponding-States Models.
PB96-102371 *01,063*

BINARY STARS
ROSAT All-Sky Survey of Active Binary Coronae. 2. Coronal Temperatures of the RS Canum Venaticorum Systems.
PB94-199601 *00,055*

Dynamic Phenomena on the RS Canum Venaticorum Binary II Pegasi in August 1989. 1. Observational Data.
PB94-211067 *00,056*

Radio Continuum and X-Ray Properties of the Coronae of RS Canum Venaticorum and Related Active Binary Systems.
PB94-211083 *00,057*

ROSAT All-Sky Survey of Active Binary Coronae. 1. Quiescent Fluxes for the RS Canum Venaticorum Systems.
PB95-202479 *00,077*

Rotational Modulation and Flares on RS Canum Venaticorum and BY Draconis Stars. XVIII. Coordinated VLA, ROSAT, and IUE Observations of RS CVn Binaries.
PB96-102322 *00,089*

Discussion: Statistical Signal Processing of Quasiperiodicities.
PB96-119532 *00,096*

Transition Regions of Capella.
PB96-123336 *00,105*

Transition Regions of Capella (1995).
PB96-176714 *00,108*

BINARY SYSTEM (MATERIALS)
Statistical Thermodynamics of Phase Separation and Ion Partitioning in Aqueous Two-Phase Systems.
PB94-199387 *01,212*

BINARY SYSTEMS (MATERIALS)
Shear Dependence of Critical Fluctuations in Binary Polymer Mixtures by Small Angle Neutron Scattering.
PB94-211612 *01,220*

Small-Angle X-Ray and Neutron Scattering Study of Block Copolymer/Homopolymer Mixtures.
PB94-211729 *01,221*

Generalized Plane Strain Analysis of a Bimaterial Composite Containing a Free Surface Normal to the Interface.
PB95-163341 *03,164*

Partial Scattered Intensities from a Binary Suspension of Polystyrene and Silica.
PB95-175618 *00,996*

BINDERS
Binder Characterization and Evaluation by Nuclear Magnetic Resonance Spectroscopy.
PB94-193471 *01,334*

Computer Simulations of Binder Removal from 2-D and 3-D Model Particulate Bodies.
PB97-121339 *00,418*

BINDING ENERGY
Thermal Decomposition of Hydroxy- and Methoxy-Substituted Anisoles.
PB94-173036 *00,767*

Energy Calibration of X-ray Photoelectron Spectrometers: Results of an Interlaboratory Comparison to Evaluate a Proposed Calibration Procedure.
PB96-102918 *04,027*

Theory for Quantum-Dot Quantum Wells: Pair Correlation and Internal Quantum Confinement in Nanoheterostructures.
PB96-179445 *02,437*

BINDING SITES
Characterization of the Binding of Gallium, Platinum, and Uranium to Pseudomonas Fluorescens by Small-Angle X-ray Scattering and Transmission Electron Microscopy.
PB94-172509 *03,453*

Fokker-Planck Description of Multivalent Interactions.
PB95-108478 *00,879*

BIOACCUMULATION
Current Activities Within the National Biomonitoring Specimen Bank.
PB94-172806 *02,516*

Determination of Inorganic Constituents in Marine Mammal Tissues.
PB95-152047 *00,589*

Development of the National Marine Mammal Tissue Bank.
PB95-161402 *02,586*

Quality Assurance of Contaminant Measurements in Marine Mammal Tissues.
PB95-164034 *02,588*

Certification of Polychlorinated Biphenyl Congeners and Chlorinated Pesticides in a Whale Blubber Standard Reference Material.
PB96-103023 *03,745*

Trace Element Concentrations in Cetacean Liver Tissues Archived in the National Marine Mammal Tissue Bank.
PB96-167127 *02,595*

Relationship of Silver with Selenium and Mercury in the Liver of Two Species of Toothed Whales (Odontocetes).
PB96-167275 *02,596*

BIOACTIVE MATERIALS
Bioactive Polymeric Dental Materials Based on Amorphous Calcium Phosphate.
PB96-147012 *03,572*

BIOASSAY
Alaska Marine Mammal Tissue Archival Project: Specimen Inventory.
PB95-171344 *02,589*

Concentrations of Chlorinated Hydrocarbons, Heavy Metals and Other Elements in Tissues Banked by the Alaska Marine Mammal Tissue Archival Project.
PB95-209870 *02,590*

Intercomparison Study of (237)Np Determination in Artificial Urine Samples.

BISPHENOL-A

Effect of Curing History on Ultimate Glass Transition Temperature and Network Structure of Crosslinking Polymers.
PB94-200052 *01,214*

BISTATIC SCATTERING

Bistatic Scattering of Absorbing Materials from 30 to 1000 MHz.
PB95-150934 *01,891*

BITHIOPHENES

Location of a (1)A(sub g) State in Bithiophene.
PB95-202313 *01,025*

BITUMINOUS CONCRETES

Binder Characterization and Evaluation by Nuclear Magnetic Resonance Spectroscopy.
PB94-193471 *01,334*

Development of a Method for Measuring Water-Stripping Resistance of Asphalt/Siliceous Aggregate Mixtures.
PB96-197249 *01,348*

BIVARIATE DISTRIBUTIONS

Population Distributions and Intralaboratory Reproducibility for Fat-Soluble Vitamin-Related Compounds in Human Serum.
PB96-155536 *00,624*

BLACK BODY RADIATION

Activities of NIST (National Inst. Of Standards and Technology).
N94-23605/6 *04,222*

BLACK DETECTORS

Measurement of the (10)B(n, alpha1gamma)(7)Li Cross Section in the 0.3 to 4 MeV Neutron Energy Interval.
PB96-161799 *04,098*

BLACKBODY RADIATION

Cryogenic Blackbody Calibrations at the National Institute of Standards and Technology Low Background Infrared Calibration Facility.
PB94-169802 *02,117*

Precision High Temperature Blackbodies.
PB95-140059 *03,885*

Third Generation Water Bath Based Blackbody Source.
PB96-122148 *04,046*

BLCC COMPUTER PROGRAM

Life-Cycle Costing Workshop for Energy Conservation in Buildings: Student Manual.
PB95-175006 *00,257*

BLENDS

Glass Temperature of Polymer Blends: Comparison of Both the Free Volume and the Entropy Predictions with Data.
PB95-140190 *01,236*

BLIND RECONSTRUCTION

Scanned Probe Microscope Tip Characterization Without Calibrated Tip Characterizers.
PB96-190368 *02,759*

BLISTERING

Non-Osmotic, Defect-Controlled Cathodic Disbondment of a Coating from a Steel Substrate.
PB94-216447 *03,120*

Gas Absorption during Ion-Irradiation of a Polymer Target.
PB96-161864 *04,099*

BLOCK COPOLYMERS

Shear-Excited Morphological States in a Triblock Copolymer.
PB94-172392 *01,196*

Time Dependent Small Angle Neutron Scattering Behavior in Triblock Copolymers Under Steady Shear.
PB94-172632 *01,198*

Temperature Dependence of the Morphology of Thin Diblock Copolymer Films as Revealed by Neutron Reflectivity.
PB94-172756 *01,199*

Neutron Scattering by Multiblock Copolymers of Structure (A-B)N-A.
PB94-211547 *01,219*

Small-Angle X-Ray and Neutron Scattering Study of Block Copolymer/Homopolymer Mixtures.
PB94-211729 *01,221*

Morphology of Symmetric Diblock Copolymers as Revealed by Neutron Reflectivity.
PB95-140075 *01,234*

Observed Frustration in Confined Block Copolymers.
PB95-150033 *01,238*

Characterization of Polyquinoline Block Copolymer Using Small Angle Scattering.
PB95-151882 *01,244*

Localization of a Homopolymer Dissolved in a Lamellar Structure of a Block Copolymer Studied by Small-Angle Neutron Scattering.
PB95-161592 *01,253*

Molecular Weight Dependence of the Lamellar Domain Spacing of ABC Triblock Copolymers and Their Chain Conformation in Lamellar Domains.
PB95-161691 *01,254*

Influence of Shear on the Ordering Temperature of a Triblock Copolymer Melt.
PB96-163753 *01,288*

Morphology and Phase Separation Kinetics of a Compatibilized Blend.
PB97-119135 *01,297*

BLOCKS

VLSI Architectures for Template Matching and Block Matching.
PB94-200029 *01,834*

BLOOD

Development of a Standard Reference Material for ISE Measurements of Sodium and Potassium.
PB96-159785 *03,507*

BLOOD ANALYSIS

Frozen Human Serum Reference Material for Standardization of Sodium and Potassium Measurements in Serum or Plasma by Ion-Selective Electrode Analyzers.
PB94-185337 *00,532*

BLOOD CHEMICAL ANALYSIS
Histopathology, Blood Chemistry, and Physiological Status of Normal and Moribund Striped Bass ('Morone saxatilis') Involved in Summer Mortality ('Die-Off') in the Sacramento-San Joaquin Delta of California.
PB94-198157 *00,034*

Regulation of Lithium and Boron Levels in Normal Human Blood: Environmental and Genetic Considerations.
PB94-198579 *03,491*

Determination of Oltipraz in Serum by High-Performanace Liquid Chromatography with Optical Absorbance and Mass Spectrometric Detection.
PB94-200201 *03,493*

Liposome-Based Flow-Injection Immunoassay for Determining Theophylline in Serum.
PB94-213493 *03,494*

Ascorbic and Dehydroascorbic Acids Measured in Plasma Preserved with Dithiothreitol or Metaphorphoric Acid.
PB94-216330 *03,495*

Measurement of Ascorbic Acid in Human Plasma and Serum: Stability, Intralaboratory Repeatability, and Interlaboratory Reproducibility.
PB97-112445 *03,511*

BLOOD PRESERVATION
Ascorbic and Dehydroascorbic Acids Measured in Plasma Preserved with Dithiothreitol or Metaphorphoric Acid.
PB94-216330 *03,495*

BLOWOUTS
Development of Hazard Assessment and Suppression Technology for Oil and Gas Well Blowout and Diverter Fires.
PB96-122965 *01,408*

BLUBBER
Certification of Polychlorinated Biphenyl Congeners and Chlorinated Pesticides in a Whale Blubber Standard Reference Material.
PB96-103023 *03,745*

BLUE GREEN LASERS
Rare-Earth-Doped Waveguide Devices: The Potential for Compact Blue-Green Lasers.
PB95-140836 *04,257*

BODY ARMOR
Study to Determine the Most Important Parameters for Evaluating the Resistance of Soft Body Armor to Penetration by Edged Weapons.
PB94-158573 *03,757*

BODY COMPOSITION
Overview of Bioelectrical Impedance Analyzers.
PB96-122635 *00,176*

Overview of Bioelectrical Impedance Analyzers.
PB97-118780 *00,181*

BODY MEASUREMENT (BIOLOGY)
Body Dimensions for Apparel.
PB94-187739 *02,813*

BOILING POINTS
Ebulliometers for Measuring the Thermodynamic Properties of Fluids and Fluid Mixtures.
DE94017817 *04,195*

BOLOMETER MOUNTS
Coaxial Reference Standard for Microwave Power.
PB94-193786 *01,880*

BOLOMETERS
Thermal and Nonequilibrium Responses of Superconductors for Radiation Detectors.
PB95-164232 *02,156*

Terahertz Detectors Based on Superconducting Kinetic Inductance.
PB95-168647 *02,160*

Optical Performance of Photoinductive Mixers at Terahertz Frequencies.
PB95-168662 *02,161*

Ultrasensitive-Hot-Electron Microbolometer.
PB95-168985 *02,163*

High-Tc Superconducting Antenna-Coupled Microbolometer on Silicon.
PB95-169124 *02,166*

Antenna-Coupled High-Tc Air-Bridge Microbolometer on Silicon.
PB95-180899 *04,315*

Niobium Microbolometers for Far-Infrared Detection.
PB96-111729 *02,184*

Absolute Response Calibration of a Transfer Standard Cryogenic Bolometer.
PB96-147103 *04,358*

Novel Hot-Electron Microbolometer.
PB96-201025 *01,977*

BOLTZMANN EQUATION
Quantum Collisional Transfer Contributions to the Density Dependence of Gaseous Viscosity.
PB96-161914 *01,142*

BOMB CALORIMETER
Precise Measurement of Heat of Combustion with a Bomb Calorimeter.
AD-A286 701/8 *03,770*

BOND-LENGTH MISMATCH
Elastic Properties of Central-Force Networks with Bond-Length Mismatch.
PB95-163366 *04,623*

BONDED PHASE
Influence of Stationary Phase Chemistry on Shape Recognition in Liquid Chromatography.
PB96-123682 *00,621*

BONDING
Bonding Wires to Quantized Hall Resistors.
PB96-102637 *01,921*

BONE DISORDERS
In vitro Inhibition of Membrane-Mediated Calcification by Novel Phosphonates.
PB96-201140 *03,595*

BONE TISSUES
Experimental assessment of absorbed dose to mineralized bone tissue from internal emitters: An electron paramagnetic resonance study.
DE96007979 *03,614*

BONES
EPR Bone Dosimetry: A New Approach to Spectral Deconvolution Problems.
PB94-199643 *03,616*

Experimental Validation of Radiopharmaceutical Absorbed Dose to Mineralized Bone Tissue.
PB94-199668 *03,617*

Estimation of the Absorbed Dose in Radiation-Processed Food. 1. Test of the EPR Response Function by a Linear Regression Analysis.
PB94-199718 *00,039*

Secondary Target X-Ray Excitation for In vivo Measurement of Lead in Bone.
PB95-108767 *03,496*

Exposure-to-Absorbed-Dose Conversion for Human Adult Cortical Bone.
PB97-110381 *03,640*

BORON
Regulation of Lithium and Boron Levels in Normal Human Blood: Environmental and Genetic Considerations.
PB94-198579 *03,491*

Measurement of Boron at Silicon Wafer Surfaces by Neutron Depth Profiling.
PB94-211059 *04,487*

Determination of Boron and Lithium in Diverse Biological Matrices Using Neutron Activation - Mass Spectrometry (NA-MS).
PB94-212289 *00,554*

Analysis of Boron in CVD Diamond Surfaces Using Neutron Depth Profiling.
PB94-213089 *04,511*

Optical and Modeling Studies of Sodium/Halide Reactions for the Formation of Titanium and Boron Nanoparticles.
PB97-113054 *00,682*

BORON 10
Preparation and Characterization of (6)LiF and (10)B Reference Deposits for the Measurement of the Neutron Lifetime.
PB95-108692 *03,874*

BORON-LIKE IONS
Investigation of LS Coupling in Boronlike Ions.
PB94-185295 *03,797*

BORON NITRIDES
Effect of Stoichiometry on the Phases Present in Boron Nitride Thin Films.
PB96-102470 *04,710*

Chip Morphology, Tool Wear and Cutting Mechanics in Finish Hard Turning.
PB97-112247 *03,106*

BORON TARGETS
Mass Assay and Uniformity Test of Boron Targets by Neutron Beam Methods.
PB97-119085 *04,175*

BOSE CONDENSATION
Stable, Tightly Confining Magnetic Trap for Evaporative Cooling of Neutral Atoms.
PB96-200720 *04,126*

BOSE-EINSTEIN CONDENSATION
Properties of a Bose-Einstein Condensate in an Anisotropic Harmonic Potential.
PB96-204144 *04,133*

BOTANICAL REFERENCE MATERIAL
Determination of 21 Elements by INAA for Certification of SRM 1570a, Spinach.
PB96-167242 *00,698*

BOTANICAL REFERENCE MATERIALS
Recent Developments in NIST Botanical SRMs.
PB96-167267 *03,489*

BOTANY
Dissolution Problems with Botanical Reference Materials.
PB95-126280 *03,487*

Results of the ASTM Nuclear Methods Intercomparison on NIST Apple and Peach Leaves Standard Reference Materials.
PB97-119036 *03,490*

BOTTOM SEDIMENTS
Certification of Standard Reference Material (SRM) 1941a, Organics in Marine Sediment.
PB96-123690 *02,593*

BOUNDARY
Using Collocation in Three Dimensions and Solving a Model Semiconductor Problem.
PB96-159249 *01,952*

BOUNDARY CONDITIONS
Transport by Gravity Currents in Building Fires
PB97-119325 *01,441*

BOUNDARY ELEMENT METHOD
Application of Boundary Element Methods to a Transient Axis-Symmetric Heat Conduction Problem.
PB94-212693 *01,375*

BOUNDARY INTEGRAL METHOD
Boundary Integral Method for the Simulation of Two-Dimensional Particle Coarsening.
PB94-216744 *03,411*

BOUNDARY LAYER
Air Flow in the Boundary Layer of an Elliptic Cylinder.
AD-A297 391/5 *04,194*

BOUNDARY LAYER TRANSITION
Evolution of a Turbulent Boundary Layer Induced by a Three-Dimensional Roughness Element.
PB94-212818 *04,200*

BOUNDARY LUBRICATION
Boundary Lubrication of Silicon Nitride.
PB95-213583 *03,226*

Silicon Nitride Boundary Lubrication: Lubrication Mechanism of Alcohols.
PB96-111703 *03,067*

Silicon Nitride Boundary Lubrication: Effect of Oxygenates.
PB96-111711 *03,068*

Mechano-Chemical Model: Reaction Temperatures in a Concentrated Contact.
PB96-119466 *03,227*

BOUNDARY VALUE PROBLEMS
Slow Evolution from the Boundary: A New Stabilizing Constraint in Ill-Posed Continuation Problems.
PB96-122858 *03,418*

BOVINE SERUM ALBUMIN
Hydrolysis of Proteins by Microwave Energy.
PB94-216322 *03,528*

BRACHYTHERAPY
Needs for Brachytherapy Source Calibrations in the United States.
PB97-110092 *03,521*

BRAGG GRATINGS
Bragg Gratings in Optical Fibers Produced by a Continuous-Wave Ultraviolet Source.
PB95-162020 *04,274*

Growth of Bragg Gratings Produced by Continuous-Wave Ultraviolet Light in Optical Fiber.
PB95-162038 *04,275*

Comparison of UV-Induced Fluorescence and Bragg Grating Growth in Optical Fiber.
PB95-168597 *04,284*

Annealing of Bragg Gratings in Hydrogen-Loaded Optical Fiber.
PB96-155437 *04,361*

Comparison of UV Photosensitivity and Fluorescence during Fiber Grating Formation.
PB96-155445 *04,362*

BRAGG X-RAY DIFFRACTION
Systematic Correction in Bragg X-ray Diffraction of Flat and Curved Crystals.
PB97-112239 *04,152*

BRANCHING RATIO
Atomic Branching Ratio Data for Carbon-Like Ions.
PB94-212842 *03,855*

Atomic Branching Ratio Data for Oxygen-Like Species.
PB95-180436 *03,963*

Atomic Branching Ratio Data for Nitrogen-Like Species.
PB96-190152 *04,122*

BRANCHING RATIOS
Vibrationally Resolved Photoelectron Angular Distributions and Branching Ratios for the Carbon Dioxide Molecule in the Wavelength Region 685-795 Angstrom.
PB96-201207 *04,131*

BREAKDOWN
Evidence That Voltage Rather Than Resistance is Quantized in Breakdown of the Quantum Hall Effect.
PB96-179163 *01,868*

BREAKDOWN (ELECTRONIC THRESHOLD)
Charge Trapping and Breakdown Mechanism in SIMOX.
PB94-216637 *02,323*

Experimental Study of Reverse-Bias Failure Mechanisms in Bipolar Mode JFET (BMFET).
PB95-152997 *02,340*

BREMSSTRAHLUNG
Comparison of NIST and ISO Filtered Bremsstrahlung Calibration Beams.
PB95-180956 *03,967*

BRIDGE
ITS-90 Calibration Facility.
PB96-160916 *00,627*

BRIDGE DECKS
Corrosion Resistant Epoxy-Coated Reinforcing Steel.
PB94-185618 *01,307*

Economics of New-Technology Materials: A Case Study of FRP Bridge Decking.
PB96-202353 *01,349*

BRIDGE MAINTENANCE
Optimization of Highway Concrete Technology.
PB94-182995 *01,333*

BRIDGES
Conversion of a 2-Terminal-Pair Bridge to a 4-Terminal-Pair Bridge for Increased Range and Precision in Impedance Measurements.
PB97-119176 *02,103*

BRIDGES (STRUCTURES)
Draft Guidelines for Pre-Qualification and Prototype Testing of Seismic Isolation Systems.
PB94-161940 *01,331*

Draft Guidelines for Quality Control Testing of Sliding Seismic Isolation Systems.
PB94-161957 *01,332*

Evaluating the Seismic Performance of Lightly-Reinforced Circular Concrete Bridge Columns.
PB95-163259 *01,335*

Jacket Thickness Requirements for Seismic Retrofitting of Circular Bridge Columns.
PB95-163267 *01,336*

Seismic Performance of Circular Bridge Columns Designed in Accordance with AASHTO/CALTRANS Standards.
PB96-146352 *01,346*

Application of Electromagnetic-Acoustic Transducers for Nondestructive Evaluation of Stresses in Steel Bridge Structures.
PB96-167978 *01,301*

BRIDGING
ISDN LAN Bridging.
PB95-154696 *01,477*

BRIGHTNESS
Far-Ultraviolet Flare on a Pleiades G Dwarf.
PB96-102033 *00,086*

BRILLOUIN EFFECT
Brillouin Light Scattering Intensities for Thin Magnetic Films with Large Perpendicular Anisotropies.
PB94-211174 *04,488*

BRITTLE FRACTURING
Analysis of Failed Dry Pipe Fire Suppression System Couplings from the Filene Center at Wolf Trap Farm Park for the Performing Arts.
PB94-164407 *00,331*

Atomic Theory of Fracture of Brittle Materials: Application to Covalent Semiconductors.
PB94-216553 *04,519*

BRITTLE MATERIALS
Crack Growth Resistance of Strain-Softening Materials under Flexural Loading.
PB94-200227 *02,972*

Friction Processes in Brittle Fracture.
PB96-161765 *03,076*

BRITTLE SOLIDS
Effect of Chemical Interaction on Barenblatt Crack Profiles in Brittle Solids.
PB96-180245 *02,996*

BRITTLENESS
Ashland Tank Collapse Investigation.
PB95-126314 *02,481*

Ashland Tank-Collapse Investigation: Closure by Authors.
PB95-126322 *02,482*

Molecular Orbital Calculations of Bond Rupture in Brittle Solids.
PB95-164059 *00,973*

BROADBAND ANTENNAS
Time-Domain Antenna Characterizations.
PB95-152781 *02,003*

BROADBAND INTEGRATED SERVICES DIGITAL NETWORK
Introduction to Traffic Management for Broadband ISDN.
PB94-142494 *01,464*

BROMINE ATOMS
Laser Double Resonance Measurements of the Quenching Rates of Br((2)P1/2) with H20, D20, HDO, and O2.
PB95-150694 *00,921*

BROMINE LASERS
Efficient Br(*) Laser Pumped by Frequency-Doubled Nd:YAG and Electronic-to-Vibrational Transfer-Pumped CO2 and HCN Lasers.
PB95-108684 *04,248*

BRONCHI
Systematics of Alpha-Particle Energy Spectra and Lineal Energy (Y) Spectra for Radon Daughters.
PB94-185139 *03,615*

Microdosimetry and Cellular Radiation Effects of Radon Progency in Human Bronchial Airways.
PB95-152344 *03,625*

BROWNIAN MOTION
Hydrodynamic Friction of Arbitrarily Shaped Brownian Particles.
PB97-110191 *04,136*

BROWNIAN MOVEMENT
Brownian Diffusion of Hard Spheres at Finite Concentrations.
PB95-164307 *00,975*

BSCCO SUPERCONDUCTORS
Microstrains and Domain Sizes in Bi-Cu-O Superconductors: An X-Ray Diffraction Peak-Broadening Study.
PB94-198520 *04,461*

Effect of Axial Strain on the Critical Current of Ag-Sheathed Bi-Based Superconductors in Magnetic Fields Up to 25 T.
PB94-211315 *04,493*

Flux Expulsion at Intermediate Fields in Type-II Superconductors.
PB94-212230 *04,502*

X-Ray Characterization of the Crystallization Process of High-Tc Superconducting Oxides in the Sr-Bi-Pb-Ca-Cu-O System.
PB95-151700 *04,579*

Improved Uniaxial Strain Tolerance of the Critical Current Measured in Ag-Sheathed Bi2Sr2Ca1Cu2O8+x Superconductors.
PB95-153565 *04,594*

Grain Alignment and Transport Properties of Bi2Sr2CaCu2O8 Grown by Laser Heated Float Zone Method.
PB95-161451 *04,602*

Effects of Anneal Time and Cooling Rate on the Formation and Texture of Bi2Sr2CaCu2O8 Films.
PB95-161600 *04,603*

Tunneling Measurement of the Zero-Bias Conductance Peak and the Bi-Sr-Ca-Cu-O Thin-Film Energy Gap.
PB95-163739 *04,628*

Increased Pinning Energies and Critical Current Densities in Heavy-Ion-Irradiated Bi2Sr2CaCu2O8 Single Crystals.
PB95-175352 *04,654*

BSDF (BIDIRECTIONAL SCATTERING DISTRIBUTION FUNCTION)
Rayleigh Scattering Limits for Low-Level Bidirectional Reflectance Distribution Function Measurements.
PB95-180030 *04,307*

BUBBLE CHAMBERS
Design and Construction of a Liquid Hydrogen Temperature Refrigeration System.
AD-A286 618/4 *02,619*

BUBBLES
Heat Transfer in an Intumescent Material Using a Three-Dimensional Lagrangian Model.
PB96-164066 *00,408*

BUCKLED COLUMNS
Experimental and Numerical Chaos in Continuous Systems: Two Case Studies.
PB96-156146 *00,219*

BUCKLING
Exponentially Rapid Coarsening and Buckling in Coherently Self-Stressed Thin Plates.
PB95-202347 *04,821*

BUCKMINSTERFULLERENE
Inelastic Neutron Scattering Studies of Rotational Excitations and the Orientational Potential in C60 and A3C60 Compounds.
PB94-172673 *00,763*

Discontinuous Volume Change at the Orientational-Ordering Transition in Solid C60.
PB94-211828 *00,821*

Rotational Dynamics of C60 in Na2RbC60.
PB95-153201 *00,948*

Structure and Dynamics of Buckyballs.
PB95-153292 *00,950*

Neutron and X-Ray Scattering Cross Sections of Orientationally Disordered Soild C60.
PB95-153300 *00,951*

Epitaxial Integration of Single Crystal C60.
PB95-153490 *04,592*

BUILDING
Project Summaries 1995: NIST Building and Fire Research Laboratory.
PB95-270047 *00,400*

CFAST Output Comparison Method and Its Use in Comparing Different CFAST Versions.
PB96-109541 *00,401*

BUILDING CODES
Draft Guideline for Testing and Evaluation of Seismic Isolation Systems.
PB94-172947 *00,423*

Standards Development in North America for Performance of Whole Buildings and Facilities.
PB94-185196 *00,312*

Lessons Learned by a Wing Engineer.
PB94-216421 *00,429*

Water Efficient Plumbing Fixtures through Standards and Test Methods.
PB95-125951 *00,248*

Growing Significance of CIB.
PB95-126306 *00,314*

Evaluation and Retrofit Standards for Existing Federally Owned and Leased Buildings.
PB95-150918 *00,434*

Exposure: An Expert System Fire Code.
PB95-162913 *04,868*

Quantitative Evaluation of Building Fire Safety: New Tools for Assessing Fire and Building Code Provisions.
PB95-164588 *00,199*

Developing Rational Performance-Based Fire Safety Requirements in Model Building Codes.
PB95-175220 *00,200*

World of Building Codes.
PB95-203428 *00,449*

Comparison of the Seismic Provisions of Model Building Codes and Standards to the 1991 NEHRP Recommended Provisions.
PB95-231858 *00,315*

Fire Codes for Global Practice.
PB96-102108 *00,205*

Recommended Performance-Based Criteria for the Design of Manufactured Home Foundation Systems to Resist Wind and Seismic Loads.
PB96-128285 *00,460*

Summary and Results of the NIST Workshop on Proposed Guidelines for Testing and Evaluation of Seismic Isolation Systems. Held in San Francisco, California on July 25, 1994.
PB96-154901 *00,463*

State of the Art Report on Seismic Design Requirements for Nonstructural Building Components.
PB96-193800 *00,308*

Fire Safety Engineering in the Pursuit of Performance-Based Codes: Collected Papers.

PB96-138573 04,751

CAPACITANCE

NIST Capacitance Measurement Assurance Program (MAP).
PB94-200060 02,254

Application of Single Electron Tunneling: Precision Capacitance Ratio Measurements.
PB96-102157 04,703

NIST Measurement Assurance Program for Capacitance Standards at 1 kHz.
PB96-172333 02,276

Results of Capacitance Ratio Measurements for the Single Electron Pump-Capacitor Charging Experiment.
PB97-113286 04,813

CAPACITANCE BRIDGES

Cryogenic Precision Capacitance Bridge Using a Single Electron Tunneling Electrometer.
PB95-126074 04,529

Cryogenic Precision Capacitance Bridge Using a Single Electron Tunneling Electrometer.
PB95-152310 02,040

Cryogenic Precision Capacitance Bridge Using a Single Electron Tunneling Electrometer.
PB96-112271 02,072

Database for the Static Dielectric Constant of Water and Steam.
PB96-145586 01,103

CAPACITANCE IMAGING

Scanning Capacitance Microscopy Measurements and Modeling: Progress Towards Dopant Profiling of Silicon.
PB96-180070 01,964

CAPACITOR RATIO

Proposed Tests to Evaluate the Frequency-Dependent Capacitor Ratio for Single Electron Tunneling Experiment.
PB97-111454 01,982

CAPACITORS

Development and Characterization of Insulating Layers on Silicon Carbide: Annual Report for February 14, 1988 to February 14, 1989.
PB94-155579 02,295

Capacitors with Very Low Loss: Cryogenic Vacuum-Gap Capacitors.
PB97-122600 02,293

CAPELLA STAR

Ultraviolet Observations of Stellar Coronae: Early Results from HST.
PB94-213428 00,064

Hydrogen Lyman-alpha Emission of Capella.
PB95-202263 00,075

Transition Regions of Capella.
PB96-123336 00,105

Transition Regions of Capella (1995).
PB96-176714 00,108

CAPILLARY ELECTROPHORESIS

Electrophoretic Separations of Polymerase Chain Reaction: Amplified DNA Fragments in DNA Typing Using a Capillary Electrophoresis-Lased Induced Fluorescence System.
PB95-163036 03,536

Enhanced Detection of PCR Products Through Use of TOTO and YOYO Intercalating Dyes with Laser Induced Fluorescence - Capillary Electrophoresis.
PB95-164653 00,599

CAPILLARY FLOW

Lubrication Theory for Reactive Spreading of a Thin Drop.
PB95-189460 02,865

CAPILLARY TUBES

Experimental Data and Theoretical Modeling of Gas Flows Through Metal Capillary Leaks.
PB95-150892 04,206

CARBON

Recommendations for the Disposal of Carbon-14 Wastes.
AD-A279 133/3 02,579

Ion Broadening Parameters for Several Argon and Carbon Lines.
PB94-211562 03,843

Carbon Acidities of Aromatic Compounds. 1. Effects of In-Ring Aza and External Electron-Withdrawing Groups.
PB94-216595 00,860

Microstructural Characterization of Cobalt-Tungsten Coated Graphite Fibers.
PB96-159231 01,951

CARBON 13

Two-Dimensional POMMIE Carbon-Proton Chemical Shift Correlated (13)C NMR Spectrum Editing.
PB94-200508 00,809

CARBON 14

Factorial Design Techniques Applied to Optimization of AMS Graphite Target Preparation.
PB95-151197 00,584

Radiocarbon Measurements of Atmospheric Volatile Organic Compounds: Quantifying the Biogenic Contribution.
PB97-122352 02,574

CARBON 14 TARGET

Comparative Study of Fe-C Bead and Graphite Target Performance with the National Ocean Sciences AMS (NOSAMS) Facility Recombinator Ion Source.
PB95-175790 00,693

CARBON 60

Simulation of C60 Through the Plastic Transition Temperatures.
PB96-102546 04,713

CARBON ACIDITY

Carbon Acidities of Aromatic Compounds. 1. Effects of In-Ring Aza and External Electron-Withdrawing Groups.
PB94-216595 00,860

CARBON DIOXIDE

Photoionization of Small Molecules Using Synchrotron Radiation.
PB94-211505 03,841

Modified Leung-Griffiths Model of Vapor-Liquid Equilibrium: Extended Scaling and Binary Mixtures of Dissimilar Fluids.
PB94-216108 00,851

Thermophysical Properties of CO2 and CO2-Rich Mixtures.
PB94-216199 00,854

Study of Ventilation and Carbon Dioxide in an Office Building.
PB95-150140 02,542

Measurements of the Virial Coefficients and Equation of State of the Carbon Dioxide + Ethane System in the Supercritical Region.
PB95-151353 03,906

Ventilation, Carbon Dioxide and ASHRAE Standard 62-1989.
PB95-162095 02,544

Vibronic Coupling and Other Many-Body Effects in the 4sigmag(-1) Photoionization Channel of CO2.
PB95-162509 00,962

Limits of CO2 Monitoring in Determining Ventilation Rates.
PB95-176004 02,552

Critical Lines for Type-III Aqueous Mixtures by Generalized Corresponding-States Models.
PB96-102371 01,063

Collisional Alignment of CO2 Rotational Angular Momentum States in a Supersonic Expansion.
PB96-103171 *01,069*

Few Caveats on Carbon Dioxide Monitoring.
PB96-122650 *02,562*

Solubilities of Copper(II) and Chromium(III) beta-Diketonates in Supercritical Carbon Dioxide.
PB96-164215 *01,147*

CARBON DIOXIDE COMPLEXES

Infrared Spectra of van der Waals Complexes of Importance in Planetary Atmospheres.
PB95-125738 *00,071*

Signatures of Large Amplitude Motion in a Weakly Bound Complex: High-Resolution IR Spectroscopy and Quantum Calculations for HeCO2.
PB95-203485 *01,054*

CARBON DIOXIDE LASERS

Efficient Br(*) Laser Pumped by Frequency-Doubled Nd: YAG and Electronic-to-Vibrational Transfer-Pumped CO2 and HCN Lasers.
PB95-108684 *04,248*

New cw CO2 Laser Lines: The 9-mu m Hot Band.
PB95-168548 *04,281*

Improved Molecular Constants and Frequencies for the CO2 Laser from New High-J Regular and Hot-Band Frequency Measurements.
PB95-180634 *04,312*

CARBON FLUORIDES

Charge Transfer and Collision-Induced Dissociation Reactions of CF(2+) and CF2(2+) with the Rare Gases at a Laboratory Collision Energy of 49 eV.
PB94-185584 *00,775*

Collision-Induced Neutral Loss Reactions of Molecular Dications.
PB94-185808 *00,780*

CARBON ISOTOPES

New IUPAC Guidelines for the Reporting of Stable Hydrogen, Carbon, and Oxygen Isotope-Ratio Data. Letter to the Editor.
PB95-261962 *01,058*

CARBON-LIKE IONS

Atomic Branching Ratio Data for Carbon-Like Ions.
PB94-212842 *03,855*

CARBON MONOXIDE

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 7. CO(+), C2O2(+), and C2O2(-). (Reannouncement with New Availability Information).
AD-A239 729/7 *00,706*

Compilation of the Physical Equilibria and Related Properties of the Hydrogen-Carbon Monoxide System.
AD-A286 603/6 *00,716*

Hot Carrier Excitation of Adlayers: Time-Resolved Measurement of Adsorbate-Lattice Coupling.
PB94-172285 *00,758*

Photodecomposition Dynamics of Mo(CO)6/Si(111) 7x7: CO Internal State and Translational Energy Distributions--Translation.
PB94-199288 *00,687*

Time-Resolved Probes of Surface Dynamics.
PB94-199957 *00,803*

Global Equivalence Ratio Concept and the Prediction of Carbon Monoxide Formation in Enclosure Fires.
PB94-207511 *00,313*

Photoionization of Small Molecules Using Synchrotron Radiation.
PB94-211505 *03,841*

Vibrational Relaxation Measurements of Carbon Monoxide on Metal Clusters.
PB94-211810 *00,820*

Laser-Induced Fluorescence Measurements of Rotationally Resolved Velocity Distributions for CO(+) Drifted in He.
PB94-213139 *00,848*

Measurement of CO Pressures in the Ultrahigh Vacuum Regime Using Resonance-Enhanced Multiphoton-Ionization Time-of-Flight Mass Spectroscopy.
PB94-216041 *03,864*

Picosecond Measurement of Substrate-to-Adsorbate Energy Transfer: The Frustrated Translation of CO/Pt(111)--Translation.
PB95-126041 *00,895*

Fundamental Mechanisms for CO and Soot Formation.
PB95-143160 *01,380*

Oxidation of Soot and Carbon Monoxide in Hydrocarbon Diffusion Flames.
PB95-150215 *01,382*

Optical Measurements of Atomic Hydrogen, Hydroxyl, and Carbon Monoxide in Hydrocarbon Diffusion Flames.
PB95-150900 *02,487*

Rotational Far Infrared Spectrum of (13)CO.
PB95-152187 *00,941*

Laser Spectroscopy of Carbon Monoxide: A Frequency Reference for the Far Infrared.
PB95-163606 *04,277*

Laser Flash Photolysis/Time-Resolved FTIR Emission Study of a New Channel in the Reaction of CH3+O: Production of CO(v).
PB95-164281 *00,974*

Shape-Resonance-Enhanced Continuum-Continuum Coupling in Photoionization of CO2.
PB95-164471 *00,983*

Inner-Valence States CO(+) between 22 eV and 46 eV Studied by High Resolution Photoelectron Spectroscopy and ab Initio CI Calculations.
PB95-180055 *03,961*

Slow-Electron Collisions with CO Molecules in an Exact-Exchange Plus Parameter-Free Polarization Model.
PB95-202719 *03,989*

Carbon Monoxide Production in Compartment Fires: Reduced-Scale Enclosure Test Facility.
PB95-231700 *01,394*

Photodesorption Dynamics of CO from Si(111): The Role of Surface Defects.
PB96-111646 *03,066*

Relationship between Indoor Air Quality and Carbon Dioxide.
PB97-111249 *02,569*

Carbon Monoxide Dispersion in Residential Buildings: Literature Review and Technical Analysis.
PB97-114227 *02,571*

CARBON OXYSULFIDE

Extension of Heterodyne Frequency Measurements on OCS to 87 THz (2900 cm(-1)).
PB94-200680 *00,811*

Sub-Doppler Frequency Measurements on OCS at 87 Thz (3.4 micrometers) with the CO Overtone Laser: Considerations and Details.
PB95-128633 *04,255*

CARBON STEELS

Comparison of the Corrosion Rates of FeAl, Fe(sub 3)Al and Steel in Distilled Water and 0.5 M Sodium Chloride. Technical Report Number 2, January--March 1991.
DE94017332 *03,186*

Characterization of the Hydrogen Induced Cold Cracking Susceptibility at Simulated Weld Zones in HSLA-100 Steel.
PB94-174505 *03,746*

Langevin Approach to Hysteresis and Barkhausen Modeling in Steel.
PB94-185675 *03,206*

CARBONACEOUS MATERIALS

Sources of Urban Contemporary Carbon Aerosol.
PB95-175659 *02,551*

CARBONATE RADICALS

Electron Transfer Reaction Rates and Equilibria of the Carbonate and Sulfate Radical Anions.
PB94-212180 *00,829*

Temperature Dependence of the Rate Constants for Reactions of the Carbonate Radical with Organic and Inorganic Reductants.
PB94-212206 *00,831*

CARBONATES

Temperature Dependence of the Rate Constants for Reactions of the Carbonate Radical with Organic and Inorganic Reductants.
PB94-212206 *00,831*

CARBONIC ANHYDRASE

Active Site Ionicity and the Mechanism of Carbonic Anhydrase.
PB94-212974 *00,843*

CARBONYL COMPOUNDS

Sub-Doppler Frequency Measurements on OCS at 87 THz (3.4 mu m) with the CO Overtone Laser.
PB96-102215 *04,330*

CARBONYL SULFIDE

Extension of Heterodyne Frequency Measurements on OCS to 87 THz (2900 cm(-1)).
PB94-200680 *00,811*

Sub-Doppler Frequency Measurements on OCS at 87 Thz (3.4 micrometers) with the CO Overtone Laser: Considerations and Details.
PB95-128633 *04,255*

CARCINOGENESIS

Novel Activity of E. coli uracil DNA N-glycosylase Excision of Isodialuric Acid (5,6-dihydroxyuracil), a Major Product of Oxidative DNA Damage, from DNA.
PB96-110747 *03,543*

CARCINOGENS

DNA Base Modifications in Renal Chromatin of Wistar Rats Treated with a Renal Carcinogen, Ferric Nitrilotriacetate.
PB95-150363 *03,648*

Treatment of Wistar Rats with a Renal Carcinogen, Ferric Nitrilotriacetate, Causes DNA-Protein Cross-Linking between Thymine and Tyrosine in Their Renal Chromatin.
PB96-112115 *03,649*

CAREER DEVELOPMENT

Robotics Application to Highway Transportation. Volume 1. Final Report.
PB95-203790 *03,654*

CAROTENE

Development of Engineered Stationary Phases for the Separation of Carotenoid Isomers.
PB95-150249 *00,578*

Isolation and Structural Elucidation of the Predominant Geometrical Isomers of alpha-Carotene.
PB96-190061 *00,640*

CAROTENOIDS

Carotenoid Reversed-Phase High-Performance Liquid Chromatography Methods: Reference Compendium.
PB94-200516 *00,549*

Individual Carotenoid Content of SRM 1548 Total Diet and Influence of Storage Temperature, Lyophilization, and Irradiation on Dietary Carotenoids.
PB94-200524 *00,033*

Liquid Chromatographic Method for the Determination of Carotenoids, Retinoids, and Tocopherols in Human Serum and in Food.
PB95-153599 *00,593*

Population Distributions and Intralaboratory Reproducibility for Fat-Soluble Vitamin-Related Compounds in Human Serum.
PB96-155536 *00,624*

CARPETS

National Voluntary Laboratory Accreditation Program: Carpet and Carpet Cushion.
PB95-155560 *00,295*

CARQUINEZ STRAIT

Histopathology, Blood Chemistry, and Physiological Status of Normal and Moribund Striped Bass ('Morone saxatilis') Involved in Summer Mortality ('Die-Off') in the Sacramento-San Joaquin Delta of California.
PB94-198157 *00,034*

CARRIER DENSITY

Multicarrier Characterization Method for Extracting Mobilities and Carrier Densities of Semiconductors from Variable Magnetic Field Measurements.
PB94-212776 *02,317*

Transverse Magnetoresistance: A Novel Two-Terminal Method for Measuring the Carrier Density and Mobility of a Semiconductor Layer.
PB95-150066 *02,332*

CARRIER MOBILITY

Multicarrier Characterization Method for Extracting Mobilities and Carrier Densities of Semiconductors from Variable Magnetic Field Measurements.
PB94-212776 *02,317*

Transverse Magnetoresistance: A Novel Two-Terminal Method for Measuring the Carrier Density and Mobility of a Semiconductor Layer.
PB95-150066 *02,332*

CARRIERS

Model for Determining the Density and Mobility of Carriers in Thin Semiconducting Layers with Only Two Contacts.
PB96-102702 *02,378*

CARTRIDGES (EXPLOSIVES)

Specification for Interoperability between Ballistic Imaging Systems. Part 1. Cartridge Cases.
PB96-195524 *01,860*

CARVON MONOXIDE

Chemical Stability of Upper-Layer Fire Gases.
PB96-123385 *01,410*

CAS (COMPUTER ALGEBRA SYSTEM)

Expression Formatter for MACSYMA.
PB95-267829 *01,735*

CASCADED ELEMENTS

Coordinating Cascaded Surge Protection Devices: High-Low versus Low-High.
PB94-172061 *02,463*

Cascading Surge-Protective Devices: Options for Effective Implementation.
PB94-216488 *02,464*

Coordinating Cascaded Surge-Protective Devices: An Elusive Goal.
PB94-216496 *02,465*

CASE-BASED REASONING

Using a Multi-Layered Approach to Representing Tort Law Cases for Case-Based Reasoning.
PB96-160874 *00,135*

CASE DATA INTERCHANGE FORMAT

Mapping Integration Definition for Information Modeling (IDEF1X) Model into CASE Data Interchange Format (CDIF) Transfer File.
PB95-154670 *01,711*

Mapping Integration Definition for Function Modeling (IDEFO) Model into CASE Data Interchange Format (CDIF) Transfer File.
PB96-109533 *01,741*

CAST IRON

Cast-Iron Elastic Constants: Effect of Graphite Aspect Ratio.
PB94-213212 *03,211*

CAST STEEL RAILROAD WHEELS

Ultrasonic Measurement of Residual Stress in Cast Steel Railroad Wheels.
PB95-169199 *04,852*

CATALOGS (DOCUMENTATION)

NIST Serial Holdings, 1994.
PB94-178068 *02,745*

NIST Serial Holdings, 1995.
PB95-188926 *02,746*

CATALOGS (PUBLICATIONS)

NIST Standard Reference Data Products Catalog, 1994.
PB94-151842 *00,727*

Condensed Catalogue of Electromagnetic Environment Measurements, 30 - 300 Hz.
PB95-162210 *01,899*

Publications of the National Institute of Standards and Technology 1992 Catalog.
PB95-200747 *00,014*

NIST Standard Reference Materials (Trade Name) Catalog 1995-1996.
PB95-232518 *00,508*

NIST Standard Reference Data Products Catalog, 1995-96. Achieve with Standard Reference Data.
PB95-260808 *01,057*

Publications of the National Institute of Standards and Technology 1993 Catalog.
PB96-183215 *00,017*

CATALYSTS

Changes in the Redox State of Iridium Oxide Clusters and Their Relation to Catalytic Water Oxidation: Radiolytic and Electrochemical Studies.
PB95-107017 *00,864*

CATALYTIC CRACKING

Process Gas Chromatography Detector for Hydrocarbons Based on Catalytic Cracking.
PB95-141099 *02,485*

CATHODE RAY TUBE SCREENS

Display-Measurement Round-Robin.
PB96-119227 *02,186*

CATHODE RAY TUBES

Improving Color Measurements of Displays.
PB96-204441 *02,203*

CATHODIC DISBONDMENT MODEL

Non-Osmotic, Defect-Controlled Cathodic Disbondment of a Coating from a Steel Substrate.
PB94-216447 *03,120*

CATIONS

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 11. NO2(+), NO2(-), and NO3(-).
AD-A275 828/2 *00,708*

Tetrahedral-Framework Lithium Zinc Phosphate Phases: Location of Light-Atom Positions in LiZnPO4 H2O by Powder Neutron Diffraction and Structure Determination of LiZnPO4 by ab Initio Methods.
PB96-160510 *01,129*

CAUSALITY

Causality and Maxwell's Equations.
PB97-110522 *04,429*

CAVITATION

Cavitation Damage During Flexural Creep of SiAlON-YAG Ceramics.
PB94-200110 *03,036*

Cavitation Contributes Substantially to Tensile Creep in Silicon Nitride.
PB96-122577 *03,171*

Tension/Compression Creep Asymmetry in Si3N4.
PB97-110258 *03,096*

CAVITIES

Dimensional Characterization of Small Bores: A Survey.
PB95-162202 *02,651*

Aperture Excitation of Electrically Large, Lossy Cavities.
PB95-175675 *00,031*

Cavity Evolution during Tensil Creep of Si3N4.
PB96-204193 *03,376*

CAVITY LINERS

Texture Study of Two Molybdenum Shaped Charge Liners by Neutron Diffraction.
PB94-200177 *03,754*

Microstructure Study of Molybdenum Liners by Neutron Diffraction.
PB95-202396 *03,756*

CAVITY Q

Aperture Excitation of Electrically Large, Lossy Cavities.
PB94-145711 *00,029*

CAVITY RESONATORS

NIST 60-Millimeter Diameter Cylindrical Cavity Resonator: Performance Evaluation for Permittivity Measurements.
PB94-151776 *02,251*

Dielectric Studies of Fluids with Reentrant Resonators.
PB95-153730 *00,952*

CAVITY RINGDOWN

Laser Bandwidth Effects in Quantitative Cavity Ring-Down Spectroscopy.
PB97-112254 *04,394*

CDIF (CASE DATA INTERCHANGE FORMAT)

Mapping Integration Definition for Information Modeling (IDEF1X) Model into CASE Data Interchange Format (CDIF) Transfer File.
PB95-154670 *01,711*

Mapping Integration Definition for Function Modeling (IDEFO) Model into CASE Data Interchange Format (CDIF) Transfer File.
PB96-109533 *01,741*

CEILING JETS

Prediction of Fire Dynamics.
PB94-193620 *00,336*

CEILINGS

Comparison of Wall-Fire Behavior With and Without a Ceiling.
PB94-207404 *00,342*

Field Modeling: Simulating the Effect of Sloped Beamed Ceilings on Detector and Sprinkler Response.
PB96-122866 *01,406*

State of the Art Report on Seismic Design Requirements for Nonstructural Building Components.
PB96-193800 *00,308*

CEILINGS (ARCHITECTURE)

Fire-Plume-Generated Ceiling Jet Characteristics and Convective Heat Transfer to Ceiling and Wall Surfaces in a Two-Layer Fire Environment: Uniform Temperature Ceiling and Walls.
PB95-164711 *00,382*

Algorithm to Describe the Spread of a Wall Fire under a Ceiling.
PB95-182259 *00,261*

CELL DAMAGE

Microdosimetry and Cellular Radiation Effects of Radon Progency in Human Bronchial Airways.
PB95-152344 *03,625*

Radon in the Lung.
PB97-110035 *03,638*

CELL MASS

In situ Fluorescence Cell Mass Measurements of 'Saccharomyces cerevisiae' Using Cellular Tryptophan.
PB96-135041 *03,547*

CELL MEMBRANE

Electropermeabilization of Cell Membranes: Effect of the Resting Membrane Potential.
PB95-163291 *03,537*

CELL MOVEMENT

Gravity Dependent Processes and Intracellular Motion.
PB95-163382 *03,538*

CELLS

Gaseous Electronics Conference RF Reference Cell: An Introduction.
PB96-113329 *02,387*

Current and Voltage Measurements in the Gaseous Electronics Conference RF Reference Cell.
PB96-113337 *02,388*

Optical Emission Spectroscopy on the Gaseous Electronics Conference RF Reference Cell.
PB96-113345 *02,389*

Optical Diagnostics in the Gaseous Electronics Conference Reference Cell.
PB96-113352 *02,390*

Studies of Ion Kinetic-Energy Distributions in the Gaseous Electronics Conference RF Reference Cell.
PB96-113360 *02,391*

Microwave Diagnostic Results from the Gaseous Electronics Conference RF Reference Cell.
PB96-113378 *02,392*

Langmuir Probe Measurements in the Gaseous Electronics Conference RF Reference Cell.
PB96-113386 *02,393*

Inductively Coupled Plasma Source for the Gaseous Electronics Conference RF Reference Cell.
PB96-113394 *02,394*

Reactive Ion Etching in the Gaseous Electronics Conference RF Reference Cell.
PB96-113402 *02,395*

Dusty Plasma Studies in the Gaseous Electronics Conference Reference Cell.
PB96-113410 *02,396*

One-Dimensional Modeling Studies of the Gaseous Electronics Conference RF Reference Cell.
PB96-113428 *02,397*

Two-Dimensional Self-Consistent Radio Frequency Plasma Simulations Relevant to the Gaseous Electronics Conference RF Reference Cell.
PB96-113436 *02,398*

CELLS (BIOLOGY)

Gravity Dependent Processes and Intracellular Motion.
PB95-163382 *03,538*

Fluorescence Measurements of Tetracycline in High Cell Mass for Fermentation Monitoring.
PB95-175709 *00,601*

Repair of Products of Oxidative DNA Base Damage in Human Cells.
PB96-190129 *03,555*

CELLULOSE

Behavior of Charring Materials in Simulated Fire Environments.
PB94-196045 *01,368*

Transition from Localized Ignition to Flame Spread Over a Thin Cellulosic Material in Microgravity.
PB96-155809 *04,835*

Ignition and Subsequent Flame Spread Over a Thin Cellulosic Material.
PB96-160270 *04,836*

Ignition and Transition to Flame Spread Over a Thermally Thin Cellulosic Sheet in a Microgravity Environment.
PB96-160288 *04,837*

CELLULOSE TRIACETATE

Solid State (13)C NMR and Raman Studies of Cellulose Triacetate: Oligomers, Polymorphism, and Inferences about Chain Polarity.
PB96-176532 *01,289*

CELP (CODE EXCITED LINEAR PREDICTION)

Channel Coding for Code Excited Linear Prediction (CELP) Encoded Speech in Mobile Radio Applications.
PB95-143178 *01,475*

CEMENT

Cellular Automaton Simulations of Cement Hydration and Microstructure Development.
PB95-175055 *01,320*

CEMENT PASTES

Serial Sectioning of Hardened Cement Paste for Scanning Electron Microscopy.
PB94-172640 *01,305*

CEMENT SYSTEMS

Formation of Hydroxyapatite in Cement Systems.
PB95-175261 *00,170*

CEMENTS

Digitized Simulation of Mercury Intrusion Porosimetry.
PB94-172236 *01,304*

Serial Sectioning of Hardened Cement Paste for Scanning Electron Microscopy.
PB94-172640 *01,305*

Quantitative Phase Abundance Analysis of Three Cement Clinker Reference Materials by Scanning Electron Microscopy.
PB94-173051 *00,333*

Expansion of Cementitious Materials Exposed to Sulfate Solutions.
PB94-185782 *02,577*

Sulfate Attack of Cementitious Materials: Volumetric Relations and Expansions.
PB94-187317 *03,232*

Digitized Direct Simulation Model of the Microstructural Development of Cement Paste.
PB94-198777 *01,309*

Digitized Simulation Model for Microstructural Development.
PB94-198785 *01,310*

Modelling the Leaching of Calcium Hydroxide from Cement Paste: Effects on Pore Space Percolation and Diffusivity.
PB94-198793 *01,311*

Diffusion Studies in a Digital-Image-Based Cement Paste Microstructural Model.
PB94-198801 *01,312*

Survey of Recent Cementitious Materials Research in Western Europe.
PB94-218583 *00,353*

Fundamental Computer Simulation Models for Cement-Based Materials.
PB95-126009 *00,364*

Rheology of Fresh Cement Paste.
PB95-163150 *00,378*

Unreacted Cement Content in Macro-Defect-Free Composites: Impact on Processing-Structure-Property Relations.
PB96-141270 *03,174*

Application of Digital-Image-Based Models to Microstructure, Transport Properties, and Degradation of Cement-Based Materials.

Optical Probing of Cold Trapped Atoms.
PB95-175469 *04,296*

Angle-Differential and Momentum-Transfer Cross Sections for Low-Energy Electron-Cs Scattering.
PB95-203402 *04,005*

Relativistic R-Matrix Calculations for Electron - Alkali-Metal-Atom Scattering: Cs as a Test Case.
PB95-203410 *04,006*

Precision Lifetime Measurements of Cs 6p (2)P1/2 and 6p (2)P3/2 Levels by Single-Photon Counting.
PB95-203816 *04,010*

CESIUM 137

Protection Against Radiations from Radium, Cobalt-60, and Cesium-137.
AD-A279 261/2 *03,607*

Estimation of the Absorbed Dose in Radiation-Processed Food. 1. Test of the EPR Response Function by a Linear Regression Analysis.
PB94-199718 *00,039*

CESIUM FREQUENCY STANDARDS

NIST Optically Pumped Cesium Frequency Standard.
PB94-211117 *03,835*

NIST-7, the New US Primary Frequency Standard.
PB95-153458 *01,534*

Microwave Leakage as a Source of Frequency Error and Long-Term Instability in Cesium Atomic-Beam Frequency Standards.
PB95-180501 *01,541*

Velocity Distribution of Atomic Beams by Gated Optical Pumping.
PB95-180519 *01,542*

Hybrid Digital/Analog Servo for the NIST-7 Frequency Standard.
PB95-180618 *01,544*

CF3I

Temperature Dependence of the Ultraviolet Absorption Cross Section of CF3I.
PB96-204169 *01,168*

CGOB (CERTAINTY GRID TO OBJECT BOUNDARY)

Certainty Grid to Object Boundary Algorithm.
PB94-203510 *01,835*

CHAIN MOLECULES

Principle of Congruence and Its Application to Compressible States.
PB96-102892 *01,068*

CHAIN POLARITY

Solid State (13)C NMR and Raman Studies of Cellulose Triacetate: Oligomers, Polymorphism, and Inferences about Chain Polarity.
PB96-176532 *01,289*

CHAIN SCISSION

Gas Phase Oxygen Effect on Chain Scission and Monomer Content in Bulk Poly(methyl methacrylate) Degraded by External Thermal Radiation.
PB96-204078 *01,293*

CHAINS

Effect of Hydrodynamic Interactions on a Terminally Anchored Bead-Rod Model Chain.
PB95-141156 *01,237*

CHALCOGENIDES

Thermochemical Studies of Inorganic Chalcogenides by Fluorine-Combustion Calorimetry: Binary Compounds of Germanium and Silicon with Sulfur, Selenium and Tellurium.
PB97-112528 *01,181*

CHAMBERS

Spatial Correlation Function for Fields in a Reverberation Chamber.
PB96-148077 *04,427*

CHANGES

Operating Procedures and Life Cycle Documentation for the Initial Graphics Exchange Specification.
PB95-242285 *02,782*

CHANNEL CAPACITY

Capacity of the Lp Norm-Constrained Poisson Channel.
PB95-125753 *01,515*

CHANNEL FLOW

Heat Transfer in Thin, Compact Heat Exchangers with Circular, Rectangular, or Pin-Fin Flow Passages.
PB95-140943 *02,751*

CHANNELS (DATA TRANSMISSION)

Channel Coding for Code Excited Linear Prediction (CELP) Encoded Speech in Mobile Radio Applications.
PB95-143178 *01,475*

CHAOS

Chaos in a Computer-Animated Pendulum.
PB94-212651 *03,852*

Fluctuations in Probability Distribution on Chaotic Attractors.
PB96-102330 *04,022*

Chaotic Motions of Coupled Galloping Oscillators and Their Modeling as Diffusion Progresses.
PB96-122718 *04,823*

Non-Gaussian Noise Effects on Reliability of Multistable Systems.
PB96-122726 *04,213*

Transitions to Chaos Induced by Additive and Multiplicative Noise.
PB96-155759 *03,750*

Spectrum of the Stochastically Forced Duffing-Holmes Oscillator.
PB96-155767 *00,216*

Necessary Condition for Homoclinic Chaos Induces by Additive Noise.
PB96-155775 *04,063*

Noise-Induced Transitions to Chaos.
PB96-156120 *00,217*

Deterministic and Stochastic Chaos.
PB96-156138 *00,218*

Experimental and Numerical Chaos in Continuous Systems: Two Case Studies.
PB96-156146 *00,219*

CHARACTER RECOGNITION

Analysis of a Biologically Motivated Neural Network for Character Recognition.
PB94-172277 *00,182*

Self-Organizing Neural Network Character Recognition on a Massively Parallel Computer.
PB95-163994 *01,845*

Self-Organizing Neural Network Character Recognition Using Adaptive Filtering and Feature Extraction.
PB96-119797 *01,855*

CHARACTERISTIC IMPEDANCE

Measurements of the Characteristic Impedance of Coaxial Air Line Standards.
PB95-168787 *02,221*

Comments on 'Conversions between S, Z, Y, h, ABCD, and T Parameters Which Are Valid for Complex Source and Load Impedances'.
PB96-102785 *02,069*

CHARACTERIZATION

Characteristics of Adhesive-Bonded Seams Sampled from EPDM Roof Membranes.
PB95-162491 *00,377*

Cement and Concrete Characterization by Scanning Electron Microscopy.
PB95-163168 *00,379*

CHARGE CARRIERS

Correction to the Decay Rate of Nonequilibrium Carrier Distributions Due to Scattering-in Processes.
PB94-185840 *04,452*

CHARGE DISTRIBUTION

Influence of Surface Charge on the Stochastic Behavior of Partial Discharge in Dielectrics.
PB96-122767 *01,931*

CHARGE EXPANSION THEORY

Relativistic Modifications of Charge Expansion Theory.
PB96-123799 *04,052*

CHARGE TRANSFER

Charge Transfer and Collision-Induced Dissociation Reactions of CF(2+) and CF2(2+) with the Rare Gases at a Laboratory Collision Energy of 49 eV.
PB94-185584 *00,775*

Measuring Contact Charge Transfer at Interfaces: A New Experimental Technique.
PB95-164570 *03,053*

Kinetics and Dynamics of Vibrationally State Resolved Ion-Molecule Reactions: (14)N2(+)(v=1 and 2) and (15)N2(+)(v=0,1 and 2) with (14)N2.
PB96-102348 *04,023*

Kinetic Energy Distribution of Ions Produced from Townsend Discharges in Neon and Argon.
PB96-111927 *04,413*

Influence of Coadsorbed Potassium on the Electron-Stimulated Desorption of F(+), F(-), and F(*) from PF3 on Ru(0001).
PB96-157946 *04,072*

CHARGED IONS

Observation and Visible and uv Magnetic Dipole Transitions in Highly Charged Xenon and Barium.
PB96-138441 *04,056*

CHARGED PARTICLES

Visible and UV Light from Highly Charged Ions: Exotic Matter Advancing Technology.
PB96-119391 *04,414*

CHARPY V NOTCH MACHINES

Proposed Changes to Charpy V-Notch Machine Certification Requirements.
PB96-135363 *02,955*

CHARRING

Behavior of Charring Materials in Simulated Fire Environments.
PB94-196045 *01,368*

Investigation of the Thermal Stability and Char-Forming Tendency of Cross-linked Poly(methyl methacrylate).
PB94-213501 *03,380*

CHARTS

Cryogenic Properties of Silver.
PB94-203593 *03,330*

CHEMICAL AFFINITY

Imposed Oscillations of Kinetic Barriers Can Cause an Enzyme to Drive a Chemical Reaction Away from Equilibrium.
PB96-161625 *01,137*

CHEMICAL ANALYSIS

Airborne Asbestos Method: Standard Test Method for High Precision Counting of Asbestos Collected on Filters. Version 1.0.

Bonding in Doubly Charged Diatomics.
PB95-164315 00,976

Neutron Scattering Study of the Lattice Modes of Solid Cubane.
PB96-147152 01,126

CHEMICAL COMPOSITION

Standard Materials. A Descriptive List with Prices.
AD-A278 140/9 00,500

Classification of Advanced Technical Ceramics.
N94-35335/6 03,030

Recently Developed NIST Food Related Standard Reference Materials.
PB94-198322 00,035

Constituents and Physical Properties of the C6+ Fraction of Natural Gas. Topical Report, April-June 1994.
PB95-136644 02,483

Grazing-Incidence X-Ray Photoelectron Spectroscopy: A Novel Approach to Thin Film Characterization.
PB95-153128 04,589

Determination of Sulfur in Fossil Fuels by Isotope Dilution Thermal Ionization Mass Spectrometry.
PB96-141379 02,495

Inorganic Crystal Structure Database (ICSD) and Standardized Data and Crystal Chemical Characterization of Inorganic Structure Types (TYPIX): Two Tools for Inorganic Chemists and Crystallographers.
PB97-109037 00,648

Evaluation of Crystallographic Data with the Program DIAMOND.
PB97-109045 00,649

CHEMICAL COMPOSITIONS

Certifying the Chemical Composition of a Biological Material: A Case Study.
PB96-164272 00,636

CHEMICAL COMPOUNDS

NIOSH Pocket Guide to Chemical Hazards.
PB95-100368 03,603

CHEMICAL DISSOCIATION

Fragment State Correlations in the Dissociation of NO.HF(v=1).
PB95-164430 00,982

CHEMICAL ENGINEERING

Application of Expert System to Select Data Sources from Chemical Information Databases.
PB95-125654 00,505

CHEMICAL EQUILIBRIUM

Compilation of the Physical Equilibria and Related Properties of the Hydrogen-Carbon Monoxide System.
AD-A286 603/6 00,716

Calorimetric Determination of the Standard Transformed Enthalpy of a Biochemical Reaction at Specified PH and pMg.
PB94-198249 03,454

Electron Transfer Reaction Rates and Equilibria of the Carbonate and Sulfate Radical Anions.
PB94-212180 00,829

Thermochemistry of the Reactions between Adenosine, Adenosine 5'-monophosphate, Inosine, and Inosine 5'-monophosphate; the Conversion of L-histidine to (Urocanic Acid+Ammonia).
PB94-213113 03,460

CHEMICAL EXPLOSIVES

Separation and Identification of Organic Gunshot and Explosive Constituents by Micellar Electrokinetic Capillary Electrophoresis.
PB95-107249 00,566

CHEMICAL INHIBITION

Effect of CF3H and CF3Br on Laminar Diffusion Flames in Normal and Microgravity.
PB96-161831 01,420

Effect of CF3H and CF3Br on Laminar Diffusion Flames in Normal and Microgravity.
PB96-161849 01,421

Inhibition of Premixed Methane-Air Flames by Iron Pentacarbonyl.
PB96-163712 00,513

Parametric Study of Hydrogen Fluoride Formation in Suppressed Fires.
PB96-163720 00,514

CHEMICAL INTERACTIONS

Effect of Chemical Interaction on Barenblatt Crack Profiles in Brittle Solids.
PB96-180245 02,996

CHEMICAL KINETICS

Rate Constants for the Decay and Reactions of the Lowest Electronically Excited Singlet State of Molecular Oxygen in Solution. An Expanded and Revised Compilation.
PB96-145826 01,106

Critical Review of Rate Constants for Reactions of Transients from Metal Ions and Metal Complexes in Aqueous Solution.
PB96-145859 01,109

Kinetics of the Reaction of the Sulfate Radical with the Oxalate Anion.
PB97-119127 01,186

CHEMICAL MODELS

Fokker-Planck Description of Multivalent Interactions.
PB95-108478 00,879

CHEMICAL PREPARATION

Octacalcium Phosphate Carboxylates. 1. Preparation and Identification.
PB95-161535 00,660

CHEMICAL PROPERTIES

Classification of Advanced Technical Ceramics.
N94-35335/6 03,030

Journal of Physical and Chemical Reference Data, Volume 22, No. 1, January/February 1993.
PB94-160975 00,729

Journal of Physical and Chemical Reference Data, Volume 22, No. 2, March/April 1993.
PB94-162211 00,733

Journal of Physical and Chemical Reference Data, Volume 22, No. 3, May/June 1993.
PB94-162260 00,738

Journal of Physical and Chemical Reference Data, Volume 22, No. 4, July/August 1993.
PB94-162310 00,743

Journal of Physical and Chemical Reference Data, Volume 22, No. 5, September/October 1993.
PB94-162336 00,745

Journal of Physical and Chemical Reference Data, Volume 22, No. 6, November/December 1993.
PB94-168556 00,749

Physicochemical Properties of Calcific Deposits Isolated from Porcine Bioprosthetic Heart Valves Removed from Patients Following 2-13 Years Function.
PB94-172863 00,184

Physical and Chemical Properties of Resin-Reinforced Calcium Phosphate Cements.
PB95-180212 00,171

Journal of Physical and Chemical Reference Data, Volume 24, No. 1, January/February 1995.
PB96-145560 01,101

Journal of Physical and Chemical Reference Data, Volume 24, No. 2, March/April 1995.
PB96-145818 01,105

Journal of Physical and Chemical Reference Data, Volume 24, No. 3, May/June 1995.
PB96-145842 01,108

Journal of Physical and Chemical Reference Data, Volume 24, No. 4, July/August 1995.
PB96-145883 01,112

Journal of Physical and Chemical Reference Data, Volume 24, No. 5, September/October 1995.
PB96-145925 01,116

Journal of Physical and Chemical Reference Data, Volume 24, No. 6, November/December 1995.
PB96-145966 01,120

Environmental Aspects of Halon Replacements: Considerations for Advanced Agents and the Ozone Depletion Potential of CF3I.
PB97-122261 03,301

CHEMICAL RADICALS

Temperature Dependence of the Rate Constants for Reaction of Inorganic Radicals with Organic Reductants.
PB94-198280 00,783

Oxidation of 10-Methylacridan, a Synthetic Analogue of NADH and Deprotonation of Its Cation Radical. Convergent Application of Laser Flash Photolysis and Direct and Redox Catalyzed Electrochemistry to the Kinetics of Deprotonation of the Cation Radical.
PB94-198371 00,785

Temperature Dependence of the Rate Constants for Reactions of the Sulfate Radical, SO4-, with Anions.
PB94-212172 00,828

Temperature Dependence of the Rate Constants for Reactions of the Carbonate Radical with Organic and Inorganic Reductants.
PB94-212206 00,831

Resonance Enhanced Multiphoton Ionization Spectroscopy of the SnF Radical.
PB97-111223 01,176

CHEMICAL REACTION KINETICS

Progress in the Development of a Chemical Kinetic Database for Combustion Chemistry.
PB95-151056 01,384

Atmospheric Lifetimes of HFC-143a and HFC-245fa: Flash Photolysis Resonance Fluorescence Measurements of the OH Reaction Rate Constants.
PB97-112577 00,118

CHEMICAL REACTION MECHANISMS

Fluorinated Hydrocarbon Flame Suppression Chemistry.
PB94-185113 01,362

Unusual Spin-Trap Chemistry for the Reaction of Hydroxyl Radical with the Carcinogen N-Nitrosodimethylamine.
PB95-151643 00,692

Polymerization Initiation by N-p-Tolylglycine: Free-Radical Reactions Studied by Pulse and Steady-State Radiolysis.
PB95-180014 01,269

CHEMICAL REACTIONS

Tables of Chemical Kinetics Homogeneous Reactions.
AD-A280 293/2 00,715

Facile Synthesis of Novel Fluorinated Multifunctional Acrylates.
PB94-198389 01,207

New Rydberg States of Aluminum Monofluoride Observed by Resonance-Enhanced Multiphoton Ionization Spectroscopy.
PB94-199544 00,797

Equilibrium and Calorimetric Investigation of the Hydrolysis of L-Tryptophan to (Indole + Pyruvate + Ammonia).
PB95-163317 00,661

Thermodynamic Study of the Reactions of Cyclodextrins with Primary and Secondary Aliphatic Alcohols, with D- and L-Phenylalanine, and with L-Phenylalanineamide.
PB95-180873 01,016

Quadratic Response of a Chemical Reaction to External Oscillations.
PB96-161633 01,138

Noise Analysis of Ionization Kinetics in a Protein Ion Channel.
PB96-161682 04,093

CHEMICAL REACTORS

Low Temperature H(sub 2)S Separation Using Membrane Reactor with Redox Catalyst.
DE94008991 02,471

Modeling Ceramic Sub-Micron Particle Formation from the Vapor Using Detailed Chemical Kinetics: Comparison with In-situ Laser Diagnostics.
PB95-151965 00,671

Optimization of ECR-Based PECVD Oxide Films for Superconducting Integrated Circuit Fabrication.
PB95-169165 02,051

CHEMICAL SCIENCE AND TECHNOLOGY LIBRARY

CSTL Technical Activities 1991.
PB94-160769 00,728

CSTL Technical Activities, 1993.
PB95-160602 00,953

CHEMICAL VAPOR DEPOSITION

Gas Phase Reactions Relevant to Chemical Vapor Deposition: Optical Diagnostics.
PB94-199338 03,116

Gas Phase Reactions Relevant to Chemical Vapor Deposition: Numerical Modeling.
PB94-199346 03,117

Modeling Ceramic Sub-Micron Particle Formation from the Vapor Using Detailed Chemical Kinetics: Comparison with In-situ Laser Diagnostics.
PB95-151965 00,671

Multiphoton Ionization Spectroscopy Measurements of Silicon Atoms during Vapor Phase Synthesis of Ceramic Particles.
PB95-151999 03,913

Lineshape Analysis of the Raman Spectrum of Diamond Films Grown by Hot-Filament and Microwave-Plasma Chemical-Vapor Deposition.
PB95-162392 03,016

Studies of Defects in Diamond Films and Particles by Raman and Luminescence Spectroscopies.
PB95-162400 03,017

Surface Roughness Evaluation of Diamond Films Grown on Substrates with a High Density of Nucleation Sites.
PB95-162418 03,018

Optimization of ECR-Based PECVD Oxide Films for Superconducting Integrated Circuit Fabrication.
PB95-169165 *02,051*

CHEMICALS
Standard Materials. A Descriptive List with Prices.
AD-A278 140/9 *00,500*

CHEMISTRY
CSTL Technical Activities 1991.
PB94-160769 *00,728*

CSTL Technical Activities, 1993.
PB95-160602 *00,953*

CSTL Technical Activities, 1994.
PB95-242319 *00,608*

CSTL Technical Activities, 1995.
PB96-214630 *00,647*

CHEMISTRY WORKCELL
Integrating Automated Systems with Modular Architecture.
PB95-150231 *00,577*

CHEMOMETRICS
Importance of Chemometrics in Biomedical Measurements.
PB94-200599 *00,550*

Metrological Measurement Accuracy: Discussion of 'Measurement Error Models' by Leon Jay Gleser.
PB94-200607 *00,551*

CHEMOPREVENTIVE AGENTS
Methods for Analysis of Cancer Chemopreventive Agents in Human Serum.
PB95-200648 *03,502*

Liquid Chromatographic Determination of Carotenoids in Human Serum Using an Engineered C30 and a C18 Stationary Phase.
PB97-119333 *03,512*

CHEWING GUM
Effects on Whole Saliva of Chewing Gums Containing Calcium Phosphates.
PB95-153169 *03,563*

CHINA
Glimpse of Materials Research in China: A Report from an Interagency Study Team on Materials Visiting China from June 19, 1995 to June 30, 1995.
PB96-112677 *02,978*

CHISSA (CENTER FOR HIGH INTEGRITY SOFTWARE SYSTEM ASSURANCE)
Center for High Integrity Software System Assurance: Initial Goals and Activities.
PB95-251674 *01,734*

CHLORHEXIDINE
Interaction of Chlorhexidine Digluconate with and Adsorption of Chlorhexidine on Hydroxyapatite.
PB95-175907 *03,566*

CHLORHEXIDINE DIGLUCONATE
Interaction of Chlorhexidine Digluconate with and Adsorption of Chlorhexidine on Hydroxyapatite.
PB95-175907 *03,566*

CHLORIDES
Computer Simulation of the Diffusivity of Cement-Based Materials.
PB95-125985 *00,362*

In situ Measurements of Chloride Ion and Corrosion Potential at the Coating/Metal Interface.
PB95-140893 *03,122*

CHLORINATED AROMATIC HYDROCARBONS
Determination of PCBs and Chlorinated Hydrocarbons in Marine Mammal Tissues.
PB95-162640 *03,744*

Comparison of Selectivities for PCBs in Gas Chromatography for a Series of Cyanobiphenyl Stationary Phases.
PB96-119458 *00,618*

CHLORINATED POLYVINYL CHLORIDE
Comparison of Fire Sprinkler Piping Materials: Steel, Copper, Chlorinated Polyvinyl Chloride and Polybutylene, in Residential and Light Hazard Installations.
PB95-182267 *00,299*

CHLORINE
Relative Photoionization and Photodetachment Cross Sections for Particular Fine-Structure Transitions with Application to Cl 3s-subshell Photoionization.
PB95-203097 *03,998*

Laser Flash Photolysis, Time-Resolved Fourier Transform Infrared Emission Study of the Reaction Cl + C2H5 yields HCl(v) + C2H4.
PB95-203238 *01,049*

State-Resolved Rotational Energy Transfer in Open Shell Collisions: Cl((2)P3/2)+HCl.
PB96-176607 *01,157*

CHLORINE 36
36Cl/Cl Accelerator-Mass-Spectrometry Standards: Verification of Their Serial-Dilution-Solution Preparations by Radioactivity Measurements.
PB94-140563 *00,524*

CHLORINE IONS
Absolute Cross-Section Measurements for Electron-Impact Ionization of C1(+1).
PB94-199841 *03,818*

CHLORINE OXIDES
Infrared Spectrum of OClO in the 2000/cm(-1) Region: The 2(nu sub 1) and (nu sub 1 + nu sub 3) Bands.
PB95-141032 *00,908*

Intensities and Dipole Moment Derivatives of the Fundamental Bands of (35)ClO2 and an Intensity Analysis of the nu1 Band.
PB95-141040 *00,909*

CHLOROBENZENE
Oscillometric and Conductometric Analysis of Aqueous and Organic Dosimeter Solutions.
PB96-135256 *04,054*

CHLOROBENZENES
Rate Constants for Hydrogem Atom Attack on Some Chlorinated Benzenes at High Temperature.
PB94-200581 *00,810*

Incinerability of Perchloroethylene and Chlorobenzene.
PB95-163457 *01,388*

CHLOROFLUOROCARBONS
Role of R22 in Refrigerating and Air Conditioning Equipment.
PB94-199783 *03,253*

Retention of Halocarbons on a Hexafluoropropylene Epoxide Modified Graphitized Carbon Black. Part 1. Methane-Based Compounds.
PB95-175196 *03,272*

Physical Properties of Alternatives to the Fully Halogenated Chlorofluorocarbons.
PB96-119573 *03,279*

Retention of Halocarbons on a Hexafluoropropylene Epoxide-Modified Graphitized Carbon Black. 4. Propane-Based Compounds.
PB96-164033 *03,284*

REFPROP Refrigerant Properties Database: Capabilities, Limitations, and Future Directions.
PB96-167150 *01,149*

Retention of Halocarbons on a Hexafluoropropylene Epoxide-Modified Graphitized Carbon Black. 3. Ethene-Based Compounds.
PB96-167309 *03,286*

CHLOROHYDROCARBONS
Gas Phase Reactivity Study of OH Radicals with 1,1-Dichloroethene and cis-1,1-Dichloroethene and Trans-1,2-Dichloroethene over the Temperature Range 240-400 K.
PB95-152146 *00,939*

CHOLESTEROL
Isotope Dilution Mass Spectrometry as a Candidate Definitive Method for Determining Total Glycerides and Triglycerides in Serum.
PB96-102280 *03,519*

CHRIAL RECOGNITION
Use of a Naphthylethylcarbamoylated- beta-Cyclodextrin Chiral Stationary Phase for the Separation of Drug Enantiomers and Related Compounds by Sub- and Supercritical Fluid Chromatography.
PB97-113260 *00,653*

CHROMATIN
Oxidative Damage to DNA in Mammalian Chromatin.
PB94-199825 *03,525*

Modification of DNA Bases in Chromatin of Intact Target Human Cells by Activated Human Polymorphonuclear Leukocytes.
PB94-199833 *03,526*

Nickel(II)-Mediated Oxidative DNA Base Damage in Renal and Hepatic Chromatin of Pregnant Rats and Their Fetuses. Possible Relevance to Carcinogenesis.
PB94-212628 *03,646*

Oxidative DNA Base Damage in Renal, Hepatic, and Pulmonary Chromatin of Rats After Intraperitoneal Injection of Cobalt (II) Acetate.
PB95-150025 *03,647*

DNA Base Modifications in Renal Chromatin of Wistar Rats Treated with a Renal Carcinogen, Ferric Nitrilotriacetate.
PB95-150363 *03,648*

DNA Base Damage Generated In vivo in Hepatic Chromatin of Mice upon Whole Body y-Irradiation.
PB95-161741 *03,627*

Treatment of Wistar Rats with a Renal Carcinogen, Ferric Nitrilotriacetate, Causes DNA-Protein Cross-Linking between Thymine and Tyrosine in Their Renal Chromatin.
PB96-112115 *03,649*

Formation of DNA-Protein Cross-Links in Cultured Mammalian Cells Upon Treatment with Iron Ions.
PB96-137724 *03,651*

CHROMATOGRAPHIC ANALYSIS
Liquid Chromatography: Laser-Enhanced Ionization Spectrometry for the Speciation of Organolead Compounds.
PB94-185253 *00,530*

Measurement of Diffusion in Supercritical Fluid Systems: A Review.
PB94-199189 *00,795*

Comparison of the Liquid Chromatographic Behavior of Selected Steroid Isomers Using Different Reversed-Phase Materials and Mobile Phase Compositions.
PB95-140976 *00,574*

Chromatographic Cryofocusing and Cryotrapping with the Vortex Tube.
PB95-180113 *00,604*

Terminally Anchored Chain Interphases: Their Chromatographic Properties.
PB95-181061 *01,272*

Permeation Tube Approach to Long-Term Use of Automatic Sampler Retention Index Standards.
PB96-167291 *00,639*

CHROMATOGRAPHY
Measurement of Diffusion in Fluid Systems: Applications to the Supercritical Fluid Region.
PB95-175188 *02,490*

Solubility Measurement by Direct Injection of Supercritical-Fluid Solutions into a HPLC System.
PB95-175626 *00,997*

Determination of Vitamin K1 in Serum Using Catalytic-Reduction Liquid Chromatography with Fluorescence Detection.
PB96-138425 *03,506*

Selectivity Trends in Packed Column Supercritical Fluid Chromatography with C18 Stationary Phases.
PB96-138581 *00,622*

Simple and Efficient Methane-Marker Devices for Chromatographic Samples.
PB96-164041 *00,635*

CHROMIUM
Simple, Compact, High-Purity Cr Evaporator for Ultrahigh Vacuum.
PB94-216678 *04,520*

Magnetic Moments in Cr Thin Films on Fe(100).
PB95-108429 *04,525*

Influence of Cr Growth on Exchange Coupling in Fe/Cr/Fe(100).
PB95-150181 *04,562*

Scanning Tunneling Microscopy Study of the Growth of Cr/Fe(001): Correlation with Exchange Coupling of Magnetic Layers.
PB95-150330 *04,568*

Nanofabrication of a Two-Dimensional Array Using Laser-Focused Atomic Deposition.
PB96-119417 *04,732*

Influence of Thickness Fluctuations on Exchange Coupling in Fe/Cr/Fe Structures.
PB96-135371 *04,745*

CHROMIUM INTERMETALLICS
Crystallographic Characterization of Some Intermetallic Compounds in the Al-Cr System.
PB94-198702 *03,318*

CHROMIUM IONS
Improved Wavelengths for Prominent Lines of Cr XVI to Cr XXII.
PB95-150629 *03,895*

CHROMOSPHERES
High-Velocity Plasma in the Transition Region of AU Microscopii: Evidence for Magnetic Reconnection and Saturated Heating during Quiescent and Flaring Conditions.
PB96-102694 *00,091*

CHURCHILL EISENHART
Churchill Eisenhart, 1913-1994.
PB96-137740 *03,447*

CIGARETTES
Quantifying the Ignition Propensity of Cigarettes.
PB96-155411 *00,306*

CIM (COMPUTER INTEGRATED MANUFACTURING)
Roadmap for the Computer Integrated Manufacturing (CIM) Application Framework.
PB96-122759 *02,832*

CIRCUIT ANALYSIS
Diakoptic and Large Change Sensitivity Analysis.
PB95-150538 *02,038*

CIRCUIT BOARDS
Evaluation and Qualification Standards for an X-Ray Laminography System.
PB94-172954 *02,029*

Operating Principles of the SBus MultiKron Interface Board.
PB95-231783 *01,630*

Open-Ended Coaxial Probes for Nondestructive Testing of Substrates and Circuit Boards.
PB96-122825 *02,078*

Operating Principles of MultiKron Virtual Counter Performance Instrumentation for MIMD Computers.
PB96-131529 *01,632*

CIRCUIT BREAKERS
Investigation of S2F10 Production and Mitigation in Compressed SF6-Insulated Power Systems.
PB94-212388 *02,467*

CIRCUIT DESIGN
CMOS Circuit Design for Controlling Temperature in Micromachined Devices.
PB96-156088 *02,196*

CIRCUIT INTERCONNECTIONS
YBa2Cu3O7-x to Si Interconnection for Hybrid Superconductor/Semiconductor Integration.
PB94-211711 *02,315*

Accurate Experimental Characterization of Interconnects: A Discussion of 'Experimental Electrical Characterization of Interconnects and Discontinuities in High-Speed Digital Systems'.
PB94-216389 *02,217*

Interconnection Transmission Line Parameter Characterization.
PB94-216397 *02,218*

Metrology and Data for Microelectronic Packaging and Interconnection: Results of a Joint Workshop on Materials

Metrology and Data for Commercial Electrical and Optical Packaging and Interconnection Technologies. Held in Gaithersburg, Maryland on May 5-6, 1994. Volume 1. Results.
PB95-143111 *02,328*

Metrology and Data for Microelectronic Packaging and Interconnection: Results of a Joint Workshop on Materials Metrology and Data for Commercial Electrical and Optical Packaging and Interconnection Technologies. Held in Gaithersburg, Maryland on May 5-6, 1994. Volume 2. Presentation Material.
PB95-143327 *02,330*

Provision of Isochronous Service on IEEE 802.6.
PB96-160635 *01,501*

Accurate Electrical Characterization of High-Speed Interconnections.
PB96-167143 *02,240*

CIRCUIT PROTECTION
Coordinating Cascaded Surge Protection Devices: High-Low versus Low-High.
PB94-172061 *02,463*

Guarding Against Transients.
PB94-216470 *01,623*

Cascading Surge-Protective Devices: Options for Effective Implementation.
PB94-216488 *02,464*

Coordinating Cascaded Surge-Protective Devices: An Elusive Goal.
PB94-216496 *02,465*

Important Link in Entire-House Protection: Surge Reference Equalizers.
PB94-216504 *02,219*

Surging the Upside-Down House: Looking into Upsetting Reference Voltages.
PB96-112313 *02,385*

CIRCUIT SIMULATORS
Simulating the Dynamic Electro Thermal Behavior of Power Electronic Circuits and Systems.
PB95-161014 *02,345*

Thermal Component Models for Electro-Thermal Network Simulation.
PB95-161022 *02,346*

CIRCUIT TECHNOLOGY
Business and Manufacturing Motivations for the Developing of Analytical Technology and Metrology for Semiconductors.
PB96-161948 *04,778*

CIRCUIT TESTERS
Automated Josephson Integrated Circuit Test System.
PB95-175246 *02,057*

CIRCUITS
Handbook Preferred Circuits Navy Aeronautical Electronic Equipment. Supplement Number 3.
AD-A278 782/8 *00,026*

Handbook Preferred Circuits Navy Aeronautical Electronic Equipment. Supplement Number 2.
AD-A278 783/6 *00,027*

Handbook Preferred Circuits Navy Aeronautical Electronic Equipment. Supplement Number 1.
AD-A278 784/4 *00,028*

Wide Band Active Current Transformer and Shunt.
PB95-126371 *02,036*

Precision Tests of a Quantum Hall Effect Device DC Equivalent Circuit Using Double-Series and Triple-Series Connections.
PB96-159256 *01,953*

CIRCULAR BRIDGE COLUMNS
Jacket Thickness Requirements for Seismic Retrofitting of Circular Bridge Columns.
PB95-163267 *01,336*

CITIS (CONTRACTOR INTEGRATED TECHNICAL INFORMATION SERVICE)
CALS-Contractor Integrated Technical Information Service (CITIS), Functional Requirements.
PB94-962600 *03,663*

CALS-Contractor Integrated Technical Information Service (CITIS), Functional Requirements.
PB95-962600 *03,672*

CITRIC ACID
Interaction of Citric Acid with Hydroxyapatite: Surface Exchange of Ions and Precipitation of Calcium Citrate.
PB97-119309 *03,584*

CIVIL ENGINEERING
Materials Aspects of Fiber-Reinforced Polymer Composites in Infrastructure.
PB96-210695 *03,184*

CLAD METALS
Leady Axisymmetric Modes in Infinite Clad Rods. Part 1.
PB95-162905 *04,187*

CLADDING
Literature Review on Seismic Performance of Building Cladding Systems.
PB96-106901 *00,455*

CLADDINGS
Optical Fiber Geometry: Accurate Measurement of Cladding Diameter.
PB95-151940 *04,266*

CLAMPING CIRCUITS
Perception of Clamp Noise in Television Receivers.
PB96-119433 *01,489*

CLAPEYRON EQUATION
Calculation of Enthalpy and Entropy Differences of Near-Critical Binary Mixtures with the Modified Leung-Griffiths Model.
PB95-108635 *00,885*

CLASSICAL ANALYSIS
Classical Analysis: A Look at the Past, Present, and Future.
PB94-185063 *00,528*

CLASSICAL LIMIT
Quantum Collisional Transfer Contributions to the Density Dependence of Gaseous Viscosity.
PB96-161914 *01,142*

CLASSIFICATION
Metropolitan Areas (Including MSAs, CMSAs, PMASs, and NECMAs). Category: Data Standards and Guidelines; Subcategory: Representations and Codes.
FIPS PUB 8-6 *04,873*

Countries, Dependencies, Areas of Special Sovereignty, and Their Principal Administrative Divisions. Category: Data Standards and Guidelines; Subcategory: Representation and Codes.
FIPS PUB 10-4 *00,128*

Guideline: Codes for Named Populated Places, Primary County Divisions, and Other Locational Entities of the United States, Puerto Rico, and the Outlying Areas. Category: Data Standards and Guidelines. Subcategory: Representations and Codes.
FIPS PUB 55-3 *04,865*

Guideline: Codes for Named Populatd Places, Primary County Divisions, and Other Locational Entities of the United States, Puerto Rico, and the Outlying Areas. Category: Data Standards and Guidelines; Subcategory: Representation and Codes.
FIPS PUB 55-DC3 *04,866*

FIPS PUB 8-6, Metropolitan Areas (for Microcomputers).
PB95-503280 *04,874*

Countries, Dependencies, Areas of Special Sovereignty, and Their Principal Administrative Divisions (for Microcomputers).
PB95-503504 *00,130*

CLASSIFICATIONS
Classification of Advanced Technical Ceramics.
N94-35335/6 *03,030*

New Materials, Advanced Ceramics and Standards.
PB95-140208 *03,047*

CLASSIFYING
Description of Layered Structures: Applications to High Tc Superconductors.
PB95-162624 *04,615*

CLAY
Small Angle Neutron Scattering Study of a Clay Suspension Under Shear.
PB96-167374 *00,663*

CLAYS
Hollow Clay Tile Prism Tests for Martin Marietta Energy Systems: Task 2 Testing.
PB94-217486 *00,352*

CLEANING
Effects of Soxhlet Extraction on the Surface Oxide Layer of Silicon Nitride Powders.
PB95-175584 *03,057*

CLEAVAGE
Evidence of Film-Induced Cleavage by Electrodeposited Rhodium.
PB95-162327 *03,191*

CLIMATIC CHANGES
Global Climatic Effects of Aerosols: The AAAR Symposium.
PB95-108791 *00,122*

CLINICAL CHEMISTRY
History of NIST's Contributions to Development of Standard Reference Materials and Reference and Definitive Methods for Clinical Chemistry.
PB96-119706 *03,503*

CLINKER
Quantitative X-Ray Powder Diffraction Methods for Clinker and Cement.
PB95-143079 *01,317*

CLOCK
Wavelet Variance, Allan Variance, and Leakage.
PB96-190111 *01,509*

CLOCKS
Time and Frequency Technology at NIST.
N94-30641/2 *01,522*

Future of Time and Frequency Dissemination.
N94-30684/2 *01,524*

Smart Clock: A New Time.
PB95-151445 *01,530*

Keeping Time on Your PC.
PB95-161410 *01,537*

Sifting Through Nine Years of NIST Clock Data with TA2.
PB95-181137 *01,547*

CLOSED LOOP CONTROLLERS
Closed Loop Controller for Electron-Beam Evaporators.
PB97-111470 *04,393*

CLOTHING
Bibliography on Apparel Sizing and Related Issues.
PB94-161924 *02,806*

CLOTHING INDUSTRY
Body Dimensions for Apparel.
PB94-187739 *02,813*

Apparel Manufacturing Glossary for Application Protocol Development.
PB95-198750 *02,755*

Extensions of the Prototype Application Protocol of Ready-to-Wear Apparel Pattern Making.
PB96-128194 *03,198*

Aspects of a Product Model Supporting Apparel Virtual Enterprises.
PB96-183231 *02,790*

Survey of Standards for the U.S. Fiber/Textile/Apparel Industry.
PB96-193792 *03,199*

CLUSTER ANALYSIS
Representing a Large Collection of Curves: A Case for Principal Points.
PB95-152286 *03,438*

CLUSTER MODELS
Active Site Ionicity and the Mechanism of Carbonic Anhydrase.
PB94-212974 *00,843*

CLUSTERS
Potential Surfaces and Dynamics of Weakly Bound Trimers: Perspectives from High Resolution IR Spectroscopy.
PB96-176508 *01,155*

CMM (COORDINATE MEASURING MACHINES)
Two New Probes for a Coordinate Measuring Machine.
PB95-163093 *02,653*

User's Guide to 'SuperFit' Modeling Software for CMM Probe Lobing.
PB96-128236 *02,921*

CMMS (COORDINATE MEASURING MACHINES)
Some Considerations for Interim Testing of Coordinate Measuring Machine Performance Using a Specific Artifact.
PB95-108858 *02,898*

Sensitivity of Three-Point Circle Fitting.
PB95-136354 *02,901*

NIST SRM 9983 High-Rigidity Ball-Bar Stand. User Manual.
PB95-255840 *02,669*

Estimation of Measurement Uncertainty of Small Circular Features Measured by CMMs.
PB95-267928 *02,918*

CMOS
Defect of Thermal Ramping and Annealing Conditions on Defect Formation in Oxygen Implanted Silicon-On-Insulator Material.
PB94-212966 *02,318*

High-Level CAD Melds Micromachined Devices with Foundries.
PB94-216413 *02,321*

MEMS in Standard CMOS VLSI Technology.
PB96-102363 *02,377*

Development of Thin-Film Multijunction Thermal Converters at NIST.
PB97-112338 *02,286*

Micromachined Coplanar Waveguides in CMOS Technology.
PB97-119283 *02,456*

CMS
Process for Selecting Standard Reference Algorithms for Evaluating Coordinate Measurement Software.
PB94-173754 *02,629*

COAL
Abrasive Wear by Diesel Engine Coal-Fuel and Related Particles.
PB95-104915 *01,450*

Chemical and Microbiological Problems Associated with Research on the Biodesulfurization of Coal.
PB95-140950 *02,484*

Microbial Degradation of Polysulfides and Insights into Their Possible Occurrence in Coal.
PB95-163374 *02,488*

COAL MINING
Task Decomposition Methodology for the Design of a Coal Mining Automation Hierarchical Real-Time Control System.
PB94-185386 *03,694*

Integration of Servo Control into a Large-Scale Control System Design: An Example from Coal Mining.
PB94-203429 *03,696*

Continuous Mining Machine Control Using the Real-Time Control System.
PB94-203528 *03,700*

Environment Simulation for a Continuous Mining Machine.
PB94-203536 *03,697*

Hierarchical Real-Time Control System for Use with Coal Mining Automation.
PB94-212065 *03,698*

COARSENESS
Exponentially Rapid Coarsening and Buckling in Coherently Self-Stressed Thin Plates.
PB95-202347 *04,821*

COATING PROCESSES
Opportunities for Innovation: Advanced Surface Engineering.
PB94-176666 *02,697*

Perspective on Fiber Coating Technology.
PB94-200540 *03,118*

Interface Modification and Characterization of Silicon Carbide Platelets Coated with Alumina Particles.
PB95-108734 *03,121*

Methodologies for Predicting the Service Lives of Coating Systems.
PB95-146387 *03,124*

UV-Photopatterning of Alkylthiolate Monolayers Self-Assembled on Gold and Silver.
PB95-150751 *00,924*

COATINGS
Light Scattering from Glossy Coatings on Paper.
PB94-213246 *04,242*

Non-Osmotic, Defect-Controlled Cathodic Disbondment of a Coating from a Steel Substrate.
PB94-216447 *03,120*

Light Scattered by Coated Paper.
PB94-216546 *04,245*

Tribological Behavior of 440/Diamond-Like-Carbon Film Couples.
PB96-119714 *03,019*

Proposed Coating Technology Consortium. (National Coil Coaters Association Fall Conference). Held in Rosemont, Illinois in September 1992.
PB97-110431 *03,129*

Nanoindentation and Instrumented Scratching Measurements on Hard Coatings.
PB97-122477 *03,111*

COAXIAL AIR LINES
Aperture Coupling to a Coaxial Air Line: Theory and Experiment.
PB94-211968 *02,216*

Measurements of the Characteristic Impedance of Coaxial Air Line Standards.
PB95-168787 *02,221*

COAXIAL CABLES
Programmable Guarded Coaxial Connector Panel.
PB96-122544 *02,108*

Open-Ended Coaxial Probes for Nondestructive Testing of Substrates and Circuit Boards.
PB96-122825 *02,078*

Dielectric Measurements on Printed-Wiring and Circuit Boards, Thin Films, and Substrates: An Overview.
PB96-147038 *02,236*

Dimensional Characterization of Precision Coaxial Transmission Line Standards.
PB96-176482 *02,241*

Coaxial Line-Reflect-Match Calibration.
PB96-200118 *02,246*

COAXIAL CONFIGURATIONS
Calibration Service for Coaxial Reference Standards for Microwave Power.
PB96-162722 *01,958*

COAXIAL PROBES
Analysis of an Open-Ended Coaxial Probe with Lift-Off for Nondestructive Testing.
PB96-135116 *01,940*

COBALT
Combined Low- and High-Angle X-Ray Structural Refinement of a Co/Pt(111) Multilayer Exhibiting Perpendicular Magnetic Anisotropy.
PB94-198355 *04,457*

Magnetic Properties of Pd/Co Multilayers.
PB94-198751 *04,465*

Bioleaching of Cobalt from Smelter Wastes by 'Thiobacillus ferrooxidans'.
PB95-140968 *02,582*

Spot-Profile-Analyzing LEED Study of the Epitaxial Growth of Fe, Co, and Cu on Cu(100).
PB95-150165 *04,561*

Microstructural Characterization of Cobalt-Tungsten Coated Graphite Fibers.
PB96-159231 *01,951*

COBALT 60
Protection Against Radiations from Radium, Cobalt-60, and Cesium-137.
AD-A279 261/2 *03,607*

Dose Mapping of Radioactive Hot Particles Using Radiochromic Film.
PB95-162954 *03,714*

COBALT ACETATE
Oxidative DNA Base Damage in Renal, Hepatic, and Pulmonary Chromatin of Rats After Intraperitoneal Injection of Cobalt (II) Acetate.
PB95-150025 *03,647*

COBALT ALLOYS
Correlations of Modulation Noise with Magnetic Microstructure and Intergranular Interactions for CoCrTa and CoNi Thin Film Media.
PB94-212768 *04,509*

COBALT BASE ALLOYS
Electrodeposited Cobalt-Tungsten as a Diffusion Barrier between Graphite Fibers and Nickel.
PB96-146881 *03,176*

COBALT HYDRIDES
Rotational Spectroscopy of the CoH Radical in Its Ground (3)Phi State by Far-Infrared Laser Magnetic Resonance: Determination of Molecular Parameters.
PB95-175048 *00,992*

COBALT SILICIDES
Local Partial Densities of States in Ni and Co Silicides Studied by Soft X-Ray Emission Spectroscopy.
PB94-212412 *04,504*

COBOL
COBOL. Category: Software Standard; Subcategory: Programming Language. Includes ANSI'S X3.23-1985, X3.23A-1989 and X3.23B-1993.
FIPS PUB 21-4 *01,670*

COBOL. Category: Software Standard; Subcategory: Programming Language. Part A.
FIPS PUB 21-4A *01,671*

COBOL. Category: Software Standard; Subcategory: Programming Language. Part B.
FIPS PUB 21-4B *01,672*

COBOL PROGRAMMING LANGUAGE
Validated Products List (Cobol, Fortran, ADA, Pascal, MUMPS, SQL).
PB94-937300 *01,700*

Validated Products List (Cobol, Fortran, ADA, Pascal, MUMPS, SQL).
PB95-937300 *01,738*

COCAINE
Supercritical Fluid Extraction-Immunoassay for the Rapid Screening of Cocaine in Hair.
PB96-167168 *00,637*

COCOMBUSTION
Sulfur Dioxide Capture in the Combustion of Mixtures of Lime, Refuse-Derived Fuel, and Coal.
PB94-155587 *02,534*

CODE DIVISION MULTIPLE ACCESS
Error Protecting Characteristics of CDMA and Impacts on Speech.
PB96-122452 *01,491*

CODE EXCITED LINEAR PREDICTION
Channel Coding for Code Excited Linear Prediction (CELP) Encoded Speech in Mobile Radio Applications.
PB95-143178 *01,475*

CODE SCALABILITY
Scalability Test for Parallel Code.
PB96-146758 *01,749*

CODEINE
Certification of Morphine and Codeine in a Human Urine Standard Reference Material.
PB95-176160 *03,499*

CODING
Channel Coding for Code Excited Linear Prediction (CELP) Encoded Speech in Mobile Radio Applications.
PB95-143178 *01,475*

COEFFICIENT OF FRICTION
Mechanism of Mild to Severe Wear Transition in Alpha-Alumina.
PB94-212354 *03,233*

COEFFICIENT OR THERMAL EXPANSION
Advances in the Measurement of Polymer CTE: Micrometer- to Atomic-Scale Measurements.
PB96-180229 *03,390*

COEXTRUDING
Small Angle Neutron Scattering Studies on Chain Asymmetry of Coextruded Poly(Vinyl Alcohol) Film.
PB95-164372 *01,262*

COHERENT INTERFACES
Cracks and Dislocations in Face-Centered Cubic Metallic Multilayers.
PB96-163696 *02,989*

COHERENT LIGHT
Integral Occurring in Coherence Theory.
PB95-203550 *04,324*

COILS
Quench Energy and Fatigue Degradation Properties of Cu- and Al/Cu-Stablized Nb-Ti Epoxy-Impregnated Superconductor Coils.
PB96-141213 *04,755*

COLD NEUTRON CAPTURE PROMPT GAMMA-RAY ACTIVATION ANALYSIS
Determination of Hydrogen in Titanium Alloy Jet Engine Compressor Blades by Cold Neutron Capture Prompt Gamma-ray Activation Analysis.
PB95-175956 *01,448*

COLD NEUTRONS
Thermal Hydraulic Tests of a Liquid Hydrogen Cold Neutron Source.
PB95-135570 *03,884*

Neutron Focusing Lens Using Polycapillary Fibers.
PB95-141206 *03,889*

Liquid-Hydrogen Cold Neutron Source for the NBSR.
PB95-151619 *03,729*

Neutron Focusing Lens Using Polycapillary Fibers.
PB95-153078 *03,922*

Cold Neutron Gain Calculations for the NBSR Using MCNP.
PB95-163978 *03,731*

Analytical Applications of Guided Neutron Beams.
PB96-112347 *04,041*

MCNP Model of the National Bureau of Standards Reactor (NBSR) Core.
PB96-138599 *03,733*

COLD PLASMAS
Spectroscopic Diagnostics of Low Temperature Plasmas: Techniques and Required Data.
PB95-151577 *04,411*

COLLECTION
NIST Serial Holdings, 1994.
PB94-178068 *02,745*

COLLECTION SYSTEMS
All-Metal Collection System for Preparative-Scale Gas Chromatography: Purification of Low-Boiling-Point Compounds.
PB96-123435 *00,619*

COLLIMATORS
Analysis of the Effectiveness of Oscillating Radial Collimators in Neutron Scattering Applications.
PB95-152252 *03,917*

Tilt Effects in Optical Angle Measurements.
PB95-169389 *04,294*

COLLISION
Alignment Probing of Rydberg States by Stimulated Emission.
PB96-200316 *04,124*

COLLISION AVOIDANCE
Image Gradient Evolution: A Visual Cue for Danger.
PB96-154562 *02,939*

Novel Active-Vision-Based Motion Cues for Local Navigation.
PB96-193727 *02,941*

COLLISIONS
State-Resolved Rotational Energy Transfer in Open Shell Collisions: Cl((2)P3/2)+HCl.
PB96-176607 *01,157*

COLLOCATION
Using Collocation in Three Dimensions and Solving a Model Semiconductor Problem.
PB96-159249 *01,952*

Application of the Collocation Method in Three Dimensions to a Model Semiconductor Problem.
PB97-122428 *02,457*

COLLOIDAL DISPERSION
Structure and Rheology of Hard-Sphere Systems.
PB96-167333 *00,662*

COLLOIDAL SUSPENSION
Non-Newtonian Flow between Concentric Cylinders Calculated from Thermophysical Properties Obtained from Simulations.
PB96-163761 *04,103*

COLLOIDAL SUSPENSIONS
Contrast Matched Studies of a Sheared Binary Colloidal Suspension.
PB95-150561 *00,918*

Partial Scattered Intensities from a Binary Suspension of Polystyrene and Silica.
PB95-175618 *00,996*

COLLOIDING
Polyelectrolytes as Dispersants in Colloidal Processing of Silicon Nitride Ceramics.
PB95-175568 *03,055*

Surface Chemical Interactions of Si3N4 with Polyelectrolyte Deflocculants.
PB95-175576 *03,056*

COLLOIDS
Electroacoustics for Characterization of Particulates and Suspensions. Proceedings of a Workshop. Held in Gaithersburg, Maryland on February 3-4, 1993.
PB94-112695 *00,725*

Deposition of Colloidal Sintering-Aid Particles on Silicon Nitride.
PB94-216272 *03,044*

Reduction of Dinitrogen to Ammonia in Aqueous Solution Mediated by Colloidal Metals.
PB95-107074 *00,867*

Aggregation Kinetics of Colloidal Particles Destabilized by Enzymes.
PB95-125878 *00,894*

Effects of Soxhlet Extraction on the Surface Oxide Layer of Silicon Nitride Powders.
PB95-175584 *03,057*

COLOR CODING
Nonlinear Color Transformations in Real Time Using a Video Supercomputer.
PB96-123021 *02,191*

COLOR TEMPERATURE
Irradiance of Horizontal Quartz-Halogen Standard Lamps.
PB96-179130 *01,866*

COLORIMETERS
Interface-Filter Characterization of Spectraradiometers and Colorimeters.
PB97-122212 *04,399*

COLORIMETRIC DOSEMETERS
Temperature and Relative Humidity Dependence of Radiochromic Film Dosimeter Response to Gamma and Electron Radiation.
PB96-135298 *03,718*

COLUMN BUCKLING
Dynamics of Multi-DOF Stochastic Nonlinear Systems.
PB97-113245 *00,477*

COLUMNS (PROCESS ENGINEERING)
Continuous Counter-Current Two Phase Aqueous Extraction.
PB95-161212 *00,675*

COLUMNS (SUPPORTS)
Model Precast Concrete Beam-to-Column Connections Subject to Cyclic Loading.
PB95-153094 *00,438*

Partially Prestressed and Debonded Precast Concrete Beam-Column Joints.
PB95-153102 *00,439*

Seismic Performance Behavior of Precast Concrete Beam-Column Joints.
PB95-153110 *00,440*

Evaluating the Seismic Performance of Lightly-Reinforced Circular Concrete Bridge Columns.
PB95-163259 *01,335*

COMBINATION APPLIANCES
Predicting the Energy Performance Ratings of a Family of Type I Combination Appliances.
PB95-105524 *02,504*

COMBUSTION
Gordon Research Conference on the Physics and Chemistry of Laser Diagnostics in Combustion Held in Plymouth, New Hampshire on 12-16 July 1993.
AD-A274 609/7 *01,353*

Spectroscopic Study of Reaction Intermediates and Mechanisms in Nitramine Decomposition and Combustion.
AD-A296 061/5 *03,774*

Combustion of a Polymer (PMMA) Sphere in Microgravity.
N96-15569/2 *01,354*

Summaries of Center for Fire Research In-House Projects and Grants: 1990.
PB94-160876 *00,286*

Combustion of Methanol and Methanol/Dodecanol Spray Flames.
PB95-108544 *02,478*

Effect of Dodecanol Content on the Combustion of Methanol Spray Flames.
PB95-176020 *01,389*

Polymer Combustion and Flammability: Role of the Condensed Phase.
PB96-123245 *01,279*

Further Development of the N-Gas Mathematical Model: An Approach for Predicting the Toxic Potency of Complex Combustion Mixtures.
PB96-123260 *03,650*

Numerical Simulation of Rapid Combustion in an Underground Enclosure.
PB96-183132 *01,424*

Analysis of Droplet Arrival Statistics in a Pressure-Atomized Spray Flame.
PB97-112270 *01,352*

COMBUSTION CHEMISTRY
Progress in the Development of a Chemical Kinetic Database for Combustion Chemistry.
PB95-151056 *01,384*

New Approach for Reducing the Toxicity of the Combustion Products from Flexible Polyurethane Foam.
PB96-123625 *01,411*

Asymptotic and Numerical Analysis of a Premixed Laminar Nitrogen Dioxide-Hydrogen Flame.
PB96-164256 *01,422*

Scaling Compartment Fires: Reduced- and Full-Scale Enclosure Burns.
PB96-175708 *00,224*

NO Production and Destruction in a Methane/Air Diffusion Flame.
PB97-122519 *01,443*

COMBUSTION EFFICIENCY
Estimate of the Effect of Scale on Radiative Heat Loss Fraction and Combustion Efficiency.
PB95-150447 *02,486*

COMBUSTION GASES
Reactivity of Product Gases Generated in Idealized Enclosure Fire Environments.
PB95-161790 *01,386*

COMBUSTION KINETICS
Fluorinated Hydrocarbon Flame Suppression Chemistry.
PB94-185113 *01,362*

Hydrogen Atom Attack on Perchloroethylene.
PB95-163473 *00,969*

Effect of Suppressants on Metal Fires.
PB96-109574 *01,402*

Smoke Emission from Burning Crude Oil.
PB96-122890 *01,407*

Inhibition of Premixed Methane-Air Flames by Halon Alternatives.
PB96-146741 *01,414*

Suppression of High-Speed C2H4/Air Flames with C1-Halocarbons.
PB96-175724 *03,287*

Effectiveness of Halon Alternatives in Suppressing Dynamic Combustion Process.
PB96-175732 *03,288*

Interaction of HFC-125, FC-218 and CF3I with High Speed Combustion Waves.
PB96-176417 *03,290*

Dynamics, Transport and Chemical Kinetics of Compartment Fire Exhaust Gases.
PB96-195508 *00,229*

Chemical Inhibition of Methane-Air Diffusion Flame.
PB96-195532 *01,431*

COMBUSTION PHYSICS
Prediction of Fire Dynamics.
PB94-193620 *00,336*

COMBUSTION PRODUCTS
Airborne Smoke Sampling Package for Field Measurements of Fires.
PB95-150041 *01,381*

Reactivity of Product Gases Generated in Idealized Enclosure Fire Environments.
PB95-161790 *01,386*

Acid Gas Production in Inhibited Diffusion Flames.
PB95-180576 *01,390*

Compartment Fire Combustion Dynamics. Annual Report, September 1, 1993-September 1, 1994.
PB95-217162 *00,203*

Carbon Monoxide Production in Compartment Fires: Reduced-Scale Enclosure Test Facility.
PB95-231700 *01,394*

Distinguishing the Contributions of Residential Wood Combustion and Mobile Source Emissions Using Relative Concentrations of Dimethylphenanthrene Isomers.
PB96-135124 *02,563*

Application of Thermodynamic and Detailed Chemical Kinetic Modeling to Understanding Combustion Product Generation in Enclosure Fires.
PB96-135322 *01,413*

Global Equivalence Ratio Concept and the Formation Mechanisms of Carbon Monoxide in Enclosure Fires.
PB96-146790 *00,210*

Scaling Compartment Fires: Reduced- and Full-Scale Enclosure Burns.
PB96-175708 *00,224*

Post-Flame Soot.
PB96-193701 *01,430*

Smoke Plume Trajectory from In situ Burning of Crude Oil: Field Experiments.
PB96-200993 *02,597*

COMMENSURATE LATTICES
Pinch Effect in Commensurate Vortex-Pin Lattices.
PB96-147079 *01,125*

COMMERCE
Analyzing Electronic Commerce.
PB94-219102 *00,480*

Guidelines for the Evaluation of Electronic Data Interchange Products.
PB96-172325 *01,506*

COMMERCIAL BUILDINGS
Performance Approach to the Development of Criteria for Low-Sloped Roof Membranes.
PB94-160751 *00,329*

Lighting and HVAC.
PB95-150991 *00,250*

Improving the Evaluation of Building Ventilation.
PB96-138508 *00,271*

COMMERCIAL DEVELOPMENT
Opportunities for Innovation: Biotechnology.
PB94-157831 *00,009*

COMMERCIAL SECTOR
Assessment of the DOD Goal Security Architecture (DGSA) for Non-Military Use.
PB95-189510 *03,653*

COMMERCIAL VEHICLES
Recommendations on Selection of Vehicle-to-Roadside Communications Standards for Commercial Vehicle Operations.
PB94-195914 *04,859*

Vehicle-to-Roadside Communications for Commercial Vehicle Operations: Requirements and Approaches.
PB95-188827 *04,860*

COMMERCIALIZATION
Water Mist Fire Suppression Workshop Summary.
PB95-161907 *02,853*

COMMODITIES
Checking the Net Contents of Packaged Goods as Adopted by the 79th National Conference on Weights and Measures, 1994, Third Edition, Supplement 4.
PB95-182226 *00,484*

COMMUNICATION CHANNELS
Capacity of the Lp Norm-Constrained Poisson Channel.
PB95-125753 *01,515*

COMMUNICATION EQUIPMENT
Ground Vehicle Control at NIST: From Teleoperation to Autonomy.
N94-34037/9 *03,758*

COMMUNICATION NETWORKS
Integrated Services Digital Network (ISDN); Category: Telecommunications Standard; Subcategory: Integrated Services Digital Network.
FIPS PUB 182 *01,460*

Putting the Information Infrastructure to Work: Report of the Information Infrastructure Task Force Committee on Applications and Technology.
N94-31228/7 *02,715*

Context Analysis of the Network Management Domain. Conducted as Part of the Domain Analysis Case Study.
PB94-142528 *01,465*

Supplement to Stable Implementation Agreements for Open Systems Interconnection Protocols. Version 3, September 1990. Change Page Index, Version 3, June 1990 (Stable) Change Pages Issued December 1990; Output from September 1990 OSI Workshop (NIST Special Publication 500-177).
PB94-164035 *01,467*

National Voluntary Laboratory Accreditation Program. GOSIP: Government Open Systems Interconnection Profile.
PB95-267993 *01,486*

NIST ATM Network Simulator: Operation and Programming, Version 1.0.
PB96-106851 *01,487*

Application Software Interface: ISDN Services for an Open Systems Environment.
PB96-131487 *01,492*

Provision of Isochronous Service on IEEE 802.6.
PB96-160635 *01,501*

ISDN in North America.
PB96-160767 *01,502*

North American Agreements on ISDN.
PB96-160775 *01,503*

COMMUNICATIONS NETWORKS
Introduction to Traffic Management for Broadband ISDN.
PB94-142494 *01,464*

Domain Analysis of the Alarm Surveillance Domain. Version 1.0. Conducted as Part of the Domain Analysis Case Study Project.
PB95-136339 *01,705*

COMMUNITIES
Codes for Named Populated Places, Primary County Divisions, and Other Locational Entities of the United States (FIPS PUB 55-3) (on Magnetic Tape).
PB95-502563 *00,129*

COMPACT HEAT EXCHANGERS
Heat Transfer in Thin, Compact Heat Exchangers with Circular, Rectangular, or Pin-Fin Flow Passages.
PB95-140943 *02,751*

COMPACTING
Rapid Hot Pressing of Ultra-Fine PSZ Powders.
PB94-216587 *03,045*

COMPACTORS
Field Evaluation of the System for Calibration of the Marshall Compaction Hammer.
PB95-190674 *01,323*

COMPARATOR CIRCUITS
Leakage Current Detection in Cryogenic Current Comparator Bridges.
PB94-172228 *02,024*

Custom Integrated Circuit Comparator for High-Performance Sampling Applications.
PB94-213147 *02,320*

COMPARATORS
NIST Comparison of the Quantized Hall Resistance and the Realization of the SI Ohm Through the Calculable Capacitor.
PB97-119184 *02,291*

NIST Comparison of the Quantized Hall Resistance and the Realization of the SI Ohm Through the Calculable Capacitor. Conference Proceedings, June 17-20, 1996.
PB97-119192 *02,292*

COMPARTMENT ANALYSIS
Computing Radiative Heat Transfer Occurring in a Zone Fire Model.
PB96-102306 *01,399*

Analyzing and Exploiting Numerical Characteristics of Zone Fire Models.
PB96-102314 *01,400*

COMPARTMENT FIRES
Improvement in Predicting Smoke Movement in Compartmented Structures.
PB94-172418 *00,332*

Calculating Flame Spread on Horizontal and Vertical Surfaces.
PB94-187283 *00,335*

Backdraft Phenomena.
PB94-193927 *01,366*

Combined Buoyancy- and Pressure-Driven Flow Through a Shallow, Horizontal, Circular Vent.
PB94-210077 *00,344*

VENTCF2: An Algorithm and Associated FORTRAN 77 Subroutine for Calculating Flow through a Horizontal Ceiling/Floor Vent in a Zone-Type Compartment Fire Model.
PB94-210127 *00,345*

Carbon Monoxide Production in Compartment Fires: Reduced-Scale Enclosure Test Facility.
PB95-231700 *01,394*

Scaling Compartment Fires: Reduced- and Full-Scale Enclosure Burns.
PB96-175708 *00,224*

Dynamics, Transport and Chemical Kinetics of Compartment Fire Exhaust Gases.
PB96-195508 *00,229*

COMPETITION

Status of Construction and Construction Technologies.
PB94-186004 *00,318*

Differences in Competitive Strategies between the United States and Japan.
PB94-211836 *00,013*

COMPETITIVENESS

Program of the Subcommittee on Construction and Building.
PB94-193646 *00,319*

Program of the Subcommittee on Construction and Building (July 1994).
PB95-122537 *00,321*

COMPILERS

Ada Compiler Validation Summary Report: Certificate Number: 931029S1.11330, Digital Equipment Corporation, DEC Ada for DEC OSF/1 AXP Systems, Version 3.1, DEC 3000 Model 400 AXP Workstation, DEC 3000 Model 400 AXP Workstation.
AD-A274 872/1 *01,639*

Ada Compiler Validation Summary Report: Certificate Number: 931217S1.11336 Control Data Systems, Inc. NOS/VE Ada, Version 1.4 Cyber 180-930-31 => Cyber 180-930-31.
AD-A275 977/7 *01,640*

Ada Compiler Validation Summary Report. Certificate Number: 931119S1.11332, DDC-I, Inc. DACS MIPS R3000 Bare Ada Cross Compiler System, Version 4.7.1 Sun SPARCstation IPX => DACS Sun SPARC/SunOS to MIPS R3000 Bare Instruction Set Architecture Simulator, Version 4.7.1.
AD-A276 181/5 *01,641*

Ada Compiler Validation Summary Report: Certificate Number: 931119S1.11331 DDC-I, Inc. DACS Sun SPARC/SunOS to 80386 PM Bare Ada Cross Compiler System, Version 4.6.4 Sun Sparcstation 1+ => Bare Board iSBC 386/116.
AD-A276 283/9 *01,642*

Ada Compiler Validation Summary Report. Certificate Number: 930927S1.11328 Green Hills Software C Ada, Version 1.1 ZENY 386 => ZENY 386.
AD-A277 981/7 *01,643*

Ada Compiler Validation Summary Report: Certificate Number: 940325S1.11348 DDC-I, DACS Sun SPARC/Solaris to 80386 PM Bare Ada Cross Compiler System, Version 4.6.4 Sun SPARCclassic => Intel iSBC 386/116 (Bare Machine).
AD-A279 642/3 *01,644*

Ada Compiler Validation Summary Report: Certificate Number: 940325S1.11341 DDC-I, DACS Sun SPARC/SunOS to 80186 Bare Ada Cross Compiler System, Version 4.6.4 Sun SPARCstation IPX => Intel iSBC 186/100 (Bare Machine).
AD-A279 643/1 *01,645*

Ada Compiler Validation Summary Report: Certificate Number: 940325S1.11349 DDC-I, DACS Sun SPARC/Solaris to 80386 PM Bare Ada Cross Compiler System with Rate Monotonic Scheduling, Version 4.6.4 Sun SPARCclassic => Intel iSBC 386/116 (Bare Machine).
AD-A279 644/9 *01,646*

Ada Compiler Validation Summary Report: Certificate Number: 940325S1.11354 DDC-I, DACS Sun SPARC/Solaris Native Ada Compiler System, Version 4.6.2 Sun SPARCclassic => Sun SPARCclassic.
AD-A279 645/6 *01,647*

Ada Compiler Validation Summary Report: Certificate Number: 940325S1.11346 DDC-I, DACS Sun SPARC/SunOS to 680x0 Bare Ada Cross Compiler System (BASIC MODE), Version 4.6.9 Sun SPARCstation IPX => Lynwood j435TU (68030) (Bare Machine).
AD-A279 646/4 *01,648*

Ada Compiler Validation Summary Report: Certificate Number: 940325S1.11343 DDC-I, DACS Sun SPARC/Solaris to 80186 Bare Ada Cross Compiler System, Version 4.6.4 Sun SPARCclassic => Intel iSBC 186/100 (Bare Machine).
AD-A279 757/9 *01,649*

Ada Compiler Validation Summary Report: Certificate Number: 940325S1.11344 DDC-I, DACS Sun SPARC/Solaris to 80186 Bare Ada Cross Compiler System with Rate Monotonic Scheduling, Version 4.6.4 Sun SPARCclassic => Intel iSBC 186/100 (Bare Machine).
AD-A279 758/7 *01,650*

Ada Compiler Validation Summary Report: Certificate Number: 940325S1.11347 DDC-I, DACS Sun SPARC/SunOS to 680x0 Bare Ada Cross Compiler System (SECURE MODE), Version 4.6.9 Sun SPARCstation IPX => Lynwood j435TU (68030) (Bare Machine).
AD-A279 778/5 *01,651*

Ada Compiler Validation Summary Report: Certificate Number: 940325S1.11342 DDC-I, DACS Sun SPARC/SunOS to 80186 Bare Ada Cross Compiler System with Rate Monotonic Scheduling Version 4.6.4 Sun SPARCstation IPX => Intel iSBC 186/100 (Bare Machine).
AD-A279 779/3 *01,652*

Ada Compiler Validation Summary Report: Certificate Number: 940325S1.11351 DDC-I, DACS Sun SPARC/SunOS to Pentium PM Bare Ada Cross Compiler System with Rate Monotonic Scheduling, Version 4.6.4 Sun SPARCstation IPX => Intel Pentium (operated as Bare Machine) based in Xpress Desktop (Intel product number: XBASE6E4F-B).
AD-A279 804/9 *01,653*

Ada Compiler Validation Summary Report: Certificate Number: 940325S1.11353 DDC-I, DACS Sun SPARC/Solaris to Pentium PM Bare Ada Cross Compiler System with Rate Monotonic Scheduling, Version 4.6.4 Sun SPARCclassic => Intel Pentium (operated as Bare Machine) based in Xpress Desktop (Intel product number: XBASE6E4F-B).
AD-A279 805/6 *01,654*

Ada Compiler Validation Summary Report: Certificate Number: 940325S1.11350 DDC-I, DACS Sun SPARC/SunOS to Pentium PM Bare Ada Cross Compiler System, Version 4.6.4 Sun SPARCstation IPX => Intel Pentium (Operated as Bare Machine) Based in Xpress Desktop (Intel Product Number: XBASE6E4F-B).
AD-A279 864/3 *01,655*

Ada Compiler Validation Summary Report: Certificate Number 940325S1.11345 DDC-I. DACS Sun SPARC/SunOS to 680x0 Bare Ada Cross Compiler System, Version 4.6.9 Sun SPARCstation IPX => Motorola MVME143 68030/68882 (Bare Machine).
AD-A280 145/4 *01,656*

Ada Compiler Validation Summary Report: Certificate Number: 940325S1.11352 DDC-I DACS Sun SPARC/Solaries to Pentium PM Bare Ada Cross Compiler System, Version 4.6.4 Sun SPARCclassic => Intel Pentium (Operated as Bare Machine) Based in Xpress Desktop (Intel Product Number: XBASE6E4F-B).
AD-A280 295/7 *01,657*

Ada Compiler Validation Summary Report: Certificate Number 940902S1.11377 UNISYS Corporation. IntegrAda for Windows NT, Version 1.0. Intel Deskside Server with Intel 80486DX266 => Intel Deskside Server with Intel 80486DX266.
AD-A288 571/3 *01,658*

Ada Compiler Validation Summary Report: Certificate Number 940902S1.11376. UNISYS Corporation IntegrAda for Windows NT, Version 1.0. Intel Deskside Server for Intel Pentium 60 MHz =>. Intel Deskside Server with Intel Pentium 60 MHz.
AD-A288 572/1 *01,659*

Ada Compiler Validation Summary Report: Certificate Number 94101251.11379 TISOFT, Inc. Green Hills Optimizing Ada Compileer, Version 1.8.7 with PATCK ID 1 COMPAQ ProLiiant 2000 Model 55/66 => COMPAQ ProLiant 2000 Model 5/66.
AD-A288 573/9 *01,660*

Ada Complier Validation Summary Report: Certificate Number: 940929S1.11378. Digital Equipment Corporation DEC Ada for DEC OSF/1 AXP Systems, Version 3.2; DEC 3000 Model 400 AXP Workstation => DEC 3000 Model 400 AXP Workstation.
AD-A288 574/7 *01,661*

Ada Compiler Validation Summary Report. Certificate Number 941117S1.11380. Electronic Data Systems Corp. Compiler: OC Systems Legacy Ada/370, Release 1.4.1 (without optimization).
AD-A289 805/5 *01,662*

ADA Compiler Validation Summary Report, VC Number 950303S1.11381. Digital Equipment Corporation - Compiler Name: DEC Ada for OpenVMS Alpha Systems, Version 3.2.
AD-A293 709/2 *01,663*

Ada Compiler Validation Summary Report, VC No. 950609S1.11390 Digital Equipment Corporation - Compiler Name: DEC Ada Version 3.2 for OpenVMS VAX Systems.
AD-A296 794/1 *01,664*

FORTRAN Compiler Validation System, Version 2.1.
PB94-500691 *01,698*

M (also known as MUMPS) Validation Test Suite, Version 8.3 (for Microcomputers).
PB94-502077 *01,699*

COMPLEX RESONANCE ENERGIES

Population Trapping in Short-Pulse Multiphoton Ionization.
PB96-164140 *04,371*

COMPLEX TIME DEPENDENCE

Complex Time Dependence of the EPR Signal of Irradiated L-alpha-alanine.
PB97-122436 *04,180*

COMPLEX VARIABLE

Exact Series Solution to the Epstein-Hubbell Generalized Elliptic Type Integral Using Complex Variable Residue Theory.
PB97-110167 *03,423*

COMPLEXES

High-Resolution IR Laser-Driven Vibrational Dynamics in Supersonic Jets: Weakly Bound Complexes and Intramolecular Energy Flow.
PB94-216751 *00,862*

Infrared Spectra of van der Waals Complexes of Importance in Planetary Atmospheres.
PB95-125738 *00,071*

Microwave Spectra of van der Waals Complexes of Importance in Planetary Atmospheres.
PB95-150611 *00,919*

COMPLEXITY

Measurement of Process Complexity.
PB97-113138 *01,781*

COMPOSITE FABRICATION

Report on the Workshop on Manufacturing Polymer Composites by Liquid Molding. Held in Gaithersburg, Maryland on September 20-22, 1993.
PB94-160066 *03,131*

COMPOSITE MATERIALS

Report on the Workshop on Manufacturing Polymer Composites by Liquid Molding. Held in Gaithersburg, Maryland on September 20-22, 1993.
PB94-160066 *03,131*

Effect of Two Initiator/Stabilizer Concentrations in a Metal Primer on Bond Strengths of a Composite to a Base Metal Alloy.
PB94-172723 *00,141*

Wear of Selected Materials and Composites Sliding against MoS2 Films.
PB94-172749 *03,231*

Intelligent Processing of Materials.
PB94-172780 *02,811*

Phase Behavior of a Hydrogen Bonding Molecular Composite.
PB94-185188 *01,202*

Effect of Transformation of Alloy on Transient and Residual Stresses in a Porcelain-Metal Strip.
PB94-198397 *00,143*

Asymmetric Tip Morphology of Creep Microcracks Growing Along Bimaterial Interfaces.
PB94-200243 *03,138*

Physics Required for Prediction of Long Term Performance of Polymers and Their Composites.
PB94-219243 *03,146*

Polymer Composites Workshop. Held in Winona, Minnesota on April 29-30, 1992 (Video).
PB94-780129 *03,147*

One- and Two-Sided Burning of Thermally Thin Materials.
PB95-140935 *03,151*

Investigation into the Flammability Properties of Honeycomb Composites.
PB95-143293 *03,152*

NIR-Spectroscopic Investigation of Water Sorption Characteristics of Dental Resins and Composites.
PB95-151171 *00,189*

Interaction between Micro and Macroscopic Flow in RTM Preforms.
PB95-162012 *03,159*

Nanocomposite Magnetic Materials.
PB95-162780 *04,617*

Elastic Green's Function for a Bimaterial Composite Solid Containing a Free Surface Normal to the Interface.
PB95-163325 *03,162*

Green's Function for Generalized Hilbert Problem for Cracks and Free Surfaces in Composite Materials.
PB95-163333 *03,163*

Generalized Plane Strain Analysis of a Bimaterial Composite Containing a Free Surface Normal to the Interface.
PB95-163341 *03,164*

Polymers Technical Activities 1994. NAC-NRC Assessment Panel, April 6-7, 1995.
PB95-209896 *01,275*

Geometrical Percolation Threshold of Overlapping Ellipsoids.
PB96-102397 *03,167*

Reduction of Marginal Gaps in Composite Restorations by Use of Glass-Ceramic Inserts.
PB96-102405 *00,174*

Wear Transitions in Monolithic Alumina and Zirconia-Alumina Composites.
PB96-103163 *03,168*

Composite Materials for Offshore Operations: Proceedings of the International Workshop (1st). Held in Houston, Texas on October 26-28, 1993.
PB96-109509 *03,169*

Intrinsic Viscosity and the Polarizability of Particles Having a Wide Range of Shapes.
PB96-119318 *03,170*

Modification of the Phase Stability of Polymer Blends by Diblock Copolymer Additivies.
PB96-123542 *03,172*

Hygrothermal Effects on the Performance of Polymers and Polymeric Composites: A Workshop Report. Held in Gaithersburg, Maryland on September 21-22, 1995.
PB96-183207 *03,180*

Polymers Technical Activities, 1995.
PB96-193719 *01,291*

Economics of New-Technology Materials: A Case Study of FRP Bridge Decking.
PB96-202353 *01,349*

COMPOSITE STRUCTURES

Composite Struts for SMES Plants.
PB95-155586 *02,507*

COMPOSITES

Ultrasonic-Resonance Spectroscopy of Bulk and Layered Solids.
PB96-141338 *04,759*

Electrodeposited Cobalt-Tungsten as a Diffusion Barrier between Graphite Fibers and Nickel.
PB96-146881 *03,176*

Applicability of Effective Medium Theory to Ferroelectric/Ferrimagnetic Composites with Composition and Frequency-Dependent Complex Permittivities and Permeabilities.
PB96-157854 *01,945*

Lattice Statics of Interfaces and Interfacial Cracks in Bimaterial Solids.
PB96-161823 *02,985*

Estimation of the Orientation Distribution of Short-Fiber Composites Using Ultrasonic Velocities.
PB96-176656 *03,178*

Flaw Tolerance and Toughness Curves in Two-Phase Particulate Composites: SiC/Glass System.

Orthotropic Elastic Constants of a Boron-Aluminum Fiber-Reinforced Composite: An Acoustic-Resonance-Spectroscopy Study.
PB96-200175 *03,182*

Tensile Creep of Silicide Composites.
PB96-200803 *03,183*

Need for Advanced Characterization Techniques in Product Manufacturing: A Case Study on Ceramic Matrix Composites.
PB96-204060 *03,089*

Life Prediction of a Continuous Fiber Reinforced Ceramic Composite Under Creep Conditions.
PB96-204128 *03,091*

Letter Report on Flame Spread Testing of a Composite Material.
PB97-110068 *01,436*

Characterizing Materials Properties for Ceramic Matrix Composites.
PB97-110282 *03,097*

Surface Roughness of Glass-Ceramic Insert. Composite Restorations: Assessing Several Polishing Techniques.
PB97-119010 *03,583*

COMPOSITION (PROPERTY)

Compositional Homogeneity in Processing Precursor Powders to the Ba2YCu3O7-x High Tc Superconductor.
PB94-212743 *04,508*

COMPOSITIONAL MAPPING

Study of Diffusion Zones with Electron Microprobe Compositional Mapping.
PB94-216348 *00,559*

COMPOUND SEMICONDUCTORS

Development and Characterization of Insulating Layers on Silicon Carbide: Annual Report for February 14, 1988 to February 14, 1989.
PB94-155579 *02,295*

COMPRESSED GAS

Stability of Compressed Gas Mixtures Containing Low Level Volatile Organic Compounds in Aluminum Cylinders.
PB96-111968 *00,613*

COMPRESSED GASES

Method of Sale for CNG Paves Way to Greater Public Acceptance.
PB95-168449 *02,489*

COMPRESSIBILITY

Crystal Structure and Compressibility of 3:2 Mullite.
PB95-175030 *03,682*

Compressibility of Polycrystal and Monocrystal Copper: Acoustic-Resonance Spectroscopy.
PB96-164223 *02,990*

COMPRESSIBLE FLUIDS

Measurements of the Viscosities of Saturated and Compressed Fluid 1-chloro-1,2,2,2-tetrafluoroethane (R124) and Pentafluoroethane (R125) at Temperatures between 120 and 420 K.
PB94-199791 *03,254*

Measurements of the Viscosities of Saturated and Compressed Liquid 1,1,1,2-Tetrafluoroethane (R134a), 2,2-Dichloro-1,1,1-Trifluoroethane (R123) and 1,1-Dichloro-1-Fluoroethane (R141b).
PB95-175386 *03,273*

COMPRESSION

Shape of the Temperature-Entropy Saturation Boundary.
PB96-135066 *02,506*

COMPRESSIVE STRENGTH

Maturity Method.
PB94-199494 *01,313*

Maturity Functions for Concrete Made with Various Cements and Admixtures.
PB94-199502 *01,314*

Hollow Clay Tile Prism Tests for Martin Marietta Energy Systems: Task 2 Testing.
PB94-217486 *00,352*

Effects of Testing Variables on the Measured Compressive Strength of High-Strength (90 MPa) Concrete.
PB95-179040 *00,445*

Prediction of Potential Concrete Strength at Later Ages.
PB96-112180 *01,324*

Effects of Testing Variables on the Strength of High-Strength (90 Mpa) Concrete Cylinders.
PB96-112198 *00,456*

COMPRESSOR BLADES

Determination of Hydrogen in Titanium Alloy Jet Engine Compressor Blades by Cold Neutron Capture Prompt Gamma-ray Activation Analysis.
PB95-175956 *01,448*

COMPTON EFFECT

Study of Multiple Scattering Background in Compton Scatter Imaging.
PB96-112222 *04,425*

COMPTON SCATTERING

Penetration and Diffusion of Hard X-rays through Thick Barriers. III. Studies of Spectral Distributions.
AD-A292 502/2 *03,771*

COMPUTATION

Computing S(alpha) Using Symbolic Monte Carlo.
PB94-198660 *03,410*

Portable Vectorized Software for Bessel Function Evaluation.
PB94-198975 *01,690*

Software Needs in Special Functions.
PB95-105045 *01,702*

Leady Axisymmetric Modes in Infinite Clad Rods. Part 1.
PB95-162905 *04,187*

Performance Characteristics of Fast Elliptic Solvers on Parallel Platforms.
PB95-180832 *01,723*

Error-Bounding in Level-Index Computer Arithmetic.
PB96-109582 *01,742*

COMPUTATIONAL FLUID DYNAMICS

Experimental and Numerical Studies on Two-Dimensional Gravity Currents in a Horizontal Channel.
PB94-165941 *01,359*

Dispersion and Deposition of Smoke Plumes Generated in Massive Fires.
PB95-126066 *02,540*

Mathematical Modeling and Computer Simulation of Fire Phenomena.
PB95-180063 *00,384*

Book Review: Aspects and Applications of the Random Walk.
PB96-123534 *04,215*

Transport by Gravity Currents in Building Fires.
PB97-119325 *01,441*

COMPUTATIONAL GEOMETRY

Submissions to a Planned Encyclopedia of Operations Research on Computational Geometry and the Voronoi/Delaunay Construct.
PB94-152709 *03,425*

Growth Surface for the Slopes at the Boundary of a Polygon.
PB94-152725 *03,408*

Data-Parallel Algorithm for Three-Dimensional Delaunay Triangulation and Its Implementation.
PB95-163309 *01,714*

Inserting Line Segments into Triangulations and Tetrahedralizations.
PB95-198933 *03,415*

COMPUTATIONAL MATERIALS SCIENCE

Whither Computational Materials Science. Some Thoughts from the Mechanical Properties Front.
PB96-161997 *02,987*

COMPUTER-AIDED ACQUISITION AND LOGISTIC SUPPORT

Impact of Computer-Aided Acquisition and Logistic Support (CALS) in the Application of Standards.

Ada Compiler Validation Summary Report: Certificate Number: 940325S1.11351 DDC-I, DACS Sun SPARC/SunOS to Pentium PM Bare Ada Cross Compiler System with Rate Monotonic Scheduling, Version 4.6.4 Sun SPARCstation IPX => Intel Pentium (operated as Bare Machine) based in Xpress Desktop (Intel product number: XBASE6E4F-B).
AD-A279 804/9 *01,653*

Ada Compiler Validation Summary Report: Certificate Number: 940325S1.11353 DDC-I, DACS Sun SPARC/Solaris to Pentium PM Bare Ada Cross Compiler System with Rate Monotonic Scheduling, Version 4.6.4 Sun SPARCclassic => Intel Pentium (operated as Bare Machine) based in Xpress Desktop (Intel product number: XBASE6E4F-B).
AD-A279 805/6 *01,654*

Ada Compiler Validation Summary Report: Certificate Number: 940325S1.11350 DDC-I, DACS Sun SPARC/ SunOS to Pentium PM Bare Ada Cross Compiler System, Version 4.6.4 Sun SPARCstation IPX => Intel Pentium (Operated as Bare Machine) Based in Xpress Desktop (Intel Product Number: XBASE6E4F-B).
AD-A279 864/3 *01,655*

Ada Compiler Validation Summary Report: Certificate Number 940325S1.11345 DDC-I. DACS Sun SPARC/ SunOS to 680x0 Bare Ada Cross Compiler System, Version 4.6.9 Sun SPARCstation IPX => Motorola MVME143 68030/68882 (Bare Machine).
AD-A280 145/4 *01,656*

Ada Compiler Validation Summary Report: Certificate Number 940902S1.11377 UNISYS Corporation. IntegrAda for Windows NT, Version 1.0. Intel Deskside Server with Intel 80486DX266 => Intel Deskside Server with Intel 80486DX266.
AD-A288 571/3 *01,658*

Ada Compiler Validation Summary Report: Certificate Number 940902S1.11376. UNISYS Corporation IntegrAda for Windows NT, Version 1.0. Intel Deskside Server for Intel Pentium 60 MHz =>. Intel Deskside Server with Intel Pentium 60 MHz.
AD-A288 572/1 *01,659*

Ada Compiler Validation Summary Report: Certificate Number 94101251.11379 TISOFT, Inc. Green Hills Optimizing Ada Compileer, Version 1.8.7 with PATCK ID 1 COMPAQ ProLiiant 2000 Model 55/66 => COMPAQ ProLiant 2000 Model 5/66.
AD-A288 573/9 *01,660*

Ada Complier Validation Summary Report: Certificate Number: 940929S1.11378. Digital Equipment Corporation DEC Ada for DEC OSF/1 AXP Systems, Version 3.2; DEC 3000 Model 400 AXP Workstation => DEC 3000 Model 400 AXP Workstation.
AD-A288 574/7 *01,661*

Ada Compiler Validation Summary Report. Certificate Number 941117S1.11380. Electronic Data Systems Corp. Compiler: OC Systems Legacy Ada/370, Release 1.4.1 (without optimization).
AD-A289 895/5 *01,662*

ADA Compiler Validation Summary Report, VC Number 950303S1.11381. Digital Equipment Corporation - Compiler Name: DEC Ada for OpenVMS Alpha Systems, Version 3.2.
AD-A293 709/2 *01,663*

Ada Compiler Validation Summary Report, VC No. 950609S1.11390 Digital Equipment Corporation - Compiler Name: DEC Ada Version 3.2 for OpenVMS VAX Systems.
AD-A296 794/1 *01,664*

Report of the Federal Internetworking Requirements Panel.
DE95017761 *03,407*

Metropolitan Areas (Including MSAs, CMSAs, PMASs, and NECMAs). Category: Data Standards and Guidelines; Subcategory: Representations and Codes.
FIPS PUB 8-6 *04,873*

Countries, Dependencies, Areas of Special Sovereignty, and Their Principal Administrative Divisions. Category: Data Standards and Guidelines; Subcategory: Representation and Codes.
FIPS PUB 10-4 *00,128*

COBOL. Category: Software Standard; Subcategory: Programming Language. Includes ANSI'S X3.23-1985, X3.23A-1989 and X3.23B-1993.
FIPS PUB 21-4 *01,670*

COBOL. Category: Software Standard; Subcategory: Programming Language. Part A.
FIPS PUB 21-4A *01,671*

COBOL. Category: Software Standard; Subcategory: Programming Language. Part B.
FIPS PUB 21-4B *01,672*

Data Encryption Standard (DES); Category: Computer Security; Subcategory: Cryptography.
FIPS PUB 46-2 *01,572*

Guideline: Codes for Named Populated Places, Primary County Divisions, and Other Locational Entities of the United States, Puerto Rico, and the Outlying Areas. Category: Data Standards and Guidelines. Subcategory: Representations and Codes.
FIPS PUB 55-3 *04,865*

Graphical Kernel System (GKS). Category: Software Standard. Subcategory: Graphics. International Standard: Information Technology; Computer Graphics; Graphical Kernel System (GKS) Language Bindings. Part 4: C.
FIPS PUB 120-1C *01,792*

Security Requirements for Cryptographic Modules; Category: Computer Security; Subcategory: Cryptography.
FIPS PUB 140-1 *01,567*

User Interface Component of the Applications Portability Profile Category: Software Standard; Subcategory: Application Program Interface.
FIPS PUB 158-1 *01,793*

Spatial Data Transfer Standard (SDTS): Category: Software Standard; Subcategory: Information Interchange.
FIPS PUB 173-1 *01,794*

Spatial Data Transfer Standard (SDTS). Category: Software Standard; Subcategory: Information Interchange. (FIPS PUB 173-1A).
FIPS PUB 173-1A *01,795*

Spatial Data Transfer Standard (SDTS). Category: Software Standard; Subcategory: Information Interchange. (FIPS PUB 173-1B).
FIPS PUB 173-1B *01,796*

Secure Hash Standard. Category: Computer Security.
FIPS PUB 180-1 *01,568*

Integrated Services Digital Network (ISDN); Category: Telecommunications Standard; Subcategory: Integrated Services Digital Network.
FIPS PUB 182 *01,460*

Escrowed Encryption Standard (EES); Category: Computer Security; Subcategory: Cryptography.
FIPS PUB 185 *01,569*

Digital Signature Standard (DSS). Category: Computer Security; Subcategory: Cryptography.
FIPS PUB 186 *01,570*

Administration Standard for the Telecommunications Infrastructure of Federal Buildings. Category: Telecommunications Standard; Subcategory: Telecommunications Administration.
FIPS PUB 187 *01,461*

Standard Security Label for Information Transfer; Category: Computer Security; Subcategory: Security Labels.
FIPS PUB 188 *01,571*

Portable Operating System Interface (POSIX). Part 2. Shell and Utilities. Category: Software Standard; Subcategory: Operating Systems.
FIPS PUB 189 *01,797*

Guideline for the Use of Advanced Authentication Technology Alternatives. Category: Computer Security. Subcategory: Access Control.
FIPS PUB 190 *01,798*

Guideline for the Analysis of Local Area Network Security. Category: Computer Security; Subcategory: Risk Analysis and Contingency Planning.
FIPS PUB 191 *01,799*

Application Profile for the Government Information Locator Service (GILS). Category: Software Standard; Subcategory: Information Interchange.
FIPS PUB 192 *01,800*

SQL Environments. Category: Software Standard; Subcategory: Database.
FIPS PUB 193 *01,801*

Integration Definition for Function Modeling (IDEF0); Category: Software Standard; Subcategory: Modeling Techniques.
FIPSPUB183 *02,800*

Integration Definition for Information Modeling (IDEF1X); Category: Software Standard; Subcategory: Modeling Techniques.
FIPSPUB184 *01,673*

Optical Storage Media Data Integrity Studies.
N95-24130/3 *01,620*

Proceedings of the Digital Systems Reliability and Nuclear Safety Workshop. Held in Rockville, Maryland on September 13-14, 1993.

Compressibility of Polycrystal and Monocrystal Copper: Acoustic-Resonance Spectroscopy.
PB96-164223 *02,990*

COPPER ALLOYS

Study of Laser Resonance Ionization Mass Spectrometry Using a Glow Discharge Source.
DE94018566 *03,308*

Measuring the Stability of Three Copper Alloys.
PB94-199866 *03,326*

Roles of Copper in Applied Superconductivity.
PB94-211521 *02,255*

Diffusion of Copper into Gold Plating.
PB95-162152 *00,957*

Study of Laser Resonance Ionization Mass Spectrometry Using a Glow Discharge Source.
PB96-123203 *03,360*

COPPER BISMUTHATES

Phase Equilibria in the Systems CaO-CuO and CaO-Bi2O3.
PB95-140570 *03,048*

COPPER CHLORIDES

Structural and Magnetic Properties of CuCl2 Graphite Intercalation Compounds.
PB96-119748 *03,020*

COPPER DEUTERIDES

Pure Rotational Spectra of CuH and CuD in Their Ground States Measured by Tunable Far-Infrared Spectroscopy.
PB95-176194 *01,005*

COPPER GERMANATES

Crystal Structure and Magnetic Properties of CuGeO3.
PB95-180287 *04,678*

COPPER HYDRIDES

Rotational Spectrum of Copper Hydride Using Tunable Far Infrared Radiation.
PB94-198637 *00,792*

Pure Rotational Spectra of CuH and CuD in Their Ground States Measured by Tunable Far-Infrared Spectroscopy.
PB95-176194 *01,005*

COPPER INDIUM SELENIDES

Epitaxial Growth and Characterization of the Ordered Vacancy Compound CuIn3Se5 on GaAs (100) Fabricated by Molecular Beam Epitaxy.
PB95-180725 *04,687*

COPPER OXIDES

Phase Equilibria in the Systems CaO-CuO and CaO-Bi2O3.
PB95-140570 *03,048*

Crystal Chemistry and Phase Equilibria Studies of the BaO(BaCO3)-R2O3-CuO Systems. 4. Crystal Chemistry and Subsolidus Phase Relationship Studies of the CuO-Rich Region of the Ternary Diagrams, R=Lanthanides.
PB95-151759 *00,936*

COPYRIGHTS

Copyright and Information Services in the Context of the National Research and Education Network.
PB96-160536 *02,736*

CORM (COUNCIL FOR OPTICAL RADIATION MEASUREMENTS)

NIST Response to the Fifth CORM Report on the Pressing Problems and Projected Needs in Optical Radiation Measurements.
PB94-188240 *04,227*

CORONA DISCHARGE

Measurement of S2OF10, and S2O2F10 Production Rates from Spark and Negative Glow Corona Discharge in SF6/O2 Gas Mixtures.
PB96-123740 *01,093*

CORONA DISCHARGES

Plasma Chemical Model for Decomposition of SF6 in a Negative Glow Corona Discharge.
PB95-181053 *01,020*

CORRECTIONS

Large Local-Field Corrections in Optical Rotatory Power of Quartz and Selenium.
PB97-122378 *04,400*

CORRELATION FUNCTION

Nonequilibrium Statistical Mechanics.
PB96-161781 *04,097*

CORRESPONDING STATES

Viscosity of Defined and Undefined Hydrocarbon Liquids Calculated Using an Extended Corresponding-States Model.
PB96-167234 *02,498*

CORROSION

Volatile Corrosion Inhibitors.
AD-A310 087/2 *03,114*

Evaluation of Corrosion Data: A Review.
PB94-198348 *03,187*

Relation between AC Impedance Data and Degradation of Coated Steel. 1. Effects of Surface Roughness and Contamination on the Corrosion Behavior of Epoxy Coated Steel.
PB94-213345 *03,189*

In situ Measurements of Chloride Ion and Corrosion Potential at the Coating/Metal Interface.
PB95-140893 *03,122*

Journal of Research of the National Institute of Standards and Technology, July/August 1994. Volume 99, Number 4. Special Issue: Extreme Value Theory and Applications. Proceedings of the Conference on Extreme Value Theory and Applications, Volume 2. Held at Gaithersburg, Maryland, in May 1993.
PB95-160594 *03,440*

Sorption of Moisture on Epoxy and Alkyd Free Films and Coated Steel Panels.
PB95-162475 *03,192*

Degradation of Powder Epoxy Coated Panels Immersed in a Saturated Calcium Hydroxide Solution Containing Sodium Chloride.
PB96-101050 *01,344*

Journal of Research of the National Institute of Standards and Technology, September/October 1993. Volume 98, Number 5.
PB96-169057 *03,368*

Corrosion Characteristics of Silicon Carbide and Silicon Nitride.
PB96-169081 *03,372*

Role of Corrosion in a Material Selector Expert System for Advanced Structural Ceramics.
PB97-110308 *03,099*

CORROSION INHIBITION

Volatile Corrosion Inhibitors.
AD-A310 087/2 *03,114*

CORROSION MECHANISMS

Diffusion of Cations Beneath Organic Coatings on Steel Substrate.
PB94-215704 *03,119*

CORROSION POTENTIAL

In situ Measurements of Chloride Ion and Corrosion Potential at the Coating/Metal Interface.
PB95-140893 *03,122*

CORROSION RESISTANCE

Review of Corrosion Behavior of Ceramic Heat Exchanger Materals: Corrosion Characteristics of Silicon Carbide and Silicon Nitride. Final Report, September 11, 1992--March 11, 1993.
DE93041307 *03,228*

Corrosion Resistance of Materials for Renovation of the United States Botanic Garden Conservatory.
PB94-154390 *00,032*

Corrosion Resistant Epoxy-Coated Reinforcing Steel.
PB94-185618 *01,307*

CORROSION TESTS

Comparison of the Corrosion Rates of FeAl, Fe(sub 3)Al and Steel in Distilled Water and 0.5 M Sodium Chloride. Technical Report Number 2, January--March 1991.
DE94017332 *03,186*

CORROSIVE EFFECTS

Comparison of the Corrosion Rates of FeAl, Fe(sub 3)Al and Steel in Distilled Water and 0.5 M Sodium Chloride. Technical Report Number 2, January--March 1991.
DE94017332 *03,186*

PB96-210745 *02,512*

COST BENEFIT ANALYSIS

Robotics Application to Highway Transportation. Volume 3. Proposed Research Topics and Cost/Benefit Evaluations by CERF.
PB95-171633 *01,338*

Least-Cost Energy Decisions for Buildings. Part 3. Choosing Economic Evaluation Methods. Video Training Workbook.
PB95-253597 *00,265*

Economic Methods and Risk Analysis Techniques for Evaluating Building Investments: A Survey.
PB96-122593 *00,323*

Multiattribute Decision Analysis Method for Evaluating Buildings and Building Systems.
PB96-158670 *00,325*

COST ESTIMATES

Seismic Safety of Federal Buildings. Initial Program: How Much Will It Cost.
PB95-182291 *00,447*

COUETTE FLOW

Non-Newtonian Flow between Concentric Cylinders Calculated from Thermophysical Properties Obtained from Simulations.
PB96-163761 *04,103*

COULOMB BLOCKADE

Effect in Environmental Noise on the Accuracy of Coulomb-Blockade Devices.
PB95-175865 *04,662*

COULOMB BLOCKADE ELECTROMETERS

Noise in the Coulomb Blockade Electrometer.
PB95-176327 *04,670*

COULOMETERS

Automated, High-Precision Coulometric Titrimetry. Part 1. Engineering and Implementation.
PB95-150199 *00,575*

Automated, High Precision Coulometric Titrimetry. Part 2. Strong and Weak Acids and Bases.
PB95-150207 *00,576*

COULOMN BLOCKAGE

Performance of the Electron Pump with Stray Capacitances.
PB96-200902 *01,976*

COUNSTRUCTION MATERIALS

Unreacted Cement Content in Macro-Defect-Free Composites: Impact on Processing-Structure-Property Relations.
PB96-141270 *03,174*

COUNTIES

Codes for Named Populated Places, Primary County Divisions, and Other Locational Entities of the United States (FIPS PUB 55-3) (on Magnetic Tape).
PB95-502563 *00,129*

COUNTING TECHNIQUES

Airborne Asbestos Method: Standard Test Method for High Precision Counting of Asbestos Collected on Filters. Version 1.0.
PB94-163003 *00,525*

CRABON MONOXIDE

Global Equivalence Ratio Concept and the Formation Mechanisms of Carbon Monoxide in Enclosure Fires.
PB96-146790 *00,210*

CRACK BRIDGING

Model for Toughness Curves in Two-Phase Ceramics. 1. Basic Fracture Mechanics.
PB96-180088 *03,085*

CRACK DETECTION

Gas-Coupled, Pulse-Echo Ultrasonic Crack Detection and Thickness Gaging.
PB96-147129 *04,847*

CRACK GROWTH

Diffusive Crack Growth at a Bimaterial Interface.
PB96-204110 *03,090*

Creep and Creep Rupture of Structural Ceramics.
PB96-204524 *03,093*

CRACK PROPAGATION

Fracture Mechanics Analysis of Near-Surface Cracks.
PB94-172400 *03,230*

Crack Growth Resistance of Strain-Softening Materials under Flexural Loading.

Lattice Imperfections Studied by Use of Lattice Green's Functions.
PB95-150850 *04,576*

Moisture and Water-Induced Crack Growth in Optical Materials.
PB95-153334 *04,267*

Molecular Orbital Study of Water Enhanced Crack Growth Process.
PB95-164067 *03,240*

Nonlocal Effects of Existing Dislocations on Crack-Tip Emission and Cleavage.
PB96-161807 *03,367*

Interfacial Crack in a Two-Dimensional Hexagonal Lattice.
PB96-161989 *04,100*

Model for Microcrack Initiation and Propagation beneath Hertzian Contacts in Polycrystalline Ceramics.
PB96-163704 *03,077*

CRACK RESISTANCE

Characterization of the Hydrogen Induced Cold Cracking Susceptibility at Simulated Weld Zones in HSLA-100 Steel.
PB94-174505 *03,746*

Flaw-Tolerance and Crack-Resistance Properties of Alumina-Aluminum Titanate Composites with Tailored Microstructures.
PB97-110324 *03,101*

CRACK TIPS

Dislocation Emission at Ledges on Cracks.
PB95-164240 *04,630*

Shielding of Cracks in a Plastically Polarizable Material.
PB95-164257 *04,631*

CRACKING

Postfailure Subsidiary Cracking from Indentation Flaws in Brittle Materials.
PB97-110340 *03,103*

CRACKING (FRACTURING)

Prediction of Cracking in Reinforced Concrete Structures.
PB95-220448 *03,725*

CRACKS

Characterization of the Hydrogen Induced Cold Cracking Susceptibility at Simulated Weld Zones in HSLA-100 Steel.
AD-A279 759/5 *03,200*

Fracture Behavior of Large-Scale Thin-Sheet Aluminum Alloy.
N95-19494/0 *03,311*

Safety Assessment of Railroad Wheels Through Roll-by Detection of Tread Cracks.
PB96-141254 *04,856*

Artificial Crack in Steel: An Ultrasonic-Resonance-Spectroscopy and Modeling Study.
PB96-141395 *03,241*

Diffusion of Water along 'Closed' Mica Interfaces.
PB96-180039 *02,993*

CRASH TESTS

Effect of Fuel Tank Rupture Mode on the Ignitability of Expelled Fuel.
PB97-110043 *01,444*

CREEP

Temperature and Frequency Dependence of Anelasticity in a Nickel Oscillator.
PB96-137732 *03,689*

Tensile Creep of Silicide Composites.
PB96-200803 *03,183*

Cavity Evolution during Tensil Creep of Si3N4.
PB96-204193 *03,376*

Creep and Creep Rupture of Structural Ceramics.
PB96-204524 *03,093*

Tension/Compression Creep Asymmetry in Si3N4.
PB97-110258 *03,096*

CREEP BUCKLING

Analysis of Creep in a Si-SiC C-Ring by Finite Element Method.
PB94-200268 *03,037*

CREEP PROPERTIES

PC-Based Prototype Expert System for Data Management and Analysis of Creep and Fatigue of Selected Materials at Elevated Temperatures.
PB94-172251 *03,202*

High Temperature Degradation of Structural Composites.
PB94-172848 *03,132*

Cavitation Damage During Flexural Creep of SiAlON-YAG Ceramics.
PB94-200110 *03,036*

CREEP RAPTURE STRENGTH

Generic Model for Creep Rupture Lifetime Estimation on Fibrous Ceramic Composites.
PB94-200235 *03,137*

CREEP RATE

Observed and Theoretical Creep Rates for an Alumina Ceramic and a Silicon Nitride Ceramic in Flexure.
PB94-212958 *03,040*

CREEP RUPTURE

Transient Creep Behaviour of Hot Isostatically Pressed Silicon Nitride.
PB96-180278 *03,086*

Life Prediction of a Continuous Fiber Reinforced Ceramic Composite Under Creep Conditions.
PB96-204128 *03,091*

CREEP RUPTURE STRENGTH

Creep Rupture of MoSi2/SiCp Composites.
PB95-152294 *03,154*

Creep and Creep Rupture of Ceramic Matrix Composites.
PB95-163929 *03,165*

CREEP TESTS

Tensile Creep Testing of Structural Ceramics.
PB97-110464 *03,105*

CRITICAL CURRENT

Critical Magnetic-Field Angle for High-Field Current Transport in YBa2Cu3O7 at 76 K.
PB94-211281 *04,490*

Transport Critical Current of Aligned Polycrystalline Yttrium Barium Copper Oxide (YBa2Cu3O7-delta).
PB94-211307 *04,492*

Effect of Axial Strain on the Critical Current of Ag-Sheathed Bi-Based Superconductors in Magnetic Fields Up to 25 T.
PB94-211315 *04,493*

Magnetic Measurement of Transport Critical Current Density of Granular Superconductors.
PB95-126199 *04,531*

Critical Current Behavior of Ag-Coated YBa2Cu3O7-x Thin Films.
PB95-141016 *04,549*

Magnetic Field Dependence of the Critical Current Anisotropy in Normal Metal-YBa2Cu3O7-delta Thin Film Bilayers.
PB95-141024 *04,550*

Grain Alignment and Transport Properties of Bi2Sr2CaCu2O8 Grown by Laser Heated Float Zone Method.
PB95-161451 *04,602*

Superconductor Critical Current Standards for Fusion Applications. Final Progress Report, October 1993-July 1994.
PB95-169538 *02,222*

Increased Pinning Energies and Critical Current Densities in Heavy-Ion-Irradiated Bi2Sr2CaCu2O8 Single Crystals.
PB95-175352 *04,654*

Standard Reference Devices for High Temperature Superconductor Critical Current Measurements.
PB95-175543 *04,659*

Critical-Current Degradation in Nb3 Al Wires Due to Axial and Transverse Stress.
PB95-202784 *02,226*

Temperature Dependence and Magnetic Field Modulation of Critical Currents in Step-Edge SNS YBCO/Au Junctions.
PB96-111745 *04,723*

Critical Current and Normal Resistance of High-Tc Step-Edge SNS Junctions.
PB96-111752 *04,724*

Comparing the Accuracy of Critical-Current Measurements Using the Voltage-Current Simulator.
PB96-119219 *02,227*

Simple and Repeatable Technique for Measuring the Critical Current of Nb3Sn Wires.
PB96-119409 *02,229*

Effect of Sm2BaCuO5 on the Properties of Sintered (Bulk) YBa2Cu3O6+x.
PB96-119441 *04,733*

VAMAS Intercomparison of Critical Current Measurements on NB3Sn Superconductors: A Summary Report.
PB96-119763 *04,043*

Anomalous Switching Phenomenon in Critical-Current Measurements When Using Conductive Mandrels.

Standard States, Reference States and Finite-Concentration Effects in Near-Critical Mixtures with Applications to Aqueous Solutions.
PB95-164349 *00,979*

Critical Scaling Laws and a Classical Equation of State.
PB95-169249 *00,990*

Coexisting Densities, Vapor Pressures and Critical Densities of Refrigerants R-32 and R-152a, at 300 - 385 K.
PB95-175691 *03,274*

Diffuse-Interface Description of Fluid Systems.
PB96-210711 *01,170*

CRITICAL POINTS

Internal Waves in Xenon Near the Critical Point.
PB97-111504 *04,221*

CRITICAL REGION

Vapor-Liquid Equilibria of Ternary Mixtures in the Critical Region on Paths of Constant Temperature and Overall Composition.
PB96-161856 *01,139*

Nonlinear Correlation of High-Pressure Vapor-Liquid Equilibrium Data for Ethylene + n-Butane Showing Inconsistencies in Experimental Compositions.
PB96-161906 *01,141*

CRITICAL STATE

Pinch Effect in Commensurate Vortex-Pin Lattices.
PB96-147079 *01,125*

CRITICAL TEMPERATURE

Dependence of Tc on Debye Temperature Theta(sub D) for Various Cuprates.
PB95-180493 *04,683*

CRITICALITY

Neutron Leakage Benchmark for Criticality Safety Research.
PB95-126132 *03,723*

CRITICALITY CALCULATIONS

MCNP Model of the National Bureau of Standards Reactor (NBSR) Core.
PB96-138599 *03,733*

CROSS SECTIONS

Low-Energy-Electron Collisions with Sodium: Elastic and Inelastic Scattering from the Ground State.
PB96-103106 *04,030*

CROSSLINKING

Electron Beam Crosslinking of Poly(vinylmethyl ether).
PB94-185550 *01,205*

Effect of Curing History on Ultimate Glass Transition Temperature and Network Structure of Crosslinking Polymers.
PB94-200052 *01,214*

Effect of Cross-Links on the Miscibility of a Deuterated Polybutadiene and Protonated Polybutadiene Blend.
PB94-212438 *01,225*

Localization Model of Rubber Elasticity: Comparison with Torsional Data for Natural Rubber Networks in the Dry State.
PB95-107033 *03,195*

Elastic Scattering of Polymer Networks.
PB95-161816 *01,255*

Formation of DNA-Protein Cross-Links in Cultured Mammalian Cells Upon Treatment with Iron Ions.
PB96-137724 *03,651*

Evidence of Crosslinking in Methyl Pendent PBZT Fiber.
PB97-112486 *03,393*

CROSSLINKING NETWORK

Effect of Curing History on Ultimate Glass Transition Temperature and Network Structure of Crosslinking Polymers.
PB94-200052 *01,214*

CROSSTALK

Crosstalk between Microstrip Transmission Lines.
PB94-135639 *02,210*

Crosstalk between Microstrip Transmission Lines. (NIST Reprint).
PB95-180337 *02,225*

CRYOCOOLERS

Building a Better Crycooler.
PB96-119615 *04,734*

CRYOELECTRONICS
Metrology for Electromagnetic Technology: A Bibliography of NIST Publications.
PB95-135588 *02,143*

CRYOFOCUSING
Chromatographic Cryofocusing and Cryotrapping with the Vortex Tube.
PB95-180113 *00,604*

CRYOGENIC COOLING
Resistance Thermometers with Fast Response for Use in Rapidly Oscillating Gas Flows.
PB95-107298 *03,261*

Chromatographic Cryofocusing and Cryotrapping with the Vortex Tube.
PB95-180113 *00,604*

CRYOGENIC CURRENT COMPARATORS
High-Temperature Superconductor Cryogenic Current Comparator.
PB96-119334 *02,074*

CRYOGENIC EQUIPMENT
Cryogenic Toughness of Austenitic Stainless Steel Weld Metals: Effect of Inclusions.
PB95-161261 *03,214*

CRYOGENIC FLUIDS
Reference Data for the Thermophysical Properties of Cryogenic Fluids.
PB95-168688 *03,263*

CRYOGENIC PROPELLANTS
Cryogenic Research and Development (Quarterly Report Number 1 for Period Ending September 30, 1960).
AD-A280 401/1 *01,456*

Cryogenic Research and Development (June 30, 1961).
AD-A280 679/2 *01,457*

CRYOGENIC PROPERTIES
Temperature-Induced Transition in Ductile Fracture Appearance of a Nitrogen-Strengthened Austenitic Stainless Steel.
PB96-190269 *03,221*

CRYOGENIC RADIOMETERS
Journal of Research of the National Institute of Standards and Technology, March/April 1996. Volume 101, Number 2.
PB96-177381 *01,863*

NIST High Accuracy Scale for Absolute Spectral Response from 406 nm to 920 nm.
PB96-179122 *01,865*

CRYOGENIC TEMPERATURE
Development of a Temperature Scale below 0.5 K.
PB95-125639 *03,879*

Cryogenics.
PB95-164703 *02,654*

CRYOGENIC TEST PROCEDURES
Charpy Specimen Tests at 4 K.
PB96-190335 *03,002*

CRYOGENICS
Cryogenic Research and Development (Quarterly Report Number 2 for Period Ending December 31, 1960).
AD-A280 398/9 *01,454*

Cryogenic Research and Development (Progress Report Number 4 for Period Ending December 31, 1961).

Cryogenic Research and Development (Quarterly Report Number 1 for Period Ending September 30, 1960).
AD-A280 401/1 *01,456*

Cryogenic Research and Development (June 30, 1961).
AD-A280 679/2 *01,457*

Bibliography of the Physical Equilibria and Related Properties of Some Cryogenic Systems.
AD-A281 167/7 *03,769*

Progress Report to National Aeronautics and Space Administration on Cryogenic Research and Development.
AD-A286 612/7 *01,458*

Cryogenic Materials Data Handbook.
AD-A286 675/4 *03,303*

Survey of the Literature on Heat Transfer from Solid Surfaces to Cryogenic Fluids.
AD-A286 680/4 *04,193*

Cryogenic Properties of Silver.
PB94-203593 *03,330*

Welding for Cryogenic Service.
PB95-162889 *02,852*

High-Temperature Superconductor Cryogenic Current Comparator.
PB96-119334 *02,074*

Building a Better Crycooler.
PB96-119615 *04,734*

Microwave Dielectric Properties of Anisotropic Materials at Cryogenic Temperatures.
PB96-137765 *02,412*

Cryogenic Flow Calibration in NIST.
PB96-161930 *01,143*

National Institute of Standards and Technology High-Accuracy Cryogenic Radiometer.
PB96-179585 *04,378*

Charpy Impact Test as an Evaluation of 4 K Fracture Toughness.
PB96-190194 *03,219*

Realization of a Scale of Absolute Spectral Response Using the NIST High Accuracy Cryogenic Radiometer.
PB97-118640 *04,397*

CRYOSCOPY
Anomalous Freezing and Melting of Solvent Crystals in Swollen Gels of Natural Rubber.
PB94-212321 *01,223*

CRYOTRAPPING
Chromatographic Cryofocusing and Cryotrapping with the Vortex Tube.
PB95-180113 *00,604*

CRYPTOGRAPHY
Security Requirements for Cryptographic Modules; Category: Computer Security; Subcategory: Cryptography.
FIPS PUB 140-1 *01,567*

Digital Signature Standard (DSS). Category: Computer Security; Subcategory: Cryptography.
FIPS PUB 186 *01,570*

Report of the NIST Workshop on Digital Signature Certificate Management. Held on December 10-11, 1992.
PB94-135001 *01,574*

Federal Certification Authority Liability and Policy: Law and Policy of Certificate-Based Public Key and Digital Signatures.
PB94-191202 *01,578*

Formal Specification and Verification of Control Software for Cryptographic Equipment.
PB94-213030 *01,585*

EDI and EFT Security Standards.
PB96-122833 *01,605*

Response to Comments on the NIST Proposed Digital Signature Standard.
PB96-161815 *01,615*

CRYPTOLOGY
Data Encryption Standard.
PB95-162376 *01,595*

CRYSTAL CHEMISTRY
Crystal Chemistry and Phase Equilibrium Studies of the BaO(BaCO3)-R2O3-CuO Systems. 5. Melting Relations in Ba2(Y,Nd,Eu)Cu3O6+x.
PB95-151718 *04,580*

Crystal Chemistry and Phase Equilibrium Studies of the BaO-R2O3-CuO Systems. 2. X-Ray Characterization and Standard Patterns of BaR2CuO4, R=Lanthanides.
PB95-151734 *04,582*

Crystal Chemistry and Phase Equilibria Studies of the BaO(BaCO3)-R2O3-CuO Systems. 4. Crystal Chemistry and Subsolidus Phase Relationship Studies of the CuO-Rich Region of the Ternary Diagrams, R=Lanthanides.
PB95-151759 *00,936*

CRYSTAL DEFECTS
Correlation of HgCdTe Epilayer Defects with Underlying Substrate Defects by Synchrotron X-Ray Topography.
PB94-200714 *02,129*

Defect of Thermal Ramping and Annealing Conditions on Defect Formation in Oxygen Implanted Silicon-On-Insulator Material.
PB94-212966 *02,318*

Characterization of Interface Defects in Oxygen-Implanted Silicon Films.
PB94-216629 *02,322*

Defective Structures of Barium Yttrium Copper Oxide (Ba2YCu3Ox) and Ba2YCu3-yMyOz (M=Fe, Co, Al, Ga, ..).
PB95-140034 *04,537*

Lattice Imperfections Studied by Use of Lattice Green's Functions.
PB95-150850 *04,576*

Lineshape Analysis of the Raman Spectrum of Diamond Films Grown by Hot-Filament and Microwave-Plasma Chemical-Vapor Deposition.
PB95-162392 *03,016*

Studies of Defects in Diamond Films and Particles by Raman and Luminescence Spectroscopies.
PB95-162400 *03,017*

Elastic Properties of Central-Force Networks with Bond-Length Mismatch.
PB95-163366 *04,623*

Influence of Lattice Mismatch on Indium Phosphide Based High Electron Mobility Transistor (HEMT) Structures Observed in High Resolution Monochromatic Synchrotron X-Radiation Diffraction Imaging.
PB95-164679 *02,357*

Small Angle Neutrons Scattering from Nanocrystalline Palladium as a Function of Annealing.
PB95-176103 *03,354*

Nano-Defects in Commercial Bonded SOI and SIMOX.
PB96-123674 *02,407*

CRYSTAL DISLOCATIONS
Defect Pair Formation by Implantation-Induced Stresses in High-Dose Oxygen Implanted Silicon-on-Insulator Material.
PB95-175824 *02,364*

CRYSTAL GROWTH
Computation of Dendrites Using a Phase Field Model.
PB94-160744 *04,436*

Asymptotic Behavior of Modulated Taylor-Couette Flows with a Crystalline Inner Cylinder.
PB94-199072 *04,469*

Selective Inhibition of Crystal Growth on Octacalcium Phosphate and Nonstoichiometric Hydroxyapatite by Pyrophosphate at Physiological Concentration.
PB94-211257 *00,147*

Microstructural Evolution in Two-Dimensional Two-Phase Polycrystals.
PB94-211992 *04,498*

Effect of Modulated Taylor-Couette Flows on Crystal-Melt Interfaces: Theory and Initial Experiments.
PB94-216736 *04,521*

Morphological Stability.
PB95-153318 *04,591*

Lineshape Analysis of the Raman Spectrum of Diamond Films Grown by Hot-Filament and Microwave-Plasma Chemical-Vapor Deposition.
PB95-162392 *03,016*

Studies of Defects in Diamond Films and Particles by Raman and Luminescence Spectroscopies.
PB95-162400 *03,017*

Surface Roughness Evaluation of Diamond Films Grown on Substrates with a High Density of Nucleation Sites.
PB95-162418 *03,018*

In-situ Monitoring of Molecular Beam Epitaxial Growth Using Single Photon Ionization.
PB95-202222 *01,023*

Single Photon Ionization, Laser Optical Probe Technique for Semiconductor Growth.
PB95-202776 *01,032*

Laser Gas Ionization Technique Monitors MEB Crystal Growth.
PB96-112172 *01,076*

Stagnant Film Model of the Effect of Natural Convection on the Dendrite Operating State.
PB96-146832 *04,765*

Powder X-ray Diffraction Data for Ca2Bi2O5 and C4Bi6O13.
PB96-161278 *04,777*

Preparation and Crystal Structure of Sr5TiNb4O17.
PB96-167341 *04,107*

CRYSTAL LATTICES
Status of a Silicon Lattice Measurement and Dissemination Exercise.
PB94-199635 *04,474*

Elastic Properties of Central-Force Networks with Bond-Length Mismatch.
PB95-163366 *04,623*

Lattice Dynamics of Ba1-xKxBiO3.
PB96-102421 *04,706*

Lattice Dynamics of Semiconducting, Metallic, and Superconducting Ba1-xKxBiO3 Studied by Inelastic Neutron Scattering.
PB96-102447 *04,708*

CRYSTAL-MELT INTERFACE
Effect of Modulated Taylor-Couette Flows on Crystal-Melt Interfaces: Theory and Initial Experiments.
PB94-216736 *04,521*

Effects of Elastic Stress on the Stability of a Solid-Liquid Interface.
PB95-163028 *03,350*

Rayleigh Instability for a Cylindrical Crystal-Melt Interface.
PB95-180667 *01,010*

CRYSTAL OSCILLATORS
Fundamental Limits on the Frequency Stabilities of Crystal Oscillators.
PB96-176565 *02,277*

CRYSTAL-PHASE TRANSFORMATION
Modeling the Evolution of Structure in Unstable Solid Solution Phases by Diffusional Mechanisms.
PB94-199403 *03,324*

CRYSTAL-PHASE TRANSFORMATIONS
Journal of Research of the National Institute of Standards and Technology, September/October 1993. Volume 98, Number 5.
PB96-169057 *03,368*

CRYSTAL SIZE
Effect of Supersaturation on Apatite Crystal Formation in Aqueous Solutions at Physiologic pH and Temperature.
PB96-135215 *03,571*

CRYSTAL STRUCTURE
Neutron Powder Diffraction Study of a Na, Cs-Rho Zeolite.
PB94-198629 *00,791*

Crystallographic Characterization of Some Intermetallic Compounds in the Al-Cr System.
PB94-198702 *03,318*

Neutron Scattering Structural Study of AlCuFe Quasicrystals Using Double Isotopic Substitution.
PB94-200458 *04,485*

Fast-Ion Conduction and Disorder in Cation and Anion Arrays in Y2(ZryTi(1-y))2O7 Pyrochlores Induced by Zr Substitution: A Neutron Rietveld Analysis.
PB94-211869 *04,496*

Neutron Powder Diffraction Study of the Crystal Structure of YSr2AlCu2O7.
PB94-212073 *04,499*

Structures of Vapor-Deposited Yttria and Zirconia Thin Films.
PB94-216025 *03,041*

Crystal Structure of Pb2Sr2YCu3O8+delta with delta=1.32, 1.46, 1.61, 1.71, by Powder Neutron Diffraction.
PB94-216314 04,518

Crystal Structure of Dicalcium Potassium Trihydrogen Bis(pyrophosphate) Trihydrate.
PB94-216561 00,152

Crystal Structure of Calcium Adipate Monohydrate.
PB94-216579 00,153

Crystal Structure of a New Sodium Zinc Arsenate Phase Solved by 'Simulated Annealing'.
PB95-107124 00,870

Rietveld Analysis of NaxWO3+x/2.yH2O, Which Has the Hexagonal Tungsten Bronze Structure.
PB95-107371 04,524

Neutron Powder Diffraction Study of the Structures of La1.9Ca1.1Cu2O6 and La1.9Sr1.1Cu2O6+Delta.
PB95-140042 04,538

Crystallographic and Magnetic Properties of UAuSn.
PB95-140521 04,543

Crystal Structure and Magnetic Ordering of the Rare-Earth and Cu Moments in RBa2Cu2NbO8(R=Nd,Pr).
PB95-140554 04,546

Ca4Bi6O13: A Compound Containing an Unusually Low Bismuth Coordination Number and Short Bi Bi Contacts.
PB95-141131 00,911

X-Ray-Diffraction Study of a Thermomechanically Detwinned Single Crystal of YBa2Cu3O6+x.
PB95-151726 04,581

Crystal Chemistry and Phase Equilibrium Studies of the BaO-R2O3-CuO Systems. 2. X-Ray Characterization and Standard Patterns of BaR2CuO4, R=Lanthanides.
PB95-151734 04,582

X-Ray Powder Diffraction Data for BaCu(C2O4)2.6H2O.
PB95-151767 04,583

Neutron Powder Diffraction Study of the Nuclear and Magnetic Structures of the Oxygen-Deficient Perovskite YBaCuCoO5.
PB95-161097 00,954

Calibration of High-Energy Electron Beams by Use of Graphite Calorimeters.
PB95-161113 04,598

Ca1-xCuO2, a NaCuO2-Type Related Structure.
PB95-162822 04,620

Octacalcium Phosphate Carboxylates. 5. Incorporation of Excess Succinate and Ammonium Ions in the Octacalcium Phosphate Succinate Structure.
PB95-168894 00,166

Crystal Structure of Calcium Succinate Monohydrate.
PB95-168928 00,167

Crystal Structure and Compressibility of 3:2 Mullite.
PB95-175030 03,682

Crystal Structure and Magnetic Properties of CuGeO3.
PB95-180287 04,678

Structural and Chemical Investigations of Na3(ABO4)3.4H2O-Type Sodalite Phases.
PB95-180733 01,012

Powder Neutron Diffraction Investigation of Structure and Cation Ordering in Ba2+xBi2-xO6-y.
PB95-180865 01,015

Early History and Future Outlook for the X-ray Crystal Density Method.
PB95-202487 04,692

Determination of Complex Structures from Powder Diffraction Data: The Crystal Structure of La3Ti5Al15O37.
PB95-202966 01,038

Structure and Conductivity of Layered Oxides (Ba,Sr)n+1(Sn,Sb)nO3n+1.
PB96-102439 04,707

Oxygen Dependance of the Crystal Structure of HgBa2CuO4+ and Its Relation to Superconductivity.
PB96-102512 04,711

Crystal Structure of a New Monoclinic Form of Potassium Dihydrogen Phosphate Containing Orthophosphacidium Ion, (H4PO4)(sup+1).
PB96-111794 04,725

Crystal Structure of Calcium Glutarate Monohydrate.
PB96-111893 01,074

Crystal Structure of Decacalcium Tetrapotassium Hexakis (Pyrophosphate) Nonahydrate.
PB96-141064 01,099

Neutron-Powder-Diffraction Study of the Long-Range Order in the Octahedral Sublattice of LaD2.25.
PB96-141155 04,753

Fast-Ion Conducting Y2(ZryTi1-y)2O7 Pyrochlores: Neutron Rietveld Analysis of Disorder Induced by Zr Substitution.
PB96-156104 04,776

Tetrahedral-Framework Lithium Zinc Phosphate Phases: Location of Light-Atom Positions in LiZnPO4 H2O by Powder Neutron Diffraction and Structure Determination of LiZnPO4 by ab Initio Methods.
PB96-160510 01,129

Characterization of the Structure of TbD2.25 at 70 K by Neutron Powder Diffraction.
PB96-160528 01,130

CRYSTALLINE CERAMICS

Small-Angle Neutron Scattering Characterization of Processing/Microstructure Relationships in the Sintering of Crystalline and Glassy Ceramics. (Reannouncement with New Availability Information).
AD-A249 510/9 03,025

CRYSTALLIZATION

Polyethylene Crystallized from an Entangled Solution Observed by Scanning Tunneling Microscopy.
PB95-107389 01,232

Biological Macromolecular Crystallization Database: A Tool for Developing Crystallization Strategies.
PB95-126157 00,897

Influence of Natural and Synthetic Inhibitors on the Crystallization of Calcium Oxalate Hydrates.
PB95-150967 03,560

X-Ray Characterization of the Crystallization Process of High-Tc Superconducting Oxides in the Sr-Bi-Pb-Ca-Cu-O System.
PB95-151700 04,579

CRYSTALLOGRAPHY

Statistical Descriptors in Crystallography. 2. Report of a Working Group on Expression of Uncertainty in Measurement.
PB96-146824 04,764

Journal of Research of the National Institute of Standards and Technology, May/June 1996. Volume 101, Number 3. Special Issue: NIST Workshop on Crystallographic Databases.
PB97-109011 04,798

CRYSTMET: The NRCC Metals Crystallographic Data File.
PB97-109029 04,799

Inorganic Crystal Structure Database (ICSD) and Standardized Data and Crystal Chemical Characterization of Inorganic Structure Types (TYPIX): Two Tools for Inorganic Chemists and Crystallographers.

Nucleic Acid Database: Present and Future.
PB97-109078 00,518

Powder Diffraction File: Past, Present, and Future.
PB97-109086 04,800

NIST Crystallographic Databases for Research and Analysis.
PB97-109094 04,801

Conventional and Eccentric Uses of Crystallographic Databases in Practical Materials Identification Problems.
PB97-109102 04,802

Using NIST Crystal Data within Siemens Software for Four-Circle and SMART CCD Diffractometers.
PB97-109110 04,803

Phase Identification in a Scanning Electron Microscope Using Backscattered Electron Kikuchi Patterns.
PB97-109128 04,804

Biological Macromolecule Crystallization Database and NASA Protein Crystal Growth Archive.
PB97-109136 01,171

Investigations of the Systematics of Crystal Packing Using the Cambridge Structural Database.
PB97-109144 00,519

Troublesome Crystal Structures: Prevention, Detection, and Resolution.
PB97-109151 01,172

CIF Crystallographic Information File: A Standard for Crystallographic Data Interchange.
PB97-109169 04,805

Role of Journals in Maintaining Data Integrity: Checking of Crystal Structure Data in 'Acta Crystallographica'.
PB97-109177 04,806

Electronic Publishing and the Journals of the American Chemical Society.
PB97-109185 04,807

How the Cambridge Crystallographic Data Centre Obtains Its Information.
PB97-109193 04,808

Data Import and Validation in the Inorganic Crystal Structure Database.
PB97-109201 04,809

World Wide Web for Crystallography.
PB97-109219 04,810

Workshop Highlights.
PB97-109227 04,811

CRYSTALS

Effect of Electrode-Polymer Interfacial Layers on Polymer Conduction. Part 2. Device Summary.
PB95-151155 02,335

Crystal Packing Interactions of Two Different Crystal Forms of Bovine Ribonuclease A.
PB95-152823 00,943

Dynamics of Mu(+) in Sc and ScHx.
PB96-180021 04,112

Systematic Correction in Bragg X-ray Diffraction of Flat and Curved Crystals.
PB97-112239 04,152

CSOR (COMPUTER SECURITY OBJECTS REGISTER)

General Procedures for Registering Computer Security Objects.
PB94-134897 01,573

CUBANE

1,4-Dinitrocubane and Cubane under High Pressure.
PB95-108437 03,755

CUBANE/DINITRO

1,4-Dinitrocubane and Cubane under High Pressure.
PB95-108437 03,755

CUBANES

Neutron Scattering Study of the Lattice Modes of Solid Cubane.
PB96-147152 01,126

CUPRIC OXIDE

Cooper M(sub II,III) X-ray-Emission Spectra of Copper Oxides and the Bismuth Cuprate Superconductor.
PB96-158027 04,077

CURIE TEMPERATURE

Monte Carlo and Mean-Field Calculations of the Magnetocaloric Effect of Ferromagnetically Interacting Clusters.
PB94-172087 03,201

CURING

Fluorescence Monitoring of Polarity Change and Gelation during Epoxy Cure.
PB94-185543 01,204

Digitized Direct Simulation Model of the Microstructural Development of Cement Paste.
PB94-198777 01,309

Digitized Simulation Model for Microstructural Development.
PB94-198785 01,310

Diffusion Studies in a Digital-Image-Based Cement Paste Microstructural Model.
PB94-198801 01,312

Maturity Method.
PB94-199494 01,313

Maturity Functions for Concrete Made with Various Cements and Admixtures.
PB94-199502 01,314

Interaction between Naphthalene Sulfonate and Silica Fume in Portland Cement Pastes.
PB94-199759 01,315

Effect of Curing History on Ultimate Glass Transition Temperature and Network Structure of Crosslinking Polymers.
PB94-200052 01,214

Monitoring Polymer Cure by Fluorescence Recovery After Photobleaching.
PB94-211422 01,218

Review of Cure Monitoring Techniques for On-Line Process Control.
PB94-216728 03,145

Structural Heterogeneity in Epoxies.
PB95-151866 01,243

Applications of Fluorescence Spectroscopy in Polymer Science and Technology.
PB95-163770 01,258

CURRENT

Electrical Characteristics of Argon Radio Frequency Glow Discharges in an Asymmetric Cell.
PB96-176490 04,109

CURRENT CONTROLLERS

Low-Noise High-Speed Diode Laser Current Controller.
PB95-202826 02,178

CURRENT CONVERTERS

High-Current Thin Film Multijunction Thermal Converters and Multi-Converter Modules.
PB97-112379 01,989

CURRENT DENSITY

Controlling the Critical Current Density of High-Temperature SNS Josephson Junctions.
PB96-200712 04,794

CURRENT SENSING

Improved Annealing Technique for Optical Fiber.
PB96-119680 04,343

CURRENT SENSORS

Optical Current Transducer for Calibration Studies.
PB94-185907 02,121

Faraday Effect Current Sensors.
PB94-200698 02,127

Faraday Effect Sensors: A Review of Recent Progress.
PB94-200706 02,128

CURRENT SOURCES

Flux-Locked Current Source Reference.
PB95-150785 02,039

CURRENTS

Bias Current Dependent Resistance Peaks in NiFe/Ag Giant Magnetoresistance Multilayers.
PB97-112346 04,153

CURRICULA

Computer Security Training and Awareness Course Compendium.
PB95-130985 01,589

CURVE FITTING
Sensitivity of Three-Point Circle Fitting.
PB95-136354 *02,901*

Outlier-Resistant Methods for Estimation and Model Fitting.
PB95-203436 *03,444*

CURVE MOTION
Nonlinear Dynamics of Stiff Polymers.
PB96-122478 *01,278*

CURVED GUIDE
Transmission Properties of Short Curved Neutron Guides. Part 1. Acceptance Diagram Analysis and Calculations.
PB96-102199 *04,021*

CYANINE DYES
Radiation Chemistry of Cyanine Dyes: Oxidation and Reduction of Merocyanine 540.
PB94-211661 *00,818*

CYANOACETYLENE
Rotational Spectra of CH3CCH-NH3, NCCCH-NH3, and NCCCH-OH2.
PB97-118798 *04,170*

CYANOBIPHENYL PHASES
Comparison of Selectivities for PCBs in Gas Chromatography for a Series of Cyanobiphenyl Stationary Phases.
PB96-119458 *00,618*

CYCLIC COMPOUNDS
Ring-Opening Dental Resin Systems Based on Cyclic Acetals.
PB95-162251 *00,162*

Synthesis and Polymerization of Difunctional and Multifunctional Monomers Capable of Cyclopolymerization.
PB95-163044 *01,257*

CYCLIC LOADS
Model Precast Concrete Beam-to-Column Connections Subject to Cyclic Loading.
PB95-153094 *00,438*

Partially Prestressed and Debonded Precast Concrete Beam-Column Joints.
PB95-153102 *00,439*

Seismic Performance Behavior of Precast Concrete Beam-Column Joints.
PB95-153110 *00,440*

Evaluating the Seismic Performance of Lightly-Reinforced Circular Concrete Bridge Columns.
PB95-163259 *01,335*

Performance of 1/3-Scale Model Precast Concrete Beam-Column Connections Subjected to Cyclic Inelastic Loads. Report No. 4.
PB95-179024 *00,444*

CYCLOBUTENE COMPOUNDS
Homogeneous Gas Phase Decyclization of Tetralin and Benzocyclobutene.
PB95-151049 *00,928*

CYCLODEXTRINS
Thermodynamic and NMR Study of the Interactions of Cyclodextrins with Cyclohexane Derivatives.
PB94-185816 *00,781*

Thermodynamic Study of the Reactions of Cyclodextrins with Primary and Secondary Aliphatic Alcohols, with D- and L-Phenylalanine, and with L-Phenylalanineamide.
PB95-180873 *01,016*

CYCLOHEXANOLS
Thermodynamic and NMR Study of the Interactions of Cyclodextrins with Cyclohexane Derivatives.
PB94-185816 *00,781*

CYLINDRICAL BODIES
Elastic Constants of Isotropic Cylinders Using Resonant Ultrasound.
PB94-211919 *04,497*

CYTOCHROME C
Characterization of Cytochrome c/Alkanethiolate Structures Prepared by Self-Assembly on Gold.
PB95-164638 *00,987*

CYTOSINE
Substrate Specificity of the Escherichia coli Endonuclease III: Excision of Thymine- and Cytosine-Derived Lesions in DNA Produced by Radiation-Generated Free Radicals.
PB95-153425 *03,535*

DAMAGE
Repair of Products of Oxidative DNA Base Damage in Human Cells.
PB96-190129 *03,555*

DAMAGE ACCUMULATION
Model for Toughness Curves in Two-Phase Ceramics. 2. Microstructural Variables.
PB96-163795 *03,078*

Effect of Grain Size on Hertzian Contact Damage in Alumina.
PB96-179601 *03,083*

Indentation Fatigue: A Simple Cyclic Hertzian Test for Measuring Damage Accumulation in Polycrystalline Ceramics.
PB96-180013 *03,084*

DAMAGE ASSESSMENT
Northridge Earthquake, 1994. Performance of Structures, Lifelines and Fire Protection Systems.
PB94-161114 *00,421*

Northridge Earthquake 1994: Performance of Structures, Lifelines, and Fire Protection Systems.
PB94-207461 *04,825*

Lessons Learned by a Wing Engineer.
PB94-216421 *00,429*

Performance of HUD-Affiliated Properties during the January 17, 1994 Northridge Earthquake.
PB95-174488 *00,443*

Evaluation of Thermal Wave Imaging for Detection of Machining Damage in Ceramics.
PB95-220547 *03,062*

Some Notable Hurricanes Revisited.
PB96-122601 *00,458*

Comparison of Responses of a Select Number of Buildings to the 10/17/1989 Loma Prieta (California) Earthquake and Low-Level Amplitude Test Results.
PB96-159645 *00,467*

January 17, 1995 Hyogoken-Nanbu (Kobe) Earthquake. Performance of Structures, Lifelines and Fire Protection Systems. Executive Summary and Paper.
PB97-104160 *00,475*

DAMPERS
Method of Estimating the Parameters of Tuned Mass Dampers for Seismic Applications.
PB96-167820 *00,473*

DATA ACCESS
Sharing Information via the Internet: An Infoserver Case Study.
PB96-131511 *01,493*

DATA ACQUISITION
Tabulation of Data on Receiving Tubes. Handbook 68.
AD-A285 495/8 *02,111*

User Study: Informational Needs of Remote National Archives and Records Administration Customers.
PB95-154738 *02,725*

DATA ANALYSIS
Concept for an Algorithm Testing and Evaluation Program at NIST.
PB94-163029 *02,890*

Analysis of Autocorrelations in Dynamic Processes.
PB95-181228 *02,826*

Algorithm Testing and Evaluation Program for Coordinate Measuring Systems: Long Range Plan.

DATA COLLECTION
Panel: Building and Using Test Collections.
PB97-118673 *02,743*

DATA COLLECTIONS
Lake Erie Water Temperature Data, Put-in-Bay, Ohio, 1918-1992.
PB96-202452 *03,692*

DATA COMMUNICATION SYSTEMS
Data Communications Strategy.
PB96-167846 *02,738*

DATA DICTIONARIES
Information Resource Dictionary System (IRDS): A Status Report.
PB95-126207 *01,810*

DATA ELEMENTS
Application of Metadata Standards.
PB96-180187 *01,771*

DATA ENCRYPTION
Data Encryption Standard (DES); Category: Computer Security; Subcategory: Cryptography.
FIPS PUB 46-2 *01,572*

Escrowed Encryption Standard (EES); Category: Computer Security; Subcategory: Cryptography.
FIPS PUB 185 *01,569*

Report of the NIST Workshop on Key Escrow Encryption. Held in Gaithersburg, Maryland on June 8-10, 1994.
PB94-209459 *01,584*

Data Encryption Standard.
PB95-162376 *01,595*

EDI and EFT Security Standards.
PB96-122833 *01,605*

Introduction to Secure Telephone Terminals.
PB97-110498 *01,512*

DATA FILE
Codes for Named Populated Places, Primary County Divisions, and Other Locational Entities of the United States (FIPS PUB 55-3) (on Magnetic Tape).
PB95-502563 *00,129*

FIPS PUB 8-6, Metropolitan Areas (for Microcomputers).
PB95-503280 *04,874*

Countries, Dependencies, Areas of Special Sovereignty, and Their Principal Administrative Divisions (for Microcomputers).
PB95-503504 *00,130*

DATA FILES
Standardised Computer Data File Format for Storage, Transport, and Off-Line Processing of Partial Discharge Data.
PB96-122486 *01,930*

DATA FLOW ANALYSIS
Hardware Measurement Techniques for High-Speed Networks.
PB96-160551 *01,500*

DATA LINKS
Provision of Isochronous Service on IEEE 802.6.
PB96-160635 *01,501*

DATA MANAGEMENT
Compatibility Analysis of the ANSI and ISO IRDS Services Interfaces.
PB94-163474 *01,805*

PC-Based Prototype Expert System for Data Management and Analysis of Creep and Fatigue of Selected Materials at Elevated Temperatures.
PB94-172251 *03,202*

Analyzing Electronic Commerce.
PB94-219102 *00,480*

Object SQL: Language Extensions for Object Data Management.

DATA VALIDATION
How the Cambridge Crystallographic Data Centre Obtains Its Information.
PB97-109193 *04,808*

Data Import and Validation in the Inorganic Crystal Structure Database.
PB97-109201 *04,809*

DATABASES
Progress in the Development of a Chemical Kinetic Database for Combustion Chemistry.
PB95-151056 *01,384*

Information Retrieval Using Key Words and a Structured Review.
PB95-161121 *03,724*

Locating Fire Engineering Information.
PB95-161188 *00,198*

Access Paths for Materials Databases: Approaches for Large Databases and Systems.
PB95-162525 *02,975*

Database for the Static Dielectric Constant of Water and Steam.
PB96-145586 *01,103*

Locating Fire Information.
PB96-190137 *00,227*

Workshop Highlights.
PB97-109227 *04,811*

DAUGHTER PRODUCTS
Systematics of Alpha-Particle Energy Spectra and Lineal Energy (Y) Spectra for Radon Daughters.
PB94-185139 *03,615*

DAYLIGHT
Lighting Quality and Light Source Size.
PB95-151783 *00,252*

DAYLIGHTING
Papers Presentations Shine.
PB94-200383 *00,244*

DEBONDING
Determination of Fiber-Matrix Interfacial Properties of Importance to Ceramic Composite Toughening.
PB95-125811 *03,149*

DEBUGGING (COMPUTERS)
Debugger for Tcl Applications.
PB94-213303 *01,695*

Method to Determine a Basis Set of Paths to Perform Program Testing.
PB96-131503 *01,747*

Program Slicing.
PB96-160981 *01,761*

Using S-Check, Alpha Release 1.0.
PB96-165964 *01,767*

DEBYE-HUCKEL THEORY
Electrolytes Constrained on Fractal Structures: Debye-Huckel Theory.
PB97-110241 *01,174*

DEBYE TEMPERATURE
Dependence of Tc on Debye Temperature Theta(sub D) for Various Cuprates.
PB95-180493 *04,683*

DEC/MASPAR MP-1 COMPUTER SYSTEMS
MasPar MP-1 as a Computer Arithmetic Laboratory.
PB95-189437 *01,627*

DECISION MAKING
EXITT: A Simulation Model of Occupant Decisions and Actions in Residential Fires.
PB94-213261 *00,351*

DECISION SUPPORT SYSTEMS
AutoBid 2.0: The Microcomputer System for Police Patrol Vehicle Selection.
PB96-154570 *04,871*

DECISION TREE ANALYSIS
Point Probe Decision Trees for Geometric Concept Classes.
PB96-160817 *01,612*

DECOMPOSITION
Thermal Decomposition Pathways in Nitramine Propellants.
AD-A295 896/5 *03,753*

Spectroscopic Study of Reaction Intermediates and Mechanisms in Nitramine Decomposition and Combustion.
AD-A296 061/5 *03,774*

Decomposition of SF6 and Production of S2F10 in Power Arcs.
PB96-122619 *01,084*

DECOMPOSITION REACTIONS
Oxidation of 10-Methylacridan, a Synthetic Analogue of NADH and Deprotonation of Its Cation Radical. Convergent Application of Laser Flash Photolysis and Direct and Redox Catalyzed Electrochemistry to the Kinetics of Deprotonation of the Cation Radical.
PB94-198371 *00,785*

Mechanism and Rate Constants for the Reactions of Hydrogen Atoms with Isobutene at High Temperatures.
PB95-151064 *00,929*

Decomposition of Sulfur Hexafluoride by X-rays.
PB96-135314 *01,095*

DECYCLIZATION
Homogeneous Gas Phase Decyclization of Tetralin and Benzocyclobutene.
PB95-151049 *00,928*

DEFECT FORMATION
Mechanism of Defect Formation in Low-Dose Oxygen Implanted Silicon-on-Insulator Material.
PB97-111462 *02,453*

DEFECTS
Fabrication of Flaw-Tolerant Aluminum-Titanate-Reinforced Alumina.
PB95-162533 *03,161*

Defect Formation Mechanism Causing Increasing Defect Density during Decreasing Implant Dose in Low-Dose Simox.
PB96-119524 *02,402*

Nano-Defects in Commercial Bonded SOI and SIMOX.
PB96-123674 *02,407*

Classified Bibliography: Insulation Condition Monitoring Methods, 1989-1995.
PB96-131586 *02,232*

Ultrasonic Sensing of GMAW: Laser/EMAT Defect Detection System.
PB96-186028 *02,878*

DEFENSE INDUSTRY
Transfer of Technology from Defense to Civilian Sectors.
PB94-185360 *00,011*

DEFINITIVE METHOD
Development of the Ion Exchange-Gravimetric Method for Sodium in Serum as a Definitive Method.
PB96-179148 *01,867*

DEFLOCCULATING
Surface Chemical Interactions of Si3N4 with Polyelectrolyte Deflocculants.
PB95-175576 *03,056*

DEFORMATION
Volume Recovery in Epoxy Glasses Subjected to Torsional Deformations: The Question of Rejuvenation.
PB95-140018 *03,382*

Torsional Relaxation and Volume Response during Physical Aging in Epoxy Glasses Subjected to Large Torsional Deformations.
PB95-140026 *03,383*

Using Torsional Dilatometry to Measure the Effects of Deformations on Physical Aging.
PB95-140901 *03,384*

DEGENERATE STATES
Accuracy-Weighted Variational Principle for Degenerate Continuum States.
PB94-200615 *03,831*

DEGRADATION
Relation between AC Impedance Data and Degradation of Coated Steel. 1. Effects of Surface Roughness and Contamination on the Corrosion Behavior of Epoxy Coated Steel.
PB94-213345 *03,189*

DEGREES OF FREEDOM
Confidence on the Modified Allan Variance and the Time Variance.
PB96-190376 *01,557*

DEHYDROASCORBIC ACID
Ascorbic and Dehydroascorbic Acids Measured in Plasma Preserved with Dithiothreitol or Metaphorphoric Acid.
PB94-216330 *03,495*

DELAUNAY TRIANGULATION
Submissions to a Planned Encyclopedia of Operations Research on Computational Geometry and the Voronoi/Delaunay Construct.
PB94-152709 *03,425*

DELAY LINES
Low-Coherence Interferometric Measurement of Group Transit Times in Precision Optical Fibre Delay Lines.
PB95-168480 *02,158*

DELAY TIME
Use of Ionospheric Data in GPS Time Transfer.
PB95-163853 *01,540*

DEMONSTRATION PROJECTS
Submarine Automation: Demonstration No. 5.
PB95-251633 *03,748*

DENDRITIC CRYSTALS
Computation of Dendrites Using a Phase Field Model.
PB94-160744 *04,436*

Stagnant Film Model of the Effect of Natural Convection on the Dendrite Operating State.
PB96-146832 *04,765*

DENSIFICATION
Micromechanics of Densification and Distortion.
PB94-200326 *03,327*

Rapid Hot Pressing of Ultra-Fine PSZ Powders.
PB94-216587 *03,045*

DENSIMETERS
Development of a Dual-Sinker Densimeter for High-Accuracy Fluid P-V-T Measurements. Appendix A.
DE93019682 *02,620*

DENSITOMETERS
High-Temperature High-Pressure Oscillating Tube Densimeter.
PB96-146618 *01,123*

DENSITY
Density of Solids and Liquids.
AD-A278 517/8 *00,711*

DENSITY CORRECTION
Quantum Collisional Transfer Contributions to the Density Dependence of Gaseous Viscosity.
PB96-161914 *01,142*

DENSITY (MASS/VOLUME)
Neutron Reflectivity of End-Grafted Polymers: Concentration and Solvent Quality Dependence in Equilibrium Conditions.
PB94-185758 *01,206*

Apparent Molar Heat Capacities and Apparent Molar Volumes of Aqueous Glucose at Temperatures from 298.15 K to 327.01 K.
PB94-212800 *03,459*

Effects of Humidity and Elevated Temperature on the Density and Thermal Conductivity of a Rigid Polyisocyanurate Foam Co-Blown with CCl3F and CO2.
PB95-150462 *00,371*

Experimental Method for Obtaining Critical Densities of Binary Mixtures: Application to Ethane + n-Butane.
PB95-151148 *00,930*

Effects of Humidity and Elevated Temperature on the Density and Thermal Conductivity of a Rigid Polyisocyanurate Foam.
PB95-152021 *00,373*

Global Density Effects on the Self-Preservation Behavior of Turbulent Free Jets.
PB95-162301 *04,207*

Neutron Reflectivity Study of the Density Profile of a Model End-Grafted Polymer Brush: Influence of Solvent Quality.
PB95-202735 *01,274*

DENSITY MEASUREMENT
Electronic Balance and Some Gravimetric Applications. (The Density of Solids and Liquids, Pycnometry and Mass).
PB94-163052 *03,785*

Determination of Density of Mass Standards: Requirement and Method.
PB94-163078 *03,787*

Report of Density Intercomparisons Undertaken by the Working Group on Density of the CCM.
PB94-200664 *00,503*

Mass and Density Determinations.
PB94-200672 *00,504*

Lattice Dynamics of Ba1-xKxBiO3.
PB96-102421 *04,706*

DENSITY PROFILES
Internal Waves in Xenon Near the Critical Point.
PB97-111504 *04,221*

DENTAL
Fluoride Analytical Methods.
PB96-180237 *03,578*

DENTAL CEMENTS
Adsorption of Low-Molecular-Weight Sodium Polyacrylate on Hydroxyapatite.
PB94-172608 *00,139*

Behavior of a Calcium Phosphate Cement in Simulated Blood Plasma In vitro.
PB95-168712 *00,165*

Formation of Hydroxyapatite in Cement Systems.
PB95-175261 *00,170*

Physical and Chemical Properties of Resin-Reinforced Calcium Phosphate Cements.
PB95-180212 *00,171*

Formation of Hydroxyapatite in a Polymeric Calcium Phosphate Cement.
PB95-180642 *00,173*

Properties and Mechanisms of Fast-Setting Calcium Phosphate Cements.
PB96-123229 *00,178*

Bioactive Polymeric Dental Materials Based on Amorphous Calcium Phosphate.
PB96-147012 *03,572*

Remineralizing Dental Composites Based on Amorphous Calcium Phosphate.
PB96-147020 *03,573*

Dynamics of Calcium Phosphate Precipitation.
PB96-147095 *03,574*

DENTAL CERAMICS
In vitro Fracture Behavior of Ceramic and Metal-Ceramic Restorations.
PB96-119722 *03,569*

DENTAL ENAMEL
Deposition of Loosely Bound and Firmly Bound Fluorides on Tooth Enamel by an Acidic Gel Containing Fluorosilicate and Monocalcium Phosphate Monohydrate.
PB95-150710 *03,559*

Wear of Human Enamel against a Commercial Castable Ceramic Restorative Material.
PB95-161972 *00,161*

Procedure for the Study of Acidic Calcium Phosphate Precursor Phases in Enamel Mineral Formation.
PB95-164448 *03,564*

DENTAL MATERIALS
Properties and Interactions of Oral Structures and Restorative Materials. Annual Report for Period October 1, 1990 to September 30, 1991.
PB94-160843 *03,558*

Influence of Tempering Method on Residual Stress in Dental Porcelain.
PB94-172012 *00,138*

Interaction of Some Coupling Agents and Organic Compounds with Hydroxyapatite: Hydrogen Bonding, Adsorption and Adhesion.
PB94-172616 *00,140*

Effect of Two Initiator/Stabilizer Concentrations in a Metal Primer on Bond Strengths of a Composite to a Base Metal Alloy.
PB94-172723 *00,141*

Dental Materials.
PB94-172871 *00,142*

Effect of Transformation of Alloy on Transient and Residual Stresses in a Porcelain-Metal Strip.

PB96-200621 *00,110*

Deuterium and the Local Interstellar Medium: Properties for the Procyon and Capella Lines of Sight.
PB96-200639 *00,111*

DEUTERIUM CHLORIDE COMPLEXES
Vibrational Dependence of the Anisotropic Intermolecular Potential of Ar-HCl.
PB95-202685 *01,029*

High Resolution Near Infrared Spectroscopy of HCl-DCl and DCl-HCl: Relative Binding Energies, Isomer Interconversion Rates, and Mode Specific Vibrational Predissociation.
PB95-203212 *01,048*

DEUTERIUM CHLORIDE DIMERS
Slit-Jet Near-Infrared Diode Laser Spectroscopy of (DCl)2: nu1, nu2 DCl Stretching Fundamentals, Tunneling Dynamics, and the Influence of Large Amplitude 'Geared' Intermolecular Rotation.
PB95-203204 *01,047*

DEUTERIUM FLUORIDE COMPLEXES
Slit Jet Infrared Spectroscopy of Hydrogen Bonded N2HF Isotopomers: Rotational Rydberg-Klein-Rees Analysis and H/D Dependent Vibrational Predissociation Rates.
PB95-161873 *00,956*

Vibrational Dependence of the Anisotropic Intermolecular Potential of Ar-HF.
PB95-202693 *01,030*

DEUTERIUM FLUORIDES
High-Resolution Infrared Spectroscopy of DF Trimer: A Cyclic Ground State Structure and DF Stretch Induced Intramolecular Vibrational Coupling.
PB95-150678 *00,920*

DEUTERIUM ISOTOPE EFFECTS
Protonation Dynamics of the alpha-Toxin Ion Channel from Spectral Analysis of pH-Dependent Current Fluctuations.
PB96-161740 *03,652*

DEUTERIUM PLASMA
Excitation of Balmer Lines in Low-Current Discharges of Hydrogen and Deuterium.
PB95-150546 *03,893*

DEVELOPMENTAL ASSURANCE
Proceedings Report of the International Invitation Workshop on Development Assurance. Held in Ellicott City, Maryland on June 16-17, 1994.
PB95-189494 *02,912*

DEVICE CHARACTERIZATION
Progress on the Quantized Hall Resistance Recommended Intrinsic/Derived Standards Practice.
PB96-122460 *02,403*

DEW BUBBLE CURVES
Vapor-Liquid Equilibria of Mixtures of Propane and Isomeric Hexanes.
PB95-175287 *00,995*

DEXTRAN
Two Phase Aqueous Extraction: Rheological Properties of Dextran, Polyethylene Glycol, Bovine Serum Albumin and Their Mixtures.
PB95-161998 *00,676*

DGSA (DOD GOAL SECURITY ARCHITECTURE)
Assessment of the DOD Goal Security Architecture (DGSA) for Non-Military Use.
PB95-189510 *03,653*

DIACETYLENES
Radiochromic Solid-State Polymerization Reaction.
PB96-180146 *01,290*

DIAGRAMS
Shape of the Temperature-Entropy Saturation Boundary.
PB96-135066 *02,506*

DIAMOND
Tribological Behavior of 440/Diamond-Like-Carbon Film Couples.
PB96-119714 *03,019*

DIAMOND ANVIL CELLS
Alvin Van Valkenburg and the Diamond Anvil Cell.
PB96-204474 *04,797*

DIAMOND FILMS
Workshop on Characterizing Diamond Films (3rd). Held in Gaithersburg, Maryland on February 23-24, 1994.
PB94-187663 *04,456*

Analysis of Thermal Wave Propagation in Diamond Films.
PB94-211471 *03,014*

Thermal Wave Propagation in Diamond Films.
PB94-211489 *03,015*

Analysis of Boron in CVD Diamond Surfaces Using Neutron Depth Profiling.
PB94-213089 *04,511*

Lineshape Analysis of the Raman Spectrum of Diamond Films Grown by Hot-Filament and Microwave-Plasma Chemical-Vapor Deposition.
PB95-162392 *03,016*

Studies of Defects in Diamond Films and Particles by Raman and Luminescence Spectroscopies.
PB95-162400 *03,017*

Surface Roughness Evaluation of Diamond Films Grown on Substrates with a High Density of Nucleation Sites.
PB95-162418 *03,018*

DIAMOND INDENTERS
Geometric Characterization of Rockwell Diamond Indenters.
PB95-203287 *02,950*

Metrology Approach to Unifying Rockwell C Hardness Scales.
PB96-155551 *02,957*

Stylus Technique for the Direct Verification of Rockwell Diamond Intenders.

DIAMOND TURNING
Fabrication of Optics by Diamond Turning.
PB96-111695 *02,954*

DIAMONDS
Diamond and Graphite Precursors: Comments.
PB95-163051 *00,967*

Proceedings of the Applied Diamond Conference 1995: Applications of Diamond Films and Related Materials International Conference (3rd). Held in Gaithersburg, Maryland, on August 21-24, 1995.
PB95-255204 *04,701*

Applications of Diamond Films and Related Materials: International Conference (3rd). Held in Gaithersburg, Maryland on August 21-24, 1995. Supplement to NIST Special Publication 885.
PB95-256053 *03,063*

Damage Processes in Ceramics Resulting from Diamond Tool Indentation and Scratching in Various Environments.
PB96-102983 *03,065*

Fabrication of Optics by Diamond Turning.
PB96-111695 *02,954*

Workshop on Characterizing Diamond Films (4th). Held in Gaithersburg, Maryland on March 4-5, 1996.
PB96-183090 *04,786*

Chemical Aspects of Tool Wear in Single Point Diamond Turning.
PB97-112601 *03,021*

DIAPHRAGMS (MECHANICS)
Flexible-Diaphragm Force Microscope.
PB95-180915 *03,966*

DIAZINES
Carbon Acidities of Aromatic Compounds. 1. Effects of In-Ring Aza and External Electron-Withdrawing Groups.
PB94-216595 *00,860*

DIBLOCK COPOLYMER ADDITIVES
Modification of the Phase Stability of Polymer Blends by Diblock Copolymer Additivies.
PB96-123542 *03,172*

DICALCIUM PHOSPHATE DIHYDRATE
Effect of Ethanol on the Solubility of Dicalcium Phosphate Dihydrate in the System Ca(OH)2-H3PO4-H2O at 37C.
PB95-163507 *00,163*

DICTIONARIES
Compatibility Analysis of the ANSI and ISO IRDS Services Interfaces.
PB94-163474 *01,805*

Bibliography of Computer Security Glossaries.
PB94-216710 *01,587*

Glossary of Software Reuse Terms.
PB95-178992 *01,720*

Apparel Manufacturing Glossary for Application Protocol Development.
PB95-198750 *02,755*

DIELECTRIC BREAKDOWN
Reproducibility of JEDEC Standard Current and Voltage Ramp Test Procedures for Thin-Dielectric Breakdown Characterization.
PB94-185931 *01,879*

Experimental Investigation of the Validity of TDDB Voltage Acceleration Models.
PB94-185949 *02,304*

Field and Temperature Acceleration of Time-Dependent Dielectric Breakdown in Intrinsic Thin SiO2.
PB94-185956 *02,305*

Charge Trapping and Breakdown Mechanism in SIMOX.
PB94-216637 *02,323*

High Temperature Reliability of Thin Film SiO2.
PB95-150348 *02,333*

Electrical Breakdown in Transformer Oil in Large Gaps.
PB95-150579 *01,889*

Observations of Partial Discharges in Hexane Under High Magnification.
PB95-163127 *01,900*

TDDB Characterization of Thin SiO2 Films with Bimodal Failure Populations.
PB96-102926 *02,381*

Time-Dependent Dielectric Breakdown of Intrinsic SiO2 Films under Dynamic Stress.
PB96-179478 *02,438*

New Physics-Based Model for Time-Dependent- Dielectric-Breakdown.
PB96-201132 *02,448*

Electric Field Dependent Dielectric Breakdown of Intrinsic SiO2 Films Under Dynamic Stress.
PB96-204102 *02,449*

Characterization of Time-Dependent Dielectric Breakdown in Intrinsic Thin SiO2.
PB97-122527 *02,458*

DIELECTRIC CONSTANT
Preparation, Crystal Structure, Dielectric Properties, and Magnetic Behavior of Ba2Fe2Ti4O13.
PB96-186176 *01,162*

DIELECTRIC CONSTANTS
Analysis of an Open-Ended Coaxial Probe with Lift-Off for Nondestructive Testing.
PB96-135116 *01,940*

DIELECTRIC FILMS
Novel YBa2Cu3O7-x and YBa2Cu3O7-x/Y4Ba3O9 Multilayer Films by Bias-Masked 'On-Axis' Magnetron Sputtering.
PB95-181186 *04,690*

DIELECTRIC FUNCTIONS
Nonequilibrium Total-Dielectric-Function Approach to the Electron Boltzmann Equation for Inelastic Scattering in Doped Polar Semiconductors.
PB96-138532 *04,416*

DIELECTRIC MATERIALS
Nonstationary Behaviour of Partial Discharge during Discharge Induced Ageing of Dielectrics.
PB96-103114 *01,922*

DIELECTRIC MEASUREMENTS
Dielectric Properties Measurements and Data.
PB94-172186 *01,876*

DIELECTRIC PROPERTIES
Table of Dielectric Constants of Pure Liquids.
AD-A278 956/8 *00,712*

Dielectric Studies of Fluids with Reentrant Resonators. Appendix B.
DE93019683 *03,244*

Dielectric Studies of Fluids with Reentrant Resonators.
PB95-153730 *00,952*

Dielectric Properties of Single Crystals of Al2O3, LaAlO3, SrTiO3, and MgO at Cryogenic Temperatures.
PB95-180477 *02,266*

Dielectric Properties of Thin Film SrTiO3 Grown on LaAlO3 with YBa2Cu3O7-x Electodes.
PB95-181160 *02,267*

Measurements of the Relative Permittivity of Liquid Water at Frequencies in the Range of 0.1 to 10 kHz and at Temperatures between 273.1 and 373.2 K at Ambient Pressure.
PB96-119375 *01,078*

Static Dielectric Constant of Water and Steam.
PB96-123559 *01,090*

Dielectric and Magnetic Measurements from -50C to 200C and in the Frequency Band 50 MHz to 2 GHz.
PB96-191382 *02,245*

DIELECTRIC RELAXATION
Distribution of Dielectric Relaxation Times and the Moment Problem.
PB96-112032 *04,727*

DIELECTRIC RESONATORS
Measurements of Permittivity and the Dielectric Loss Tangent of Low Loss Dielectric Materials with a Dielectric Resonator Operating on the Higher Order Te(sub 0 gamma delta) Modes.
PB96-111869 *02,273*

Influence of Films' Thickness and Air Gaps in Surface Impedance Measurements of High Temperature Superconductors Using the Dielectric Resonator Technique.
PB96-157862 *01,946*

DIELECTRIC SPECTROSCOPY
Dielectric Behavior of a Polycarbonate/Polyester Mixture Upon Transesterification.
PB96-179551 *04,785*

DIELECTRIC WAVEGUIDES
Mode Coupling and Loss on Tapered Optical Waveguides.
PB95-168571 *04,282*

Bent Rectangular Core Waveguides: An Accurate Perturbation Approach.
PB95-168803 *04,289*

DIELECTRIC WEDGE
Hypersingular Single Integral Equation and the Dielectric Wedge.
PB97-110274 *04,428*

DIELECTRIC WEDGES
Numerical Evaluation of Hypersingular Integrals for Scattering by a Dielectric Wedge.
PB97-110555 *02,017*

DIELECTRICS
Spatial Dependence of Electrical Fields Due to Space Charges in Films of Organic Dielectrics Used for Insulation of Power Cables.
PB94-199130 *02,214*

Modification of Cast Epoxy Resin Surfaces during Exposure to Partial Discharges.
PB96-122734 *01,086*

Influence of Surface Charge on the Stochastic Behavior of Partial Discharge in Dielectrics.
PB96-122767 *01,931*

SF6/N2 Mixtures: Basic and High-Voltage-Insulation Properties.
PB96-123468 *02,230*

Behavior of Surface Partial Discharge on Aluminum Oxide Dielectrics.
PB96-123781 *01,937*

Partially Coherent Transmittance of Dielectric Lamellae.
PB96-148028 *04,359*

President's Column 'Editorial'.
PB96-164090 *02,239*

Electromagnetic Scattering from a Dielectric Wedge and the Single Hypersingular Integral Equation.
PB97-110530 *04,430*

DIELECTRICS AND ELECTRICAL INSULATION SOCIETY
President's Column for Dielectrics and Electrical Insulation Society Newsletter.
PB94-200409 *01,882*

DIELECTRONIC RECOMBINATION
Early Dielectronic Recombination Measurements: Singly Charged Ions.
PB94-211158 *03,836*

DIESEL ENGINES
Abrasive Wear by Diesel Engine Coal-Fuel and Related Particles.
PB95-104915 *01,450*

Deposit Forming Tendencies of Diesel Engine Oils-Correlation between the Two-Peak Method and Engine Tests.
PB95-152138 *01,452*

Evaluation of Wear Resistant Ceramic Valve Seats in Gas-Fueled Power Generation Engines. Topical Report, December 1991-April 1994.
PB95-200218 *02,466*

DIETS
Mixed Diet Reference Materials for Nutrient Analysis of Foods: Preparation of SRM-1548 Total Diet.
PB95-151692 *03,593*

DIFFERENCE FREQUENCY
Precise Optical Frequency References and Difference Frequency Measurements with Diode Lasers.
PB95-176228 *04,305*

DIFFERENTIAL EQUATIONS
Accuracy of Eigenvalues: A Comparison of Two Methods.
PB95-126249 *03,413*

DIFFERENTIAL RANGE
Real-Time Implementation of a Differential Range Finder.
PB95-108650 *01,839*

DIFFRACTION
Vector Theory of Diffraction by a Single-Mode Fiber: Application to Mode-Field Diameter Measurements.
PB95-164182 *04,279*

X-ray Powder Diffraction from Carbon Nanotubes and Nanoparticles.
PB96-102975 *03,064*

Antiferromagnetic Interlayer Correlations in Annealed Ni80Fe20/Ag Multilayers.
PB97-122220 *03,109*

DIFFRACTION ANALYSIS
Parametric Investigation of Metal Powder Atomization Using Laser Diffraction.
PB95-108577 *03,342*

DIFFRACTION IMAGING
Diffraction Imaging of Polycrystalline Materials.
PB94-198884 *02,971*

DIFFRACTOMETERS
Introduction of a NIST Instrument Sensitivity Standard Reference Material for X-Ray Powder Diffraction.
PB94-200318 *00,807*

DIFFUSE INTERFACE
Diffuse-Interface Description of Fluid Systems.
PB96-210711 *01,170*

DIFFUSE REFLECTION
Specular and Diffuse Reflection Measurements of Electronic Displays.
PB97-119200 *02,208*

DIFFUSE SCATTERING
Orientational Fluctuations, Diffuse Scattering, and Orientational Order in Solid C60.
PB97-119275 *04,176*

DIFFUSION
Further Calculations of X-ray Diffusion in an Infinite Medium.
AD-A295 314/9 *03,772*

Energy and Migration of Grain Boundaries in Polycrystals.
PB94-211638 *03,332*

Transport and Diffusion in Three-Dimensional Composite Media.
PB95-176129 *04,668*

Chaotic Motions of Coupled Galloping Oscillators and Their Modeling as Diffusion Progresses.
PB96-122718 *04,823*

Electrodeposited Cobalt-Tungsten as a Diffusion Barrier between Graphite Fibers and Nickel.
PB96-146881 *03,176*

DIFFUSION COEFFICIENT
Measurement of Diffusion in Supercritical Fluid Systems: A Review.
PB94-199189 *00,795*

Diffusion of Copper into Gold Plating.
PB95-162152 *00,957*

Brownian Diffusion of Hard Spheres at Finite Concentrations.
PB95-164307 *00,975*

Measurement of Diffusion in Fluid Systems: Applications to the Supercritical Fluid Region.
PB95-175188 *02,490*

Non-Perturbative Relation between the Mutual Diffusion Coefficient, Suspension Viscosity, and Osmotic Compressibility: Application to Concentrated Protein Solutions.
PB96-102355 *01,062*

DIFFUSION FLAMES
Greatly Enhanced Soot Scattering in Flickering Ch4/Air Diffusion Flames.
PB94-172988 *01,361*

Laser Imaging of Chemistry-Flowfield Interactions: Enhanced Soot Formation in Time-Varying Diffusion Flames.
PB94-185352 *01,364*

Investigation of Oil and Gas Well Fires and Flares.
PB94-193976 *03,695*

Generation and Characterization of Acetylene Smokes.
PB94-200292 *01,372*

Ultrafine Combustion Aerosol Generator.
PB94-200300 *01,373*

Laser-Induced Fluorescence Measurements of Formaldehyde in a Methane/Air Diffusion Flame.
PB94-211679 *01,374*

Comparison of Experimental and Computed Species Concentration and Temperature Profiles in Laminar, Two-Dimensional Methane/Air Diffusion Flames.
PB95-140919 *01,379*

Fundamental Mechanisms for CO and Soot Formation.
PB95-143160 *01,380*

Oxidation of Soot and Carbon Monoxide in Hydrocarbon Diffusion Flames.
PB95-150215 *01,382*

Optical Measurements of Atomic Hydrogen, Hydroxyl, and Carbon Monoxide in Hydrocarbon Diffusion Flames.
PB95-150900 *02,487*

Experimental and Numerical Studies of Refractory Particle Formation in Flames: Application to Silica Growth.
PB95-152005 *00,673*

Laser-Induced Fluorescence Measurements of OH. Concentrations in the Oxidation Region of Laminar, Hydrocarbon Diffusion Flames.
PB95-162160 *01,387*

Acid Gas Production in Inhibited Diffusion Flames.
PB95-180576 *01,390*

Burning Rate of Premixed Methane-Air Flames Inhibited by Fluorinated Hydrocarbons.
PB95-180584 *01,391*

Experimental and Numerical Burning Rates of Premixed Methane-Air Inhibited by Fluoromethanes.
PB95-180592 *01,392*

Quantitative Measurements of Enhanced Soot Production in a Flickering Methane/Air Diffusion Flame.
PB95-203246 *01,393*

Mixing and Radiation Properties of Buoyant Turbulent Diffusion Flames.
PB95-242327 *01,396*

Experimental Study of the Stabilization Region of Lifted Turbulent-Jet Diffusion Flames.
PB96-122676 *01,405*

Laser-Induced Fluorescence Measurements of OH in Laminar Diffusion Flames in the Presence of Soot Particles.
PB96-123120 *01,409*

Chemical Inhibition of Methane-Air Diffusion Flame.
PB96-195532 *01,431*

Mixing and Radiation Properties of Buoyant Luminous Flame Environments.
PB96-202254 *01,432*

Computations of Enhanced Soot Production in Time-Varying CH4/Air Diffusion Flames.
PB97-119218 *01,440*

NO Production and Destruction in a Methane/Air Diffusion Flame.
PB97-122519 *01,443*

DIFFUSION THEORY
Modeling the Evolution of Structure in Unstable Solid Solution Phases by Diffusional Mechanisms.
PB94-199403 *03,324*

DIFFUSION ZONES
Study of Diffusion Zones with Electron Microprobe Compositional Mapping.
PB94-216348 *00,559*

DIFFUSIVITY
Measurements of Moisture Diffusivity for Porous Building Materials.
PB95-107397 *00,356*

Computer Simulation of the Diffusivity of Cement-Based Materials.
PB95-125985 *00,362*

DIFLUOROBENZENE
Vibrational Energy Transfer in S1 p-Difluorobenzene. A Comparison of Low and Room Temperature Collisions.
PB95-108619 *00,883*

Vibrations of S1((1)B2u) p-Difluorobenzene - d4. S1-S0 Fluorescence Spectroscopy and ab Initio Calculations.
PB95-202586 *01,028*

DIFLUOROETHANE
Coexisting Densities, Vapor Pressures and Critical Densities of Refrigerants R-32 and R-152a, at 300 - 385 K.
PB95-175691 *03,274*

Compressed Liquid Densities, Saturated Liquid Densities, and Vapor Pressures of 1,1-Difluoroethane.
PB97-110118 *01,173*

DIFLUOROMETHANE
Ebulliometric Measurement of the Vapor Pressure of Difluoromethane.
PB95-151361 *00,931*

Viscosity of the Saturated Liquid Phase of Six Halogenated Compounds and Three Mixtures.
PB95-162368 *00,960*

Measurements of the Vapor Pressures of Difluoromethane, 1-Chloro-1,2,2,2-Tetrafluoroethane, and Pentafluoroethane.
PB95-169272 *03,270*

Coexisting Densities, Vapor Pressures and Critical Densities of Refrigerants R-32 and R-152a, at 300 - 385 K.
PB95-175691 *03,274*

DIGITAL COMMUNICATIONS
Integrated Services Digital Network (ISDN); Category: Telecommunications Standard; Subcategory: Integrated Services Digital Network.
FIPS PUB 182 *01,460*

DIGITAL DATA
Report on the Workshop on Advanced Digital Video in the National Information Infrastructure. Held in Washington, D.C. on May 10-11, 1994.
PB95-103677 *01,472*

National Information Infrastructure and Advanced Digital Video.
PB96-119367 *01,488*

Spatial Information and Technology Standards Evolving.
PB96-135108 *03,679*

Summary Report on the Workshop on Advanced Digital Video in the National Information Infrastructure.
PB96-141320 *01,497*

Status of Emerging Standards for Removable Computer Storage Media and Related Contributions of NIST.
PB96-160619 *01,634*

DIGITAL MULTIMETER
Quantum Hall Effect-Based Resistance Standard: Capabilities and Implementation.
PB96-180096 *04,114*

Quantum Hall Effect-Based Resistance Standard (Quantum Hall Res).
PB96-200944 *04,127*

DIGITAL RECORDING SYSTEMS
Performance Evaluation of a New Digital Partial Discharge Recording and Analysis System.
PB95-150389 *01,888*

Continuous Recording and Stochastic Analysis of PD.
PB96-112156 *01,925*

DIGITAL SIGNATURES
Digital Signature Standard (DSS). Category: Computer Security; Subcategory: Cryptography.
FIPS PUB 186 *01,570*

Report of the NIST Workshop on Digital Signature Certificate Management. Held on December 10-11, 1992.
PB94-135001 *01,574*

Response to Comments on the NIST Proposed Digital Signature Standard.
PB96-161815 *01,615*

Public Key Infrastructure Invitational Workshop. Held in McLean, Virginia on September 28, 1995.
PB96-166004 *01,616*

DIGITAL SYSTEMS
Proceedings of the Digital Systems Reliability and Nuclear Safety Workshop. Held in Rockville, Maryland on September 13-14, 1993.
NUREG/CP-0136 *03,728*

Digital Impedance Bridge.
PB96-103155 *02,272*

Comment and Discussion on Digital Processing of PD Pulses.
PB96-122775 *01,932*

DIGITAL TECHNIQUES
Digital Techniques in HV Tests - Summary of 1989 Panel Session.
PB94-216702 *02,035*

DILATOMETRY
Aging in Glasses Subjected to Large Stresses and Deformations.
PB95-107041 *03,235*

DILUTED BLENDS
Shear Suppression of Critical Fluctuations in a Diluted Polymer Blend.
PB96-204458 *04,418*

DIMENSIONAL MEASUREMENT
Numeric Data Distribution: The Vital Role of Data Exchange in Today's World.
N95-15937/2 *02,622*

U.S. Navy Coordinate Measuring Machines: A Study of Needs.
PB94-162831 *02,807*

Concept for an Algorithm Testing and Evaluation Program at NIST.

DISCHARGE

Ion Kinetics and Symmetric Charge-Transfer Collisions in Low-Current, Diffuse (Townsend) Discharges in Argon and Nitrogen.
PB96-123658 *04,051*

DISCHARGES

Fundamental Processes in Gas Discharges.
PB96-123450 *01,089*

Electrical Characteristics of Argon Radio Frequency Glow Discharges in an Asymmetric Cell.
PB96-176490 *04,109*

DISCOLORATION

Intensive Swimming: Can It Affect Your Patients' Smiles.
PB96-123666 *03,570*

DISK SOURCE

Exact Series Solution to the Epstein-Hubbell Generalized Elliptic Type Integral Using Complex Variable Residue Theory.
PB97-110167 *03,423*

DISLOCATION CORE

Dislocation Core-Core Interaction and Peierls Stress in a Model Hexagonal Lattice.
PB96-162003 *04,101*

DISLOCATION EMISSION

Cracks and Dislocations in Face-Centered Cubic Metallic Multilayers.
PB96-163696 *02,989*

Experimental Assessment of Crack-Tip Dislocation Emission Models for an Al67Cr8Ti25 Intermetallic Alloy.
PB96-204466 *03,377*

DISLOCATIONS

Dislocation Emission at Ledges on Cracks.
PB95-164240 *04,630*

Shielding of Cracks in a Plastically Polarizable Material.
PB95-164257 *04,631*

Scanning Electron Microscopy Observations of Misfit Dislocations in Epitaxial In0.25Ga0.75As on GaAs(001).
PB96-200159 *03,004*

DISLOCATIONS (MATERIALS)

Interaction between Dislocations and Intergranular Cracks.
PB95-152096 *03,190*

Nonlocal Effects of Existing Dislocations on Crack-Tip Emission and Cleavage.
PB96-161807 *03,367*

DISPERSANTS

Polyelectrolytes as Dispersants in Colloidal Processing of Silicon Nitride Ceramics.
PB95-175568 *03,055*

DISPERSIONS

Computational Model for the Rise and Dispersion of Wind-Blown, Buoyancy-Driven Plumes. Part 2. Linearly Stratified Atmosphere.
PB94-143427 *00,119*

Contrast Matched Studies of a Sheared Binary Colloidal Suspension.
PB95-150561 *00,918*

DISPLACEMENT

Generating and Measuring Displacements Up to 0.1 m to an Accuracy of 0.1 nm: Is It Possible.
PB96-160700 *04,090*

DISPLACEMENT MEASUREMENT

Electro-Optical Sensor for Surface Displacement Measurements of Compliant Coatings.
PB94-198223 *02,123*

Displacement Method for Machine Geometry Calibration.
PB95-152088 *02,946*

Integrated Inspection System for Improved Machine Performance.
PB96-160569 *02,959*

DISPLACEMENT REACTIONS

Rate Constants for Hydrogem Atom Attack on Some Chlorinated Benzenes at High Temperature.
PB94-200581 *00,810*

DISPLAY DEVICES

NIST Workshop on the Computer Interface to Flat Panel Displays. Held in San Jose, California on January 13-14, 1994.
PB95-136388 *01,625*

Can Displays Deliver a Full Measure: Manufacturing.
PB96-111935 *02,185*

Display-Measurement Round-Robin.
PB96-119227 *02,186*

Making Displays Deliver a Full Measure.
PB96-122411 *01,490*

Survey of the Components of Display-Measurement Standards.
PB96-122528 *02,188*

Micromachined Display Output for a Cellular Neural Network.
PB96-156070 *02,422*

Specular and Diffuse Reflection Measurements of Electronic Displays.
PB97-119200 *02,208*

Survey of the Components of Display-Measurement Standards.
PB97-122394 *02,209*

DISSIMILAR MATERIALS BONDING

Surface Forces and Adhesion between Dissimilar Materials Measured in Various Environments.
PB94-172970 *03,033*

DISSOCIATION

Fragment Energy and Vector Correlations in the Overtone-Pumped Dissociation of HN3X(1)A'.
PB94-199908 *00,802*

DISSOCIATIVE IONIZATION

Appearance Potentials of Ions Produced by Electron-Impact Induced Dissociative Ionization of SF6, SF4, SF5Cl, S2F10, SO2, SO2F2, SOF2, and SOF4.
PB96-119730 *01,080*

DISSOLVING

Dissolution Problems with Botanical Reference Materials.
PB95-126280 *03,487*

DISTILLATION EQUIPMENT

Development of Engineered Stationary Phases for the Separation of Carotenoid Isomers.
PB95-150249 *00,578*

Shape Selectivity Assessment of Stationary Phases in Gas Chromatography.
PB95-150256 *00,579*

DISTORTION

Micromechanics of Densification and Distortion.
PB94-200326 *03,327*

DISTRIBUTED AMPLIFIERS

New 5 and 10 MHz High Isolation Distribution Amplifier.
PB96-190202 *01,510*

DISTRIBUTED COMPUTER SYSTEMS

Distributed Supercomputing Software: Experiences with the Parallel Virtual Machine - PVM.
PB94-163086 *01,680*

Associated Object Model for Distributed Systems.
PB94-212016 *01,694*

PET and DINGO Tools for Deriving Distributed Implementations from Estelle.
PB95-203253 *01,727*

Distributed Systems: Survey of Open Management Approaches.

DISTRIBUTED DATA BASES

Guidelines for the Evaluation of X.500 Directory Products.
PB95-231908 *02,732*

X.500 Directory Schema Design Handbook.
PB96-183041 *02,739*

DISTRIBUTED FEEDBACK LASERS

Vertical-Cavity Semiconductor Lasers: Structural Characterization, CAD, and DFB Structures.
PB95-153193 *02,150*

DISTRIBUTED PROCESSING

Open System Environments.
N94-36857/8 *01,674*

Introduction to the P1003.1g and CPI-C Network Application Programming Interfaces.
PB95-231726 *01,731*

Application Portability Profile (APP): The U.S. Government's Open System Environment Profile Version 3.0.
PB96-158712 *01,753*

DISTRIBUTION FUNCTIONS
Equilibrium Pair Distribution Function of a Gas: Aspects Associated with the Presence of Bound States.
PB95-176046 *01,004*

DISTRIBUTION MOMENTS
Moments of the Quartic Assignment Statistic with an Application to Multiple Regression.
PB95-181103 *03,442*

DITHIOTHREITOL
Ascorbic and Dehydroascorbic Acids Measured in Plasma Preserved with Dithiothreitol or Metaphorphoric Acid.
PB94-216330 *03,495*

DIVALENT CATIONS
Genetically Engineered Pore as a Metal Ion Biosensor
PB96-161658 *03,551*

DIVERSIFICATION
Technology Trends in Telecommunications: An Overview.
PB94-123080 *01,462*

DIVINYL ETHER
2-Tunneling Path Internal-Axis-Method-Like Treatment of the Microwave Spectrum of Divinyl Ether.
PB94-200466 *00,808*

DMIS (DIMENSIONAL MEASURING INTERFACE STANDARD)
Dimensional Inspection Planning Based on Product Data Standards.
PB95-175451 *02,910*

DNA
Novel Activity of E. coli uracil DNA N-glycosylase Excision of Isodialuric Acid (5,6-dihydroxyuracil), a Major Product of Oxidative DNA Damage, from DNA.
PB96-110747 *03,543*

Overview of Reference Materials Prepared for Standardization of DNA Typing Procedures.
PB96-111653 *00,611*

Low-Frequency Excitations of Oriented DNA.
PB96-137799 *03,548*

Quantitative Determination of Oxidative Base Damage in DNA by Stable Isotope-Dilution Mass Spectrometry.
PB96-200886 *03,483*

Commentary: The Measurement of Oxidative Damage to DNA by HPLC and GC/MS Techniques.
PB96-200894 *03,484*

Intercomparison of DNA Sizing Ladders in Electrophoretic Separation Matrices and Their Potential for Accurate Typing of the D1S80 Locus.
PB96-200928 *03,485*

DNA-BINDING PROTEINS
Function of DnaJ and DnaK as Chaperones in Origin-Specific DNA Binding by RepA.
PB95-151544 *03,533*

Formation of DNA-Protein Cross-Links in Cultured Mammalian Cells Upon Treatment with Iron Ions.
PB96-137724 *03,651*

DNA DAMAGE
Ionizing radiation-induced DNA damage and its repair in human cells. Progress report, (April 1, 1993--February 28, 1994).
DE94014709 *03,612*

Tert-Butyl Hydroperoxide-Mediated DNA Base Damage in Cultured Mammalian Cells.
PB94-182003 *03,644*

Application of Photochemical Reaction in Electrochemical Detection of DNA Intercalation.
PB94-185733 *00,686*

Copper Ion-Mediated Modification of Bases in DNA in Vitro by Benzoyl Peroxide.
PB94-198231 *03,645*

Standard Reference Materials (SRM's) for Measuring Genetic Damage.
PB94-198827 *03,516*

Oxidative Damage to DNA in Mammalian Chromatin.
PB94-199825 *03,525*

Modification of DNA Bases in Chromatin of Intact Target Human Cells by Activated Human Polymorphonuclear Leukocytes.
PB94-199833 *03,526*

Nickel(II)-Mediated Oxidative DNA Base Damage in Renal and Hepatic Chromatin of Pregnant Rats and Their Fetuses. Possible Relevance to Carcinogenesis.
PB94-212628 *03,646*

Oxidative DNA Base Damage in Renal, Hepatic, and Pulmonary Chromatin of Rats After Intraperitoneal Injection of Cobalt (II) Acetate.
PB95-150025 *03,647*

DNA Base Modifications in Renal Chromatin of Wistar Rats Treated with a Renal Carcinogen, Ferric Nitrilotriacetate.
PB95-150363 *03,648*

DNA Base Damage Generated In vivo in Hepatic Chromatin of Mice upon Whole Body y-Irradiation.
PB95-161741 *03,627*

Chemical Determination of Oxidative DNA Damage by Gas Chromatography-Mass Spectrometry.
PB95-175394 *03,540*

Ionizing Radiation Causes Greater DNA Base Damage in Radiation-Sensitive Mutant M10 Cells That in Parent Mouse Lymphoma L5178Y Cells.
PB95-175915 *03,632*

Treatment of Wistar Rats with a Renal Carcinogen, Ferric Nitrilotriacetate, Causes DNA-Protein Cross-Linking between Thymine and Tyrosine in Their Renal Chromatin.
PB96-112115 *03,649*

Novel Activities of Human Uracil DNA N-glycosylase for Cytosine-Derived Products of Oxidative DNA Damage.
PB96-164132 *03,479*

DNA Damage and DNA Sequence Retrieval from Ancient Tissues.
PB97-111983 *03,556*

DNA Base Damage in Lymphocytes of Cancer Patients Undergoing Radiation Therapy.
PB97-122444 *03,643*

DNA REPAIR
Ionizing radiation-induced DNA damage and its repair in human cells. Progress report, (April 1, 1993--February 28, 1994).
DE94014709 *03,612*

DNA SEQUENCING
Small genomes: New initiatives in mapping and sequencing. Workshop summary report.
DE96014476 *03,451*

DNAA PROTEINS
Deletion Analysis of the Mini-P1 Plasmid Origin of Replication and the Role of E.coli DnaA Protein.
PB95-163911 *03,539*

DOCUMENTS
Open Document Architecture (ODA) Raster Document Application Profile (DAP). Category: Software Standard; Subcategory: Graphics.
FIPS PUB 194 *01,669*

Important Papers in the History of Document Preparation Systems: Basic Sources.
PB95-125837 *02,712*

SGML Environment for STEP.
PB95-143103 *02,778*

NIST List of Publications, LP 103, March 1996. National Semiconductor Metrology Program.
PB96-175856 *02,432*

Application Protocol Information Base World Wide Web Gateway.
PB96-202320 *02,791*

Panel: Building and Using Test Collections.
PB97-118673 *02,743*

DOD GOAL SECURITY ARCHITECTURE
Assessment of the DOD Goal Security Architecture (DGSA) for Non-Military Use.
PB95-189510 *03,653*

DODECANOIC ACID
Effect of Dodecanol Content on the Combustion of Methanol Spray Flames.
PB95-176020 *01,389*

DODECANOL
Effect of Dodecanol Content on the Combustion of Methanol Spray Flames.
PB95-176020 *01,389*

DOMAIN ANALYSIS
Context Analysis of the Network Management Domain. Conducted as Part of the Domain Analysis Case Study.
PB94-142528 *01,465*

DOMAIN STRUCTURES
Transformation of BCC and B2 High Temperature Phases to HCP and Orthorhombic Structures in the Ti-Al-Nb System. Part 1. Microstructural Predictions Based on a Subgroup Relation between Phases.
PB96-169065 *03,370*

Transformation of BCC and B2 High Temperature Phases to HCP and Orthorhombic Structures in the Ti-Al-Nb System. Part 2. Experimental TEM Study of Microstructures.
PB96-169073 *03,371*

DOMAIN WALLS
Micromagnetic Structure of Domains in Co/Pt Multilayers. 1. Investigations of Wall Structure.
PB95-162111 *04,610*

DOMAINS
Mapping Domains in Proteins: Dissection and Expression of 'Escherichia coli' Adenylyl Cyclase.
PB96-155460 *03,478*

DOPED MATERIALS
Incorporation of Gold into YBa2Cu3O7: Structure and Tc Enhancement.
PB94-200276 *04,481*

Unexpected Effects of Gold on the Structure, Superconductivity, and Normal State of YBa2Cu3O7.
PB94-200284 *04,482*

DOPED POLAR SEMICONDUCTORS
Nonequilibrium Total-Dielectric-Function Approach to the Electron Boltzmann Equation for Inelastic Scattering in Doped Polar Semiconductors.
PB96-138532 *04,416*

DOPPLER BROADENED EMISSION
Time-Resolved Balmer-Alpha Emission from Fast Hydrogen Atoms in Low Pressure, Radio-Frequency Discharges in Hydrogen.
PB96-102942 *04,028*

DOPPLER-FREE SPECTROSCOPY
Doppler-Free Spectroscopy of Large Polyatomic Molecules and van der Waals Complexes.
PB96-119581 *04,339*

DOPPLER RADAR
Delivering the Same Optical Frequency at Two Places: Accurate Cancellation of Phase Noise Introduced by an Optical Fiber or Other Time-Varying Path.
PB96-102736 *04,332*

DOSE EQUIVALENTS
Interpreting the Readings of Multi-Element Personnel Dosimeters in Terms of the Personal Dose Equivalent.
PB95-175428 *03,631*

DOSE RESPONSE RELATIONSHIPS
Microdosimetry and Cellular Radiation Effects of Radon Progency in Human Bronchial Airways.
PB95-152344 *03,625*

Radon in the Lung.
PB97-110035 *03,638*

DOSEMETERS
Improving measurement quality assurance for photon irradiations at Department of Energy facilities. Final technical report.
DE96010065 *03,711*

Dosimetry Systems for Radiation Processing.
PB96-135280 *03,717*

Calibration and Performance of GafChromic DM-100 Radiochromic Dosemeters.
PB97-119291 *00,703*

DOSIMETERS
Thin Dyed-Plastic Dosimeter for Large Radiation Doses.
PB95-107363 *03,872*

Calibration of Dosimeters for the Cryogenic Irradiation of Composite Materials Using an Electron Beam.
PB95-180964 *03,968*

Real Time Monitoring of Electron Processors.
PB96-135306 *03,719*

Orientation Effects on ESR Analysis of Alanine-Polymer Dosimeters.
PB96-146725 *03,720*

Response Comparison of Electret Ion Chambers, LiF TLD, and HPIC.
PB96-190103 *02,578*

Colour Centres in LiF for Measurement of Absorbed Doses Up to 100 MGy.
PB97-118756 *04,169*

DOSIMETRY
EPR Bone Dosimetry: A New Approach to Spectral Deconvolution Problems.
PB94-199643 *03,616*

Estimation of the Absorbed Dose in Radiation-Processed Food. 2. Test of the EPR Response Function by an Exponential Fitting Analysis.
PB94-199650 *00,036*

Experimental Validation of Radiopharmaceutical Absorbed Dose to Mineralized Bone Tissue.
PB94-199668 *03,617*

Radiation Doses.
PB94-199676 *03,618*

Estimation of the Absorbed Dose in Radiation-Processed Food. 3. The Effect of Time of Evaluation on the Accuracy of the Estimate.
PB94-199684 *00,037*

Estimation of the Absorbed Dose in Radiation-Processed Food. 4. EPR Measurements on Eggshell.
PB94-199692 *00,038*

New EPR Dosimeter Based on Polyvinylalcohol.
PB94-199700 *03,619*

Estimation of the Absorbed Dose in Radiation-Processed Food. 1. Test of the EPR Response Function by a Linear Regression Analysis.
PB94-199718 *00,039*

National Quality Assurance Program for Personnel Radiation Dosimetry: A Case History.
PB94-211273 *03,620*

National Voluntary Laboratory Accreditation Program: Ionizing Radiation Dosimetry.
PB95-128658 *03,623*

ESR-Based Analysis in Radiation Processing.
PB95-161634 *03,931*

Radiation Process Data: Collection, Analysis, and Interpretation.
PB95-162632 *03,628*

Dose Mapping of Radioactive Hot Particles Using Radiochromic Film.
PB95-162954 *03,714*

Food Irradiation Dosimetry.
PB95-180675 *00,041*

Anionic Triphenylmethane Dye Solutions for Low-Dose Food Irradiation Dosimetry.
PB96-135173 *03,715*

Alcohol Solutions of Triphenyl-Tetrazolium Chloride as High-Dose Radiochromic Dosimeters.
PB96-135249 *03,716*

Oscillometric and Conductometric Analysis of Aqueous and Organic Dosimeter Solutions.
PB96-135256 *04,054*

Research and Development Activities in Electron Paramagnetic Resonance Dosimetry.
PB96-141288 *03,635*

Investigation of Applicability of Alanine and Radiochromic Detectors to Dosimetry of Proton Clinical Beams.
PB96-146782 *03,636*

Needs for Brachytherapy Source Calibrations in the United States.
PB97-110092 *03,521*

EPR Dosimetry of Cortical Bone and Tooth Enamel Irradiated with X and Gamma Rays: Study of Energy Dependence.
PB97-110373 *03,639*

Measurements of the (237)Np(n,f) Cross Section.
PB97-119069 *04,173*

Novel Radiochromic Films for Clinical Dosimetry.
PB97-119259 *03,641*

DOUBLE HULLS
Stranding Experiments on Double Hull Tanker Structures.
PB96-123112 *03,749*

DOUBLE-MODULATION
Double Modulation and Selective Excitation Photoreflectance for Characterizing Highly Luminescent Semiconductor Structures and Samples with Poor Surface Morphology.
PB97-111439 *02,452*

DRAINAGE
Polyvinyl Chloride (PVC) Plastic Drain, Waste, and Vent Pipe and Fittings.
AD-A310 426/2 *00,326*

Acrylonitrile-Butadiene-Styrene (ABS) Plastic Drain, Waste, and Vent Pipe and Fittings.
AD-A310 724/0 *00,327*

DRAWING
Hydration in Semicrystalline Polymers: Small-Angle Neutron Scattering Studies of the Effect of Drawing in Nylon-6 Fibers.
PB95-202990 *03,385*

DRILLING
Design and Machining of Copper Specimens with Micro Holes for Accurate Heat Transfer Measurements.
PB95-180428 *02,658*

DRINKING WATER
Preparation and Monitoring of Lead Acetate Containing Drinking Water Solutions for Toxicity Studies.
PB94-193885 *00,538*

DROPLET-SOLID INTERACTIONS
Transient Cooling of a Hot Surface by Droplets Evaporation.
PB94-156957 *03,783*

DROPLETS
Transient Cooling of a Hot Surface by Droplets Evaporation.
PB95-143194 *03,890*

Effect of Finite Beam Width on Elastic Light Scattering from Droplets.
PB96-163670 *01,144*

Internal Droplet Circulation Induced by Surface-Driven Rotation.
PB97-119267 *02,500*

DROPS
Lubrication Theory for Reactive Spreading of a Thin Drop.
PB95-189460 *02,865*

Droplet Transfer Modes for a MIL 100S-1 GMAW Electrode.
PB95-209300 *02,867*

Analysis of Droplet Arrival Statistics in a Pressure-Atomized Spray Flame.
PB97-112270 *01,352*

DROPS (LIQUIDS)
Water Droplet Evaporation from Radiantly Heated Solids.
PB95-217147 *00,394*

DRUG ABUSE
Interlaboratory Comparison Studies on the Analysis of Hair for Drugs of Abuse.
PB95-176251 *03,500*

NIST Reference Materials to Support Accuracy in Drug Testing.
PB96-123807 *03,505*

Certification of Phencyclidine in Lyophilized Human Urine Reference Materials.
PB96-160692 *03,508*

Interlaboratory Studies on the Analysis of Hair for Drugs of Abuse: Results from the Fifth Exercise.
PB97-110449 *03,509*

Interlaboratory Studies on the Analysis of Hair for Drugs of Abuse: Results from the Fourth Exercise.
PB97-111322 *03,510*

DRUG ANALYSIS
Analysis by a Combination of Gas Chromatography and Tandem Mass Spectrometry: Development of Quantitative Tandem-in-Time Ion Trap Mass Spectrometry: Isotope Dilution Quantification of 11-Nor-Delta-9-Tetrahydro cannabinol-9-Carboxylic Acid.
PB96-117221 *02,561*

DRUG USERS
Hair Analysis for Drugs of Abuse: Evaluation of Analytical Methods, Environmental Issues, and Development of Reference Materials.
PB95-176269 *03,501*

Hair Testing for Drugs of Abuse: International Research on Standards and Technology.
PB96-120555 *03,504*

DRY PROCESSES
Kinetic-Energy-Enhanced Neutral Etching.
PB96-200613 *00,665*

DRYING
Modelling Drying Shrinkage of Cement Paste and Mortar. Part 1. Structural Models from Angstroms to Millimeters.
PB96-135132 *03,074*

DRYING TECHNIQUES
Recent Developments in NIST Botanical SRMs.
PB96-167267 *03,489*

DUCTED ROCKET ENGINES
Vortex Shedding Flowmeters for SSME Ducts.
PB95-169215 *01,453*

DUCTILE BRITTLE TRANSITION
Nonlocal Effects of Existing Dislocations on Crack-Tip Emission and Cleavage.
PB96-161807 *03,367*

DUCTILE FRACTURE
Ductile Fracture and Tempered Martensite Embrittlement of 4140 Steel.
PB96-190285 *03,222*

DUFFING DIFFERENTIAL EQUATION
Melnikov Function and Homoclinic Chaos Induced by Weak Perturbations.
PB95-180923 *03,414*

DURABILITY
Evolution of Porosity and Calcium Hydroxide in Laboratory Concretes Containing Silica Fume.
PB95-175063 *01,321*

Environmental Durability of Glass-Fiber Composites.
PB95-203220 *03,166*

DWARF STARS
Far-Ultraviolet Flare on a Pleiades G Dwarf.
PB96-102033 *00,086*

Relationship between Radiative and Magnetic Fluxes for Three Active Solar-Type Dwarfs.
PB96-119540 *00,097*

DYE BLEACHING
Anionic Triphenylmethane Dye Solutions for Low-Dose Food Irradiation Dosimetry.
PB96-135173 *03,715*

DYE LASERS
Stabilization of Optical Phase/Frequency of a Laser System: Application to a Commercial Dye Laser with an External Stabilizer.
PB95-203832 *04,327*

DYES
Enhanced Detection of PCR Products Through Use of TOTO and YOYO Intercalating Dyes with Laser Induced Fluorescence - Capillary Electrophoresis.
PB95-164653 *00,599*

DYNAMIC MODULUS OF ELASTICITY
Dynamics vs. Static Young's Moduli: A Case Study.
PB94-213188 *03,210*

DYNAMIC PROGRAMMING
Time Dependent Vector Dynamic Programming Algorithm for the Path Planning Problem.
PB94-215688 *03,428*

DYNAMIC RANGE
Genetically Engineered Pores as Metal Ion Biosensors.
PB96-167408 *03,553*

DYNAMIC RESPONSE
Dynamic Characteristics of Five Tall Buildings during Strong and Low-Amplitude Motions.
PB94-199981 *00,427*

Response of a Terminally Anchored Polymer Chain to Simple Shear Flow.
PB95-108668 *01,233*

Response of Buildings to Ambient Vibration and the Loma Prieta Earthquake: A Comparison.
PB96-119607 *00,457*

Bounds on Frequency Response Estimates Derived from Uncertain Step Response Data.
PB96-122874 *03,419*

Comparison of Responses of a Select Number of Buildings to the 10/17/1989 Loma Prieta (California) Earthquake and Low-Level Amplitude Test Results.
PB96-159645 *00,467*

DYNAMIC SCALING
Growth and Nucleation of Hydrogenated Amorphous Silicon on Silicon (100) Surfaces.
PB96-176516 *02,991*

DYNAMIC STRUCTURAL ANALYSIS
Strengthening Methodology for Lightly Reinforced Concrete Frames-II. Recommended Calculation Techniques for the Design of Infill Walls.
PB94-187648 *00,426*

Wind and Seismic Effects. Proceedings of the U.S.-Japan Cooperative Program in Natural Resources Panel on Wind and Seismic Effects (26th). Held in Gaithersburg, Maryland on May 17-20, 1994.
PB95-147385 *00,433*

Seismic Performance of Circular Bridge Columns Designed in Accordance with AASHTO/CALTRANS Standards.
PB96-146352 *01,346*

Strengthening Methodology for Lightly Reinforced Concrete Frames.
PB96-158050 *00,466*

January 17, 1995 Hyogoken-Nanbu (Kobe) Earthquake. Performance of Structures, Lifelines and Fire Protection Systems. Executive Summary and Paper.
PB97-104160 *00,475*

Wind and Seismic Effects: Proceedings of the Joint Meeting of the U.S.-Japan Cooperative Program in Natural Resources Panel on Wind and Seismic Effects (28th). Held in Gaithersburg, Maryland on May 14-17, 1996.
PB97-104376 *00,476*

DYNAMICAL SYSTEMS
Noise-Induced Chaos and Phase Space Flux.
PB95-125761 *03,433*

Non-Gaussian Noise Effects on Reliability of Multistable Systems.
PB96-122726 *04,213*

DYNAMICS
Dynamic Light-Scattering Study of a Diluted Polymer Blend Near Its Critical Point.
PB95-151890 *01,245*

DYSPROSIUM
Enhanced Curie Temperatures and Magnetoelastic Domains in Dy/Lu Super Lattices and Films.
PB94-172665 *04,443*

Magnetoelasticity in Rare-Earth Multilayers and Films.
PB94-211356 *04,495*

DYSPROSIUM BARIUM CUPRATES
Coupled-Bilayer Two-Dimensional Magnetic Order of the Dy Ions in Dy2Ba4Cu7O15.
PB95-152104 *04,584*

Reactive Coevaporation of DyBaCuO Superconducting Films: The Segregation of Bulk Impurities on Annealed MgO(100) Substrates.
PB95-164562 *04,635*

DYSPROSIUM IONS
Coupled-Bilayer Two-Dimensional Magnetic Order of the Dy Ions in Dy2Ba4Cu7O15.
PB95-152104 *04,584*

E. COLI
Novel Activity of E. coli uracil DNA N-glycosylase Excision of Isodialuric Acid (5,6-dihydroxyuracil), a Major Product of Oxidative DNA Damage, from DNA.
PB96-110747 *03,543*

E134
Thermodynamic Properties of CHF2-O-CHF2,Bis(difluoromethyl) Ether.
PB94-199569 *00,798*

EAMATE SYSTEM
Design and Development of an Information Retrieval System for the EAMATE Data. Volume 2 of 2. Appendices.
PB94-168390 *00,487*

EARTH GRAVITATION
Integrated Laser Doppler Method for Measuring Planetary Gravity Fields.
PB94-198686 *03,681*

EARTH OBSERVING SYSTEM (EOS)
Activities of NIST (National Inst. Of Standards and Technology).
N94-23605/6 *04,222*

Calibration in the Earth Observing System (EOS) Project. Part 2. Implementation.
PB97-112213 *04,842*

NIST Thermal Infrared Transfer Standard Radiometer for the Earth Observing System (EOS) Program.
PB97-113013 *04,843*

EARTH TIDES
Measurement and Interpretation of Tidal Tilts in a Small Array.
PB96-102611 *03,686*

EARTHQUAKE DAMAGE
Evaluating the Seismic Performance of Lightly-Reinforced Circular Concrete Bridge Columns.
PB95-163259 *01,335*

Performance of HUD-Affiliated Properties during the January 17, 1994 Northridge Earthquake.
PB95-174488 *00,443*

Survey of Steel Moment-Resisting Frame Buildings Affected by the 1994 Northridge Earthquake.
PB95-211918 *00,451*

Performance of Federal Buildings in the January 17, 1994 Northridge Earthquake.
PB95-231775 *00,453*

Post-Earthquake Fire and Lifelines Workshop. Held in Long Beach, California on January 30-31, 1995. Proceedings.
PB96-117916 *00,209*

Comparison of Responses of a Select Number of Buildings to the 10/17/1989 Loma Prieta (California) Earthquake and Low-Level Amplitude Test Results.
PB96-159645 *00,467*

January 17, 1995 Hyogoken-Nanbu (Kobe) Earthquake. Performance of Structures, Lifelines and Fire Protection Systems. Executive Summary and Paper.
PB97-104160 *00,475*

EARTHQUAKE ENGINEERING
Seismic Instrumentation of Existing Buildings.
PB94-159779 *00,420*

Draft Guidelines for Quality Control Testing of Elastomeric Seismic Isolation Systems.
PB94-161734 *00,422*

Evaluation and Strengthening Guidelines for Federal Buildings: Identification of Current Federal Agency Programs.
PB94-176278 *00,424*

Evaluation and Strengthening Guidelines for Federal Buildings: Assessment of Current Federal Agency Evaluation Programs and Rehabilitation Criteria and Development of Typical Costs for Seismic Rehabilitation.
PB94-181856 *00,425*

Northridge Earthquake 1994: Performance of Structures, Lifelines, and Fire Protection Systems.
PB94-207461 *04,825*

Evaluation and Retrofit Standards for Existing Federally Owned and Leased Buildings.
PB95-150918 *00,434*

Some Basics on Who's Who and What's What in Seismic Safety.
PB95-150926 *00,435*

Implementation of Executive Order 12699: Seismic Safety of Federal and Federally Assisted or Regulated New Building Construction.
PB95-151809 *00,436*

Lessons from the Loma Prieta Earthquake.

Comparison of the Seismic Provisions of Model Building Codes and Standards to the 1991 NEHRP Recommended Provisions.
PB95-231858 *00,315*

ICSSC Guidance on Implementing Executive Order 12941 on Seismic Safety of Existing Federally Owned or Leased Buildings.
PB96-128103 *00,459*

Seismic Performance of Circular Bridge Columns Designed in Accordance with AASHTO/CALTRANS Standards.
PB96-146352 *01,346*

Simplified Design Procedure for Hybrid Precast Concrete Connections.
PB96-154836 *00,405*

Summary and Results of the NIST Workshop on Proposed Guidelines for Testing and Evaluation of Seismic Isolation Systems. Held in San Francisco, California on July 25, 1994.
PB96-154901 *00,463*

Guidelines for Pre-Qualification, Prototype and Quality Control Testing of Seismic Isolation Systems.
PB96-193685 *01,347*

EARTHQUAKES

Northridge Earthquake, 1994. Performance of Structures, Lifelines and Fire Protection Systems.
PB94-161114 *00,421*

Earthquake and Fire in Japan: When the Threat Became a Reality.
PB95-175238 *00,201*

Energy-Based Method for Liquefaction Potential Evaluation. Phase 1. Feasibility Study.
PB96-214747 *03,691*

EBULLIOMETERS

Design of a High-Pressure Ebulliometer, with Vapor-Liquid Equilibrium Results for the Systems CHF2Cl + CF3-CH3 and CF3-CH2F + CH2F2.
PB97-113229 *04,163*

EBULLIOMETRY

Model for Calculating Virial Coefficients of Natural Gas Hydrocarbons with Impurities.
PB96-156047 *04,064*

ECONOMIC ANALYSIS

Least-Cost Energy Decisions for Buildings: Part 2. Uncertainty and Risk Video Training Workbook.
PB94-165982 *00,240*

Standards in Building Economics: Why We Need Them and How to Write Them.
PB94-216405 *00,320*

ECONOMIC DEVELOPMENT

Aid for Smaller Businesses.
PB94-212461 *00,492*

ECONOMIC IMPACT

Economic, Energy, and Environmental Impacts of the Energy-Related Inventions Program.
DE94-017162 *00,008*

ECONOMIC IMPACTS

Evaluation of the Economic Impacts Associated with the NIST Power and Energy Calibration Services.
PB95-188850 *02,461*

ECONOMIC MODELS

Functions of Technology Infrastructure in a Competitive Economy.
PB94-173002 *00,478*

EDDY CURRENTS

Development in the Theory and Analysis of Eddy Current Sensing of Velocity in Liquid Metals.
PB94-212586 *03,335*

Improved Eddy-Current Decay Method for Resistivity Characterization.
PB95-180451 *02,265*

EDGE DETECTION

Monte Carlo Model for SEM Linewidth Metrology.
PB95-150058 *02,331*

Motion-Model-Based Boundary Extraction.
PB95-189502 *01,849*

EDGES

Effects of Specimen Edge Conditions on Heat Release Rate.
PB95-152864 *00,375*

EDI (ELECTRONIC DATA INTERCHANGE)

Federal Implementation Guideline for Electronic Data Interchange: ASC X12 003040 Transaction Set 838 Trading Partner Profile (Vendor Registration), Implementation Convention.
PB96-112651 *03,674*

Federal Implementation Guideline for Electronic Data Interchange. ASC X12 003050 Transaction Set 850 Award Instrument. Implementation Convention.
PB96-114913 *01,814*

Federal Implementation Guideline for Electronic Data Interchange. ASC X12 003050 Transaction Set 860 Modifications to Award Instrument. Implementation Convention.
PB96-114921 *01,815*

Federal Implementation Guideline for Electronic Data Interchange. ASC X12 003050 Transaction Set 843 Response to Request for Quotation. Implementation Convention.
PB96-168984 *01,822*

Guidelines for the Evaluation of Electronic Data Interchange Products.
PB96-172325 *01,506*

Federal Implementation Guideline for Electronic Data Interchange. ASC X12 003050 Transaction Set 855 Purchase Order Acknowledgment: Implementation Convention.
PB96-172374 *01,823*

Federal Implementaion Guideline for Eletronic Data Interchange. ASC X12 003050 Transaction Set 865 Purchase Order Change Acknowledgement/Request - Seller Initiated. Implementation Convention.
PB96-172549 *01,825*

EDITING

Operating Procedures and Life Cycle Documentation for the Initial Graphics Exchange Specification.
PB95-242285 *02,782*

EDITING ROUTINES

Structural EXPRESS Editor.
PB94-159795 *02,769*

EDLEN EQUATION

Verification of Revised Water Vapour Correction to the Index of Refraction of Air.
PB96-161666 *02,680*

EDUCATION

Investing in Education to Meet a National Need for a Technical-Professional Workforce in a Post-Industrial Economy.
PB94-173028 *00,132*

Tribology Education: Present Status and Future Challenges.
PB94-212362 *02,965*

Structural Analysis in Context.
PB95-151817 *00,437*

Consensus Process in Standards Development.
PB96-179502 *00,136*

EEL PROGRAM

National Voluntary Laboratory Accreditation Program: Energy Efficient Lighting Products.
PB94-219060 *02,642*

EFFECTIVE RANGE THEORY

Modified Effective Range Theory as an Alternative to Low-Energy Close-Coupling Calculations.
PB95-202701 *03,988*

EFFICIENCY

Usability Engineering: Industry-Government Collaboration for System Effectiveness and Efficiency.
PB97-122287 *01,514*

EGRESS

Mathematical Modeling of Human Egress from Fires in Residential Buildings.
PB94-193778 *00,337*

EIGENVALUES

Accuracy of Eigenvalues: A Comparison of Two Methods.
PB95-126249 *03,413*

EJECTORS

Theoretical Evaluation of the Vapor Compression Cycle with a Liquid-Line/Suction-Line Heat Exchanger, Economizer, and Ejector.
PB95-216917 *02,607*

ELASTIC CONSTANTS

Compressibility of Polycrystal and Monocrystal Copper: Acoustic-Resonance Spectroscopy.
PB96-164223 *02,990*

Orthotropic Elastic Constants of a Boron-Aluminum Fiber-Reinforced Composite: An Acoustic-Resonance-Spectroscopy Study.
PB96-200175 *03,182*

Elastic Constants and Microcracks in YBa2Cu3O7.
PB96-200761 *03,005*

ELASTIC MODULUS

Nanoindentation and Instrumented Scratching Measurements on Hard Coatings.
PB97-122477 *03,111*

ELASTIC PROPERTIES

Effects of Elastic Stress on Phase Equilibrium in the Ni-V System.
PB94-172707 *03,313*

Elastic Properties of Uniaxial-Fiber Reinforced Composites: General Features.
PB94-200649 *03,140*

Elastic Constants of Isotropic Cylinders Using Resonant Ultrasound.
PB94-211919 *04,497*

Elastic Constants of Polycrystalline Y1Ba2Cu3Ox.
PB94-213196 *04,513*

Cast-Iron Elastic Constants: Effect of Graphite Aspect Ratio.
PB94-213212 *03,211*

Elastic Constants and Debye Temperature of Y1Ba2Cu3Ox: Effect of Oxygen Content.
PB94-213352 *04,515*

Localization Model of Rubber Elasticity: Comparison with Torsional Data for Natural Rubber Networks in the Dry State.
PB95-107033 *03,195*

Elastic Properties of Al2O3/Al Composites: Measurements and Modeling.
PB95-161378 *03,157*

Elastic Properties of Central-Force Networks with Bond-Length Mismatch.
PB95-163366 *04,623*

Low-Temperature Elastic Constants of Y1Ba2Cu3O7.
PB95-168837 *04,642*

Elastic Constants of a Material with Orthorhombic Symmetry: An Alternative Measurement Approach.
PB95-180527 *04,684*

Off-Diagonal Orthorhombic-Symmetry Elastic Constants.
PB95-202768 04,695

Elastic Constants and Internal Friction of Polycrystalline Copper.
PB96-141015 03,364

ELASTIC SCATTERING
Low-Energy-Electron Collisions with Sodium: Elastic and Inelastic Scattering from the Ground State.
PB96-103106 04,030

Effect of Finite Beam Width on Elastic Light Scattering from Droplets.
PB96-163670 01,144

Elastic Scattering from Spheres under Non Plane-Wave Illumination.
PB96-163688 04,370

ELASTICITY
Nonequilibrium Thermodynamic Theory of Viscoplastic Materials.
PB96-111661 04,034

ELASTICITY THEORY
Whither Computational Materials Science. Some Thoughts from the Mechanical Properties Front.
PB96-161997 02,987

ELASTOMER BLENDS
Microstructure Effect on the Phase Behavior of Blends of Deuterated Polybutadiene and Protonated Polyisopene.
PB97-113146 01,296

ELASTOMERS
Synthesis of Thermally Stable Elastomers.
AD-A307 789/8 03,194

Effect of Swelling on the Elasticity of Rubber: Localization Model Description.
PB94-211034 01,216

Anomalous Freezing and Melting of Solvent Crystals in Swollen Gels of Natural Rubber.
PB94-212321 01,223

ELCETRON PARAMAGNETIC RESONANCE
Orientation Effects on ESR Analysis of Alanine-Polymer Dosimeters.
PB96-146725 03,720

ELECRON MICROSCOPY
SUSAN: SUperconducting Systems ANalysis by Low Temperature Scanning Electron Microscopy (LTSEM).
PB96-112065 04,728

ELECTRET
Calibration of Electret-Based Integral Radon Monitors Using NIST Polyethylene-Encapsulated (226)Ra/(222)Rn Emanation (PERE) Standards.
PB96-159223 01,950

ELECTRETS
Response Comparison of Electret Ion Chambers, LiF TLD, and HPIC.
PB96-190103 02,578

ELECTRIC APPLIANCES
Three-Axis Coil Probe Dimensions and Uncertainties during Measurement of Magnetic Fields from Appliances.
PB94-219359 01,885

Distributions of Measurement Error for Three-Axis Magnetic Field Meters during Measurements Near Appliances.
PB96-180153 02,110

ELECTRIC ARCS
Decomposition of SF6 and Production of S2F10 in Power Arcs.
PB96-122619 01,084

ELECTRIC BRIDGES
Digital Impedance Bridge.
PB96-103155 02,272

ELECTRIC CABLES
Effect of DC Tests on Induced Space Charge.
PB94-172350 02,212

ELECTRIC CHARGE
Measuring Contact Charge Transfer at Interfaces: A New Experimental Technique.
PB95-164570 03,053

Electric Dipole Excitation of a Long Conductor in a Lossy Medium.
PB96-146675 04,058

ELECTRIC CONDUCTIVITY
Critical Current and Normal Resistance of High-Tc Step-Edge SNS Junctions.
PB96-111752 04,724

ELECTRIC CONTACTS
Contact Electrification Induced by Monolayer Modification of a Surface and Relation to Acid-Base Interactions.
PB94-185378 03,034

In situ Noble Metal YBa2Cu3O7 Thin-Film Contacts.
PB94-211323 04,494

YBa2Cu3O7-x to Si Interconnection for Hybrid Superconductor/Semiconductor Integration.
PB94-211711 02,315

Preparation of Low Resistivity Contacts for High-Tc Superconductors.
PB95-153557 02,258

High Current Pressure Contacts to Ag Pads on Thin Film Superconductors.
PB95-168621 04,639

Oxygen Annealing of Ex-situ YBCO/Ag Thin-Film Interfaces.
PB96-141312 04,758

ELECTRIC CONVERTERS
Comments on 'Conversions between S, Z, Y, h, ABCD, and T Parameters Which Are Valid for Complex Source and Load Impedances'.
PB96-102785 02,069

ELECTRIC CURRENT
Optical Current Transducer for Calibration Studies.
PB94-185907 02,121

Faraday Effect Current Sensors.
PB94-200698 02,127

Faraday Effect Sensors: A Review of Recent Progress.
PB94-200706 02,128

Frequency Extension of the NIST AC-DC Difference Calibration Service for Current.
PB95-161253 01,895

Polarization Insensitive 3x3 Sagnac Current Sensor Using Polarizing Spun High-Birefringence Fiber.
PB96-119276 02,187

ELECTRIC CURRENT METERS
Recent Developments at NIST on Optical Current Sensors and Partial Discharge Diagnostics.
PB95-151114 02,147

ELECTRIC CURRENT SENSORS
Polarization Dependence of Response Functions in 3x3 Sagnac Optical Fiber Current Sensors.
PB95-162426 02,154

Submicroampere-Per-Root-Hertz Current Sensor Based on the Faraday Effect in Ga: YIG.
PB95-162467 02,155

Faraday Effect Current Sensor with Improved Sensitivity-Bandwidth Product.
PB95-203154 02,180

Faraday Effect Sensors for Magnet Field and Electric Current.
PB96-119664 04,736

Polarization Dependence of Response Functions in 3x3 Sagnac Optical Fiber Current Sensors.
PB96-122684 02,189

Fundamentals and Problems of Fiber Current Sensors.
PB97-111835 02,205

ELECTRIC DEVICES
Effect of Electrode-Polymer Interfacial Layers on Polymer Conduction. Part 2. Device Summary.
PB95-151155 02,335

ELECTRIC DISCHARGES
Electrical Breakdown in Transformer Oil in Large Gaps.
PB95-150579 01,889

Recent Developments at NIST on Optical Current Sensors and Partial Discharge Diagnostics.
PB95-151114 02,147

Electron Scattering and Dissociative Attachment by SF6 and Its Electrical-Discharge By-Products.
PB95-151288 02,256

Observations of Partial Discharges in Hexane Under High Magnification.
PB95-163127 01,900

Importance of Unraveling Memory Propagation Effects in Interpreting Data on Partial Discharge Statistics.
PB95-163572 01,901

Nonstationary Behavior of Partial Discharge during Insulation Aging.
PB95-163580 01,902

Partial Discharge: Induced Aging of Cast Epoxies and Related Nonstationary Behavior of the Discharge Statistics.
PB95-163598 01,903

Physics and Chemistry of Partial Discharge and Corona: Recent Advances and Future Challenges.
PB95-181046 01,910

Nonstationary Behaviour of Partial Discharge during Discharge Induced Ageing of Dielectrics.
PB96-103114 01,922

Physics and Chemistry of Partial Discharge and Corona - Recent Advances and Future Challenges.
PB96-123757 01,936

ELECTRIC FAULTS
Keeping Up with the Reality of Today's Surge Environment.
PB96-123633 02,231

ELECTRIC FIELDS
Electric-Field Strengths Measured Near Personal Transceivers.
PB94-172020 01,564

Spatial Dependence of Electrical Fields Due to Space Charges in Films of Organic Dielectrics Used for Insulation of Power Cables.
PB94-199130 02,214

Energy Transduction between a Concentration Gradient and an Alternating Electric Field.
PB94-216363 03,461

Electric Field Effects on Crack Growth in a Lead Magnesium Niobate.
PB95-107322 03,339

Michaelis-Menten Equation for an Enzyme in an Oscillating Electric Field.
PB95-140489 00,906

ELF Electric and Magnetic Field Measurement Methods.
PB95-161675 04,423

Using Quantized Breakdown Voltage Signals to Determine the Maximum Electric Fields in a Quantum Hall Effect Sample.
PB95-261947 02,375

Electric Field Effects on a Near-Critical Fluid in Microgravity.
PB96-161880 04,217

ELECTRIC GENERATORS
Evaluation of Wear Resistant Ceramic Valve Seats in Gas-Fueled Power Generation Engines. Topical Report, December 1991-April 1994.
PB95-200218 02,466

ELECTRIC MEASURING INSTRUMENTS
NIST 30 MHz Linear Measurement System.
PB94-169752 02,020

ELECTRIC MOTORS
Efficiency of Electric Motors. National Voluntary Lab. Accreditation Program (NVLAP).
PB96-111174 02,107

ELECTRIC POTENTIAL
Potential Drop in the Center-Cracked Panel with Asymmetric Crack Extension.
PB95-107330 04,819

Step-Edge and Stacked-Heterostructure High-Tc Josephson Junctions for Voltage-Standard Arrays.
PB96-102066 04,702

Spectroscopic Study of Quantized Breakdown Voltage States of the Quantum Hall Effect.
PB96-113584 04,730

ELECTRIC POWER
Evaluation of the Economic Impacts Associated with the NIST Power and Energy Calibration Services.
PB95-188850 02,461

ELECTRIC POWER DISTRIBUTION
Investigation of S2F10 Production and Mitigation in Compressed SF6-Insulated Power Systems.
PB94-212388 02,467

Investigation of S2F10 Production and Mitigation in Compressed SF6- Insulated Power Systems.
PB96-155528 02,468

ELECTRIC POWER GENERATION
Earthquake Resistant Construction of Electric Transmission and Telecommunication Facilities Serving the Federal Government Report.
PB94-161817 02,460

ELECTRIC POWER METERS
Technical Impact of the NIST Calibration Service for Electrical Power and Energy.
PB96-147913 02,462

ELECTRIC-POWERED VEHICLES
Advanced Components for Electric and Hybrid Electric Vehicles. Workshop Proceedings. Held in Gaithersburg, Maryland on October 27-28, 1993.
PB94-177060 04,858

ELECTRIC PROBES
Standard Probes for Electromagnetic Field Measurements.
PB94-185436 01,999

Verification of Commercial Probe-Tip Calibrations.
PB95-161576 02,347

Calibrating On-Wafer Probes to the Probe Tips.
PB95-163945 02,352

LRM Probe-Tip Calibrations with Imperfect Resistors and Lossy Lines.
PB95-163952 02,353

LRM Probe-Tip Calibrations Using Nonideal Standards.
PB96-135389 02,411

ELECTRIC PULSES
Comparative Measurements of High-Voltage Impulses Using a Kerr Cell and a Resistor Divider.
PB94-172582 02,028

ELECTRIC RESISTANCE HEATING
Calorimetric and Visual Measurements of R123 Pool Boiling on Four Enhanced Surfaces.
PB96-128129 04,053

ELECTRIC TERMINALS
Terminal Invariant Description of Amplifier Noise.
PB95-153573 02,043

ELECTRIC WIRE
Spatial Dependence of Electrical Fields Due to Space Charges in Films of Organic Dielectrics Used for Insulation of Power Cables.
PB94-199130 02,214

ELECTRICAL CIRCUITS
Precision Tests of a Quantum Hall Effect Device DC Equivalent Circuit Using Double-Series and Triple-Series Connections.
PB96-159256 01,953

ELECTRICAL DETECTION
Correlations between Electrical and Acoustic Detection of Partial Discharge in Liquids and Implications for Continuous Data Recording.
PB96-204490 02,248

ELECTRICAL ENGINEERING
Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs,

October to December 1992, with 1992/1993 EEEL Events Calendar.
PB94-165958 *02,299*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, October to December 1994 with 1995 EEEL Events Calendar.
PB95-208724 *02,372*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, January to March 1992, with 1992/1993 EEEL Events Calendar.
PB95-210480 *01,917*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, October to December 1994 with 1995 EEEL Events Calendar.
PB95-231841 *01,918*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, April to June 1995 with 1995 EEEL Events Calendar.
PB96-106455 *01,923*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, April to June 1995 with 1995 EEEL Events Calendar.
PB96-137187 *01,941*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, July to September 1995 with 1996 EEEL Events Calendar.
PB96-147905 *01,942*

Electronics and Electrical Engineering Laboratory 1995 Technical Accomplishments: Advancing Metrology for Electrotechnology to Support the U.S. Economy.
PB96-164520 *01,959*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, July to September 1995 with 1996 EEEL Events Calendar.
PB96-183066 *01,965*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, October to December 1995 with 1996 EEEL Events Calendar.
PB96-183116 *01,966*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, January to March 1996, with 1996 EEEL Events Calendar.
PB96-191390 *01,969*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, October to December 1995, with 1996 EEEL Events Calendar.
PB96-202346 *01,978*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, January to March 1996, with 1996 EEEL Events Calendar.
PB96-214622 *01,981*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, April to June 1996 with 1996-1998 EEEL Events Calendar.
PB97-113880 *01,994*

Bibliography of the NIST Optoelectronics Division.
PB97-116040 *02,207*

ELECTRICAL EQUIPMENT

Electrical Product Requirements (Especially Quality Requirements) in the United States.
PB96-119235 *01,929*

Surging the Upside-Down House: Measurements and Modeling Results.
PB96-180138 *02,243*

ELECTRICAL FAULTS

Using Quantized Breakdown Voltage Signals to Determine the Maximum Electric Fields in a Quantum Hall Effect Sample.
PB95-261947 *02,375*

Spectroscopic Study of Quantized Breakdown Voltage States of the Quantum Hall Effect.
PB96-113584 *04,730*

ELECTRICAL IMPEDANCE

On-Wafer Impedance Measurement on Lossy Substrates.
PB95-176285 *02,365*

Overview of Bioelectrical Impedance Analyzers.
PB96-122635 *00,176*

Overview of Bioelectrical Impedance Analyzers.

ELECTRICAL MEASUREMENT

Electronics and Electrical Engineering Laboratory 1994 Program Plan: Supporting Technology for U.S. Competitiveness in Electronics.
PB94-126901 *01,873*

Center for Electronics and Electrical Engineering Technical Progress Bulletin Covering Center Programs, October to December, with 1991 CEEE Events Calendar.
PB94-159787 *02,296*

Electronics and Electrical Engineering Laboratory: 1994 Strategic Plan. Supporting Technology for U.S. Competitiveness in Electronics.
PB94-161320 *01,874*

Transmission/Reflection and Short-Circuit Line Methods for Measuring Permittivity and Permeability.
PB94-165537 *02,211*

Electric-Field Strengths Measured Near Personal Transceivers.
PB94-172020 *01,564*

Optical Current Transducer for Calibration Studies.
PB94-185907 *02,121*

Reproducibility of JEDEC Standard Current and Voltage Ramp Test Procedures for Thin-Dielectric Breakdown Characterization.
PB94-185931 *01,879*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, October to December 1993 with 1994/1995 EEEL Events Calendar.
PB94-193752 *02,307*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, January to March 1994 with 1994/1995 EEEL Events Calendar.
PB94-193810 *02,308*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, July to September 1993 with 1994 EEEL Events Calendar.
PB94-194354 *02,309*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, April to June 1994 with 1994/1995 EEEL Events Calendar.
PB95-143186 *02,329*

Electronics and Electrical Engineering Laboratory 1995 Program Plan. Supporting Technology for U.S. Competitiveness in Electronics.
PB95-159885 *01,894*

Frequency Extension of the NIST AC-DC Difference Calibration Service for Current.
PB95-161253 *01,895*

Verification of Scattering Parameter Measurements.
PB95-163960 *01,904*

Through-the-Arc Sensing for Measuring Gas Metal Arc Weld Quality in Real Time.
PB95-164463 *02,908*

Accuracy Comparisons of Josephson Array Systems.
PB95-164687 *02,047*

Voltage Ratio Measurements of a Zener Reference Using a Digital Voltmeter.
PB95-164695 *01,906*

Superconductor Critical Current Standards for Fusion Applications. Final Progress Report, October 1993-July 1994.
PB95-169538 *02,222*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, July to September 1994 with 1994/1995 EEEL Events Calendar.
PB95-170395 *02,360*

Standard Reference Devices for High Temperature Superconductor Critical Current Measurements.
PB95-175543 *04,659*

Improved Eddy-Current Decay Method for Resistivity Characterization.
PB95-180451 *02,265*

Accuracy and Repeatability in Time Domain Network Analysis.
PB95-202644 *02,064*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, January to March 1995 with 1995 EEEl Events Calendar.
PB95-242277 *02,373*

Voltage-Standard Devices.
PB96-102496 *01,920*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, April to June 1995 with 1995 EEEL Events Calendar.
PB96-137187 *01,941*

Amperometric Measurement of Moisture in Transformer Oil Using Karl Fischer Reagents.
PB96-146766 *00,623*

Technical Impact of the NIST Calibration Service for Electrical Power and Energy.
PB96-147913 *02,462*

Electronics and Electrical Engineering Laboratory: 1996 Program Plan. Supporting Technology for U.S. Competitiveness in Electronics.
PB96-175237 *01,962*

Single-Port Technique for Adaptor Efficiency Evaluation.
PB96-176441 *02,088*

Dielectric and Magnetic Measurements from -50C to 200C and in the Frequency Band 50 MHz to 2 GHz.
PB96-191382 *02,245*

Electrical Test Structures Replicated in Silicon-on-Insulator Material.
PB97-111827 *02,454*

Loading Effects in Resistance Scaling.
PB97-111884 *02,285*

Measurement and Reduction of Alignment Errors of the NIST Watt Experiment.
PB97-111959 *01,987*

Low Thermal Guarded Scanner for High Resistance Measurement Systems.
PB97-112452 *02,288*

Exploring the Low-Frequency Performance of Thermal Converters Using Circuit Models and a Digitally Synthesized Source.
PB97-112551 *02,848*

Low Voltage Standards in the 10 Hz to 1 MHz Range.
PB97-112569 *02,100*

ELECTRICAL MEASUREMENTS

Electrical Measurements for Monitoring and Control of rf Plasma Processing.
PB96-161963 *04,369*

Coaxial Line-Reflect-Match Calibration.
PB96-200118 *02,246*

30 MHz Comparison Receiver.
PB96-200407 *01,972*

Conversion of a 2-Terminal-Pair Bridge to a 4-Terminal-Pair Bridge for Increased Range and Precision in Impedance Measurements.
PB97-119176 *02,103*

ELECTRICAL NETWORKS

Diakoptic and Large Change Sensitivity Analysis.
PB95-150538 *02,038*

Simulating the Dynamic Electro Thermal Behavior of Power Electronic Circuits and Systems.
PB95-161014 *02,345*

Thermal Component Models for Electro-Thermal Network Simulation.
PB95-161022 *02,346*

ELECTRICAL RESISTANCE

Pressure Dependencies of Standard Resistors.
PB95-153516 *02,257*

Anomalous Behavior of a Quantized Hall Plateau in a High-Mobility Si Metal-Oxide-Semiconductor Field-Effect Transistor.
PB95-164174 *02,354*

Design Challenges in a Commercial Quantum Hall Effect-Based Resistance Standard.
PB95-171419 *02,263*

Progress on the Quantized Hall Resistance Recommended Intrinsic/Derived Standards Practice.
PB96-122460 *02,403*

Loading Effects in Resistance Scaling.
PB97-111884 *02,285*

Low Thermal Guarded Scanner for High Resistance Measurement Systems.
PB97-112452 *02,288*

ELECTRICAL RESISTIVITY

High-Spatial-Resolution Resistivity Mapping Applied to Mercury Cadmium Telluride.
PB94-212917 *02,131*

Diffusion of Copper into Gold Plating.
PB95-162152 ,00,957

Improved Eddy-Current Decay Method for Resistivity Characterization.
PB95-180451 02,265

Apparatus for Resistance Measurement of Short, Small-Diameter Conductors.
PB96-141130 04,417

Interfacial Transport in Porous Media: Application to dc Electrical Conductivity of Mortars.
PB96-146816 01,326

Characterization of LPE HgCdTe Film by Magnetoresistance.
PB96-157961 02,197

ELECTRICAL SUBSTITUTION
National Institute of Standards and Technology High-Accuracy Cryogenic Radiometer.
PB96-179585 04,378

Realization of a Scale of Absolute Spectral Response Using the NIST High Accuracy Cryogenic Radiometer.
PB97-118640 04,397

ELECTRICAL SYSTEMS
Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, October to December 1994 with 1995 EEEL Events Calendar.
PB95-231841 01,918

ELECTRICAL TRANSPORT
Evidence for Tunneling and Magnetic Scatttering at 'In situ' YBCO/Noble-Metal Interfaces.
PB96-141098 04,752

ELECTRICALLY CONDUCTING FLUIDS
Measurement of the Thermal Properties of Electrically Conducting Fluids Using Coated Transient Hot Wires.
PB95-169058 03,269

ELECTRICALLY ISOLATED
Influence of Electrical Isolation on the Structure and Reflectivity of Multilayer Coatings Deposited on Dielectric Substrates.
PB96-159736 04,365

ELECTRIFICATION
Contact Electrification Induced by Monolayer Modification of a Surface and Relation to Acid-Base Interactions.
PB94-185378 03,034

Adhesion, Contact Electrification, and Acid-Base Properties of Surfaces.
PB96-204425 03,693

ELECTRO DEPOSITED COATINGS
Chemical Aspects of Tool Wear in Single Point Diamond Turning.
PB97-112601 03,021

ELECTRO-OPTIC CRYSTALS
Electro-Optic-Based RMS Voltage Measurement Technique.
PB96-138490 02,194

ELECTROACOUSTIC WAVES
Electroacoustic Characterization of Particle Size and Zeta Potential in Moderately Concentrated Suspensions.
PB96-119425 01,079

ELECTROACOUSTICS
Electroacoustics for Characterization of Particulates and Suspensions. Proceedings of a Workshop. Held in Gaithersburg, Maryland on February 3-4, 1993.
PB94-112695 00,725

Electrokinetic Sonic Analysis of Silicon Nitride Suspensions.
PB96-123575 03,073

Complicated Cases and Shielded Rooms: Audiometric Booths Shielded to Attenuate Electromagnetic Interference.
PB96-180179 02,278

ELECTROCHEMICAL CELLS
Structural and Magnetic Properties of CuCl2 Graphite Intercalation Compounds.
PB96-119748 03,020

ELECTROCHEMICAL CORROSION
Modeling Polarization Curves and Impedance Spectra for Simple Electrode Systems.
PB94-198876 03,188

ELECTROCHEMICAL IMMUNOASSAYS
Novel Amperometric Immunosensor for Procainamide Employing Light Activated Labels.
PB96-163662 00,512

ELECTROCHEMISTRY
Electrochemical Synthesis of Metal and Intermetallic Composites.
AD-A294 088/0 03,304

Evaluation of the Electrochemical Behavior of Ductile Nickel Aluminide and Nickel in a pH 7.9 Solution. Technical Report Number 3, April-June 1991.
DE94017351 03,307

Application of Photochemical Reaction in Electrochemical Detection of DNA Intercalation.
PB94-185733 00,686

Status of Electrocomposites.
PB94-212453 03,143

Self-Assembled Phospholipid/Alkanethiol Biomimetic Bilayers on Gold.
PB95-108460 00,878

Lithium-Drift Technique for Making Submicron Thick Silicon Membranes.
PB95-161386 02,260

Faraday Constant.
PB96-159793 01,955

ELECTROCLINIC EFFECT
Studies of the Higher Order Smectic Phase of the Large Electroclinic Effect Material W317.
PB95-151601 00,935

Dielectric Spectroscopic Determination of Temperature Behavior of Electroclinic Parameters in the Liquid Crystal W317.
PB96-140397 01,098

X-ray Observation of Electroclinic Layer Constriction and Rearrangement in a Chiral Smectic-A Liquid Crystal.
PB96-141080 01,100

ELECTROCONFORMATIONAL COUPLING
Energy Transduction between a Concentration Gradient and an Alternating Electric Field.
PB94-216363 03,461

ELECTRODE EXTENSIONS
Electrode Extension Model for Gas Metal Arc Welding.
PB96-135074 02,871

ELECTRODE SURFACE EFFECTS
Optical and Mass Spectrometric Investigations of Ions and Neutral Species in SF6 Radio-Frequency Discharges.
PB97-111918 01,985

ELECTRODEPOSITED COATINGS
Magnetic and Structural Properties of Electrodeposited Copper-Nickel Microlayered Alloys.
PB94-213121 04,512

ELECTRODEPOSITION
Electrodeposition.
PB94-172517 00,760

Effect of Mn Content on the Microstructure of Al-Mn Alloys Electrodeposited at 150C.
PB95-126355 03,343

Evidence of Film-Induced Cleavage by Electrodeposited Rhodium.
PB95-162327 03,191

Nanocomposite Magnetic Materials.
PB95-162780 04,617

ELECTRODES
Modeling Polarization Curves and Impedance Spectra for Simple Electrode Systems.
PB94-198876 03,188

Effect of Electrode-Polymer Interfacial Layers on Polymer Conduction. Part 2. Device Summary.
PB95-151155 02,335

Effect of Electrode Material on Measured Ion Energy Distributions in Radio-Frequency Discharges.
PB96-102850 04,026

Rapid pH Change Due to Bacteriorhodopsin Measured with a Tin-Oxide Electrode.
PB96-112081 03,544

Conformational Alterations of Bovine Insulin Adsorbed on a Silver Electrode.
PB96-161773 00,510

Mapping the Droplet Transfer Modes for an ER100S-1 GMAW Electrode.
PB96-190095 03,295

Sensing Droplet Detachment and Electrode Extension for Control of Gas Metal Arc Welding.
PB96-190160 03,297

ELECTROHYDRODYNAMICS
Electrohydrodynamic Instability and Electrical Discharge Initiation in Hexane.
PB96-186119 02,244

ELECTROLYTE SOLUTIONS
Summary of the Apparent Standard Partial Molal Gibbs Free Energies of Formation of Aqueous Species, Minerals, and Gases at Pressures 1 to 5000 Bars and Temperatures 25 to 1000C.
PB96-145891 01,113

ELECTROLYTES
Critical Behavior of Ionic Fluids.
PB95-164331 00,978

Low Electrolytic Conductivity Standards.
PB96-122098 01,081

Electrolytes Constrained on Fractal Structures: Debye-Huckel Theory.
PB97-110241 01,174

ELECTROLYTIC POLARIZATION
Modeling Polarization Curves and Impedance Spectra for Simple Electrode Systems.
PB94-198876 03,188

ELECTROMAGNETIC ACOUSTIC TRANSDUCERS
Determination of Sheet Steel Formability Using Wide Band Electromagnetic-Acoustic Transducers.
PB96-186036 02,279

Effect of Liftoff on Accuracu of Phase Velocity Measurements Made with Electromagnetic-Acoustic Transducers.
PB96-186044 02,280

ELECTROMAGNETIC CAPABILITY
Alternative EMC Compliance Test Facilities.
PB96-200324 02,247

ELECTROMAGNETIC COMPATIBILITY
Surging the Upside-Down House: Measurements and Modeling Results.
PB96-180138 02,243

Rapid Evaluation of Mode-Stirred Chambers Using Impulsive Waveforms.
PB96-210026 01,979

ELECTROMAGNETIC COUPLING
Electromagnetic Coupling Character of (001) Twist Boundaries in Sintered Bi2Sr2CaCu2O8+x Bicrystals.
PB96-176573 01,963

ELECTROMAGNETIC EMISSIONS
Optically Linked Three-Loop Antenna System for Determining the Radiation Characteristics of an Electrically Small Source.
PB95-161915 02,005

ELECTROMAGNETIC ENVIRONMENTS
Condensed Catalogue of Electromagnetic Environment Measurements, 30 - 300 Hz.
PB95-162210 01,899

Catalogue of Electromagnetic Environment Measurements, 30-300 Hz.
PB96-155452 01,943

ELECTROMAGNETIC FIELDS
Bibliography of the NIST Electromagnetic Fields Division Publications.
PB94-165990 01,875

Bibliography of the NIST Electromagnetic Fields Division Publications.
PB95-135562 01,886

Electro-Optic-Based RMS Voltage Measurement Technique.
PB96-138490 02,194

Standard Source Method for Reducing Antenna Factor Errors in Shielded Room Measurements.
PB96-183157 02,013

Bibliography of the NIST Electromagnetic Fields Division Publications.
PB96-210778 01,980

Metrology for Electromagnetic Technology: A Bibliography of NIST Publications.
PB97-116057 04,396

ELECTROMAGNETIC FLOWMETERS
Development in the Theory and Analysis of Eddy Current Sensing of Velocity in Liquid Metals.
PB94-212586 03,335

ELECTROMAGNETIC INTERACTIONS
Relativistic Quantum Mechanics of Interacting Particles.
PB97-110589 04,141

ELECTROMAGNETIC INTERFERENCE
Aperture Excitation of Electrically Large, Lossy Cavities.
PB94-145711 00,029

Measurements of Shielding Effectiveness and Cavity Characteristics of Airplanes.
PB94-210051 00,030

Assessment of Data by a Second-Order Transfer Function.
PB95-182390 03,760

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, October to December 1994 with 1995 EEEL Events Calendar.
PB95-231841 01,918

Standard Antennas for Electromagnetic Interference Measurements and Methods to Calibrate Them.
PB96-102561 02,007

Screened-Room Measurements on the NIST Spherical-Dipole Standard Radiator.
PB96-113568 01,926

Methodology for Electromagnetic Interference Measurements.
PB96-200126 02,014

Data Evaluation of a Linear System by a Second-Order Transfer Function.
PB96-200282 01,970

ELECTROMAGNETIC MEASUREMENT
Measurements of Shielding Effectiveness and Cavity Characteristics of Airplanes.
PB94-210051 00,030

Gradiometer Antennas for Detection of Long Subsurface Conductors.
PB95-175667 01,862

ELECTROMAGNETIC METROLOGY
Table of Dielectric Constants of Pure Liquids.
AD-A278 956/8 00,712

Comparison of Meteor Activity with Occurrence of Sporadic E Reflections.
AD-A292 039/5 00,116

Higher-Order Approximations in Ionospheric Wave-Propagation.
AD-A292 471/0 04,420

Standard of Attenuation for Microwave Measurements.
AD-A297 905/2 01,517

Dielectric Studies of Fluids with Reentrant Resonators. Appendix B.
DE93019683 03,244

Crosstalk between Microstrip Transmission Lines.
PB94-135639 02,210

Aperture Excitation of Electrically Large, Lossy Cavities.
PB94-145711 00,029

NIST 60-Millimeter Diameter Cylindrical Cavity Resonator: Performance Evaluation for Permittivity Measurements.
PB94-151776 02,251

Submissions to a Planned Encyclopedia of Operations Research on Computational Geometry and the Voronoi/ Delaunay Construct.
PB94-152709 *03,425*

Metrology for Electromagnetic Technology: A Bibliography of NIST Publications.
PB94-159761 *02,116*

Transmission/Reflection and Short-Circuit Line Methods for Measuring Permittivity and Permeability.
PB94-165537 *02,211*

Bibliography of the NIST Electromagnetic Fields Division Publications.
PB94-165990 *01,875*

NIST 30 MHz Linear Measurement System.
PB94-169752 *02,020*

Null-Balanced Total-Power Radiometer System NCS1.
PB94-169778 *02,021*

Electric-Field Strengths Measured Near Personal Transceivers.
PB94-172020 *01,564*

Lead Abatement in Buildings and Related Structures.
PB94-172038 *03,601*

Leakage Current Detection in Cryogenic Current Comparator Bridges.
PB94-172228 *02,024*

Effect of DC Tests on Induced Space Charge.
PB94-172350 *02,212*

Investigation of the Effects of Aging on the Calibration of a Kerr-Cell Measuring System for High Voltage Impulses.
PB94-172384 *02,025*

Intercomparison of NIST, NPL, PTB, and VSL Thermal Voltage Converters from 100 kHz to 1 MHz.
PB94-172442 *02,026*

Intercomparison of Thermal Converters at NIM, NIST, PTB, SIRI and VSL from 10 to 100 MHz.
PB94-172459 *02,027*

Planar Near-Field Alignment.
PB94-172491 *01,998*

Comparative Measurements of High-Voltage Impulses Using a Kerr Cell and a Resistor Divider.
PB94-172582 *02,028*

Time Scale Algorithm for Post-Processing: AT1 Plus Frequency Variance.
PB94-172772 *01,525*

Reciprocity Relations in Waveguide Junctions.
PB94-172814 *02,213*

Advanced Components for Electric and Hybrid Electric Vehicles. Workshop Proceedings. Held in Gaithersburg, Maryland on October 27-28, 1993.
PB94-177060 *04,858*

Time-Domain Measurements of the Electromagnetic Backscatter of Pyramidal Absorbers and Metallic Plates.
PB94-185410 *01,877*

Standard Probes for Electromagnetic Field Measurements.
PB94-185436 *01,999*

Approach to Setting Performance Requirements for Automated Evaluation of the Parameters of High-Voltage Impulses.
PB94-185634 *01,878*

Coaxial Reference Standard for Microwave Power.
PB94-193786 *01,880*

Automatic Inductive Voltage Divider Bridge Operates from 10 Hz to 100 kHz.
PB94-198413 *02,032*

Spatial Dependence of Electrical Fields Due to Space Charges in Films of Organic Dielectrics Used for Insulation of Power Cables.
PB94-199130 *02,214*

Quantized Dissipation of the Quantum Hall Effect at High Currents.
PB94-199395 *04,472*

NIST Capacitance Measurement Assurance Program (MAP).
PB94-200060 *02,254*

Faraday Effect Current Sensors.
PB94-200698 *02,127*

Measurements of Shielding Effectiveness and Cavity Characteristics of Airplanes.
PB94-210051 *00,030*

Longterm Changes of Silicon Photodiodes and Their Use for Photometric Standardization.
PB94-211349 *04,234*

Currents Induced on Multiconductor Transmission Lines by Radiation and Injection.

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, July to September 1994 with 1994/1995 EEEL Events Calendar.
PB95-170395 *02,360*

Gradiometer Antennas for Detection of Long Subsurface Conductors.
PB95-175667 *01,862*

Aperture Excitation of Electrically Large, Lossy Cavities.
PB95-175675 *00,031*

Phase Locking in Two-Junction Systems of High-Temperature Superconductor-Normal Metal-Superconductor Junctions.
PB95-176053 *02,060*

On-Wafer Impedance Measurement on Lossy Substrates.
PB95-176285 *02,365*

Electronic Mode Stirring for Reverberation Chambers.
PB95-180329 *01,908*

Crosstalk between Microstrip Transmission Lines. (NIST Reprint).
PB95-180337 *02,225*

Dual Frequency mm-Wave Radiometer Antenna for Airborne Remote Sensing of Atmosphere and Ocean.
PB95-180378 *02,006*

Large-Amplitude Shapiro Steps and Self-Field Effects in High-Tc Josephson Weak Links.
PB95-180410 *04,682*

Dielectric Properties of Single Crystals of Al2O3, LaAlO3, SrTiO3, and MgO at Cryogenic Temperatures.
PB95-180477 *02,266*

Physics and Chemistry of Partial Discharge and Corona: Recent Advances and Future Challenges.
PB95-181046 *01,910*

Practical Standards for PM and AM Noise at 5, 10 and 100 MHz.
PB95-181129 *01,546*

Assessment of Data by a Second-Order Transfer Function.
PB95-182390 *03,760*

Evaluation of the Economic Impacts Associated with the NIST Power and Energy Calibration Services.
PB95-188850 *02,461*

10 kV DC Resistive Divider Calibration.
PB95-198685 *02,063*

Electromagnetic Shielding Characterization of Gaskets.
PB95-198917 *01,911*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, July to September 1994 with 1995 EEEL Events Calendar.
PB95-198925 *01,912*

Method to Determine the Calorimetric Equivalence Correction for a Coaxial Microwave Microcalorimeter.
PB95-202404 *01,913*

Developing a NIST Coaxial Microwave Power Standard at 1 mW.
PB95-202412 *01,914*

Dielectric Properties of Materials at Cryogenic Temperatures and Microwave Frequencies.
PB95-202610 *02,369*

Casual Regularizing Deconvolution Filter for Optimal Waveform Reconstruction.
PB95-203089 *01,603*

Integral Occurring in Coherence Theory.
PB95-203550 *04,324*

Proposed Analysis of RCS Measurement Uncertainty.
PB95-203568 *01,871*

Accurate Measurement of Optical Detector Nonlinearity.
PB95-203576 *02,181*

Droplet Transfer Modes for a MIL 100S-1 GMAW Electrode.
PB95-209300 *02,867*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, January to March 1992, with 1992/1993 EEEL Events Calendar.
PB95-210480 *01,917*

Polarimetric Calibration of Reciprocal-Antenna Radars.
PB95-216925 *01,872*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, January to March 1995 with 1995 EEEl Events Calendar.
PB95-242277 *02,373*

SF6 Insulation: Possible Greenhouse Problems and Solutions.
PB95-251625 *02,269*

Low-Frequency Model for Radio-Frequency Absorbers.
PB95-261939 *04,424*

Using Quantized Breakdown Voltage Signals to Determine the Maximum Electric Fields in a Quantum Hall Effect Sample.
PB95-261947 *02,375*

Standard Antennas for Electromagnetic Interference Measurements and Methods to Calibrate Them.
PB96-102561 *02,007*

Comments on 'Conversions between S, Z, Y, h, ABCD, and T Parameters Which Are Valid for Complex Source and Load Impedances'.
PB96-102785 *02,069*

Effect of Electrode Material on Measured Ion Energy Distributions in Radio-Frequency Discharges.
PB96-102850 *04,026*

Ion Kinetic-Energy Distributions and Balmer-alpha (Halpha) Excitation in Ar-H2 Radio-Frequency Discharges.
PB96-102959 *04,029*

Time Generation and Distribution.
PB96-103049 *01,550*

Digital Impedance Bridge.
PB96-103155 *02,272*

Spherical-Wave Source-Scattering Matrix Analysis of Antennas and Antenna-Antenna Interactions.
PB96-111166 *02,008*

Relative Accuracy of Isolated and Unisolated Noise Comparison Radiometers.
PB96-111851 *01,924*

Measurements of Permittivity and the Dielectric Loss Tangent of Low Loss Dielectric Materials with a Dielectric Resonator Operating on the Higher Order Te(sub 0 gamma delta) Modes.
PB96-111869 *02,273*

Kinetic Energy Distribution of Ions Produced from Townsend Discharges in Neon and Argon.
PB96-111927 *04,413*

Uncertainties of the NIST Coaxial Noise Calibration System.
PB96-111984 *02,070*

Distribution of Dielectric Relaxation Times and the Moment Problem.
PB96-112032 *04,727*

Continuous Recording and Stochastic Analysis of PD.
PB96-112156 *01,925*

Binary versus Decade Inductive Voltage Divider Comparison and Error Decomposition.
PB96-112263 *02,071*

Surging the Upside-Down House: Looking into Upsetting Reference Voltages.
PB96-112313 *02,385*

Gaseous Electronics Conference RF Reference Cell: An Introduction.
PB96-113329 *02,387*

Studies of Ion Kinetic-Energy Distributions in the Gaseous Electronics Conference RF Reference Cell.
PB96-113360 *02,391*

Microwave Diagnostic Results from the Gaseous Electronics Conference RF Reference Cell.
PB96-113378 *02,392*

Two-Dimensional Self-Consistent Radio Frequency Plasma Simulations Relevant to the Gaseous Electronics Conference RF Reference Cell.
PB96-113436 *02,398*

Screened-Room Measurements on the NIST Spherical-Dipole Standard Radiator.
PB96-113568 *01,926*

Display-Measurement Round-Robin.
PB96-119227 *02,186*

Gaseous Dielectrics Research: Possible SF6 Substitutes.
PB96-119268 *02,228*

High-Temperature Superconductor Cryogenic Current Comparator.
PB96-119334 *02,074*

Perception of Clamp Noise in Television Receivers.
PB96-119433 *01,489*

Progress on the Quantized Hall Resistance Recommended Intrinsic/Derived Standards Practice.
PB96-122460 *02,403*

Standardised Computer Data File Format for Storage, Transport, and Off-Line Processing of Partial Discharge Data.
PB96-122486 *01,930*

Constant Temperature and Humidity Chamber for Standard Resistors.
PB96-122494 *02,275*

Programmable Guarded Coaxial Connector Panel.
PB96-122544 *02,108*

Microwave Characterization of Printed Circuit Transmission Lines.
PB96-122585 *02,077*

Modification of Cast Epoxy Resin Surfaces during Exposure to Partial Discharges.
PB96-122734 *01,086*

Influence of Surface Charge on the Stochastic Behavior of Partial Discharge in Dielectrics.
PB96-122767 *01,931*

Comment and Discussion on Digital Processing of PD Pulses.
PB96-122775 *01,932*

Electromagnetic Properties of Materials: The NIST Metrology Program.
PB96-122791 *01,933*

Open-Ended Coaxial Probes for Nondestructive Testing of Substrates and Circuit Boards.
PB96-122825 *02,078*

Bounds on Frequency Response Estimates Derived from Uncertain Step Response Data.
PB96-122874 *03,419*

Methods for Aligning the NIST Watt-Balance.
PB96-123153 *01,934*

Influence of Electrode Material on Measured Ion Kinetic-Energy Distributions in Radio-Frequency Discharges.
PB96-123179 *01,935*

Kinetic Energy Distributions of H(+), H2(+), and H3(+) from a Diffuse Townsend Discharge in H2 at High E/N.
PB96-123351 *04,415*

Fundamental Processes in Gas Discharges.
PB96-123450 *01,089*

Keeping Up with the Reality of Today's Surge Environment.
PB96-123633 *02,231*

Ion Kinetics and Symmetric Charge-Transfer Collisions in Low-Current, Diffuse (Townsend) Discharges in Argon and Nitrogen.
PB96-123658 *04,051*

Refraction of Light by Graded Birefringent Media.
PB96-123716 *02,192*

Kinetic-Energy Distributions of Ions Sampled from Radio-Frequency Discharges in Helium, Nitrogen, and Oxygen.
PB96-123732 *01,092*

Development of Near-Field Test Procedures for Communication Satellite Antennas.
PB96-135082 *02,010*

Analysis of an Open-Ended Coaxial Probe with Lift-Off for Nondestructive Testing.
PB96-135116 *01,940*

LRM Probe-Tip Calibrations Using Nonideal Standards.
PB96-135389 *02,411*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, April to June 1995 with 1995 EEEL Events Calendar.
PB96-137187 *01,941*

Microwave Dielectric Properties of Anisotropic Materials at Cryogenic Temperatures.
PB96-137765 *02,412*

Accurate Computations of Radar Cross Sections of Simple Objects.
PB96-138474 *04,426*

Alternative Contour Technique for the Efficient Computation of the Effective Length of an Antenna.
PB96-141361 *02,011*

Electric Dipole Excitation of a Long Conductor in a Lossy Medium.
PB96-146675 *04,058*

Evidence for Inelastic Processes for N(+)3 and N(+)4 from Ion Energy Distributions in He/N2 Radio Frequency Glow Discharges.
PB96-146683 *04,059*

Comparison of k-Correction and Taylor-Series Correction for Probe-Position Errors in Planar Near-Field Scanning.
PB96-147137 *02,012*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, July to September 1995 with 1996 EEEL Events Calendar.
PB96-147905 *01,942*

Technical Impact of the NIST Calibration Service for Electrical Power and Energy.
PB96-147913 *02,462*

Partially Coherent Transmittance of Dielectric Lamellae.
PB96-148028 *04,359*

Accuracy in Time Domain Transmission Line Measurements.
PB96-148069 *04,060*

Spatial Correlation Function for Fields in a Reverberation Chamber.
PB96-148077 *04,427*

AC-DC Difference Characteristics of High-Voltage Thermal Converters.
PB96-148093 *02,083*

Performance of Multilayer Thin-Film Multijunction Thermal Converters.
PB96-148135 *02,084*

High-Speed Interconnection Characterization Using Time Domain Network Analysis.
PB96-148176 *04,061*

TEM/Reverberating Chamber Electromagnetic Radiation Test Facility at Rome Laboratory.
PB96-155023 *03,675*

Catalogue of Electromagnetic Environment Measurements, 30-300 Hz.
PB96-155452 *01,943*

Investigation of S2F10 Production and Mitigation in Compressed SF6- Insulated Power Systems.
PB96-155528 *02,468*

Precision Tests of a Quantum Hall Effect Device DC Equivalent Circuit Using Double-Series and Triple-Series Connections.
PB96-159256 *01,953*

Radiated Emissions and Immunity of Microstrip Transmission Lines: Theory and Measurements.
PB96-162649 *02,238*

Accurate Electrical Characterization of High-Speed Interconnections.
PB96-167143 *02,240*

Planar Near-Field Measurements and Microwave Holography for Measuring Aperture Distribution on a 60 GHz Active Array Antenna.
PB96-167366 *03,762*

NIST Measurement Assurance Program for Capacitance Standards at 1 kHz.
PB96-172333 *02,276*

Dimensional Characterization of Precision Coaxial Transmission Line Standards.
PB96-176482 *02,241*

Electrical Characteristics of Argon Radio Frequency Glow Discharges in an Asymmetric Cell.
PB96-176490 *04,109*

Implementation of a Standard Format for GPS Common View Data.
PB96-176581 01,555

Line-Reflect-Match Calibrations with Nonideal Microstrip Standards.
PB96-176599 02,242

Microwave Characterization of Flip-Chip MMIC Components.
PB96-176722 02,434

Evidence That Voltage Rather Than Resistance is Quantized in Breakdown of the Quantum Hall Effect.
PB96-179163 01,868

Surging the Upside-Down House: Measurements and Modeling Results.
PB96-180138 02,243

Complicated Cases and Shielded Rooms: Audiometric Booths Shielded to Attenuate Electromagnetic Interference.
PB96-180179 02,278

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, July to September 1995 with 1996 EEEL Events Calendar.
PB96-183066 01,965

Standard Source Method for Reducing Antenna Factor Errors in Shielded Room Measurements.
PB96-183157 02,013

Electrohydrodynamic Instability and Electrical Discharge Initiation in Hexane.
PB96-186119 02,244

Dielectric and Magnetic Measurements from -50C to 200C and in the Frequency Band 50 MHz to 2 GHz.
PB96-191382 02,245

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, January to March 1996, with 1996 EEEL Events Calendar.
PB96-191390 01,969

Coaxial Line-Reflect-Match Calibration.
PB96-200118 02,246

Methodology for Electromagnetic Interference Measurements.
PB96-200126 02,014

Alternative EMC Compliance Test Facilities.
PB96-200324 02,247

Comparison of Ultralow-Sidelobe-Antenna Far-Field Patterns Using the Planar-Near-Field Method and the Far-Field Method.
PB96-200373 02,015

General Order 'N' Analytic Correction of Probe-Position Errors in Planar Near-Field Measurements.
PB96-200688 01,562

Polarimetric Calibration of Reciprocal-Antenna Radars.
PB96-200696 02,016

100 A, 100 kHz Transconductance Amplifier.
PB96-200936 02,098

Quantum Hall Effect-Based Resistance Standard (Quantum Hall Res).
PB96-200944 04,127

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, October to December 1995, with 1996 EEEL Events Calendar.
PB96-202346 01,978

Correlations between Electrical and Acoustic Detection of Partial Discharge in Liquids and Implications for Continuous Data Recording.
PB96-204490 02,248

Rapid Evaluation of Mode-Stirred Chambers Using Impulsive Waveforms.
PB96-210026 01,979

Bibliography of the NIST Electromagnetic Fields Division Publications.
PB96-210778 01,980

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, January to March 1996, with 1996 EEEL Events Calendar.
PB96-214622 01,981

NIST High-Accuracy Sampling Wattmeter.
PB97-108575 02,689

Causality and Maxwell's Equations.
PB97-110522 04,429

Point Charges, Radiation Reaction, and Quantum Mechanics.
PB97-110563 04,139

Quantum Conductance Fluctuations in the Larger-Size-Scale Regime.
PB97-111264 04,144

Proposed Tests to Evaluate the Frequency-Dependent Capacitor Ratio for Single Electron Tunneling Experiment.
PB97-111454 01,982

Uncertainties of Frequency Response Estimates Derived from Responses to Uncertain Step-Like Inputs.
PB97-111843 01,984

Resistors.
PB97-111876 02,284

Loading Effects in Resistance Scaling.
PB97-111884 02,285

Low Thermal Guarded Scanner for High Resistance Measurement Systems.
PB97-112452 02,288

Exploring the Low-Frequency Performance of Thermal Converters Using Circuit Models and a Digitally Synthesized Source.
PB97-112551 02,848

Low Voltage Standards in the 10 Hz to 1 MHz Range.
PB97-112569 02,100

Wideband Sampling Voltmeter.
PB97-113039 01,990

DC-MHz Wattmeter Based on RMS Voltage Measurements.
PB97-113211 01,992

Magnetometer Calibration Services.
PB97-113252 01,993

Results of Capacitance Ratio Measurements for the Single Electron Pump-Capacitor Charging Experiment.
PB97-113286 04,813

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, April to June 1996 with 1996-1998 EEEL Events Calendar.
PB97-113880 01,994

Metrology for Electromagnetic Technology: A Bibliography of NIST Publications.
PB97-116057 04,396

Conversion of a 2-Terminal-Pair Bridge to a 4-Terminal-Pair Bridge for Increased Range and Precision in Impedance Measurements.
PB97-119176 02,103

NIST Comparison of the Quantized Hall Resistance and the Realization of the SI Ohm Through the Calculable Capacitor. Conference Proceedings, June 17-20, 1996.
PB97-119192 02,292

Active High Voltage Divider with 20-PPM Uncertainty.
PB97-119317 02,104

NIST Watt Experiment: Monitoring the Kilogram.
PB97-122329 01,997

ELECTROMAGNETIC NOISE

Terminal Invariant Description of Amplifier Noise.
PB95-153573 02,043

Relationship of AM to PM Noise in Selected RF Oscillators.
PB95-169009 02,262

Investigations of AM and PM Noise in X-Band Devices.
PB95-180022 02,062

Secondary Standard for PM and AM Noise at 5, 10, and 100 MHz.
PB96-123187 01,554

Origin of I/f PM and AM Noise in Bipolar Junction Transistor Amplifiers.
PB96-200787 02,096

Reducing the 1/f AM and PM Noise in Electronics for Precision Frequency Metrology.
PB97-113195 02,102

ELECTROMAGNETIC NOISE MEASUREMENT

Broadband Mismatch Error in Noise Measurement Systems.
PB95-162061 02,044

Comparison of Three Techniques for the Precision Measurement of Amplifier Noise.
PB95-163663 02,349

Measurement Accuracies for Various Techniques for Measuring Amplifier Noise.
PB95-163671 02,350

Radiometer Equation for Noise Comparison Radiometers.
PB96-140363 02,195

ELECTROMAGNETIC PROPERTIES

Substrate and Thin Film Measurements.
PB96-112297 02,384

Electromagnetic Properties of Materials: The NIST Metrology Program.
PB96-122791 01,933

NIST Metrology Program on Electromagnetic Characterization of Materials.
PB96-156062 01,944

ELECTROMAGNETIC SCATTERING

Time-Domain Measurements of the Electromagnetic Backscatter of Pyramidal Absorbers and Metallic Plates.
PB94-185410 01,877

Electromagnetic Scattering by a Periodic Surface with a Wedge Profile.
PB94-211950 04,421

Alternative Single Integral Equation for Scattering by a Dielectric.
PB94-216512 04,422

Comments on 'Protecting EFIE-Based Scattering Computations from Effects of Internal Resonances'.
PB95-161568 01,898

Study of Multiple Scattering Background in Compton Scatter Imaging.
PB96-112222 04,425

Hypersingular Single Integral Equation and the Dielectric Wedge.
PB97-110274 04,428

Causality and Maxwell's Equations.
PB97-110522 04,429

Electromagnetic Scattering from a Dielectric Wedge and the Single Hypersingular Integral Equation.
PB97-110530 04,430

Numerical Evaluation of Hypersingular Integrals for Scattering by a Dielectric Wedge.
PB97-110555 02,017

Sinusoidal Surfaces as Standards for BRDF Instruments.
PB97-110597 04,388

Numerical Reference Models for Optical Metrology Simulation.
PB97-111330 04,392

ELECTROMAGNETIC SHIELDING

Aperture Excitation of Electrically Large, Lossy Cavities.
PB94-145711 00,029

Measurements of Shielding Effectiveness and Cavity Characteristics of Airplanes.
PB94-210051 00,030

Aperture Coupling to a Coaxial Air Line: Theory and Experiment.
PB94-211968 02,216

Aperture Excitation of Electrically Large, Lossy Cavities.
PB95-175675 00,031

Electromagnetic Shielding Characterization of Gaskets.
PB95-198917 01,911

Band-Limited, White Gaussian Noise Excitation for Reverberation Chambers and Applications to Radiated Susceptibility Testing.
PB96-165410 01,960

Complicated Cases and Shielded Rooms: Audiometric Booths Shielded to Attenuate Electromagnetic Interference.
PB96-180179 02,278

ELECTROMAGNETIC SUSCEPTIBILITY

Band-Limited, White Gaussian Noise Excitation for Reverberation Chambers and Applications to Radiated Susceptibility Testing.
PB96-165410 01,960

ELECTROMAGNETIC TESTING

TEM/Reverberating Chamber Electromagnetic Radiation Test Facility at Rome Laboratory.
PB96-155023 03,675

ELECTROMAGNETIC THEORY

Effective Medium Theory for Ferrite-Loaded Materials.
PB95-154662 01,893

ELECTROMANGETIC ACOUSTIC TRANSDUCERS

Methods to Improve the Accuracy of On-Line Ultrasonic Measurement of Steel Sheet Formability.
PB96-186051 02,281

ELECTROMECHANICAL DEVICES

Test Structures for Determining Design Rules for Microelectromechanical-Based Sensors and Actuators.
PB95-150488 02,105

ELECTROMECHANICS

Electromechanical Properties of Superconductors for DOE Fusion Applications.
PB94-139672 02,250

ELECTROMETERS

Cryogenic Precision Capacitance Bridge Using a Single Electron Tunneling Electrometer.
PB95-126074 04,529

Noise in the Coulomb Blockade Electrometer.
PB95-176327 04,670

Cryogenic Precision Capacitance Bridge Using a Single Electron Tunneling Electrometer.
PB96-112271 02,072

ELECTRON-ATOM COLLISIONS

Determination of Atomic Data Pertinent to the Fusion Energy Program. Progress Report for FY 92.
DE94004400 04,402

Electron-atom collision studies using optically state selected beams. Progress report, May 15, 1987--May 14, 1988.
DE95004446 03,776

Electron-@tom collision studies using optically state selected beams. Progress report, May 15, 1988--May 14, 1991.
DE95004447 03,777

Can Quantum Mechanical Description of Electron-Sodium Collisions Be Considered Complete. Present Status and Future Prospects for 3s <-> 3p Transitions.
PB94-185014 00,768

Low-Energy Electron Scattering from Caesium Atoms: Comparison of a Semirelativistic Breit-Pauli and a Full Relativistic Direc Treatment.
PB94-185030 00,769

Angular Distributions for Near-Threshold (e,2e) Processes for Li and Mg.
PB94-185725 00,778

Characteristics of Light Emission After Low-Energy Electron Impact Excitation of Caesium Atoms.
PB94-198587 03,806

Determination of Complex Scattering Amplitudes in Low-Energy Elastic Electron-Sodium Scattering.
PB94-216652 03,869

Relativistic Effects in Spin-Polarization Parameters for Low-Energy Electron-Cs Scattering.
PB95-150868 03,901

High-Precision Calculations of Cross Sections for Low-Energy Electron Scattering by Ground and Excited State of Sodium.
PB95-152161 *03,914*

Semiclassical Explanation of the Generalized Ramsauer-Townsend Minima in Electron-Atom Scattering.
PB95-153532 *03,925*

Spin-Resolved Elastic Scattering of Electrons from Sodium.
PB95-161774 *03,933*

Connection between Superelastic and Inelastic Electron-Atom Collisions Involving Polarized Collision Partners.
PB95-202297 *03,974*

Threshold Electron Excitation of Na.
PB95-202917 *03,994*

Charge Cloud Distribution of Heavy Atoms After Excitation by Polarized Electrons.
PB95-203147 *04,001*

Angle-Differential and Momentum-Transfer Cross Sections for Low-Energy Electron-Cs Scattering.
PB95-203402 *04,005*

Relativistic R-Matrix Calculations for Electron - Alkali-Metal-Atom Scattering: Cs as a Test Case.
PB95-203410 *04,006*

Low-Energy-Electron Collisions with Sodium: Elastic and Inelastic Scattering from the Ground State.
PB96-103106 *04,030*

ELECTRON ATTACHMENT

Associative Electron Attachment to S2F10, S2OF10, and S2O2F10.
PB95-140992 *00,907*

Electron Attachment to Excited Molecules(1).
PB96-122809 *01,087*

Dependence of the Thermal Electron Attachment Rate Constant in Gases and Liquids on the Energy Position of the Electron Attaching State.
PB97-122253 *01,996*

ELECTRON-BEAM HEATING

Closed Loop Controller for Electron-Beam Evaporators.
PB97-111470 *04,393*

ELECTRON BEAM ION TRAP (EBIT)

Observation and Visible and uv Magnetic Dipole Transitions in Highly Charged Xenon and Barium.
PB96-138441 *04,056*

Polarization Measurements on a Magnetic Quadrupole Line in Ne-Like Barium.
PB97-113104 *04,161*

ELECTRON BEAMS

New Method for Shielding Electron Beams Used for Head and Neck Cancer Treatment.
PB94-211430 *03,621*

Crystal Structure of Annealed and As-Prepared HgBa2CaCu2O6+delta Superconductors.
PB95-161105 *03,927*

Angular Variation of the Personal Dose Equivalent, Hp(0.07), for Beta Radiation and Nearly Monoenergetic Electron Beams: Preliminary Results.
PB95-168472 *03,630*

Planar Lenses for Field-Emitter Arrays.
PB96-103064 *02,112*

Calorimeters for Calibration of High-Dose Dosimeters in High-Energy Electron Beams.
PB96-135272 *04,055*

Journal of Research of the National Institute of Standards and Technology, January/February 1996. Volume 101, Number 1.
PB96-175666 *00,113*

ELECTRON CAPTURE

Dielectronic Capture Processes in the Electron-Impact Ionization of Sc(2+).
PB95-203113 *04,000*

ELECTRON CAPTURE DECAY

Alpha-Particle and Electron Capture Decay of (209)Po.
PB96-186085 *04,119*

ELECTRON CHARGE

Cryogenic Precision Capacitance Bridge Using a Single Electron Tunneling Electrometer.
PB95-126074 *04,529*

ELECTRON CLOUDS

Electrostatic Modes as a Diagnostic in Penning-Trap Experiments.
PB95-176244 *03,959*

ELECTRON COLLISIONS

Calculations of Electron Inelastic Mean Free Paths. 5. Data for 14 Organic Compounds over the 50-2000 eV Range.
PB95-150355 *00,916*

Calculations of Electron Inelastic Mean Free Paths (IMFPs). 4. Evaluation of Calculated IMFPs and of the Predictive IMFP Formula TPP-2 for Electron Energies between 50 and 2000 eV.
PB95-150728 *00,922*

ELECTRON CONFIGURATION

Designations of ds(2)p Energy Levels in Neutral Zirconium, Hafnium, and Rutherfordium (Z=104).
PB96-180120 *04,116*

ELECTRON CORRELATION

Relativistic Modifications of Charge Expansion Theory.
PB96-123799 *04,052*

ELECTRON DENSITY

Cooper M(sub II,III) X-ray-Emission Spectra of Copper Oxides and the Bismuth Cuprate Superconductor.
PB96-158027 *04,077*

ELECTRON DENSITY (CONCENTRATION)

Construction of Maximum-Entropy Density Maps, and Their Use in Phase Determination and Extension.
PB95-108593 *00,882*

ELECTRON DETACHMENT

Resonant Two-Color Detachment of H(-) with Excitation of H(n=2).
PB95-202552 *03,984*

Short-Pulse Detachment of H(-) in the Presence of a Static Electric Field.
PB95-203477 *04,007*

ELECTRON DIFFUSION CONSTANT

Measurement of the Weak-Localization Complex Conductivity at 1 Ghz in Disordered Ag Wires.
PB96-117239 *04,731*

ELECTRON DOSIMETRY

Electron and Proton Dosimetry with Custom-Developed Radiochromic Dye Films.
PB95-151106 *03,713*

Calibration of Dosimeters for the Cryogenic Irradiation of Composite Materials Using an Electron Beam.
PB95-180964 *03,968*

ELECTRON-ELECTRON INTERACTIONS

Electron-electron Interactions, Coupled-Plasmon-Phonon Modes, and Mobility in n-Type GaAs.
PB96-138524 *04,749*

ELECTRON-ION COLLISIONS

Determination of Atomic Data Pertinent to the Fusion Energy Program. Progress Report for FY 92.
DE94004400 *04,402*

Electron-Impact Ionization of In(+) and Xe(+).
PB94-185089 *00,770*

Backscattering in Electron-Impact Excitation of Multiply Charged Ions.
PB94-185345 *03,799*

Absolute Cross-Section Measurements for Electron-Impact Ionization of C1(+1).
PB94-199841 *03,818*

Evidence for Significant Backscattering in Near-Threshold Electron-Impact Excitation of Ar(7+)(3s yields 3p).
PB95-126405 *03,883*

Electron-Impact Excitation of Si(3+)(3S yields 3P) Using a Merged-Beam Electron-Energy-Loss Technique.
PB95-151239 *03,904*

Electron-Impact Ionization of In(+) and Xe(+).
PB95-152906 *03,918*

Resonance Structure and Absolute Cross Sections in Near-Threshold Electron-Impact Excitation of the 4s(2)(1)S yields 4s4p (3)P Intercombination Transition in Kr(6+).
PB95-202271 *03,972*

Absolute Cross-Section Measurements for Electron-Impact Single Ionization of Se(+) and Te(+).
PB95-202503 *03,980*

Crossed-Beams Measurements of Absolute Cross Sections for Electron Impact Ionization of S(+).
PB95-202511 *03,981*

Absolute Cross Sections for Electron-Impact Single Ionization of Si(+) and Si(2+).
PB95-202529 *03,982*

Dielectronic Capture Processes in the Electron-Impact Ionization of Sc(2+).
PB95-203113 *04,000*

Electron-Ion Collisions in the Plasma Edge.
PB96-111885 *04,037*

Collisions of Electrons with Highly-Charged Ions.
PB96-200340 *04,791*

ELECTRON-ION COUPLING

Merged-Beams Energy-Loss Technique for Electron-Ion Excitation: Absolute Total Cross Sections for O(5+) (2s yields 2p).
PB96-102058 *04,017*

ELECTRON MICROPROBE ANALYSIS

Study of Diffusion Zones with Electron Microprobe Compositional Mapping.
PB94-216348 *00,559*

ELECTRON MICROSCOPES

Surface Magnetic Microstructural Analysis Using Scanning Electron Microscopy with Polarization Analysis (SEMPA).
PB95-162657 *03,938*

Fabrication Issues for the Prototype National Institute of Standards and Technology SRM 2090A Scanning Electron Microscope Magnification Calibration Standard.
PB96-160585 *01,131*

Scanning Electron Microscope Magnification Calibration Interlaboratory Study.
PB96-201082 *01,164*

ELECTRON MICROSCOPY

Characterization of the Binding of Gallium, Platinum, and Uranium to Pseudomonas Fluorescens by Small-Angle X-ray Scattering and Transmission Electron Microscopy.
PB94-172509 *03,453*

Domain Structures in Magnetoresistive Granular Metals.
PB96-141346 *04,760*

ELECTRON MOBILITY

Majority and Minority Mobilities in Heavily Doped Silicon for Device Simulations.
PB94-198728 *02,311*

Majority and Minority Electron and Hole Mobilities in Heavily Doped Gallium Aluminum Arsenide.
PB97-118335 *04,814*

ELECTRON-MOLECULE COLLISIONS

Associative Electron Attachment to S2F10, S2OF10, and S2O2F10.
PB95-140992 *00,907*

Electron Scattering and Dissociative Attachment by SF6 and Its Electrical-Discharge By-Products.

High-Precision Calculations of Cross Sections for Low-Energy Electron Scattering by Ground and Excited State of Sodium.
PB95-152161 *03,914*

Elastic-Electron-Scattering Effects on Angular Distributions in X-ray Photoelectron Spectroscopy.
PB95-175758 *01,000*

Total-Dielectric-Function Approach to Electron and Phonon Response in Solids.
PB96-102884 *01,067*

Intensity-Dependent Scattering Rings in High Order Above-Threshold Ionization.
PB96-110739 *04,032*

Electron-electron Interactions, Coupled-Plasmon-Phonon Modes, and Mobility in n-Type GaAs.
PB96-138524 *04,749*

ELECTRON SCREENING

Electron Screening Correction to the Self Energy in High-Z Atoms.
PB94-172376 *03,789*

ELECTRON SPECTROMETERS
Electron-Ion-X-ray Spectrometer System.
PB95-176137 *03,958*

ELECTRON SPECTROSCOPY
Compositional Analyses of Surfaces and Thin Films by Electron and Ion Spectroscopies.
PB94-185790 *00,779*

ELECTRON SPIN POLARIZATION
Relativistic Effects in Spin-Polarization Parameters for Low-Energy Electron-Cs Scattering.
PB95-150868 *03,901*

ELECTRON SPIN RESONANCE
Experimental assessment of absorbed dose to mineralized bone tissue from internal emitters: An electron paramagnetic resonance study.
DE96007979 *03,614*

ESR-Based Analysis in Radiation Processing.
PB95-161634 *03,931*

ELECTRON STATES
Self-Consistent 'GW' and Higher-Order Calculations of Electron States in Metals.
PB97-119341 *01,189*

ELECTRON STRUCTURE
Soft-X-ray-Emission Spectra of Solid Kr and Xe.
PB96-157920 *04,070*

ELECTRON TEMPERATURE
Self-Heating in the Coulomb-Blockade Electrometer.
PB94-212685 *04,507*

ELECTRON TRANSFER
Electron Transfer Reaction Rates and Equilibria of the Carbonate and Sulfate Radical Anions.
PB94-212180 *00,829*

Solvent Effects in the Reactions of Peroxyl Radicals with Organic Reductants. Evidence for Proton Transfer Mediated Electron Transfer.
PB95-107157 *00,873*

ELECTRON TRANSITIONS
Resonance Enhanced Multiphoton Ionization Detection of GeF and GeCl Radicals.
PB94-212123 *00,825*

Experimental and Abinitio Studies of Electronic Structures of the CCl3 Radical and Cation.
PB94-212131 *00,826*

Multiphoton Ionization of SiH3 and SiD3 Radicals. 2. Three Photon Resonance-Enhanced Spectra Observed between 460 and 610 nm.
PB94-212487 *00,835*

New Electronic States of NH and ND Observed from 258 to 288 nm by Resonance Enhanced Multiphoton Ionization Spectroscopy.
PB94-212495 *00,836*

Multiphoton Ionization of SiH3 and SiD3 Radicals: Electronic Spectra, Vibrational Analyses of the Ground and Rydberg States, and Ionization Potential.
PB94-212503 *00,837*

ELECTRON TRANSPORT
Buffer Layer Modulation-Doped Field-Effect-Transistor Interactions in the Al0.33Ga0.67As/GaAs Superlattice System.
PB96-102876 *02,380*

ELECTRON TRAPS
Evidence for a Deep Electron Trap and Charge Compensation in Separation by Implanted Oxygen Oxides.
PB95-175337 *02,362*

Electron and Hole Trapping in Irradiated SIMOX, ZMR and BESOI Buried Oxides.
PB96-160320 *01,956*

ELECTRON TUNNELING
Modified Airy Function Method for the Analysis of Tunneling Problems in Optical Waveguides and Quantum Well Structures.
PB94-185824 *02,120*

Insulating Boundary Layer and Magnetic Scattering in YBa2Cu3O7-delta/Ag Interfaces Over a Contact Resistivity Range of 10(-8) - 10(-3) Omega cm(2).
PB95-169157 *04,648*

Thermal Enhancement of Cotunneling in Ultra-Small Tunnel Junctions.
PB95-175436 *04,658*

Application of Single Electron Tunneling: Precision Capacitance Ratio Measurements.
PB96-102157 *04,703*

Results of Capacitance Ratio Measurements for the Single Electron Pump-Capacitor Charging Experiment.
PB97-113286 *04,813*

ELECTRON TUNNELING SPECTROSCOPY
Tunneling Spectroscopy of Thallium-Based High-Temperature Superconductors.
PB95-161709 *04,606*

ELECTRON WITHDRAWING GROUPS
Carbon Acidities of Aromatic Compounds. 1. Effects of In-Ring Aza and External Electron-Withdrawing Groups.

PB94-200409 *01,882*

Test Structures for the In-Plane Locations of Projected Features with Nanometer-Level Accuracy Traceable to a Coordinate Measurement System.
PB94-200565 *02,313*

Survey on the Implementation of ISO/IEC Guide 25 by National Laboratory Accreditation Programs.
PB94-210150 *00,479*

Half-Integral Constant Voltage Steps in High-Tc Grain Boundary Junctions.
PB94-211216 *04,489*

Investigation of the Drive Circuit Requirements for the Power Insulated Gate Bipolar Transistor (IGBT).
PB94-211794 *02,316*

Aperture Coupling to a Coaxial Air Line: Theory and Experiment.
PB94-211968 *02,216*

Investigation of S2F10 Production and Mitigation in Compressed SF6-Insulated Power Systems.
PB94-212388 *02,467*

Multicarrier Characterization Method for Extracting Mobilities and Carrier Densities of Semiconductors from Variable Magnetic Field Measurements.
PB94-212776 *02,317*

High-Spatial-Resolution Resistivity Mapping Applied to Mercury Cadmium Telluride.
PB94-212917 *02,131*

Review of Semiconductor Microelectronic Test Structures with Applications to Infrared Detector Materials and Processes.
PB94-212925 *02,132*

Defect of Thermal Ramping and Annealing Conditions on Defect Formation in Oxygen Implanted Silicon-On-Insulator Material.
PB94-212966 *02,318*

Precision, Accuracy, Uncertainty and Traceability and Their Application to Submicrometer Dimensional Metrology.
PB94-213105 *02,319*

Custom Integrated Circuit Comparator for High-Performance Sampling Applications.
PB94-213147 *02,320*

Investigation of Mercury Interstitials in Hg(1-x)CdxTe Alloys Using Resonant Impact-Ionization Spectroscopy.
PB94-213485 *02,133*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, January to March 1994 with 1994/1995 EEEL Events Calendar.
PB94-213774 *01,883*

Heavily Accumulated Surfaces of Mercury Cadmium Telluride Detectors: Theory and Experiment.
PB94-216074 *02,134*

High-Level CAD Melds Micromachined Devices with Foundries.
PB94-216413 *02,321*

Guarding Against Transients.
PB94-216470 *01,623*

Characterization of Interface Defects in Oxygen-Implanted Silicon Films.
PB94-216629 *02,322*

Charge Trapping and Breakdown Mechanism in SIMOX.
PB94-216637 *02,323*

Sources of Uncertainty in a DVM-Based Measurement System for a Quantized Hall Resistance Standard.
PB94-219334 *01,884*

Report on the Workshop on Advanced Digital Video in the National Information Infrastructure. Held in Washington, D.C. on May 10-11, 1994.
PB95-103677 *01,472*

Interface Roughness of Short-Period AlAs/GaAs Superlattices Studied by Spectroscopic Ellipsometry.
PB95-107215 *02,137*

Metrology Model for Submicrometer Dimensional Measurements.
PB95-108502 *02,647*

Practical Photomask Linewidth Measurements.
PB95-108510 *02,324*

Interface Sharpness in Low-Order III-V Superlattices.
PB95-108775 *02,138*

Interface Sharpness during the Initial Stages of Growth of Thin, Short-Period III-V Superlattices.
PB95-108783 *02,139*

User's Manual for the Program MONSEL-1: Monte Carlo Simulation of SEM Signals for Linewidth Metrology.
PB95-111522 *02,325*

Far-Infrared Kinetic Inductance Detector.
PB95-126348 *02,142*

Wide Band Active Current Transformer and Shunt.
PB95-126371 *02,036*

Superconducting Kinetic Inductance Radiometer.
PB95-140083 *02,144*

Metrology Requirements of Future Space Power Systems.

Quest to Understand and Reduce l/f Noise in Amplifiers and Baw Quartz Oscillators.
PB96-200795 *02,097*

Measurements of Properties of Materials in Electronic Packaging.
PB96-200837 *01,973*

Monte Carlo Simulation of Scanning Electron Microscope Signals.
PB96-200969 *02,444*

Software Needs in Special Functions.
PB96-200977 *01,778*

New Oxide Degradation Mechanism for Stresses in the Fowler-Nordheim Tunneling Regime.
PB96-200985 *04,128*

Time-Resolved Measurements of the Polarization State of Four-Wave Mixing Signals from GaAs Multiple Quantum Wells.
PB96-201058 *04,796*

Scanning Electron Microscope Metrology.
PB96-201090 *02,446*

SEM Linewidth Metrology of X-ray Lithography Masks.
PB96-201108 *02,447*

New Physics-Based Model for Time-Dependent- Dielectric-Breakdown.
PB96-201132 *02,448*

NIST/NCMS Program on Electronic Packaging: First Update.
PB96-204086 *03,008*

Electric Field Dependent Dielectric Breakdown of Intrinsic SiO2 Films Under Dynamic Stress.
PB96-204102 *02,449*

Hybrid Optical-Electrical Overlay Test Structure.
PB96-204136 *02,450*

Characterization of Two-Dimensional Dopant Profiles: Status and Review.
PB97-110134 *02,451*

Double Modulation and Selective Excitation Photoreflectance for Characterizing Highly Luminescent Semiconductor Structures and Samples with Poor Surface Morphology.
PB97-111439 *02,452*

Mechanism of Defect Formation in Low-Dose Oxygen Implanted Silicon-on-Insulator Material.
PB97-111462 *02,453*

Transient Errors in a Precision Resistive Divider.
PB97-111512 *01,983*

Electrical Test Structures Replicated in Silicon-on-Insulator Material.
PB97-111827 *02,454*

Optical and Mass Spectrometric Investigations of Ions and Neutral Species in SF6 Radio-Frequency Discharges.
PB97-111918 *01,985*

New Refractometer by Combining a Variable Length Vacuum Cell and a Double-Pass Michelson Interferometer.
PB97-111926 *01,986*

Measurement and Reduction of Alignment Errors of the NIST Watt Experiment.
PB97-111959 *01,987*

Interdigitated Stacked P-I-N Multiple Quantum Well Modulator.
PB97-112296 *02,455*

Development of Thin-Film Multijunction Thermal Converters at NIST.
PB97-112338 *02,286*

High-Current Thin Film Multijunction Thermal Converters and Multi-Converter Modules.
PB97-112379 *01,989*

NIST Watt Balance: Progress Toward Monitoring the Kilogram.
PB97-113062 *01,991*

Frequency Synthesis and Metrology at 10(-17) and Beyond.
PB97-113187 *02,101*

Conformance Testing and Specification Management.
PB97-113781 *02,849*

Majority and Minority Electron and Hole Mobilities in Heavily Doped Gallium Aluminum Arsenide.
PB97-118335 *04,814*

Automated Guarded Bridge for Calibration of Multimegohm Standard Resistors.
PB97-119150 *02,289*

Resistance Measurements from 10 M Omega to 1 T Omega at NIST.
PB97-119168 *02,290*

NIST Comparison of the Quantized Hall Resistance and the Realization of the SI Ohm Through the Calculable Capacitor.
PB97-119184 *02,291*

Specular and Diffuse Reflection Measurements of Electronic Displays.
PB97-119200 *02,208*

Interface-Filter Characterization of Spectraradiometers and Colorimeters.
PB97-122212 *04,399*

Dependence of the Thermal Electron Attachment Rate Constant in Gases and Liquids on the Energy Position of the Electron Attaching State.
PB97-122253 *01,996*

Survey of the Components of Display-Measurement Standards.
PB97-122394 *02,209*

Characterization of Time-Dependent Dielectric Breakdown in Intrinsic Thin SiO2.
PB97-122527 *02,458*

Capacitors with Very Low Loss: Cryogenic Vacuum-Gap Capacitors.
PB97-122600 *02,293*

ELECTRONIC WORKSHOPS

Electronic Implementors' Workshop.
PB95-210936 *01,484*

ELECTRONICS

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, October to December 1992, with 1992/1993 EEEL Events Calendar.
PB94-165958 *02,299*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, January to March 1992, with 1992/1993 EEEL Events Calendar.
PB95-210480 *01,917*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory

Programs, April to June 1995 with 1995 EEEL Events Calendar.
PB96-137187 01,941

Electronics and Electrical Engineering Laboratory: 1996 Program Plan. Supporting Technology for U.S. Competitiveness in Electronics.
PB96-175237 01,962

ELECTRONICS INDUSTRY

Electronics and Electrical Engineering Laboratory 1994 Program Plan: Supporting Technology for U.S. Competitiveness in Electronics.
PB94-126901 01,873

Electronics and Electrical Engineering Laboratory 1994 Technical Accomplishments Supporting Technology for U.S. Competitiveness in Electronics.
PB95-144309 01,887

Electronics and Electrical Engineering Laboratory 1995 Program Plan. Supporting Technology for U.S. Competitiveness in Electronics.
PB95-159885 01,894

ELECTRONS

Electron-Photon Monte Carlo Calculations: The ETRAN Code.
PB97-110407 04,138

ELECTROOPTICS

Opportunities for Innovation: Optoelectronics.
PB96-118039 01,928

Optoelectronics and Optomechanics Manufacturing: An ATP Focused Program Development. Workshop Proceedings. Held in Gaithersburg, Maryland on February 15, 1995.
PB97-104186 02,204

Bibliography of the NIST Optoelectronics Division.
PB97-116040 02,207

ELECTROPHORESIS

Separation and Identification of Organic Gunshot and Explosive Constituents by Micellar Electrokinetic Capillary Electrophoresis.
PB95-107249 00,566

Standard Reference Material for the Measurement of Particle Mobility by Electrophoretic Light Scattering.
PB96-102488 00,609

ELECTROPHORETIC MOBILITY

Determining Mobility from Homodyne ac Electrophoretic Light Scattering.
PB95-140497 03,462

ELECTROPLATING

Diffusion of Copper into Gold Plating.
PB95-162152 00,957

ELECTROSTATIC MODES

Electrostatic Modes as a Diagnostic in Penning-Trap Experiments.
PB95-176244 03,959

ELECTROSTRICTION

Electric Field Effects on a Near-Critical Fluid in Microgravity.
PB96-161880 04,217

ELEVATOR FIRES

Smoke Control Systems for Elevator Fire Evacuation.
PB94-212883 00,291

ELEVATORS (LIFTS)

Feasibility and Design Considerations of Emergency Evacuation by Elevators.
PB94-163441 00,287

Smoke Control Systems for Elevator Fire Evacuation.
PB94-212883 00,291

Human Factors Considerations for the Potential Use of Elevators for Fire Evacuation of FAA Air Traffic Control Towers.
PB94-217163 01,300

ELLIPSOIDAL MIRROR

Simulations of Neutron Focusing with Curved Mirrors.
PB96-176649 02,200

ELLIPSOMETRY

Structure of the Vapor-Liquid Interface Near the Critical Point.
PB95-140174 00,902

ELLIPTIC DIFFERENTIAL EQUATIONS

Performance Characteristics of Fast Elliptic Solvers on Parallel Platforms.
PB95-180832 01,723

ELLIPTIC-TYPE INTEGRAL

Exact Series Solution to the Epstein-Hubbell Generalized Elliptic Type Integral Using Complex Variable Residue Theory.
PB97-110167 03,423

ELLIPTICAL CONFIGURATION

Near Critical Fluid Interfaces: A Comparison of Theory and Experiment.
PB95-140166 00,901

ELLIPTICAL DISTRIBUTIONS

Principal Points and Self-Consistent Points of Symmetric Multivariate Distributions.
PB96-135090 03,446

EMATS

Well-Shielded EMAT for On-Line Ultrasonic Monitoring of GMA Welding.
PB96-186077 02,879

EMBOSSABLE GRATING

Embossable Grating Couplers for Planar Waveguide Optical Sensors.
PB96-190277 00,641

EMERGENCY PLANNING

Post-Earthquake Fire and Lifelines Workshop. Held in Long Beach, California on January 30-31, 1995. Proceedings.
PB96-117916 00,209

EMERGENCY PREPAREDNESS

Earthquake and Fire in Japan: When the Threat Became a Reality.
PB95-175238 00,201

Impact of the FCC's Open Network Architecture on NS/NP Telecommunications Security.
PB95-189445 01,483

EMISSION

Interaction between Dislocations and Intergranular Cracks.
PB95-152096 03,190

Dislocation Emission at Ledges on Cracks.
PB95-164240 04,630

Resonances in Two-Dimensional Array Oscillator Circuits.
PB96-102082 02,066

EMISSION FACTORS

EMISS: A Program for Estimating Local Air Pollution Emission Factors Related to Energy Use in Buildings: User's Guide and Reference Manual.
PB96-109566 02,560

EMISSION SPECTROSCOPY

Fourier Transform Atomic Emission Studies Using a Glow Discharge as the Emission Source.
PB94-185980 00,533

EMISSION SPECTRUM

Charge-Transfer-Induced Multiplet Structure in the N4,5O2,3 Soft-X-ray Emission Spectrum of Lanthanum.
PB96-163746 04,102

EMISSIONS

Distinguishing the Contributions of Residential Wood Combustion and Mobile Source Emissions Using Relative Concentrations of Dimethylphenanthrene Isomers.
PB96-135124 02,563

Issues in the Field Measurement of VOC Emission Rates.
PB97-118806 02,573

EMISSIVITY

Wavelength Dependence of Normal Spectral Emissivity of High-Temperature Metals at Their Melting Point.
PB94-200011 03,398

Radiance Temperatures (in the Wavelength Range 523-907 nm) of Group IV B Transition Metals Titanium, Zirconium, and Hafnium at Their Melting Points by a Pulse-Heating Technique.
PB96-102207 03,356

EMPIRICAL EQUATIONS

Correlation of the Ideal Gas Properties of Five Aromatic Hydrocarbons.
PB95-175816 01,002

ENAMELS

Adhesion of Composites to Dentin and Enamel.
PB94-199049 00,144

Remineralization of Root Lesions with Concentrated Calcium and Phosphate Solutions.
PB96-102140 03,567

Polymeric Calcium Phosphate Composites with Remineralization Potential.
PB96-155544 03,575

ENANTIOMERIC SEPARATION

Use of a Naphthylethylcarbamoylated- beta-Cyclodextrin Chiral Stationary Phase for the Separation of Drug Enantiomers and Related Compounds by Sub- and Supercritical Fluid Chromatography.
PB97-113260 00,653

ENCAPSULATION

Development of a Test Method for Leaching of Lead from Lead-Based Paints Through Encapsulants.
PB96-154984 03,128

ENCLOSURE FIRES

Reactivity of Product Gases Generated in Idealized Enclosure Fire Environments.
PB95-161790 01,386

Mathematical Modeling and Computer Simulation of Fire Phenomena.
PB95-180063 00,384

END EFFECTS

Optical Fiber Geometry by Gray-Scale Analysis with Robust Regression.
PB95-161519 04,272

END GRAFTED POLYMERS

Neutron Reflectivity of End-Grafted Polymers: Concentration and Solvent Quality Dependence in Equilibrium Conditions.
PB94-185758 01,206

Neutron Reflectivity Study of the Density Profile of a Model End-Grafted Polymer Brush: Influence of Solvent Quality.
PB95-202735 01,274

ENDONUCLEASE III

Substrate Specificity of the Escherichia coli Endonuclease III: Excision of Thymine- and Cytosine-Derived Lesions in DNA Produced by Radiation-Generated Free Radicals.
PB95-153425 03,535

ENERGY ABSORPTION

Influence of Specimen Absorbed Energy in LOX Mechanical-Impact Tests.
PB95-107355 03,341

Effect of Charpy V-Notch Striker Radii on the Absorbed Energy.
PB96-141122 03,365

Calculation of Photon Mass Energy-Transfer and Mass Energy-Absorption Coefficients.
PB97-110399 04,137

ENERGY CONSERVATION

Least-Cost Energy Decisions for Buildings: Part 2. Uncertainty and Risk Video Training Workbook.
PB94-165982 00,240

Papers Presentations Shine.
PB94-200383 00,244

Energy Prices and Discount Factors for Life-Cycle Cost Analysis 1994. Annual Supplement to NIST Handbook 135 and NBS Special Publication 709.
PB94-206018 02,508

Energy Price Indices and Discount Factors for Life-Cycle Cost Analysis 1995. Annual Supplement to NIST Handbook 135 and NBS Special Publication 709. (Revised).
PB95-105011 02,509

Life-Cycle Costing Workshop for Energy Conservation in Buildings: Student Manual.
PB95-175006 00,257

Building Life Cycle Cost Computer Program (BLCC), Version 4.2-95 (for Microcomputers).
PB95-501953 00,266

Building Life Cycle Cost Computer Program (BLCC) Version 4.21-95 (for Microcomputers).
PB95-502779 00,267

Building Life Cycle Cost Computer Program (BLCC) Version 4.22-95 (for Microcomputers).
PB95-503397 00,268

Energy Price Indices and Discount Factors for Life-Cycle Cost Analysis 1996. Annual Supplement to NIST Handbook 135 and NBS Special Publication 709. (Revised).
PB96-162441 02,510

Energy Price Indices and Discount Factors for Life-Cycle Cost Analysis 1997. Annual Supplement to NIST Handbook 135 and NBS Special Publication 709. (Revised).
PB96-210745 02,512

Building Life Cycle Cost Computer Program (BLCC) Version 4.22-95 (for Mircomputers).
PB96-502794 00,277

Building Life Cycle Cost Computer Program (BLCC) Version 4.4-97 (for Microcomputers).
PB97-500342 00,284

ENERGY CONSERVATION & PRODUCTION

Predicting the Energy Performance Ratings of a Family of Type I Combination Appliances.
PB95-105524 02,504

Composite Materials for Offshore Operations: Proceedings of the International Workshop (1st). Held in Houston, Texas on October 26-28, 1993.
PB96-109509 03,169

Efficiency of Electric Motors. National Voluntary Lab. Accreditation Program (NVLAP).
PB96-111174 02,107

Significant Contributions of IAPWS to the Power Industry, Science and Technology.
PB96-123252 01,088

Bibliography of the NIST Optoelectronics Division.
PB96-128210 02,193

Directory of U.S. Private Sector Product Certification Programs.
PB96-215074 02,688

ENERGY CONSUMPTION

Lighting and HVAC.
PB95-150991 00,250

Factors Affecting the Energy Consumption of Two Refrigerator-Freezers.
PB97-112312 00,311

ENERGY DEPENDENCE

Energy Dependences of Absorption in Beryllium Windows and Argon Gas.
PB96-102124 04,020

ENERGY DISSIPATION

Merged-Beams Energy-Loss Technique for Electron-Ion Excitation: Absolute Total Cross Sections for O(5+) (2s yields 2p).
PB96-102058 04,017

ENERGY EFFICIENCY

Papers Presentations Shine.
PB94-200383 00,244

National Voluntary Laboratory Accreditation Program: Energy Efficient Lighting Products.
PB94-219060 02,642

Predicting the Energy Performance Ratings of a Family of Type I Combination Appliances.
PB95-105524 02,504

BLCC: The NIST 'Building Life-Cycle Cost' Program, Version 4.21. User's Guide and Reference Manual.
PB95-190682 00,263

Least-Cost Energy Decisions for Buildings. Part 3. Choosing Economic Evaluation Methods. Video Training Workbook.
PB95-253597 00,265

Laboratory Accreditation for Testing Energy Efficient Lighting.
PB96-122932 00,270

International Green Building Conference and Exposition (3rd). Held in San Diego, California on November 17-19, 1996. (Reannouncement with new abstract).
PB97-121826 02,531

ENERGY EFFICIENT LIGHTING PROGRAM

National Voluntary Laboratory Accreditation Program: Energy Efficient Lighting Products.
PB94-219060 02,642

ENERGY FLOW

Energy Flows in an Orifice Pulse Tube Refrigerator.
PB95-169082 02,752

ENERGY GAP

Superconducting Energy Gap of Bulk UBe13.
PB95-150116 04,559

Tunneling Measurement of the Zero-Bias Conductance Peak and the Bi-Sr-Ca-Cu-O Thin-Film Energy Gap.
PB95-163739 04,628

ENERGY-LEVEL CALCULATIONS

Designations of ds(2)p Energy Levels in Neutral Zirconium, Hafnium, and Rutherfordium (Z=104).
PB96-180120 04,116

ENERGY LEVELS

Energy Levels of Zinc, Zn I through Zn XXX.
PB96-145982 01,122

Comment On: Two-Photon Absorption Series of Calcium.
PB96-157979 04,074

Analysis of the (5d(2)+5d6s)-5d6p Transition Arrays of Os VII and Ir VIII, and the 6s (2)S-6p (2)P Transitions of Ir IX.
PB96-159264 01,954

Hyperfine Structure Investigations and Identification of New Energy Levels in the Ionic Spectrum of (147)Pm.
PB96-180203 04,117

Quantum Dots in Quantum Well Structures.
PB97-118350 01,185

ENERGY LOSSES

Measured Stopping Powers of Hydrogen and Helium in Polystyrene Near Their Maximum Values.
PB96-112321 04,729

ENERGY MANAGEMENT

Using Emulator/Testers for Commissioning EMCS Software, Operator Training, Algorithm Development, and Tuning Local Control Loops.
PB94-212735 00,245

Life-Cycle Costing Manual for the Federal Energy Management Program. 1995 Edition.
PB96-172317 02,511

ENERGY MANAGEMENT SYSTEMS

Reproducibility of Tests on Energy Management and Control Systems Using Building Emulators.
PB95-175980 00,260

ENERGY POSITIONS

Dependence of the Thermal Electron Attachment Rate Constant in Gases and Liquids on the Energy Position of the Electron Attaching State.
PB97-122253 01,996

ENERGY RELATED INVENTIONS PROGRAM

Encouraging Environmentally-Aware Inventions.
PB95-161394 02,521

ENERGY SUPPLIES

Present Worth Factors for Life-Cycle Cost Studies in the Department of Defense (1995).
PB95-105029 03,664

Present Worth Factors for Life-Cycle Cost Studies in the Department of Defense (1996).
PB96-106869 03,673

ENERGY TRANSFER

Atom Cooling and Trapping, and Collisions of Trapped Atoms.
PB96-122916 04,048

Ultrafast Time-Resolved Infrared Probing of Energy Transfer at Surfaces.
PB96-123443 00,620

State-Resolved Rotational Energy Transfer in Open Shell Collisions: Cl((2)P3/2)+HCl.
PB96-176607 01,157

Excitation Transfer in Barium by Collisions with Noble Gases.
PB96-200274 01,163

Calculation of Photon Mass Energy-Transfer and Mass Energy-Absorption Coefficients.
PB97-110399 04,137

ENERGY USE

EMISS: A Program for Estimating Local Air Pollution Emission Factors Related to Energy Use in Buildings: User's Guide and Reference Manual.
PB96-109566 02,560

ENGINE TESTS

New Method to Evaluate Deposit Forming Tendencies of Liquid Lubricants by Differential Scanning Calorimetry.
PB95-152120 01,451

Deposit Forming Tendencies of Diesel Engine Oils-Correlation between the Two-Peak Method and Engine Tests.
PB95-152138 01,452

ENGINE VALVES

Evaluation of Wear Resistant Ceramic Valve Seats in Gas-Fueled Power Generation Engines. Topical Report, December 1991-April 1994.
PB95-200218 02,466

ENGINE WEAR

Evaluation of Wear Resistant Ceramic Valve Seats in Gas-Fueled Power Generation Engines. Topical Report, December 1991-April 1994.
PB95-200218 02,466

ENGINEERING/PRODUCT/INFORMATION STANDARDS

Federal Basis for Weights and Measures: A Historical Review of Federal Legislative Effort, Statutes, and Administrative Action in the Field of Weights and Measures in the United States.
AD-A280 086/0 02,616

National Type Evaluation Program: Index of Device Evaluations by Company. NCWM Publication 5 Part A (Second Edition).
PB94-160835 02,889

NVLAP Procedures U.S. Code of Federal Regulations. Title 15, Subtitle A, Chapter 2, Part 7. (Effective December 1984; Amended September 1990).
PB94-160850 02,627

Voluntary Product Standard PS 20-94. American Softwood Lumber Standard.
PB94-162500 03,402

Models, Managing Models, Quality Models: An Example of Quality Management.
PB94-163466 02,891

National Voluntary Laboratory Accreditation Program: Procedures and General Requirements.
PB94-178225 02,630

National Voluntary Laboratory Accreditation Program 1994 Directory.
PB94-178969 00,482

International Institute of Welding: Report on 1992 Actions.
PB94-185873 02,856

International Institute of Welding: Report on 1993 Actions.
PB94-185881 02,857

Precision Oscillators: Dependence of Frequency on Temperature, Humidity and Pressure.
PB94-198306 02,031

State Weights and Measures Laboratories: State Standards Program Description and Directory. 1994 Edition.
PB94-207727 02,895

Program Handbook: Requirements for Obtaining NIST Approval/Recognition of a Laboratory Accreditation Body Under P.L. 101-592. The Fastener Quality Act.
PB94-210143 02,859

Performance Standards: The Pro's and Con's.
PB94-216132 02,896

Formulation of Position on U.S. Standards Role in Enterprise Integration.
PB95-105052 02,773

Flow Conditioner Tests for Three Orifice Flowmeter Sizes.
PB95-105540 04,201

Should NIST Accredit U.S. Calibration Laboratories.
PB95-107280 02,646

National Voluntary Laboratory Accreditation Program: Ionizing Radiation Dosimetry.
PB95-128658 03,623

National Voluntary Laboratory Accreditation Program: Bulk Asbestos Analysis.
PB95-138129 02,541

NIST Handbook 44, 1995: Specifications, Tolerances and Other Technical Requirements for Weighing and Measuring Devices as Adopted by the 79th National Conference on Weights and Measures 1994.
PB95-146379 02,903

Review and Upgrading of Military Fastener Test Standard MIL-STD-1312.
PB95-154720 02,947

National Voluntary Laboratory Accreditation Program: Construction Materials Testing.
PB95-155552 01,319

National Voluntary Laboratory Accreditation Program: Carpet and Carpet Cushion.
PB95-155560 00,295

Status Report: AWS Standards for Identifying Arc Welds (A91.1) and Recording Weld Data (A9.2).
PB95-162855 02,861

Report of the National Conference on Weights and Measures (79th). Held in San Diego, California on July 17-21, 1994.
PB95-169819 02,656

National Voluntary Laboratory Accreditation Program (NVLAP): Wood Based Products.
PB95-170429 03,405

Multi-Agency Certification and Accreditation (C and A) Process: A Worked Example.
PB95-171955 01,601

National Voluntary Laboratory Accreditation Program 1995 Directory.
PB95-174454 00,483

Uniform Laws and Regulations in the Areas of Legal Metrology and Motor Fuel Quality, 1994 as Adopted by the 79th National Conference on Weights and Measures 1994.
PB95-174470 02,909

Checking the Net Contents of Packaged Goods as Adopted by the 79th National Conference on Weights and Measures, 1994, Third Edition, Supplement 4.
PB95-182226 00,484

National Voluntary Laboratory Accreditation Program Acoustical Testing Services.
PB95-182234 04,188

National Voluntary Laboratory Accreditation Program: POSIX. Portable Operating System Interface.
PB95-189478 02,661

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, April to June 1991, with 1992 EEEL Events Calendar.
PB95-209821 01,916

ISO Environmental Management Standardization Efforts.
PB95-220513 02,524

National Voluntary Laboratory Accreditation Program: Electromagnetic Compatibility and Telecommunications. FCC Methods.
PB95-242376 02,664

Advanced Mass Calibration and Measurement Assurance Program for State Calibration Laboratories.
PB95-253571 02,492

Proceedings of the Meeting of the Intergovernmental U.S.-Russian Business Development Committee's Standard Working Group (4th). Held in New York City, New York on March 27-29, 1995 and in Northbrook, Illinois on March 30-31, 1995.
PB95-255881 00,496

National Voluntary Laboratory Accreditation Program (NVLAP): Commercial Products Testing.
PB95-267944 02,671

National Voluntary Laboratory Accreditation Program: Thermal Insulation Materials.
PB95-267985 02,977

National Voluntary Laboratory Accreditation Program. GOSIP: Government Open Systems Interconnection Profile.
PB95-267993 01,486

Aging, Warm-Up Time and Retrace; Important Characteristics of Standard Frequency Generators.
PB96-103122 04,031

GATT Standards Code Activities of the National Institute of Standards and Technology 1994.
PB96-106935 00,497

Standards Setting in the European Union: Standards Organization and Officials in EU Standards Activities.
PB96-115019 02,919

Electrical Product Requirements (Especially Quality Requirements) in the United States.
PB96-119235 01,929

Laboratory Accreditation for Testing Energy Efficient Lighting.
PB96-122932 00,270

Electronic Access to Standards on the Information Highway.
PB96-131578 01,494

ISO Environmental Management Standardization Efforts.
PB96-158662 02,528

International Organization for Standardization: Current Activities in Fire Safety Engineering.
PB96-159660 00,223

U.S. Government Accreditation and Conformity Assessment System Evaluation.
PB96-160239 02,678

International Challenges in Defining the Public and Private Interest in Standards.

PB94-186673 02,943

PIECS: A Software Program for Machine Tool Process-Intermittent Error Compensation.
PB96-165980 02,842

Compensation of Errors Detected by Process-Intermittent Gauging.
PB97-110472 02,846

Data Management for Error Compensation and Process Control.
PB97-110480 02,847

ERROR DETECTION CODES
NIST Program for Investigating Error Reporting Capabilities of Optical Disk Drives.
PB96-160627 01,635

ERRORS
Real Time Compensation for Tool Form Errors in Turning Using Computer Vision.
PB95-107231 02,945

ERRORS IN VARIABLES MODELS
Existence and Nonexistence Theorems of Finite Diameter Sequential Confidence Regions for Errors-in-Variables Models.
PB95-180352 03,441

ESCHERICHIA COLI
Substrate Specificity of the Escherichia coli Endonuclease III: Excision of Thymine- and Cytosine-Derived Lesions in DNA Produced by Radiation-Generated Free Radicals.
PB95-153425 03,535

Deletion Analysis of the Mini-P1 Plasmid Origin of Replication and the Role of E.coli DnaA Protein.
PB95-163911 03,539

ESR DOSIMETRY
ESR-Based Analysis in Radiation Processing.
PB95-161634 03,931

ESTELLE TRANSLATOR
PET and DINGO Tools for Deriving Distributed Implementations from Estelle.
PB95-203253 01,727

ESTERIFICATION
Structural Stabilization of Phase Separating PC/Polyester Blends through Interfacial Modification by Transesterification Reaction.
PB95-150454 01,239

ESTIMATING
Recent Approaches to Extreme Value Estimation with Application to Wind Speeds. Part 1. The Pickands Method.
PB94-213170 00,019

Outlier-Resistant Methods for Estimation and Model Fitting.
PB95-203436 03,444

Extreme Wind Estimates by the Conditional Mean Exceedance Procedure.
PB95-220471 00,120

Estimation of Measurement Uncertainty of Small Circular Features Measured by CMMs.
PB95-267928 02,918

ESTIMATION
Extreme Winds Estimation by 'Peaks Over Threshold' and Epochal Methods.
PB96-159686 00,468

Estimates of Hurricane Wind Speeds by the 'Peaks Over Threshold' Method.
PB96-162540 00,471

ETCHING
Kinetic-Energy-Enhanced Neutral Etching.
PB96-200613 00,665

ETHANE
Thermodynamic Properties of the Methane-Ethane System.
PB95-125779 00,891

Experimental Method for Obtaining Critical Densities of Binary Mixtures: Application to Ethane + n-Butane.
PB95-151148 00,930

Measurements of the Virial Coefficients and Equation of State of the Carbon Dioxide + Ethane System in the Supercritical Region.
PB95-151353 03,906

Vapor-Liquid Equilibria of Ternary Mixtures in the Critical Region on Paths of Constant Temperature and Overall Composition.
PB96-161856 01,139

ETHANE/CHLORO-TETRAFLUORO
Measurements of the Viscosities of Saturated and Compressed Fluid 1-chloro-1,2,2,2-tetrafluoroethane (R124) and Pentafluoroethane (R125) at Temperatures between 120 and 420 K.
PB94-199791 03,254

ETHANE/DICHLORO-DIFLUORO
Measurements of the Viscosities of Saturated and Compressed Liquid 1,1,1,2-Tetrafluoroethane (R134a), 2,2-Dichloro-1,1,1-Trifluoroethane (R123) and 1,1-Dichloro-1-Fluoroethane (R141b).
PB95-175386 03,273

ETHANE/DICHLORO-FLUORO
Measurements of the Viscosities of Saturated and Compressed Liquid 1,1,1,2-Tetrafluoroethane (R134a), 2,2-Dichloro-1,1,1-Trifluoroethane (R123) and 1,1-Dichloro-1-Fluoroethane (R141b).
PB95-175386 03,273

ETHANE/DICHLORO-TRIFLUORO
Vapor Pressure of 1,1-dichloro-2,2,2-trifluoroethane (R123).
PB95-126231 00,899

ETHANE/PENTAFLUORO
Measurements of the Viscosities of Saturated and Compressed Fluid 1-chloro-1,2,2,2-tetrafluoroethane (R124) and Pentafluoroethane (R125) at Temperatures between 120 and 420 K.
PB94-199791 03,254

ETHANE/TETRAFLUORO
Measurements of the Viscosities of Saturated and Compressed Liquid 1,1,1,2-Tetrafluoroethane (R134a), 2,2-Dichloro-1,1,1-Trifluoroethane (R123) and 1,1-Dichloro-1-Fluoroethane (R141b).
PB95-175386 03,273

ETHANOL
Effect of Ethanol on the Solubility of Dicalcium Phosphate Dihydrate in the System Ca(OH)2-H3PO4-H2O at 37C.
PB95-163507 00,163

Effect of Ethanol on the Solubility of Hydroxyapatite in the System Ca(OH)2-H3PO4-H2O at 25C and 33C.
PB95-169231 00,169

Millimeter- and Submillimeter-Wave Spectrum of trans-Ethyl Alcohol.
PB96-145578 01,102

ETHANOL MONOCHLOROBENZENE
Oscillometric and Conductometric Analysis of Aqueous and Organic Dosimeter Solutions.
PB96-135256 04,054

ETHANOL WATER SOLUTION
Molecular Dynamics Investigation of the Surface/Bulk Equilibrium in an Ethanol-Water Solution.
PB97-113112 01,183

ETHER/MALEIMIDOPHENYL GLYCIDYL
Thermal Behavior of 4-Maleimidophenyl Glycidyl Ether Resins.
PB95-153151 01,249

ETHERS
Thermodynamic Properties of CHF2-O-CHF2,Bis(difluoromethyl) Ether.
PB94-199569 00,798

2-Tunneling Path Internal-Axis-Method-Like Treatment of the Microwave Spectrum of Divinyl Ether.
PB94-200466 00,808

Thermodynamic Properties of Two Gaseous Halogenated Ethers from Speed-of-Sound Measurements: Difluoromethoxy-Difluoromethane and 2-Difluoromethoxy-1,1,1-Trifluoroethane.
PB96-102413 04,189

ETHYL RADICALS
Laser Flash Photolysis, Time-Resolved Fourier Transform Infrared Emission Study of the Reaction Cl + C2H5 yields HCl(v) + C2H4.
PB95-203238 01,049

ETHYLENE
Nonlinear Correlation of High-Pressure Vapor-Liquid Equilibrium Data for Ethylene + n-Butane Showing Inconsistencies in Experimental Compositions.
PB96-161906 01,141

ETHYLENE/DICHLORO
Gas Phase Reactivity Study of OH Radicals with 1,1-Dichloroethene and cis-1,1-Dichloroethene and Trans-1,2-Dichloroethene over the Temperature Range 240-400 K.
PB95-152146 00,939

ETHYLIDENE BISPHOSPHONATE/HYDROXY
Effect of 1-Hydroxyethylidene-1,1-Bisphosphonate on Membrane-Mediated Calcium Phosphate Formation in Model Liposomal Suspensions.
PB95-169223 03,469

ETRAN CODE
Electron-Photon Monte Carlo Calculations: The ETRAN Code.
PB97-110407 04,138

EULER-POINSOT PROBLEM
Complete Reduction of the Euler-Poinsot Problem.
PB94-172152 03,788

EUROPE
Aid for Smaller Businesses.
PB94-212461 00,492

EUROPEAN COMMUNITIES
TMACH Experiment Phase 1. Preliminary Developmental Evaluation.
PB96-195318 01,618

EUROPEAN UNION
Standards Setting in the European Union: Standards Organization and Officials in EU Standards Activities.
PB96-115019 02,919

EUTECTIC ALLOYS
Phase-Field Model for Solidification of a Eutectic Alloy.
PB95-147914 03,345

EVACUATING (TRANSPORTATION)
Feasibility and Design Considerations of Emergency Evacuation by Elevators.
PB94-163441 00,287

Feasibility of Fire Evacuation by Elevators at FAA Control Towers.
PB94-213857 04,844

EVACUATION
Smoke Control Systems for Elevator Fire Evacuation.
PB94-212883 00,291

EXITT: A Simulation Model of Occupant Decisions and Actions in Residential Fires.
PB94-213261 00,351

Human Factors Considerations for the Potential Use of Elevators for Fire Evacuation of FAA Air Traffic Control Towers.
PB94-217163 01,300

Enhancement of EXIT89 and Analysis of World Trade Center Data.
PB96-202247 00,231

EVALUATION
Guide to Software Engineering Environment Assessment and Evaluation.
PB94-140167 01,676

EVANESCENCE
Fugacity Coefficients of Hydrogen in (Hydrogen + Butane).
PB95-175212 02,491

EVAPORATIVE COOLING
Transient Cooling of a Hot Surface by Droplets Evaporation.
PB94-156957 03,783

Transient Cooling of a Hot Surface by Droplets Evaporation.
PB95-143194 03,890

Water Droplet Evaporation from Radiantly Heated Solids.
PB95-217147 00,394

Stable, Tightly Confining Magnetic Trap for Evaporative Cooling of Neutral Atoms.
PB96-200720 04,126

Sparse Water Sprays in Fire Protection.
PB96-202304 01,433

Intracycle Evaporative Cooling in a Vapor Compression Cycle.
PB97-116107 02,762

EVAPORATORS
Simple, Compact, High-Purity Cr Evaporator for Ultrahigh Vacuum.
PB94-216678 04,520

Closed Loop Controller for Electron-Beam Evaporators.
PB97-111470 04,393

EXAMINATION PROCEDURE OUTLINES (EPOS)
Examination Procedure Outlines: Keys to Solving the Handbook 44 Puzzle.
PB97-110217 *02,690*

EXCHANGE COUPLING
Influence of Thickness Fluctuations on Exchange Coupling in Fe/Cr/Fe Structures.
PB96-135371 *04,745*

SEMPA Studies of Exchange Coupling in Magnetic Multilayers.
PB96-164074 *04,780*

EXCHANGE INTERACTIONS
SEMPA Studies of Oscillatory Exchange Coupling.
PB95-163556 *04,625*

EXCITATION
Estimation of System Damping at the Lotung Site by Application of System Identification.
PB96-214697 *01,351*

EXCITATIONS
Low-Frequency Excitations of Oriented DNA.
PB96-137799 *03,548*

EXCITED STATES
Search for Small Violations of the Symmetrization Postulate in an Excited State of Helium.
PB96-123518 *04,050*

EXCITODION SPECTRA
Population Trapping in Short-Pulse Multiphoton Ionization.
PB96-164140 *04,371*

EXCITON
Intermediate Coupling in L2-L3 Core Excitons of MgO, Al2O3, and SiO2.
PB96-158043 *04,079*

EXCITONS
Excitons in Complex Quantum Nanostructures.
PB97-118343 *01,184*

EXCLUDED VOLUME
Segmental Concentration Profiles of End-Tethered Polymers with Excluded-Volume and Surface Interactions.
PB97-119002 *00,654*

EXIMER LASERS
Deep-UV Excimer Laser Measurements at NIST.
PB96-141031 *04,355*

EXIT89 COMPUTER MODEL
Enhancement of EXIT89 and Analysis of World Trade Center Data.
PB96-202247 *00,231*

EXOSKELETON
Robotics Application to Highway Transportation. Volume 2. Literature Search.
PB95-170551 *01,337*

EXOTOXINS
Genetically Engineered Pores for New Materials.
PB96-161641 *03,550*

EXPECT COMPUTER PROGRAM
Ouch Those Programs are Painful.
PB96-102678 *01,739*

EXPERIMENTAL DATA
Models and Interactions.
PB94-216306 *02,641*

EXPERIMENTAL DESIGN
Measuring the Stability of Three Copper Alloys.
PB94-199866 *03,326*

Introduction to ASTM 1199 'Wear Test Selection for Design and Application'.
PB95-162517 *03,238*

Taguchi's Parameter Design: A Panel Discussion.
PB96-111802 *03,445*

Developing Measurement for Experimentation.
PB97-118707 *03,450*

EXPERIMENTAL MECHANICS
Journal of Research of the National Institute of Standards and Technology, January/February 1996. Volume 101, Number 1.
PB96-175666 *00,113*

Theory of Electron Beam Moire.
PB96-175690 *04,373*

EXPERIMENTATION
Guidelines for Reporting Results of Computational Experiments. Report of the Ad hoc Committee.
PB94-212347 *03,427*

EXPERT PROGRAMMING LANGUAGE
Kibitz-Connecting Multiple Interactive Programs Together.
PB94-213311 *01,696*

EXPERT SYSTEMS
PC-Based Prototype Expert System for Data Management and Analysis of Creep and Fatigue of Selected Materials at Elevated Temperatures.
PB94-172251 *03,202*

Highway Concrete (HWYCON) Expert System User Reference and Enhancement Guide.
PB94-215670 *01,316*

Application of Expert System to Select Data Sources from Chemical Information Databases.
PB95-125654 *00,505*

Exposure: An Expert System Fire Code.
PB95-162913 *04,868*

Expert Control System Shell Version 1.0 User's Guide.
PB95-198859 *01,790*

EXPOSURE (PHYSIOLOGY)
Maximum Permissible Body Burdens and Maximum Permissible Concentrations of Radionuclides in Air and in Water for Occupational Exposure.
AD-A280 282/5 *03,610*

EXPRESS
Concepts of the NIST EXPRESS Server.
PB95-180543 *02,781*

EXPRESS LANGUAGE
Extensions of the Prototype Application Protocol of Ready-to-Wear Apparel Pattern Making.
PB96-128194 *03,198*

EXPRESS LANGUAGE ENVIRONMENT
Dynamic Objects and Meta-Level Programming of an EXPRESS Language Environment.
PB96-190053 *01,774*

EXPRESS MODELING LANGUAGE
Structural EXPRESS Editor.
PB94-159795 *02,769*

EXTENDED CORRESPONDING STATES
Thermodynamic Properties of the Methane-Ethane System.
PB95-125779 *00,891*

EXTENSOMETERS
Torsional Dilatometer for Volume Change Measurements on Deformed Glasses: Instrument Description and Measurements on Equilibrated Glasses.
PB94-211166 *03,379*

EXTENSOMETRY
Sources of Strain-Measurement Error in Flag-Based Extensometry.
PB97-118731 *03,108*

EXTINCTION TIME
Suppression Research: Strategies.
PB94-211372 *00,346*

EXTRACTION
Distributed measurements of tracer response on packed bed flows using a fiberoptic probe array. Final report.
DE95013079 *00,667*

Thermophysical Property Data for Supercritical Fluid Extraction Design.
PB94-199221 *00,668*

EXTRACTION COLUMNS
Continuous Counter-Current Two Phase Aqueous Extraction.
PB95-161212 *00,675*

EXTRACTIVE METALLURGY
Vapor Transport in Materials and Process Chemistry.
PB94-211745 *00,669*

EXTRACTORS
Influence of Envelopes Geometry on the Sensitivity of 'Nude' Ionization Gauges.
PB97-119077 *04,174*

EXTRAPOLATION CHAMBERS
Extrapolation Chamber Measurements on (90)Sr + (90)Y Beta-Particle Ophthalmic Applicator Dose Rates.
PB95-153375 *03,626*

EXTREME ULTRAVIOLET
Improved Reflectometry Facility at the National Institute of Standards and Technology.
PB96-160338 *04,087*

EXTREME ULTRAVIOLET RADIATION
Volume-Limited ROSAT Survey of Extreme Ultraviolet Emission from all Nondegenerate Stars within 10 Parsecs.
PB96-103189 *00,093*

EXTREME VALUE ESTIMATION
Recent Approaches to Extreme Value Estimation with Application to Wind Speeds. Part 1. The Pickands Method.
PB94-213170 *00,019*

EXTREME-VALUE PROBLEMS
Recent Approaches to Extreme Value Estimation with Application to Wind Speeds. Part 1. The Pickands Method.
PB94-213170 *00,019*

Journal of Research of the National Institute of Standards and Technology, July/August 1994. Volume 99, Number 4. Special Issue: Extreme Value Theory and Applications. Proceedings of the Conference on Extreme Value Theory and Applications, Volume 2. Held at Gaithersburg, Maryland, in May 1993.
PB95-160594 *03,440*

Assessment of 'Peaks Over Threshold' Methods for Estimating Extreme Value Distribution Tails.
PB95-161360 *00,441*

Extreme Wind Distribution Tails: A 'Peaks Over Threshold' Approach.
PB95-219416 *00,127*

Development of Computer-Based Models of Standards and Attendant Knowledge-Base and Procedural Systems.
PB96-155783 *00,464*

Extreme Winds Estimation by 'Peaks Over Threshold' and Epochal Methods.
PB96-159686 *00,468*

Modeling of Extreme Loading by 'Peaks Over Threshold' Methods.
PB96-159694 *00,469*

EXTREME VALUE THEORY
Extreme Value Theory and Applications: Proceedings of the Conference on Extreme Value Theory and Applications, Volume 3. Held in Gaithersburg, Maryland in May 1993.
PB95-104956 *03,432*

Journal of Research of the National Institute of Standards and Technology, July/August 1994. Volume 99, Number 4. Special Issue: Extreme Value Theory and Applications. Proceedings of the Conference on Extreme Value Theory and Applications, Volume 2. Held at Gaithersburg, Maryland, in May 1993.
PB95-160594 *03,440*

EXTREMELY HIGH FREQUENCIES
Comparison of k-Correction and Taylor-Series Correction for Probe-Position Errors in Planar Near-Field Scanning.
PB96-147137 *02,012*

EXTREMELY LOW FREQUENCIES
ELF Electric and Magnetic Field Measurement Methods.
PB95-161675 *04,423*

EXTREMELY LOW FREQUENCY
Condensed Catalogue of Electromagnetic Environment Measurements, 30 - 300 Hz.
PB95-162210 *01,899*

Catalogue of Electromagnetic Environment Measurements, 30-300 Hz.
PB96-155452 *01,943*

EXTREMUM VALUES
Heap of Data.
PB97-111488 *03,424*

EYE PIGMENTS
Retinal-Protein Complexes as Optoelectronic Components.
PB95-150397 *02,146*

EYE PROTEINS
Retinal-Protein Complexes as Optoelectronic Components.
PB95-150397 *02,146*

EYE SAFETY
Optical Density Measurements of Laser Eye Protection Materials.
PB96-190301 *00,190*

F STARS
IUE Observations of Solar-Type Stars in the Pleiades and the Hyades.
PB94-199437 *00,053*

FABRICATION
Fabrication of Flaw-Tolerant Aluminum-Titanate-Reinforced Alumina.
PB95-162533 *03,161*

MEMS in Standard CMOS VLSI Technology.
PB96-102363 *02,377*

Superconducting Integrated Circuit Fabrication with Low Temperature ECR-Based PECVD SiO2 Dielectric Films.
PB96-103015 *04,719*

Fabrication of Optics by Diamond Turning.
PB96-111695 *02,954*

FACE (ANATOMY)
Face Recognition Technology for Law Enforcement Applications.
PB94-207768 *01,837*

FACE CENTERED CUBIC LATTICES
Anisotropy of Interfaces in an Ordered Alloy: A Multiple-Order-Parameter Model.
PB96-131594 *04,741*

FACE RECOGNITION
Face Recognition Technology for Law Enforcement Applications.
PB94-207768 *01,837*

FACSIMILE TRANSMISSION
Procedures for Document Facsimile Transmission Issued by General Services Administration, April 14, 1982. Federal Standard 1063.
FIPS PUB 148 *01,516*

FACTOR ANALYSIS
Factorial Design Techniques Applied to Optimization of AMS Graphite Target Preparation.
PB95-151197 *00,584*

FAILURE
Fracture Behavior of Large-Scale Thin-Sheet Aluminum Alloy.
N95-19494/0 *03,311*

FAILURE ANALYSIS
Fracture Behavior of Large-Scale Thin-Sheet Aluminum Alloy.
N95-19494/0 *03,311*

Analysis of Failed Dry Pipe Fire Suppression System Couplings from the Filene Center at Wolf Trap Farm Park for the Performing Arts.
PB94-164407 *00,331*

Potential Drop in the Center-Cracked Panel with Asymmetric Crack Extension.
PB95-107330 *04,819*

Creep Rupture of MoSi2/SiCp Composites.
PB95-152294 *03,154*

Journal of Research of the National Institute of Standards and Technology, July/August 1994. Volume 99, Number

4. Special Issue: Extreme Value Theory and Applications. Proceedings of the Conference on Extreme Value Theory and Applications, Volume 2. Held at Gaithersburg, Maryland, in May 1993.
PB95-160594 *03,440*

Characteristics of Adhesive-Bonded Seams Sampled from EPDM Roof Membranes.
PB95-162491 *00,377*

Exponentially Rapid Coarsening and Buckling in Coherently Self-Stressed Thin Plates.
PB95-202347 *04,821*

Critical-Current Degradation in Nb3 Al Wires Due to Axial and Transverse Stress.
PB95-202784 *02,226*

Room-Temperature Flexure Fixture for Advanced Ceramics.

FEDERAL INFORMATION PROCESSING STANDARDS

Data Encryption Standard (DES); Category: Computer Security; Subcategory: Cryptography.
FIPS PUB 46-2 *01,572*

Graphical Kernel System (GKS). Category: Software Standard. Subcategory: Graphics. International Standard: Information Technology; Computer Graphics; Graphical Kernel System (GKS) Language Bindings. Part 4: C.
FIPS PUB 120-1C *01,792*

Security Requirements for Cryptographic Modules; Category: Computer Security; Subcategory: Cryptography.
FIPS PUB 140-1 *01,567*

Programmer's Hierarchical Interactive Graphics System (PHIGS). Category: Software Standard; Subcategory: Graphics.
FIPS PUB 153-1 *01,668*

User Interface Component of the Applications Portability Profile Category: Software Standard; Subcategory: Application Program Interface.
FIPS PUB 158-1 *01,793*

Spatial Data Transfer Standard (SDTS): Category: Software Standard; Subcategory: Information Interchange.
FIPS PUB 173-1 *01,794*

Spatial Data Transfer Standard (SDTS). Category: Software Standard; Subcategory: Information Interchange. (FIPS PUB 173-1A).
FIPS PUB 173-1A *01,795*

Spatial Data Transfer Standard (SDTS). Category: Software Standard; Subcategory: Information Interchange. (FIPS PUB 173-1B).
FIPS PUB 173-1B *01,796*

Secure Hash Standard. Category: Computer Security.
FIPS PUB 180-1 *01,568*

Escrowed Encryption Standard (EES); Category: Computer Security; Subcategory: Cryptography.
FIPS PUB 185 *01,569*

Administration Standard for the Telecommunications Infrastructure of Federal Buildings. Category: Telecommunications Standard; Subcategory: Telecommunications Administration.
FIPS PUB 187 *01,461*

Standard Security Label for Information Transfer; Category: Computer Security; Subcategory: Security Labels.
FIPS PUB 188 *01,571*

Portable Operating System Interface (POSIX). Part 2. Shell and Utilities. Category: Software Standard; Subcategory: Operating Systems.
FIPS PUB 189 *01,797*

Guideline for the Analysis of Local Area Network Security. Category: Computer Security; Subcategory: Risk Analysis and Contingency Planning.
FIPS PUB 191 *01,799*

Application Profile for the Government Information Locator Service (GILS). Category: Software Standard; Subcategory: Information Interchange.
FIPS PUB 192 *01,800*

SQL Environments. Category: Software Standard; Subcategory: Database.
FIPS PUB 193 *01,801*

Open Document Architecture (ODA) Raster Document Application Profile (DAP). Category: Software Standard; Subcategory: Graphics.
FIPS PUB 194 *01,669*

Federal Building Grounding and Bonding Requirements for Telecommunications. Category: Telecommunications Standard; Subcategory: Grounding and Bonding.
FIPS PUB 195 *01,802*

Validated Products List (Cobol, Fortran, ADA, Pascal, MUMPS, SQL).
PB94-937300 *01,700*

Codes for Named Populated Places, Primary County Divisions, and Other Locational Entities of the United States (FIPS PUB 55-3) (on Magnetic Tape).
PB95-502563 *00,129*

Validated Products List (Cobol, Fortran, ADA, Pascal, MUMPS, SQL).
PB95-937300 *01,738*

FEDERAL INFORMATION PROCESSING STANDARDS; CRYPTOGRAPHY

Guideline for the Use of Advanced Authentication Technology Alternatives. Category: Computer Security. Subcategory: Access Control.
FIPS PUB 190 *01,798*

FEDERAL LAW

1950 Supplement to Screw-Thread Standards for Federal Services. 1944.
AD-A280 223/9 *03,656*

FEEDBACK CONTROL

Control of Gas-Metal-Arc Welding Using Arc-Light Sensing.
PB96-131461 *02,869*

FERMENTATION

Feasibility of Fluorescence Detection of Tetracycline in Media Mixtures Employing a Fiber Optic Probe.
PB96-163654 *00,511*

FERRIC NITRILOTRIACETATE

DNA Base Modifications in Renal Chromatin of Wistar Rats Treated with a Renal Carcinogen, Ferric Nitrilotriacetate.
PB95-150363 *03,648*

Treatment of Wistar Rats with a Renal Carcinogen, Ferric Nitrilotriacetate, Causes DNA-Protein Cross-Linking between Thymine and Tyrosine in Their Renal Chromatin.
PB96-112115 *03,649*

FERRITE GARNETS

Magneto-Optic Magnetic Field Sensors Based on Uniaxial Iron Garnet Films in Optical Waveguide Geometry.
PB95-168498 *02,159*

Magnetic Force Microscopy Images of Magnetic Garnet with Thin-Film Magnetic Tip.
PB95-176210 *04,669*

Novel Bulk Iron Garnets for Magneto-Optic Magnetic Field Sensing.
PB95-180204 *04,675*

Domain Effects in Faraday Effect Sensors Based on Iron Garnets.
PB95-202461 *02,268*

FERRITES

Applicability of Effective Medium Theory to Ferroelectric/Ferrimagnetic Composites with Composition and Frequency-Dependent Complex Permittivities and Permeabilities.
PB96-157854 *01,945*

FERROCENES

High-Pressure Equilibrium Cell for Solubility Measurements in Supercritical Fluids.
PB95-175634 *00,998*

FERROELECTRIC MATERIALS

Hysteresis Measurements of Remanent Polarization and Coercive Field in Polymers.
PB94-199767 *04,475*

FERROELECTRICITY

Ferroelectric Thin Film Characterization Using Superconducting Microstrip Resonators.
PB96-102389 *02,270*

FERROMAGNETIC MATERIALS

Monte Carlo and Mean-Field Calculations of the Magnetocaloric Effect of Ferromagnetically Interacting Clusters.
PB94-172087 *03,201*

FERROMAGNETIC RESONANCE

Method for Determining Both Magnetostriction and Elastic Modulus by Ferromagnetic Resonance.
PB95-150108 *02,974*

FERROUS TRIMETHYLAMMONIUM CHLORIDE

Quasielastic and Inelastic Neutron-Scattering Studies of ((CD3)3ND)FeCl3.2D2O: A One-Dimensional Ising Ferromagnet.
PB95-140562 *04,547*

FIBER AMPLIFIERS

Pump-Induced Dispersion of Erbium-Doped Fiber Measured by Fourier-Transform Spectroscopy.
PB94-211935 *04,236*

FIBER ANNEALING

Improved Annealing Technique for Optical Fiber.
PB96-119680 *04,343*

FIBER COMPOSITES

Interface Properties for Ceramic Composites from a Single Fiber Pull-Out Test.
PB94-199361 *03,135*

Generic Model for Creep Rupture Lifetime Estimation on Fibrous Ceramic Composites.
PB94-200235 *03,137*

Elastic Properties of Uniaxial-Fiber Reinforced Composites: General Features.
PB94-200649 *03,140*

Determination of Fiber-Matrix Interfacial Properties of Importance to Ceramic Composite Toughening.
PB95-125811 *03,149*

Environmental Durability of Glass-Fiber Composites.
PB95-203220 *03,166*

Torsion Modulus and Internal Friction of a Fiber-Reinforced Composite.
PB96-112339 *03,070*

FIBER DISTRIBUTED DATA INTERFACE

Planning for the Fiber Distributed Data Interface (FDDI).
PB94-135761 *01,621*

FIBER GRATINGS

Growth Characteristics of Fiber Gratings.
PB96-122957 *04,346*

FIBER LASERS

Electronically Tunable Fiber Laser for Optical Pumping of (3)He and (4)He.
PB96-201165 *04,381*

FIBER OPTIC SENSORS

Faraday Effect Current Sensors.
PB94-200698 *02,127*

Faraday Effect Sensors: A Review of Recent Progress.
PB94-200706 *02,128*

Recent Developments at NIST on Optical Current Sensors and Partial Discharge Diagnostics.
PB95-151114 *02,147*

High Speed, High Sensitivity Magnetic Field Sensors Based on the Faraday Effect in Iron Garnets.

FIBROUS POROUS MEDIA

Analysis of Transverse Flow in Aligned Fibrous Porous Media.
PB96-167200 *03,177*

FIELD EFFECT TRANSISTORS

Efficient Method to Compute the Maximum Transient Drain Current Overshoot in Silicon on Insulator Devices.
PB94-172483 *02,300*

Experimental Study of Reverse-Bias Failure Mechanisms in Bipolar Mode JFET (BMFET).
PB95-152997 *02,340*

Anomalous Behavior of a Quantized Hall Plateau in a High-Mobility Si Metal-Oxide-Semiconductor Field-Effect Transistor.
PB95-164174 *02,354*

Buffer Layer Modulation-Doped Field-Effect-Transistor Interactions in the Al0.33Ga0.67As/GaAs Superlattice System.
PB96-102876 *02,380*

FIELD EMISSION

Planar Lenses for Field-Emitter Arrays.
PB96-103064 *02,112*

FIELD EMITTER ARRAYS

Planar Lenses for Field-Emitter Arrays.
PB96-103064 *02,112*

FIELD VARIABLES

Composition Dependence of a Field Variable Along the Binary Fluid Mixture Critical Locus.
PB95-176038 *01,003*

FILAMENTS

Influence of the Filament Potential Wave Form on the Sensitivity of Glass-Envelope Bayard-Alpert Gages.
PB95-175014 *02,657*

FILE FORMAT

Retrieving Articles from the Internet (without a UNIX Workstation). Part 1. File Formats and Software Tools.
PB95-168720 *02,728*

FILE TRANSFER PROTOCOL

Using Archie to Find Files on the INTERNET.
PB95-168605 *02,727*

FILM DOSIMETERS

Radiochromic Solid-State Polymerization Reaction.
PB96-180146 *01,290*

FILM DOSIMETRY

Thin Dyed-Plastic Dosimeter for Large Radiation Doses.
PB95-107363 *03,872*

Electron and Proton Dosimetry with Custom-Developed Radiochromic Dye Films.
PB95-151106 *03,713*

Effect of Formulation Changes on the Response to Ionizing Radiation of Radiochromic Dye Films.
PB97-119028 *04,171*

FILM RESISTORS

Characterization of Interface Defects in Oxygen-Implanted Silicon Films.
PB94-216629 *02,322*

Planar Resistors for Probe Station Calibration.
PB95-163697 02,351

FILM THICKNESS
Electrical Method for Determining the Thickness of Metal Films and the Cross-Sectional Area of Metal Lines.
PB95-203170 02,370

Electrical Characterization of Integrated Circuit Metal Line Thickness.
PB96-138433 02,414

FILMS
Wear of Selected Materials and Composites Sliding against MoS2 Films.
PB94-172749 03,231

Critical Current Density, Irreversibility Line, and Flux Creep Activation Energy in Silver-Sheathed Bi2Sr2Ca2Cu2Ox Superconducting Tapes.
PB95-162749 04,616

Nanoscale Study of the Hydrogenated Amorphous Silicon Surface.
PB96-103056 04,720

Characterization of Liquid-Phase Epitaxially Grown HgCdTe Films by Magnetoresistance Measurements.
PB96-123617 04,738

Stagnant Film Model of the Effect of Natural Convection on the Dendrite Operating State.
PB96-146832 04,765

Lattice Statics of Interfaces and Interfacial Cracks in Bimaterial Solids.
PB96-161823 02,985

Workshop on Characterizing Diamond Films (4th). Held in Gaithersburg, Maryland on March 4-5, 1996.
PB96-183090 04,786

FILTERS
Systematic Studies of the Effect of a Post-Detection Filter on a Josephson-Junction Noise Thermometer.
PB95-162988 03,940

Interface-Filter Characterization of Spectraradiometers and Colorimeters.
PB97-122212 04,399

FINANCE
Financing Tomorrow's Infrastructure: Challenges and Issues. Proceedings of a Colloquium. Held in Washington, DC. on October 20, 1995.
PB96-189444 00,481

FINANCIAL MANAGEMENT
Self Monitoring Accounting Systems.
PB95-216602 00,007

Manager's Guide for Monitoring Data Integrity in Financial Systems.
PB96-165915 00,003

FINDING LIST
Ultraviolet Multiplet Table. Finding List for Spectra of the Elements Molybdenum to Lanthanum (Z = 42 to 57); Hafnium to Radium (Z = 72 to 88).
AD-A278 131/8 00,709

Ultraviolet Multiplet Table.
AD-A278 446/0 00,710

FINE STRUCTURE
Fine Structure of Negative Ions of Alkaline-Earth-Metal Atoms.
PB94-211182 03,837

Atomic Oxygen Fine Structure Splittings with Tunable Far Infrared Spectroscopy.
PB95-152203 03,915

FINE STRUCTURE CONSTANT
Fine-Structure Constant.
PB94-172996 03,795

FINE WATER SPRAYS
Protection of Data Processing Equipment with Fine Water Sprays.
PB95-174975 02,610

FINGER PLUGGERS
Effect of Three Sterilization Techniques on Finger Pluggers.
PB94-216090 00,150

FINGERPRINT CLASSIFICATION
Comparison of FFT Fingerprint Filtering Methods for Neural Network Classification.
PB95-136362 01,840

Improving Neural Network Performance for Character and Fingerprint Classification by Altering Network Dynamics.
PB95-267803 01,851

PCASYS: A Pattern-Level Classification Automation System for Fingerprints.
PB95-267936 01,853

Improving Neural Network Performance for Character and Fingerprint Classification by Altering Network Dynamics.
PB96-123195 01,856

FINGERPRINTS
NIST-Coordinated Standard for Fingerprint Data Interchange.
PB94-216645 01,808

FINITE ELEMENT METHOD
Application of a Simple Technique for Estimating Errors of Finite-Element Solutions Using a General-Purpose Code.
PB94-200250 04,818

Analysis of Creep in a Si-SiC C-Ring by Finite Element Method.
PB94-200268 03,037

FINS
Single-Phase Heat Transfer and Pressure Drop Characteristics of an Integral-Spine-Fin Within an Annulus.
PB94-194073 03,805

Single-Phase Heat Transfer and Pressure Drop Characteristics of an Integral-Spine Fin Within an Annulus.
PB97-122386 04,179

FIPS PUB 180
Secure Hash Standard. Category: Computer Security.
FIPS PUB 180-1 01,568

FIRE ALARM SYSTEMS
Assessment of Technologies for Advanced Fire Detection.
PB95-126330 00,294

FIRE CODES
Exposure: An Expert System Fire Code.
PB95-162913 04,868

FIRE DATA MANAGEMENT SYSTEM
Fire Data Management System, FDMS 2.0, Technical Documentation.
PB94-164019 01,358

Standardization of Formats and Presentation of Fire Data - The FDMS.
PB94-198462 01,371

Development of the Fire Data Management System.
PB94-206091 00,339

FIRE DETECTION SYSTEMS
Proceedings of the 1995 Workshop on Fire Detector Research. Held on February 6-7, 1995.
PB95-270062 02,611

Development of an Economical Video Based Fire Detection and Location System.
PB96-193743 00,228

FIRE DETECTORS
Performance Parameters of Fire Detection Systems.
PB94-194339 00,288

Studies Assess Performance of Residential Detectors.
PB94-199262 00,290

Assessment of Technologies for Advanced Fire Detection.
PB95-126330 00,294

Acoustic Emission of Structural Materials Exposed to Open Flames.
PB95-164810 00,296

Early Detection of Room Fires Through Acoustic Emission. (NIST Reprint).
PB95-180311 00,298

Santa Ana Fire Department Experiment at 1315 South Bristol, July 14, 1994.
PB95-188868 00,389

Review of Measurements and Candidate Signatures for Early Fire Detection.
PB95-189452 00,300

Field Modeling: Simulating the Effect of Sloped Beamed Ceilings on Detector and Sprinkler Response.
PB96-122866 01,406

NASA Fire Detector Study.
PB96-183108 01,423

FIRE DYNAMICS
Prediction of Fire Dynamics.
PB94-193620 00,336

FIRE ESTINGUISHING AGENTS
Minimum Mass Flux Requirements to Suppress Burning Surfaces with Water Sprays.
PB96-183181 01,425

FIRE EXTINGUISHERS
Suppression Research: Strategies.
PB94-211372 00,346

FIRE EXTINGUISHING AGENTS
Water Mist Fire Suppression Workshop Summary.
PB95-161907 02,853

Suppression Effectiveness of Extinguishing Agents under Highly Dynamic Conditions.
PB95-180279 00,020

Burning Rate of Premixed Methane-Air Flames Inhibited by Fluorinated Hydrocarbons.
PB95-180584 01,391

Experimental and Numerical Burning Rates of Premixed Methane-Air Inhibited by Fluoromethanes.
PB95-180592 01,392

Suppression of Elevated Temperature Hydraulic Fluid and JP-8 Spray Flames.
PB95-181095 00,021

Flow of Alternative Agents in Piping.
PB95-202420 00,022

Suppression of High Speed Turbulent Flames in a Detonation/Deflagration Tube.
PB95-231817 01,395

Assessing Halon Alternatives for Aircraft Engine Nacelle Fire Suppression.
PB96-102454 01,401

Solid Propellant Gas Generators: Proceedings of the 1995 Workshop. Held in Gaithersburg, Maryland on June 28-29, 1995.
PB96-131479 01,412

Inhibition of Premixed Methane-Air Flames by Halon Alternatives.
PB96-146741 01,414

Agent Screening for Halon 1301 Aviation Replacement.
PB96-159710 03,282

Validation of a Turbulent Spray Flame Facility for the Assessment of Halon Alternatives.
PB96-159728 03,283

In Search of Alternative Fire Suppressants.
PB96-164165 03,285

Effectiveness of Halon Alternatives in Suppressing Dynamic Combustion Process.
PB96-175732 03,288

Interaction of HFC-125, FC-218 and CF3I with High Speed Combustion Waves.
PB96-176417 03,290

FIRE EXTINGUISHING AGENTS. FIRE SUPPRESSION
Acid Gas Production in Inhibited Diffusion Flames.
PB95-180576 01,390

FIRE FIGHTING
Fire Service and Fire Sciences: A Winning Combination.
PB95-150264 01,383

FIRE GASES
Effective Measurement Techniques for Heat, Smoke, and Toxic Fire Gases.

HAZARD I Fire Hazard Assessment Method, Version 1.2 (Upgrade Package) (for Microcomputers).
PB94-501996 00,197

Annual Conference on Fire Research: Book of Abstracts, October 17-20, 1994.
PB95-104964 01,376

FPETOOL: Fire Protection Tools for Hazard Estimation. An Overview of Features.
PB95-140885 00,367

Fire Service and Fire Sciences: A Winning Combination.
PB95-150264 01,383

Quantitative Evaluation of Building Fire Safety: New Tools for Assessing Fire and Building Code Provisions.
PB95-164588 00,199

Influence of Ignition Source on the Flaming Fire Hazard of Upholstered Furniture. (NIST Reprint).
PB95-180162 00,297

Post-Earthquake Fire and Lifelines Workshop. Held in Long Beach, California on January 30-31, 1995. Proceedings.
PB96-117916 00,209

Global Equivalence Ratio Concept and the Formation Mechanisms of Carbon Monoxide in Enclosure Fires.
PB96-146790 00,210

Quantifying the Ignition Propensity of Cigarettes.
PB96-155411 00,306

Review of Internatioanl Fire Risk Predictions Methods.
PB96-156195 00,222

Fire Hazard Model Developments and Research Efforts at NIST.
PB96-159652 00,407

FIRE MODELS
Calculating Flame Spread on Horizontal and Vertical Surfaces.
PB94-187283 00,335

Fire Growth Models for Materials.
PB94-195856 01,367

Behavior of Charring Materials in Simulated Fire Environments.
PB94-196045 01,368

Combined Buoyancy- and Pressure-Driven Flow Through a Shallow, Horizontal, Circular Vent.
PB94-210077 00,344

VENTCF2: An Algorithm and Associated FORTRAN 77 Subroutine for Calculating Flow through a Horizontal Ceiling/Floor Vent in a Zone-Type Compartment Fire Model.
PB94-210127 00,345

Verification of a Model of Fire and Smoke Transport.
PB95-108718 00,357

Method of Predicting Smoke Movement in Atria with Application to Smoke Management.
PB95-154746 00,376

Generation Rate and Distribution of Products of Combustion in Two-Layer Fire Environments: A Model and Applications.
PB96-102173 *01,398*

Computing Radiative Heat Transfer Occurring in a Zone Fire Model.
PB96-102306 *01,399*

Analyzing and Exploiting Numerical Characteristics of Zone Fire Models.
PB96-102314 *01,400*

Fire Hazard Model Developments and Research Efforts at NIST.
PB96-159652 *00,407*

Numerical Simulation of Rapid Combustion in an Underground Enclosure.
PB96-183132 *01,424*

FIRE PREVENTION

Fire and Smoke Control: An Historical Perspective.
PB95-175808 *00,202*

Transition from Localized Ignition to Flame Spread Over a Thin Cellulosic Material in Microgravity.
PB96-155809 *04,835*

Ignition and Subsequent Flame Spread Over a Thin Cellulosic Material.
PB96-160270 *04,836*

Ignition and Transition to Flame Spread Over a Thermally Thin Cellulosic Sheet in a Microgravity Environment.
PB96-160288 *04,837*

FIRE PROTECTION

VENTCF2: An Algorithm and Associated FORTRAN 77 Subroutine for Calculating Flow through a Horizontal Ceiling/Floor Vent in a Zone-Type Compartment Fire Model.
PB94-210127 *00,345*

Measurement of Room Conditions and Response of Sprinklers and Smoke Detectors during a Simulated Two-Bed Hospital Patient Room Fire.
PB94-213717 *00,292*

FPETOOL: Fire Protection Tools for Hazard Estimation. An Overview of Features.
PB95-140885 *00,367*

New Concepts for Fire Protection of Passenger Rail Transportation Vehicles.
PB95-162046 *04,850*

Protection of Data Processing Equipment with Fine Water Sprays.
PB95-174975 *02,610*

Santa Ana Fire Department Experiment at 1315 South Bristol, July 14, 1994.
PB95-188868 *00,389*

Review of Measurements and Candidate Signatures for Early Fire Detection.
PB95-189452 *00,300*

Concepts for Fire Protection of Passenger Rail Transportation Vehicles: Past, Present, and Future.
PB96-102868 *04,853*

Protecting Your Family from Fire.
PB96-156187 *00,307*

Methodology for Developing and Implementing Alternative Temperature-Time Curves for Testing the Fire Resistance of Barriers for Nuclear Power Plant Applications.
PB96-193784 *03,742*

Fire Protection Foam Behavior in a Radiative Environment.
PB97-116131 *00,237*

FIRE RESEARCH

Gordon Research Conference on the Physics and Chemistry of Laser Diagnostics in Combustion Held in Plymouth, New Hampshire on 12-16 July 1993.
AD-A274 609/7 *01,353*

Some Factors Affecting Design of a Furniture Calorimeter Hood and Exhaust.
PB94-139193 *00,285*

Fire Induced Thermal Fields in Window Glass I: Theory.
PB94-139722 *00,328*

Two Numerical Techniques for Light Scattering by Dielectric Agglomerated Structures.
PB94-140597 *04,225*

Computational Model for the Rise and Dispersion of Wind-Blown, Buoyancy-Driven Plumes. Part 2. Linearly Stratified Atmosphere.
PB94-143427 *00,119*

Ground-Based Smoke Sampling Techniques Training Course and Collaborative Local Smoke Sampling in Saudi Arabia.
PB94-143542 *02,532*

Use of Computer Models to Predict Temperature and Smoke Movement in High Bay Spaces.
PB94-145976 *00,191*

Fire Safety of Passenger Trains: A Review of Current Approaches and of New Concepts.
PB94-152006 *04,848*

Concurrent Flow Flame Spread Study.
PB94-156866 *01,356*

Transient Cooling of a Hot Surface by Droplets Evaporation.
PB94-156957 *03,783*

Numerical Analysis Support for Compartment Fire Modeling and Incorporation of Heat Conduction into a Zone Fire Model.
PB94-156965 *01,357*

Summaries of Center for Fire Research In-House Projects and Grants: 1990.
PB94-160876 *00,286*

Feasibility and Design Considerations of Emergency Evacuation by Elevators.
PB94-163441 *00,287*

BFRL Fire Publications, 1993.
PB94-164191 *00,192*

Radiation and Mixing Properties of Buoyant Turbulent Diffusion Flames.
PB94-165974 *01,360*

Improvement in Predicting Smoke Movement in Compartmented Structures.
PB94-172418 *00,332*

Greatly Enhanced Soot Scattering in Flickering Ch4/Air Diffusion Flames.
PB94-172988 *01,361*

Fire Hazard and Risk: Evaluating Alternative Technologies.
PB94-173077 *00,242*

Fluorinated Hydrocarbon Flame Suppression Chemistry.
PB94-185113 *01,362*

Flame Retardants - Overview.
PB94-185287 *01,363*

Laser Imaging of Chemistry-Flowfield Interactions: Enhanced Soot Formation in Time-Varying Diffusion Flames.
PB94-185352 *01,364*

Calculating Flame Spread on Horizontal and Vertical Surfaces.
PB94-187283 *00,335*

Prediction of Fire Dynamics.
PB94-193620 *00,336*

Mathematical Modeling of Human Egress from Fires in Residential Buildings.
PB94-193778 *00,337*

Structure and Radiation Properties of Pool Fires.
PB94-193802 *02,473*

Fire Propagation in Concurrent Flows.
PB94-193844 *01,365*

Backdraft Phenomena.
PB94-193927 *01,366*

Investigation of Oil and Gas Well Fires and Flares.
PB94-193976 *03,695*

Risk Analysis for the Fire Safety of Airline Passengers.
PB94-194065 *04,862*

Performance Parameters of Fire Detection Systems.
PB94-194339 *00,288*

CONTAM88 Building Input Files for Multi-Zone Airflow and Contaminant Dispersal Modeling.
PB94-194388 *02,537*

Fire Growth Models for Materials.
PB94-195856 *01,367*

Behavior of Charring Materials in Simulated Fire Environments.
PB94-196045 *01,368*

Effective Measurement Techniques for Heat, Smoke, and Toxic Fire Gases.
PB94-198439 *01,369*

Modern Test Methods for Flammability.
PB94-198447 *01,370*

Toxicity, Fire Hazard and Upholstered Furniture.
PB94-198454 *00,289*

Standardization of Formats and Presentation of Fire Data - The FDMS.
PB94-198462 *01,371*

Studies Assess Performance of Residential Detectors.
PB94-199262 *00,290*

Analysis of the Happyland Social Club Fire with HAZARD I.
PB94-199270 *00,193*

Generation and Characterization of Acetylene Smokes.
PB94-200292 *01,372*

Ultrafine Combustion Aerosol Generator.
PB94-200300 *01,373*

Evaluation of Alternative In-Flight Fire Suppressants for Full-Scale Testing in Simulated Aircraft Engine Nacelles and Dry Bays.
PB94-203403 *00,023*

Fire Growth Analysis of the Fire of March 20, 1990, Pulaski Building, 20 Massachusetts Avenue, N.W., Washington, DC.
PB94-205952 *00,194*

Development of the Fire Data Management System.
PB94-206091 *00,339*

Upward Flame Spread along the Vertical Corner Walls (October 1993).
PB94-206299 *00,340*

Evaluating Small Board and Care Homes: Sprinklered vs. Nonsprinklered Fire Protection.
PB94-206356 *00,195*

Turbulent Upward Flame Spread on a Vertical Wall under External Radiation.
PB94-207388 *00,341*

Comparison of Wall-Fire Behavior With and Without a Ceiling.
PB94-207404 *00,342*

Global Equivalence Ratio Concept and the Prediction of Carbon Monoxide Formation in Enclosure Fires.
PB94-207511 *00,313*

Combined Buoyancy- and Pressure-Driven Flow Through a Shallow, Horizontal, Circular Vent.
PB94-210077 *00,344*

VENTCF2: An Algorithm and Associated FORTRAN 77 Subroutine for Calculating Flow through a Horizontal Ceiling/Floor Vent in a Zone-Type Compartment Fire Model.
PB94-210127 *00,345*

Suppression Research: Strategies.
PB94-211372 *00,346*

Estimate of Flame Radiance via a Single Location Measurement in Liquid Pool Flames.
PB94-211596 *02,476*

Measurement of Radiative Feedback to the Fuel Surface of a Pool Fire.
PB94-211604 *02,477*

Laser-Induced Fluorescence Measurements of Formaldehyde in a Methane/Air Diffusion Flame.
PB94-211679 *01,374*

Rate of Heat Release of Wood Products.
PB94-212404 *03,403*

Effects of Molecular Weight and Thermal Stability on Polymer Gasification.
PB94-212610 *01,228*

Application of Boundary Element Methods to a Transient Axis-Symmetric Heat Conduction Problem.
PB94-212693 *01,375*

Full Scale Smoke Control Tests at the Plaza Hotel Building.
PB94-212859 *00,347*

Overview of Smoke Control Technology.
PB94-212867 *00,348*

Preview of ASHRAE's Revised Smoke Control Manual.
PB94-212875 *00,349*

Smoke Control Systems for Elevator Fire Evacuation.
PB94-212883 *00,291*

Development of a New Small-Scale Smoke Toxicity Test Method and Its Comparison with Real-Scale Fire Tests.
PB94-213253 *00,350*

EXITT: A Simulation Model of Occupant Decisions and Actions in Residential Fires.
PB94-213261 *00,351*

Investigation of the Thermal Stability and Char-Forming Tendency of Cross-linked Poly(methyl methacrylate).
PB94-213501 *03,380*

Measurement of Room Conditions and Response of Sprinklers and Smoke Detectors during a Simulated Two-Bed Hospital Patient Room Fire.
PB94-213717 *00,292*

Feasibility of Fire Evacuation by Elevators at FAA Control Towers.
PB94-213857 *04,844*

Sprinkler Fire Suppression Algorithm.
PB94-216181 *00,293*

Human Factors Considerations for the Potential Use of Elevators for Fire Evacuation of FAA Air Traffic Control Towers.
PB94-217163 *01,300*

In Situ Burning Oil Spill Workshop Proceedings. Held in Orlando, Florida on January 26-28, 1994.
PB95-104907 *02,583*

Annual Conference on Fire Research: Book of Abstracts, October 17-20, 1994.
PB95-104964 *01,376*

Study of Droplet Transport in Alcohol-Based Spray Flames Using Phase/Doppler Interferometry.
PB95-108551 *02,479*

Structure of a Swirl-Stabilized Kerosene Spray Flame.
PB95-108569 *02,480*

Verification of a Model of Fire and Smoke Transport.
PB95-108718 *00,357*

Global Climatic Effects of Aerosols: The AAAR Symposium.
PB95-108791 *00,122*

Suggestions for a Logically-Consistent Structure for Service Life Prediction Standards.
PB95-125795 *00,358*

Relating Bench-Scale and Full-Scale Toxicity Data.
PB95-125977 *00,361*

Dispersion and Deposition of Smoke Plumes Generated in Massive Fires.
PB95-126066 *02,540*

Assessment of Technologies for Advanced Fire Detection.
PB95-126330 *00,294*

Summaries of BFRL Fire Research In-House Projects and Grants, 1994.
PB95-130845 *00,366*

FPETOOL: Fire Protection Tools for Hazard Estimation. An Overview of Features.
PB95-140885 *00,367*

Comparison of Experimental and Computed Species Concentration and Temperature Profiles in Laminar, Two-Dimensional Methane/Air Diffusion Flames.
PB95-140919 *01,379*

One- and Two-Sided Burning of Thermally Thin Materials.
PB95-140935 *03,151*

Simulating Smoke Movement through Long Vertical Shafts in Zone-Type Compartment Fire Models.
PB95-143152 *00,368*

Transient Cooling of a Hot Surface by Droplets Evaporation.
PB95-143194 *03,890*

Building and Fire Research Laboratory Publications, 1993.
PB95-143202 *00,369*

Investigation into the Flammability Properties of Honeycomb Composites.
PB95-143293 *03,152*

Airborne Smoke Sampling Package for Field Measurements of Fires.
PB95-150041 *01,381*

Oxidation of Soot and Carbon Monoxide in Hydrocarbon Diffusion Flames.
PB95-150215 *01,382*

Fire Service and Fire Sciences: A Winning Combination.
PB95-150264 *01,383*

Estimate of the Effect of Scale on Radiative Heat Loss Fraction and Combustion Efficiency.
PB95-150447 *02,486*

Optical Measurements of Atomic Hydrogen, Hydroxyl, and Carbon Monoxide in Hydrocarbon Diffusion Flames.
PB95-150900 *02,487*

Approximate Confidence Intervals on Linear Combinations of Expected Mean Squares.
PB95-151296 *03,435*

Flame Synthesis of High Tc Superconductors.
PB95-151981 *00,659*

Effects of Specimen Edge Conditions on Heat Release Rate.
PB95-152864 *00,375*

Turbulent Spray Burner for Assessing Halon Alternative Fire Suppressants.
PB95-153748 *01,385*

Method of Predicting Smoke Movement in Atria with Application to Smoke Management.
PB95-154746 *00,376*

Locating Fire Engineering Information.

PB95-151981 *00,659*

FLAMES
Ignition and Subsequent Transition to Flame Spread in a Microgravity Environment.
N96-15584/1 *04,828*

Fluorinated Hydrocarbon Flame Suppression Chemistry.
PB94-185113 *01,362*

Estimate of Flame Radiance via a Single Location Measurement in Liquid Pool Flames.
PB94-211596 *02,476*

Structure of a Swirl-Stabilized Kerosene Spray Flame.
PB95-108569 *02,480*

Burning Rate and Flame Heat Flux For PMMA in the Cone Calorimeter.
PB95-216990 *00,393*

Heights of Wall-Fire Flames.
PB96-148192 *00,212*

Role of Combustion on Droplet Transport in Pressure-Atomized Spray Flames.
PB96-204433 *01,434*

Heat Flux from Flames to Vertical Surfaces.
PB97-110357 *01,438*

In-situ Studies of a Novel Sodium Flame Process for Synthesis of Fine Particles.
PB97-113047 *00,681*

FLAMMABILITY
Reaction Sensitivities of Al-Li Alloys and Alloy 2219 in Mechanical-Impact Tests.
PB94-172764 *03,314*

Modern Test Methods for Flammability.
PB94-198447 *01,370*

Recommended Changes in ASTM Test Methods D2512-82 and G86-84 for Oxygen-Compatibility Mechanical Impact Tests on Metals.
PB94-216694 *03,338*

One- and Two-Sided Burning of Thermally Thin Materials.
PB95-140935 *03,151*

Investigation into the Flammability Properties of Honeycomb Composites.
PB95-143293 *03,152*

Polymer Combustion and Flammability: Role of the Condensed Phase.
PB96-123245 *01,279*

Flammability Characterization with the Lift Apparatus and the Cone Calorimeter.
PB97-110050 *01,435*

NIST Research on Less-Flammable Materials.
PB97-118632 *01,439*

FLAMMABILITY TESTING
Behavior of Mock-Ups in the California Technical Bulletin 133 Test Protocol: Fabric and Barrier Effects.
PB95-231585 *00,301*

Predicting the Ignition Time and Burning Rate of Thermoplastics in the Cone Calorimeter.
PB96-154794 *01,418*

Quantifying the Ignition Propensity of Cigarettes.
PB96-155411 *00,306*

Effects of Sample Mounting on Flammability Properties of Intumescent Polymers.
PB96-159777 *03,389*

Computer-Aided Molecular Design of Fire Resistant Aircraft Materials.
PB96-160601 *00,025*

FLARE STARS
High-Velocity Plasma in the Transition Region of AU Microscopii: Evidence for Magnetic Reconnection and Saturated Heating during Quiescent and Flaring Conditions.
PB96-102694 *00,091*

FLASKS
Specifications and Tolerances for Reference Standards and Field Standard Weights and Measures. 2. Specifications and Tolerances for Field Standard Measuring Flasks.
PB96-178926 *02,682*

FLAT PANEL DISPLAYS
NIST Workshop on the Computer Interface to Flat Panel Displays. Held in San Jose, California on January 13-14, 1994.
PB95-136388 *01,625*

Survey of the Components of Display-Measurement Standards.
PB96-122528 *02,188*

FLAW INSENSITIVITY
Flaw-Insensitive Ceramics.
PB97-110027 *03,095*

FLAW TOLERANCE
Correlations between Flaw Tolerance and Reliability in Zirconia.
PB96-161922 *02,986*

Objective Evaluation of Short-Crack Toughness Curves Using Indentation Flaws: Case Study on Alumina-Based Ceramics.
PB96-179429 *03,079*

Flaw-Tolerance and Crack-Resistance Properties of Alumina-Aluminum Titanate Composites with Tailored Microstructures.
PB97-110324 *03,101*

FLAW TOLERANCES
Flaw Tolerance and Toughness Curves in Two-Phase Particulate Composites: SiC/Glass System.
PB96-179460 *03,081*

FLEET MANAGEMENT
AutoBid 2.0: The Microcomputer System for Police Patrol Vehicle Selection.
PB96-154570 *04,871*

FLEXIBLE PAVEMENTS
System for Calibration of the Marshall Compaction Hammer.
PB94-145661 *01,303*

Development of a Method for Measuring Water-Stripping Resistance of Asphalt/Siliceous Aggregate Mixtures.
PB96-197249 *01,348*

FLEXING
Observed and Theoretical Creep Rates for an Alumina Ceramic and a Silicon Nitride Ceramic in Flexure.
PB94-212958 *03,040*

Flat and Rising R-Curves for Elliptical Surface Cracks from Indentation and Superposed Flexure.
PB95-161295 *03,156*

FLEXURAL PROPERTIES
Crack Growth Resistance of Strain-Softening Materials under Flexural Loading.
PB94-200227 *02,972*

FLEXURAL SPRINGS
Design Equations and Scaling Laws for Linear Compressors with Flexure Springs.
PB95-168902 *02,948*

FLIGHT
Stylus Flight in Surface Profiling.
PB96-123138 *02,675*

FLIGHT TELEROBOTIC SERVICER
Evolution of the Flight Telerobotic Servicer.
PB94-216082 *04,832*

FLIP-CHIP TECHNOLOGY
Microwave Characterization of Flip-Chip MMIC Components.
PB96-176722 *02,434*

Microwave Characterization of Flip-Chip MMIC Interconnections.
PB96-176730 *02,435*

Electrical Measurements of Microwave Flip-Chip Interconnections.
PB96-176748 *02,436*

FLOATING POINT ARITHMETIC
Underflow-Induced Graphics Failure Solved by SLI Arithmetic.
PB95-161444 *01,712*

Parallel and Serial Implementations of SLI Arithmetic.
PB95-242335 *01,732*

FLOORS
Fire Performance of an Interstitial Space Construction System.
PB95-188918 *00,390*

Testing of Selected Self-Leveling Compounds for Floors.
PB95-220455 *00,395*

Materials-Science Based Approach to Phenol Emissions from a Flooring Material in an Office Building.
PB97-118749 *02,572*

FLOREFFE TERMINAL
Ashland Tank Collapse Investigation.
PB95-126314 *02,481*

Ashland Tank-Collapse Investigation: Closure by Authors.
PB95-126322 *02,482*

FLOW CALIBRATION
Cryogenic Flow Calibration in NIST.
PB96-161930 *01,143*

FLOW CHARACTERISTICS
Effect of Heterogeneous Porous Media on Mold Filling in Resin Transfer Molding.
PB95-108676 *03,197*

FLOW CONDITIONERS
Flow Conditioner Tests for Three Orifice Flowmeter Sizes.
PB95-105540 *04,201*

FLOW DISTORTION
Comparing NIST-B 50 mm Orifice Meter Gas Data to the ANSI Equation.
PB95-169207 *02,949*

FLOW DISTRIBUTION
Ignition and Subsequent Transition to Flame Spread in a Microgravity Environment.
N96-15584/1 *04,828*

Comparison of the Unidirectional and Radial In-Plane Flow of Fluids Through Woven Composite Reinforcements.
PB95-162004 *02,698*

Interaction between Micro and Macroscopic Flow in RTM Preforms.
PB95-162012 *03,159*

FLOW FIELDS
Laser Imaging of Chemistry-Flowfield Interactions: Enhanced Soot Formation in Time-Varying Diffusion Flames.
PB94-185352 *01,364*

Tomographic Reconstruction of the Moments of Local Probability Density Functions in Turbulent Flow Fields.
PB96-180195 *04,219*

FLOW GEOMETRY
Heat Transfer in Thin, Compact Heat Exchangers with Circular, Rectangular, or Pin-Fin Flow Passages.
PB95-140943 *02,751*

FLOW INDUCED STRUCTURES
Flow-Induced Structure in Polymer. Chapter 1. An Introduction to Flow-Induced Structures in Polymers.
PB96-123369 *03,387*

Flow-Induced Structure in Polymers. Chapter 17. Phase-Separation Kinetics of a Polymer Blend Solution Studied by a Two-Step Shear Quench.
PB96-123377 *03,388*

FLOW INJECTION
Flow Immunoassay Using Solid-Phase Entrapment.
PB96-200951 *00,642*

FLOW INJECTION ANALYSIS
Liposome-Based Flow-Injection Immunoassay for Determining Theophylline in Serum.
PB94-213493 *03,494*

Potentiometric Enzyme-Amplified Flow Injection Analysis Detection System: Behavior of Free and Liposome-Released Peroxidase.
PB95-151833 *03,534*

Amperometric Flow-Injection Analysis Biosensor for Glucose Based on Graphite Paste Modified with Tetracyanoquinodimethane.
PB95-161980 *03,498*

FLOW MEASUREMENT
Ventilation Rates in Office Buildings.
PB95-108825 *02,539*

Energy Flows in an Orifice Pulse Tube Refrigerator.
PB95-169082 *02,752*

Laser Doppler Velocimeter Studies of the Pipeflow Produced by a Generic Header.
PB95-226916 *02,602*

Sliding Vane Flow Conditioner Tests in a 100 Diameter Long 10 inch Natural Gas Orifice Meter at Pacific Gas and Electric. Topical Report, 1990-1992.
PB95-256335 *02,493*

FLOW METERS
Summary Report of NIST's Industry-Government Consortium Research Program on Flowmeter Installation Effects with Emphasis on the Research Period, January-September 1991: The Reducer.
PB94-160736 *04,196*

Summary Report of NIST's Industry-Government Consortium Research Program on Flowmeter Installation Effects: The 45 Degree Elbow.
PB95-143061 *04,204*

Laser Doppler Velocimeter Studies of the Pipeflow Produced by a Generic Header.
PB95-226916 *02,602*

Critical Evaluation of Thermal Mass Flow Meters.
PB97-113153 *00,683*

FLOW MODELS
Improvement in Predicting Smoke Movement in Compartmented Structures.
PB94-172418 *00,332*

Modeling Radon Transport in Multistory Residential Buildings.
PB95-162087 *00,256*

FLOW RATE
Experimental Data and Theoretical Modeling of Gas Flows Through Metal Capillary Leaks.
PB95-150892 *04,206*

FLOW VELOCITY
Backdraft Phenomena.
PB94-193927 *01,366*

FLOW VISUALIZATION
Visual Measurement Technique for Analysis of Nucleate Flow Boiling.
PB95-143301 *03,262*

FLOWGRAPHS
Method to Determine a Basis Set of Paths to Perform Program Testing.
PB96-131503 *01,747*

FLOWMETERS
Flow Conditioner Tests for Three Orifice Flowmeter Sizes.
PB95-105540 *04,201*

Comparing NIST-B 50 mm Orifice Meter Gas Data to the ANSI Equation.
PB95-169207 *02,949*

Effects of Pipe Elbows and Tube Bundles on Selected Types of Flowmeters.
PB96-160999 *01,135*

SSME LOX Duct Flowmeter Design and Test Results.
PB96-161955 *04,826*

Flowmeter Installation Effects Due to a Generic Header.
PB96-210893 *02,606*

FLUCTUATIONS
Fluctuation Dominated Recombination Kinetics with Traps.
PB95-107264 *00,875*

Mesoscopic Conductance Fluctuations in Large Devices.
PB96-119656 *04,735*

Quantum Conductance Fluctuations in the Larger-Size-Scale Regime.
PB97-111264 *04,144*

Orientational Fluctuations, Diffuse Scattering, and Orientational Order in Solid C60.
PB97-119275 *04,176*

FLUID FLOW
Reconstructing Stratified Fluid Flow from Reciprocal Scattering Measurements.
PB95-107256 *04,202*

Effect of Heterogeneous Porous Media on Mold Filling in Resin Transfer Molding.
PB95-108676 *03,197*

Comparison of the Unidirectional and Radial In-Plane Flow of Fluids Through Woven Composite Reinforcements.
PB95-162004 *02,698*

Flow of Alternative Agents in Piping.
PB95-202420 *00,022*

FLUID MIXERS
Milliwatt Mixer for Small Fluid Samples.
PB94-198819 *02,634*

FLUIDELASTICITY
Chaotic Motions of Coupled Galloping Oscillators and Their Modeling as Diffusion Progresses.
PB96-122718 *04,823*

FLUIDS
Survey of the Literature on Heat Transfer from Solid Surfaces to Cryogenic Fluids.
AD-A286 680/4 *04,193*

Ebulliometers for Measuring the Thermodynamic Properties of Fluids and Fluid Mixtures.
DE94017817 *04,195*

Thermophysical Properties of Fluids for the Gas Industry. Final Report, February 1, 1988-August 31, 1993.
PB94-146677 *02,472*

Transient Methods for Thermal Conductivity.
PB94-198405 *04,197*

Measurements of the Viscosities of Saturated and Compressed Fluid 1-chloro-1,2,2,2-tetrafluoroethane (R124) and Pentafluoroethane (R125) at Temperatures between 120 and 420 K.
PB94-199791 *03,254*

Global Thermodynamic Behavior of Fluid Mixtures in the Critical Region.
PB94-212420 *04,199*

Thermophysical Property Computer Packages from NIST.
PB95-125787 *04,203*

Thermophysical Properties of Fluids for the Gas Industry.
PB96-122437 *02,494*

FLUIDS: LIQUIDS/GASES/PLASMAS
Characteristics of Turbulence in a Boundary Layer with Zero Pressure Gradient.
AD-A278 249/8 *04,192*

Air Flow in the Boundary Layer of an Elliptic Cylinder.
AD-A297 391/5 *04,194*

Distributed measurements of tracer response on packed bed flows using a fiberoptic probe array. Final report.
DE95013079 *00,667*

Summary Report of NIST's Industry-Government Consortium Research Program on Flowmeter Installation Effects with Emphasis on the Research Period, January-September 1991: The Reducer.
PB94-160736 *04,196*

Transient Methods for Thermal Conductivity.
PB94-198405 *04,197*

Liquid and Solid Atomic Ion Plasmas.
PB94-198991 *03,809*

Absorption of Ultrasonic Waves in Air at High Frequencies (10-20 MHz).
PB94-199007 *04,182*

Asymptotic Behavior of Modulated Taylor-Couette Flows with a Crystalline Inner Cylinder.
PB94-199072 *04,469*

Summary of the Patent Literature of Supercritical Fluid Technology.
PB94-199213 *00,502*

Development in the Theory and Analysis of Eddy Current Sensing of Velocity in Liquid Metals.
PB94-212586 *03,335*

Evolution of a Turbulent Boundary Layer Induced by a Three-Dimensional Roughness Element.
PB94-212818 *04,200*

Reconstructing Stratified Fluid Flow from Reciprocal Scattering Measurements.
PB95-107256 *04,202*

Structure of the Vapor-Liquid Interface Near the Critical Point.
PB95-140174 *00,902*

Flow of Microemulsions through Microscopic Pores.
PB95-140463 *00,905*

Summary Report of NIST's Industry-Government Consortium Research Program on Flowmeter Installation Effects: The 45 Degree Elbow.

Electrophoretic Separations of Polymerase Chain Reaction: Amplified DNA Fragments in DNA Typing Using a Capillary Electrophoresis-Lased Induced Fluorescence System.
PB95-163036 *03,536*

Enhanced Detection of PCR Products Through Use of TQTO and YOYO Intercalating Dyes with Laser Induced Fluorescence - Capillary Electrophoresis.
PB95-164653 *00,599*

Fluorescence Measurements of Tetracycline in High Cell Mass for Fermentation Monitoring.
PB95-175709 *00,601*

FLUORESCENCE STANDARDS
Standards for Corrected Fluorescence Spectra.
PB95-150835 *00,581*

FLUORESCENT DYES
Applications of Fluorescence Spectroscopy in Polymer Science and Technology.
PB95-163770 *01,258*

FLUORESCENT LAMPS
Performance of Compact Fluorescent Lamps at Different Ambient Temperatures.
PB95-175329 *00,258*

FLUORESCENT SCREENS
Image Information Transfer Properties of X-Ray Intensifying Screens in the Energy Range from 17 to 320 keV.
PB95-126173 *00,155*

FLUORIDE
Fluoride Analytical Methods.
PB96-180237 *03,578*

FLUORIDES
Deposition of Loosely Bound and Firmly Bound Fluorides on Tooth Enamel by an Acidic Gel Containing Fluorosilicate and Monocalcium Phosphate Monohydrate.
PB95-150710 *03,559*

Distribution of Fluoride in Saliva and Plaque Fluid After a 0.048 mol/L NaF Rinse.
PB95-151205 *03,561*

FLUORINATED ACRYLATES
Facile Synthesis of Novel Fluorinated Multifunctional Acrylates.
PB94-198389 *01,207*

FLUORINATED ALIPHATIC HYDROCARBONS
Measurement of the Thermal Properties of Electrically Conducting Fluids Using Coated Transient Hot Wires.
DE94017816 *00,722*

FLUORINATED CELIPHATIC HYDROCARBONS
Vapour Pressures and Gas-Phase (p, rho n, T) Values for CF3CHF2(R125).
PB96-102090 *04,019*

FLUORINATED HYDROCARBONS
Burning Rate of Premixed Methane-Air Flames Inhibited by Fluorinated Hydrocarbons.
PB95-180584 *01,391*

FLUORINATION
Thermochemical and Chemical Kinetic Data for Fluorinated Hydrocarbons.
PB95-260618 *01,056*

FLUORINE
Influence of Coadsorbed Potassium on the Electron-Stimulated Desorption of F(+), F(-), and F(*) from PF3 on Ru(0001).
PB96-157946 *04,072*

FLUORINE-COMBUSTION CALORIMETRY
Thermochemical Studies of Inorganic Chalocogenides by Fluorine-Combustion Calorimetry: Binary Compounds of Germanium and Silicon with Sulfur, Selenium and Tellurium.
PB97-112528 *01,181*

FLUORINE ORGANIC COMPOUNDS
Facile Synthesis of Novel Fluorinated Multifunctional Acrylates.
PB94-198389 *01,207*

Thermodynamic Properties of CHF2-O-CHF2,Bis(difluoromethyl) Ether.
PB94-199569 *00,798*

FLUOROALKANES
Electronic Spectra of CF2Cl and CFCl2 Radicals Observed by Resonance Enhanced Multiphoton Ionization.
PB95-151023 *00,927*

FLUOROCARBONS
Retention of Halocarbons on a Hexafluoropropylene Epoxide Modified Graphitized Carbon Black. Part 1. Methane-Based Compounds.
PB95-175196 *03,272*

Retention of Halocarbons on a Hexafluoropropylene Epoxide-Modified Graphitized Carbon Black. 4. Propane-Based Compounds.
PB96-164033 *03,284*

Retention of Halocarbons on a Hexafluoropropylene Epoxide-Modified Graphitized Carbon Black. 3. Ethene-Based Compounds.
PB96-167309 *03,286*

Halon Thermochemistry: 'Ab Initio' Calculations of the Enthalpies of Formation of Fluoromethanes.
PB96-175740 *03,289*

FLUOROHYDROCARBONS
Fluorinated Hydrocarbon Flame Suppression Chemistry.
PB94-185113 *01,362*

Thermodynamic Properties of Difluoromethane.
PB94-185204 *00,772*

Thermal Conductivity of R134a.
PB94-213063 *03,857*

Polarized Transient Hot Wire Thermal Conductivity Measurements.
PB95-108817 *00,886*

Ebulliometric Measurement of the Vapor Pressure of Difluoromethane.
PB95-151361 *00,931*

Dielectric Studies of Fluids with Reentrant Resonators.
PB95-153730 *00,952*

Viscosity of the Saturated Liquid Phase of Six Halogenated Compounds and Three Mixtures.
PB95-162368 *00,960*

Criteria for Establishing Accurate Vapor Pressure Curves.
PB95-163812 *00,972*

Ebulliometric Measurement of the Vapor Pressure of 1-Chloro-1,1-Difluoroethane and 1,1-Difluoroethane.
PB95-164489 *00,984*

Thermodynamic Properties of R134a(1,1,1,2-Tetrafluoroethane).
PB95-168704 *00,988*

Measurements of Molar Heat Capacity at Constant Volume (Cv) for 1,1,1,2-Tetrafluoroethane (R134a).
PB95-168878 *03,264*

Vapour Pressure Measurements on 1,1,1,2-Tetrafluoroethane (R134a) from 180 to 350 K.
PB95-168886 *03,265*

Annex 18: An International Study of Refrigerant Properties.
PB95-168936 *03,266*

Development of a Dual-Sinker Densimeter for High-Accuracy Fluid P-V-T Measurements.
PB95-168951 *03,267*

Measurement of the Thermal Properties of Electrically Conducting Fluids Using Coated Transient Hot Wires.
PB95-169058 *03,269*

Measurements of the Vapor Pressures of Difluoromethane, 1-Chloro-1,2,2,2-Tetrafluoroethane, and Pentafluoroethane.
PB95-169272 *03,270*

Vapor Pressures and Gas-Phase PVT Data for 1-Chloro-1,2,2,2-Tetrafluoroethane (R124).
PB95-175154 *03,271*

Predictive Extended Corresponding States Model for Pure and Mixed Refrigerants Including an Equation of State for R134a.
PB95-175717 *03,275*

FLUOROMETHANES
Experimental and Numerical Burning Rates of Premixed Methane-Air Inhibited by Fluoromethanes.
PB95-180592 *01,392*

FLUOROMETRY
Optical Biosensor Using a Fluorescent, Swelling Sensing Element.
PB95-175899 *03,541*

FLUOROTOLUENES
Acceleration of Intramolecular Vibrational Redistribution by methyl Internal Rotation. A Chemical Timing Study of p-fluorotoluene and p-fluorotoluene-d3.
PB95-202982 *01,039*

FLUX PINNING
Temperature Dependence of Vortex Twin Boundary Interaction in Yttrium Barium Copper Oxide (YBa2Cu3O6+x).
PB95-162442 *04,613*

Enhanced Flux Pinning via Chemical Substitution in Bulk Superconducting T1-2212.
PB95-169033 *04,647*

Increased Pinning Energies and Critical Current Densities in Heavy-Ion-Irradiated Bi2Sr2CaCu2O8 Single Crystals.
PB95-175352 *04,654*

Crossover in the Pinning Mechanism of Anisotropic Fluxon Cores.
PB95-180170 *04,673*

Temperature and Field Dependence of Flux Pinning in NbTi with Aritificial Pinning Centers.
PB96-112024 *04,726*

Magnetic Flux Pinning in Epitaxial YBa2Cu3O7-delta Thin Films.
PB96-200746 *04,795*

FLUX (RATE)
Single Photon Laser Ionization as an In-situ Diagnostic for MBE growth.
PB96-102025 *01,059*

FLUX TRANSFORMERS
Fabrication Issues in Optimizing YBa2Cu3O7-x Flux Transformers for Low I/f Noise.
PB95-175857 *02,059*

Low Noise YBa2Cu3O7-x-SrTiO3-YBa2Cu3O7-x Mulitlayers for Improved Superconducting Magnetometers.
PB96-138417 *04,747*

FLUX TRAPPING
Trapped Vortices in a Superconducting Microbridge.
PB95-141149 *04,554*

FLUX VORTICES
Trapped Vortices in a Superconducting Microbridge.
PB95-141149 *04,554*

FLUXON OSCILLATIONS
SUSAN: SUperconducting Systems ANalysis by Low Temperature Scanning Electron Microscopy (LTSEM).
PB96-112065 *04,728*

FLUXONS
Deformable Superconductor Model for the Fluxon Mass.
PB95-175311 *04,653*

FLY ASH
Compositional Analysis of Beneficiated Fly Ashes.
PB95-220497 *00,397*

FOAM
Fire Protection Foam Behavior in a Radiative Environment.
PB97-116131 *00,237*

FOAMS
Effects of Humidity and Elevated Temperature on the Density and Thermal Conductivity of a Rigid Polyisocyanurate Foam Co-Blown with CCl3F and CO2.
PB95-150462 *00,371*

FOCUSING
Laser Focusing of Atoms: A Particle Optics Approach.
PB94-216660 *03,870*

Neutron Focusing Lens Using Polycapillary Fibers.
PB95-141206 *03,889*

FOIAS-TEMAM APPROXIMATION
Foias-Temam Approximations of Attractors for Galloping Oscillators.
PB94-198298 *04,817*

FOIAS-TEMAN APPROXIMATION
Algebraic Approximation of Attractors for Galloping Oscillators.
PB95-162897 *04,820*

FOKKER-PLANCK DESCRIPTIONS
Fokker-Planck Description of Multivalent Interactions.
PB95-108478 *00,879*

FOOD
Inter-Laboratory Trials of the EPR Method for the Detection of Irradiated Meats Containing Bone.
PB96-161690 *00,042*

FOOD ANALYSIS
Recently Developed NIST Food Related Standard Reference Materials.
PB94-198322 *00,035*

Individual Carotenoid Content of SRM 1548 Total Diet and Influence of Storage Temperature, Lyophilization, and Irradiation on Dietary Carotenoids.
PB94-200524 *00,033*

Mixed Diet Reference Materials for Nutrient Analysis of Foods: Preparation of SRM-1548 Total Diet.
PB95-151692 *03,593*

Liquid Chromatographic Method for the Determination of Carotenoids, Retinoids, and Tocopherols in Human Serum and in Food.
PB95-153599 *00,593*

FOOD CONTAMINATION
Recently Developed NIST Food Related Standard Reference Materials.
PB94-198322 *00,035*

FOOD IRRADIATION
Food Irradiation Dosimetry.
PB95-180675 *00,041*

Anionic Triphenylmethane Dye Solutions for Low-Dose Food Irradiation Dosimetry.
PB96-135173 *03,715*

FOOD PROCESSING
Estimation of the Absorbed Dose in Radiation-Processed Food. 2. Test of the EPR Response Function by an Exponential Fitting Analysis.
PB94-199650 *00,036*

Estimation of the Absorbed Dose in Radiation-Processed Food. 3. The Effect of Time of Evaluation on the Accuracy of the Estimate.
PB94-199684 *00,037*

Estimation of the Absorbed Dose in Radiation-Processed Food. 4. EPR Measurements on Eggshell.
PB94-199692 *00,038*

Estimation of the Absorbed Dose in Radiation-Processed Food. 1. Test of the EPR Response Function by a Linear Regression Analysis.
PB94-199718 *00,039*

Commentary on 'Optimization of Experimental Parameters for the EPR Detection of the Cellulosic Radical in Irradiated Foodstuffs'.
PB96-164124 *00,043*

FOOD STORAGE

Individual Carotenoid Content of SRM 1548 Total Diet and Influence of Storage Temperature, Lyophilization, and Irradiation on Dietary Carotenoids.
PB94-200524 *00,033*

FOOTWEAR

Program Requirements to Advance the Technology of Custom Footwear Manufacturing.
PB95-147906 *02,883*

FOOTWEAR INDUSTRY

Information Technologies Make Business Sense for the Custom Therapeutic Footwear Industry.
PB95-251708 *02,829*

FORCE MEASUREMENT

Force Calibrations in the Nanonewton Regime.
PB95-168696 *03,949*

FOREIGN COUNTRIES

Countries, Dependencies, Areas of Special Sovereignty, and Their Principal Administrative Divisions. Category: Data Standards and Guidelines; Subcategory: Representation and Codes.
FIPS PUB 10-4 *00,128*

Countries, Dependencies, Areas of Special Sovereignty, and Their Principal Administrative Divisions (for Microcomputers).
PB95-503504 *00,130*

FOREIGN TECHNOLOGY

Statistical Quality Control Technology in Japan.

FRAGILE GLASS
Long-Lived Structures in Fragile Glass-Forming Liquids.
PB96-119565 *04,212*

FRAME STRUCTURES
Survey of Steel Moment-Resisting Frame Buildings Affected by the 1994 Northridge Earthquake.
PB95-211918 *00,451*

FRAMES
Strengthening Methodology for Lightly Reinforced Concrete Frames-II. Recommended Calculation Techniques for the Design of Infill Walls.
PB94-187648 *00,426*

Strengthening Methodology for Lightly Reinforced Concrete Frames: Recommended Design Guidelines for Strengthening with Infill Walls.
PB95-260725 *00,454*

Strengthening Methodology for Lightly Reinforced Concrete Frames.
PB96-158050 *00,466*

FREE ELECTRON LASERS
NIST-NRL Free-Electron Laser Facility.
PB94-212511 *04,237*

Hybrid Undulator for the NIST-NRL Free-Electron Laser.
PB94-212529 *04,238*

FREE ENERGY
Interfacial Free Energies from Substrate Curvature Measurements of the Creep of Multilayer Thin Films.
PB94-185428 *04,448*

Stability and Surface Energies of Wetted Grain Boundaries in Aluminum Oxide.
PB95-202750 *03,059*

FREE ENERGY TRANSDUCTION
Imposed Oscillations of Kinetic Barriers Can Cause an Enzyme to Drive a Chemical Reaction Away from Equilibrium.
PB96-161625 *01,137*

FREE JETS
Global Density Effects on the Self-Preservation Behavior of Turbulent Free Jets.
PB95-162301 *04,207*

FREE RADICALS
Reaction Rate Determinations of Vinyl Radical Reactions with Vinyl, Methyl, and Hydrogen Atoms.
PB94-211398 *00,815*

Kinetics of the Reaction of CCl3-Br-2 and the Thermochemistry of CCl3 Radical and Cation.
PB94-212115 *00,824*

Experimental and Abinitio Studies of Electronic Structures of the CCl3 Radical and Cation.
PB94-212131 *00,826*

Electron Transfer Reaction Rates and Equilibria of the Carbonate and Sulfate Radical Anions.
PB94-212180 *00,829*

Multiphoton Ionization of SiH3 and SiD3 Radicals. 2. Three Photon Resonance-Enhanced Spectra Observed between 460 and 610 nm.
PB94-212487 *00,835*

New Electronic States of NH and ND Observed from 258 to 288 nm by Resonance Enhanced Multiphoton Ionization Spectroscopy.
PB94-212495 *00,836*

Multiphoton Ionization of SiH3 and SiD3 Radicals: Electronic Spectra, Vibrational Analyses of the Ground and Rydberg States, and Ionization Potential.
PB94-212503 *00,837*

Electronic Spectra of CF2Cl and CFCl2 Radicals Observed by Resonance Enhanced Multiphoton Ionization.
PB95-151023 *00,927*

Resonance Enhanced Multiphoton Ionization Spectroscopy of 2-Butene-1-yl (C4H7) between 455-485 nm.
PB95-151031 *00,670*

Polymerization Initiation by N-p-Tolylglycine: Free-Radical Reactions Studied by Pulse and Steady-State Radiolysis.
PB95-180014 01,269

Free Radical Chemistry of the Atmospheric Aqueous Phase.
PB96-148101 00,117

FREE ROTORS
Perpendicular C-H Stretching Band nu9/nu13 and the Torsional Potential of Dimethylacetylene.
PB97-122451 01,192

FREEZERS
Factors Affecting the Energy Consumption of Two Refrigerator-Freezers.
PB97-112312 00,311

FREEZING
Anomalous Freezing and Melting of Solvent Crystals in Swollen Gels of Natural Rubber.
PB94-212321 01,223

FREEZING POINT
Direct Comparison of Three PTB Silver Fixed-Point Cells with the NIST Silver Fixed-Point Cell.
PB96-161286 00,628

FREEZING POINT DEPRESSION
Anomalous Freezing and Melting of Solvent Crystals in Swollen Gels of Natural Rubber.
PB94-212321 01,223

FREONS
Thermophysical Properties of HFC-143a and HFC-152a. Quarterly Report, 1 July 1993--30 September 1993.
DE94004236 03,245

FREQUENCIES
Improved Molecular Constants and Frequencies for the CO2 Laser from New High-J Regular and Hot-Band Frequency Measurements.
PB95-180634 04,312

FREQUENCY
Aging, Warm-Up Time and Retrace; Important Characteristics of Standard Frequency Generators.
PB96-103122 04,031

FREQUENCY DISTRIBUTION
Effect of Harmonic Distortion on Phase Errors in Frequency Distribution and Synthesis.
PB96-200779 01,563

FREQUENCY DRIFT
Confidence on the Three-Point Estimator of Frequency Drift.

FURAN/METHYL-TETRAHYDRO
Atmospheric Reactivity of alpha-Methyl-Tetrahydrofuran.
PB95-163705 *02,548*

FURNACE
ITS-90 Calibration Facility.
PB96-160916 *00,627*

FURNANCES
High-Temperature Furnace for In situ Small-Angle Neutron Scattering during Ceramic Processing.
PB96-148127 *03,743*

FURNITURE
Some Factors Affecting Design of a Furniture Calorimeter Hood and Exhaust.
PB94-139193 *00,285*

Summaries of Center for Fire Research In-House Projects and Grants: 1990.
PB94-160876 *00,286*

Toxicity, Fire Hazard and Upholstered Furniture.
PB94-198454 *00,289*

Sprinkler Fire Suppression Algorithm.
PB94-216181 *00,293*

Summaries of BFRL Fire Research In-House Projects and Grants, 1994.
PB95-130845 *00,366*

Behavior of Mock-Ups in the California Technical Bulletin 133 Test Protocol: Fabric and Barrier Effects.
PB95-231585 *00,301*

Some Factors Affecting the Design of a Calorimeter Hood and Exhaust.
PB96-102181 *00,302*

Examination of the Correlation between Cone Calorimeter Data and Full-Scale Furniture Mock-Up Fires.
PB96-148200 *01,417*

NIST Research on Less-Flammable Materials.
PB97-118632 *01,439*

FUSE (FAR ULTRAVIOLET SPECTROGRAPH EXPLORER)
Scientific Rationale and Present Implementation Strategy for the Far Ultraviolet Spectrograph Explorer (FUSE).
PB96-123328 *00,045*

FUSE SATELLITE
FUSE: The Far Ultraviolet Spectrograph Explorer.
PB94-213410 *00,063*

FUSED SILICA
Fuzed-Quartz Fibers. A Survey of Properties, Applications and Production Methods.
AD-A286 620/0 *00,656*

FUSION (MELTING)
Calibration Standards for Differential Scanning Calorimetry. 1. Zinc Absolute Calorimetric Measurement of Enthalpy of Fusion and Temperature of Fusion HM.
PB94-199817 *00,801*

FUZZY LOGIC
Texture-Independent Vision-Based Closed-Loop Fuzzy Controllers for Navigation Tasks.
PB95-220505 *00,183*

G STARS
IUE Observations of Solar-Type Stars in the Pleiades and the Hyades.
PB94-199437 *00,053*

Far-Ultraviolet Flare on a Pleiades G Dwarf.
PB96-102033 *00,086*

GAAS/ALGAAS
Quantum Conductance Fluctuations in the Larger-Size-Scale Regime.
PB97-111264 *04,144*

GADOLINIUM GALLIUM FERRATES
Enhanced Magnetocaloric Effect in Gd3Ga5-xFexO12.
PB94-185659 *04,450*

Magnetocaloric Effect of Ferromagnetic Particles.
PB94-185857 *04,453*

GAGE BLOCKS
Gage Block Handbook.
PB95-251716 *02,667*

Gage Block Standards, Measurement Capabilities and Laboratory Accreditation.
PB96-163621 *02,757*

GALACTIC HALOS
Interstellar Disk-Halo Connection in Galaxies: Review of Observational Aspects.
PB94-211802 *00,058*

GALACTOPYRANOSIDE
Thermodynamics of the Binding of Galactopyranoside Derivatives to the Basic Lectin from Winged Bean (Psophocarpus Tetrogonolobus).
PB95-162715 *03,465*

GALERKIN METHOD
Alternative Contour Technique for the Efficient Computation of the Effective Length of an Antenna.
PB96-141361 *02,011*

GALLIUM
Arc Spectra of Gallium, Indium, and Thallium.
AD-A295 411/3 *00,718*

Characterization of the Binding of Gallium, Platinum, and Uranium to Pseudomonas Fluorescens by Small-Angle X-ray Scattering and Transmission Electron Microscopy.
PB94-172509 *03,453*

Single-Photon Ionization and Detection of Ga, In, and As(sub n) Species in GaAs Growth.
PB95-152815 *00,591*

In-situ Monitoring of Molecular Beam Epitaxial Growth Using Single Photon Ionization.
PB95-202222 *01,023*

Laser-Induced Desorption of In and Ga from Si(100) and Adsorbate Enhanced Surface Damage.
PB95-203311 *01,050*

Pulsed Laser Irradiation at 532 nm of In and Ga Adsorbed on Si(100): Desorption, Incorporation, and Damage.
PB95-203329 *01,051*

Single-Photon Laser Ionization Time-of-Flight Mass Spectroscopy Detection in Molecular-Beam Epitaxy: Application to As4, As2, and Ga.
PB95-203337 *01,052*

GALLIUM ANTIMONIDES
Epitaxial Growth of Sb/GaSb Structures: An Example of V/III-V Heteroepitaxy.
PB95-202560 *04,693*

GALLIUM ARSENIDE
X-ray Reflectivity Determination of Interface Roughness Correlated with Transport Properties of (AlGa)As/GaAs High Electron Mobility Transistor Devices.
PB97-111868 *04,149*

GALLIUM ARSENIDE TRANSISTORS
Effects of Heavy Doping on Numerical Simulations of Gallium Arsenide Bipolar Transistors.
PB95-150975 *02,334*

GALLIUM ARSENIDES
Junction Locations by Scanning Tunneling Microscopy: In-Air-Ambient Investigation of Passivated GaAs pn Junctions.
PB94-185964 *02,306*

X-Ray Photoelectron and Auger Electron Spectroscopy Study of Ultraviolet/Ozone Oxidized P2S5/(NH4)2S Treated GaAs(100) Surfaces.
PB94-200144 *04,479*

Grazing-Incidence X-Ray Photoemission Spectroscopy Investigation of Oxidized GaAs(100): A Novel Approach to Nondestructive Depth Profiling.
PB94-200151 *04,480*

Cs Cluster Binding to a GaAs Surface.
PB94-213006 *00,846*

Band-to-Band Photoluminescence and Luminescence Excitation in Extremely Heavily Carbon-Doped Epitaxial GaAs.
PB95-150413 *04,570*

Single-Photon Ionization and Detection of Ga, In, and As(sub n) Species in GaAs Growth.
PB95-152815 *00,591*

Grazing Angle X-Ray Photoemission System for Depth-Dependent Analysis.
PB95-161154 *04,600*

Lattice Position of Si in GaAs Determined by X-Ray Standing Wave Measurements.
PB95-164406 *04,632*

Characterization of the ZnSe/GaAs Interface Layer by TEM and Spectroscopic Ellipsometry.
PB95-175360 *04,655*

In-situ Monitoring of Molecular Beam Epitaxial Growth Using Single Photon Ionization.
PB95-202222 *01,023*

Laser Vacuum Ultraviolet Single Photon Ionization Probing of III-V Semiconductor Growth.
PB95-202370 *04,691*

Epitaxial Growth of Sb/GaSb Structures: An Example of V/III-V Heteroepitaxy.
PB95-202560 *04,693*

Single Photon Ionization, Laser Optical Probe Technique for Semiconductor Growth.
PB95-202776 *01,032*

Single-Photon Laser Ionization Time-of-Flight Mass Spectroscopy Detection in Molecular-Beam Epitaxy: Application to As4, As2, and Ga.
PB95-203337 *01,052*

Single Photon Laser Ionization as an In-situ Diagnostic for MBE growth.
PB96-102025 *01,059*

Time-Resolved Measurements of the Polarization State of Four-Wave Mixing Signals from GaAs Multiple Quantum Wells.
PB96-201058 *04,796*

Majority and Minority Electron and Hole Mobilities in Heavily Doped Gallium Aluminum Arsenide.
PB97-118335 *04,814*

GALLIUM INDIUM PHOSPHIDES
Surface Topography and Ordering-Variant Segregation in GaInP2.
PB95-153649 *04,595*

GALLIUM IONS
Relative Sensitivity Factors and Useful Yields for a Microfocused Gallium Ion Beam and Time-of-Flight Secondary Ion Mass Spectrometer.
PB94-198736 *00,541*

GALLOPING OSCILLATORS
Chaotic Motions of Coupled Galloping Oscillators and Their Modeling as Diffusion Progresses.
PB96-122718 *04,823*

GAMMA DOSIMETRY
Measurement of Absorbed Dose of Neutrons, and of Mixtures of Neutrons and gamma rays.
AD-A286 647/3 *03,710*

Thin Dyed-Plastic Dosimeter for Large Radiation Doses.
PB95-107363 *03,872*

GAMMA DRACONIS STAR
Ultraviolet Observations of Stellar Coronae: Early Results from HST.
PB94-213428 *00,064*

GAMMA RADIATION
Effect of Formulation Changes on the Response to Ionizing Radiation of Radiochromic Dye Films.
PB97-119028 *04,171*

GAMMA RAY ASTRONOMY
From Superconductivity to Supernovae: The Ginzburg Symposium. Report on the Symposium Held in Honor of Vitaly L. Ginzburg. Held in Gaithersburg, Maryland on May 22, 1992.
PB95-171963 *04,649*

GAMMA RAY SCATTERING
Polarization Effects on Multiple Scattering Gamma Transport.
PB95-153615 *03,926*

GAMMA RAY SPECTROMETRY
Dead Time, Pileup, and Accurate Gamma-Ray Spectrometry.
PB96-167101 *00,697*

GAMMA RAY SPECTROSCOPY
Local Area Networks in NAA: Advantages and Pitfalls.
PB94-172095 *00,527*

GAMMA RAYS
X-ray Attenuation Coefficients from 10 Kev to 100 Mev.
AD-A278 139/1 *03,765*

Penetration and Diffusion of Hard X-rays through Thick Barriers. III. Studies of Spectral Distributions.
AD-A292 502/2 *03,771*

Bibliography of Photon Total Cross Section (Attenuation Coefficient) Measurements 10 eV to 13.5 GeV, 1907-1993.
PB94-193760 *03,804*

DNA Base Damage Generated In vivo in Hepatic Chromatin of Mice upon Whole Body y-Irradiation.
PB95-161741 *03,627*

Tables of X-ray Mass Attenuation Coefficients and Mass Energy-Absorption Coefficients 1 keV to 20 MeV for Elements Z = 1 to 92 and 48 Additional Substances of Dosimetric Interest.
PB95-220539 *04,013*

Needs for Brachytherapy Source Calibrations in the United States.
PB97-110092 *03,521*

GAMMA SPECTROMETRY
Loss-Free Counting at IRI and NIST.
PB96-167119 *04,105*

GARNET FILMS
Micromagnetic Simulations of Tunneling Stabilized Magnetic Force Microscopy.
PB95-141073 *04,552*

GAS ABSORPTION
Gas Absorption during Ion-Irradiation of a Polymer Target.
PB96-161864 *04,099*

GAS ANALYSIS
Characteristics of Partial Pressure Analyzers.
PB95-150876 *00,582*

Vacuum Gauges and Partial Pressure Analyzers.
PB95-150884 *02,650*

Development of a Gas Standard Reference Material Containing Eighteen Volatile Organic Compounds.
PB95-162277 *02,545*

Process Monitoring with Residual Gas Analyzers (RGAs): Limiting Factors.
PB95-181004 *02,660*

NIST Traceable Reference Material Program for Gas Standards: Standard Reference Materials.
PB96-210786 *00,644*

GAS ATOMIZATION
Intelligent Control of an Inert Gas Atomization Process.
PB95-141057 *03,344*

Intelligent Processing of Materials, Technical Activities 1994 (NAS-NRC Assessment Panel, April 6-7, 1995).
PB96-115050 *03,359*

GAS CHROMATOGRAPHY
Comparison of Methods for Gas Chromatographic Determination of PCBs and Chlorinated Pesticides in Marine Reference Materials.
PB95-140091 *02,584*

Process Gas Chromatography Detector for Hydrocarbons Based on Catalytic Cracking.
PB95-141099 *02,485*

Shape Selectivity Assessment of Stationary Phases in Gas Chromatography.
PB95-150256 *00,579*

Comparison of Selectivities for PCBs in Gas Chromatography for a Series of Cyanobiphenyl Stationary Phases.
PB96-119458 *00,618*

All-Metal Collection System for Preparative-Scale Gas Chromatography: Purification of Low-Boiling-Point Compounds.
PB96-123435 *00,619*

Investigations of Sulfur Interferences in the Extraction of Methylmercury from Marine Tissues.
PB96-190020 *03,482*

GAS CHROMOTOGRAPHY
Procedure for Measuring Trace Quantities of S2F10, S2OF10, and S2O2F10 in SF6 Using a Gas Chromatograph-Mass Spectrometer.
PB96-119755 *02,513*

GAS CYLINDERS
Stability/Instability of Gas Mixtures Containing 1,3-Butadiene in Treated Aluminum Gas Cylinders.
PB95-162285 *02,546*

Stability of Compressed Gas Mixtures Containing Low Level Volatile Organic Compounds in Aluminum Cylinders.
PB96-111968 *00,613*

GAS DETECTORS
Conductance Response of Pd/SnO2(110) Model Gas Sensors to H2 and O2.
PB95-125803 *00,892*

Tin Oxide Gas Sensor Fabricated Using CMOS Micro-Hotplates and In-situ Processing.
PB95-150603 *00,580*

Fundamental Studies of Gas Sensor Response Mechanisms: Palladium on SnO2(110).
PB95-162731 *00,963*

NIST Workshop on Gas Sensors: Strategies for Future Technologies. Proceedings of a Workshop. Held in Gaithersburg, Maryland on September 8-9, 1993.
PB95-210225 *00,507*

GAS DISCHARGES
Excitation of Balmer Lines in Low-Current Discharges of Hydrogen and Deuterium.
PB95-150546 *03,893*

Kinetic-Energy Distributions of Ions Sampled from Argon Plasmas in a Parallel-Plate, Radio-Frequency Reference Call.
PB95-161964 *03,935*

Electrical Characterization of Radio-Frequency Discharges in the Gaseous Electronics Conference Reference Call.
PB95-164612 *01,905*

Ion Kinetic-Energy Distributions and Balmer-alpha (Halpha) Excitation in Ar-H2 Radio-Frequency Discharges.
PB96-102959 *04,029*

Kinetic Energy Distribution of Ions Produced from Townsend Discharges in Neon and Argon.
PB96-111927 *04,413*

Modification of Cast Epoxy Resin Surfaces during Exposure to Partial Discharges.
PB96-122734 *01,086*

Influence of Electrode Material on Measured Ion Kinetic-Energy Distributions in Radio-Frequency Discharges.
PB96-123179 *01,935*

Kinetic Energy Distributions of H(+), H2(+), and H3(+) from a Diffuse Townsend Discharge in H2 at High E/N.
PB96-123351 *04,415*

Fundamental Processes in Gas Discharges.
PB96-123450 *01,089*

Kinetic-Energy Distributions of Ions Sampled from Radio-Frequency Discharges in Helium, Nitrogen, and Oxygen.
PB96-123732 *01,092*

GAS DISSOCIATION
Associative Electron Attachment to S2F10, S2OF10, and S2O2F10.
PB95-140992 *00,907*

GAS DYNAMICS
Operational Mode and Gas Species Effects on Rotational Drag in Pneumatic Dead Weight Pressure Gages.
PB95-140182 *00,903*

GAS FLOW
Concurrent Flow Flame Spread Study.
PB94-156866 *01,356*

Experimental Data and Theoretical Modeling of Gas Flows Through Metal Capillary Leaks.
PB95-150892 *04,206*

Improved Gas Flow Measurements for Next-Generation Processes.
PB96-156013 *04,216*

GAS GENERATORS
Solid Propellant Gas Generators: Proceedings of the 1995 Workshop. Held in Gaithersburg, Maryland on June 28-29, 1995.
PB96-131479 *01,412*

GAS GIANT PLANETS
Experimental Determination of the Rate Constant for the Reaction of C2H3 with H2 and Implications for the Partitioning of Hydrocarbons in Atmospheres of the Outer Planets.
PB97-122295 *00,112*

GAS METAL ARC WELDING
Through-the-Arc Sensing for Real-Time Measurement of Gas Metal Arc Weld Quality.
PB95-162871 *02,863*

Through-the-Arc Sensing for Measuring Gas Metal Arc Weld Quality in Real Time.
PB95-164463 *02,908*

Droplet Transfer Modes for a MIL 100S-1 GMAW Electrode.
PB95-209300 *02,867*

Control of Gas-Metal-Arc Welding Using Arc-Light Sensing.
PB96-131461 *02,869*

Contact Tube Wear Detection in Gas Metal Arc Welding.
PB96-135330 *02,872*

Ultrasonic Sensing of GMAW: Laser/EMAT Defect Detection System.
PB96-186028 *02,878*

Mapping the Droplet Transfer Modes for an ER100S-1 GMAW Electrode.
PB96-190095 *03,295*

Power Characteristics in GMAW: Experimental and Numerical Investigation.
PB96-190145 *03,296*

Sensing Droplet Detachment and Electrode Extension for Control of Gas Metal Arc Welding.
PB96-190160 *03,297*

GAS PIPELINES
Low Temperature H(sub 2)S Separation Using Membrane Reactor with Redox Catalyst.
DE94008991 *02,471*

GAS PRESSURE
Partial Pressure Analysis in Space Testing.
N95-14084/4 *04,827*

GAS STANDARDS
Development of Gas Standards from Solid 1,4-dichlorobenzene.
PB96-155486 *02,496*

GAS TRANSPORT
Gas Transport Properties of Solution-Cast Perfluorosulfonic Acid Ionomer Films Containing Ionic Surfactants.
PB95-175998 *01,267*

GAS TURBINES
Bibliography of Books and Published Reports on Gas Turbines, Jet Propulsion, and Rocket Power Plants.
AD-A278 138/3 *01,445*

Bibliography of Books and Published Reports on Gas Turbines, Jet Propulsion, and Rocket Power Plants, January 1950 through December 1953.
AD-A278 213/4 *01,446*

GASEOUS
Studies of Ion Kinetic-Energy Distributions in the Gaseous Electronics Conference RF Reference Cell.
PB96-113360 *02,391*

GASEOUS ELECTRONICS
Journal of Research of the National Institute of Standards and Technology, July/August 1995. Volume 100, Number 4. Special Issue: The Gaseous Electronics Conference Radio-Frequency Reference Cell.
PB96-113311 *02,386*

Gaseous Electronics Conference RF Reference Cell: An Introduction.
PB96-113329 *02,387*

Current and Voltage Measurements in the Gaseous Electronics Conference RF Reference Cell.
PB96-113337 *02,388*

Optical Emission Spectroscopy on the Gaseous Electronics Conference RF Reference Cell.
PB96-113345 *02,389*

Microwave Diagnostic Results from the Gaseous Electronics Conference RF Reference Cell.
PB96-113378 *02,392*

Langmuir Probe Measurements in the Gaseous Electronics Conference RF Reference Cell.
PB96-113386 *02,393*

Inductively Coupled Plasma Source for the Gaseous Electronics Conference RF Reference Cell.
PB96-113394 *02,394*

Reactive Ion Etching in the Gaseous Electronics Conference RF Reference Cell.
PB96-113402 *02,395*

Dusty Plasma Studies in the Gaseous Electronics Conference Reference Cell.
PB96-113410 *02,396*

One-Dimensional Modeling Studies of the Gaseous Electronics Conference RF Reference Cell.
PB96-113428 *02,397*

Two-Dimensional Self-Consistent Radio Frequency Plasma Simulations Relevant to the Gaseous Electronics Conference RF Reference Cell.
PB96-113436 *02,398*

Electrical Measurements for Monitoring and Control of rf Plasma Processing.
PB96-161963 *04,369*

GASEOUS ELECTRONICS CONFERENCE
Electrical Characteristics of Argon Radio Frequency Glow Discharges in an Asymmetric Cell.
PB96-176490 *04,109*

GASES
Equilibrium Pair Distribution Function of a Gas: Aspects Associated with the Presence of Bound States.
PB95-176046 *01,004*

Vapour Pressures and Gas-Phase (p, rho n, T) Values for CF3CHF2(R125).
PB96-102090 *04,019*

Thermodynamic Properties of Two Gaseous Halogenated Ethers from Speed-of-Sound Measurements: Difluoromethoxy-Difluoromethane and 2-Difluoromethoxy-1,1,1-Trifluoroethane.
PB96-102413 *04,189*

Gaseous Electronics Conference RF Reference Cell: An Introduction.
PB96-113329 *02,387*

Current and Voltage Measurements in the Gaseous Electronics Conference RF Reference Cell.
PB96-113337 *02,388*

Optical Emission Spectroscopy on the Gaseous Electronics Conference RF Reference Cell.
PB96-113345 *02,389*

Optical Diagnostics in the Gaseous Electronics Conference Reference Cell.
PB96-113352 *02,390*

Studies of Ion Kinetic-Energy Distributions in the Gaseous Electronics Conference RF Reference Cell.
PB96-113360 *02,391*

Microwave Diagnostic Results from the Gaseous Electronics Conference RF Reference Cell.
PB96-113378 *02,392*

Langmuir Probe Measurements in the Gaseous Electronics Conference RF Reference Cell.
PB96-113386 *02,393*

Inductively Coupled Plasma Source for the Gaseous Electronics Conference RF Reference Cell.
PB96-113394 *02,394*

Reactive Ion Etching in the Gaseous Electronics Conference RF Reference Cell.
PB96-113402 *02,395*

Dusty Plasma Studies in the Gaseous Electronics Conference Reference Cell.
PB96-113410 *02,396*

One-Dimensional Modeling Studies of the Gaseous Electronics Conference RF Reference Cell.
PB96-113428 *02,397*

Two-Dimensional Self-Consistent Radio Frequency Plasma Simulations Relevant to the Gaseous Electronics Conference RF Reference Cell.
PB96-113436 *02,398*

GASIFICATION
Effects of Molecular Weight and Thermal Stability on Polymer Gasification.
PB94-212610 *01,228*

GASKETS
Electromagnetic Shielding Characterization of Gaskets.
PB95-198917 *01,911*

GASOLINE GALLON EQUIVALENT
Method of Sale for CNG Paves Way to Greater Public Acceptance.
PB95-168449 *02,489*

GAUSSIAN BEAM
Effect of Finite Beam Width on Elastic Light Scattering from Droplets.
PB96-163670 *01,144*

GAUSSIAN BEAMS
Forward Scattering of a Gaussian Beam by a Nonabsorbing Sphere.
PB97-112288 *04,395*

Generalized Optical Theorem for On-Axis Gaussian Beams.
PB97-122345 *04,177*

GAUSSIAN QUADRATURE
Hybrid Gauss-Trapezoidal Quadrature Rules.
PB96-193750 *03,422*

GE SEMICONDUCTOR DETECTORS
International Intercomparison of Detector Responsivity at 1300 and 1550 nm.
PB95-125928 *02,140*

International Intercomparison of Detector Responsivity at 1300 and 1550 nm.
PB95-126017 *02,141*

GELATINS
Holographic Properties of Triton X-100-Treated Bacteriorhodopsin Embedded in Gelatin Films.
PB96-119284 *03,761*

GELATION
Simulation and SANS Studies of Gelation Under Shear.
PB96-167176 *01,150*

GELATON
Dynamic Scaling in an Aggregating 2D Lennard-Jones System.
PB96-167317 *04,106*

GELETIN FILMS
Optical Properties of Triton X-100-Treated Purple Membranes Embedded in Gelatin Films.
PB96-123500 *03,546*

GELS
Imaging of Fine Porosity in a Colloidal Silica: Potassium Silicate Gel by Defocus Contrast Microscopy.
PB94-212750 *03,039*

Small-Angle Neutron Scattering of Poly(vinyl alcohol) Gels.
PB95-164117 *01,260*

Small Angle Neutron Scattering Study on Poly(N-Isopropyl Acrylamide) Gels Near Their Volume-Phase Transition Temperature.
PB95-164380 *01,263*

Small-Angle Neutron Scattering Study on Weakly Charged Temperature Sensitive Polymer Gels.
PB95-164398 *01,264*

Optical Biosensor Using a Fluorescent, Swelling Sensing Element.
PB95-175899 *03,541*

Small Angle Neutron Scattering Studies of Structural Characteristics of Argarose Gels.
PB96-112305 *03,475*

Small-Angle Neutron-Scattering Study of Dense Sheared Silica Gels.
PB96-167184 *01,151*

GENERAL INTEREST
Bibliography of Books and Published Reports on Gas Turbines, Jet Propulsion, and Rocket Power Plants.
AD-A278 138/3 *01,445*

Standard Materials. A Descriptive List with Prices.
AD-A278 140/9 *00,500*

Bibliography of Books and Published Reports on Gas Turbines, Jet Propulsion, and Rocket Power Plants, January 1950 through December 1953.
AD-A278 213/4 *01,446*

Screw-Thread Standards for Federal Services, 1957. Part 3.
AD-A279 121/8 *02,854*

Screw-Thread Standards for Federal Services, 1957. Part 1.
AD-A279 290/1 *02,855*

Characterization of the Hydrogen Induced Cold Cracking Susceptibility at Simulated Weld Zones in HSLA-100 Steel.
AD-A279 759/5 *03,200*

National Standard Petroleum Oil Tables.
AD-A279 952/6 *02,469*

Screw-Thread Standards for Federal Services, 1957. Handbook H28 (1957), Part 2. Revised.
AD-A280 082/9 *03,599*

1950 Supplement to Screw-Thread Standards for Federal Services. 1944.
AD-A280 223/9 *03,656*

Guide to Instrumentation Literature.
AD-A280 278/3 *02,617*

Atomic Energy Levels. As Derived From the Analyses of Optical Spectra. Volume 3.
AD-A280 279/1 *00,714*

Maximum Permissible Amounts of Radioisotopes in the Human Body and Maximum Permissible Concentrations in Air and Water.
AD-A280 281/7 *03,609*

Maximum Permissible Body Burdens and Maximum Permissible Concentrations of Radionuclides in Air and in Water for Occupational Exposure.
AD-A280 282/5 *03,610*

X-Ray Attenuation Coefficients from 10 KEV to 100 MEV.
AD-A280 290/8 *03,768*

Papers on the Symposium on Collision Phenomena in Astrophysics, Geophysics, and Masers.
AD-A280 291/6 *00,047*

Tables of Chemical Kinetics Homogeneous Reactions.
AD-A280 293/2 *00,715*

GINZBURG SYMPOSIUM

From Superconductivity to Supernovae: The Ginzburg Symposium. Report on the Symposium Held in Honor of Vitaly L. Ginzburg. Held in Gaithersburg, Maryland on May 22, 1992.
PB95-171963 *04,649*

GLASS

Fire Induced Thermal Fields in Window Glass I: Theory.
PB94-139722 *00,328*

Analysis of SANS from Controlled Pore Glasses.
PB94-198843 *03,035*

Glass Transition of Organic Liquids Confined to Small Pores.
PB94-212305 *00,833*

Melting Behavior of Organic Materials Confined in Porous Solids.
PB94-212313 *00,834*

Aging in Glasses Subjected to Large Stresses and Deformations.
PB95-107041 *03,235*

Environmentally Enhanced Fracture of Ceramics.
PB95-125746 *03,046*

Length Scales for Fragile Glass-Forming Liquids.
PB96-102801 *01,065*

Glasses for Waveguide Lasers.
PB96-111950 *04,335*

Long-Lived Structures in Fragile Glass-Forming Liquids.
PB96-119565 *04,212*

Simulation Studies of Supercooled and Glass Forming Liquids.
PB96-122627 *01,085*

Distributed Feedback Lasers in Rare-Earth-Doped Phosphate Glass.
PB96-123773 *04,740*

Integrated Optical Polarization-Discriminating Receiver in Glass.
PB97-113179 *02,206*

GLASS-CERAMIC

Wear of Enamel against Glass-Ceramic, Porcelain, and Amalgam.
PB96-179593 *03,082*

GLASS FIBER REINFORCED PLASTICS

Composite Struts for SMES Plants.
PB95-155586 *02,507*

Torsion Modulus and Internal Friction of a Fiber-Reinforced Composite.
PB96-112339 *03,070*

GLASS LASERS

Integrated Optic Laser Emitting at 906, 1057, and 1358 nm.
PB94-216280 *02,135*

Integrated Optic Laser Emitting at 905, 1057, 1356 nm.
PB94-216298 *02,136*

GLASS TRANSITION TEMPERATURE

Effect of Curing History on Ultimate Glass Transition Temperature and Network Structure of Crosslinking Polymers.
PB94-200052 *01,214*

Glass Transition of Organic Liquids Confined to Small Pores.
PB94-212305 *00,833*

Physics Required for Prediction of Long Term Performance of Polymers and Their Composites.
PB94-219243 *03,146*

Glass Temperature of Polymer Blends: Comparison of Both the Free Volume and the Entropy Predictions with Data.
PB95-140190 *01,236*

Influence of an Impenetrable Interface on a Polymer Glass-Transition Temperature.
PB96-146873 *03,175*

GLASSY SILICA

Small-Angle Neutron Scattering Characterization of Processing/Microstructure Relationships in the Sintering of Crystalline and Glassy Ceramics. (Reannouncement with New Availability Information).
AD-A249 510/9 *03,025*

GLOBAL ASPECTS

Global Climatic Effects of Aerosols: The AAAR Symposium.
PB95-108791 *00,122*

GLOBAL DENSITY RATIO

Global Density Effects on the Self-Preservation Behavior of Turbulent Free Jets.
PB95-162301 *04,207*

GLOBAL ECONOMY

Working Conference on Global Growth of Technology: Is America Prepared. Held in Gaithersburg, Maryland on December 7, 1995.
PB96-210059 *00,018*

GLOBAL EQUIVALENCE RATIO

Global Equivalence Ratio Concept and the Formation Mechanisms of Carbon Monoxide in Enclosure Fires.
PB96-146790 *00,210*

GLOBAL INFORMATION INFRASTRUCTURE

Global Information Infrastructure: Agenda for Cooperation.
PB95-178604 *01,482*

GLOBAL POSITIONING SYSTEM

Comparison of GPS Broadcast and DMA Precise Ephemerides.
N94-30660/2 *01,523*

Implementation of a Standard Format for GPS Common View Data.
N95-32323/4 *03,779*

Analytical Estimation of Carrier Multipath Bias on GPS Position Measurements.
PB94-215712 *04,845*

Preliminary Comparison of Time Transfers via LASSO, GPS and Two-Way Satellite.
PB95-151098 *01,529*

Calibration of GPS Equipment in Japan.
PB95-151452 *01,531*

Use of Ionospheric Data in GPS Time Transfer.
PB95-163853 *01,540*

Implementation of a Standard Format for GPS Common View Data.
PB96-176581 *01,555*

GLOW DISCHARGES

Gaseous Electronics Conference Radio-Frequency Reference Cell: A Defined Parallel-Plate Radio-Frequency System for Experimental and Theoretical Studies of Plasma-Processing Discharges.
PB94-172327 *04,404*

Fourier Transform Atomic Emission Studies Using a Glow Discharge as the Emission Source.
PB94-185980 *00,533*

Ion Kinetic-Energy Distributions in Argon rf Glow Discharges.
PB95-141008 04,409

Electrical Characterization of Radio-Frequency Discharges in the Gaseous Electronics Conference Reference Call.
PB95-164612 01,905

Plasma Chemical Model for Decomposition of SF6 in a Negative Glow Corona Discharge.
PB95-181053 01,020

Plasma Chemistry in Silane/Germane and Disilane/Germane Mixtures.
PB95-202537 01,027

Evidence for Inelastic Processes for N(+)3 and N(+)4 from Ion Energy Distributions in He/N2 Radio Frequency Glow Discharges.
PB96-146683 04,059

GLUCOSE

Apparent Molar Heat Capacities and Apparent Molar Volumes of Aqueous Glucose at Temperatures from 298.15 K to 327.01 K.
PB94-212800 03,459

Amperometric Flow-Injection Analysis Biosensor for Glucose Based on Graphite Paste Modified with Tetracyanoquinodimethane.
PB95-161980 03,498

GLUCOSE PERMEASE

Glucose Permease of Bacillus Subtilis Is a Single Polypeptide Chain That Functions to Energize the Sucrose Permease.
PB95-163192 03,466

GLYCEROL

Isotope Dilution Mass Spectrometry as a Candidate Definitive Method for Determining Total Glycerides and Triglycerides in Serum.
PB96-102280 03,519

GLYCIDYL ETHERS

Effect of Curing History on Ultimate Glass Transition Temperature and Network Structure of Crosslinking Polymers.
PB94-200052 01,214

GLYCINE

Structure of Glycine-Water H-Bonded Complexes.
PB94-198603 00,789

Effects of Aluminum Oxalate/Glycine Pretreatment Solutions on Dentin Permeability.
PB95-164505 03,565

GLYCINE-WATER COMPLEX

Structure of Glycine-Water H-Bonded Complexes.
PB94-198603 00,789

GMR

Size Effects in Submicron NiFe/Ag GMR Devices.
PB96-155510 02,237

GOALS

White Papers Prepared for the White House: Construction Industry Workshop on National Construction Goals. Held on December 14-16, 1994.
PB95-216891 01,299

GODDARD HIGH RESOLUTION SPECTROGRAPH

Goddard High Resolution Spectrograph: Instrument, Goals, and Science Results.
PB96-123278 00,044

GOES SATELLITES

Semiconductor Measurement Technology: Improved Characterization and Evaluation Measurements for HgCdTe Detector Materials, Processes, and Devices Used on the GOES and TIROS Satellites.
PB94-188810 02,122

GOLD

Incorporation of Gold into YBa2Cu3O7: Structure and Tc Enhancement.
PB94-200276 04,481

Unexpected Effects of Gold on the Structure, Superconductivity, and Normal State of YBa2Cu3O7.
PB94-200284 04,482

Self-Assembled Phospholipid/Alkanethiol Biomimetic Bilayers on Gold.
PB95-108460 00,878

Scanning Tunneling Microscopy and Fabrication of Nanometer Scale Structures at the Liquid-Gold Interface.
PB95-140414 00,904

Oscillatory Exchange Coupling in Fe/Au/Fe(100).
PB95-150371 04,569

Silver Metalization of Octadecanethiol Monolayers Self-Assembled on Gold.
PB95-150744 00,923

UV-Photopatterning of Alkylthiolate Monolayers Self-Assembled on Gold and Silver.
PB95-150751 00,924

Characterization of Cytochrome c/Alkanethiolate Structures Prepared by Self-Assembly on Gold.
PB95-164638 00,987

Collisions of Electrons with Highly-Charged Ions.
PB96-200340 04,791

GOLD ALLOYS

Fabrication of Platinum-Gold Alloys in Pre-Hispanic South America: Issues of Temperature and Microstructure Control.
PB94-211646 03,333

Diffusion of Copper into Gold Plating.
PB95-162152 00,957

GOLD IONS

Spectra of Ag I Isoelectronic Sequence Observed from Er(21+) to Au(32+).
PB95-150660 03,899

GOSIP (GOVERNMENT OPEN SYSTEMS INTERCONNECTION PROFILE)

U.S. GOSIP Testing Program.
PB94-211455 01,807

National Voluntary Laboratory Accreditation Program. GOSIP: Government Open Systems Interconnection Profile.
PB95-267993 01,486

Lessons from the Establishment of the U.S. GOSIP Testing Program.
PB96-119359 01,817

GOSIP Testing Program.
PB96-161229 01,504

Industry/Government Open Systems Specification: The Development of GOSIP Version 3.
PB96-161245 01,505

Five Q's (Cues) of the U.S. GOSIP Testing Program.
PB96-175716 01,826

GOVERNMENT/INDUSTRY RELATIONS

Transfer of Technology from Defense to Civilian Sectors.
PB94-185360 00,011

NIST Industrial Impacts: A Sampling of Successful Partnerships.
PB95-111514 00,488

NIST Industrial Impacts: A Sampling of Successful Partnerships (Revision, March 1995).
PB95-209193 00,489

Conceptual Design Plan for the National Advanced Manufacturing Testbed.
PB95-231866 02,828

National Planning for Construction and Building R and D.
PB96-137104 00,324

Industry/Government Open Systems Specification: The Development of GOSIP Version 3.
PB96-161245 01,505

GOVERNMENT INFORMATION LOCATOR SERVICE

Application Profile for the Government Information Locator Service (GILS). Category: Software Standard; Subcategory: Information Interchange.

GOSIP Testing Program.
PB96-161229 01,504

Industry/Government Open Systems Specification: The Development of GOSIP Version 3.
PB96-161245 01,505

Five Q's (Cues) of the U.S. GOSIP Testing Program.
PB96-175716 01,826

GOVERNMENT POLICIES

Proceedings of the Manufacturing Technology Needs and Issues: Establishing National Priorities and Strategies Conference. Held in Gaithersburg, Maryland on April 26-28, 1994.
PB95-206181 02,930

Unpredictable Certainty. Information Infrastructure through 2000.
PB96-182266 00,016

GOVERNMENT PROCUREMENT

Open System Environment Procurement.
N94-36858/6 02,716

Guide on Open System Environment (OSE) Procurements.
PB95-169496 01,626

Information Technology Standards in Federal Acquisitions.
PB96-161252 01,636

Using Information Technology Standards in Federal Acquisitions.
PB96-161260 01,637

Federal Implementation Guideline for Electronic Data Interchange: ASC X12 003050 Transaction Set 836 Procurement Notices. Implementation Convention.
PB96-178892 01,827

GRADIOMETERS

Gradiometer Antennas for Detection of Long Subsurface Conductors.
PB95-175667 01,862

GRAFT POLYMERIZATION

Grafted Interpenetrating Polymer Networks.
PB94-185055 01,200

GRAFTED POLYMER LAYER

Segmental Concentration Profiles of End-Tethered Polymers with Excluded-Volume and Surface Interactions.
PB97-119002 00,654

GRAIN BOUNDARIES

Weak-Link-Free Behavior of High Angle YBa2Cu3O7-x Grain Boundaries in High Magnetic Fields.
PB94-198421 04,459

Energy and Migration of Grain Boundaries in Polycrystals.
PB94-211638 03,332

Examination of Objects Made of Wood Using Air-Coupled Ultrasound.
PB95-125712 03,404

Nature of (001) Tilt Grain Boundaries in YBa2Cu3O6+x.
PB95-126033 04,528

Small Angle Neutrons Scattering from Nanocrystalline Palladium as a Function of Annealing.
PB95-176103 03,354

Stability and Surface Energies of Wetted Grain Boundaries in Aluminum Oxide.
PB95-202750 03,059

Inelastic Neutron Scattering Study of Hydrogen in Nanocrystalline Pd.
PB96-146857 03,366

GRAIN CLUSTERS

Modeling Effects of Temperature Annealing on Giant Magnetoresistive Response in Discontinuous Multilayer NiFe/Ag Films.
PB97-112585 04,157

GRAIN GROWTH

Stability, Microstructural Evolution, Grain Growth, and Coarsening in a Two-Dimensional Two-Phase Microstructure.
PB94-199429 03,325

Investigation into a Practical Grain Growth Model for Hot Isostatic Pressing.
PB95-151684 03,347

GRAIN SIZE

Determination of the Prior-Austenitic Grain Size of Selected Steels Using a Molten Glass Etch.
PB94-211927 03,208

GRAIN STRUCTURE

Grain Alignment and Transport Properties of Bi2Sr2CaCu2O8 Grown by Laser Heated Float Zone Method.
PB95-161451 04,602

GRANULAR MATERIALS

Domain Structures in Magnetoresistive Granular Metals.
PB96-141346 04,760

GRAPHICAL USER INTERFACE

Prototyping a Graphical User Interface for DHCP.
PB96-160544 02,599

Automated Guarded Bridge for Calibration of Multimegohm Standard Resistors.
PB97-119150 02,289

GRAPHITE

Thermal Diffusivity of POCO AXM-5Q1 Graphite in the Range 1500 to 2500 K Measured by a Laser-Pulse Technique.
PB94-185022 03,013

Diamond and Graphite Precursors: Comments.
PB95-163051 00,967

Determination of Anomalous Superexchange in MnCl2 and Its Graphite Intercalation Compound.
PB97-122568 00,666

GRAPHITE CALORIMETERS

Crystal Structure of Annealed and As-Prepared HgBa2CaCu2O6+delta Superconductors.
PB95-161105 03,927

GRAPHITE COMPOSITES

Thermoacoustic Technique for Determining the Interface and/or Interply Strength in Polymeric Composites.
PB95-161824 03,158

GRAPHITE INTERCALATION COMPOUNDS

Structural and Magnetic Properties of CuCl2 Graphite Intercalation Compounds.
PB96-119748 03,020

GRATING

Distributed Feedback Lasers in Rare-Earth-Doped Phosphate Glass.
PB96-123773 04,740

GRATING COUPLING

Embossable Grating Couplers for Planar Waveguide Optical Sensors.
PB96-190277 00,641

GRATINGS

Growth Characteristics of Fiber Gratings.
PB96-122957 04,346

GRATINGS (SPECTRA)

Bragg Gratings in Optical Fibers Produced by a Continuous-Wave Ultraviolet Source.
PB95-162020 04,274

Growth of Bragg Gratings Produced by Continuous-Wave Ultraviolet Light in Optical Fiber.
PB95-162038 04,275

Decay of Bragg Gratings in Hydrogen-Loaded Optical Fibers.
PB96-122643 04,345

GRAVIMETERS

Calibration of a Superconducting Gravimeter Using Absolute Gravity Measurements.
PB95-202651 03,684

Continuous Gravity Observations Using Joint Institute for Laboratory Astrophysics Absolute Gravimeters.
PB95-203048 *03,685*

Intracomparison Tests of the FG5 Absolute Gravity Meters.
PB96-102991 *03,688*

GRAVIMETRIC STANDARDS
Measurement of Atmospheric Methyl Bromide Using Gravimetric Gas Standards.
PB96-155494 *02,497*

GRAVIMETRY
Journal of Research of the National Institute of Standards and Technology, March/April 1996. Volume 101, Number 2.
PB96-177381 *01,863*

Development of the Ion Exchange-Gravimetric Method for Sodium in Serum as a Definitive Method.
PB96-179148 *01,867*

GRAVITATION
Earth-Based Gravitational Experiments.
PB94-211414 *03,840*

Elastic Deformation of a Monolithic Perfect Crystal Interferometer: Implications for Gravitational Phase Shift Experiments.
PB94-213154 *03,858*

Validation of the Inverse Square Law of Gravitation Using the Tower at Erie, Colorado, USA.
PB95-164646 *03,947*

Test of Newton's Inverse Square Law of Gravitation Using the 300-m Tower at Erie, Colorado.
PB95-202446 *03,978*

GRAVITATIONAL EFFECTS
Ignition and Subsequent Transition to Flame Spread in a Microgravity Environment.
N96-15584/1 *04,828*

GRAVITATIONAL FIELDS
Integrated Laser Doppler Method for Measuring Planetary Gravity Fields.
PB94-198686 *03,681*

GRAVITATIONAL WAVE ANTENNAS
Quantum Mechanics of a Solid-State Bar Gravitational Antenna.
PB95-202628 *03,987*

GRAVITY
Gravity Dependent Processes and Intracellular Motion.
PB95-163382 *03,538*

Validation of the Inverse Square Law of Gravitation Using the Tower at Erie, Colorado, USA.
PB95-164646 *03,947*

Test of Newton's Inverse Square Law of Gravitation Using the 300-m Tower at Erie, Colorado.
PB95-202446 *03,978*

Continuous Gravity Observations Using Joint Institute for Laboratory Astrophysics Absolute Gravimeters.
PB95-203048 *03,685*

GRAVITY CURRENTS
Gravity-Current Transport in Building Fires.
PB96-147046 *01,415*

Transport by Gravity Currents in Building Fires.
PB97-119325 *01,441*

GREEN'S FUNCTION
Design, Construction and Application of a Large Aperture Lens-Less Line-Focus PVDF Transducer.
PB97-122584 *02,765*

GREEN'S FUNCTIONS
Fracture in Multilayers.
PB96-163613 *02,988*

GREENHOUSES
Corrosion Resistance of Materials for Renovation of the United States Botanic Garden Conservatory.
PB94-154390 *00,032*

GREENS FUNCTION
Lattice Imperfections Studied by Use of Lattice Green's Functions.
PB95-150850 *04,576*

Elastic Green's Function for a Bimaterial Composite Solid Containing a Free Surface Normal to the Interface.
PB95-163325 *03,162*

Green's Function for Generalized Hilbert Problem for Cracks and Free Surfaces in Composite Materials.
PB95-163333 *03,163*

GROUND BASED CONTROL
Ground Vehicle Control at NIST: From Teleoperation to Autonomy.
N94-34037/9 *03,758*

GROUND MOTION
Assessment of Site Response Analysis Procedures.
PB95-210928 *00,450*

Energy-Based Method for Liquefaction Potential Evaluation. Phase 1. Feasibility Study.
PB96-214747 *03,691*

GROUND STATIONS
Satellite Two-Way Time Transfer: Fundamentals and Recent Progress.
PB95-161089 *01,536*

GROUND VEHICLES
Vehicle-Command Center Communications in a Robotic Vehicle System.
PB95-162723 *03,665*

GROUNDINGS
Stranding Experiments on Double Hull Tanker Structures.
PB96-123112 *03,749*

GROWTH ABNORMALITIES
Nutritional Status and Growth in Juvenile Rheumatoid Arthritis.
PB94-198470 *03,515*

GUARDED HOT PLATE
Intra-Laboratory Comparison of a Line-Heat-Source Guarded Hot Plate and Heat-Flow-Meter Apparatus.
PB95-181202 *00,387*

Line-Heat-Source Guarded-Hot-Plate Apparatus.
PB97-118996 *00,417*

GUIDELINES
Guidelines for Reporting Results of Computational Experiments. Report of the Ad hoc Committee.
PB94-212347 *03,427*

Guidelines for Refractive Index Measurements of Asbestos.
PB95-151189 *02,543*

Telecommunications Security Guidelines for Telecommunications Management Network. Computer Security.
PB96-139415 *01,496*

GUIDES
Guide to Instrumentation Literature.
AD-A280 278/3 *02,617*

GUNS
Specification for Interoperability between Ballistic Imaging Systems. Part 1. Cartridge Cases.
PB96-195524 *01,860*

GUST FACTORS
Gust Factors Applied to Hurricane Winds.
PB95-180469 *00,446*

GUST LOADS
Gust Factors Applied to Hurricane Winds.
PB95-180469 *00,446*

HAFNIUM IONS
Observation of Pd-Like Resonance Lines Through Pt(32+) and Zn-Like Resonance Lines of Er(38+) and Hf(42+).
PB95-150637 *03,896*

Rh I Isoelectronic Sequence Observed from Er(23+) to Pt(33+).
PB95-150652 *03,898*

Spectra of Ag I Isoelectronic Sequence Observed from Er(21+) to Au(32+).
PB95-150660 *03,899*

HAFNIUM TO RADIUM
Ultraviolet Multiplet Table. Finding List for Spectra of the Elements Molybdenum to Lanthanum (Z = 42 to 57); Hafnium to Radium (Z = 72 to 88).
AD-A278 131/8 *00,709*

HAIR
Interlaboratory Comparison Studies on the Analysis of Hair for Drugs of Abuse.
PB95-176251 *03,500*

Hair Analysis for Drugs of Abuse: Evaluation of Analytical Methods, Environmental Issues, and Development of Reference Materials.
PB95-176269 *03,501*

Hair Testing for Drugs of Abuse: International Research on Standards and Technology.
PB96-120555 *03,504*

Supercritical Fluid Extraction-Immunoassay for the Rapid Screening of Cocaine in Hair.
PB96-167168 *00,637*

Interlaboratory Studies on the Analysis of Hair for Drugs of Abuse: Results from the Fifth Exercise.
PB97-110449 *03,509*

Interlaboratory Studies on the Analysis of Hair for Drugs of Abuse: Results from the Fourth Exercise.
PB97-111322 *03,510*

HALF-LIFE
New and Revised Half-Life Measurement Results.
PB96-160346 *00,695*

63Ni Half-Life: A New Experimental Determination and Critical Review.
PB97-111603 *00,700*

HALL EFFECT
Quantized Dissipation of the Quantum Hall Effect at High Currents.
PB94-199395 *04,472*

Using Quantized Breakdown Voltage Signals to Determine the Maximum Electric Fields in a Quantum Hall Effect Sample.
PB95-261947 *02,375*

Spectroscopic Study of Quantized Breakdown Voltage States of the Quantum Hall Effect.
PB96-113584 *04,730*

Potential and Current Distributions Calculated Across a Quantum Hall Effect Sample at Low and High Currents.
PB96-122106 *04,045*

Electrical Characterization of Narrow Gap n-Type Bulk HgCdTe Single Crystals by Variable-Magnetic-Field Hall Measurements and Reduced-Conductivity-Tensor Analyses.
PB96-164199 *01,146*

HALLUCINOGENS
Determination of 3-Quinuclidinyl Benzilate (Qnb) and Its Major Metabolites in Urine by Isotope Dilution Gas Chromatography Mass Spectrometry.
PB94-199379 *03,492*

HALOACETATES
Ferric Ion Assisted Photooxidation of Halocetates.
PB97-112460 *00,521*

HALOBACTERIUM
Bacteriorhodopsin Retains Its Light-Induced Proton-Pumping Function After Being Heated to 140C.
PB96-102728 *03,471*

HALOCARBONS
Retention of Halocarbons on a Hexafluoropropylene Epoxide Modified Graphitized Carbon Black. Part 1. Methane-Based Compounds.
PB95-175196 *03,272*

Retention of Halocarbons on a Hexafluoropropylene Epoxide-Modified Graphitized Carbon Black. 3. Ethene-Based Compounds.
PB96-167309 *03,286*

HALOGEN LAMPS
Characterization of Modified FEL Quartz-Halogen Lamps for Photometric Standards.
PB97-112544 *00,282*

HALOGENATED HYDROCARBONS
Suppression of High-Speed C2H4/Air Flames with C1-Halocarbons.
PB96-175724 *03,287*

Suppression of Ignition Over a Heated Metal Surface.
PB96-176425 *03,291*

HALOHYDROCARBONS
Thermochemical and Chemical Kinetic Data for Fluorinated Hydrocarbons.
PB95-260618 *01,056*

Thermodynamic Properties of Two Gaseous Halogenated Ethers from Speed-of-Sound Measurements: Difluoromethoxy-Difluoromethane and 2-Difluoromethoxy-1,1,1-Trifluoroethane.
PB96-102413 *04,189*

HALON 1301
Evaluation of Alternative In-Flight Fire Suppressants for Full-Scale Testing in Simulated Aircraft Engine Nacelles and Dry Bays.
PB94-203403 *00,023*

HALON ALTERNATIVES
Evaluation of Alternative In-Flight Fire Suppressants for Full-Scale Testing in Simulated Aircraft Engine Nacelles and Dry Bays.
PB94-203403 *00,023*

HALONS
Chemical Inhibition of Methane-Air Diffusion Flame.
PB96-195532 *01,431*

HANDBOOKS
Handbook Preferred Circuits Navy Aeronautical Electronic Equipment. Supplement Number 3.
AD-A278 782/8 *00,026*

Handbook Preferred Circuits Navy Aeronautical Electronic Equipment. Supplement Number 2.
AD-A278 783/6 *00,027*

Handbook Preferred Circuits Navy Aeronautical Electronic Equipment. Supplement Number 1.
AD-A278 784/4 *00,028*

Report of the International Commission on Radiological Units and Measurements (ICRU), 1956.
AD-A279 120/0 *03,513*

X-ray Protection.
AD-A279 132/5 *03,605*

NIST Handbook 44, 1994: Specifications, Tolerances and Other Technical Requirements for Weighing and Measuring Devices as Adopted by the 78th National Conference on Weights and Measures 1993.
PB94-136009 *02,888*

NIOSH Pocket Guide to Chemical Hazards.
PB95-100368 *03,603*

National Voluntary Laboratory Accreditation Program: Ionizing Radiation Dosimetry.
PB95-128658 *03,623*

NIST Handbook 44, 1995: Specifications, Tolerances and Other Technical Requirements for Weighing and Measuring Devices as Adopted by the 79th National Conference on Weights and Measures 1994.
PB95-146379 *02,903*

Uniform Laws and Regulations in the Areas of Legal Metrology and Motor Fuel Quality, 1994 as Adopted by the 79th National Conference on Weights and Measures 1994.
PB95-174470 *02,909*

National Voluntary Laboratory Accreditation Program: Electromagnetic Compatibility and Telecommunications. FCC Methods.
PB95-242376 *02,664*

Computer Security: An Introduction to Computer Security. The NIST Handbook.
PB96-131610 *01,608*

Airborne Asbestos Analysis: National Voluntary Laboratory Accreditation Program.
PB96-147392 *02,566*

NIST Handbook 44, 1996: Specifications, Tolerances, and Other Technical Requirements for Weighing and Measuring Devices as Adopted by the 80th National Conference on Weights and Measures, 1995.
PB96-166616 *02,926*

HANDPRINT

NIST Form-Based Handprint Recognition System.
PB94-217106 *01,838*

Component-Based Handprint Segmentation Using Adaptive Writing Style Model.
PB96-193669 *01,859*

HANDWRITING

Unconstrained Handprint Recognition Using a Limited Lexicon.
PB94-168051 *01,831*

Second Census Optical Character Recognition Systems Conference.
PB94-188711 *01,832*

NIST Form-Based Handprint Recognition System.
PB94-217106 *01,838*

Binary Decision Clustering for Neural Network Based Optical Character Recognition.
PB95-171971 *01,848*

Method and Evaluation of Character Stroke Preservation on Handprint Recognition.
PB95-251724 *01,850*

Binary Decision Clustering for Neural-Network-Based Optical Character Recognition.
PB96-186184 *01,857*

Generalized Form Registration Using Structure-Based Techniques.
PB96-191374 *01,858*

Component-Based Handprint Segmentation Using Adaptive Writing Style Model.
PB96-193669 *01,859*

HANGARS

Analysis of High Bay Hangar Facilities for Detector Sensitivity and Placement.
PB96-190210 *01,429*

HAPPYLAND SOCIAL CLUB FIRE

Analysis of the Happyland Social Club Fire with HAZARD I.
PB94-199270 *00,193*

HARD TURNING

Evaluation of a Tapered Roller Bearing Spindle for High-Precision Hard Turning Applications.
PB96-160494 *02,700*

HARMONIC DISTORTION

Effect of Harmonic Distortion on Phase Errors in Frequency Distribution and Synthesis.
PB96-200779 *01,563*

HARMONIC MIXING

High-Order Harmonic Mixing with GaAs Schottky Diodes.
PB95-108585 *01,528*

HASH ALGORITHM

Secure Hash Standard. Category: Computer Security.
FIPS PUB 180-1 *01,568*

HAZARD ASSESSMENT

HAZARD I Fire Hazard Assessment Method (Version 1.2) (for Microcomputers).
PB94-501988 *00,196*

HAZARD I Fire Hazard Assessment Method, Version 1.2 (Upgrade Package) (for Microcomputers).
PB94-501996 *00,197*

HAZARDOUS MATERIALS

Performance of Plastic Packaging for Hazardous Materials Transportation. Part 1. Mechanical Properties.
AD-A301 258/0 *02,580*

Calculation of Higher Heating Values of Biomass Materials and Waste Components from Elemental Analyses.
PB94-199254 *02,474*

Membrane Gas Separation for a Fluidized-Bed Incinerator.
PB95-169041 *02,550*

HAZARDOUS WASTES

Recommendations for the Disposal of Carbon-14 Wastes.
AD-A279 133/3 *02,579*

HAZARDS

Study on Hazard Analysis in High Integrity Software Standards and Guidelines.
PB95-198727 *01,725*

HCFC-123

Temperature Dependence of the Gas and Liquid Phase Ultraviolet Absorption Cross Sections of HCFC-123 (CF3CHCl2) and HCFC-142b (CH3CF2Cl).
PB96-201033 *03,298*

HCFC-142B

Temperature Dependence of the Gas and Liquid Phase Ultraviolet Absorption Cross Sections of HCFC-123 (CF3CHCl2) and HCFC-142b (CH3CF2Cl).
PB96-201033 *03,298*

HEAD AND NECK NEOPLASMS

New Method for Shielding Electron Beams Used for Head and Neck Cancer Treatment.
PB94-211430 *03,621*

HEADERS

Flowmeter Installation Effects Due to a Generic Header.
PB96-210893 *02,606*

HEALTH

Virtual Environments for Health Care. A White Paper for the Advanced Technology Program (ATP), the National Institute of Standards and Technology.
PB96-147814 *03,594*

HEALTH CARE

Distributed Communication Methods and Role-Based Access Control for Use in Health Care Applications.
PB96-183165 *01,508*

HEALTH HAZARDS

Lead Abatement in Buildings and Related Structures.
PB94-172038 *03,601*

NIOSH Pocket Guide to Chemical Hazards.
PB95-100368 *03,603*

HEALTH PHYSICS

Characterization of a Health Physics Instrument Calibration Range.
PB95-164554 *03,629*

External Gamma-ray Counting of Selected Tissues from a Thorotrast Patient.
PB96-160254 *03,637*

HEALTH & SAFETY

Crystal Diffraction Spectrometry for Accurate, Non-Invasive kV/Spectral Measurement for Improvement of Mammographic Image Quality.
AD-A297 943/3 *00,721*

Electron transport calculations with biomedical and environmental applications. Final report, December 23, 1992--January 31, 1994.
DE95007065 *03,613*

Properties and Interactions of Oral Structures and Restorative Materials. Annual Report for Period October 1, 1990 to September 30, 1991.
PB94-160843 *03,558*

Influence of Tempering Method on Residual Stress in Dental Porcelain.
PB94-172012 *00,138*

Calcium Phosphate Precipitation in Liposomal Suspensions.
PB94-172145 *03,452*

Octacalcium Phosphate. 3. Infrared and Raman Vibrational Spectra.
PB94-172244 *00,756*

Adsorption of Low-Molecular-Weight Sodium Polyacrylate on Hydroxyapatite.
PB94-172608 *00,139*

Interaction of Some Coupling Agents and Organic Compounds with Hydroxyapatite: Hydrogen Bonding, Adsorption and Adhesion.
PB94-172616 *00,140*

Effect of Two Initiator/Stabilizer Concentrations in a Metal Primer on Bond Strengths of a Composite to a Base Metal Alloy.
PB94-172723 *00,141*

Physicochemical Properties of Calcific Deposits Isolated from Porcine Bioprosthetic Heart Valves Removed from Patients Following 2-13 Years Function.
PB94-172863 *00,184*

Dental Materials.
PB94-172871 *00,142*

Tapered Cross-Pin Attachments for Fixed Bridges.
PB94-185238 *00,185*

Octacalcium Phosphate Carboxylates IV. Kinetics of Formation and Solubility of Octacalcium Phosphate Succinate.
PB94-185600 *00,776*

Preparation and Monitoring of Lead Acetate Containing Drinking Water Solutions for Toxicity Studies.
PB94-193885 *00,538*

Documentation for Immediately Dangerous to Life or Health Concentrations (IDLHs).
PB94-195047 *03,602*

Nutritional Status and Growth in Juvenile Rheumatoid Arthritis.
PB94-198470 *03,515*

Adhesion of Composites to Dentin and Enamel.
PB94-199049 *00,144*

Development of an Adhesive Bonding System.
PB94-199056 *00,145*

Clinical Perspective on Dentin Adhesives.
PB94-211240 *00,146*

Selective Inhibition of Crystal Growth on Octacalcium Phosphate and Nonstoichiometric Hydroxyapatite by Pyrophosphate at Physiological Concentration.
PB94-211257 *00,147*

New Method for Shielding Electron Beams Used for Head and Neck Cancer Treatment.
PB94-211430 *03,621*

Periapical Tissue Reactions to a Calcium Phosphate Cement in the Teeth of Monkeys.
PB94-212008 *00,149*

Effect of Three Sterilization Techniques on Finger Pluggers.
PB94-216090 *00,150*

Paffenbarger Research Center: The Cutting Edge of Dental Science.
PB94-216355 *00,151*

NIOSH Pocket Guide to Chemical Hazards.
PB95-100368 *03,603*

Evaluation of Fracture Toughness and Residual Stress in Dental Porcelain by Indentation-Microfracture Method.
PB95-125613 *00,154*

Image Information Transfer Properties of X-Ray Intensifying Screens in the Energy Range from 17 to 320 keV.
PB95-126173 *00,155*

Effects of Surface-Active Resins on Dentin/Composite Bonds.
PB95-140448 *00,156*

Deposition of Loosely Bound and Firmly Bound Fluorides on Tooth Enamel by an Acidic Gel Containing Fluorosilicate and Monocalcium Phosphate Monohydrate.
PB95-150710 *03,559*

Effects of Calcium Phosphate Solutions on Dentin Permeability.
PB95-151080 *00,157*

Modified Surface-Active Monomers for Adhesive Bonding to Dentin.
PB95-151163 *00,158*

NIR-Spectroscopic Investigation of Water Sorption Characteristics of Dental Resins and Composites.
PB95-151171 *00,189*

Distribution of Fluoride in Saliva and Plaque Fluid After a 0.048 mol/L NaF Rinse.
PB95-151205 *03,561*

Evaluation of Fracture Toughness and Residual Stress in Dental Porcelain by Indentation-Microfracture Method.
PB95-152831 *00,159*

Publication and Presentation Abstracts, 1993. (Published by Paffenbarger Research Center and Center of Excellence for Materials Science Research).
PB95-153052 *03,562*

Effects on Whole Saliva of Chewing Gums Containing Calcium Phosphates.
PB95-153169 *03,563*

Noninvasive High-Voltage Measurement in Mammography by Crystal Diffraction Spectroscopy.
PB95-153417 *00,160*

Octacalcium Phosphate Carboxylates. 1. Preparation and Identification.
PB95-161535 *00,660*

Octacalcium Phosphate Carboxylates. 2. Characterization and Structural Consideration.
PB95-161543 *00,955*

Wear of Human Enamel against a Commercial Castable Ceramic Restorative Material.
PB95-161972 *00,161*

Ring-Opening Dental Resin Systems Based on Cyclic Acetals.
PB95-162251 *00,162*

Effect of Ethanol on the Solubility of Dicalcium Phosphate Dihydrate in the System Ca(OH)2-H3PO4-H2O at 37C.
PB95-163507 *00,163*

Procedure for the Study of Acidic Calcium Phosphate Precursor Phases in Enamel Mineral Formation.
PB95-164448 *03,564*

Effects of Aluminum Oxalate/Glycine Pretreatment Solutions on Dentin Permeability.
PB95-164505 *03,565*

Evaluation of Methylene Lactone Monomers in Dental Resins.
PB95-164661 *00,164*

Behavior of a Calcium Phosphate Cement in Simulated Blood Plasma In vitro.
PB95-168712 *00,165*

Octacalcium Phosphate Carboxylates. 5. Incorporation of Excess Succinate and Ammonium Ions in the Octacalcium Phosphate Succinate Structure.
PB95-168894 *00,166*

Ambient Temperature Synthesis of Bulk Intermetallics.
PB95-169074 *00,168*

Effect of 1-Hydroxyethylidene-1,1-Bisphosphonate on Membrane-Mediated Calcium Phosphate Formation in Model Liposomal Suspensions.
PB95-169223 *03,469*

Effect of Ethanol on the Solubility of Hydroxyapatite in the System Ca(OH)2-H3PO4-H2O at 25C and 33C.
PB95-169231 *00,169*

Interaction of Chlorhexidine Digluconate with and Adsorption of Chlorhexidine on Hydroxyapatite.
PB95-175907 *03,566*

Ring-Opening Polymerication of a 2-Methylene Spiro Orthocarbonate Bearing a Pendant Methacrylate Group.
PB95-176145 *01,268*

Physical and Chemical Properties of Resin-Reinforced Calcium Phosphate Cements.
PB95-180212 *00,171*

Diagnosis and Treatment of an Oral Base-Metal Contact Lesion Following Negative Dermatologic Patch Tests.
PB95-180626 *00,172*

Formation of Hydroxyapatite in a Polymeric Calcium Phosphate Cement.
PB95-180642 *00,173*

NIOSH Comments to DOL on Risk Estimates from the Cadmium Cohort Study by L. Stayner, February 7, 1992.
PB95-267779 *03,604*

Remineralization of Root Lesions with Concentrated Calcium and Phosphate Solutions.
PB96-102140 03,567

Reduction of Marginal Gaps in Composite Restorations by Use of Glass-Ceramic Inserts.
PB96-102405 00,174

Crystal Structure of a New Monoclinic Form of Potassium Dihydrogen Phosphate Containing Orthophosphacidium Ion, (H4PO4)(sup+1).
PB96-111794 04,725

Publications and Presentation Abstracts, 1995. (Published by Paffenbarger Research Center and Center of Excellence for Materials Science Research).
PB96-119250 03,568

In vitro Fracture Behavior of Ceramic and Metal-Ceramic Restorations.
PB96-119722 03,569

Failure of All-Ceramic Fixed Partial Dentures 'In vitro' and 'In vivo': Analysis and Modeling.
PB96-122536 00,175

Dental Applications of Ceramics.
PB96-122940 00,177

Intensive Swimming: Can It Affect Your Patients' Smiles.
PB96-123666 03,570

Effect of Supersaturation on Apatite Crystal Formation in Aqueous Solutions at Physiologic pH and Temperature.
PB96-135215 03,571

Bioactive Polymeric Dental Materials Based on Amorphous Calcium Phosphate.
PB96-147012 03,572

Remineralizing Dental Composites Based on Amorphous Calcium Phosphate.
PB96-147020 03,573

Polymeric Calcium Phosphate Composites with Remineralization Potential.
PB96-155544 03,575

Physicochemical Characterization of Natural and Bioprosthetic Heart Valve Calcific Deposits: Implications for Prevention.
PB96-156039 00,187

Reinforcement of Cancellous Bone Screws with Calcium Phosphate Cement.
PB96-158001 00,179

Commentary on 'Optimization of Experimental Parameters for the EPR Detection of the Cellulosic Radical in Irradiated Foodstuffs'.
PB96-164124 00,043

Polymeric Calcium Phosphate Cements Derived from Poly(methyl vinyl ether-maleic acid).
PB96-164264 00,180

Publication and Presentation Abstracts, 1994.
PB96-176623 03,577

Wear of Enamel against Glass-Ceramic, Porcelain, and Amalgam.
PB96-179593 03,082

Composition and Solubility Product of a Synthetic Calcium Hydroxyapatite.
PB96-180104 02,995

Adsorption of Potassium N-phenylglycinate on Hydroxyapatite: Role of Solvents and Ionic Charge.
PB96-180161 01,159

In vitro Inhibition of Membrane-Mediated Calcification by Novel Phosphonates.
PB96-201140 03,595

New Surface-Active Comonomer for Adhesive Bonding.
PB96-204052 03,579

Calcium Phosphate Cements.
PB97-111595 03,580

Adsorption of Polyacrylic Acids and Their Sodium Salts on Hydroxyapatite: Effect of Relative Molar Mass.
PB97-112510 03,581

Posterior Restorative Materials Research.

Overview of Bioelectrical Impedance Analyzers.
PB97-118780 00,181

Surface Roughness of Glass-Ceramic Insert. Composite Restorations: Assessing Several Polishing Techniques.
PB97-119010 03,583

Interaction of Citric Acid with Hydroxyapatite: Surface Exchange of Ions and Precipitation of Calcium Citrate.
PB97-119309 03,584

Publication and Presentation Abstracts, 1996.
PB97-122238 03,585

HEART VALVE PROSTHESIS

Physicochemical Properties of Calcific Deposits Isolated from Porcine Bioprosthetic Heart Valves Removed from Patients Following 2-13 Years Function.
PB94-172863 00,184

Critical Evaluation of the Purification of Biominerals by Hypochlorite Treatment.
PB95-150959 00,186

HEART VALVE PROTHESIS

Physicochemical Characterization of Natural and Bioprosthetic Heart Valve Calcific Deposits: Implications for Prevention.
PB96-156039 00,187

HEAT

Effective Measurement Techniques for Heat, Smoke, and Toxic Fire Gases.
PB94-198439 01,369

Effects of Copper, Nickel and Boron on Mechanical Properties of Low-Alloy Steel Weld Metals Deposited at High Heat Input.
PB96-135231 03,363

HEAT CAPACITIES

Thermodynamic Properties of Silicides. 5. Standard Molar Enthalpy of Formation at the Temperature 298.15 K of Trimolybdenum Monosilicide Mo3Si Determined by Fluorine-Combustion Calorimetry.
PB97-119358 01,190

HEAT CAPACITY

Molar Heat Capacity at Constant Volume for Air from 67 to 300 K at Pressures to 35 MPa.
PB96-163738 00,515

Molar Heat Capacity at Constant Volume for (xCO2 + (1-x)C2H6) from 220 to 340 K at Pressures to 35 MPa.
PB96-167135 01,148

Extrapolation of the Heat Capacity in Liquid and Amorphous Phases.
PB97-111421 04,147

HEAT DETECTORS

Studies Assess Performance of Residential Detectors.
PB94-199262 00,290

HEAT EXCHANGERS

Review of Corrosion Behavior of Ceramic Heat Exchanger Materals: Corrosion Characteristics of Silicon Carbide and Silicon Nitride. Final Report, September 11, 1992--March 11, 1993.
DE93041307 03,228

Theoretical Evaluation of the Vapor Compression Cycle with a Liquid-Line/Suction-Line Heat Exchanger, Economizer, and Ejector.
PB95-216917 02,607

Upgrade and Modernization Projects at the NBSR.
PB96-161872 03,737

HEAT EXCHANGES

Effect of Inclination on the Performance of a Compact Brazed Plate Condenser and Evaporator.
PB96-136973 02,756

HEAT FEEDBACK

Measurement of Radiative Feedback to the Fuel Surface of a Pool Fire.
PB94-211604 02,477

HEAT FLOWMETERS

Comparison of Heat-Flow-Meter Tests from Four Laboratories.
PB95-126264 00,365

HEAT FLUX

Ignition and Subsequent Transition to Flame Spread in a Microgravity Environment.
N96-15584/1 04,828

Effects of Specimen Edge Conditions on Heat Release Rate.
PB95-152864 00,375

Burning Rate and Flame Heat Flux For PMMA in the Cone Calorimeter.
PB95-216990 00,393

Heat Flux from Flames to Vertical Surfaces.
PB97-110357 01,438

HEAT FLUXES

Low Heat-Flux Measurements: Some Precautions.
PB96-201116 02,685

HEAT LOSS

Estimate of Flame Radiance via a Single Location Measurement in Liquid Pool Flames.
PB94-211596 02,476

Estimate of the Effect of Scale on Radiative Heat Loss Fraction and Combustion Efficiency.
PB95-150447 02,486

HEAT MEASUREMENT

Assessing the Credibility of the Calorific Content of Muncipal Solid Waste.
PB94-199882 02,581

Comparison of Heat-Flow-Meter Tests from Four Laboratories.
PB95-126264 00,365

Thermochemistry of the Hydrolysis of L-arginine to (L-citrulline + Ammonia) and of the Hydrolysis of L-arginine to (L-ornithine + Urea).
PB95-150801 03,463

Biological Thermodynamic Data for the Calibration of Differential Scanning Calorimeters: Dynamic Temperature Data on the Gel to Liquid Crystal Phase Transition of Dialkylphosphatidylcholine in Water Suspensions.
PB95-162707 03,464

Thermodynamics of the Binding of Galactopyranoside Derivatives to the Basic Lectin from Winged Bean (Psophocarpus Tetrogonolobus).
PB95-162715 03,465

HEAT METERS

Control Stability of a Heat-Flow-Meter Appartus.
PB95-181194 00,386

Intra-Laboratory Comparison of a Line-Heat-Source Guarded Hot Plate and Heat-Flow-Meter Apparatus.
PB95-181202 00,387

HEAT OF COMBUSTION

Precise Measurement of Heat of Combustion with a Bomb Calorimeter.
AD-A286 701/8 03,770

Assessing the Credibility of the Calorific Content of Muncipal Solid Waste.
PB94-199882 02,581

HEAT OF FUSION

Calibration Standards for Differential Scanning Calorimetry. 1. Zinc Absolute Calorimetric Measurement of Enthalpy of Fusion and Temperature of Fusion HM.
PB94-199817 00,801

Measurement of the Heat of Fusion of Tungsten by a Microsecond-Resolution Transient Technique.
PB94-216686 03,400

HEAT OF REACTION

Thermodynamic and NMR Study of the Interactions of Cyclodextrins with Cyclohexane Derivatives.
PB94-185816 00,781

Calorimetric Determination of the Standard Transformed Enthalpy of a Biochemical Reaction at Specified PH and pMg.
PB94-198249 03,454

HEAT PUMPS

Study of Heat Pump Performance Using Mixtures of R32/R134a and R32/R125/R134a as 'Drop-In' Working Fluids for R22 with and Without a Liquid-Suction Heat Exchanger.
PB94-218559 02,503

Simple Method of Composition Shifting with a Distillation Column for a Heat Pump Employing a Zeotropic Refrigerant Mixture.
PB95-255824 02,603

HVAC CAD Layout Tools: A Case Study of University/Industry Collaboration.
PB97-112221 00,281

HEAT RELEASE RATE

New Concepts for Fire Protection of Passenger Rail Transportation Vehicles. (NIST Reprint).
PB95-180774 04,863

Effects of Sample Mounting on Flammability Properties of Intumescent Polymers.
PB96-159777 03,389

HEAT SHOCK PROTEINS

DnaJ, DnaK, and GrpE Heat Shock Proteins are Required in 'ori'P1 DNA Replication Solely at the RepA Monomerization Step.
PB97-119382 03,557

HEAT-SHOCK PROTEINS 60

Function of DnaJ and DnaK as Chaperones in Origin-Specific DNA Binding by RepA.
PB95-151544 03,533

HEAT-SHOCK PROTEINS 70

Function of DnaJ and DnaK as Chaperones in Origin-Specific DNA Binding by RepA.
PB95-151544 03,533

HEAT TRANSFER

Survey of the Literature on Heat Transfer from Solid Surfaces to Cryogenic Fluids.
AD-A286 680/4 04,193

Single-Phase Heat Transfer and Pressure Drop Characteristics of an Integral-Spine-Fin Within an Annulus.
PB94-194073 03,805

Rate of Heat Release of Wood Products.
PB94-212404 03,403

Heat Transfer in Thin, Compact Heat Exchangers with Circular, Rectangular, or Pin-Fin Flow Passages.
PB95-140943 02,751

Heat and Moisture Transfer in Wood-Based Wall Construction: Measured versus Predicted.
PB95-200655 00,391

Calorimetric and Visual Measurements of R123 Pool Boiling on Four Enhanced Surfaces.
PB96-128129 04,053

Natural Convection from an Array of Electronic Packages Mounted on a Horizontal Board in a Narrow Aspect Ratio Enclosure.
PB96-164017 02,087

Experimental Verification of a Moisture and Heat Transfer Model in the Hygroscopic Regime.
PB97-111546 00,309

Test Procedures for Advanced Insulation Panels.
PB97-111892 00,415

Empirical Validation of a Transient Computer Model for Combined Heat and Moisture Transfer.
PB97-111991 00,416

Single-Phase Heat Transfer and Pressure Drop Characteristics of an Integral-Spine Fin Within an Annulus.
PB97-122386 04,179

HEAT TRANSFER COEFFICIENTS

Causes of the Apparent Heat Transfer Degradation for Refrigerant Mixtures.
PB94-212701 03,259

HEAT TRANSMISSION

Numerical Analysis Support for Compartment Fire Modeling and Incorporation of Heat Conduction into a Zone Fire Model.
PB94-156965 01,357

Behavior of Mock-Ups in the California Technical Bulletin 133 Test Protocol: Fabric and Barrier Effects.
PB95-231585 00,301

HEAT TREATMENT

Determination of the Prior-Austenitic Grain Size of Selected Steels Using a Molten Glass Etch.
PB94-211927 03,208

HEATING SYSTEMS
Multizone Modeling of Three Residential Indoor Air Quality Control Options.
PB96-165782 *02,567*

HEAVY METALS
Genetically Engineered Pore as a Metal Ion Biosensor.
PB96-161658 *03,551*

HELIUM
Helium Refrigeration and Liquefaction Using a Liquid Hydrogen Refrigerator for Precooling.
AD-A286 683/8 *02,749*

High-Energy Behavior of the Double Photoionization of Helium from 2 to 12 keV.
PB94-213279 *03,860*

Operational Mode and Gas Species Effects on Rotational Drag in Pneumatic Dead Weight Pressure Gages.
PB95-140182 *00,903*

Ab initio Calculations for Helium: A Standard for Transport Property Measurements.
PB96-102041 *01,060*

Search for Small Violations of the Symmetrization Postulate in an Excited State of Helium.
PB96-123518 *04,050*

Kinetic-Energy Distributions of Ions Sampled from Radio-Frequency Discharges in Helium, Nitrogen, and Oxygen.
PB96-123732 *01,092*

Electronically Tunable Fiber Laser for Optical Pumping of (3)He and (4)He.
PB96-201165 *04,381*

Commercial Helium Permeation Leak Standards: Their Properties and Reliability.
PB97-111413 *04,146*

Absence of Quantum-Mechanical Effects on the Mobility of Argon Ions in Helium Gas at 4.35 K.

HELIUM COMPLEXES
Signatures of Large Amplitude Motion in a Weakly Bound Complex: High-Resolution IR Spectroscopy and Quantum Calculations for HeCO2.
PB95-203485 *01,054*

HELIUM IONS
Use of an Ion Energy Analyzer: Mass Spectrometer to Measure Ion Kinetic-Energy Distributions from RF Discharges in Argon-Helium Gas Mixtures.
PB94-185717 *04,406*

HELIUM-LIKE IONS
Evaluation of Two-Photon Exchange Graphs for Highly-Charged Heliumlike Ions.
PB94-198918 *03,808*

Experimental Aspects and Z-Dependent Systematics in One- and Two-Electron Ions and Single Vacancy Systems.
PB94-199627 *03,815*

HELIUM SPECTROSCOPY
Frequency-Stabilized LNA Laser at 1.083 mum: Application to the Manipulation of Helium 4 Atoms.
PB95-176186 *04,304*

HELMET MOUNTED DISPLAYS
NIST Construction Automation Program Report No. 2. Proceedings of the NIST Construction Automation Workshop. Held in Gaithersburg, Maryland on March 30-31, 1995.
PB96-202239 *00,413*

HELMHOLTZ RESONATORS
Greenspan Acoustic Viscometer for Gases.
PB96-204417 *04,220*

HEMOGLOBIN
Positive and Negative Cooperativities at Subsequent Steps of Oxygenation Regulate the Allosteric Behavior of Multistate Sebacylhemoglobin.
PB97-119374 *03,486*

HEMOLYSIN
Genetically Engineered Pores as Metal Ion Biosensors.
PB96-167408 *03,553*

HEMOLYSIS
Genetically Engineered Pores for New Materials.
PB96-161641 *03,550*

HENDERSON METHOD
Anova Estimates of Variance Components for a Class of Mixed Models.
PB96-141163 *03,448*

HEPARIN
Thermodynamic Analysis of Heparin Binding to Human Antithrombin.
PB94-199593 *03,455*

Physicochemical Characterization of Low Molecular Weight Heparin.
PB96-112040 *03,474*

Structural Analysis of Heparin by Raman Spectroscopy.
PB96-167226 *03,480*

HEPARINS
Physical Characterization of Herparin by Light Scattering.
PB96-119383 *03,598*

HEPTANE
Simultaneous Optical Measurement of Soot Volume Fraction, Temperature, and CO2 in Heptane Pool Fire.
PB96-102132 *01,397*

HERTZIAN CONTACT
Deformation and Fracture of Mica-Containing Glass-Ceramics in Hertzian Contacts.
PB96-179452 *03,080*

Effect of Grain Size on Hertzian Contact Damage in Alumina.
PB96-179601 *03,083*

HETERODYNE DETECTION
Heterodyne Mixing and Direct Detection in High Temperature Josephson Junctions.
PB96-147202 *01,565*

HETERODYNE MIXERS
Terahertz Detectors Based on Superconducting Kinetic Inductance.
PB95-168647 *02,160*

HETERODYNING
30 THz Mixing Experiments on High Temperature Superconducting Josephson Junctions.
PB96-102462 *04,709*

HETEROGENEITY
Structural Heterogeneity in Epoxies.
PB95-151866 *01,243*

HETEROJUNCTIONS
Scaling of the Nonlinear Optical Cross Sections of GaAs-AlGaAs Multiple Quantum-Well Hetero n-i-p-i's.
PB96-102793 *02,183*

HEURISTIC METHODS
Move-to-Root Rule for Self-Organizing Trees with Markov Dependent Requests.
PB96-179528 *03,431*

HEXACARBONYLMOLYBDENUM
Photodecomposition of Mo(CO)6/Si(111) 7x7: CO State-Resolved Evidence for Excited State Relaxation and Quenching.

HIGHWAY TRANSPORTATION
Robotics Application to Highway Transportation. Volume 2. Literature Search.
PB95-170551 *01,337*

Robotics Application to Highway Transportation. Volume 3. Proposed Research Topics and Cost/Benefit Evaluations by CERF.
PB95-171633 *01,338*

HIGHWAYS
Binder Characterization and Evaluation by Nuclear Magnetic Resonance Spectroscopy.
PB94-193471 *01,334*

HILBERT PROBLEMS
Green's Function for Generalized Hilbert Problem for Cracks and Free Surfaces in Composite Materials.
PB95-163333 *03,163*

HILSCH TUBES
Applications of the Vortex Tube in Chemical Analysis.
PB94-199171 *00,544*

Chromatographic Cryofocusing and Cryotrapping with the Vortex Tube.
PB95-180113 *00,604*

Applications of the Vortex Tube in Chemical Analysis. Part 2. Applications.
PB96-112107 *00,615*

HISTIDINE
Pore-Forming Protein with a Metal-Actuated Switch.
PB96-176557 *03,554*

HISTOGRAMS
Concentration Histogram Imaging: A Scatter Diagram Technique for Viewing Two or Three Related Images.
PB94-199114 *00,542*

HISTORICAL ASPECTS
Fire and Smoke Control: An Historical Perspective.
PB95-175808 *00,202*

HOLD-UP TIMES
Simple and Efficient Methane-Marker Devices for Chromatographic Samples.
PB96-164041 *00,635*

HOLE MOBILITY
Majority and Minority Mobilities in Heavily Doped Silicon for Device Simulations.
PB94-198728 *02,311*

Hole Dispersion and Enhancement of Antiferromagnetic Interaction of Localized Spins in High-Tc Superconductors.
PB95-202602 *04,694*

Majority and Minority Electron and Hole Mobilities in Heavily Doped Gallium Aluminum Arsenide.
PB97-118335 *04,814*

HOLES
Dimensional Characterization of Small Bores: A Survey.
PB95-162202 *02,651*

HOLLOW CLAY TILE PRISMS
Hollow Clay Tile Prism Tests for Martin Marietta Energy Systems: Task 2 Testing.
PB94-217486 *00,352*

HOLMIUM
Observation of Two Length Scales Above (T sub N) in a Holmium Thin Film.
PB97-111942 *04,151*

HOLMIUM NICKEL BORON CARBIDES
Observation of Oscillatory Magnetic Order in the Antiferromagnetic Superconductor HoNi2B2C.
PB95-180303 *04,679*

HOLOGRAPHIC SPECTROSCOPY
Holographic Properties of Triton X-100-Treated Bacteriorhodopsin Embedded in Gelatin Films.
PB96-119284 *03,761*

HOLOGRAPHY
Optical Properties of Triton X-100-Treated Purple Membranes Embedded in Gelatin Films.
PB96-123500 *03,546*

HOME FIRES
Influence of Ignition Source on the Flaming Fire Hazard of Upholstered Furniture. (NIST Reprint).
PB95-180162 *00,297*

HOMOGENEITY
Recent Developments in NIST Botanical SRMs.
PB96-167267 *03,489*

HOMOSCEDASTICITY
Developing Measurement for Experimentation.
PB97-118707 *03,450*

HONEYCOMB COMPOSITES
Investigation into the Flammability Properties of Honeycomb Composites.
PB95-143293 *03,152*

HOSPITAL FIRES
Measurement of Room Conditions and Response of Sprinklers and Smoke Detectors during a Simulated Two-Bed Hospital Patient Room Fire.
PB94-213717 *00,292*

HOT ELECTRONS
30 THz Mixing Experiments on High Temperature Superconducting Josephson Junctions.
PB96-102462 *04,709*

HOT ISOSTATIC PRESSING
Intelligent Processing of Hot Isostatic Pressing.
PB94-172913 *03,315*

Micromechanics of Densification and Distortion.
PB94-200326 *03,327*

Investigation into a Practical Grain Growth Model for Hot Isostatic Pressing.
PB95-151684 *03,347*

HOT MIX PAVING MIXTURES
System for Calibration of the Marshall Compaction Hammer.
PB94-145661 *01,303*

Field Evaluation of the System for Calibration of the Marshall Compaction Hammer.
PB95-190674 *01,323*

HOT PRESSING
Intelligent Processing of Hot Isostatic Pressing.
PB94-172913 *03,315*

Fracture Mechanism Maps: Their Applicability to Silicon Nitride.
PB96-204532 *03,094*

HOT STARS
Radiation-Driven Winds of Hot Luminous Stars X. The Determination of Stellar Masses Radii and Distances from Terminal Velocities and Mass-Loss Rates.
PB94-213022 *00,060*

HOT SURFACES
Transient Cooling of a Hot Surface by Droplets Evaporation.
PB95-143194 *03,890*

HOT WIRE
Transient Methods for Thermal Conductivity.
PB94-198405 *04,197*

HOT WORKING
Hot-Deformation Apparatus for Thermomechanical Processing Simulation.
PB94-200136 *03,207*

HOTEL FIRES
Full Scale Smoke Control Tests at the Plaza Hotel Building.
PB94-212859 *00,347*

HOUSING (DWELLINGS)
Controlling Moisture in the Walls of Manufactured Housing.
PB95-105136 *00,355*

Predicting the Energy Performance Ratings of a Family of Type I Combination Appliances.
PB95-105524 *02,504*

HPC (HIGH PERFORMANCE CONCRETE)
Microstructural Features of Some Low Water/Solids, Silica Fume Mortars Cured at Different Temperatures.
PB94-160777 *00,330*

HSLA-100 STEEL
Characterization of the Hydrogen Induced Cold Cracking Susceptibility at Simulated Weld Zones in HSLA-100 Steel.
AD-A279 759/5 *03,200*

HUMAN BEHAVIOR
Mathematical Modeling of Human Egress from Fires in Residential Buildings.
PB94-193778 *00,337*

Enhancement of EXIT89 and Analysis of World Trade Center Data.
PB96-202247 *00,231*

HUMAN BODY
Maximum Permissible Amounts of Radioisotopes in the Human Body and Maximum Permissible Concentrations in Air and Water.
AD-A280 281/7 *03,609*

Maximum Permissible Body Burdens and Maximum Permissible Concentrations of Radionuclides in Air and in Water for Occupational Exposure.
AD-A280 282/5 *03,610*

HUMAN FACTORS
Human Factors Considerations for the Potential Use of Elevators for Fire Evacuation of FAA Air Traffic Control Towers.
PB94-217163 *01,300*

HUMAN FACTORS ENGINEERING
Evaluating Form Designs for Optical Character Recognition.
PB94-168044 *01,830*

Psychological Aspects of Lighting: A Review of the Work of CIE TC 3.16.
PB94-172160 *00,241*

Workshop on the Application of Virtual Reality to Manufacturing. Final Report. Held in Gaithersburg, Maryland on August 9, 1994.
PB95-173555 *02,825*

HUMAN SERUM
Development of the Ion Exchange-Gravimetric Method for Sodium in Serum as a Definitive Method.
PB96-179148 *01,867*

HUMANITIES
User Profile for Researchers Studying Objects: Implications for Computer Systems.
PB94-188463 *00,133*

HUMANS
Human and Machine Recognition of Faces: A Survey.
PB96-111687 *01,854*

HUMIDITY
Methods of Measuring Humidity and Testing Hygrometers.
AD-A278 851/1 *00,123*

Effects of Humidity and Elevated Temperature on the Density and Thermal Conductivity of a Rigid Polyisocyanurate Foam Co-Blown with CCl3F and CO2.
PB95-150462 *00,371*

Effects of Humidity and Elevated Temperature on the Density and Thermal Conductivity of a Rigid Polyisocyanurate Foam.
PB95-152021 *00,373*

HUMIDITY MEASUREMENT
New Expressions of Uncertainties for Humidity Calibrations at the National Institute of Standards and Technology.
PB95-103826 *02,645*

HURRICANES
Gust Factors Applied to Hurricane Winds.
PB95-180469 *00,446*

Some Notable Hurricanes Revisited.
PB96-122601 *00,458*

Estimates of Hurricane Wind Speeds by the 'Peaks Over Threshold' Method.
PB96-162540 *00,471*

Probabilistic Estimates of Design Load Factors for Wind-Sensitive Structures Using the 'Peaks Over Threshold' Approach.
PB96-183223 *00,474*

HY-100 STEEL
Characterization of the Hydrogen Induced Cold Cracking Susceptibility at Simulated Weld Zones in HSLA-100 Steel.
AD-A279 759/5 *03,200*

HYADES CLUSTER
IUE Observations of Solar-Type Stars in the Pleiades and the Hyades.
PB94-199437 *00,053*

HYBRID ELECTRIC-POWERED VEHICLES
Advanced Components for Electric and Hybrid Electric Vehicles. Workshop Proceedings. Held in Gaithersburg, Maryland on October 27-28, 1993.
PB94-177060 *04,858*

HYBRID METHODS
Hybrid Method for Determining Material Properties from Instrumented Micro-Indentation Experiments.
PB95-152229 *03,348*

HYDRATES
Modelling Drying Shrinkage of Cement Paste and Mortar. Part 1. Structural Models from Angstroms to Millimeters.
PB96-135132 *03,074*

HYDRATION
Digitized Direct Simulation Model of the Microstructural Development of Cement Paste.
PB94-198777 *01,309*

Digitized Simulation Model for Microstructural Development.
PB94-198785 *01,310*

Modelling the Leaching of Calcium Hydroxide from Cement Paste: Effects on Pore Space Percolation and Diffusivity.
PB94-198793 *01,311*

Diffusion Studies in a Digital-Image-Based Cement Paste Microstructural Model.
PB94-198801 *01,312*

Survey of Recent Cementitious Materials Research in Western Europe.
PB94-218583 *00,353*

Resolution of DNA in the Presence of Mobility Modifying Polar and Nonpolar Compounds by Discontinuous Electrophoresis on Rehydratable Polyacrylamide Gels.
PB95-152799 *00,590*

Cellular Automaton Simulations of Cement Hydration and Microstructure Development.
PB95-175055 *01,320*

Hydration in Semicrystalline Polymers: Small-Angle Neutron Scattering Studies of the Effect of Drawing in Nylon-6 Fibers.
PB95-202990 *03,385*

HYDRAULIC FLUIDS
Suppression of Elevated Temperature Hydraulic Fluid and JP-8 Spray Flames.
PB95-181095 *00,021*

Intercomparison between NPL (India) and NIST (USA) Pressure Standards in the Hydraulic Pressure Region Up to 26 MPa.
PB96-113543 *04,211*

HYDRAULIC RADIUS
Hydraulic Radius and Transport in Reconstructed Model Three-Dimensional Porous Media.
PB96-123419 *00,403*

HYDRAZINE
Far Infrared Laser Frequencies of CH3OD and N2H4.
PB96-119623 *04,341*

HYDRAZINE TREATMENT
Critical Evaluation of the Purification of Biominerals by Hypochlorite Treatment.
PB95-150959 *00,186*

HYDRAZOIC ACID
Fragment Energy and Vector Correlations in the Overtone-Pumped Dissociation of HN3X(1)A'.
PB94-199908 *00,802*

HYDRIDES
Neutron Spectroscopic Comparison of beta-Phase Rare Earth Hydrides.
PB96-160742 *01,134*

HYDROAZOIC ACID
Vibrational Predissociation Dynamics of Overtone-Excited HN3.
PB95-125720 *00,691*

HYDROCARBON DETECTORS
Process Gas Chromatography Detector for Hydrocarbons Based on Catalytic Cracking.
PB95-141099 *02,485*

HYDROCARBONS
Standard Materials. A Descriptive List with Prices.
AD-A278 140/9 *00,500*

Process Gas Chromatography Detector for Hydrocarbons Based on Catalytic Cracking.
PB95-141099 *02,485*

Optical Measurements of Atomic Hydrogen, Hydroxyl, and Carbon Monoxide in Hydrocarbon Diffusion Flames.
PB95-150900 *02,487*

Large Fire Experiments for Fire Model Evaluations.
PB96-190079 *01,427*

Experimental Determination of the Rate Constant for the Reaction of C2H3 with H2 and Implications for the Partitioning of Hydrocarbons in Atmospheres of the Outer Planets.
PB97-122295 *00,112*

HYDROCHLORIC ACID
Automated, High Precision Coulometric Titrimetry. Part 2. Strong and Weak Acids and Bases.
PB95-150207 *00,576*

HYDROCHLOROFLUOROCARBONS
Rate Constants for the Gas Phase Reactions of the OH Radical with CF3CF2CHCl2 (HCFC-225ca) and CF2ClCF2CHClF (HCFC-225cb).
PB95-152153 *00,940*

Annex 18: An International Study of Refrigerant Properties.
PB95-168936 *03,266*

HYDRODYNAMIC FRICTION
Hydrodynamic Friction of Arbitrarily Shaped Brownian Particles.
PB97-110191 *04,136*

HYDRODYNAMIC INTERACTIONS
Effect of Hydrodynamic Interactions on a Terminally Anchored Bead-Rod Model Chain.
PB95-141156 *01,237*

HYDRODYNAMICS
Effect of Hydrodynamic Interactions on a Terminally Anchored Bead-Rod Model Chain.
PB95-141156 *01,237*

Competition between Hydrodynamic Screening ('Draining') and Excluded Volume Interactions in an Isolated Polymer Chain.
PB95-175402 *01,265*

Hydrodynamic Similarity in an Oscillating-Body Viscometer.
PB96-122429 *01,082*

Book Review: Aspects and Applications of the Random Walk.
PB96-123534 *04,215*

Response to 'Draining in Dilute Polymer Solutions and Renormalization'.
PB96-146667 *01,283*

HYDROELASTIC SYSTEMS
Noise Modeling and Reliability of Behavior Prediction for Multi-Stable Hydroelastic Systems.
PB96-111943 *04,822*

HYDROELASTICITY
Noise Modeling and Reliability of Behavior Prediction for Multi-Stable Hydroelastic Systems.
PB96-111943 *04,822*

HYDROFLUORIC ACID
High-Resolution Infrared Overtone Spectroscopy of N2-HF: Vibrational Red Shifts and Predissociation Rate as a Function of HF Stretching Quanta.
PB96-102298 *01,061*

HYDROFLUOROCARBON
Neutron and Raman Spectroscopies of 134 and 134a Hydrofluorocarbons Encaged in Na-X Zeolite.
PB96-186168 *03,001*

HYDROFLUOROCARBONS
Development of a Dual-Sinker Densimeter for High-Accuracy Fluid P-V-T Measurements.
PB95-168951 *03,267*

Atmospheric Lifetimes of HFC-143a and HFC-245fa: Flash Photolysis Resonance Fluorescence Measurements of the OH Reaction Rate Constants.
PB97-112577 *00,118*

HYDROFLURORCARBONS
Virial Coefficients of Five Binary Mixtures of Fluorinated Methanes and Ethanes.
PB96-156054 *01,128*

HYDROGEN
Tabulation of the Thermodynamic Properties of Normal Hydrogen from Low Temperatures to 300K and from 1 to 100 Atmospheres.
AD-A279 951/8 *00,713*

Compilation of the Physical Equilibria and Related Properties of the Hydrogen-Carbon Monoxide System.
AD-A286 603/6 *00,716*

Collision-Induced Emission in the Fundamental Vibration-Rotation Band of H2.
PB94-199445 *03,811*

Vibrational Autoionization in H2: Vibrational Branching Ratios and Photoelectron Angular Distributions Near the v(+)=3 Threshold.
PB94-199577 *00,799*

Rate Constants for Hydrogem Atom Attack on Some Chlorinated Benzenes at High Temperature.
PB94-200581 *00,810*

Measurement of the Self Broadening of the H2Q(0-5) Raman Transitions from 295 to 1000 K.
PB95-108627 *00,884*

Conductance Response of Pd/SnO2(110) Model Gas Sensors to H2 and O2.
PB95-125803 *00,892*

Operational Mode and Gas Species Effects on Rotational Drag in Pneumatic Dead Weight Pressure Gages.
PB95-140182 *00,903*

Optical Measurements of Atomic Hydrogen, Hydroxyl, and Carbon Monoxide in Hydrocarbon Diffusion Flames.
PB95-150900 *02,487*

Mechanism and Rate Constants for the Reactions of Hydrogen Atoms with Isobutene at High Temperatures.
PB95-151064 *00,929*

Simultaneous Forward-Backward Raman Scattering Studies of D2 Broadened by D2, He, and Ar.
PB95-162459 *00,961*

Hydrogen Atom Attack on Perchloroethylene.
PB95-163473 *00,969*

Fugacity Coefficients of Hydrogen in (Hydrogen + Butane).
PB95-175212 *02,491*

Neutron Scattering by Hydrogen in Cold Neutron Prompt Gamma-Activation Analysis.
PB95-175972 *00,603*

Characterization of the Interaction of Hydrogen with Iridium Clusters in Zeolites by Inelastic Neutron Scattering Spectroscopy.
PB95-180741 *01,013*

Vibrations of Hydrogen and Deuterium in Solid Solution with Lutetium.
PB95-181038 *01,019*

Analyses of Recent Experimental and Theoretical Determinations of e-H2 Vibrational Excitation Cross Sections: Assessing a Long-Standing Controversy.
PB95-202438 *03,977*

Recombination Line Intensities for Hydrogenic Ions-III. Effects of Finite Optical Depth and Dust.
PB95-202677 *00,079*

Modified Effective Range Theory as an Alternative to Low-Energy Close-Coupling Calculations.
PB95-202701 *03,988*

Deuterium in the Local Interstellar Medium: Its Cosmological Significance.
PB95-202842 *00,081*

Importance of Bound-Free Correlation Effects for Vibrational Excitation of Molecules by Electron Impact: A Sensitivity Analysis.
PB95-202974 *03,996*

Time-Resolved Balmer-Alpha Emission from Fast Hydrogen Atoms in Low Pressure, Radio-Frequency Discharges in Hydrogen.
PB96-102942 *04,028*

Measuring Hydrogen by Cold-Neutron Prompt-Gamma Activation Analysis.
PB96-111877 *00,612*

Decay of Bragg Gratings in Hydrogen-Loaded Optical Fibers.
PB96-122643 *04,345*

Asymptotic and Numerical Analysis of a Premixed Laminar Nitrogen Dioxide-Hydrogen Flame.
PB96-164256 *01,422*

HYDROGEN ABSORPTION
Vibrational Excitations and the Position of Hydrogen in Nanocrystalline Palladium.
PB96-111828 *04,035*

HYDROGEN ADDITIONS
Hydrogen in YBa2Cu3Ox: A Neutron Spectroscopy and a Nuclear Magnetic Resonance Study.
PB95-161279 *04,601*

HYDROGEN ATOMS
Rate Constants for Hydrogem Atom Attack on Some Chlorinated Benzenes at High Temperature.
PB94-200581 *00,810*

Perturbative Calculation of the AC Stark Effect by the Complex Rotation Method.
PB95-141123 *04,260*

Mechanism and Rate Constants for the Reactions of Hydrogen Atoms with Isobutene at High Temperatures.
PB95-151064 *00,929*

Hydrogen Atom Attack on Perchloroethylene.
PB95-163473 *00,969*

Vibrational Excitations and the Position of Hydrogen in Nanocrystalline Palladium.
PB96-111828 *04,035*

HYDROGEN BONDING
Interaction of Some Coupling Agents and Organic Compounds with Hydroxyapatite: Hydrogen Bonding, Adsorption and Adhesion.
PB94-172616 *00,140*

Lattice Model of a Hydrogen-Bonded Polymer Blend.
PB97-112262 *03,391*

Relaxation After a Temperature Jump Within the One Phase Region of a Polymer Mixture.
PB97-112494 *03,394*

Bimolecular Interactions in (Et)3SiOH:Base:CCl4 Hydrogen-Bonded Solutions Studied by Deactivation of the Free OH-Stretch Vibration.
PB97-118657 *04,166*

Rotational Spectra of CH3CCH-NH3, NCCCH-NH3, and NCCCH-OH2.
PB97-118798 *04,170*

HYDROGEN BONDS
Phase Behavior of a Hydrogen Bonding Molecular Composite.
PB94-185188 *01,202*

Strong Hydrogen Bond in the Formic Acid-Formate Anion System.
PB94-198595 *00,788*

Structure of Glycine-Water H-Bonded Complexes.
PB94-198603 *00,789*

P-Type Doubling in the Infrared Spectrum of NO-HF.
PB94-211463 *00,817*

Mode Specific Vibrational Predissociation Dynamics in Fragile Molecules.
PB95-107132 *00,871*

Rigid Bender Analysis of van der Waals Complexes: The Intermolecular Bending Potential of a Hydrogen Bond.
PB95-203022 *01,042*

Comparison of a Fixed-Charge and a Polarizable Water Model.
PB96-111620 *01,072*

State-Resolved Rotational Energy Transfer in Open Shell Collisions: Cl((2)P3/2)+HCl.
PB96-176607 *01,157*

HYDROGEN CHLORIDE
Slit-Jet Near-Infrared Diode Laser Spectroscopy of (DCl)2: nu1, nu2 DCl Stretching Fundamentals, Tunneling Dynamics, and the Influence of Large Amplitude 'Geared' Intermolecular Rotation.
PB95-203204 *01,047*

HYDROGEN CHLORIDE COMPLEXES
Vibrational Dependence of the Anisotropic Intermolecular Potential of Ar-HCl.
PB95-202685 *01,029*

High Resolution Near Infrared Spectroscopy of HCl-DCl and DCl-HCl: Relative Binding Energies, Isomer Interconversion Rates, and Mode Specific Vibrational Predissociation.
PB95-203212 *01,048*

HYDROGEN CHLORIDE DIMERS
High Resolution, Jet-Cooled Infrared Spectroscopy of (HCl)2: Analysis of nu1 and nu2 HCl Stretching Fundamentals, Interconversion Tunneling, and Mode-Specific Predissociation Lifetimes.
PB95-203196 *01,046*

HYDROGEN CYANIDE
Self-, N2- and Ar-Broadening and Line Mixing in HCN and C2H2.
PB95-108445 *00,876*

New Approach for Reducing the Toxicity of the Combustion Products from Flexible Polyurethane Foam.
PB96-123625 *01,411*

HYDROGEN CYANIDE LASERS
Efficient Br(*) Laser Pumped by Frequency-Doubled Nd:YAG and Electronic-to-Vibrational Transfer-Pumped CO2 and HCN Lasers.
PB95-108684 *04,248*

HYDROGEN EMBRITTLEMENT
Determination of Hydrogen in Titanium Alloy Jet Engine Compressor Blades by Cold Neutron Capture Prompt Gamma-ray Activation Analysis.
PB95-175956 *01,448*

HYDROGEN FLUORIDE
Tunneling-Rotation Spectrum of the Hydrogen Fluoride Dimer.
PB94-198678 *00,793*

P-Type Doubling in the Infrared Spectrum of NO-HF.
PB94-211463 *00,817*

Intermolecular HF Motion in Ar(sub n)HF Micromatrices (n=1,2,3,4,): Classical and Quantum Calculations on a Pairwise Additive Potential Surface.
PB95-107025 *03,871*

High-Resolution Infrared Spectroscopy of DF Trimer: A Cyclic Ground State Structure and DF Stretch Induced Intramolecular Vibrational Coupling.
PB95-150678 *00,920*

HYDROGEN FLUORIDE COMPLEXES
High-Resolution Infrared Overtone Spectroscopy of ArHF via Nd:YAG/Dye Laser Difference Frequency Generation.
PB94-211448 *00,816*

Spectroscopic Puzzle in ArHF Solved: The Test of a New Potential.
PB94-216058 *00,850*

Slit Jet Infrared Spectroscopy of Hydrogen Bonded N2HF Isotopomers: Rotational Rydberg-Klein-Rees Analysis and H/D Dependent Vibrational Predissociation Rates.
PB95-161873 *00,956*

Fragment State Correlations in the Dissociation of NO.HF(v=1).
PB95-164430 *00,982*

Vibrational Dependence of the Anisotropic Intermolecular Potential of Ar-HF.
PB95-202693 *01,030*

Rotational-RKR Inversion of Intermolecular Stretching Potentials: Extension to Linear Hydrogen Bonded Complexes.
PB95-203014 *01,041*

Rigid Bender Analysis of van der Waals Complexes: The Intermolecular Bending Potential of a Hydrogen Bond.
PB95-203022 *01,042*

HYDROGEN IONS
Resonant Two-Color Detachment of H(-) with Excitation of H(n=2).
PB95-202552 *03,984*

Variationally Stable Treatment of Two- and Three-Photon Detachment of H(-) Including Electron-Correlation Effects.
PB95-202867 *03,992*

Short-Pulse Detachment of H(-) in the Presence of a Static Electric Field.
PB95-203477 *04,007*

Kinetic Energy Distributions of H(+), H2(+), and H3(+) from a Diffuse Townsend Discharge in H2 at High E/N.
PB96-123351 *04,415*

HYDROGEN IONS 2 PLUS
Asymptotic Wave Function Splitting Procedure for Propagating Spatially Extended Wave Functions: Application to Intense Field Photodissociation of H2(+).
PB94-211786 *03,847*

HYDROGEN ISOTOPES
New IUPAC Guidelines for the Reporting of Stable Hydrogen, Carbon, and Oxygen Isotope-Ratio Data. Letter to the Editor.
PB95-261962 *01,058*

HYDROGEN-LIKE IONS
Experimental Aspects and Z-Dependent Systematics in One- and Two-Electron Ions and Single Vacancy Systems.
PB94-199627 *03,815*

Fast Computer Evaluation of Radiative Properties of Hydrogenic Systems.
PB95-150553 *03,894*

HYDROGEN ORDERING
Neutron Spectroscopic Evidence of Concentration-Dependent Hydrogen Ordering in the Octahedral Sublattice of beta-TbH2+x.
PB95-181020 *01,018*

HYDROGEN PLASMA
Attempts at Extending the Unified Theory to Include Many-Body Effects.
PB94-212719 *04,408*

Excitation of Balmer Lines in Low-Current Discharges of Hydrogen and Deuterium.
PB95-150546 *03,893*

Hydrogen Balmer Alpha Line Shapes for Hydrogen-Argon Mixtures in a Low-Pressure rf Discharge.
PB95-153433 *03,924*

HYDROGEN SULFIDE
Nonadiabatic Effects in the Photoassociation of H2S.
PB95-151437 *00,934*

HYDROGEN VIBRATIONS
Neutron-Spectroscopy Study of the Hydrogen Vibrations in Hydrogen-Doped YBa2Cu3Ox.
PB94-172475 *04,441*

HYDROLYSIS
Thermodynamics of the Hydrolysis of Penicillin G and Ampicillin.
PB94-172467 *03,596*

Hydrolysis of Proteins by Microwave Energy.
PB94-216322 *03,528*

Thermochemistry of the Hydrolysis of L-arginine to (L-citrulline + Ammonia) and of the Hydrolysis of L-arginine to (L-ornithine + Urea).
PB95-150801 *03,463*

Equilibrium and Calorimetric Investigation of the Hydrolysis of L-Tryptophan to (Indole + Pyruvate + Ammonia).
PB95-163317 *00,661*

Thermodynamics of the Hydrolysis of N-Acetyl-L-phenylalanine Ethyl Ester in Water and in Organic Solvents.
PB95-203386 *01,053*

HYDROXYANISOLES
Thermal Decomposition of Hydroxy- and Methoxy-Substituted Anisoles.
PB94-173036 *00,767*

HYDROXYAPATITE
Formation of Hydroxyapatite in Cement Systems.
PB95-175261 *00,170*

Adsorption of Potassium N-phenylglycinate on Hydroxyapatite: Role of Solvents and Ionic Charge.
PB96-180161 *01,159*

In vitro Inhibition of Membrane-Mediated Calcification by Novel Phosphonates.
PB96-201140 *03,595*

Interaction of Citric Acid with Hydroxyapatite: Surface Exchange of Ions and Precipitation of Calcium Citrate.
PB97-119309 *03,584*

HYDROXYAPATITES
Adsorption of Low-Molecular-Weight Sodium Polyacrylate on Hydroxyapatite.
PB94-172608 *00,139*

Interaction of Some Coupling Agents and Organic Compounds with Hydroxyapatite: Hydrogen Bonding, Adsorption and Adhesion.
PB94-172616 *00,140*

Interaction of Chlorhexidine Digluconate with and Adsorption of Chlorhexidine on Hydroxyapatite.
PB95-175907 *03,566*

Formation of Hydroxyapatite in a Polymeric Calcium Phosphate Cement.
PB95-180642 *00,173*

Adsorption of Polyacrylic Acids and Their Sodium Salts on Hydroxyapatite: Effect of Relative Molar Mass.
PB97-112510 *03,581*

HYDROXYL EMISSION
Rotational Spectrum of OH in the v=0-3 Levels of Its Ground State.
PB95-176202 *01,006*

HYDROXYL RADICAL
Commentary: The Measurement of Oxidative Damage to DNA by HPLC and GC/MS Techniques.
PB96-200894 *03,484*

HYDROXYL RADICALS
Product Kinetic Energies, Correlations, and Scattering Anisotropy in the Bimolecular Reactor O((1)D)+H2O yields 2OH.
PB94-212792 *00,838*

Optical Measurements of Atomic Hydrogen, Hydroxyl, and Carbon Monoxide in Hydrocarbon Diffusion Flames.
PB95-150900 *02,487*

Unusual Spin-Trap Chemistry for the Reaction of Hydroxyl Radical with the Carcinogen N-Nitrosodimethylamine.
PB95-151643 *00,692*

Gas Phase Reactivity Study of OH Radicals with 1,1-Dichloroethene and cis-1,1-Dichloroethene and Trans-1,2-Dichloroethene over the Temperature Range 240-400 K.
PB95-152146 *00,939*

Rate Constants for the Gas Phase Reactions of the OH Radical with CF3CF2CHCl2 (HCFC-225ca) and CF2ClCF2CHClF (HCFC-225cb).
PB95-152153 *00,940*

Rotational Spectrum of OH in the v=0-3 Levels of Its Ground State.
PB95-176202 *01,006*

Detection of OH+ in Its a(1)Delta State by Far Infrared Laser Magnetic Resonance.
PB95-181087 *01,021*

Laser-Induced Fluorescence Measurements of OH in Laminar Diffusion Flames in the Presence of Soot Particles.
PB96-123120 *01,409*

Atmospheric Lifetimes of HFC-143a and HFC-245fa: Flash Photolysis Resonance Fluorescence Measurements of the OH Reaction Rate Constants.
PB97-112577 *00,118*

HYDROXYMETHYL PEROXY RADICALS
Kinetics of the Self-Reaction of Hydroxymethylperoxyl Radicals.
PB94-212164 *00,827*

HYGROMETERS
Methods of Measuring Humidity and Testing Hygrometers.
AD-A278 851/1 *00,123*

Low-Temperature Performance of Radiosonde Electric Hygrometer Elements.
AD-A295 319/8 *00,121*

HYGROTHERMAL EFFECT
Hygrothermal Effects on the Performance of Polymers and Polymeric Composites: A Workshop Report. Held in Gaithersburg, Maryland on September 21-22, 1995.
PB96-183207 *03,180*

HYOGOKEN-NANBU EARTHQUAKE
January 17, 1995 Hyogoken-Nanbu (Kobe) Earthquake. Performance of Structures, Lifelines and Fire Protection Systems. Executive Summary and Paper.
PB97-104160 *00,475*

HYPERFINE STRUCTURE
Hyperfine-Structure Studies of Zr II: Experimental and Relativistic Configuration-Interaction Results.
PB95-203824 *04,011*

HYPERFINE STRUCTURES
Hyperfine Structure Investigations and Identification of New Energy Levels in the Ionic Spectrum of (147)Pm.
PB96-180203 *04,117*

HYPOCHLORITE TREATMENT
Critical Evaluation of the Purification of Biominerals by Hypochlorite Treatment.
PB95-150959 *00,186*

HYSTERESIS
Langevin Approach to Hysteresis and Barkhausen Modeling in Steel.
PB94-185675 *03,206*

Hysteresis Measurements of Remanent Polarization and Coercive Field in Polymers.
PB94-199767 *04,475*

HYSTERETIC FAILURE MODEL
Evaluating the Seismic Performance of Lightly-Reinforced Circular Concrete Bridge Columns.
PB95-163259 *01,335*

ICE POINT
Reproducibility of the Temperature of the Ice Point in Routine Measurements.
PB95-255923 *04,015*

IDEAL GAS
Correlation of the Ideal Gas Properties of Five Aromatic Hydrocarbons.
PB95-175816 *01,002*

IDEF0 (INTEGRATION DEFINITION FOR FUNCTION MODELING)
Integration Definition for Function Modeling (IDEF0); Category: Software Standard; Subcategory: Modeling Techniques.
FIPSPUB183 *02,800*

IDEF1X (INFORMATION DEFINITION FOR INFORMATION MODELING)
Integration Definition for Information Modeling (IDEF1X); Category: Software Standard; Subcategory: Modeling Techniques.
FIPSPUB184 *01,673*

IDEF1X (INTEGRATION DEFINITION FOR INFORMATION MODELING)
Mapping Integration Definition for Information Modeling (IDEF1X) Model into CASE Data Interchange Format (CDIF) Transfer File.
PB95-154670 *01,711*

IDEFO (INTEGRATION DEFINITION FOR FUNCTION MODELING)
Mapping Integration Definition for Function Modeling (IDEFO) Model into CASE Data Interchange Format (CDIF) Transfer File.
PB96-109533 *01,741*

IDENTIFICATION
Precise Identification of Computer Viruses
PB96-160825 *01,613*

Specification for Interoperability between Ballistic Imaging Systems. Part 1. Cartridge Cases.
PB96-195524 *01,860*

IDLH (IMMEDIATELY DANGEROUS TO LIFE OR HEALTH)
Documentation for Immediately Dangerous to Life or Health Concentrations (IDLHs).
PB94-195047 *03,602*

IGES (INITIAL GRAPHICS EXCHANGE SPECIFICATION)
CALS-Digital Representation for Communication of Product Data: IGES Application Subsets.
PB94-962100 *03,658*

Summary and Notes of the Joint ISO/IGES/PDES Organization Technical Committee Meeting. Held in Albuquerque, New Mexico on October 15-20, 1989.
PB95-107314 *02,774*

Initial Graphics Exchange Specification (IGES): Procedures for the NIST IGES Validation Test Service.
PB95-171427 *02,780*

Operating Procedures and Life Cycle Documentation for the Initial Graphics Exchange Specification.
PB95-242285 *02,782*

CALS-Digital Representation for Communication of Product Data: IGES Application Subsets.
PB95-962100 *03,667*

IGNITION
Ignition and Subsequent Transition to Flame Spread in a Microgravity Environment.
N96-15584/1 *04,828*

Influence of Ignition Source on the Flaming Fire Hazard of Upholstered Furniture. (NIST Reprint).
PB95-180162 *00,297*

Study of Technology for Detecting Pre-Ignition Conditions of Cooking-Related Fires Associated with Electric and Gas Ranges and Cooktops, Phase 1 Report.
PB96-128095 *00,303*

Quantifying the Ignition Propensity of Cigarettes.
PB96-155411 *00,306*

Transition from Localized Ignition to Flame Spread Over a Thin Cellulosic Material in Microgravity.
PB96-155809 *04,835*

Ignition and Subsequent Flame Spread Over a Thin Cellulosic Material.
PB96-160270 *04,836*

Ignition and Transition to Flame Spread Over a Thermally Thin Cellulosic Sheet in a Microgravity Environment.
PB96-160288 *04,837*

IGNITION TIME
Predicting the Ignition Time and Burning Rate of Thermoplastics in the Cone Calorimeter.
PB96-154794 *01,418*

IGOSS (INDUSTRY/GOVERNMENT OPEN SYSTEMS SPECIFICATION)
Industry/Government Open Systems Specification Testing Framework. Version 1.0.
PB94-219110 *01,809*

ILL-POSED CONTINUATION
Slow Evolution from the Boundary: A New Stabilizing Constraint in Ill-Posed Continuation Problems.
PB96-122858 *03,418*

IMAGE ANALYSIS
Reliable Optical Flow Algorithm Using 3-D Hermite Polynomials.
PB94-145620 *01,829*

Quantitative Phase Abundance Analysis of Three Cement Clinker Reference Materials by Scanning Electron Microscopy.
PB94-173051 *00,333*

Visual Measurement Technique for Analysis of Nucleate Flow Boiling.
PB95-143301 *03,262*

Optical Fiber Geometry by Gray-Scale Analysis with Robust Regression.
PB95-161519 *04,272*

IMAGE DEBLURRING
Overcoming Hoelder Continuity in Ill-Posed Continuation Problems.
PB95-202354 *03,416*

IMAGE DECODING
Tomographic Decoding Algorithm for a Nonoverlapping Redundant Array.
PB95-151932 *01,842*

IMAGE GRADIENT
Image Gradient Evolution: A Visual Cue for Danger.
PB96-154562 *02,939*

IMAGE MOTION ANALYSIS
General Motion Model and Spatio-Temporal Filters for Computing Optical Flow.
PB95-171096 *01,847*

General Motion Model and Spatio-Temporal Filters for 3-D Motion Interpretations.
PB96-210703 *01,861*

IMAGE MOTION COMPENSATION
General Motion Model and Spatio-Temporal Filters for 3-D Motion Interpretations.
PB96-210703 *01,861*

IMAGE PROCESSING
Object Finder for Digital Images Based on Multiple Thresholds, Connectivity, and Internal Structures.
PB94-199106 *01,833*

Concentration Histogram Imaging: A Scatter Diagram Technique for Viewing Two or Three Related Images.
PB94-199114 *00,542*

VLSI Architectures for Template Matching and Block Matching.
PB94-200029 *01,834*

Certainty Grid to Object Boundary Algorithm.
PB94-203510 *01,835*

Compositional Mapping of the Microstructure of Materials.
PB95-107199 *00,565*

Real Time Differential Range Estimation Based on Time-Space Imagery Using PIPE.
PB95-161808 *01,844*

X-Ray Image Quality Indicator Designed for Easy Alignment.
PB95-164455 *02,907*

Morphological Estimation of Tip Geometry for Scanned Probe Microscopy.
PB95-203444 *02,662*

National Information Infrastructure and Advanced Digital Video.
PB96-119367 *01,488*

Specification for Interoperability between Ballistic Imaging Systems. Part 1. Cartridge Cases.
PB96-195524 *01,860*

IMAGE QUALITY INDICATOR
X-Ray Image Quality Indicator Designed for Easy Alignment.
PB95-164455 *02,907*

IMAGE RECONSTRUCTION
Tomographic Decoding Algorithm for a Nonoverlapping Redundant Array.
PB95-151932 *01,842*

Image Restoration and Diffusion Processes.
PB95-153003 *01,843*

IMAGE REGISTRATION
Crystal Diffraction Spectrometry for Accurate, Non-Invasive kV/Spectral Measurement for Improvement of Mammographic Image Quality.
AD-A297 943/3 *00,721*

IMAGE RESOLUTION
Contributions of Out-of-Plane Material to a Scanned-Beam Laminography Image.
PB96-111786 *02,704*

IMAGE RESTORATION
Image Restoration and Diffusion Processes.
PB95-153003 *01,843*

IMAGES
Metrology Standards for Advanced Semiconductor Lithography Referenced to Atomic Spacings and Geometry.
PB96-160718 *02,424*

IMAGING TECHNIQUES
Diffraction Imaging of Polycrystalline Materials.
PB94-198884 *02,971*

Molecular Ion Imaging and Dynamic Secondary Ion Mass Spectrometry of Organic Compounds.
PB95-126124 *00,571*

dc Magnetic Force Microscopy Imaging of Thin-Film Recording Head.
PB95-176061 *04,665*

Magnetic Force Microscopy Images of Magnetic Garnet with Thin-Film Magnetic Tip.
PB95-176210 *04,669*

Evaluation of Thermal Wave Imaging for Detection of Machining Damage in Ceramics.
PB95-220547 *03,062*

IMIDOGEN RADICALS
New Electronic States of NH and ND Observed from 258 to 288 nm by Resonance Enhanced Multiphoton Ionization Spectroscopy.
PB94-212495 *00,836*

IMMEDIATELY DANGEROUS TO LIFE OR HEALTH
Documentation for Immediately Dangerous to Life or Health Concentrations (IDLHs).
PB94-195047 *03,602*

IMMERSION TEST (CORROSION)
Degradation of Powder Epoxy Coated Panels Immersed in a Saturated Calcium Hydroxide Solution Containing Sodium Chloride.
PB96-101050 *01,344*

IMMUNOASSAY
Liposome-Based Flow-Injection Immunoassay for Determining Theophylline in Serum.
PB94-213493 *03,494*

Flow Immunoassay Using Solid-Phase Entrapment.
PB96-200951 *00,642*

IMMUNOASSAYS
Novel Amperometric Immunosensor for Procainamide Employing Light Activated Labels.
PB96-163662 *00,512*

IMMUNOLOGIC DISEASES
Diagnosis and Treatment of an Oral Base-Metal Contact Lesion Following Negative Dermatologic Patch Tests.
PB95-180626 *00,172*

IMPACT-ECHO METHOD
Detection of Voids in Grouted Ducts Using the Impact-Echo Method.
PB94-185121 *01,306*

IMPACT TESTS
Reaction Sensitivities of Al-Li Alloys and Alloy 2219 in Mechanical-Impact Tests.
PB94-172764 *03,314*

Temperature Increases in Aluminum Alloys during Mechanical-Impact Tests for Oxygen Compatibility.
PB94-172962 *03,316*

Recommended Changes in ASTM Test Methods D2512-82 and G86-84 for Oxygen-Compatibility Mechanical Impact Tests on Metals.
PB94-216694 *03,338*

Macro- and Microreactions in Mechanical-Impact Tests of Aluminum Alloys.
PB95-107348 *03,340*

Influence of Specimen Absorbed Energy in LOX Mechanical-Impact Tests.
PB95-107355 *03,341*

Hybrid Method for Determining Material Properties from Instrumented Micro-Indentation Experiments.
PB95-152229 *03,348*

Factors Significant to Precracking of Fracture Specimens.
PB96-109558 *03,358*

Effect of Charpy V-Notch Striker Radii on the Absorbed Energy.
PB96-141122 *03,365*

Charpy Impact Test as an Evaluation of 4 K Fracture Toughness.
PB96-190194 *03,219*

IMPEDANCE
Modeling Polarization Curves and Impedance Spectra for Simple Electrode Systems.
PB94-198876 *03,188*

IMPEDANCE BRIDGES
Automatic Inductive Voltage Divider Bridge Operates from 10 Hz to 100 kHz.
PB94-198413 *02,032*

IMPEDANCE GENERATORS
Multi-State Two-Port: An Alternative Transfer Standard.
PB95-168530 *02,049*

IMPEDANCE MEASUREMENT
Measurements of the Characteristic Impedance of Coaxial Air Line Standards.
PB95-168787 *02,221*

On-Wafer Impedance Measurement on Lossy Substrates.
PB95-176285 *02,365*

IMPEDENCE MEASUREMENT
Digital Impedance Bridge.
PB96-103155 *02,272*

IMPLEMENTATION
Implementation of the Fastener Quality Act.
PB96-160676 *02,876*

IMPROVEMENTS
Testability of Object-Oriented Systems.
PB95-242418 *01,733*

IN-SITU COMBUSTION
In situ Burning of Oil Spills: Mesoscale Experiments.
PB94-142973 *01,355*

In Situ Burning Oil Spill Workshop Proceedings. Held in Orlando, Florida on January 26-28, 1994.
PB95-104907 *02,583*

In situ Burning of Oil Spills: Mesoscale Experiments and Analysis.
PB95-163747 *02,587*

Smoke Emission from Burning Crude Oil.
PB96-122890 *01,407*

Smoke Plume Trajectory from In situ Burning of Crude Oil in Alaska: Field Experiments.
PB96-131560 *02,594*

Smoke Plume Trajectory from In situ Burning of Crude Oil: Field Experiments.
PB96-200993 *02,597*

IN SITU MEASUREMENT
In situ Measurements of Chloride Ion and Corrosion Potential at the Coating/Metal Interface.
PB95-140893 *03,122*

IN VIVO ANALYSIS
Secondary Target X-Ray Excitation for In vivo Measurement of Lead in Bone.
PB95-108767 *03,496*

INCANDESCENT LAMPS
Characterization of Modified FEL Quartz-Halogen Lamps for Photometric Standards.
PB97-112544 *00,282*

INCINERATORS
Incinerability of Perchloroethylene and Chlorobenzene.
PB95-163457 *01,388*

Membrane Gas Separation for a Fluidized-Bed Incinerator.
PB95-169041 *02,550*

INCLUSIONS
Cryogenic Toughness of Austenitic Stainless Steel Weld Metals: Effect of Inclusions.
PB95-161261 *03,214*

INDENTATION
Hybrid Method for Determining Material Properties from Instrumented Micro-Indentation Experiments.
PB95-152229 *03,348*

Flat and Rising R-Curves for Elliptical Surface Cracks from Indentation and Superposed Flexure.
PB95-161295 *03,156*

Postfailure Subsidiary Cracking from Indentation Flaws in Brittle Materials.
PB97-110340 *03,103*

INDENTATION HARDNESS TESTS
Conference Proceedings: International Workshop on Instrumented Indentation. Held in San Diego, California on April 22-23, 1995.
PB96-158688 *01,948*

INDENTATION-MICROFRACTURE METHOD
Evaluation of Fracture Toughness and Residual Stress in Dental Porcelain by Indentation-Microfracture Method.
PB95-125613 *00,154*

Evaluation of Fracture Toughness and Residual Stress in Dental Porcelain by Indentation-Microfracture Method.
PB95-152831 *00,159*

INDENTATION STRENGTH
Objective Evaluation of Short-Crack Toughness Curves Using Indentation Flaws: Case Study on Alumina-Based Ceramics.
PB96-179429 *03,079*

INDEXES (DOCUMENTATION)
Abstract and Index Collection in the Research Information Center of the National Institute of Standards and Technology.
PB94-152204 *02,744*

Abstract and Index Collection in the Research Information Center of the National Institute of Standards and Technology.
PB95-232633 *02,741*

INDIA
India: Environmental Technologies Export Market Plan.
PB97-114359 *02,529*

INDIUM
Arc Spectra of Gallium, Indium, and Thallium.
AD-A295 411/3 *00,718*

Single-Photon Ionization and Detection of Ga, In, and As(sub n) Species in GaAs Growth.
PB95-152815 *00,591*

Laser-Induced Desorption of In and Ga from Si(100) and Adsorbate Enhanced Surface Damage.
PB95-203311 *01,050*

Pulsed Laser Irradiation at 532 nm of In and Ga Adsorbed on Si(100): Desorption, Incorporation, and Damage.
PB95-203329 *01,051*

INDIUM GALLIUM ARSENIDES
Transition Metal Implants in In0.53GA0.47As.
PB95-126389 *04,534*

Range Statistics and Rutherford Backscattering Studies on Fe-Implanted In0.53Ga0.47As.
PB95-126397 *04,535*

INDIUM IONS
Electron-Impact Ionization of In(+) and Xe(+).
PB94-185089 *00,770*

Electron-Impact Ionization of In(+) and Xe(+).
PB95-152906 *03,918*

INDIUM OXIDES
Thin Film Thermocouple Research at NIST.
PB97-110233 *02,283*

INDIUM PHOSPHIDES
In situ Observation of Surface Morphology of InP Grown on Singular and Vicinal (001) Substrates.
PB95-168431 *04,636*

INDOLES
Equilibrium and Calorimetric Investigation of the Hydrolysis of L-Tryptophan to (Indole + Pyruvate + Ammonia).
PB95-163317 *00,661*

INDOOR AIR POLLUTION
Source of Phenol Emissions Affecting the Indoor Air of an Office Building.
PB94-154382 *03,600*

CONTAM93 User Manual.
PB94-164381 *02,536*

Measurement and Determination of Radon Source Potential: A Literature Review.
PB94-165602 *02,576*

CONTAM88 Building Input Files for Multi-Zone Airflow and Contaminant Dispersal Modeling.
PB94-194388 *02,537*

Environmental Evaluation of a New Federal Office Building.
PB94-199874 *02,538*

Ventilation Rates in Office Buildings.
PB95-108825 *02,539*

Field Measurements of Ventilation and Ventilation Effectiveness in an Office/Library Building.
PB95-108833 *00,247*

Indoor Air Quality Impacts of Residential HVAC Systems, Phase 1 Report: Computer Simulation Plan.
PB95-135596 *00,249*

Limits of CO2 Monitoring in Determining Ventilation Rates.
PB95-176004 *02,552*

Ventilation Effectiveness Measurements in Two Modern Office Buildings.
PB95-176012 *02,553*

Indoor Air Quality Impacts of Residential HVAC Systems, Phase 2.A Report: Baseline and Preliminary Simulations.
PB95-178893 *02,554*

Application of a Multizone Airflow and Contaminant Dispersal Model to Indoor Air Quality Control in Residential Buildings.
PB95-180238 *02,555*

Measurements of Indoor Pollutant Emissions from EPA Phase II Wood Stoves.
PB95-198735 *02,556*

New Mass Transport Elements and Components for the NIST IAQ Model.
PB95-255899 *02,558*

Indoor Air Quality Impacts of Residential HVAC Systems Phase II.B Report: IAQ Control Retrofit Simulations and Analysis.
PB96-106877 *02,559*

Few Caveats on Carbon Dioxide Monitoring.
PB96-122650 *02,562*

Effectiveness of a Heat Recovery Ventilator, an Outdoor Air Intake Damper and an Electrostatic Particulate Filter at Controlling Indoor Air Quality in Residential Buildings.
PB96-146642 *02,564*

Multizone Modeling of Three Residential Indoor Air Quality Control Options.
PB96-146659 *02,565*

Relationship between Indoor Air Quality and Carbon Dioxide.
PB97-111249 *02,569*

CONTAM94: A Multizone Airflow and Contaminant Dispersal Model with a Graphic User Interface.

PB96-193768 *01,638*

INFORMATION TRANSFER

Standards and Linkages: What Data Sharing Needs.
PB95-161881 *01,713*

Information Transfer in the 21st Century.
PB96-157904 *02,714*

INFRARED ABSORPTION

Laser-Synchrotron Hybrid Experiments: A Photon to Tickle, A Photon to Poke.
PB96-157847 *03,704*

INFRARED BOLOMETERS

Far-Infrared Kinetic Inductance Detector.
PB95-126348 *02,142*

Superconducting Kinetic Inductance Radiometer.
PB95-140083 *02,144*

INFRARED DETECTORS

Semiconductor Measurement Technology: Improved Characterization and Evaluation Measurements for HgCdTe Detector Materials, Processes, and Devices Used on the GOES and TIROS Satellites.
PB94-188810 *02,122*

Review of Semiconductor Microelectronic Test Structures with Applications to Infrared Detector Materials and Processes.
PB94-212925 *02,132*

Heavily Accumulated Surfaces of Mercury Cadmium Telluride Detectors: Theory and Experiment.
PB94-216074 *02,134*

International Intercomparison of Detector Responsivity at 1300 and 1550 nm.
PB95-125928 *02,140*

International Intercomparison of Detector Responsivity at 1300 and 1550 nm.
PB95-126017 *02,141*

Far-Infrared Kinetic Inductance Detector.
PB95-126348 *02,142*

Thermal and Nonequilibrium Responses of Superconductors for Radiation Detectors.
PB95-164232 *02,156*

Hg1-xCdxTe Characterization Measurements: Current Practice and Future Needs.
PB95-164299 *02,157*

Terahertz Detectors Based on Superconducting Kinetic Inductance.
PB95-168647 *02,160*

Optical Performance of Photoinductive Mixers at Terahertz Frequencies.
PB95-168662 *02,161*

Spatial Uniformity of Optical Detector Responsivity.
PB95-168845 *02,162*

Ultrasensitive-Hot-Electron Microbolometer.
PB95-168985 *02,163*

Kinetic-Inductance Infrared Detector Based on an Antenna-Coupled High-Tc SQUID.
PB95-169116 *02,165*

Optical Detector Nonlinearity: A Comparison of Five Methods.
PB95-169355 *04,291*

Optical Detector Nonlinearity: Simulation.
PB96-165378 *02,199*

Novel Hot-Electron Microbolometer.
PB96-201025 *01,977*

INFRARED FILTERS

Filter Transmittance Measurements in the Infrared.
PB94-140589 *04,224*

Broadband High-Optical-Density Filters in the Infrared.
PB95-180261 *04,309*

Development of Neutral-Density Infrared Filters Using Metallic Thin Films.
PB96-180286 *02,998*

INFRARED RADIOMETERS

Activities of NIST (National Inst. Of Standards and Technology).
N94-23605/6 *04,222*

Superconducting Kinetic Inductance Radiometer.
PB95-140083 *02,144*

Terahertz Detectors Based on Superconducting Kinetic Inductance.
PB95-168647 *02,160*

Thermal Modeling of Absolute Cryogenic Radiometers.
PB95-181236 *04,316*

Liquid-Nitrogen-Cooled High Tc Electrical Substitution Radiometer as a Broadband IR Transfer Standard.
PB96-158704 *02,198*

NIST Thermal Infrared Transfer Standard Radiometer for the Earth Observing System (EOS) Program.
PB97-113013 *04,843*

INFRARED REFLECTANCE

Optical Conductivity of Single Crystals of Ba1-xMxBiO3(M=K, Rb, x=0.04, 0.37).
PB94-185329 *04,447*

INFRARED SIGNATURES

Review of Measurements and Candidate Signatures for Early Fire Detection.
PB95-189452 *00,300*

INFRARED SOURCES

Update on the Low Background IR Calibration Facility at the National Institute of Standards and Technology.
PB94-211224 *04,232*

INFRARED SPECTRA

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 7. CO(+), C2O2(+), and C2O2(-). (Reannouncement with New Availability Information).
AD-A239 729/7 *00,706*

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 11. NO2(+), NO2(-), and NO3(-).
AD-A275 828/2 *00,708*

Arc Spectra of Gallium, Indium, and Thallium.
AD-A295 411/3 *00,718*

Infrared and Near-Infrared Spectra of HCC and DCC Trapped in Solid Neon.
AD-A295 578/9 *03,773*

Investigating the 3.3 Micron Infrared Fluorescence from Naphthalene Following Ultraviolet Excitation.
N95-15839/0 *00,724*

Measurement of the J=2 less than 1 Fine-Structure Interval for (28)Si and (29)Si in the Ground (3)P State.
PB94-185097 *00,771*

P-Type Doubling in the Infrared Spectrum of NO-HF.
PB94-211463 *00,817*

Mid- and Near-Infrared Spectra of Water and Water Dimer Isolated in Solid Neon.
PB95-125662 *00,888*

Infrared Spectra of van der Waals Complexes of Importance in Planetary Atmospheres.
PB95-125738 *00,071*

Infrared Spectrum of OClO in the 2000/cm(-1) Region: The 2(nu sub 1) and (nu sub 1 + nu sub 3) Bands.
PB95-141032 *00,908*

Intensities and Dipole Moment Derivatives of the Fundamental Bands of (35)ClO2 and an Intensity Analysis of the nu1 Band.
PB95-141040 *00,909*

Rotational Far Infrared Spectrum of (13)CO.
PB95-152187 00,941

2nu9 Band of Propyne-d3.
PB95-164513 00,985

New cw CO2 Laser Lines: The 9-mu m Hot Band.
PB95-168548 04,281

Absolute Frequency Measurements of Methanol from 1.5 to 6.5 THz.
PB95-175881 04,300

Pure Rotational Spectra of CuH and CuD in Their Ground States Measured by Tunable Far-Infrared Spectroscopy.
PB95-176194 01,005

Rotational Spectrum of OH in the v=0-3 Levels of Its Ground State.
PB95-176202 01,006

Atomic Sulfur: Frequency Measurement of the J=0 inversely maps 1 Fine-Structure Transition at 56.3 Microns by Laser Magnetic Resonance.
PB95-180105 01,007

INFRARED SPECTROMETRY

Ultrafast Time-Resolved Infrared Probing of Energy Transfer at Surfaces.
PB96-123443 00,620

INFRARED SPECTROPHOTOMETERS

Simple and Efficient Low-Temperature Sample Cell for Infrared Spectrophotometry.
PB94-199197 00,545

Standard Reference Materials: Polystyrene Films for Calibrating the Wavelength Scale of Infrared Spectrophotometers - SRM 1921.
PB95-226866 03,386

INFRARED SPECTROSCOPY

High-Resolution Infrared Overtone Spectroscopy of ArHF via Nd:YAG/Dye Laser Difference Frequency Generation.
PB94-211448 00,816

Mode Specific Vibrational Predissociation Dynamics in Fragile Molecules.
PB95-107132 00,871

Vibration, Rotation, and Parity Specific Predissociation Dynamics in Asymmetric OH Stretch Excited ArH2O: A Half Collision Study of Resonant V-V Energy Transfer in a Weakly Bound Complex.
PB95-107140 00,872

High-Resolution Infrared Spectroscopy of DF Trimer: A Cyclic Ground State Structure and DF Stretch Induced Intramolecular Vibrational Coupling.
PB95-150678 00,920

Slit Jet Infrared Spectroscopy of Hydrogen Bonded N2HF Isotopomers: Rotational Rydberg-Klein-Rees Analysis and H/D Dependent Vibrational Predissociation Rates.
PB95-161873 00,956

High-Resolution, Direct Infrared Laser Absorption Spectroscopy in Slit Supersonic Jets: Intermolecular Forces and Unimolecular Vibrational Dynamics in Clusters.
PB95-203006 01,040

High-Resolution Infrared Overtone Spectroscopy of N2-HF: Vibrational Red Shifts and Predissociation Rate as a Function of HF Stretching Quanta.
PB96-102298 01,061

Silicon Surface Chemistry by IR Spectroscopy in the Mid- to Far-IR Region: H2O and Ethanol on Si(100).
PB96-138565 01,097

INFRARED SPECTRUMS

Perpendicular C-H Stretching Band nu9/nu13 and the Torsional Potential of Dimethylacetylene.
PB97-122451 01,192

INFRASTRUCTURE

Functions of Technology Infrastructure in a Competitive Economy.
PB94-173002 00,478

Planning the Infrastructure for Global Electronic Commerce.
PB94-185832 00,494

Financing Tomorrow's Infrastructure: Challenges and Issues. Proceedings of a Colloquium. Held in Washington, DC. on October 20, 1995.
PB96-189444 00,481

INHIBITORS

Selective Inhibition of Crystal Growth on Octacalcium Phosphate and Nonstoichiometric Hydroxyapatite by Pyrophosphate at Physiological Concentration.
PB94-211257 00,147

INITIAL GRAPHICS EXCHANGE SPECIFICATION

Summary and Notes of the Joint ISO/IGES/PDES Organization Technical Committee Meeting. Held in Albuquerque, New Mexico on October 15-20, 1989.
PB95-107314 02,774

Initial Graphics Exchange Specification (IGES): Procedures for the NIST IGES Validation Test Service.
PB95-171427 02,780

Operating Procedures and Life Cycle Documentation for the Initial Graphics Exchange Specification.
PB95-242285 02,782

INJECTION MOLDING

In-Line Optical Monitoring of Injection Molding.
PB94-185105 01,201

INKS

Cylinder Wipe Air-Drying Intaglio Ink Vehicles for U.S. Currency Inks.
PB94-160801 03,115

INORGANIC COMPOUNDS

Establishing Quality Measurements for Inorganic Analysis of Biomaterials.
PB94-199726 00,548

Determination of Inorganic Constituents in Marine Mammal Tissues.
PB95-152047 00,589

Affinity Chromatography on Inorganic Support Materials.
PB95-163820 03,467

Characterization of the Structure of YD3 by Neutron Powder Diffraction.
PB96-186150 01,161

Inorganic Crystal Structure Database (ICSD) and Standardized Data and Crystal Chemical Characterization of Inorganic Structure Types (TYPIX): Two Tools for Inorganic Chemists and Crystallographers.
PB97-109037 00,648

Evaluation of Crystallographic Data with the Program DIAMOND.
PB97-109045 00,649

Data Import and Validation in the Inorganic Crystal Structure Database.
PB97-109201 04,809

INORGANIC SALTS

Phase Composition, Viscosities, and Densities for Aqueous Two-Phase Systems Composed of Polyethylene Glycol and Various Salts at 25C.
PB95-164596 00,986

INORGANIC SUPPORTS

Preparation of Immobilized Proteins Covalently Coupled Through Silane Coupling Agents to Inorganic Supports.
PB95-151403 03,530

INOSINE MONOPHOSPHATE

Thermochemistry of the Reactions between Adenosine, Adenosine 5'-monophosphate, Inosine, and Inosine 5'-monophosphate; the Conversion of L-histidine to (Urocanic Acid+Ammonia).
PB94-213113 03,460

INSERTS

Reduction of Marginal Gaps in Composite Restorations by Use of Glass-Ceramic Inserts.
PB96-102405 00,174

INSOLATORS

Phonon Relaxation in Soft-X-ray Emission of Insulators.
PB96-160296 04,085

INSPECTION

Development of an Automated Part Inspection System Using the DMIS Standard.
PB95-108866 02,899

Sensitivity of Three-Point Circle Fitting.
PB95-136354 02,901

Automated Optical Roughness Inspection.
PB95-152179 02,905

Dimensional Inspection Planning Based on Product Data Standards.
PB95-175451 02,910

Interim Testing Artifact (ITA): A Performance Evaluation System for Coordinate Measuring Machines (CMMs). User Manual.
PB95-210589 02,914

International Institute of Welding: Report on 1995 Actions.
PB96-158076 02,874

Integrated Inspection System for Improved Machine Performance.
PB96-160569 02,959

INSPECTIONS

SPC Artifact for Automated Solder Joint Inspection.
PB96-161716 04,095

INSTALLATION

Flowmeter Installation Effects Due to a Generic Header.
PB96-210893 02,606

INSTRUMENT ERRORS

Partial Pressure Analysis in Space Testing.
N95-14084/4 04,827

Test Optics Error Removal.
PB96-179536 04,377

Compensation for Errors Introduced by Nonzero Fringe Densities in Phase-Measuring Interferometers.
PB97-110506 04,386

INSTRUMENT SETTINGS

Optimizing Time-Domain Network Analysis.
PB96-157821 02,085

INSTRUMENTAL NEUTRON ACTIVATION ANALYSIS

Relationship of Silver with Selenium and Mercury in the Liver of Two Species of Toothed Whales (Odontocetes).
PB96-167275 02,596

Resolution of Discrepant Analytical Data in the Certification of Platinum in Two Automobile Catalyst SRMs.
PB96-167283 00,638

INSTRUMENTATION

Guide to Instrumentation Literature.
AD-A280 278/3 02,617

Instrument for Evaluating Phase Behavior of Mixtures for Supercritical Fluid Experiments.
PB95-180758 00,606

INSTRUMENTATION & EXPERIMENTAL METHODS

Development of a Dual-Sinker Densimeter for High-Accuracy Fluid P-V-T Measurements. Appendix A.
DE93019682 02,620

Low Temperature H(sub 2)S Separation Using Membrane Reactor with Redox Catalyst.
DE94008991 02,471

Thin Film Thermocouples for Measurement of Wall Temperatures in Internal Combustion Engines.
PB94-172103 01,449

Evaluation and Qualification Standards for an X-Ray Laminography System.
PB94-172954 02,029

Physics and Prospects of Inertial Confinement Fusion.
PB94-185048 04,405

High-Temperature Laser-Pulse Thermal Diffusivity Apparatus.
PB94-185147 02,631

Selection of Appropriate Ultrasonic System Components for NDE of Thick Polymer-Composites.
PB94-185279 03,133

Electro-Optical Sensor for Surface Displacement Measurements of Compliant Coatings.
PB94-198223 02,123

Voigt-Function Modeling in Fourier Analysis of Size- and Strain-Broadened X-Ray Diffraction Peaks.
PB94-198538 04,462

Milliwatt Mixer for Small Fluid Samples.
PB94-198819 02,634

Applications of the Vortex Tube in Chemical Analysis.
PB94-199171 00,544

Simple and Efficient Low-Temperature Sample Cell for Infrared Spectrophotometry.
PB94-199197 00,545

Simple, Inexpensive Apparatus for Sample Concentration.
PB94-199205 00,546

Experimental Studies of Line Shapes from a Balle-Flygare Spectrometer.
PB94-199452 00,796

Millisecond-Resolution Pulse Heating System for Specific-Heat Measurements at High Temperatures.
PB94-199999 02,635

High-Speed Spatial Scanning Pyrometer.
PB94-200003 02,636

Planar Waveguide Optical Sensors.
PB94-200185 03,586

Salt-PEG Two-Phase Aqueous Systems to Purify Proteins and Nucleic Acid Mixtures.
PB94-200375 03,527

Torsional Dilatometer for Volume Change Measurements on Deformed Glasses: Instrument Description and Measurements on Equilibrated Glasses.
PB94-211166 03,379

Update on the Low Background IR Calibration Facility at the National Institute of Standards and Technology.
PB94-211224 04,232

NIST Power Reference Source.
PB94-211513 00,148

Intercomparison of the Effective Areas of a Pneumatic Piston Gauge Determined by Different Techniques.
PB94-212370 02,640

Determination of Osmotic Pressure and Fouling Resistances and Their Effects on Performance of Ultrafiltration Membranes.
PB94-212891 00,841

Characterization of the Adsorption-Fouling Layer Using Globular Proteins on Ultrafiltration Membranes.
PB94-212909 00,842

High Resolution Hard X-Ray Microscope.
PB94-213055 03,856

Light Scattering from Glossy Coatings on Paper.
PB94-213246 04,242

Analytical Estimation of Carrier Multipath Bias on GPS Position Measurements.
PB94-215712 04,845

Ultra-High Stability Synthesizer for Diode Laser Pumped Rubidium.
PB94-216066 01,527

Determination of Surface Roughness from Scattered Light.
PB94-216520 04,243

Simple, Compact, High-Purity Cr Evaporator for Ultrahigh Vacuum.
PB94-216678 04,520

Improved Automated Current Control for Standard Lamps.
PB94-219367 00,246

Resistance Thermometers with Fast Response for Use in Rapidly Oscillating Gas Flows.
PB95-107298 03,261

Vibration Laboratory Automation at NIST with Personal Computers.
PB95-108700 02,648

Appropriate Ultrasonic System Components for NDE of Thick Polymer Composites.
PB95-125696 03,148

High-Sensitivity Acoustic Emission Sensor/Preamplifier Subsystems.
PB95-125704 02,900

Conductance Response of Pd/SnO2(110) Model Gas Sensors to H2 and O2.
PB95-125803 00,892

Uncertainty Analysis of the NIST Nitrogen Flow Facility.
PB95-128906 *02,608*

Thermal Hydraulic Tests of a Liquid Hydrogen Cold Neutron Source.
PB95-135570 *03,884*

Heat Transfer in Thin, Compact Heat Exchangers with Circular, Rectangular, or Pin-Fin Flow Passages.
PB95-140943 *02,751*

Intelligent Control of an Inert Gas Atomization Process.
PB95-141057 *03,344*

Process Gas Chromatography Detector for Hydrocarbons Based on Catalytic Cracking.
PB95-141099 *02,485*

Radiometric Model of the Transmission Cell-Reciprocal Nephelometer.
PB95-150132 *00,124*

Integrating Sphere Simulation: Application to Total Flux Scale Realization.
PB95-150173 *04,261*

Characteristics of Partial Pressure Analyzers.
PB95-150876 *00,582*

Experimental and Numerical Studies of Refractory Particle Formation in Flames: Application to Silica Growth.
PB95-152005 *00,673*

Simulation of Ceramic Particle Formation: Comparison with In-situ Measurements.
PB95-152013 *00,674*

Thermal Behaviour of Methyl Methacrylate and N-Phenyl Maleimide Copolymers.
PB95-152237 *01,246*

Dynamic Technique for Measuring Normal Spectral Emissivity of Electrically Conducting Solids at High Temperatures with a High-Speed Spatial Scanning Pyrometer.
PB95-153045 *03,921*

Grazing Angle X-Ray Photoemission System for Depth-Dependent Analysis.
PB95-161154 *04,600*

Enzyme and Protein Mass Transfer Coefficient in Aqueous Two Phase Systems. 1. Spray Extraction Columns.
PB95-161162 *00,594*

Continuous Counter-Current Two Phase Aqueous Extraction.
PB95-161212 *00,675*

Fracture Toughness of Advanced Ceramics at Room Temperature: A Vamas Round-Robin.
PB95-162194 *03,160*

Protein Extraction in a Spray Column Using a Polyethylene Glycol Maltodextrin Two-Phase Polymer System.
PB95-162228 *00,595*

Development of Adaptive Control Strategies for Inert Gas Atomization.
PB95-162335 *02,823*

Loading Device for Fracture Testing of Compact Tension Specimens in the Scanning Electron Microscope.
PB95-162434 *02,652*

Noncontact Ultrasonic Inspection of Train Rails for Stress.
PB95-162673 *04,851*

Preparation of 2-Dimensional Ultra Thin Polystyrene Film by Water Casting Method.
PB95-162806 *04,619*

Electrical Sensors for Monitoring rf Plasma Sheaths.
PB95-162962 *04,412*

Brownian Diffusion of Hard Spheres at Finite Concentrations.
PB95-164307 *00,975*

Through-the-Arc Sensing for Measuring Gas Metal Arc Weld Quality in Real Time.
PB95-164463 *02,908*

Cryogenics.
PB95-164703 *02,654*

Annex 18: An International Study of Refrigerant Properties.
PB95-168936 *03,266*

Proposed Antiferromagnetically Coupled Dual-Layer Magnetic Force Microscope Tips.
PB95-169017 *04,645*

Membrane Gas Separation for a Fluidized-Bed Incinerator.
PB95-169041 *02,550*

Energy Flows in an Orifice Pulse Tube Refrigerator.
PB95-169082 *02,752*

Graded and Nongraded Regenerator Performance.
PB95-169090 *02,753*

Optimization of ECR-Based PECVD Oxide Films for Superconducting Integrated Circuit Fabrication.
PB95-169165 *02,051*

Comparative Photoluminescence Measurement and Simulation of Vertical-Cavity Semiconductor Laser Structures.
PB95-169173 *02,169*

Measurement and Simulation of Photoluminescence Spectra from Vertical-Cavity Quantum-Well Laser Structures.
PB95-169181 *02,170*

Vortex Shedding Flowmeters for SSME Ducts.
PB95-169215 *01,453*

Phase-Locked Oscillator Optimization for Arrays of Josephson Junctions.
PB95-169314 *02,052*

Critical Issues in Scanning Electron Microscope Metrology.
PB95-169405 *02,359*

Video Microscopy Applied to Optical Fiber Geometry Measurements.
PB95-173068 *04,295*

Influence of the Filament Potential Wave Form on the Sensitivity of Glass-Envelope Bayard-Alpert Gages.
PB95-175014 *02,657*

Retention of Halocarbons on a Hexafluoropropylene Epoxide Modified Graphitized Carbon Black. Part 1. Methane-Based Compounds.
PB95-175196 *03,272*

Automated Josephson Integrated Circuit Test System.
PB95-175246 *02,057*

Friction and Oxidative Wear of 440C Ball Bearing Steels Under High Load and Extreme Bulk Temperatures.
PB95-175253 *03,215*

Formation of Hydroxyapatite in Cement Systems.
PB95-175261 *00,170*

Correlation of Optical, X-ray, and Electron Microscopy Measurements of Semiconductor Multilayer Structures.
PB95-175279 *02,174*

High-Pressure Equilibrium Cell for Solubility Measurements in Supercritical Fluids.
PB95-175634 *00,998*

Determination of the Complex Refractive Index of Individual Quantum Wells from Distributed Reflectance.
PB95-175642 *02,176*

PC-Based Spinning Rotor Gage Controller.
PB95-175832 *02,609*

Investigations of AM and PM Noise in X-Band Devices.
PB95-180022 *02,062*

Passively Q-Switched Nd-Doped Waveguide Laser.
PB95-180048 *04,308*

Chromatographic Cryofocusing and Cryotrapping with the Vortex Tube.
PB95-180113 *00,604*

Tribometer for Measurements in Hostile Environments.
PB95-180949 *02,967*

Reducing the Effect of Local Oscillator Phase Noise on the Frequency Stability of Passive Frequency Standards.
PB95-180972 *01,545*

Low-Noise High-Speed Diode Laser Current Controller.
PB95-202826 *02,178*

Decrease of Fluorescence in Optical Fiber during Exposure to Pulsed or Continuous-Wave Ultraviolet Light.
PB95-203071 *04,320*

Low-Frequency, Active Vibration Isolation System.
PB95-203303 *02,710*

Surface Modification of YBa2Cu3O7-delta Thin Films Using the Scanning Tunneling Microscope: Five Methods.
PB95-203394 *04,699*

Single Photon Laser Ionization as an In-situ Diagnostic for MBE growth.
PB96-102025 *01,059*

Resonances in Two-Dimensional Array Oscillator Circuits.
PB96-102082 *02,066*

Direct Observation of Vortex Dynamics in Two-Dimensional Josephson-Junction Arrays.
PB96-102223 *02,067*

Stacked Series Arrays of High-Tc Trilayer Josephson Junctions.
PB96-102272 *04,705*

Self-Biasing Cryogenic Particle Detector Utilizing Electrothermal Feedback and a SQUID Readout.
PB96-102538 *04,712*

Measurement of Very Low Frequency Vibrations.
PB96-102660 *03,687*

Electronic Microrefrigerator Based on a Normal-Insulator-Superconductor Tunnel Junction.
PB96-102827 *04,718*

New Method for Realizing a Luminous Flux Scale Using an Integrating Sphere with an External Source.
PB96-102843 *04,333*

Superconducting Integrated Circuit Fabrication with Low Temperature ECR-Based PECVD SiO2 Dielectric Films.
PB96-103015 *04,719*

Comments on the Stability of Bayard-Alpert Ionization Gages.
PB96-103080 *02,673*

Niobium Microbolometers for Far-Infrared Detection.
PB96-111729 *02,184*

Temperature Dependence and Magnetic Field Modulation of Critical Currents in Step-Edge SNS YBCO/Au Junctions.
PB96-111745 *04,723*

Critical Current and Normal Resistance of High-Tc Step-Edge SNS Junctions.
PB96-111752 *04,724*

GHRS Observations of Cool, Low-Gravity Stars. 1. The Far-Ultraviolet Spectrum of alpha Orions (M2 Iab).
PB96-112016 *00,094*

Applications of the Vortex Tube in Chemical Analysis. Part 2. Applications.
PB96-112107 *00,615*

Dual-Frequency Millimeter-Wave Radiometer Antenna for Airborne Remote Sensing of Atmosphere and Ocean.
PB96-112289 *02,009*

Measured Stopping Powers of Hydrogen and Helium in Polystyrene Near Their Maximum Values.
PB96-112321 *04,729*

Intercomparison between NPL (India) and NIST (USA) Pressure Standards in the Hydraulic Pressure Region Up to 26 MPa.
PB96-113543 *04,211*

Intercomparison of the ITS-90 Radiance Temperature Scales of the National Physical Laboratory (U.K.) and the National Institute of Standards and Technology.
PB96-113550 *02,674*

Beamcon III, a Linearity Measurement Instrument for Optical Detectors.
PB96-113576 *04,337*

Comparing the Accuracy of Critical-Current Measurements Using the Voltage-Current Simulator.
PB96-119219 *02,227*

Polarization Insensitive 3x3 Sagnac Current Sensor Using Polarizing Spun High-Birefringence Fiber.
PB96-119276 *02,187*

Simple and Repeatable Technique for Measuring the Critical Current of Nb3Sn Wires.
PB96-119409 *02,229*

Faraday Effect Sensors for Magnet Field and Electric Current.
PB96-119664 *04,736*

Standard Polarization Components: Progress Toward an Optical Retardance Standard.
PB96-119672 *04,342*

Improved Annealing Technique for Optical Fiber.
PB96-119680 *04,343*

Reducing Errors, Complexity, and Measurement Time of PM Noise Measurements.
PB96-119771 *02,075*

Standard Reference Materials for Optical Fibers and Connectors.
PB96-119805 *04,344*

Third Generation Water Bath Based Blackbody Source.
PB96-122148 *04,046*

Hydrodynamic Similarity in an Oscillating-Body Viscometer.
PB96-122429 *01,082*

Thermophysical Properties of Fluids for the Gas Industry.
PB96-122437 *02,494*

Polarization Dependence of Response Functions in 3x3 Sagnac Optical Fiber Current Sensors.
PB96-122684 *02,189*

Novel Method for Determining Thin Film Density by Energy-Dispersive X-ray Reflectivity.
PB96-122783 *04,737*

Secondary Standard for PM and AM Noise at 5, 10, and 100 MHz.
PB96-123187 *01,554*

Goddard High Resolution Spectrograph: Instrument, Goals, and Science Results.
PB96-123278 *00,044*

A-type and Chemically Peculiar Stars.

INTEGRATED SERVICES DIGITAL NETWORKS

ISDN Conformance Testing.
PB95-163176 *01,478*

INTEGRATED SYSTEMS

Feasibility Study: Reference Architecture for Machine Control Systems Integration.
PB94-142791 *02,804*

Integrated Network Management.
PB94-199247 *01,583*

Technical Program Description Systems Integration for Manufacturing (SIMA).
PB94-213758 *02,819*

Reference Architecture for Machine Control Systems Integration: Interim Report.
PB95-144549 *02,820*

Automated Inspection: The Integration of National Standards and Commercial Products at NIST.
PB95-163077 *02,906*

Requisite Elements, Rationale, and Technology Overview for the Systems Intergration for Manufacturing Applications (SIMA) Program. Background Study.
PB96-112685 *02,831*

NIST SIMA Interactive Management Workshop. Held in Fort Belvoir, Virginia on November 14-16, 1994.
PB96-154877 *02,838*

Template-Driven Systems Development with IDEF: Enterprise Standards for Reuse.
PB96-160965 *02,788*

Systems Integration for Manufacturing Applications Program 1995 Annual Report.
PB96-193735 *02,844*

INTEGRATING SPHERES

Integrating Sphere Simulation: Application to Total Flux Scale Realization.
PB95-150173 *04,261*

INTEGRATION DEFINITION FOR FUNCTION MODELING

Mapping Integration Definition for Function Modeling (IDEFO) Model into CASE Data Interchange Format (CDIF) Transfer File.
PB96-109533 *01,741*

INTEGRATION DEFINITION FOR INFORMATION MODELING

Mapping Integration Definition for Information Modeling (IDEF1X) Model into CASE Data Interchange Format (CDIF) Transfer File.
PB95-154670 *01,711*

INTELLECTUAL PROPERTY

Standards Policy and Information Infrastructure.
PB95-231882 *01,485*

Using Technology to Manage and Protect Intellectual Property.
PB97-112395 *01,513*

INTELLIGENT PROCESSING

Intelligent Processing of Materials.
PB94-172780 *02,811*

Intelligent Processing of Hot Isostatic Pressing.
PB94-172913 *03,315*

Sensor System for Intelligent Processing of Hot-Rolled Steel.
PB96-186069 *03,373*

INTELLIGENT PROCESSING OF MATERIALS

Nondestructive Evaluation and Materials Processing.
PB95-140455 *02,902*

INTENSITY

Phase Shifts and Intensity Dependence in Frequency-Modulation Spectroscopy.
PB96-103205 *01,071*

INTERACTION COEFFICIENTS

Interaction Coefficients for 15 Mixtures of Flammable and Non-Flammable Components.
PB96-146626 *03,281*

INTERACTION PARAMETERS

Microstructure Effect on the Phase Behavior of Blends of Deuterated Polybutadiene and Protonated Polyisopene.
PB97-113146 *01,296*

INTERACTIVE GRAPHICS

Programmer's Hierarchical Interactive Graphics System (PHIGS). Category: Software Standard; Subcategory: Graphics.
FIPS PUB 153-1 *01,668*

User's Guide for the PHIGS Validation Tests (Version 2.1).
PB94-165206 *01,682*

Approaches Using Virtual Environments with Mosaic.
PB95-169108 *01,599*

INTERACTIVE SYSTEMS

Kibitz-Connecting Multiple Interactive Programs Together.
PB94-213311 *01,696*

Handling Passwords with Security and Reliability in Background Processes.
PB95-180550 *01,722*

Ouch Those Programs are Painful.
PB96-102678 *01,739*

INTERAGENCY COOPERATION

NIST and the Navy: Past, Present and Future.
PB96-119649 *03,655*

INTERAGENCY COORDINATION

Overview of U.S. Government Advanced Packaging Programs.
PB96-200845 *02,443*

INTERATOMIC POTENTIALS

Interatomic Potential of Argon.
PB95-141180 *00,912*

Interatomic Potential of Argon.
PB95-152989 *00,945*

INTERBAND ABSORPTION

Band-to-Band Photoluminescence and Luminescence Excitation in Extremely Heavily Carbon-Doped Epitaxial GaAs.
PB95-150413 *04,570*

INTERCALATING AGENTS

Application of Photochemical Reaction in Electrochemical Detection of DNA Intercalation.
PB94-185733 *00,686*

Enhanced Detection of PCR Products Through Use of TOTO and YOYO Intercalating Dyes with Laser Induced Fluorescence - Capillary Electrophoresis.
PB95-164653 *00,599*

INTERCALATION

Detection of Aromatic Compounds Based on DNA Intercalation Using an Evanescent Wave Biosensor.
PB96-111976 *03,473*

INTERCALATION COMPOUND

Determination of Anomalous Superexchange in MnCl2 and Its Graphite Intercalation Compound.
PB97-122568 *00,666*

INTERFACE CRACKS

Pressurized Internal Lenticular Cracks at Healed Mica Interfaces.
PB96-180252 *02,997*

INTERFACE FILTERS

Interface-Filter Characterization of Spectraradiometers and Colorimeters.
PB97-122212 *04,399*

INTERFACE ROUGHNESS

Interface Roughness-Induced Changes in the Near-E(sub 0) Spectroscopic Behavior of Short-Period AlAs/GaAs Superlattices.
PB94-185154 *02,118*

Effects of Interfacial Roughness on the Magnetoresistance of Magnetic Metallic Multilayers.
PB95-150017 *04,556*

Spectroscopic Ellipsometry Determination of the Properties of the Thin Underlying Strained Si Layer and the Roughness at SiO2/Si Interface.
PB95-150157 *04,560*

Interface Roughness, Composition, and Alloying of Low-Order AlAs/GaAs Superlattices Studies by X-ray Diffraction.
PB96-160262 *02,983*

INTERFACE STABILITY

Convection and Morphological Stability During Directional Solidification.
N95-14548/8 *03,310*

INTERFACE TRANSMISSION

Spin-Dependent Interface Transmission and Reflection in Magnetic Multilayers (Invited).
PB96-201173 *04,130*

INTERFACES

Control Entity Interface Specification.
PB94-191715 *02,815*

Interface Properties for Ceramic Composites from a Single Fiber Pull-Out Test.
PB94-199361 *03,135*

Asymmetric Tip Morphology of Creep Microcracks Growing Along Bimaterial Interfaces.
PB94-200243 *03,138*

Neutron Scattering Studies of Surfaces and Interfaces.
PB94-216207 *04,517*

Interface Roughness of Short-Period AlAs/GaAs Superlattices Studied by Spectroscopic Ellipsometry.
PB95-107215 *02,137*

Interface Modification and Characterization of Silicon Carbide Platelets Coated with Alumina Particles.
PB95-108734 *03,121*

Interface Sharpness in Low-Order III-V Superlattices.
PB95-108775 *02,138*

Interface Sharpness during the Initial Stages of Growth of Thin, Short-Period III-V Superlattices.
PB95-108783 *02,139*

Digital Simulation of the Aggregate-Cement Paste Interfacial Zone in Concrete.
PB95-125993 *00,363*

Near Critical Fluid Interfaces: A Comparison of Theory and Experiment.
PB95-140166 *00,901*

Structural Stabilization of Phase Separating PC/Polyester Blends through Interfacial Modification by Transesterification Reaction.

IODINE
Iodine Atoms and Iodomethane Radical Cations: Their Formation in the Pulse Radiolysis of Iodomethane in Organic Solvents, Their Complexes, and Their Reactivity with Organic Reductants.
PB95-162764 *00,965*

IODINE 127
High-Sensitivity Determination of Iodine Isotopic Ratios by Thermal and Fast Neutron Activation.
PB94-213386 *00,555*

IODINE 129
High-Sensitivity Determination of Iodine Isotopic Ratios by Thermal and Fast Neutron Activation.
PB94-213386 *00,555*

IODINE MONOXIDE
Absorption Cross Sections, Kinetics of Formation, and Self-Reaction of the IO Radical Produced via the Laser Photolysis of N2O/I2/N2 Mixtures.
PB97-112361 *01,180*

IODINE ORGANIC COMPOUNDS
Iodine Atoms and Iodomethane Radical Cations: Their Formation in the Pulse Radiolysis of Iodomethane in Organic Solvents, Their Complexes, and Their Reactivity with Organic Reductants.
PB95-162764 *00,965*

IODINE OXIDE
Experimental Determination of the Ionization Energy of IO(X(sup 2)II(sub 3/2)) and Estimations of Delta(sub f)H(sup deg)(sub 0)(IO(sup -)) and PA(IO).
PB96-146899 *00,694*

ION-ATOM COLLISIONS
Charge Transfer and Collision-Induced Dissociation Reactions of CF(2+) and CF2(2+) with the Rare Gases at a Laboratory Collision Energy of 49 eV.
PB94-185584 *00,775*

Collision-Induced Neutral Loss Reactions of Molecular Dications.
PB94-185808 *00,780*

Hydrogen Balmer Alpha Line Shapes for Hydrogen-Argon Mixtures in a Low-Pressure rf Discharge.
PB95-153433 *03,924*

Collisions of Electrons with Highly-Charged Ions.
PB96-200340 *04,791*

ION BEAM ASSISTED DEPOSITION
Effect of Beam Voltage on the Properties of Aluminum Nitride Prepared by Ion Beam Assisted Deposition.
PB97-118616 *01,995*

ION BEAM MODIFICATION
Gas Absorption during Ion-Irradiation of a Polymer Target.
PB96-161864 *04,099*

ION BEAMS
Growth of Epitaxial KNbO3 Thin Films.
PB96-135181 *02,409*

ION CHANNEL
Noise Analysis of Ionization Kinetics in a Protein Ion Channel.
PB96-161682 *04,093*

ION CHANNELS
Genetically Engineered Pores for New Materials.
PB96-161641 *03,550*

Current Fluctuations Reveal Protonation Dynamics and Number of Ionizable Residues in the alpha-Toxin Channel.
PB96-161732 *03,588*

Protonation Dynamics in an Ion Channel Pore.
PB96-161757 *03,589*

ION DETECTION
Superconducting Resonator and a Cryogenic GaAs Field-Effect Transistor Amplifier as a Single-Ion Detection System.
PB95-202727 *03,990*

ION DISTRIBUTION
Evidence for Inelastic Processes for N(+)3 and N(+)4 from Ion Energy Distributions in He/N2 Radio Frequency Glow Discharges.
PB96-146683 *04,059*

ION EXCHANGE RESINS
Tetrahedral-Framework Lithium Zinc Phosphate Phases: Location of Light-Atom Positions in LiZnPO4 H2O by Powder Neutron Diffraction and Structure Determination of LiZnPO4 by ab Initio Methods.
PB96-160510 *01,129*

ION FILMS
Variation in Magnetic Properties of Cu/Fcc (001) Sandwich Structures.
PB95-141164 *04,555*

ION IMAGING
Molecular Ion Imaging and Dynamic Secondary Ion Mass Spectrometry of Organic Compounds.
PB95-126124 *00,571*

ION IMPLANTATION
Transition Metal Implants in In0.53GA0.47As.
PB95-126389 *04,534*

Boron-Implanted 6H-SiC Diodes.
PB96-159678 *04,081*

ION IRRADIATION
Increased Pinning Energies and Critical Current Densities in Heavy-Ion-Irradiated Bi2Sr2CaCu2O8 Single Crystals.
PB95-175352 *04,654*

ION MOLECULE INTERACTIONS
Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 7. CO(+), C2O2(+), and C2O2(-). (Reannouncement with New Availability Information).
AD-A239 729/7 *00,706*

Selected Ion Flow Tube-Laser Induced Fluorescence Instrument for Vibrationally State-Specific Ion-Molecule Reactions.
PB94-185444 *00,774*

ION OPTICS
Beam Line for Highly Charged Ions.
PB97-111256 *04,143*

ION PLASMAS
Liquid and Solid Atomic Ion Plasmas.
PB94-198991 *03,809*

ION SELECTIVE ELECTRODES
Development of a Standard Reference Material for ISE Measurements of Sodium and Potassium.
PB96-159785 *03,507*

ION SOURCES
Relative Sensitivity Factors and Useful Yields for a Microfocused Gallium Ion Beam and Time-of-Flight Secondary Ion Mass Spectrometer.

ISOMERIZATION
Development of Engineered Stationary Phases for the Separation of Carotenoid Isomers.
PB95-150249 *00,578*

ISOMERS
Comparison of the Liquid Chromatographic Behavior of Selected Steroid Isomers Using Different Reversed-Phase Materials and Mobile Phase Compositions.
PB95-140976 *00,574*

Isolation and Structural Elucidation of the Predominant Geometrical Isomers of alpha-Carotene.
PB96-190061 *00,640*

ISOTHERMS
Water-Vapor Measurements of Low-Slope Roofing Materials.
PB95-251617 *00,399*

ISOTOPE DILUTION
Isotope Dilution Mass Spectrometry as a Candidate Definitive Method for Determining Total Glycerides and Triglycerides in Serum.
PB96-102280 *03,519*

Isotopic and Nuclear Analytical Techniques in Biological Systems: A Critical Study. 10. Elemental Isotopic Dilution Analysis with Radioactive and Stable Isotopes (Technical Report).
PB96-164157 *00,696*

ISOTOPE DILUTION MASS SPECTROSCOPY
Comparative Strategies for Correction of Interferences in Isotope Dilution Mass Spectrometric Determination of Vanadium.
PB94-185261 *00,531*

ISOTOPE EFFECT
Wavelengths and Energy Levels of Neutral Kr(84) and Level Shifts in All Kr Even Isotopes.
PB94-140605 *03,780*

Isotope Shifts and Hyperfine Splittings of the 398.8-nm Yb I Line.
PB94-199585 *03,814*

Wavelengths and Isotope Shifts for Lines of Astrophysical Interest in the Spectrum of Doubly Ionized Mercury (Hg III).
PB95-140869 *03,887*

Magneto-Optical Trapping of Metastable Xenon: Isotope-Shift Measurements.
PB95-151254 *03,905*

Deuterium Isotope Effect in Vinyl Radical Combination/Dispropor tionationReactions.
PB96-204151 *01,167*

ISOTOPE EFFECTS
Laser Magnetic-Resonance Measurement of the (3)P1 - (3)P2 Fine-Structure Splittings in (17)O and (18)O.
PB95-175170 *00,994*

ISOTOPE RATIO
Deuterium in the Local Interstellar Medium: Its Cosmological Significance.
PB95-202842 *00,081*

New IUPAC Guidelines for the Reporting of Stable Hydrogen, Carbon, and Oxygen Isotope-Ratio Data. Letter to the Editor.
PB95-261962 *01,058*

ISOTOPE RATIOS
New Values for Silicon Reference Materials, Certified for Isotope Abundance Ratios. Letter to the Editor.
PB94-219268 *00,863*

ISOTOPE SHIFT
Measurements of the Resonance Lines of (6)Li and (7)Li by Doppler-Free Frequency-Modulation Spectroscopy.
PB96-180211 *04,118*

ISOTOPIC COMPOSITIONS
Atomic Weights of the Elements, 1993.
PB96-145909 *01,114*

ISOTOPIC LABELING
Rare-Earth Isotopes as Tracers of Particulate Emissions: An Urban Scale Test.
PB94-161635 *02,535*

ISOTOPOMERS
Slit Jet Infrared Spectroscopy of Hydrogen Bonded N2HF Isotopomers: Rotational Rydberg-Klein-Rees Analysis and H/D Dependent Vibrational Predissociation Rates.
PB95-161873 *00,956*

ISOTROPIC MEDIA
Elastic Constants of Isotropic Cylinders Using Resonant Ultrasound.
PB94-211919 *04,497*

IT(INFORMATION TECHNOLOGY)
Report on Application Integration Architectures (AIA) Workshop. Held in Dallas, Texas on February 8-12, 1993.
PB94-142536 *01,803*

Study of Federal Agency Needs for Information Technology Security.
PB94-193653 *01,579*

ITER TOKAMAK
Irradiation Damage in Inorganic Insulation Materials for ITER Magnets: A Review.
PB95-147351 *03,705*

Cryogenic Properties of Inorganic Insulation Materials for ITER Magnets: A Review.
PB95-198768 *03,706*

ITS-90
Practical Applications of the ITS-90: Inherent Uncertainties.
PB95-161527 *03,930*

IUE
Recalibration for the Final Archive of the International Ultraviolet Explorer (IUE) Satellite.
PB96-135264 *00,106*

IUPAC COMMISSION ON ATOMIC WEIGHTS
Atomic Weights of the Elements, 1993.
PB96-145909 *01,114*

JAPAN

Statistical Quality Control Technology in Japan.
PB94-199064 *02,708*

Differences in Competitive Strategies between the United States and Japan.
PB94-211836 *00,013*

Calibration of GPS Equipment in Japan.
PB95-151452 *01,531*

Japan Technology Program Assessment: Precision Engineering/Precision Optics in Japan.
PB95-171112 *02,884*

Earthquake and Fire in Japan: When the Threat Became a Reality.
PB95-175238 *00,201*

Japan Technology Program Assessment. Simulation: State-of the-Art in Japan.
PB95-217097 *02,827*

Innovation in the Japanese Construction Industry: A 1995 Appraisal.
PB96-177373 *00,225*

JET ENGINES

Bibliography of Books and Published Reports on Gas Turbines, Jet Propulsion, and Rocket Power Plants.
AD-A278 138/3 *01,445*

Bibliography of Books and Published Reports on Gas Turbines, Jet Propulsion, and Rocket Power Plants, January 1950 through December 1953.
AD-A278 213/4 *01,446*

Determination of Hydrogen in Titanium Alloy Jet Engine Compressor Blades by Cold Neutron Capture Prompt Gamma-ray Activation Analysis.
PB95-175956 *01,448*

JET FLOW

Experimental Study of the Stabilization Region of Lifted Turbulent-Jet Diffusion Flames.
PB96-122676 *01,405*

JET MIXING FLOW

Global Density Effects on the Self-Preservation Behavior of Turbulent Free Jets.
PB95-162301 *04,207*

JOB CREATION

Metric Path to Global Markets and New Jobs: A Question-and-Answer and Thematic Discussion.
PB94-206307 *02,601*

JOINTS (JUNCTIONS)

Model Precast Concrete Beam-to-Column Connections Subject to Cyclic Loading.
PB95-153094 *00,438*

Partially Prestressed and Debonded Precast Concrete Beam-Column Joints.
PB95-153102 *00,439*

Seismic Performance Behavior of Precast Concrete Beam-Column Joints.
PB95-153110 *00,440*

Report of a Workshop on Requalification of Tubular Steel Joints in Offshore Structures. Held in Houston, Texas on September 5-6, 1995.
PB96-210760 *03,699*

JOSEPHSON ARRAYS

Accuracy Comparisons of Josephson Array Systems.
PB95-164687 *02,047*

JOSEPHSON EFFECT

How Accurate Are the Josephson and Quantum Hall Effects and QED.
PB95-163283 *03,942*

JOSEPHSON JUNCTIONS

Effect of Thermal Noise on Shapiro Steps in High-Tc Josephson Weak Links.
PB94-212677 *04,506*

Combined Josephson and Charging Behavior of the Supercurrent in the Superconducting Single-Electron Transistor.
PB95-168522 *04,637*

Observation of Vortex Dynamics in Two-Dimensional Josephson-Junction Arrays.
PB95-168811 *02,050*

Terahertz Shapiro Steps in High Temperature SNS Josephson Junctions.
PB95-169140 *02,168*

Phase-Locked Oscillator Optimization for Arrays of Josephson Junctions.
PB95-169314 *02,052*

Thermal Noise in High-Temperature Superconducting-Normal-Superconducting Step-Edge Josephson Junctions.
PB95-175089 *04,650*

Characterization of the Emission from 2D Array Josephson Oscillators.
PB95-175121 *02,054*

Emission Linewidth Measurements of Two-Dimensional Array Josephson Oscillators.
PB95-175139 *02,055*

Frequency Dependence of the Emission from 2D Array Josephson Oscillators.
PB95-175147 *02,056*

Evidence for Parallel Junctions Within High-Tc Grain-Boundary Junctions.
PB95-175410 *04,657*

Josephson Voltage Standard Based on Single-Flux-Quantum Voltage Multipliers.
PB95-175600 *02,058*

Phase Locking in Two-Junction Systems of High-Temperature Superconductor-Normal Metal-Superconductor Junctions.
PB95-176053 *02,060*

High Temperature Superconductor-Normal Metal-Superconductor Josephson Junctions with High Characteristic Voltages.
PB95-176079 *04,666*

Quasipotential and the Stability of Phase Lock in Nonhysteretic Josephson Junctions.
PB95-180402 *04,681*

Large-Amplitude Shapiro Steps and Self-Field Effects in High-Tc Josephson Weak Links.
PB95-180410 *04,682*

Step-Edge and Stacked-Heterostructure High-Tc Josephson Junctions for Voltage-Standard Arrays.
PB96-102066 *04,702*

Resonances in Two-Dimensional Array Oscillator Circuits.
PB96-102082 *02,066*

Direct Observation of Vortex Dynamics in Two-Dimensional Josephson-Junction Arrays.
PB96-102223 *02,067*

Physical Basis for Half-Integral Shapiro Steps in a DC SQUID.
PB96-102264 *04,704*

Stacked Series Arrays of High-Tc Trilayer Josephson Junctions.
PB96-102272 *04,705*

30 THz Mixing Experiments on High Temperature Superconducting Josephson Junctions.
PB96-102462 *04,709*

Phase Locking in Two-Dimensional Arrays of Josephson Junctions: Effect of Critical-Current Nonuniformity.
PB96-102587 *04,714*

Superconducting Integrated Circuit Fabrication with Low Temperature ECR-Based PECVD SiO2 Dielectric Films.
PB96-103015 *04,719*

Stable Phase Locking in a Two-Cell Ladder Array of Josephson Junctions.
PB96-111679 *04,722*

Temperature Dependence and Magnetic Field Modulation of Critical Currents in Step-Edge SNS YBCO/Au Junctions.
PB96-111745 *04,723*

Critical Current and Normal Resistance of High-Tc Step-Edge SNS Junctions.
PB96-111752 *04,724*

SUSAN: SUperconducting Systems ANalysis by Low Temperature Scanning Electron Microscopy (LTSEM).
PB96-112065 *04,728*

High-Frequency Oscillators Using Phase-Locked Arrays of Josephson Junctions.
PB96-135157 *02,080*

Heterodyne Mixing and Direct Detection in High Temperature Josephson Junctions.
PB96-147202 *01,565*

Microwave Noise in High-Tc Josephson Junctions.
PB96-148010 *04,771*

Josephson D/A Converter with Fundamental Accuracy.
PB96-148044 *02,418*

Performance and Reliability of NIST 10-V Josephson Arrays.
PB96-148051 *02,419*

Metallic-Barrier Junctions for Programmable Josephson Voltage Standards.
PB96-200134 *02,089*

Shapiro Steps in Large-Area Metallic-Barrier Josephson Junctions.
PB96-200142 *02,090*

Novel Vortex Dynamics in Two-Dimensional Josephson Arrays.
PB96-200167 *02,091*

High-Tc Multilayer Step-Edge Josephson Junctions and SQUIDs.
PB96-200183 *04,790*

Superconductor- Normal-Superconductor Junctions for Digital/Analog Converters.
PB96-200233 *02,092*

Superconductor- Normal-Superconductor Junctions for Programmable Voltage Standards.
PB96-200241 *02,093*

Design of High-Frequency, High-Power Oscillators Using Josephson-Junction Arrays.
PB96-200258 *02,094*

High-Power, High-Frequency Oscillators Using Distributed Josephson-Junction Arrays.
PB96-200266 *02,095*

Controlling the Critical Current Density of High-Temperature SNS Josephson Junctions.
PB96-200712 *04,794*

Pulse-Driven Programmable Josephson Voltage Standard.
PB97-111496 *04,148*

High Power Generation with Distributed Josephson-Junction Arrays.
PB97-111520 *02,099*

JOSEPHSON OSCILLATORS

Phase-Locked Oscillator Optimization for Arrays of Josephson Junctions.
PB95-169314 *02,052*

Characterization of the Emission from 2D Array Josephson Oscillators.
PB95-175121 *02,054*

Emission Linewidth Measurements of Two-Dimensional Array Josephson Oscillators.
PB95-175139 *02,055*

Frequency Dependence of the Emission from 2D Array Josephson Oscillators.
PB95-175147 *02,056*

Design of High-Frequency, High-Power Oscillators Using Josephson-Junction Arrays.
PB96-200258 *02,094*

High-Power, High-Frequency Oscillators Using Distributed Josephson-Junction Arrays.
PB96-200266 *02,095*

High Power Generation with Distributed Josephson-Junction Arrays.
PB97-111520 *02,099*

JOURNALS

Role of Journals in Maintaining Data Integrity: Checking of Crystal Structure Data in 'Acta Crystallographica'.
PB97-109177 *04,806*

Electronic Publishing and the Journals of the American Chemical Society.
PB97-109185 *04,807*

How the Cambridge Crystallographic Data Centre Obtains Its Information.
PB97-109193 *04,808*

JP-8 JET FUEL

Suppression of Elevated Temperature Hydraulic Fluid and JP-8 Spray Flames.
PB95-181095 *00,021*

JUVENILE RHEUMATOID ARTHRITIS

Nutritional Status and Growth in Juvenile Rheumatoid Arthritis.
PB94-198470 *03,515*

K LINES

K alpha Transitions in Few-Electron Ions and in Atoms.
PB94-212248 *03,849*

K-VALUE

Design of a Protocol for an Electron Probe Microanalyzer k-Value Round Robin.
PB95-107181 *00,564*

KALMAN FILTERS

Comparison of GPS Broadcast and DMA Precise Ephemerides.
N94-30660/2 *01,523*

KEROSENE

Structure of a Swirl-Stabilized Kerosene Spray Flame.
PB95-108569 *02,480*

KERR CELLS

Investigation of the Effects of Aging on the Calibration of a Kerr-Cell Measuring System for High Voltage Impulses.
PB94-172384 *02,025*

KERR EFFECT

Observation of the Transverse Second Harmonic Magneto-Optic Kerr Effect from Ni81Fe19 Thin Film Structures.
PB96-200332 *01,971*

KERR MAGNETOOPTICAL EFFECT

Concurrent Enhancement of Kerr Rotation and Antiferromagnetic Coupling in Epitaxial Fe/Cu/Fe Structures.
PB94-198769 *04,466*

Magnetooptic Effects.
PB96-119292 *04,338*

KETENE COMPLEXES

Rotational Spectrum and Structure of a Weakly Bound Complex of Ketene and Acetylene.
PB95-126140 *00,896*

KEY ESCROW ENCRYPTION

Report of the NIST Workshop on Key Escrow Encryption. Held in Gaithersburg, Maryland on June 8-10, 1994.
PB94-209459 *01,584*

KEYBOARDS

Guidance of the Legality of Keystroke Monitoring.
PB96-161237 *00,005*

KIDNEY

Nickel(II)-Mediated Oxidative DNA Base Damage in Renal and Hepatic Chromatin of Pregnant Rats and Their Fetuses. Possible Relevance to Carcinogenesis.
PB94-212628 *03,646*

Oxidative DNA Base Damage in Renal, Hepatic, and Pulmonary Chromatin of Rats After Intraperitoneal Injection of Cobalt (II) Acetate.
PB95-150025 *03,647*

DNA Base Modifications in Renal Chromatin of Wistar Rats Treated with a Renal Carcinogen, Ferric Nitrilotriacetate.
PB95-150363 *03,648*

Treatment of Wistar Rats with a Renal Carcinogen, Ferric Nitrilotriacetate, Causes DNA-Protein Cross-Linking between Thymine and Tyrosine in Their Renal Chromatin.
PB96-112115 *03,649*

KILOGRAMS
NIST Watt Experiment: Monitoring the Kilogram.
PB97-122329 *01,997*

KINEMATIC VISCOSITY
Viscosity of the Saturated Liquid Phase of Six Halogenated Compounds and Three Mixtures.
PB95-162368 *00,960*

KINETIC ENERGY
Kinetic Energy Distribution of Ions Produced from Townsend Discharges in Neon and Argon.
PB96-111927 *04,413*

KINETICS
Fokker-Planck Description of Multivalent Interactions.
PB95-108478 *00,879*

Aggregation Kinetics of Colloidal Particles Destabilized by Enzymes.
PB95-125878 *00,894*

Anisotropic Phase Separation Kinetics in a Polymer Blend Solution Following Cessation of Shear Studied by Light Scattering.
PB95-151247 *01,241*

Current Noise Reveals Protonation Kinetics and Number of Ionizable Sites in an Open Protein Ion Channel.
PB96-161674 *04,092*

KNOWLEDGE-BASED SYSTEMS
Development of Computer-Based Models of Standards and Attendant Knowledge-Base and Procedural Systems.
PB96-155783 *00,464*

KRYPTON
Intensity-Dependent Scattering Rings in High Order Above-Threshold Ionization.
PB96-110739 *04,032*

Spectral Data for Highly Ionized Krypton, Kr V through Kr XXXVI.
PB96-145917 *01,115*

KRYPTON 84
Wavelengths and Energy Levels of Neutral Kr(84) and Level Shifts in All Kr Even Isotopes.
PB94-140605 *03,780*

KRYPTON 85
Intercomparison of Internal Proportional Gas Counting of (85)Kr and (3)H.
PB94-185576 *03,800*

KRYPTON COMPLEXES
Van der Waals Bond Lengths and Electronic Spectral Shifts of the Benzene-Kr and Benzene-Xe Complexes.
PB95-151387 *00,932*

KRYPTON IONS
Resonance Structure and Absolute Cross Sections in Near-Threshold Electron-Impact Excitation of the 4s(2) (1)S yields 4s4p (3)P Intercombination Transition in Kr(6+).
PB95-202271 *03,972*

L-S COUPLING
Investigation of LS Coupling in Boronlike Ions.
PB94-185295 *03,797*

L-THREO-BETA-HYDROXYHISTIDINE
L-threo-beta-Hydroxyhistidine, an Unprecedented Iron(III) Ion-Binding Amino Acid in a Pyoverdine-type Siderophore from Pseudomonas fluorescens 244.
PB94-211620 *00,553*

LABELLING COMPLIANCE
Inter-Laboratory Trials of the EPR Method for the Detection of Irradiated Meats Containing Bone.
PB96-161690 *00,042*

LABELS
Checking the Net Contents of Packaged Goods as Adopted by the 79th National Conference on Weights and Measures, 1994, Third Edition, Supplement 4.

LAKE ERIE
Lake Erie Water Temperature Data, Put-in-Bay, Ohio, 1918-1992.
PB96-202452 *03,692*

LAMELLA
Partially Coherent Transmittance of Dielectric Lamellae.
PB96-148028 *04,359*

LAMINAR FLOW
Probabilistic Computation of Poiseuille Flow Velocity Fields.
PB96-102520 *04,209*

LAMINATED GLASS
Influence of Physical Aging on the Yield Response of Model DGEBA + Poly(propylene oxide) Epoxy Glasses.
PB95-126363 *03,381*

Volume Recovery in Epoxy Glasses Subjected to Torsional Deformations: The Question of Rejuvenation.
PB95-140018 *03,382*

Torsional Relaxation and Volume Response during Physical Aging in Epoxy Glasses Subjected to Large Torsional Deformations.
PB95-140026 *03,383*

Using Torsional Dilatometry to Measure the Effects of Deformations on Physical Aging.
PB95-140901 *03,384*

LAMINOGRAPHY
Evaluation and Qualification Standards for an X-Ray Laminography System.
PB94-172954 *02,029*

Contributions of Out-of-Plane Material to a Scanned-Beam Laminography Image.
PB96-111786 *02,704*

LAMP ORIENTATION
Irradiance of Horizontal Quartz-Halogen Standard Lamps.
PB96-179130 *01,866*

LAMPS
Improved Automated Current Control for Standard Lamps.
PB94-219367 *00,246*

LANDSAT SATELLITES
Organization and Implementation of Calibration in the EOS Project. Part 1.
PB96-179437 *04,841*

LANTHANUM
Charge-Transfer-Induced Multiplet Structure in the N4,5O2,3 Soft-X-ray Emission Spectrum of Lanthanum.
PB96-163746 *04,102*

LANTHANUM ALUMINATES
Dielectric Properties of Single Crystals of Al2O3, LaAlO3, SrTiO3, and MgO at Cryogenic Temperatures.
PB95-180477 *02,266*

LANTHANUM BARIUM CUPRATES
Correlation between Tc and Elastic Constants of (La-M)2CuO4.
PB94-213220 *04,514*

LANTHANUM BARIUM TITANATES
Substitution-Induced Midgap States in the Mixed Oxides RxBa1-ChiTiO3-Delta, with R=Y, La, and Nd.
PB95-140505 *04,541*

LANTHANUM CALCIUM CUPRATES
Correlation between Tc and Elastic Constants of (La-M)2CuO4.
PB94-213220 *04,514*

Neutron Powder Diffraction Study of the Structures of La1.9Ca1.1Cu2O6 and La1.9Sr1.1Cu2O6+Delta.
PB95-140042 *04,538*

LANTHANUM DEUTERIDE
Neutron-Powder-Diffraction Study of the Long-Range Order in the Octahedral Sublattice of LaD2.25.
PB96-141155 *04,753*

Characterization of the Structure of LaD2.50 by Neutron Powder Diffraction.
PB96-176797 *04,783*

LANTHANUM STRONTIUM CUPRATES
Electronic Correlations and Satellites in Superconducting Oxides.
PB94-200045 *04,477*

Correlation between Tc and Elastic Constants of (La-M)2CuO4.
PB94-213220 *04,514*

Neutron Powder Diffraction Study of the Structures of La1.9Ca1.1Cu2O6 and La1.9Sr1.1Cu2O6+Delta.
PB95-140042 *04,538*

LANTHANUM TITANIUM ALUMINATES
Determination of Complex Structures from Powder Diffraction Data: The Crystal Structure of La3Ti5Al15O37.
PB95-202966 *01,038*

LAPLACE EQUATION
Laplace's Equation and the Dirichlet-Neumann Map in Multiply Connected Domains. (NIST Reprint).
PB95-180295 *03,962*

Exact Recursion Relation Solution for the Steady-State Surface Temperature of a General Multilayer Structure.
PB96-102017 *02,376*

LARGE SCALE INTEGRATION
Defect Formation Mechanism Causing Increasing Defect Density during Decreasing Implant Dose in Low-Dose Simox.
PB96-119524 *02,402*

KEYWORD INDEX

LASER ABLATION
Influence of Deposition Parameters on Properties of Laser Ablated YBa2Cu3O7-Delta Films.
PB95-140539 *04,544*

LASER AMPLIFIERS
Optical Sampling Using Nondegenerate Four-Wave Mixing in a Semiconductor Laser Amplifier.
PB96-122502 *02,076*

Optical Sampling Using Nondegenerate Four-Wave Mixing in a Semiconductor Laser Amplifier.
PB96-123609 *04,348*

LASER ANNEALING
Improved Dose Metrology in Optical Lithography.
PB96-179510 *02,439*

LASER APPLICATIONS
Optically Stabilized Tunable Diode-Laser System for Saturation Spectroscopy.
PB96-102819 *04,717*

LASER BEAMS
Beam Analysis Round Robin.
PB94-212545 *04,239*

Laser-Beam Analysis Pinpoints Critical Parameters.
PB94-212552 *04,240*

Widths and Propagation of a Truncated Gaussian Beam.
PB95-168779 *04,287*

Error Propagation in Laser Beam Spatial Parameters.
PB95-180394 *04,310*

Characterization of a Clipped Gaussian Beam.
PB96-102553 *04,331*

LASER COOLING
Laser Cooling and Trapping for the Masses.
PB95-126090 *04,253*

Laser Cooling.
PB95-151502 *03,908*

Trapped Atoms and Laser Cooling.
PB95-151627 *03,911*

New Mechanisms for Laser Cooling.
PB95-153268 *03,923*

Laser Cooling of Trapped Ions.
PB95-168746 *03,950*

Quantum-Limited Cooling and Detection of Radio-Frequency Oscillations by Laser-Cooled Ions.
PB96-112073 *04,039*

Inexpensive Laser Cooling and Trapping Experiment for Undergraduate Laboratories.
PB96-140371 *04,353*

Laser Modification of Ultracold Collisions: Experiment.
PB96-157987 *04,075*

Laser-Cooled Neutral Atom Frequency Standards.
PB96-160312 *04,086*

Gravitational Sisyphus Cooling of (87)Rb in a Magnetic Trap.
PB96-200704 *04,379*

Properties of a Bose-Einstein Condensate in an Anisotropic Harmonic Potential.
PB96-204144 *04,133*

Laser Cooling and the Recoil Limit.
PB97-111280 *04,391*

LASER DEPOSITION
Laser-Focused Atomic Deposition.
PB95-161618 *04,604*

LASER DIAGNOSTICS
Modeling Ceramic Sub-Micron Particle Formation from the Vapor Using Detailed Chemical Kinetics: Comparison with In-situ Laser Diagnostics.
PB95-151965 *00,671*

LASER DIFFRACTION
Parametric Investigation of Metal Powder Atomization Using Laser Diffraction.
PB95-108577 *03,342*

LASER DIODES
Simultaneous Laser-Diode Emission and Detection for Fiber-Optic Sensor Applications.
PB96-155502 *04,062*

Magneto-Optic Rotation Sensor Using a Laser Diode as Both Source and Detector.
PB97-111272 *04,390*

LASER FOCUSING
Laser Focused Atomic Deposition.
PB95-180659 *04,685*

Nanostructure Fabrication via Laser-Focused Atomic Deposition (Invited).
PB96-204094 *04,132*

LASER HAZARDS
Optical Density Measurements of Laser Eye Protection Materials.
PB96-190301 *00,190*

LASER INDUCED DESORPTION
Laser-Induced Desorption of NO from Si(111): Effects of Coverage on NO Vibrational Populations.
PB95-162319 *00,959*

Laser-Induced Desorption of In and Ga from Si(100) and Adsorbate Enhanced Surface Damage.
PB95-203311 *01,050*

Pulsed Laser Irradiation at 532 nm of In and Ga Adsorbed on Si(100): Desorption, Incorporation, and Damage.
PB95-203329 *01,051*

LASER INDUCED FLUORESCENCE
Greatly Enhanced Soot Scattering in Flickering Ch4/Air Diffusion Flames.
PB94-172988 *01,361*

Laser Imaging of Chemistry-Flowfield Interactions: Enhanced Soot Formation in Time-Varying Diffusion Flames.
PB94-185352 *01,364*

Laser-Induced Fluorescence Measurements of Formaldehyde in a Methane/Air Diffusion Flame.
PB94-211679 *01,374*

Optical Measurements of Atomic Hydrogen, Hydroxyl, and Carbon Monoxide in Hydrocarbon Diffusion Flames.
PB95-150900 *02,487*

Laser-Induced Fluorescence Measurements of OH. Concentrations in the Oxidation Region of Laminar, Hydrocarbon Diffusion Flames.
PB95-162160 *01,387*

Trace Detection in Conducting Solids Using Laser-Induced Fluorescence in a Cathodic Sputtering Cell.
PB95-163424 *00,598*

LASER MAGNETIC RESONANCE
Determination of the Molecular Parameters of NiH in Its (2)Delta Ground State by Laser Magnetic Resonance.
PB95-107116 *00,869*

LASER MATERIALS
Vertical-Cavity Semiconductor Structures: Materials Characterization.
PB95-153185 *02,149*

LASER MODE LOCKING
Millimeter-Resolution Optical Time-Domain Reflectometry Using a Four-Wave Mixing Sampling Gate.
PB96-122700 *02,190*

LASER PHOTOIONIZATION
Laser Photoionization Measurements of Pressure in Vacuum.
PB95-180600 *03,964*

LASER PHOTOLYSIS
Absorption Cross Sections, Kinetics of Formation, and Self-Reaction of the IO Radical Produced via the Laser Photolysis of N2O/I2/N2 Mixtures.
PB97-112361 *01,180*

LASER POLARIMETRY
Simultaneous Measurement of Normal Spectral Emissivity by Spectral Radiometry and Laser Polarimetry at High Temperatures in Pulse-Heating Experiments: Application to Molybdenum and Tungsten.
PB97-118376 *02,694*

LASER-PRODUCED PLASMA
Measurements of quantum electrodynamic sensitive transitions in Na-like and Cu-like ions: Final report, 1 October 1993--29 September 1994.
DE95011593 *04,403*

LASER PULSE METHOD
Thermal Diffusivity of POCO AXM-5Q1 Graphite in the Range 1500 to 2500 K Measured by a Laser-Pulse Technique.
PB94-185022 *03,013*

High-Temperature Laser-Pulse Thermal Diffusivity Apparatus.
PB94-185147 *02,631*

LASER RADIATION
Far Infrared Laser Frequencies of (13)CD3OH.
PB95-169363 *04,292*

Frequency Shifting of Pulsed Narrow-Band Laser Light in a Multipass Raman Cell.
PB95-203352 *04,321*

Nanofabrication of a Two-Dimensional Array Using Laser-Focused Atomic Deposition.
PB96-119417 *04,732*

Thermal Modeling and Analysis of Laser Calorimeters.
PB96-140405 *04,354*

LASER RANGE FINDERS
Preliminary Comparison of Time Transfers via LASSO, GPS and Two-Way Satellite.
PB95-151098 *01,529*

LASER SCATTERING
In situ Characterization of Vapor Phase Growth of Iron Oxide-Silica Nanocomposites: Part 1. 2-D Planar Laser-Induced Fluorescence and Mie Imaging.
PB97-112478 *03,185*

LASER SPECTROSCOPY
Dreams About the Next Generation of Super-Stable Lasers.
PB94-211570 *04,235*

High-Resolution Spectroscopy of Laser-Cooled Rubidium in a Vapor-Cell Trap.
PB95-153714 *04,268*

Laser Spectroscopy of Carbon Monoxide: A Frequency Reference for the Far Infrared.
PB95-163606 *04,277*

High-Sensitivity Spectroscopy with Diode Lasers.
PB95-175477 *04,297*

Diode Laser as a Spectroscopic Tool.
PB95-175485 *00,600*

High-Resolution Diode-Laser Spectroscopy of Calcium.
PB95-181244 *03,969*

High-Resolution Optical Multiplex Spectroscopy.
PB95-203543 *04,323*

Doppler-Free Spectroscopy of Large Polyatomic Molecules and van der Waals Complexes.
PB96-119581 *04,339*

Search for Small Violations of the Symmetrization Postulate in an Excited State of Helium.
PB96-123518 *04,050*

Frequency-Stabilized Lasers: A Driving Force for New Spectroscopies.
PB96-135199 *04,350*

Comment On: Two-Photon Absorption Series of Calcium.
PB96-157979 *04,074*

Configuration-Dependent AC Stark Shifts in Calcium.
PB96-157995 *04,363*

Measurements of the Resonance Lines of (6)Li and (7)Li by Doppler-Free Frequency-Modulation Spectroscopy.
PB96-180211 *04,118*

Electronically Tunable Fiber Laser for Optical Pumping of (3)He and (4)He.
PB96-201165 *04,381*

LASER STABILITY
Dreams About the Next Generation of Super-Stable Lasers.
PB94-211570 *04,235*

Frequency Stabilized Lasers: A Parochial Review.
PB95-153771 *04,269*

Stabilization of 3.3 and 5.1 m Lead-Salt Diode Lasers by Optical Feedback.
PB95-180709 *04,313*

Stabilization of Optical Phase/Frequency of a Laser System: Application to a Commercial Dye Laser with an External Stabilizer.
PB95-203832 *04,327*

Frequency-Stabilized Lasers: A Driving Force for New Spectroscopies.
PB96-135199 *04,350*

LASER STRUCTURES
Double-Modulation and Selective Excitation Photoreflectance for Wafer-Level Characterization of Quantum-Well Laser Structures.
PB96-167325 *04,372*

LASER SYNCHROTRON COINCIDENCE
Laser-Synchrotron Hybrid Experiments: A Photon to Tickle, A Photon to Poke.
PB96-157847 *03,704*

LASER TRAPPING
Laser Cooling and Trapping for the Masses.
PB95-126090 *04,253*

Inexpensive Laser Cooling and Trapping Experiment for Undergraduate Laboratories.
PB96-140371 *04,353*

LASER TRIGGERED BREAKDOWN
Electrohydrodynamic Instability and Electrical Discharge Initiation in Hexane.
PB96-186119 *02,244*

LASERS
Sub-Doppler Frequency Measurements on OCS at 87 THz (3.4 mu m) with the CO Overtone Laser.
PB96-102215 *04,330*

Far Infrared Laser Frequencies of CH3OD and N2H4.
PB96-119623 *04,341*

Introduction to Phase-Stable Optical Sources.
PB96-122973 *04,347*

Distributed Feedback Lasers in Rare-Earth-Doped Phosphate Glass.
PB96-123773 *04,740*

Coexistence of Grains with Differing Orthorhombicity in High Quality YBa2Cu3O7-delta Thin Films.
PB96-135033 *04,742*

Heterodyne Mixing and Direct Detection in High Temperature Josephson Junctions.
PB96-147202 *01,565*

Optoelectronics at NIST.
PB96-200860 *02,202*

Mode-Locked Lasers for High-Accuracy Radiometry.
PB96-204201 *04,134*

Sinusoidal Surfaces as Standards for BRDF Instruments.
PB97-110597 *04,388*

Double Modulation and Selective Excitation Photoreflectance for Characterizing Highly Luminescent Semiconductor Structures and Samples with Poor Surface Morphology.
PB97-111439 *02,452*

Laser Bandwidth Effects in Quantitative Cavity Ring-Down Spectroscopy.
PB97-112254 *04,394*

LASERS & THEIR APPLICATIONS
Measurements of quantum electrodynamic sensitive transitions in Na-like and Cu-like ions: Final report, 1 October 1993--29 September 1994.
DE95011593 *04,403*

Thermal Diffusivity of POCO AXM-5Q1 Graphite in the Range 1500 to 2500 K Measured by a Laser-Pulse Technique.
PB94-185022 *03,013*

Selected Ion Flow Tube-Laser Induced Fluorescence Instrument for Vibrationally State-Specific Ion-Molecule Reactions.
PB94-185444 *00,774*

Magneto-Optic Magnetic Field Sensor with 1.4pT/square root of 1(Hz) Minimum Detectable Field at 1 kHz.
PB94-199551 02,125

Pump-Induced Dispersion of Erbium-Doped Fiber Measured by Fourier-Transform Spectroscopy.
PB94-211935 04,236

Beam Analysis Round Robin.
PB94-212545 04,239

Laser-Beam Analysis Pinpoints Critical Parameters.
PB94-212552 04,240

Integrated Optic Laser Emitting at 906, 1057, and 1358 nm.
PB94-216280 02,135

Integrated Optic Laser Emitting at 905, 1057, 1356 nm.
PB94-216298 02,136

Laser Cooling and Trapping for the Masses.
PB95-126090 04,253

Metrology Applications of Mode-Locked Erbium Fiber Lasers.
PB95-140158 04,256

Rare-Earth-Doped Waveguide Devices: The Potential for Compact Blue-Green Lasers.
PB95-140836 04,257

Linewidth Narrowing in an Imbalanced Y-Branch Waveguide Laser.
PB95-140844 04,258

Nd:LiTaO3 Waveguide Laser.
PB95-140851 04,259

Nanostructure Fabrication via Direct Writing with Atoms Focused in Laser Fields.
PB95-150272 04,564

Multiwavelength Birefringent-Cavity Mode-Locked Fibre Laser.
PB95-150496 04,262

Direct Dispersion Measurement of Highly-Erbium-Doped Optical Amplifiers Using a Low Coherence Reflectometer Coupled with Dispersive Fourier Spectroscopy.
PB95-150702 04,263

Laser Cooling.
PB95-151502 03,908

Multiphoton Ionization Spectroscopy Measurements of Silicon Atoms during Vapor Phase Synthesis of Ceramic Particles.
PB95-151999 03,913

Vertical-Cavity Optoelectronic Structures: CAD, Growth, and Structural Characterization.
PB95-153177 02,148

Vertical-Cavity Semiconductor Structures: Materials Characterization.
PB95-153185 02,149

Vertical-Cavity Semiconductor Lasers: Structural Characterization, CAD, and DFB Structures.
PB95-153193 02,150

New Mechanisms for Laser Cooling.
PB95-153268 03,923

High Speed, High Sensitivity Magnetic Field Sensors Based on the Faraday Effect in Iron Garnets.
PB95-153391 02,151

Magneto-Optic Magnetic Field Sensors Based on Uniaxial Iron Garnet Films in Optical Waveguide Geometry.
PB95-153409 02,152

High-Resolution Spectroscopy of Laser-Cooled Rubidium in a Vapor-Cell Trap.
PB95-153714 04,268

Accurate Characterization of High Speed Photodectors.
PB95-153763 02,153

Frequency Stabilized Lasers: A Parochial Review.
PB95-153771 04,269

Bragg Gratings in Optical Fibers Produced by a Continuous-Wave Ultraviolet Source.
PB95-162020 04,274

Growth of Bragg Gratings Produced by Continuous-Wave Ultraviolet Light in Optical Fiber.
PB95-162038 04,275

Stabilization and Precise Calibration of a Continuous-Wave Difference Frequency Spectrometer by Use of a Simple Transfer Cavity.
PB95-162350 04,276

Polarization Dependence of Response Functions in 3x3 Sagnac Optical Fiber Current Sensors.
PB95-162426 02,154

Vector Theory of Diffraction by a Single-Mode Fiber: Application to Mode-Field Diameter Measurements.
PB95-164182 04,279

In situ Observation of Surface Morphology of InP Grown on Singular and Vicinal (001) Substrates.
PB95-168431 04,636

Interlaboratory Comparison of Polarization-Holding Parameter Measurements on High-Birefringence Optical Fiber.
PB95-168464 04,280

Low-Coherence Interferometric Measurement of Group Transit Times in Precision Optical Fibre Delay Lines.
PB95-168480 02,158

Improved Variational Analysis of Inhomogeneous Optical Waveguides Using Airy Functions.
PB95-168639 04,285

Spatial Uniformity of Optical Detector Responsivity.
PB95-168845 02,162

Electrically Calibrated Pyroelectric Detector-Refinements for Improved Optical Power Measurements.
PB95-169066 02,164

Optical Power Meter Calibration Using Tunable Laser Diodes.
PB95-169256 04,290

Waveguide Polarizers Processed by Localized Plasma Etching.
PB95-169264 02,171

Self-Calibrating Fiber Optic Sensors: Potential Design Methods.
PB95-169298 02,172

High-Sensitivity Spectroscopy with Diode Lasers.
PB95-175477 04,297

Diode Laser as a Spectroscopic Tool.
PB95-175485 00,600

Calculated Fiber Attenuation: A General Method Yielding Stationary Values.
PB95-175501 04,298

High-Sensitivity Optical Sampling Using an Erbium-Doped Fiber Laser Strobe.
PB95-176111 04,302

Precise Optical Frequency References and Difference Frequency Measurements with Diode Lasers.
PB95-176228 04,305

Error Propagation in Laser Beam Spatial Parameters.
PB95-180394 04,310

Modal Characteristics of Bent Dual Mode Planar Optical Waveguide.
PB95-180485 04,311

Laser Photoionization Measurements of Pressure in Vacuum.
PB95-180600 03,964

Stabilization of 3.3 and 5.1 m Lead-Salt Diode Lasers by Optical Feedback.
PB95-180709 04,313

High-Resolution Diode-Laser Spectroscopy of Calcium.
PB95-181244 03,969

Model Minimum Performance Specifications for Lidar Speed Measurement Devices.
PB95-197455 04,861

Lunar Laser Ranging: A Continuing Legacy of the Apollo Program.
PB95-202495 03,683

Improved Hyperfine Measurements of the Na NP Excited State Through Frequency-Controlled Dopplerless Spectroscopy in a Zeeman Magneto-Optic Laser Trap.
PB95-203840 04,012

Delivering the Same Optical Frequency at Two Places: Accurate Cancellation of Phase Noise Introduced by an Optical Fiber or Other Time-Varying Path.
PB96-102736 04,332

Phase Shifts and Intensity Dependence in Frequency-Modulation Spectroscopy.
PB96-103205 01,071

Glasses for Waveguide Lasers.
PB96-111950 04,335

Laser Gas Ionization Technique Monitors MEB Crystal Growth.
PB96-112172 01,076

Introduction to Phase-Stable Optical Sources.
PB96-122973 04,347

Frequency-Stabilized Lasers: A Driving Force for New Spectroscopies.
PB96-135199 04,350

Laser Modification of Ultracold Collisions: Experiment.
PB96-157987 04,075

Optical Density Measurements of Laser Eye Protection Materials.
PB96-190301 00,190

Laser Cooling and the Recoil Limit.
PB97-111280 04,391

Laser Bandwidth Effects in Quantitative Cavity Ring-Down Spectroscopy.
PB97-112254 04,394

LATE STARS

Volume-Limited ROSAT Survey of Extreme Ultraviolet Emission from all Nondegenerate Stars within 10 Parsecs.
PB96-103189 00,093

Sleuthing the Dynamo: HST/FOS Observations of UV Emissions of Solar-Type Stars in Young Clusters.
PB96-122817 00,098

High Velocity Plasm in the Transition Region of Au Mic: A Stellar Analog of Solar Explosive Events.
PB96-123294 00,102

LATHES

Effects of Spindle Dynamic Characteristics on Hard Turning.
PB96-122981 02,699

LATTICE MISMATCH

Influence of Lattice Mismatch on Indium Phosphide Based High Electron Mobility Transistor (HEMT) Structures Observed in High Resolution Monochromatic Synchrotron X-Radiation Diffraction Imaging.
PB95-164679 02,357

LATTICE MODELS

Lattice Model of a Hydrogen-Bonded Polymer Blend.
PB97-112262 03,391

LATTICE PARAMETERS

Precision Comparison of the Lattice Parameters of Silicon Monocrystals.
PB94-169745 04,438

Improved Crystallographic Data for Aluminum Niobate (AlNbO4).
PB95-107306 04,523

LATTICE SITES

Lattice Position of Si in GaAs Determined by X-Ray Standing Wave Measurements.
PB95-164406 04,632

LATTICE STRAIN

Accurate Modeling of Size and Strain Broadening in the Rietveld Refinement: The 'Double-Voigt' Approach.
PB96-200225 00,664

LATTICES

Interfacial Crack in a Two-Dimensional Hexagonal Lattice.
PB96-161989 04,100

Dislocation Core-Core Interaction and Peierls Stress in a Model Hexagonal Lattice.
PB96-162003 04,101

Photonic Band-Structure Effects for Low-Index-Contrast Two-Dimensional Lattices in the Near Infrared.
PB97-122469 04,401

LAW ENFORCEMENT

Face Recognition Technology for Law Enforcement Applications.
PB94-207768 01,837

Evaluating Investments in Law Enforcement Equipment: An Annotated Bibliography.
PB95-151379 04,867

Directory of Law Enforcement and Criminal Justice Associations and Research Centers.
PB96-178918 04,872

LAW FREQUENCIES

Low-Frequency Model for Radio-Frequency Absorbers.
PB95-261939 04,424

LAW (JURISPRUDENCE)

Federal Certification Authority Liability and Policy: Law and Policy of Certificate-Based Public Key and Digital Signatures.
PB94-191202 01,578

Uniform Laws and Regulations in the Areas of Legal Metrology and Motor Fuel Quality as Adopted by the 80th National Conference on Weights and Measures 1995. 1996 Edition.
PB96-172309 02,927

LAYER CONSTRICTION

X-ray Observation of Electroclinic Layer Constriction and Rearrangement in a Chiral Smectic-A Liquid Crystal.
PB96-141080 01,100

LAYERED COMPOUNDS

Maximum Entropy as a Tool for the Determination of the C-Axis Profile of Layered Compounds.
PB94-199619 00,800

LAYERS

Contact Electrification Induced by Monolayer Modification of a Surface and Relation to Acid-Base Interactions.
PB94-185378 03,034

Modified Surface Layers and Coatings.
PB95-176087 03,125

LEACHING

Modelling the Leaching of Calcium Hydroxide from Cement Paste: Effects on Pore Space Percolation and Diffusivity.
PB94-198793 01,311

Bioleaching of Cobalt from Smelter Wastes by 'Thiobacillus ferrooxidans'.
PB95-140968 02,582

Development of a Test Method for Leaching of Lead from Lead-Based Paints Through Encapsulants.
PB96-154984 03,128

LEAD ACETATE

Preparation and Monitoring of Lead Acetate Containing Drinking Water Solutions for Toxicity Studies.
PB94-193885 00,538

LEAD COATINGS

Development of a Test Method for Leaching of Lead from Lead-Based Paints Through Encapsulants.
PB96-154984 03,128

LEAD COMPOUNDS

Liquid Chromatography: Laser-Enhanced Ionization Spectrometry for the Speciation of Organolead Compounds.
PB94-185253 00,530

Electric Field Effects on Crack Growth in a Lead Magnesium Niobate.
PB95-107322 03,339

LEAD INORGANIC COMPOUNDS

Preparation and Monitoring of Lead Acetate Containing Drinking Water Solutions for Toxicity Studies.
PB94-193885 00,538

LEAD (METAL)

Lead Abatement in Buildings and Related Structures.
PB94-172038 03,601

Secondary Target X-Ray Excitation for In vivo Measurement of Lead in Bone.
PB95-108767 *03,496*

Spectral Interference in the Determination of Arsenic in High-Purity Lead and Lead-Base Alloys Using Electrothermal Atomic Absorption Spectrometry and Zeeman-Effect Background Correction.
PB96-112099 *00,614*

Application of a Novel Slurry Furnace AAS Protocol for Rapid Assessment of Lead Environmental Contamination.
PB96-112354 *02,526*

Development of a Test Method for Leaching of Lead from Lead-Based Paints Through Encapsulants.
PB96-154984 *03,128*

LEAD POISONING
Lead Abatement in Buildings and Related Structures.
PB94-172038 *03,601*

LEAD SALT DIODE LASERS
Optically Stabilized Tunable Diode-Laser System for Saturation Spectroscopy.
PB96-102819 *04,717*

LEAD STRONTIUM YTTRIUM CUPRATES
Crystal Structure of Pb2Sr2YCu3O8+delta with delta=1.32, 1.46, 1.61, 1.71, by Powder Neutron Diffraction.
PB94-216314 *04,518*

LEAD ZIRCONATE TITANATES
Microstructure and Ferroelectric Properties of Lead Zirconate-Titanate Films Produced by Laser Evaporation.
PB94-199148 *04,470*

LEAK DETECTORS
Experimental Data and Theoretical Modeling of Gas Flows Through Metal Capillary Leaks.
PB95-150892 *04,206*

LEAKAGE CURRENT
Leakage Current Detection in Cryogenic Current Comparator Bridges.
PB94-172228 *02,024*

LEAST SQUARE FIT
Bounds on Least-Squares Four-Parameter Sine-Fit Errors Due to Harmonic Distortion and Noise.
PB96-141304 *01,609*

LEDGES
Dislocation Emission at Ledges on Cracks.
PB95-164240 *04,630*

LEGALITY
Guidance of the Legality of Keystroke Monitoring.
PB96-161237 *00,005*

LENGTH
Uncertainties in Dimensional Measurements Made at Nonstandard Temperatures.
PB94-169760 *02,893*

Metrology Model for Submicrometer Dimensional Measurements.
PB95-108502 *02,647*

Evolution of Automatic Line Scale Measurement at the National Institute of Standards and Technology.
PB95-108809 *02,897*

Alternative Contour Technique for the Efficient Computation of the Effective Length of an Antenna.
PB96-141361 *02,011*

LENNARD-JONES POTENTIAL
Long-Lived Structures in Fragile Glass-Forming Liquids.
PB96-119565 *04,212*

LENSES
Planar Lenses for Field-Emitter Arrays.
PB96-103064 *02,112*

LEUKOCYTES
Modification of DNA Bases in Chromatin of Intact Target Human Cells by Activated Human Polymorphonuclear Leukocytes.
PB94-199833 *03,526*

LEUNG-GRIFFITHS MODEL
Calculation of Enthalpy and Entropy Differences of Near-Critical Binary Mixtures with the Modified Leung-Griffiths Model.
PB95-108635 *00,885*

LEUNG-GRIFFITHS THEORY
Vapor-Liquid Equilibria of Mixtures of Propane and Isomeric Hexanes.
PB95-175287 *00,995*

Critical Properties and Vapor-Liquid Equilibria of the Binary System Propane + Neopentane.
PB95-175683 *00,999*

LIBRARIES
National Center for Standards and Certification Information: Service and Programs.
N95-15938/0 *02,717*

Field Measurements of Ventilation and Ventilation Effectiveness in an Office/Library Building.
PB95-108833 *00,247*

LIBRATIONAL MOTION
Intermolecular HF Motion in Ar(sub n)HF Micromatrices (n=1,2,3,4,): Classical and Quantum Calculations on a Pairwise Additive Potential Surface.
PB95-107025 *03,871*

LIDAR (LIGHT DETECTION AND RANGING)
Model Minimum Performance Specifications for Lidar Speed Measurement Devices.
PB95-197455 *04,861*

LIFE APPARATUS
Flammability Characterization with the Lift Apparatus and the Cone Calorimeter.
PB97-110050 *01,435*

LIFE CYCLE ANALYSIS
ISO Environmental Management Standardization Efforts.
PB95-220513 *02,524*

ISO Environmental Management Standardization Efforts.
PB96-158662 *02,528*

LIFE CYCLE COSTS
Energy Prices and Discount Factors for Life-Cycle Cost Analysis 1994. Annual Supplement to NIST Handbook 135 and NBS Special Publication 709.
PB94-206018 *02,508*

Energy Price Indices and Discount Factors for Life-Cycle Cost Analysis 1995. Annual Supplement to NIST Handbook 135 and NBS Special Publication 709. (Revised).
PB95-105011 *02,509*

Present Worth Factors for Life-Cycle Cost Studies in the Department of Defense (1995).
PB95-105029 *03,664*

Life-Cycle Costing Workshop for Energy Conservation in Buildings: Student Manual.
PB95-175006 *00,257*

BLCC: The NIST 'Building Life-Cycle Cost' Program, Version 4.21. User's Guide and Reference Manual.
PB95-190682 *00,263*

Building Life Cycle Cost Computer Program (BLCC), Version 4.2-95 (for Microcomputers).
PB95-501953 *00,266*

Building Life Cycle Cost Computer Program (BLCC) Version 4.21-95 (for Microcomputers).
PB95-502779 *00,267*

Building Life Cycle Cost Computer Program (BLCC) Version 4.22-95 (for Microcomputers).
PB95-503397 *00,268*

Present Worth Factors for Life-Cycle Cost Studies in the Department of Defense (1996).
PB96-106869 *03,673*

Economic Methods and Risk Analysis Techniques for Evaluating Building Investments: A Survey.
PB96-122593 *00,323*

Multiattribute Decision Analysis Method for Evaluating Buildings and Building Systems.
PB96-158670 *00,325*

Energy Price Indices and Discount Factors for Life-Cycle Cost Analysis 1996. Annual Supplement to NIST Handbook 135 and NBS Special Publication 709. (Revised).
PB96-162441 *02,510*

Life-Cycle Costing Manual for the Federal Energy Management Program. 1995 Edition.
PB96-172317 *02,511*

Energy Price Indices and Discount Factors for Life-Cycle Cost Analysis 1997. Annual Supplement to NIST Handbook 135 and NBS Special Publication 709. (Revised).
PB96-210745 *02,512*

Building Life Cycle Cost Computer Program (BLCC) Version 4.22-95 (for Micrcomputers).
PB96-502794 *00,277*

Building Life Cycle Cost Computer Program (BLCC) Version 4.4-97 (for Microcomputers).
PB97-500342 *00,284*

LIFE (DURABILITY)
Research on Methods for Determining Optical Disk Media Life Expectancy Estimates.
PB96-160304 *01,633*

LIFE TESTS
Methodologies for Predicting the Service Lives of Coating Systems.
PB95-146387 *03,124*

LIFELINE SYSTEMS
Ground Improvement Techniques for Liquefaction Remediation Near Existing Lifelines.
PB96-128111 *01,350*

LIFELINES
Proceedings of a Workshop on Developing and Adopting Seismic Design and Construction Standards for Lifelines. Held in Denver, Colorado on September 25-27, 1991.
PB97-115794 *01,302*

LIFETIMES
Measurement of the Atomic Na(3P) Lifetime and of Retardation in the Interaction between Two Atoms Bound in a Molecule.
PB97-122360 *04,178*

LIFT
Experimental Study of the Stabilization Region of Lifted Turbulent-Jet Diffusion Flames.
PB96-122676 *01,405*

LIGAND CONTACTS
Escherichis coli Cyclic AMP Receptor Protein Mutants Provide Evidence for Ligand Contacts Important in Activation.
PB96-201017 *03,592*

LIGAND ENVIRONMENT
Isolated Spin Pairs and Two-Dimensional Magnetism in SrCr(sub 9p)Ga(sub 12-9p)O19.
PB97-112387 *04,154*

LIGANDS
Affinity Chromatography on Inorganic Support Materials.
PB95-163820 *03,467*

LIGASES
Thermodynamics of Enzyme-Catalyzed Reactions. Part 5. Isomerases and Ligases.
PB96-145974 *01,121*

LIGHT AMPLIFIERS
Direct Dispersion Measurement of Highly-Erbium-Doped Optical Amplifiers Using a Low Coherence Reflectometer Coupled with Dispersive Fourier Spectroscopy.
PB95-150702 *04,263*

Millimeter-Resolution Optical Time-Domain Reflectometry Using a Four-Wave Mixing Sampling Gate.
PB96-122700 *02,190*

LIGHT REFRACTION
Refraction of Light by Graded Birefringent Media.
PB96-123716 *02,192*

LIGHT SCATTERING
Two Numerical Techniques for Light Scattering by Dielectric Agglomerated Structures.
PB94-140597 *04,225*

Brillouin Light Scattering Intensities for Thin Magnetic Films with Large Perpendicular Anisotropies.
PB94-211174 *04,488*

Light Scattering from Glossy Coatings on Paper.
PB94-213246 *04,242*

Determination of Surface Roughness from Scattered Light.
PB94-216520 *04,243*

Autocorrelation Functions from Optical Scattering for One-Dimensionally Rough Surfaces.
PB94-216538 *04,244*

Light Scattered by Coated Paper.
PB94-216546 *04,245*

SANS and LS Studies of Polymer Mixtures Under Shear Flow.
PB95-107090 *01,231*

Radiometric Model of the Transmission Cell-Reciprocal Nephelometer.
PB95-150132 *00,124*

Regimes of Surface Roughness Measurable with Light Scattering.
PB95-151213 *04,265*

Method for the Assay of Hydrolytic Enzymes Using Dynamic Light Scattering.
PB95-151411 *03,531*

Dynamic Light-Scattering Study of a Diluted Polymer Blend Near Its Critical Point.
PB95-151890 *01,245*

Light Scattered from Two Atoms.
PB95-168753 *04,286*

Rayleigh Scattering Limits for Low-Level Bidirectional Reflectance Distribution Function Measurements.
PB95-180030 *04,307*

Standard Reference Material for the Measurement of Particle Mobility by Electrophoretic Light Scattering.
PB96-102488 *00,609*

Physicochemical Characterization of Low Molecular Weight Heparin.
PB96-112040 *03,474*

Physical Characterization of Herparin by Light Scattering.
PB96-119383 *03,598*

Zimm Plot and Its Analogs as Indicators of Vesicle and Micelle Size Polydispersity.
PB96-123765 *01,094*

Dependence of Contrast on Probe/Sample Spacing with the Magneto-Optic Kerr-Effect Scanning Near-Field Optical Microscope (MOKE-SNOM).
PB96-138557 *04,750*

Elastic Scattering from Spheres under Non Plane-Wave Illumination.
PB96-163688 *04,370*

Model of an Optical Roughness-Measuring Instrument.
PB97-110209 *04,384*

Light Scattering by Sinusoidal Surfaces: Illumination Windows and Harmonics in Standards.
PB97-110548 *04,387*

Windowing Effects on Light Scattering by Sinusoidal Surfaces.
PB97-111215 *04,389*

Forward Scattering of a Gaussian Beam by a Nonabsorbing Sphere.
PB97-112288 *04,395*

LIGHT SOURCES
Lighting Quality and Light Source Size.
PB95-151783 *00,252*

LIGHTING EQUIPMENT
Psychological Aspects of Lighting: A Review of the Work of CIE TC 3.16.
PB95-153276 *00,254*

Laboratory Accreditation for Testing Energy Efficient Lighting.
PB96-122932 *00,270*

State of the Art Report on Seismic Design Requirements for Nonstructural Building Components.
PB96-193800 *00,308*

LIGHTING SYSTEMS
Computer Programs for Simulation of Lighting/HVAC Interactions.
PB94-140407 *02,501*

Psychological Aspects of Lighting: A Review of the Work of CIE TC 3.16.
PB94-172160 00,241

Papers Presentations Shine.
PB94-200383 00,244

Lighting and HVAC.
PB95-150991 00,250

NIST Lighting and HVAC Interaction Test Facility.
PB95-151007 00,251

Lighting Research and Theory Can Create Business Prospects.
PB95-151791 00,253

LIGHTWEIGHT CONCRETES
Testing of Selected Self-Leveling Compounds for Floors.
PB95-220455 00,395

LINE BROADENING
Profile Fitting of X-Ray Diffraction Lines and Fourier Analysis of Broadening.
PB94-198512 04,460

Ion Broadening Parameters for Several Argon and Carbon Lines.
PB94-211562 03,843

Astrophysical Aspects of Neutral Atom Line Broadening.
PB94-213287 00,061

LINE-FOCUS TRANSDUCER
Transient Analysis of a Line-Focus Transducer Probing a Liquid/Solid Interface.
PB97-118681 02,763

Material Characterization By a Time-Resolved and Polarization-Sensitive Ultrasonic Technique.
PB97-122576 02,764

LINE-FOCUS TRANSDUCERS
Design, Construction and Application of a Large Aperture Lens-Less Line-Focus PVDF Transducer.
PB97-122584 02,765

LINE HEAT SOURCES
Intra-Laboratory Comparison of a Line-Heat-Source Guarded Hot Plate and Heat-Flow-Meter Apparatus.
PB95-181202 00,387

Line-Heat-Source Guarded-Hot-Plate Apparatus.
PB97-118996 00,417

LINE NARROWING
Linewidth Narrowing in an Imbalanced Y-Branch Waveguide Laser.
PB95-140844 04,258

LINE OF SIGHT
Deuterium and the Local Interstellar Medium: Properties for the Procyon and Capella Lines of Sight.
PB96-200639 00,111

LINE REFLECT MATCH CALIBRATIONS
Line-Reflect-Match Calibrations with Nonideal Microstrip Standards.
PB96-176599 02,242

LINE SHAPE
Experimental Studies of Line Shapes from a Balle-Flygare Spectrometer.
PB94-199452 00,796

LINE SPECTRA
Improved Wavelengths for Prominent Lines of Fe XX to Fe XXIII.
PB96-111638 04,334

LINE WIDTH
Practical Photomask Linewidth Measurements.
PB95-108510 02,324

User's Manual for the Program MONSEL-1: Monte Carlo Simulation of SEM Signals for Linewidth Metrology.
PB95-111522 02,325

Linewidth Narrowing in an Imbalanced Y-Branch Waveguide Laser.
PB95-140844 04,258

Monte Carlo Model for SEM Linewidth Metrology.
PB95-150058 02,331

Comparisons of Measured Linewidths of Sub-Micrometer Lines Using Optical, Electrical, and SEM Metrologies.
PB95-152807 02,338

X-ray Mask Metrology: The Development of Linewidth Standards for X-ray Lithography.
PB95-162129 02,348

Microelectronic Test Structures for Feature Placement and Electrical Linewidth Metrology.
PB95-180568 02,367

Improving Photomask Linewidth Measurement Accuracy via Emulated Stepper Aerial Image Measurement.
PB95-180816 02,911

MONSEL-II: Monte Carlo Simulation of SEM Signals for Linewidth Metrology.
PB96-102710 02,379

Use of Monte Carlo Modeling for Interpreting Scanning Electron Microscope Linewidth Measurements.
PB96-137807 02,413

LINEAR ACCELERATOR SCATTER
Scattered Fractions of Dose from 18 and 25 MV X-ray Radiotherapy Linear Accelerators.
PB96-186101 04,120

LINEAR ALGEBRA
Basic Linear Algebra Operations in SLI Arithmetic.
PB96-165931 03,421

LINEAR PROGRAMMING
Algorithmic Enhancements to the Method of Centers for Linear Programming Problems.
PB94-198959 03,426

LINEAR REGRESSION
Constant-Width Calibration Intervals for Linear Regression.
PB95-153524 03,439

LINEAR SYSTEMS
Characterization of Unknown Linear Systems Based on Measured CW Amplitude.
PB95-161485 01,897

SparseLib++ v. 1.5 Sparse Matrix Class Library. Reference Guide.
PB96-193636 01,775

LINEARITY
Beamcon III, a Linearity Measurement Instrument for Optical Detectors.
PB96-113576 04,337

LINKAGES
Standards and Linkages: What Data Sharing Needs.
PB95-161881 01,713

LIPID BILAYERS
Self-Assembled Phospholipid/Alkanethiol Biomimetic Bilayers on Gold.
PB95-108460 00,878

Supported Phospholipid/Alkanthiol Biomimetic Membranes: Insulating Properties.
PB95-180782 03,470

Phospholipid/Alkanethiol Bilayers for Cell-Surface Receptor Studies by Surface Plasmon Resonance.
PB96-102900 03,472

LIPIDS
Biological Thermodynamic Data for the Calibration of Differential Scanning Calorimeters: Dynamic Temperature Data on the Gel to Liquid Crystal Phase Transition of Dialkylphosphatidylcholine in Water Suspensions.
PB95-162707 03,464

Extending the Angular Range of Neutron Reflectivity Measurements from Planar Lipid Bilayers: Applications to a Model Biological Membrane.
PB96-122569 03,476

LIPOSOMES
Calcium Phosphate Precipitation in Liposomal Suspensions.
PB94-172145 03,452

Mixed Phospholipid Liposome Calcification.
PB94-211190 03,457

Proteoglycan Inhibition of Calcium Phosphate Precipitation in Liposomal Suspensions.
PB94-211208 00,658

Liposome-Based Flow-Injection Immunoassay for Determining Theophylline in Serum.
PB94-213493 03,494

Potentiometric Enzyme-Amplified Flow Injection Analysis Detection System: Behavior of Free and Liposome-Released Peroxidase.
PB95-151833 03,534

Membrane-Mediated Precipitation of Calcium Phosphate in Model Liposomes with Matrix Vesicle-Like Lipid Composition.
PB95-164547 03,468

Effect of 1-Hydroxyethylidene-1,1-Bisphosphonate on Membrane-Mediated Calcium Phosphate Formation in Model Liposomal Suspensions.
PB95-169223 03,469

Zimm Plot and Its Analogs as Indicators of Vesicle and Micelle Size Polydispersity.
PB96-123765 01,094

LIQUEFACTION
Helium Refrigeration and Liquefaction Using a Liquid Hydrogen Refrigerator for Precooling.
AD-A286 683/8 02,749

Ground Improvement Techniques for Liquefaction Remediation Near Existing Lifelines.
PB96-128111 01,350

Energy-Based Method for Liquefaction Potential Evaluation. Phase 1. Feasibility Study.
PB96-214747 03,691

LIQUID ALLOYS
Dynamic Measurements of Thermophysical Properties of Metals and Alloys at High Temperatures by Subsecond Pulse Heating Techniques.
N94-25124/6 03,309

LIQUID CHROMATOGRAPHY
Liquid Chromatography: Laser-Enhanced Ionization Spectrometry for the Speciation of Organolead Compounds.
PB94-185253 00,530

Liquid Chromatographic Method for the Determination of Carotenoids, Retinoids, and Tocopherols in Human Serum and in Food.
PB95-153599 00,593

Shape Selectivity in Reversed-Phase Liquid Chromatography for the Separation of Planar and Non-Planar Solutes.
PB95-162608 00,596

Influence of Stationary Phase Chemistry on Shape Recognition in Liquid Chromatography.
PB96-123682 00,621

LIQUID CIRCULATION
Internal Droplet Circulation Induced by Surface-Driven Rotation.
PB97-119267 02,500

LIQUID COLUMN CHROMATOGRAPHY
Device for Subambient Temperature Control in Liquid Chromatography.
PB95-140604 00,573

Comparison of the Liquid Chromatographic Behavior of Selected Steroid Isomers Using Different Reversed-Phase Materials and Mobile Phase Compositions.
PB95-140976 00,574

Determination of Polycyclic Aromatic Hydrocarbons by Liquid Chromatography.
PB95-151650 00,585

Shape Selectivity in Reversed-Phase Liquid Chromatography for the Separation of Planar and Non-Planar Solutes.
PB95-162608 00,596

Liquid Chromatographic Determination of Polycyclic Aromatic Hydrocarbon Isomers of Molecular Weight 278 and 302 in Environmental Standard Reference Materials.
PB95-164042 02,523

LIQUID COMPOSITE MOLDING
Report on the Workshop on Manufacturing Polymer Composites by Liquid Molding. Held in Gaithersburg, Maryland on September 20-22, 1993.
PB94-160066 03,131

LIQUID CRYSTALLINE POLYMERS
Phase Behavior of a Hydrogen Bonding Molecular Composite.
PB94-185188 01,202

Neutron Scattering Study of the Orientation of a Liquid Crystalline Polymer by Shear Flow.
PB95-180196 01,270

LIQUID CRYSTALS
Polymer Liquid Crystalline Materials.
PB94-212339 01,224

Novel Polydiacetylenes Derived from Liquid Crystalline Monomers.
PB95-140125 01,235

Studies of the Higher Order Smectic Phase of the Large Electroclinic Effect Material W317.
PB95-151601 00,935

Dielectric Spectroscopic Determination of Temperature Behavior of Electroclinic Parameters in the Liquid Crystal W317.
PB96-140397 01,098

X-ray Observation of Electroclinic Layer Constriction and Rearrangement in a Chiral Smectic-A Liquid Crystal.
PB96-141080 01,100

LIQUID DENSITIES
Compressed Liquid Densities, Saturated Liquid Densities, and Vapor Pressures of 1,1-Difluoroethane.
PB97-110118 01,173

LIQUID FUELS
Development of Measurement Capabilities for the Thermophysical Properties of Energy-Related Fluids. Annual Report, December 1, 1990--November 30, 1991.
DE94004399 02,470

Combustion of a Polymer (PMMA) Sphere in Microgravity.
N96-15569/2 01,354

LIQUID HYDROGEN
Cryogenic Research and Development (Quarterly Report Number 2 for Period Ending December 31, 1960).
AD-A280 398/9 01,454

Cryogenic Research and Development (Progress Report Number 4 for Period Ending December 31, 1961).
AD-A280 399/7 01,455

Progress Report to National Aeronautics and Space Administration on Cryogenic Research and Development.
AD-A286 612/7 01,458

Design and Construction of a Liquid Hydrogen Temperature Refrigeration System.
AD-A286 618/4 02,619

Helium Refrigeration and Liquefaction Using a Liquid Hydrogen Refrigerator for Precooling.
AD-A286 683/8 02,749

Liquid-Hydrogen Cold Neutron Source for the NBSR.
PB95-151619 03,729

Nuclear Heat Load Calculations for the NBSR Cold Neutron Source Using MCNP.
PB95-152955 03,730

LIQUID-IN-GLASS THERMOMETERS
Assessment of Uncertainties of Liquid-in-Glass Thermometer Calibrations at the National Institute of Standards and Technology.
PB94-142510 02,625

LIQUID METALS
Dynamic Measurements of Thermophysical Properties of Metals and Alloys at High Temperatures by Subsecond Pulse Heating Techniques.
N94-25124/6 03,309

Development in the Theory and Analysis of Eddy Current Sensing of Velocity in Liquid Metals.
PB94-212586 03,335

LIQUID OXYGEN
Vortex Shedding Flowmeters for SSME Ducts.
PB95-169215 01,453

Wear Mechanism Maps of 440C Martensitic Stainless Steel.
PB96-111810 *04,834*

LIQUID PHASE EPITAXY
RII Spectroscopy of Trap Levels in Bulk and LPE Hg1-xCdxTe.
PB96-160247 *04,084*

LIQUID PHASES
New Data and Correlations for the Custody Transfer of Natural Gas Liquids.
PB96-176664 *02,499*

LIQUID-SOLID INTERFACE
Effects of Elastic Stress on the Stability of a Solid-Liquid Interface.
PB95-163028 *03,350*

LIQUID-SOLID INTERFACES
Boundary Conforming Grid Generation System for Interface Tracking.
PB94-158268 *03,312*

Scanning Tunneling Microscopy and Fabrication of Nanometer Scale Structures at the Liquid-Gold Interface.
PB95-140414 *00,904*

Ultrasonic Method for Reconstructing the Two-Dimensional Liquid-Solid Interface in Solidifying Bodies.
PB95-161782 *03,349*

Boundary Conforming Grid Generation System for Interface Tracking.
PB96-103007 *03,357*

LIQUID-VAPOR EQUILIBRIUM
Modified Leung-Griffiths Model of Vapor-Liquid Equilibrium: Extended Scaling and Binary Mixtures of Dissimilar Fluids.
PB94-216108 *00,851*

Calculation of Enthalpy and Entropy Differences of Near-Critical Binary Mixtures with the Modified Leung-Griffiths Model.
PB95-108635 *00,885*

Vapor-Liquid Equilibria of Mixtures of Propane and Isomeric Hexanes.
PB95-175287 *00,995*

Critical Properties and Vapor-Liquid Equilibria of the Binary System Propane + Neopentane.
PB95-175683 *00,999*

LIQUID-VAPOR INTERFACES
Structure of the Vapor-Liquid Interface Near the Critical Point.
PB95-140174 *00,902*

Thermal Equilibration Near the Critical Point: Effects Due to Three Dimensions and Gravity.
PB95-152922 *03,919*

LIQUIDS
Density of Solids and Liquids.
AD-A278 517/8 *00,711*

Table of Dielectric Constants of Pure Liquids.
AD-A278 956/8 *00,712*

Near Critical Fluid Interfaces: A Comparison of Theory and Experiment.
PB95-140166 *00,901*

Length Scales for Fragile Glass-Forming Liquids.
PB96-102801 *01,065*

Intrinsic Viscosity and the Polarizability of Particles Having a Wide Range of Shapes.
PB96-119318 *03,170*

Long-Lived Structures in Fragile Glass-Forming Liquids.
PB96-119565 *04,212*

Simulation Studies of Supercooled and Glass Forming Liquids.
PB96-122627 *01,085*

LIQUIFIED AIR
Speed-of-Sound Measurements in Liquid and Gaseous Air.
PB95-151957 *04,186*

LITERATURE SURVEYS
Guide to Instrumentation Literature.
AD-A280 278/3 *02,617*

Irradiation Damage in Inorganic Insulation Materials for ITER Magnets: A Review.
PB95-147351 *03,705*

Robotics Application to Highway Transportation. Volume 2. Literature Search.
PB95-170551 *01,337*

Literature Review on Seismic Performance of Building Cladding Systems.
PB96-106901 *00,455*

LITHIUM
Angular Distributions for Near-Threshold (e,2e) Processes for Li and Mg.
PB94-185725 *00,778*

Regulation of Lithium and Boron Levels in Normal Human Blood: Environmental and Genetic Considerations.
PB94-198579 *03,491*

Determination of Boron and Lithium in Diverse Biological Matrices Using Neutron Activation - Mass Spectrometry (NA-MS).
PB94-212289 *00,554*

LITHIUM 6
Preparation and Characterization of (6)LiF and (10)B Reference Deposits for the Measurement of the Neutron Lifetime.
PB95-108692 *03,874*

LITHIUM ALLOYS
Recommended Changes in ASTM Test Methods D2512-82 and G86-84 for Oxygen-Compatibility Mechanical Impact Tests on Metals.
PB94-216694 *03,338*

Macro- and Microreactions in Mechanical-Impact Tests of Aluminum Alloys.
PB95-107348 *03,340*

Influence of Specimen Absorbed Energy in LOX Mechanical-Impact Tests.
PB95-107355 *03,341*

LITHIUM DEUTERIDES
FTS Infrared Measurements of the Rotational and Vibrational Spectrum of LiH and LiD.
PB94-216231 *00,856*

LITHIUM FLUORIDE
Colour Centres in LiF for Measurement of Absorbed Doses Up to 100 MGy.
PB97-118756 *04,169*

LITHIUM FLUORIDES
Preparation and Characterization of (6)LiF and (10)B Reference Deposits for the Measurement of the Neutron Lifetime.
PB95-108692 *03,874*

LITHIUM HYDRIDES
FTS Infrared Measurements of the Rotational and Vibrational Spectrum of LiH and LiD.
PB94-216231 *00,856*

LITHIUM-LIKE IONS
Laser-Produced and Tokamak Spectra of Lithiumlike Iron, Fe(23+).
PB95-180857 *04,314*

LITHOGRAPHY
Test Structures for the In-Plane Locations of Projected Features with Nanometer-Level Accuracy Traceable to a Coordinate Measurement System.
PB94-200565 *02,313*

Practical Photomask Linewidth Measurements.
PB95-108510 *02,324*

X-ray Mask Metrology: The Development of Linewidth Standards for X-ray Lithography.
PB95-162129 *02,348*

New Test Structure for Nanometer-Level Overlay and Feature-Placement Metrology.
PB95-175345 *02,363*

Microelectronic Test Structures for Feature Placement and Electrical Linewidth Metrology.
PB95-180568 *02,367*

Nanofabrication of a Two-Dimensional Array Using Laser-Focused Atomic Deposition.
PB96-119417 *04,732*

Use of Monte Carlo Modeling for Interpreting Scanning Electron Microscope Linewidth Measurements.
PB96-137807 *02,413*

Atom-Optical Properties of a Standing-Wave Light Field.
PB96-141072 *04,356*

New NIST/ARPA National Soft X-ray Reflectometry Facility.
PB96-158092 *04,080*

Improved Reflectometry Facility at the National Institute of Standards and Technology.
PB96-160338 *04,087*

NIST Metrology for Soft X-ray Multilayer Optics.
PB96-160379 *04,088*

Microlithography by Using Neutral Metastable Atoms and Self-Assembled Monolayers.
PB96-190038 *02,441*

LITHOGRAPHY MASKS
SEM Linewidth Metrology of X-ray Lithography Masks.
PB96-201108 *02,447*

LITIGATION
Using a Multi-Layered Approach to Representing Tort Law Cases for Case-Based Reasoning.
PB96-160874 *00,135*

LIVER
Nickel(II)-Mediated Oxidative DNA Base Damage in Renal and Hepatic Chromatin of Pregnant Rats and Their Fetuses. Possible Relevance to Carcinogenesis.
PB94-212628 *03,646*

Oxidative DNA Base Damage in Renal, Hepatic, and Pulmonary Chromatin of Rats After Intraperitoneal Injection of Cobalt (II) Acetate.
PB95-150025 *03,647*

DNA Base Damage Generated In vivo in Hepatic Chromatin of Mice upon Whole Body y-Irradiation.
PB95-161741 *03,627*

LIVERMORE LOOPS
Technique to Evaluate Benchmarks: A Case Study Using the Livermore Loops.
PB95-151320 *04,577*

LMR (LASER MAGNETIC RESONANCE)
Determination of the Molecular Parameters of NiH in Its (2)Delta Ground State by Laser Magnetic Resonance.
PB95-107116 *00,869*

LOADING RATE
Loading Device for Fracture Testing of Compact Tension Specimens in the Scanning Electron Microscope.
PB95-162434 *02,652*

LOCAL AREA NETWORKS
Guideline for the Analysis of Local Area Network Security. Category: Computer Security; Subcategory: Risk Analysis and Contingency Planning.
FIPS PUB 191 *01,799*

Planning for the Fiber Distributed Data Interface (FDDI).
PB94-135761 *01,621*

Local Area Networks in NAA: Advantages and Pitfalls.
PB94-172095 *00,527*

ISDN LAN Bridging.
PB95-154696 *01,477*

LOCAL OSCILLATORS
Ultra-High Stability Synthesizer for Diode Laser Pumped Rubidium.
PB94-216066 *01,527*

LOCALIZATION MODEL
Effect of Swelling on the Elasticity of Rubber: Localization Model Description.
PB94-211034 *01,216*

LOGIC DEVICES
Experimental Results on Single Flux Quantum Logic.
PB95-175071 *02,053*

LOGIC PROGRAMMING
Representing Designs with Logic Formulations of Spatial Relations.
PB97-111561 *02,792*

LOGISTICS MANAGEMENT
CALS-Department of Defense Computer Aided Acquisition Logistic Support (CALS).
PB94-962500 *03,662*

CALS-Department of Defense Computer Aided Acquisition Logistic Support (CALS).
PB95-962500 *03,671*

Federal Implementation Guideline for Electronic Data Interchange: ASC X12 003040 Transaction Set 838 Trading Partner Profile (Confirmation of Vendor Registration). Implementation Convention.
PB96-111190 *01,813*

LOMA PRIETA EARTHQUAKE
Assessment of Site Response Analysis Procedures.
PB95-210928 *00,450*

LORAN C
Using LORAN-C Broadcasts for Automated Frequency Calibrations.
PB94-216017 *01,526*

LOSS FREE COUNTING
Loss-Free Counting at IRI and NIST.
PB96-167119 *04,105*

LOSSY MEDIA
Aperture Excitation of Electrically Large, Lossy Cavities.
PB95-175675 *00,031*

LOW ALLOY STEELS
Characterization of the Hydrogen Induced Cold Cracking Susceptibility at Simulated Weld Zones in HSLA-100 Steel.
AD-A279 759/5 *03,200*

Apparent Bias in the X-Ray Fluorescence Determination of Titanium in Selected NIST SRM Low Alloy Steels.
PB95-108759 *03,212*

LOW FLOW PLUMBING FIXTURES
Water Efficient Plumbing Fixtures through Standards and Test Methods.
PB95-125951 *00,248*

LOW FREQUENCY
Noise Reduction in Low-Frequency SQUID Measurements with Laser-Driven Switching.
PB96-135165 *02,081*

Exploring the Low-Frequency Performance of Thermal Converters Using Circuit Models and a Digitally Synthesized Source.
PB97-112551 *02,848*

LOW FREQUENCY NOISE
Noise Characteristics Below 1 Hz of Zener Diode-Based Voltage Reference.
PB96-123476 *04,049*

LOW FREQUENCY VIBRATIONS
Measurement of Very Low Frequency Vibrations.
PB96-102660 *03,687*

LOW INDEX CONTRAST
Photonic Band-Structure Effects for Low-Index-Contrast Two-Dimensional Lattices in the Near Infrared.
PB97-122469 *04,401*

LOW-LEVEL RADIOACTIVE WASTES
Expansion of Cementitious Materials Exposed to Sulfate Solutions.
PB94-185782 *02,577*

Membrane Gas Separation for a Fluidized-Bed Incinerator.
PB95-169041 *02,550*

Prediction of Cracking in Reinforced Concrete Structures.
PB95-220448 *03,725*

4SIGHT Manual: A Computer Program for Modelling Degradation of Underground Low Level Waste Concrete Vaults.
PB95-231593 *03,726*

Long-Term Performance of Engineered Concrete Barriers.
PB95-260816 *03,727*

LOW-LOSS CAPACITORS
Capacitors with Very Low Loss: Cryogenic Vacuum-Gap Capacitors.
PB97-122600 *02,293*

LOW TEMPERATURE
Thermal Conductivity of Metals and Alloys at Low Temperatures. A Review of the Literature.
AD-A279 180/4 *03,302*

Design and Construction of a Liquid Hydrogen Temperature Refrigeration System.
AD-A286 618/4 *02,619*

Survey of the Literature on Heat Transfer from Solid Surfaces to Cryogenic Fluids.
AD-A286 680/4 *04,193*

LOW TEMPERATURE CELL
Simple and Efficient Low-Temperature Sample Cell for Infrared Spectrophotometry.
PB94-199197 *00,545*

LOW TEMPERATURE SCIENCE & ENGINEERING
Cryogenic Materials Data Handbook.
AD-A286 675/4 *03,303*

Helium Refrigeration and Liquefaction Using a Liquid Hydrogen Refrigerator for Precooling.
AD-A286 683/8 *02,749*

Cryogenic Blackbody Calibrations at the National Institute of Standards and Technology Low Background Infrared Calibration Facility.
PB94-169802 *02,117*

Effects of Critical Current Density, Equilibrium Magnetization and Surface Barrier on Magnetization of High Temperature Superconductors.
PB94-185162 *04,446*

Surface Barrier and Lower Critical Field in YBa2Cu3O7-delta Superconductors.
PB94-200128 *04,478*

High-Frequency Linear Response of Anisotropic Type-II Superconductors in the Mixed State.
PB94-200359 *04,483*

Nonlinear Response of Type-II Superconductors in the Mixed State in Slab Geometry.
PB94-200367 *04,484*

Cryogenic Properties of Silver.
PB94-203593 *03,330*

Critical Magnetic-Field Angle for High-Field Current Transport in YBa2Cu3O7 at 76 K.
PB94-211281 *04,490*

Superconducting Materials: Specification.
PB94-211299 *04,491*

Effect of Axial Strain on the Critical Current of Ag-Sheathed Bi-Based Superconductors in Magnetic Fields Up to 25 T.
PB94-211315 *04,493*

In situ Noble Metal YBa2Cu3O7 Thin-Film Contacts.
PB94-211323 *04,494*

YBa2Cu3O7-x to Si Interconnection for Hybrid Superconductor/Semiconductor Integration.
PB94-211711 *02,315*

Flux Expulsion at Intermediate Fields in Type-II Superconductors.
PB94-212230 *04,502*

Proposed High-Accuracy Superconducting Power Meter for Millimeter Waves.
PB94-212669 *02,034*

Effect of Thermal Noise on Shapiro Steps in High-Tc Josephson Weak Links.
PB94-212677 *04,506*

Self-Heating in the Coulomb-Blockade Electrometer.
PB94-212685 *04,507*

Cryogenic Precision Capacitance Bridge Using a Single Electron Tunneling Electrometer.
PB95-126074 *04,529*

Magnetic Measurement of Transport Critical Current Density of Granular Superconductors.
PB95-126199 *04,531*

n-Value and Second Derivative of the Superconductor Voltage-Current Characteristic.
PB95-126223 *04,533*

Thermally Activated Hopping of a Single Abrikosov Vortex.
PB95-140810 *04,548*

Micromagnetic Simulations of Tunneling Stabilized Magnetic Force Microscopy.
PB95-141073 *04,552*

Experimental Verification of a Micromagnetic Model of Dual-Layer Magnetic Films.
PB95-141081 *04,553*

Insulating Nanoparticles on YBa2Cu3O7-delta Thin Films Revealed by Comparison of Atomic Force and Scanning Tunneling Microscopy.
PB95-150843 *04,575*

Effects of Critical Current Density, Equilibrium Magnetization and Surface Barrier on Magnetization of High Temperature Superconductors.
PB95-153060 *04,588*

Even-Odd Asymmetry of a Superconductor Revealed by the Coulomb Blockade of Andreev Reflection.
PB95-153540 *04,593*

Preparation of Low Resistivity Contacts for High-Tc Superconductors.
PB95-153557 *02,258*

Improved Uniaxial Strain Tolerance of the Critical Current Measured in Ag-Sheathed Bi2Sr2Ca1Cu2O8+x Superconductors.
PB95-153565 *04,594*

Volume Magnetic Hysteresis Loss of Nb3Sn Superconductors as a Function of Wire Length.
PB95-153722 *04,597*

Tunneling Spectroscopy of Thallium-Based High-Temperature Superconductors.
PB95-161709 *04,606*

Magnetic Force Microscopy of Flux in Superconductors.
PB95-161733 *04,608*

Growth of Laser Ablated YBa2Cu3O7-delta Films as Examined by Rheed and Scanning Tunneling Microscopy.
PB95-162541 *04,614*

Critical Current Density, Irreversibility Line, and Flux Creep Activation Energy in Silver-Sheathed Bi2Sr2Ca2Cu2Ox Superconducting Tapes.
PB95-162749 *04,616*

Welding for Cryogenic Service.
PB95-162889 *02,852*

Combined Josephson and Charging Behavior of the Supercurrent in the Superconducting Single-Electron Transistor.
PB95-168522 *04,637*

High Current Pressure Contacts to Ag Pads on Thin Film Superconductors.
PB95-168621 *04,639*

Terahertz Detectors Based on Superconducting Kinetic Inductance.
PB95-168647 *02,160*

Optical Performance of Photoinductive Mixers at Terahertz Frequencies.
PB95-168662 *02,161*

Suitability of Metalorganic Chemical Vapor Deposition-Derived PrGaO3 Films as Buffer Layers for YBa2Cu3O7-x Pulsed Laser Deposition.
PB95-168670 *04,640*

Microwave Properties of YBa2Cu3O7-x Films at 35 GHz from Magnetotransmission and Magnetoreflection Measurements.
PB95-168977 *04,643*

Ultrasensitive-Hot-Electron Microbolometer.
PB95-168985 *02,163*

Hot-Electron Microcalorimeters for X-ray and Phonon Detection.
PB95-168993 *04,644*

Kinetic-Inductance Infrared Detector Based on an Antenna-Coupled High-Tc SQUID.
PB95-169116 *02,165*

High-Tc Superconducting Antenna-Coupled Microbolometer on Silicon.
PB95-169124 *02,166*

Terahertz Shapiro Steps in High Temperature SNS Josephson Junctions.
PB95-169140 *02,168*

Optical Detector Nonlinearity: A Comparison of Five Methods.
PB95-169355 *04,291*

Experimental Results on Single Flux Quantum Logic.
PB95-175071 *02,053*

Characterization of the Emission from 2D Array Josephson Oscillators.
PB95-175121 *02,054*

Emission Linewidth Measurements of Two-Dimensional Array Josephson Oscillators.
PB95-175139 *02,055*

Frequency Dependence of the Emission from 2D Array Josephson Oscillators.
PB95-175147 *02,056*

Aspects of a Deformable Superconductor Model for the Vortex Mass.
PB95-175303 *04,652*

Deformable Superconductor Model for the Fluxon Mass.
PB95-175311 *04,653*

Thermal Enhancement of Cotunneling in Ultra-Small Tunnel Junctions.
PB95-175436 *04,658*

Characterization of a Tunable Thin Film Microwave YBa2Cu3O7-x/SrTiO3 Coplanar Capacitor.
PB95-175527 *02,264*

Standard Reference Devices for High Temperature Superconductor Critical Current Measurements.
PB95-175543 *04,659*

Josephson Voltage Standard Based on Single-Flux-Quantum Voltage Multipliers.
PB95-175600 *02,058*

Experimental Aspects of Flux Expulsion in Type-II Superconductors.
PB95-175725 *04,660*

Effect in Environmental Noise on the Accuracy of Coulomb-Blockade Devices.
PB95-175865 *04,662*

Testing for Metrological Accuracy of the Electron Pump.
PB95-175873 *04,663*

dc Magnetic Force Microscopy Imaging of Thin-Film Recording Head.
PB95-176061 *04,665*

High Temperature Superconductor-Normal Metal-Superconductor Josephson Junctions with High Characteristic Voltages.
PB95-176079 *04,666*

Two-Stage Integrated SQUID Amplifier with Series Array Output.
PB95-176277 *02,061*

Noise in the Coulomb Blockade Electrometer.
PB95-176327 *04,670*

Increased Transition Temperature in In situ Coevaporated YBa2Cu3O7-delta Thin Films by Low Temperature Post-Annealing.
PB95-180071 *04,672*

Improved Eddy-Current Decay Method for Resistivity Characterization.
PB95-180451 *02,265*

Antenna-Coupled High-Tc Air-Bridge Microbolometer on Silicon.

LUBRICANTS
Development of Measurement Capabilities for the Thermophysical Properties of Energy-Related Fluids. Annual Report, December 1, 1990--November 30, 1991.
DE94004399 *02,470*

Tribochemical Reaction of Stearic Acid on Copper Surface Studied by Surface Enhanced Raman Spectroscopy.
PB94-212057 *02,964*

LUBRICATING OILS
New Method to Evaluate Deposit Forming Tendencies of Liquid Lubricants by Differential Scanning Calorimetry.
PB95-152120 *01,451*

Deposit Forming Tendencies of Diesel Engine Oils-Correlation between the Two-Peak Method and Engine Tests.
PB95-152138 *01,452*

LUBRICATION
Tribology Education: Present Status and Future Challenges.
PB94-212362 *02,965*

Lubrication Theory for Reactive Spreading of a Thin Drop.
PB95-189460 *02,865*

Silicon Nitride Boundary Lubrication: Lubrication Mechanism of Alcohols.
PB96-111703 *03,067*

Silicon Nitride Boundary Lubrication: Effect of Oxygenates.
PB96-111711 *03,068*

LUBRICATION THEORY
Lubrication Theory for Reactive Spreading of a Thin Drop.
PB96-123427 *04,214*

LUMBER
Voluntary Product Standard PS 20-94. American Softwood Lumber Standard.
PB94-162500 *03,402*

LUMINAIRES
Papers Presentations Shine.
PB94-200383 *00,244*

LUMINOSITY
Detector-Based Candela Scale and Related Photometric Calibration Procedures at NIST.
PB95-161949 *04,273*

LUMINOUS FLUX
Integrating Sphere Simulation: Application to Total Flux Scale Realization.
PB95-150173 *04,261*

New Method for Realizing a Luminous Flux Scale Using an Integrating Sphere with an External Source.
PB96-102843 *04,333*

Realization of NIST 1995 Luminous Flux Scale Using the Integrating Sphere Method.
PB96-176433 *04,374*

LUMINOUS INTENSITY
Performance of Compact Fluorescent Lamps at Different Ambient Temperatures.
PB95-175329 *00,258*

Intercomparison of Photometric Units Maintained at NIST (USA) and PTB (Germany), 1993.
PB95-261913 *04,329*

LUNAR EXPLORATION
In-Space Welding: Visions and Realities.
PB95-163234 *04,830*

LUNAR GRAVITATION
Integrated Laser Doppler Method for Measuring Planetary Gravity Fields.
PB94-198686 *03,681*

LUNAR RANGEFINDING
Lunar Laser Ranging: A Continuing Legacy of the Apollo Program.
PB95-202495 *03,683*

LUNG
Oxidative DNA Base Damage in Renal, Hepatic, and Pulmonary Chromatin of Rats After Intraperitoneal Injection of Cobalt (II) Acetate.
PB95-150025 *03,647*

LUNGS
Radon in the Lung.
PB97-110035 *03,638*

LUTETIUM
Enhanced Curie Temperatures and Magnetoelastic Domains in Dy/Lu Super Lattices and Films.
PB94-172665 *04,443*

Vibrations of Hydrogen and Deuterium in Solid Solution with Lutetium.
PB95-181038 *01,019*

LUTETIUM HYDRIDES
Neutron Spectroscopic Comparison of Rare-Earth/Hydrogen alpha-Phase Systems.
PB95-163523 *00,970*

LYASES
Thermodynamics of Enzyme-Catalyzed Reactions. Part 4. Lyases.
PB96-145941 *01,118*

LYMAN ALPHA RADIATION
Hydrogen Lyman-alpha Emission of Capella.
PB95-202263 *00,075*

New High-Redshift Damped Lyman-alpha Absorption Systems and the Redshift Evolution of Damped Absorbers.
PB95-203501 *00,083*

LYMPHOCYTES
DNA Base Damage in Lymphocytes of Cancer Patients Undergoing Radiation Therapy.
PB97-122444 *03,643*

M PROGRAMMING LANGUAGE
M (also known as MUMPS) Validation Test Suite, Version 8.3 (for Microcomputers).
PB94-502077 *01,699*

M1-TRANSITIONS
Magnetic Dipole Line from U LXXI Ground-Term Levels Predicted at 3200 Angstroms.
PB94-211497 *04,407*

MACHINE LEARNING
Effect of Training Dynamics on Neural Network Performance.
PB95-267845 *01,852*

MACHINE TOOLS
Open Architectures for Machine Control.
PB94-135621 *02,942*

Prediction of Geometric-Thermal Machine Tool Errors by Artificial Neural Networks.
PB94-186673 *02,943*

Displacement Method for Machine Geometry Calibration.
PB95-152088 *02,946*

Post-Process Control of Machine Tools.
PB95-203451 *02,952*

Machine Performance Standard Provides Opportunity to Improve Quality and Productivity.
PB96-154521 *02,837*

Development of a New Quality Control Strategy for Automated Manufacturing.
PB96-160486 *02,840*

Integrated Inspection System for Improved Machine Performance.
PB96-160569 *02,959*

New Concepts of Precision Dimensional Measurement for Modern Manufacturing.
PB96-160684 *02,924*

PIECS: A Software Program for Machine Tool Process-Intermittent Error Compensation.
PB96-165980 *02,842*

Compensation of Errors Detected by Process-Intermittent Gauging.
PB97-110472 *02,846*

Data Management for Error Compensation and Process Control.
PB97-110480 *02,847*

Static Structural Analysis of a Reconfigurable Rigid Platform Supported by Elastic Legs.
PB97-113898 *02,960*

MACHINE VISION
Hierarchical Interaction between Sensory Processing and World Modeling in Intelligent Systems.
PB94-198256 *01,580*

Physics-Based Vision: Principles and Practice, Shape Recovery (Book Review).
PB95-164075 *01,846*

MACHING
Evaluation of a Tapered Roller Bearing Spindle for High-Precision Hard Turning Applications.
PB96-160494 *02,700*

MACHINING
Issues Concerning Material Removal Shape Element Volumes (MRSEVs).
PB94-185493 *02,882*

Japan Technology Program Assessment: Precision Engineering/Precision Optics in Japan.
PB95-171112 *02,884*

Issues Concerning Material Removal Shape Element Volumes (MRSEVs).
PB95-210167 *02,885*

Evaluation of Thermal Wave Imaging for Detection of Machining Damage in Ceramics.
PB95-220547 *03,062*

Precision in Machining: Research Challenges.
PB95-242301 *02,953*

Effects of Spindle Dynamic Characteristics on Hard Turning.
PB96-122981 *02,699*

Machining Process Planning Activity Model for Systems Integration.
PB96-165428 *02,841*

Chip Morphology, Tool Wear and Cutting Mechanics in Finish Hard Turning.
PB97-112247 *03,106*

Standards Promote Credibility and Technology Transfer: The Need for Greater Industry Support of Technical Committees.
PB97-116206 *02,961*

MACHINING RATE
Chemical Effect in Ceramics Grinding.
PB97-122592 *03,113*

MACROMOLECULES
Book Review: Statistical Physics of Macromolecules.
PB96-123526 *01,280*

MAGENETIC PROPERTIES
Determining the Magnetic Properties of 1 kg Mass Standards.
PB95-261905 *04,016*

MAGNESIUM
Angular Distributions for Near-Threshold (e,2e) Processes for Li and Mg.
PB94-185725 *00,778*

Effect of Suppressants on Metal Fires.
PB96-109574 *01,402*

MAGNESIUM COMPOUNDS
Electric Field Effects on Crack Growth in a Lead Magnesium Niobate.
PB95-107322 *03,339*

MAGNESIUM HYDRIDES
Laboratory Measurements for the Astrophysical Identification of MgH.
PB95-152195 *00,073*

MAGNESIUM OXIDES
Reactive Coevaporation of DyBaCuO Superconducting Films: The Segregation of Bulk Impurities on Annealed MgO(100) Substrates.
PB95-164562 *04,635*

Dielectric Properties of Single Crystals of Al2O3, LaAlO3, SrTiO3, and MgO at Cryogenic Temperatures.
PB95-180477 *02,266*

MAGNETIC CORRELATION LENGTHS
Neutron-Scattering Studies of the Two Magnetic Correlation Lengths in Terbium.
PB95-152328 *04,586*

MAGNETIC DETECTION
Gradiometer Antennas for Detection of Long Subsurface Conductors.
PB95-175667 *01,862*

MAGNETIC DEVICES
Size and Self-Field Effects in Giant Magnetoresistive Thin-Film Devices.
PB95-180188 *04,674*

MAGNETIC DOMAINS
Micromagnetic Structure of Domains in Co/Pt Multilayers. 1. Investigations of Wall Structure.
PB95-162111 *04,610*

Magnetic Force Microscopy Images of Magnetic Garnet with Thin-Film Magnetic Tip.
PB95-176210 *04,669*

MAGNETIC ENERGY STORAGE EQUIPMENT
Composite Struts for SMES Plants.
PB95-155586 *02,507*

MAGNETIC EXCITATIONS
Polarization Analysis of the Magnetic Excitations in Fe65Ni35 Invar.
PB95-150082 *04,558*

Temperature Dependence of the Magnetic Excitations in Ordered and Disordered Fe72Pt28.
PB95-150223 *04,563*

MAGNETIC FIELD
NIST Watt Experiment: Monitoring the Kilogram.
PB97-122329 *01,997*

MAGNETIC FIELD SENSORS
Magneto-Optic Magnetic Field Sensor with 1.4pT/square root of 1(Hz) Minimum Detectable Field at 1 kHz.
PB94-199551 *02,125*

High Speed, High Sensitivity Magnetic Field Sensors Based on the Faraday Effect in Iron Garnets.
PB95-153391 *02,151*

Magneto-Optic Magnetic Field Sensors Based on Uniaxial Iron Garnet Films in Optical Waveguide Geometry.
PB95-153409 *02,152*

Magneto-Optic Magnetic Field Sensors Based on Uniaxial Iron Garnet Films in Optical Waveguide Geometry.
PB95-168498 *02,159*

Novel Bulk Iron Garnets for Magneto-Optic Magnetic Field Sensing.
PB95-180204 *04,675*

Domain Effects in Faraday Effect Sensors Based on Iron Garnets.
PB95-202461 *02,268*

High Frequency Magnetic Field Sensors Based on the Faraday Effect in Garnet Thick Films.
PB96-190384 *02,282*

Wideband Current and Magnetic Field Sensors Based on Iron Garnets.
PB96-200878 *01,975*

MAGNETIC FIELDS
Faraday Effect Sensors: A Review of Recent Progress.
PB94-200706 *02,128*

Three-Axis Coil Probe Dimensions and Uncertainties during Measurement of Magnetic Fields from Appliances.
PB94-219359 *01,885*

ELF Electric and Magnetic Field Measurement Methods.
PB95-161675 *04,423*

Comparison of Magnetic Fields of Thin-Film Heads and Their Corresponding Bit Patterns Using Magnetic Force Microscopy.
PB95-180907 *03,763*

Temperature Dependence and Magnetic Field Modulation of Critical Currents in Step-Edge SNS YBCO/Au Junctions.
PB96-111745 *04,723*

Magnetic Fields in Star-Forming Regions: Observations.
PB96-123005 *00,100*

Effect of Magnetic Field Orientation on the Critical Current of HTS Conductor and Coils.
PB96-141189 *02,956*

Novel Magnetic Field Characterization Techniques for Compound Semiconductor Materials and Devices.
PB96-176458 *02,433*

Distributions of Measurement Error for Three-Axis Magnetic Field Meters during Measurements Near Appliances.
PB96-180153 *02,110*

Measurement and Reduction of Alignment Errors of the NIST Watt Experiment.
PB97-111959 *01,987*

MAGNETIC FILMS
Brillouin Light Scattering Intensities for Thin Magnetic Films with Large Perpendicular Anisotropies.
PB94-211174 *04,488*

Micromagnetic Model of Dual-Layer Magnetic-Recording Thin Films.
PB95-141065 *04,551*

Experimental Verification of a Micromagnetic Model of Dual-Layer Magnetic Films.
PB95-141081 04,553

Magnetic and Magnetoresistive Properties of Inhomogeneous Magnetic Dual-Layer Films.
PB95-169025 04,646

X-ray Photoelectron and Auger Electron Forward Scattering: A Structural Diagnostic for Epitaxial Thin Films.
PB95-180220 04,676

MAGNETIC FLUX

Magnetic Force Microscopy of Flux in Superconductors.
PB95-161733 04,608

Relationship between Radiative and Magnetic Fluxes for Three Active Solar-Type Dwarfs.
PB96-119540 00,097

MAGNETIC FORCE MICROSCOPY

Micromagnetic Simulations of Tunneling Stabilized Magnetic Force Microscopy.
PB95-141073 04,552

Tunneling Stabilized Magnetic-Force Microscopy.
PB95-161717 04,607

Magnetic Force Microscopy of Flux in Superconductors.
PB95-161733 04,608

Proposed Antiferromagnetically Coupled Dual-Layer Magnetic Force Microscope Tips.
PB95-169017 04,645

Vortex Images in Thin Films of YBa2Cu3O(sub 7-x) and Bi2Sr2Ca1Cu2O(sub 8+x) Obtained by Low-Temperature Magnetic Force Microscopy.
PB97-119408 04,815

MAGNETIC FORCES

Methods for Aligning the NIST Watt-Balance.
PB96-123153 01,934

NIST Watt Balance: Progress Toward Monitoring the Kilogram.
PB97-113062 01,991

MAGNETIC HETEROSTRUCTURES

Exchange Coupling in Magnetic Heterostructures.
PB95-150314 04,566

MAGNETIC HYSTERESIS

Volume Magnetic Hysteresis Loss of Nb3Sn Superconductors as a Function of Wire Length.
PB95-153722 04,597

MAGNETIC MATERIALS

Surface Magnetic Microstructural Analysis Using Scanning Electron Microscopy with Polarization Analysis (SEMPA).
PB95-162657 03,938

Nanocomposite Magnetic Materials.
PB95-162780 04,617

MAGNETIC MEASUREMENT

Metrology for Electromagnetic Technology: A Bibliography of NIST Publications.
PB95-135588 02,143

Domain Effects in Faraday Effect Sensors Based on Iron Garnets.
PB95-202461 02,268

Distributions of Measurement Error for Three-Axis Magnetic Field Meters during Measurements Near Appliances.
PB96-180153 02,110

High Frequency Magnetic Field Sensors Based on the Faraday Effect in Garnet Thick Films.
PB96-190384 02,282

MAGNETIC MOMENTS

Magnetic Moments in Cr Thin Films on Fe(100).
PB95-108429 04,525

MAGNETIC MULTILAYERS

SEMPA Studies of Exchange Coupling in Magnetic Multilayers.
PB96-164074 04,780

Spin-Dependent Interface Transmission and Reflection in Magnetic Multilayers (Invited).
PB96-201173 04,130

MAGNETIC ORDER

Neutron Scattering Study of Antiferromagnetic Order in the Magnetic Superconductors RNi2B2C.
PB97-112411 04,812

MAGNETIC ORDERING

Incommensurate Magnetic Order in UPtGe.
PB95-140513 04,542

Magnetic Ordering of the Cu Spins in PrBa2Cu3O6+x.
PB95-140547 04,545

Crystal Structure and Magnetic Ordering of the Rare-Earth and Cu Moments in RBa2Cu2NbO8(R=Nd,Pr).
PB95-140554 04,546

Coupled-Bilayer Two-Dimensional Magnetic Order of the Dy Ions in Dy2Ba4Cu7O15.
PB95-152104 04,584

Neutron Powder Diffraction Study of the Nuclear and Magnetic Structures of the Oxygen-Deficient Perovskite YBaCuCoO5.
PB95-161097 00,954

Field Dependence of the Magnetic Ordering of Cu in R2CuO4 (R = Nd, Sm).
PB95-164521 04,633

Observation of Oscillatory Magnetic Order in the Antiferromagnetic Superconductor HoNi2B2C.
PB95-180303 04,679

MAGNETIC PERMEABILITY

Transmission/Reflection and Short-Circuit Line Methods for Measuring Permittivity and Permeability.
PB94-165537 02,211

MAGNETIC PROPERTIES

Monte Carlo and Mean-Field Calculations of the Magnetocaloric Effect of Ferromagnetically Interacting Clusters.
PB94-172087 03,201

Magnetocaloric Effect in Nanocomposites.
PB95-162798 04,618

Recent Results in Magnetic Force Microscopy.
PB96-103130 04,721

Magnetic Structure and Spin Dynamics of the Pr and Cu in Pr2CuO4.
PB96-111836 04,036

Preparation, Crystal Structure, Dielectric Properties, and Magnetic Behavior of Ba2Fe2Ti4O13.
PB96-186176 01,162

Dielectric and Magnetic Measurements from -50C to 200C and in the Frequency Band 50 MHz to 2 GHz.
PB96-191382 02,245

MAGNETIC RECORDING

Experimental Verification of a Vector Preisach Model.
PB95-163564 04,626

MAGNETIC RESONANCE

Atomic Iron in Its (5)D Ground State: A Direct Measurement of the J = 0 inverted arrow 1 and J = 1 inverted arrow 2 Fine-Structure Intervals (1.2).
PB96-141221 04,756

MAGNETIC SPECTROSCOPY

Binder Characterization and Evaluation by Nuclear Magnetic Resonance Spectroscopy.
PB94-193471 01,334

MAGNETIC STARS

Class of Radio-Emitting Magnetic B Stars and a Wind-Fed Magnetosphere Model.
PB94-213451 00,067

Radio Emission from Chemically Peculiar Stars.
PB94-213469 00,068

MAGNETIC STRUCTURE

Colossal Magnetoresistance without Mn(3+)/Mn(4-) Double Exchange in the Stoichiometric Pyrochlore Tl2Mn2O7.
PB97-113070 04,160

MAGNETIC SUSCEPTIBILITY

Alternating-Field Susceptometry and Magnetic Susceptibility of Supercondoctors. Presented at Office of Naval Research Workshop on Magnetic Susceptibility of Superconductors and Other Spin Systems. Held in Berkeley Springs, West Virginia on 20 May 1991.
PB94-145984 04,435

Harmonic and Static Susceptibilities of YBa2Cu3O7.
PB95-161139 04,599

Alternating-Field Susceptometry and Magnetic Susceptibility of Superconductors.
PB95-168613 04,638

Magnetic Susceptibility of Pr2-xCexCuO4 Monocrystals and Polycrystals.
PB95-180253 04,677

MAGNETIC TRAPS

Gravitational Sisyphus Cooling of (87)Rb in a Magnetic Trap.
PB96-200704 04,379

Stable, Tightly Confining Magnetic Trap for Evaporative Cooling of Neutral Atoms.
PB96-200720 04,126

MAGNETIORESISTANCE

Domain Structures in Magnetoresistive Granular Metals.
PB96-141346 04,760

MAGNETISM

Magnetic Neutron Scattering (Invited).
PB95-150074 04,557

Critical Current Density, Irreversibility Line, and Flux Creep Activation Energy in Silver-Sheathed Bi2Sr2Ca2Cu2Ox Superconducting Tapes.
PB95-162749 04,616

SEMPA Studies of Oscillatory Exchange Coupling.
PB95-163556 04,625

Influence of Thickness Fluctuations on Exchange Coupling in Fe/Cr/Fe Structures.
PB96-135371 04,745

Panel Discussion on Units in Magnetism.
PB96-137773 04,746

Isolated Spin Pairs and Two-Dimensional Magnetism in SrCr(sub 9p)Ga(sub 12-9p)O19.
PB97-112387 04,154

MAGNETIZATION

Effects of Critical Current Density, Equilibrium Magnetization and Surface Barrier on Magnetization of High Temperature Superconductors.
PB94-185162 04,446

Effects of Critical Current Density, Equilibrium Magnetization and Surface Barrier on Magnetization of High Temperature Superconductors.
PB95-153060 04,588

Simulating Device Size Effects on Magnetization Pinning Mechanisms in Spin Valves.
PB97-112593 04,158

MAGNETO-OPTIC

Dependence of Contrast on Probe/Sample Spacing with the Magneto-Optic Kerr-Effect Scanning Near-Field Optical Microscope (MOKE-SNOM).
PB96-138557 04,750

MAGNETO-OPTICAL EFFECTS

Theory of the Magneto-Optic Kerr Effect in the Near Field.
PB96-141387 04,761

MAGNETO OPTICS

Fiber-Optic Faraday-Effect Magnetic-Field Sensor Based on Flux Concentrators.
PB96-200308 02,201

MAGNETOABSORPTION

RII Spectroscopy of Trap Levels in Bulk and LPE Hg1-xCdxTe.
PB96-160247 04,084

MAGNETOCALORIC EFFECT

Monte Carlo and Mean-Field Calculations of the Magnetocaloric Effect of Ferromagnetically Interacting Clusters.
PB94-172087 03,201

Enhanced Magnetocaloric Effect in Gd3Ga5-xFexO12.
PB94-185659 04,450

Magnetocaloric Effect in Rapidly Solidified Nd-Fe-Al-B Materials.
PB94-185667 04,451

Magnetocaloric Effect of Ferromagnetic Particles.
PB94-185857 04,453

MAGNETOCONDUCTANCE

Measurement of the Weak-Localization Complex Conductivity at 1 Ghz in Disordered Ag Wires.
PB96-117239 04,731

MAGNETOMETERS

Faraday Effect Sensors: A Review of Recent Progress.
PB94-200706 02,128

Low Noise YBa2Cu3O7-x-SrTiO3-YBa2Cu3O7-x Mulitlayers for Improved Superconducting Magnetometers.
PB96-138417 04,747

Magnetometer Calibration Services.
PB97-113252 01,993

MAGNETOOPTICS

Magneto-Optical Trapping of Metastable Xenon: Isotope-Shift Measurements.
PB95-151254 03,905

Magnetooptic Effects.
PB96-119292 04,338

MAGNETORESISTANCE

Effects of Interfacial Roughness on the Magnetoresistance of Magnetic Metallic Multilayers.
PB95-150017 04,556

Transverse Magnetoresistance: A Novel Two-Terminal Method for Measuring the Carrier Density and Mobility of a Semiconductor Layer.
PB95-150066 02,332

Magnetic and Magnetoresistive Properties of Inhomogeneous Magnetic Dual-Layer Films.
PB95-169025 04,646

Micromagnetic Scanning Microprobe System.
PB95-176178 02,224

Size and Self-Field Effects in Giant Magnetoresistive Thin-Film Devices.
PB95-180188 04,674

Model for Determining the Density and Mobility of Carriers in Thin Semiconducting Layers with Only Two Contacts.
PB96-102702 02,378

Characterization of Liquid-Phase Epitaxially Grown HgCdTe Films by Magnetoresistance Measurements.
PB96-123617 04,738

Size Effects in Submicron NiFe/Ag GMR Devices.
PB96-155510 02,237

Novel Magnetic Field Characterization Techniques for Compound Semiconductor Materials and Devices.
PB96-176458 02,433

Magnetic Structure Determination for Annealed Ni80Fe20/Ag Multilayers Using Polarized-Neutron Reflectivity.
PB96-176615 03,739

Models of Granualr Giant Magnetoresistance Multilayer Thin Films.
PB96-190228 01,968

Size Effects and Giant Magnetoresistance in Unannealed NiFe/Ag Multilayer Stripes.
PB97-111306 04,145

Bias Current Dependent Resistance Peaks in NiFe/Ag Giant Magnetoresistance Multilayers.
PB97-112346 04,153

Modeling Effects of Temperature Annealing on Giant Magnetoresistive Response in Discontinuous Multilayer NiFe/Ag Films.
PB97-112585 04,157

Colossal Magnetoresistance without Mn(3+)/Mn(4-) Double Exchange in the Stoichiometric Pyrochlore Tl2Mn2O7.
PB97-113070 04,160

MAGNETORESISTIVITY
Magnetostriction and Giant Magnetoresistance in Annealed NiFe/Ag Multilayers.
PB96-102603 *04,716*

Low Magnetostriction in Annealed NiFe/Ag Giant Magnetoresistive Multilayers.
PB96-146691 *04,762*

Telegraph Noise in Silver-Permalloy Giant Magnetoresistance Test Structures.
PB96-146717 *04,763*

Magnetoresistance of Thin-Film NiFe Devices Exhibiting Single-Domain Behavior.
PB96-147087 *04,766*

MAGNETORESTRICTION
Low Magnetostriction in Annealed NiFe/Ag Giant Magnetoresistive Multilayers.
PB96-146691 *04,762*

MAGNETOSTATICS
Size Effects and Giant Magnetoresistance in Unannealed NiFe/Ag Multilayer Stripes.
PB97-111306 *04,145*

MAGNETOSTRICTION
Magnetoelasticity in Rare-Earth Multilayers and Films.
PB94-211356 *04,495*

Method for Determining Both Magnetostriction and Elastic Modulus by Ferromagnetic Resonance.
PB95-150108 *02,974*

Magnetostriction and Giant Magnetoresistance in Annealed NiFe/Ag Multilayers.
PB96-102603 *04,716*

MAGNIFICATION STANDARDS
Report on the NIST Low Accelerating Voltage SEM Magnification Standard Interlaboratory Study.
PB96-201074 *02,445*

MALEIMIDE/N-PHENYL
Thermal Behaviour of Methyl Methacrylate and N-Phenyl Maleimide Copolymers.
PB95-152237 *01,246*

Copolymerization of N-Phenyl Maleimide and gamma-Methacryloxypropyl Trimethoxysilane.
PB95-153144 *01,248*

MALTODEXTRIN
Protein Extraction in a Spray Column Using a Polyethylene Glycol Maltodextrin Two-Phase Polymer System.
PB95-162228 *00,595*

MAMMOGRAPHY
Noninvasive High-Voltage Measurement in Mammography by Crystal Diffraction Spectroscopy.
PB95-153417 *00,160*

Flat and Curved Crystal Spectrography for Mammographic X-ray Sources.
PB97-122246 *03,642*

MAN
Electron transport calculations with biomedical and environmental applications. Final report, December 23, 1992--January 31, 1994.
DE95007065 *03,613*

MAN COMPUTER INTERFACE
User Interface Component of the Applications Portability Profile Category: Software Standard; Subcategory: Application Program Interface.
FIPS PUB 158-1 *01,793*

Experimental Evaluation of Specification Techniques for Improving Functional Testing.
PB96-201009 *01,779*

MANAGEMENT
Models, Managing Models, Quality Models: An Example of Quality Management.
PB94-163466 *02,891*

Domain Analysis of the Alarm Surveillance Domain. Version 1.0. Conducted as Part of the Domain Analysis Case Study Project.
PB95-136339 *01,705*

Distributed Systems: Survey of Open Management Approaches.
PB96-128202 *01,746*

MANAGEMENT INFORMATION SYSTEMS
Integration Definition for Function Modeling (IDEF0); Category: Software Standard; Subcategory: Modeling Techniques.
FIPSPUB183 *02,800*

Fire Data Management System, FDMS 2.0, Technical Documentation.
PB94-164019 *01,358*

Production Management Information Model for Discrete Manufacturing.
PB96-112008 *02,830*

MANGANESE ADDITIONS
Effect of Mn Content on the Microstructure of Al-Mn Alloys Electrodeposited at 150C.
PB95-126355 *03,343*

MANGANESE ALLOYS
Electrochemical Synthesis of Metal and Intermetallic Composites.
AD-A294 088/0 *03,304*

MANIPULATORS
Evolution of the Flight Telerobotic Servicer.
PB94-216082 *04,832*

Three Dimensional Position Determination from Motion.
PB95-107108 *01,788*

MANOMETERS
Intercomparison of the Effective Areas of a Pneumatic Piston Gauge Determined by Different Techniques.
PB94-212370 *02,640*

MANUALS
ISO TC 184/SC4 Reference Manual.
PB95-242293 *02,663*

NIST ATM Network Simulator: Operation and Programming, Version 1.0.
PB96-106851 *01,487*

MANUFACTURED HOUSING
Controlling Moisture in the Walls of Manufactured Housing.
PB95-105136 *00,355*

MANUFACTURERS
Network Brokers Handbook: An Entrepreneurial Guide to Cooperative Strategies for Manufacturing Competitiveness.
PB95-219325 *00,490*

MANUFACTURING
Opportunities for Innovation: Advanced Manufacturing Technology.
PB94-100278 *02,801*

Applying Virtual Environments to Manufacturing.
PB94-142502 *02,803*

Learning to Change: Opportunities to Improve the Performance of Smaller Manufacturers.
PB94-166212 *00,010*

World Model Registration for Effective Off-Line Programming of Robots.
PB94-173010 *02,933*

Importance of Measurement in Technology-Based Competition.
PB94-211844 *02,929*

Program Requirements to Advance the Technology of Custom Footwear Manufacturing.
PB95-147906 *02,883*

Opportunities for Innovation: Software for Manufacturing.
PB95-155578 *02,851*

Optical Characterization in Microelectronics Manufacturing.
PB95-169397 *02,358*

Critical Issues in Scanning Electron Microscope Metrology.
PB95-169405 *02,359*

Apparel Manufacturing Glossary for Application Protocol Development.
PB95-198750 *02,755*

Proceedings of the Manufacturing Technology Needs and Issues: Establishing National Priorities and Strategies Conference. Held in Gaithersburg, Maryland on April 26-28, 1994.
PB95-206181 *02,930*

Network Brokers Handbook: An Entrepreneurial Guide to Cooperative Strategies for Manufacturing Competitiveness.
PB95-219325 *00,490*

Conceptual Design Plan for the National Advanced Manufacturing Testbed.
PB95-231866 *02,828*

Joint DoD/NIST Workshop on International Manufacturing Systems Research and Development. Held in Rockville, Maryland on November 3-5, 1992. Proceedings.
PB96-109491 *02,931*

Agile Manufacturing from a Statistical Perspective.
PB96-109525 *02,886*

Can Displays Deliver a Full Measure: Manufacturing.
PB96-111935 *02,185*

Proceedings of the Annual Manufacturing Technology Conference (2nd): Toward a Common Agenda. Held in Gaithersburg, Maryland on April 18-20, 1995.
PB96-112693 *02,887*

Scanning Electron Microscope Metrology.
PB96-201090 *02,446*

MANUFACTURING ENGINEERING LABORATORY
Publications of the Manufacturing Engineering Laboratory Covering the Period January 1989-September 1992.
PB94-165966 *02,750*

Program of the Manufacturing Engineering Laboratory, 1995. Infrastructural Technology, Measurements, and Standards for the U.S. Manufacturing Industries.
PB95-188835 *02,754*

MAPPING
Metrication.
PB94-172079 *03,676*

METRICATION: An Economic Wake-Up Call for Surveyors and Mappers.
PB96-159629 *03,680*

MARCH-DOLLASE
Texture Measurement of Sintered Alumina Using the March-Dollase Function.
PB96-179494 *04,784*

MARINE ANIMALS
Determination of PCBs and Chlorinated Hydrocarbons in Marine Mammal Tissues.
PB95-162640 *03,744*

MARINE ATMOSPHERES
Journal of Research of the National Institute of Standards and Technology, January/February 1996. Volume 101, Number 1.
PB96-175666 *00,113*

International Marine-Atmospheric (222)Rn Measurement Intercomparison in Bermuda. Part 1. NIST Calibration and Methodology for Standardized Sample Additions.
PB96-175674 *00,114*

International Marine-Atmospheric (222)Rn Measurement Intercomparison in Bermuda. Part 2. Results for the Participating Laboratories.
PB96-175682 *00,115*

MARINE CHEMISTRY
Atmospheric and Marine Trace Chemistry: Interfacial Biomediation and Monitoring.
PB94-199122 *03,752*

MARINE ENVIRONMENTS
Comparison of Methods for Gas Chromatographic Determination of PCBs and Chlorinated Pesticides in Marine Reference Materials.
PB95-140091 *02,584*

MARINE MAMMALS
Current Activities Within the National Biomonitoring Specimen Bank.
PB94-172806 *02,516*

Determination of Inorganic Constituents in Marine Mammal Tissues.
PB95-152047 *00,589*

Development of the National Marine Mammal Tissue Bank.
PB95-161402 *02,586*

Quality Assurance of Contaminant Measurements in Marine Mammal Tissues.
PB95-164034 *02,588*

Alaska Marine Mammal Tissue Archival Project: Specimen Inventory.
PB95-171344 *02,589*

Concentrations of Chlorinated Hydrocarbons, Heavy Metals and Other Elements in Tissues Banked by the Alaska Marine Mammal Tissue Archival Project.
PB95-209870 *02,590*

Quantitative Analysis of Selected PCB Congeners in Marine Matrix Reference Materials Using a Novel Cyanobiphenyl Stationary Phase.
PB96-111737 *02,591*

Trace Element Concentrations in Cetacean Liver Tissues Archived in the National Marine Mammal Tissue Bank.
PB96-167127 *02,595*

Relationship of Silver with Selenium and Mercury in the Liver of Two Species of Toothed Whales (Odontocetes).
PB96-167275 *02,596*

MARINE SEDIMENTS
Certification of Polycyclic Aromatic Hydrocarbons in a Marine Sediment Standard Reference Material.
PB96-111778 *02,592*

MARKET RESEARCH
India: Environmental Technologies Export Market Plan.
PB97-114359 *02,529*

MARKETING
Method of Sale for CNG Paves Way to Greater Public Acceptance.
PB95-168449 *02,489*

MARKOV ESTIMATORS
Compensation of Markov Estimator Errors in Time-Jittered Sampling of Nonmonotonic Signals.
PB95-150983 *01,590*

MARSHALL COMPACTION HAMMER
Field Evaluation of the System for Calibration of the Marshall Compaction Hammer.
PB95-190674 *01,323*

MARSHALL METHOD
System for Calibration of the Marshall Compaction Hammer.
PB94-145661 *01,303*

MARSHALL STABILITY
Precision of Marchall Stability and Flow Test Using 6-in. (152.4-mm) Diameter Specimens.
PB96-200910 *03,006*

MARTENSITIC STAINLESS STEELS
Wear Mechanism Maps of 440C Martensitic Stainless Steel.
PB96-111810 *04,834*

MARTENSITIC TRANSFORMATION
Structures of Sodium Metal.
PB94-198850 *03,319*

MARTENSITIC TRANSFORMATIONS
Shear-Induced Martensitic-Like Transformation in a Block Copolymer Melt.
PB96-119508 *01,277*

MASONRY
NIST Research Program on the Seismic Resistance of Partially-Grouted Masonry Shear Walls.
PB94-219052 *00,354*

MASS
Precision Laboratory Standards of Mass and Laboratory Weights.
AD-A280 562/0 *02,618*

Advanced Mass Calibration and Measurement Assurance Program for State Calibration Laboratories.
PB95-253571 *02,492*

Determining the Magnetic Properties of 1 kg Mass Standards.
PB95-261905 *04,016*

NIST Watt Experiment: Monitoring the Kilogram.
PB97-122329 *01,997*

MASS ATTENUATION COEFFICIENTS
Tables of X-ray Mass Attenuation Coefficients and Mass Energy-Absorption Coefficients 1 keV to 20 MeV for Elements Z = 1 to 92 and 48 Additional Substances of Dosimetric Interest.
PB95-220539 *04,013*

MASS ENERGY-ABSORPTION COEFFICIENTS
Tables of X-ray Mass Attenuation Coefficients and Mass Energy-Absorption Coefficients 1 keV to 20 MeV for Elements Z = 1 to 92 and 48 Additional Substances of Dosimetric Interest.
PB95-220539 *04,013*

MASS FLOW
Energy Flows in an Orifice Pulse Tube Refrigerator.
PB95-169082 *02,752*

MASS FLOW MEASUREMENT
Cryogenic Flow Calibration in NIST.
PB96-161930 *01,143*

MASS FRAGMENTOGRAPHY
Chemical Determination of Oxidative DNA Damage by Gas Chromatography-Mass Spectrometry.
PB95-175394 *03,540*

MASS MEASUREMENT
Use of the Electronic Balance for Highly Accurate Direct Mass Measurements Without the Use of External Mass Standards.
PB94-187713 *03,803*

MEISSNER EFFECT

Meissner, Shielding, and Flux Loss Behavior in Single-Crystal YBa2Cu3O6+x.
PB94-198744 04,464

MELNIKOV'S METHOD

Dynamics of Multi-DOF Stochastic Nonlinear Systems.
PB97-113245 00,477

MELTING

Shear-Induced Melting of Two-Dimensional Solids.
PB96-112057 01,075

MELTING LINE

Pressure Measurements with the Mercury Melting Line Referred to ITS-90.
PB96-161005 01,136

MELTING POINT

Radiance Temperature (in the Wavelength Range 519-906 nm) of Tungsten at Its Melting Point by a Pulse-Heating Technique.
PB94-172590 03,397

Wavelength Dependence of Normal Spectral Emissivity of High-Temperature Metals at Their Melting Point.
PB94-200011 03,398

MELTING POINT DEPRESSION

Melting Behavior of Organic Materials Confined in Porous Solids.
PB94-212313 00,834

MELTING POINTS

Melting Behavior of Organic Materials Confined in Porous Solids.
PB94-212313 00,834

Standard Reference Material 1744: Aluminum Freezing-Point Standard.
PB95-251732 01,055

Radiance Temperatures (in the Wavelength Range 523-907 nm) of Group IV B Transition Metals Titanium, Zirconium, and Hafnium at Their Melting Points by a Pulse-Heating Technique.
PB96-102207 03,356

Measurements of Thermophysical Properties of Nickel Near Its Melting Temperature by a Microsecond-Resolution Transient Technique.
PB96-102579 04,210

Radiance Temperatures (in the Wavelength Range 523-907 nm) of Group IVB Transition Metals Titanium, Zirconium, and Hafnium at Their Melting Points by a Pulse-Heating Technique.
PB96-135025 02,677

MELTS

Influence of Shear on the Ordering Temperature of a Triblock Copolymer Melt.
PB96-163753 01,288

MELTS (CRYSTAL GROWTH)

Fluorescence Anisotropy Measurements on a Polymer Melt as a Function of Applied Shear Stress.
PB94-199296 01,209

Observations of Shear Induced Molecular Orientation in a Polymer Melt Using Fluorescence Anisotropy Measurements.
PB94-199304 01,210

Observations of Shear Stress and Molecular Orientation Using Fluorescence Anisotropy Measurements.
PB94-199312 01,211

Shear-Induced Martensitic-Like Transformation in a Block Copolymer Melt.
PB96-119508 01,277

MEMBRANE LIPIDS

Membrane-Mediated Precipitation of Calcium Phosphate in Model Liposomes with Matrix Vesicle-Like Lipid Composition.
PB95-164547 03,468

Effect of 1-Hydroxyethylidene-1,1-Bisphosphonate on Membrane-Mediated Calcium Phosphate Formation in Model Liposomal Suspensions.
PB95-169223 03,469

MEMBRANE POTENTIAL

Electropermeabilization of Cell Membranes: Effect of the Resting Membrane Potential.
PB95-163291 03,537

MEMBRANES

Performance Approach to the Development of Criteria for Low-Sloped Roof Membranes.
PB94-160751 00,329

Application of Thermal Analysis Techniques to the Characterization of EPDM Roofing Membrane Materials.
PB95-125845 00,359

Use of Thermal Mechanical Analysis to Characterize Ethylene-Propylene-Diene Terpolymer (EPDM) Roofing Membrane Materials.
PB95-125852 00,360

Gas Transport Properties of Solution-Cast Perfluorosulfonic Acid Ionomer Films Containing Ionic Surfactants.
PB95-175998 01,267

Extending the Angular Range of Neutron Reflectivity Measurements from Planar Lipid Bilayers: Applications to a Model Biological Membrane.
PB96-122569 03,476

Swelling and Growth of Polymers, Membranes and Sponges.
PB97-118400 03,396

MEMORY FUNCTION

Memory Function Approach to the Shape of Pressure Broadened Molecular Bands.

MERCURY

Pressure Measurements with the Mercury Melting Line Referred to ITS-90.
PB96-161005 01,136

MERCURY BARIUM CALCIUM CUPRATES

Calibration of High-Energy Electron Beams by Use of Graphite Calorimeters.
PB95-161113 04,598

MERCURY CADMIUM TELLURIDES

Correlation of HgCdTe Epilayer Defects with Underlying Substrate Defects by Synchrotron X-Ray Topography.
PB94-200714 02,129

High-Spatial-Resolution Resistivity Mapping Applied to Mercury Cadmium Telluride.
PB94-212917 02,131

Review of Semiconductor Microelectronic Test Structures with Applications to Infrared Detector Materials and Processes.
PB94-212925 02,132

Investigation of Mercury Interstitials in Hg(1-x)CdxTe Alloys Using Resonant Impact-Ionization Spectroscopy.
PB94-213485 02,133

Heavily Accumulated Surfaces of Mercury Cadmium Telluride Detectors: Theory and Experiment.
PB94-216074 02,134

Hg1-xCdxTe Characterization Measurements: Current Practice and Future Needs.
PB95-164299 02,157

Electrical Characterization of Liquid-Phase Epitaxially Grown Single-Crystal Films of Mercury Cadmium Telluride by Variable-Magnetic-Field Hall Measurements.
PB95-175782 02,177

Magneto-Transport Properties of HgCdTe.
PB95-175840 04,661

Characterization of LPE HgCdTe Film by Magnetoresistance.
PB96-157961 02,197

MERCURY INTRUSION POROSIMETRY

Digitized Simulation of Mercury Intrusion Porosimetry.
PB94-172236 01,304

MERCURY IONS

Wavelengths and Isotope Shifts for Lines of Astrophysical Interest in the Spectrum of Doubly Ionized Mercury (Hg III).
PB95-140869 03,887

Progress on a Cryogenic Linear Trap for (199)Hg(+) Ions.
PB95-180790 03,965

MERCURY OXIDES

Oxygen Dependance of the Crystal Structure of HgBa2CuO4+ and Its Relation to Superconductivity.
PB96-102512 04,711

MERCURY PENCIL LAMP

Wavelengths of Spectral Lines in Mercury Pencil Lamps.
PB96-176474 04,376

MERCURY PENCIL LAMPS

Irradiances of Spectral Lines in Mercury Pencil Lamps.
PB96-176466 04,375

MERGED BEAMS

Merged-Beams Energy-Loss Technique for Electron-Ion Excitation: Absolute Total Cross Sections for O(5+) (2s yields 2p).
PB96-102058 04,017

MEROCYANINE 540

Radiation Chemistry of Cyanine Dyes: Oxidation and Reduction of Merocyanine 540.
PB94-211661 00,818

MESOSCOPIC

Mesoscopic Conductance Fluctuations in Large Devices.
PB96-119656 04,735

MESOSCOPICS

Observation of Hot-Electron Shot Noise in a Metallic Resistor.
PB97-112007 01,988

MESSAGE-PASSING INTERFACE

Experience with MPI: 'Converting Pvmmake to Mpimake under LAM' and 'MPI and Parallel Genetic Programming'.
PB96-141296 01,748

MESSAGE PROCESSING

Analysis of ANSI ASC X12 and UN/EDIFACT Electronic Data Interchange (EDI) Standards.
PB95-220554 01,729

National Voluntary Laboratory Accreditation Program. GOSIP: Government Open Systems Interconnection Profile.
PB95-267993 01,486

METABOLITES

Determination of 3-Quinuclidinyl Benzilate (Qnb) and Its Major Metabolites in Urine by Isotope Dilution Gas Chromatography Mass Spectrometry.
PB94-199379 03,492

METADATA

Application of Metadata Standards.
PB96-180187 01,771

METAL CARBONYLS

Photodecomposition of Mo(CO)6/Si(111) 7x7: CO State-Resolved Evidence for Excited State Relaxation and Quenching.
PB95-180154 01,009

METAL CLUSTERS

Characterization of the Interaction of Hydrogen with Iridium Clusters in Zeolites by Inelastic Neutron Scattering Spectroscopy.
PB95-180741 01,013

METAL COATINGS

In situ Measurements of Chloride Ion and Corrosion Potential at the Coating/Metal Interface.
PB95-140893 03,122

Aging Effects on XRF Measurements of Solder Coatings.
PB95-140927 03,123

METAL FILMS

Electrical Method for Determining the Thickness of Metal Films and the Cross-Sectional Area of Metal Lines.
PB95-203170 02,370

METAL IONS

Electrodeposition.
PB94-172517 00,760

METAL-LIGAND BINDING

Analysis of Protein Metal Binding Selectivity in a Cluster Model.
PB94-212990 00,845

METAL MATRIX COMPOSITES

Wear Mechanism Maps of Ceramics.
PB94-172368 03,229

Status of Electrocomposites.
PB94-212453 03,143

Thermal Expansion of an SiC Particle-Reinforced Aluminum Composite.
PB94-213204 03,144

Surface Energy Reduction in Fibrous Monotectic Structures.
PB95-140828 03,150

Residual Stresses in Aluminum-Mullite (alpha-Alumina) Composites.
PB95-152880 03,155

Elastic Properties of Al2O3/Al Composites: Measurements and Modeling.
PB95-161378 03,157

METAL PLATES

Determination of the Residual Stresses Near the Ends of Skip Welds Using Neutron Diffraction and X-ray Diffraction Procedures.
PB95-253589 02,868

METAL POWDER

Micromechanics of Densification and Distortion.
PB94-200326 03,327

Intelligent Control of an Inert Gas Atomization Process.
PB95-141057 03,344

METAL POWDERS
Development of Adaptive Control Strategies for Inert Gas Atomization.
PB95-162335 02,823

METAL SHEETS
Fracture Behavior of Large-Scale Thin-Sheet Aluminum Alloy.
N95-19494/0 03,311

Ultrasonic Measurement of Sheet Anisotropy and Formability.
PB95-153235 03,213

METAL SURFACES
Scanning Tunneling Microscopy and Fabrication of Nanometer Scale Structures at the Liquid-Gold Interface.
PB95-140414 00,904

METAL VAPORS
Vapor Transport in Materials and Process Chemistry.
PB94-211745 00,669

METALLIC IONS
Calorimetric Determination of the Standard Transformed Enthalpy of a Biochemical Reaction at Specified PH and pMg.
PB94-198249 03,454

METALLOIDS
Atmospheric and Marine Trace Chemistry: Interfacial Biomediation and Monitoring.
PB94-199122 03,752

METALLOPORPHYCENES
One-Electron Oxidation of Metalloporphycenes as Studied by Radiolytic Methods.
PB97-111967 01,179

METALLURGY
Fabrication of Platinum-Gold Alloys in Pre-Hispanic South America: Issues of Temperature and Microstructure Control.
PB94-211646 03,333

Metallurgy Technical Activities 1994 (NAS-NRC Assessment Panel, April 6-7, 1995).
PB96-136981 02,981

Metallurgy. Technical Activities, 1995.
PB96-195284 03,003

METALS
Standard Materials. A Descriptive List with Prices.
AD-A278 140/9 00,500

Thermal Conductivity of Metals and Alloys at Low Temperatures. A Review of the Literature.
AD-A279 180/4 03,302

High Temperature Reactions of Uranium Dioxide with Various Metal Oxides.
AD-A286 648/1 00,717

Intelligent Processing of Hot Isostatic Pressing.
PB94-172913 03,315

Calorimetric Determination of the Standard Transformed Enthalpy of a Biochemical Reaction at Specified PH and pMg.
PB94-198249 03,454

Atmospheric and Marine Trace Chemistry: Interfacial Biomediation and Monitoring.
PB94-199122 03,752

Investigation into a Practical Grain Growth Model for Hot Isostatic Pressing.
PB95-151684 03,347

Radiance Temperatures (in the Wavelength Range 523-907 nm) of Group IVB Transition Metals Titanium, Zirconium, and Hafnium at Their Melting Points by a Pulse-Heating Technique.
PB96-135025 02,677

Suppression of Ignition Over a Heated Metal Surface.
PB96-176425 03,291

Characterization of the Structure of YD3 by Neutron Powder Diffraction.
PB96-186150 01,161

CRYSTMET: The NRCC Metals Crystallographic Data File.
PB97-109029 04,799

Self-Consistent 'GW' and Higher-Order Calculations of Electron States in Metals.
PB97-119341 01,189

METAPHOSPHORIC ACID
Ascorbic and Dehydroascorbic Acids Measured in Plasma Preserved with Dithiothreitol or Metaphorphoric Acid.
PB94-216330 03,495

Measurement of Ascorbic Acid in Human Plasma and Serum: Stability, Intralaboratory Repeatability, and Interlaboratory Reproducibility.
PB97-112445 03,511

METASTABLE ATOMS
Microlithography by Using Neutral Metastable Atoms and Self-Assembled Monolayers.
PB96-190038 02,441

METEOR BURST COMMUNICATIONS
Comparison of Meteor Activity with Occurrence of Sporadic E Reflections.
AD-A292 039/5 00,116

METEORS
Comparison of Meteor Activity with Occurrence of Sporadic E Reflections.
AD-A292 039/5 00,116

METHACRYLATE/HYDROXYETHYL
Effects of Surface-Active Resins on Dentin/Composite Bonds.
PB95-140448 00,156

METHACRYLATES
Ring-Opening Polymerication of a 2-Methylene Spiro Orthocarbonate Bearing a Pendant Methacrylate Group.
PB95-176145 01,268

METHAMPHETAMINE
Determination of Amphetamine and Methamphetamine in a Lyophilized Human Urine Reference Material.
PB95-175444 03,597

METHANE
Thermodynamic Properties of the Methane-Ethane System.
PB95-125779 00,891

Chemical Inhibition of Methane-Air Diffusion Flame.
PB96-195532 01,431

Computations of Enhanced Soot Production in Time-Varying CH4/Air Diffusion Flames.
PB97-119218 01,440

NO Production and Destruction in a Methane/Air Diffusion Flame.
PB97-122519 01,443

METHANE/DIFLUORO
Thermodynamic Properties of Difluoromethane.
PB94-185204 00,772

METHANE-MARKER DEVICES
Simple and Efficient Methane-Marker Devices for Chromatographic Samples.
PB96-164041 00,635

METHANOL
Molecular-Beam Optothermal Spectrum of the OH Stretching Band of Methanol.
PB94-212826 00,839

Combustion of Methanol and Methanol/Dodecanol Spray Flames.
PB95-108544 02,478

Far Infrared Laser Frequencies of (13)CD3OH.
PB95-169363 04,292

Absolute Frequency Measurements of Methanol from 1.5 to 6.5 THz.
PB95-175881 04,300

METHANOL PEROXY RADICAL
Kinetics of the Self-Reaction of Hydroxymethylperoxyl Radicals.
PB94-212164 00,827

METHLACETYLENE
Rotational Spectra of CH3CCH-NH3, NCCCH-NH3, and NCCCH-OH2.
PB97-118798 04,170

METHOD OF CENTERS
Algorithmic Enhancements to the Method of Centers for Linear Programming Problems.
PB94-198959 03,426

METHOXY RADICALS
Observation of a Stable Methoxy Intermediate on Cr(110).
PB95-164422 00,981

METHOXYANISOLES
Thermal Decomposition of Hydroxy- and Methoxy-Substituted Anisoles.
PB94-173036 00,767

METHYL ALCOHOL
Far Infrared Laser Frequencies of (13)CD3OH.
PB95-169363 04,292

Effect of Dodecanol Content on the Combustion of Methanol Spray Flames.
PB95-176020 01,389

Far Infrared Laser Frequencies of CH3OD and N2H4.
PB96-119623 04,341

METHYL BROMIDE
Measurement of Atmospheric Methyl Bromide Using Gravimetric Gas Standards.
PB96-155494 02,497

METHYL METHACRYLATE
Thermal Behaviour of Methyl Methacrylate and N-Phenyl Maleimide Copolymers.
PB95-152237 01,246

METHYL PENDANT PBZT
Evidence of Crosslinking in Methyl Pendent PBZT Fiber.
PB97-112486 03,393

METHYL RADICALS
Laser Flash Photolysis/Time-Resolved FTIR Emission Study of a New Channel in the Reaction of CH3+O: Production of CO(v).
PB95-164281 00,974

METHYLENE LACTONES
Evaluation of Methylene Lactone Monomers in Dental Resins.
PB95-164661 00,164

METRIC SYSTEM
Report on the Meeting of the CCU (10th) (of the International Committee of Weights and Measures). Held on July 10-11, 1990.
PB94-172889 03,792

Metric for Success.
PB94-187630 02,633

Metric Path to Global Markets and New Jobs: A Question-and-Answer and Thematic Discussion.
PB94-206307 02,601

Think Metric.
PB95-151825 01,298

Guide for the Use of the International System of Units (SI).
PB95-226692 02,747

METRICATION: An Economic Wake-Up Call for Surveyors and Mappers.
PB96-159629 03,680

METRIC SYSTEMS
Federal Metric Progress in 1993.
PB94-196029 02,600

METRICATION
Metrication.
PB94-172079 03,676

Metric for Success.
PB94-187630 02,633

Federal Labs Have Key Role in Metrication.
PB96-123401 02,920

METROLOGY
NIST Handbook 44, 1994: Specifications, Tolerances and Other Technical Requirements for Weighing and Measuring Devices as Adopted by the 78th National Conference on Weights and Measures 1993.
PB94-136009 02,888

Report of the National Conference on Weight and Measures (78th). Held in Kansas City, MO. on July 18-22, 1993.
PB94-138989 02,623

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, January to March 1991, with 1991 EEEL Events Calendar.
PB94-145968 02,113

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Programs, October to December 1993, with 1994/1995 EEEL Events Calendar.
PB94-154341 02,115

Metrology for Electromagnetic Technology: A Bibliography of NIST Publications.
PB94-159761 02,116

Center for Electronics and Electrical Engineering Technical Progress Bulletin Covering Center Programs, October to December, with 1991 CEEE Events Calendar.
PB94-159787 02,296

National Type Evaluation Program: Index of Device Evaluations by Company. NCWM Publication 5 Part A (Second Edition).
PB94-160835 02,889

U.S. Navy Coordinate Measuring Machines: A Study of Needs.
PB94-162831 02,807

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, October to December 1992, with 1992/1993 EEEL Events Calendar.
PB94-165958 02,299

Process for Selecting Standard Reference Algorithms for Evaluating Coordinate Measurement Software.
PB94-173754 02,629

NIST Response to the Fifth CORM Report on the Pressing Problems and Projected Needs in Optical Radiation Measurements.
PB94-188240 04,227

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, October to December 1993 with 1994/1995 EEEL Events Calendar.
PB94-193752 02,307

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, January to March 1994 with 1994/1995 EEEL Events Calendar.
PB94-193810 02,308

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, July to September 1993 with 1994 EEEL Events Calendar.
PB94-194354 02,309

Computer Vision Based Tool Setting Station.
PB94-199858 02,944

Metrological Measurement Accuracy: Discussion of 'Measurement Error Models' by Leon Jay Gleser.
PB94-200607 00,551

Advanced Angle Metrology System.
PB94-211364 02,637

Precision, Accuracy, Uncertainty and Traceability and Their Application to Submicrometer Dimensional Metrology.
PB94-213105 02,319

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, January to March 1994 with 1994/1995 EEEL Events Calendar.
PB94-213774 01,883

Metrology for Electromagnetic Technology: A Bibliography of NIST Publications.
PB95-135588 02,143

Sensitivity of Three-Point Circle Fitting.
PB95-136354 *02,901*

Metrology Requirements of Future Space Power Systems.
PB95-140984 *04,840*

Metrology and Data for Microelectronic Packaging and Interconnection: Results of a Joint Workshop on Materials Metrology and Data for Commercial Electrical and Optical Packaging and Interconnection Technologies. Held in Gaithersburg, Maryland on May 5-6, 1994. Volume 1. Results.
PB95-143111 *02,328*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, April to June 1994 with 1994/1995 EEEL Events Calendar.
PB95-143186 *02,329*

Electronics and Electrical Engineering Laboratory 1994 Technical Accomplishments Supporting Technology for U.S. Competitiveness in Electronics.
PB95-144309 *01,887*

Electronics and Electrical Engineering Laboratory 1995 Program Plan. Supporting Technology for U.S. Competitiveness in Electronics.
PB95-159885 *01,894*

Metrology.
PB95-164497 *03,946*

Report of the National Conference on Weights and Measures (79th). Held in San Diego, California on July 17-21, 1994.
PB95-169819 *02,656*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, July to September 1994 with 1994/1995 EEEL Events Calendar.
PB95-170395 *02,360*

Program of the Manufacturing Engineering Laboratory, 1995. Infrastructural Technology, Measurements, and Standards for the U.S. Manufacturing Industries.
PB95-188835 *02,754*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, July to September 1994 with 1995 EEEL Events Calendar.
PB95-198925 *01,912*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, October to December 1994 with 1995 EEEL Events Calendar.
PB95-208724 *02,372*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, April to June 1991, with 1992 EEEL Events Calendar.
PB95-209821 *01,916*

Design, Specification and Tolerancing of Micrometer-Tolerance Assemblies.
PB95-209862 *02,913*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, January to March 1992, with 1992/1993 EEEL Events Calendar.
PB95-210480 *01,917*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, January to March 1995 with 1995 EEEl Events Calendar.
PB95-242277 *02,373*

Algorithm Testing and Evaluation Program for Coordinate Measuring Systems: Testing Methods.
PB95-251658 *02,666*

Gage Block Handbook.
PB95-251716 *02,667*

Journal of Research of the National Institute of Standards and Technology, May/June 1995. Volume 100, Number 3.
PB95-261897 *02,670*

Determining the Magnetic Properties of 1 kg Mass Standards.
PB95-261905 *04,016*

High Accuracy Measurement of Aperture Area Relative to a Standard Known Aperture.
PB95-261954 *01,919*

Application of Single Electron Tunneling: Precision Capacitance Ratio Measurements.
PB96-102157 *04,703*

Journal of Research of the National Institute of Standards and Technology, July/August 1995. Volume 100, Number 4. Special Issue: The Gaseous Electronics Conference Radio-Frequency Reference Cell.
PB96-113311 *02,386*

Journal of Research of the National Institute of Standards and Technology, November/December 1994. Volume 99, Number 6.
PB96-113535 *04,336*

Semiconductor Measurement Technology: Test Structure Implementation Document: DC Parametric Test Structures and Test Methods for Monolithic Microwave Integrated Circuits (MMICs).
PB96-117692 *02,399*

Journal of Research of the National Institute of Standards and Technology, September/October 1995. Volume 100, Number 5.
PB96-117767 *01,927*

Electronics Packaging Materials Research at NIST.
PB96-122692 *02,405*

Electromagnetic Properties of Materials: The NIST Metrology Program.
PB96-122791 *01,933*

Bibliography of the NIST Optoelectronics Division.
PB96-128210 *02,193*

Metrology for Electromagnetic Technology: A Bibliography of NIST Publications, September 1995.
PB96-128269 *01,938*

Metrology Issues in Terahertz Physics and Technology.
PB96-128277 *01,939*

Metallurgy Technical Activities 1994 (NAS-NRC Assessment Panel, April 6-7, 1995).
PB96-136981 *02,981*

Progress Toward Accurate Metrology Using Atomic Force Microscopy.
PB96-146774 *02,417*

New NIST/ARPA National Soft X-ray Reflectometry Facility.
PB96-158092 *04,080*

Journal of Research of the National Institute of Standards and Technology, November/December 1995. Volume 100, Number 6.
PB96-159215 *01,949*

Calibration of Electret-Based Integral Radon Monitors Using NIST Polyethylene-Encapsulated (226)Ra/(222)Rn Emanation (PERE) Standards.
PB96-159223 *01,950*

Generating and Measuring Displacements Up to 0.1 m to an Accuracy of 0.1 nm: Is It Possible.
PB96-160700 *04,090*

Metrology Standards for Advanced Semiconductor Lithography Referenced to Atomic Spacings and Geometry.

Optical Fiber Geometry: Accurate Measurement of Cladding Diameter.
PB95-151940 *04,266*

Journal of Research of the National Institute of Standards and Technology, July/August 1994. Volume 99, Number 4. Special Issue: Extreme Value Theory and Applications. Proceedings of the Conference on Extreme Value Theory and Applications, Volume 2. Held at Gaithersburg, Maryland, in May 1993.
PB95-160594 *03,440*

Satellite Two-Way Time Transfer: Fundamentals and Recent Progress.
PB95-161089 *01,536*

Optical Fiber Geometry by Gray-Scale Analysis with Robust Regression.
PB95-161519 *04,272*

Measurement of Surface Tension of Tantalum by a Dynamic Technique in a Microgravity Environment.
PB95-161667 *03,932*

Dimensional Characterization of Small Bores: A Survey.
PB95-162202 *02,651*

X-Ray Image Quality Indicator Designed for Easy Alignment.
PB95-164455 *02,907*

Comparison of UV-Induced Fluorescence and Bragg Grating Growth in Optical Fiber.
PB95-168597 *04,284*

Widths and Propagation of a Truncated Gaussian Beam.
PB95-168779 *04,287*

Metrological Accuracy of the Electron Pump.
PB95-168910 *03,951*

Journal of Research of the National Institute of Standards and Technology, September/October 1994. Volume 99, Number 5.
PB95-169371 *04,293*

Reduction of Interfilament Contact Loss in Nb3Sn Superconductor Wires.
PB95-175535 *02,223*

Photodetector Frequency Response Measurements at NIST, US, and NPL, UK: Preliminary Results of a Standards Laboratory Comparison.
PB95-175592 *02,175*

Time and Frequency: Bibliography of NIST Publications, March 1995.
PB95-220463 *01,548*

Reproducibility of the Temperature of the Ice Point in Routine Measurements.
PB95-255923 *04,015*

Journal of Research of the National Institute of Standards and Technology, May/June 1995. Volume 100, Number 3.
PB95-261897 *02,670*

High Accuracy Measurement of Aperture Area Relative to a Standard Known Aperture.
PB95-261954 *01,919*

Intracomparison Tests of the FG5 Absolute Gravity Meters.
PB96-102991 *03,688*

Contributions of Out-of-Plane Material to a Scanned-Beam Laminography Image.
PB96-111786 *02,704*

Comparison of Photodiode Frequency Response Measurements to 40 GHz between NPL and NIST.
PB96-111992 *04,038*

Journal of Research of the National Institute of Standards and Technology, July/August 1995. Volume 100, Number 4. Special Issue: The Gaseous Electronics Conference Radio-Frequency Reference Cell.
PB96-113311 *02,386*

Journal of Research of the National Institute of Standards and Technology, November/December 1994. Volume 99, Number 6.
PB96-113535 *04,336*

Journal of Research of the National Institute of Standards and Technology, September/October 1995. Volume 100, Number 5.
PB96-117767 *01,927*

Journal of Research of the National Institute of Standards and Technology, March/April 1995. Volume 100, Number 2.
PB96-126180 *04,349*

Apparatus for Resistance Measurement of Short, Small-Diameter Conductors.
PB96-141130 *04,417*

Metrology Approach to Unifying Rockwell C Hardness Scales.
PB96-155551 *02,957*

Liquid-Nitrogen-Cooled High Tc Electrical Substitution Radiometer as a Broadband IR Transfer Standard.
PB96-158704 *02,198*

Journal of Research of the National Institute of Standards and Technology, November/December 1995. Volume 100, Number 6.
PB96-159215 *01,949*

New Method for Achieving Accurate Thickness Control for Uniform and Graded Multilayer Coatings on Large Flat Substrates.
PB96-159744 *04,366*

New Concepts of Precision Dimensional Measurement for Modern Manufacturing.
PB96-160684 *02,924*

Nanometrology.
PB96-160726 *02,425*

Scanned Probe Microscopies: Opportunities and Issues in Metrology.
PB96-160783 *02,426*

Journal of Research of the National Institute of Standards and Technology, September/October 1993. Volume 98, Number 5.
PB96-169057 *03,368*

Transformation of BCC and B2 High Temperature Phases to HCP and Orthorhombic Structures in the Ti-Al-Nb System. Part 1. Microstructural Predictions Based on a Subgroup Relation between Phases.
PB96-169065 *03,370*

Transformation of BCC and B2 High Temperature Phases to HCP and Orthorhombic Structures in the Ti-Al-Nb System. Part 2. Experimental TEM Study of Microstructures.
PB96-169073 *03,371*

Corrosion Characteristics of Silicon Carbide and Silicon Nitride.
PB96-169081 *03,372*

Journal of Research of the National Institute of Standards and Technology, January/February 1996. Volume 101, Number 1.

NIST High Accuracy Scale for Absolute Spectral Response from 406 nm to 920 nm.
PB96-179122 *01,865*

Texture Measurement of Sintered Alumina Using the March-Dollase Function.
PB96-179494 *04,784*

Time and Frequency Metrology.
PB96-190319 *01,556*

Journal of Research of the National Institute of Standards and Technology, May/June 1996. Volume 101, Number 3. Special Issue: NIST Workshop on Crystallographic Databases.
PB97-109011 *04,798*

Model of an Optical Roughness-Measuring Instrument.
PB97-110209 *04,384*

Optical Scattering from Moderately Rough Surfaces.
PB97-110415 *04,385*

Present and Future Standard Specimens for Surface Finish Metrology.
PB97-110423 *02,928*

Light Scattering by Sinusoidal Surfaces: Illumination Windows and Harmonics in Standards.
PB97-110548 *04,387*

Characterization of Modified FEL Quartz-Halogen Lamps for Photometric Standards.
PB97-112544 *00,282*

Issues in High-Speed Pyrometry.
PB97-118368 *02,693*

METROPOLITAN AREAS

Metropolitan Areas (Including MSAs, CMSAs, PMASs, and NECMAs). Category: Data Standards and Guidelines; Subcategory: Representations and Codes.
FIPS PUB 8-6 *04,873*

FIPS PUB 8-6, Metropolitan Areas (for Microcomputers).
PB95-503280 *04,874*

MICA

Diffusion of Water along 'Closed' Mica Interfaces.
PB96-180039 *02,993*

MICELLAR ELECTROKINETIC CAPILLARY CHROMATOGRAPHY

Separation and Identification of Organic Gunshot and Explosive Constituents by Micellar Electrokinetic Capillary Electrophoresis.
PB95-107249 *00,566*

MICHAELIS-MENTEN EQUATION

Michaelis-Menten Equation for an Enzyme in an Oscillating Electric Field.
PB95-140489 *00,906*

MICHELSON INTERFEROMETERS

New Refractometer by Combining a Variable Length Vacuum Cell and a Double-Pass Michelson Interferometer.
PB97-111926 *01,986*

MICRO CALORIMETERS

Hot-Electron Microcalorimeter for X-ray Detection Using a Superconducting Transition Edge Sensor with Electrothermal Feedback.
PB96-200399 *04,792*

MICROACTUATORS

Test Structures for Determining Design Rules for Microelectromechanical-Based Sensors and Actuators.
PB95-150488 *02,105*

MICROALLOYING

Microstructure and Tensile Properties of Microalloyed Steel Forgings.
PB94-172715 *03,204*

MICROANALYSIS

Concentration Histogram Imaging: A Scatter Diagram Technique for Viewing Two or Three Related Images.
PB94-199114 *00,542*

Electron Probe X-Ray Microanalysis.
PB95-107165 *00,562*

Microanalysis to Nanoanalysis: Measuring Composition at High Spatial Resolution.
PB95-107173 *00,563*

Distribution of Fluoride in Saliva and Plaque Fluid After a 0.048 mol/L NaF Rinse.
PB95-151205 *03,561*

Micromagnetic Scanning Microprobe System.
PB95-176178 *02,224*

MICROBIAL DEGRADATION

Microbial Degradation of Polysulfides and Insights into Their Possible Occurrence in Coal.
PB95-163374 *02,488*

MICROBOLOMETER

Niobium Microbolometers for Far-Infrared Detection.
PB96-111729 *02,184*

MICROBOLOMETERS

Ultrasensitive-Hot-Electron Microbolometer.
PB95-168985 *02,163*

High-Tc Superconducting Antenna-Coupled Microbolometer on Silicon.
PB95-169124 *02,166*

Antenna-Coupled High-Tc Air-Bridge Microbolometer on Silicon.
PB95-180899 *04,315*

MICROCALORIMETERS

New Coaxial Microwave Microcalorimeter Evaluation Technique.
PB95-153227 *01,892*

Hot-Electron Microcalorimeters for X-ray and Phonon Detection.
PB95-168993 *04,644*

Method to Determine the Calorimetric Equivalence Correction for a Coaxial Microwave Microcalorimeter.
PB95-202404 *01,913*

Hot-Electron Microcalorimeters as High-Resolution X-ray Detectors.
PB96-123641 *04,739*

Hot-Electron-Microcalorimeters with 0.25 mm(2) Area.
PB96-200670 *04,793*

MICROCRACK

Model for Microcrack Initiation and Propagation beneath Hertzian Contacts in Polycrystalline Ceramics.
PB96-163704 *03,077*

MICROCRACKING

Asymmetric Tip Morphology of Creep Microcracks Growing Along Bimaterial Interfaces.
PB94-200243 *03,138*

MICROCRACKS

Elastic Constants and Microcracks in YBa2Cu3O7.
PB96-200761 *03,005*

MICRODOSIMETRY

Microdosimetry and Cellular Radiation Effects of Radon Progency in Human Bronchial Airways.
PB95-152344 *03,625*

MICROELECTROMECHANICS

Directions in MEMS Research Application Development.
PB95-153797 *02,106*

MEMS in Standard CMOS VLSI Technology.
PB96-102363 *02,377*

MICROELECTRONICS

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, January to March 1991, with 1991 EEEL Events Calendar.
PB94-145968 *02,113*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Programs, October to December 1993, with 1994/1995 EEEL Events Calendar.
PB94-154341 *02,115*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, October to December 1993 with 1994/1995 EEEL Events Calendar.
PB94-193752 *02,307*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, January to March 1994 with 1994/1995 EEEL Events Calendar.
PB94-193810 *02,308*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, July to September 1993 with 1994 EEEL Events Calendar.
PB94-194354 *02,309*

Test Structures for the In-Plane Locations of Projected Features with Nanometer-Level Accuracy Traceable to a Coordinate Measurement System.
PB94-200565 *02,313*

Wire Bond Testing.
PB94-211653 *02,314*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, January to March 1994 with 1994/1995 EEEL Events Calendar.
PB94-213774 *01,883*

Metrology and Data for Microelectronic Packaging and Interconnection: Results of a Joint Workshop on Materials Metrology and Data for Commercial Electrical and Optical Packaging and Interconnection Technologies. Held in Gaithersburg, Maryland on May 5-6, 1994. Volume 1. Results.
PB95-143111 *02,328*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, April to June 1994 with 1994/1995 EEEL Events Calendar.
PB95-143186 *02,329*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, July to September 1994 with 1994/1995 EEEL Events Calendar.
PB95-170395 *02,360*

New Test Structure for Nanometer-Level Overlay and Feature-Placement Metrology.
PB95-175345 *02,363*

Microelectronic Test Structures for Feature Placement and Electrical Linewidth Metrology.
PB95-180568 *02,367*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, July to September 1994 with 1995 EEEL Events Calendar.
PB95-198925 *01,912*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, April to June 1991, with 1992 EEEL Events Calendar.
PB95-209821 *01,916*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, January to March 1995 with 1995 EEEI Events Calendar.
PB95-242277 *02,373*

Gaseous Electronics Conference RF Reference Cell: An Introduction.
PB96-113329 *02,387*

Current and Voltage Measurements in the Gaseous Electronics Conference RF Reference Cell.
PB96-113337 *02,388*

Optical Emission Spectroscopy on the Gaseous Electronics Conference RF Reference Cell.
PB96-113345 *02,389*

Optical Diagnostics in the Gaseous Electronics Conference Reference Cell.
PB96-113352 *02,390*

Studies of Ion Kinetic-Energy Distributions in the Gaseous Electronics Conference RF Reference Cell.
PB96-113360 *02,391*

Microwave Diagnostic Results from the Gaseous Electronics Conference RF Reference Cell.
PB96-113378 *02,392*

Langmuir Probe Measurements in the Gaseous Electronics Conference RF Reference Cell.
PB96-113386 *02,393*

Inductively Coupled Plasma Source for the Gaseous Electronics Conference RF Reference Cell.
PB96-113394 *02,394*

Reactive Ion Etching in the Gaseous Electronics Conference RF Reference Cell.
PB96-113402 *02,395*

Dusty Plasma Studies in the Gaseous Electronics Conference Reference Cell.
PB96-113410 *02,396*

One-Dimensional Modeling Studies of the Gaseous Electronics Conference RF Reference Cell.
PB96-113428 *02,397*

Two-Dimensional Self-Consistent Radio Frequency Plasma Simulations Relevant to the Gaseous Electronics Conference RF Reference Cell.
PB96-113436 *02,398*

Measurement of Patterned Film Linewidth for Interconnect Characterization.
PB96-148168 *02,420*

High-Speed Interconnection Characterization Using Time Domain Network Analysis.
PB96-148176 *04,061*

Microelectronic Test Structures for Overlay Metrology.
PB96-164249 *02,430*

Beyond the Technology Roadmaps: An Assessment of Electronic Materials Research and Development.
PB96-165998 *01,961*

MICROEMULSIONS

Flow of Microemulsions through Microscopic Pores.
PB95-140463 *00,905*

Structure of a Triglyceride Microemulsion: A Small Angle Neutron Scattering Study.
PB96-112255 *01,077*

MICROFORM

Microform Calibrations in Surface Metrology.
PB95-203295 *02,951*

MICROGRAVITY

Combustion of a Polymer (PMMA) Sphere in Microgravity.
N96-15569/2 *01,354*

Ignition and Subsequent Transition to Flame Spread in a Microgravity Environment.
N96-15584/1 *04,828*

Electric Field Effects on a Near-Critical Fluid in Microgravity.
PB96-161880 *04,217*

MICROINSTRUMENTATION

Integrated Thin-Film Micropotentiometers.
PB96-146709 *02,109*

MICROMACHINING

Realizing Suspended Structures on Chips Fabricated by CMOS Foundry Processes Through the MOSIS Service.
PB94-193984 *01,881*

High-Level CAD Melds Micromachined Devices with Foundries.
PB94-216413 *02,321*

Design and Machining of Copper Specimens with Micro Holes for Accurate Heat Transfer Measurements.
PB95-180428 *02,658*

Thermal Isolation of High-Temperature Superconducting Thin Films Using Silicon Wafer Bonding and Micromachining.
PB96-135017 *02,408*

Micromachined Display Output for a Cellular Neural Network.
PB96-156070 *02,422*

Micromachined Coplanar Waveguides in CMOS Technology.
PB97-119283 *02,456*

MICROMAGNETIC MODELS

Experimental Verification of a Micromagnetic Model of Dual-Layer Magnetic Films.
PB95-141081 *04,553*

MICROMAGNETICS

Numerical Micromagnetic Techniques and Their Applications to Magnetic Force Microscopy Calculations.
PB95-175931 *04,664*

MICROMECHANICS

Micromechanics of Fracture in Rubber-Toughened Epoxies.
PB94-212222 *03,011*

Hybrid Method for Determining Material Properties from Instrumented Micro-Indentation Experiments.
PB95-152229 *03,348*

MICROMETERS

Optical Fiber Geometry: Accurate Measurement of Cladding Diameter.
PB95-151940 *04,266*

MICROMINIATURIZATION

Directions in MEMS Research Application Development.
PB95-153797 *02,106*

MICROPHONES

Determination of Acoustic Center Correction for Type LS2aP Condensor Microphones.
PB96-204508 *04,190*

MICROSCOPE TIPS

Proposed Antiferromagnetically Coupled Dual-Layer Magnetic Force Microscope Tips.
PB95-169017 *04,645*

MICROSCOPES

Development of a Calibrated Atomic Force Microscope.
PB94-185683 *02,894*

Video Microscopy Applied to Optical Fiber Geometry Measurements.
PB95-173068 *04,295*

Flexible-Diaphragm Force Microscope.
PB95-180915 *03,966*

Standard Reference Materials for Optical Fibers and Connectors.
PB96-119805 *04,344*

MICROSCOPY

National Voluntary Laboratory Accreditation Program: Bulk Asbestos Analysis.
PB95-138129 *02,541*

Workshop Summary Report: Industrial Applications of Scanned Probe Microscopy. A Workshop Co-sponsored by NIST, SEMATECH, ASTM, E42.14, and the American Vacuum Society. Held in Gaithersburg, Maryland on March 24-25, 1994.
PB95-170387 *00,506*

Recent Results in Magnetic Force Microscopy.
PB96-103130 *04,721*

Summary Report: Workshop on Industrial Applications of Scanned Probe Microscopy (2nd). A Workshop Co-Sponsored by NIST, SEMATECH, ASTM E42.14, and the American Vacuum Society. Held in Gaithersburg, Maryland on May 2-3, 1995.
PB96-131602 *00,509*

Progress Toward Accurate Metrology Using Atomic Force Microscopy.
PB96-146774 *02,417*

Scanning Capacitance Microscopy Measurements and Modeling: Progress Towards Dopant Profiling of Silicon.
PB96-148150 *04,773*

2D-Scanning Capacitance Microscopy Measurements of Cross-Sectioned VLSI Teststructures.
PB96-163779 *04,104*

Scanning Capacitance Microscopy Measurements and Modeling for Dopant Profiling of Silicon.
PB96-164207 *04,781*

Morphology and Phase Separation Kinetics of a Compatibilized Blend.
PB97-119135 *01,297*

Vortex Images in Thin Films of YBa2Cu3O(sub 7-x) and Bi2Sr2Ca1Cu2O(sub 8+x) Obtained by Low-Temperature Magnetic Force Microscopy.
PB97-119408 *04,815*

MICROSENSORS

Test Structures for Determining Design Rules for Microelectromechanical-Based Sensors and Actuators.
PB95-150488 *02,105*

MICROSTRIP TRANSMISSION LINES

Crosstalk between Microstrip Transmission Lines.
PB94-135639 *02,210*

Crosstalk between Microstrip Transmission Lines. (NIST Reprint).
PB95-180337 *02,225*

Radiated Emissions and Immunity of Microstrip Transmission Lines: Theory and Measurements.
PB96-162649 *02,238*

MICROSTRIPS

Line-Reflect-Match Calibrations with Nonideal Microstrip Standards.
PB96-176599 *02,242*

MICROSTRUCTURAL DESIGN

Model for Toughness Curves in Two-Phase Ceramics. 2. Microstructural Variables.
PB96-163795 *03,078*

MICROSTRUCTURE

Microstructural Features of Some Low Water/Solids, Silica Fume Mortars Cured at Different Temperatures.
PB94-160777 *00,330*

Digitized Simulation of Mercury Intrusion Porosimetry.
PB94-172236 *01,304*

Microstructure and Tensile Properties of Microalloyed Steel Forgings.
PB94-172715 *03,204*

Energy and Migration of Grain Boundaries in Polycrystals.
PB94-211638 *03,332*

Fabrication of Platinum-Gold Alloys in Pre-Hispanic South America: Issues of Temperature and Microstructure Control.
PB94-211646 *03,333*

Effect of Microstructure on the Wear Transition of Zirconia-Toughened Alumina.
PB94-211778 *03,141*

Microstructural Evolution in Two-Dimensional Two-Phase Polycrystals.
PB94-211992 *04,498*

Compositional Mapping of the Microstructure of Materials.
PB95-107199 *00,565*

Computer Simulation of the Diffusivity of Cement-Based Materials.
PB95-125985 *00,362*

Fundamental Computer Simulation Models for Cement-Based Materials.
PB95-126009 *00,364*

Effect of Mn Content on the Microstructure of Al-Mn Alloys Electrodeposited at 150C.
PB95-126355 *03,343*

Rheology of Fresh Cement Paste.
PB95-163150 *00,378*

Wear Model for Alumina Sliding Wear.
PB95-163796 *03,239*

Cellular Automaton Simulations of Cement Hydration and Microstructure Development.
PB95-175055 *01,320*

Tensile Deformation-Induced Microstructures in Free-Standing Copper Thin Films.
PB96-102595 *04,715*

Low-Energy Vibrations and Octahedral Site Occupation in Nb95V5H(D)y.
PB96-160734 *01,133*

Neutron Spectroscopic Comparison of beta-Phase Rare Earth Hydrides.
PB96-160742 *01,134*

Phase Identification in a Scanning Electron Microscope Using Backscattered Electron Kikuchi Patterns.
PB97-109128 *04,804*

Multi-Scale Picture of Concrete and Its Transport Properties: Introduction for Non-Cement Researchers.
PB97-115802 *03,107*

MICROSTRUCTURE EFFECTS

Microstructure Effect on the Phase Behavior of Blends of Deuterated Polybutadiene and Protonated Polyisopene.
PB97-113146 *01,296*

MICROSTRUCTURES

Microlithography by Using Neutral Metastable Atoms and Self-Assembled Monolayers.
PB96-190038 *02,441*

MICROWAVE ABSORBERS

Bistatic Scattering of Absorbing Materials from 30 to 1000 MHz.
PB95-150934 *01,891*

MICROWAVE AMPLIFIERS

Comparison of Three Techniques for the Precision Measurement of Amplifier Noise.
PB95-163663 *02,349*

Measurement Accuracies for Various Techniques for Measuring Amplifier Noise.
PB95-163671 *02,350*

Investigations of AM and PM Noise in X-Band Devices.
PB95-180022 *02,062*

Origin of l/f PM and AM Noise in Bipolar Junction Transistor Amplifiers.
PB96-200787 *02,096*

Quest to Understand and Reduce l/f Noise in Amplifiers and Baw Quartz Oscillators.
PB96-200795 *02,097*

MICROWAVE CIRCUITS

Comments on 'Conversions between S, Z, Y, h, ABCD, and T Parameters Which Are Valid for Complex Source and Load Impedances'.
PB96-102785 *02,069*

Semiconductor Measurement Technology: Test Structure Implementation Document: DC Parametric Test Structures and Test Methods for Monolithic Microwave Integrated Circuits (MMICs).
PB96-117692 *02,399*

Microwave Characterization of Flip-Chip MMIC Components.
PB96-176722 *02,434*

Microwave Characterization of Flip-Chip MMIC Interconnections.
PB96-176730 *02,435*

Electrical Measurements of Microwave Flip-Chip Interconnections.
PB96-176748 *02,436*

30 MHz Comparison Receiver.
PB96-200407 *01,972*

MICROWAVE COMMUNITIES

NIST Metrology Program on Electromagnetic Characterization of Materials.
PB96-156062 *01,944*

MICROWAVE EQUIPMENT

Standard of Attenuation for Microwave Measurements.
AD-A297 905/2 *01,517*

NIST Model PM2 Power Measurement System for 1 mW at 1 GHz.
PB94-135803 02,018

Direct Comparison Transfer of Microwave Power Sensor Calibrations.
PB96-158654 02,086

MICROWAVE FREQUENCIES
Ferroelectric Thin Film Characterization Using Superconducting Microstrip Resonators.
PB96-102389 02,270

MICROWAVE OSCILLATORS
Investigations of AM and PM Noise in X-Band Devices.
PB95-180022 02,062

Phase Locking in Two-Dimensional Arrays of Josephson Junctions: Effect of Critical-Current Nonuniformity.
PB96-102587 04,714

Quest to Understand and Reduce I/f Noise in Amplifiers and Baw Quartz Oscillators.
PB96-200795 02,097

MICROWAVE POWER STANDARDS
New Coaxial Microwave Microcalorimeter Evaluation Technique.
PB95-153227 01,892

Method to Determine the Calorimetric Equivalence Correction for a Coaxial Microwave Microcalorimeter.
PB95-202404 01,913

Developing a NIST Coaxial Microwave Power Standard at 1 mW.
PB95-202412 01,914

Direct Comparison Transfer of Microwave Power Sensor Calibrations.
PB96-158654 02,086

MICROWAVE SENSORS
Performance of Commercial CMOS Foundry-Compatible Multijunction Thermal Converters.
PB95-153656 02,342

MICROWAVE SPECTRA
Tunneling-Rotation Spectrum of the Hydrogen Fluoride Dimer.
PB94-198678 00,793

2-Tunneling Path Internal-Axis-Method-Like Treatment of the Microwave Spectrum of Divinyl Ether.
PB94-200466 00,808

Microwave Spectra of van der Waals Complexes of Importance in Planetary Atmospheres.
PB95-150611 00,919

MICROWAVE SPECTROMETERS
Experimental Studies of Line Shapes from a Balle-Flygare Spectrometer.
PB94-199452 00,796

MICROWAVE SPECTROSCOPY
Microwave and Submillimeter Spectroscopy of Ar-NH3 States Correlating with Ar+NH3(j=1, k=1).
PB95-152211 00,942

MICROWAVE SPECTRUM
Microwave Spectrum and Structure of CH2O-H2O.
PB97-118723 04,168

MICROWAVE SUBSTRATES
Wire Bonding to Multichip Modules and Other Soft Substrates.
PB96-123583 02,079

Wire Bonding to Multichip Modules and Other Soft Substrates.
PB96-135207 02,082

MICROWAVE TRANSMISSION
Slant Path Atmospheric Refraction Calibrator: An Instrument to Measure the Microwave Propagation Delays Induced by Atmospheric Water Vapor.
PB95-151270 01,476

Microwave Diagnostic Results from the Gaseous Electronics Conference RF Reference Cell.
PB96-113378 02,392

MICROWAVES
Microwave Spectrum and Structure of CH3NO2-H20.
AD-A296 377/5 00,719

Molecular Microwave Spectra Tables.
AD-A296 498/9 00,720

Coaxial Reference Standard for Microwave Power.
PB94-193786 01,880

Hydrolysis of Proteins by Microwave Energy.
PB94-216322 03,528

Diffusion of Copper into Gold Plating.
PB95-162152 00,957

Microwave Characterization of Printed Circuit Transmission Lines.
PB96-122585 02,077

Calibration Service for Coaxial Reference Standards for Microwave Power.
PB96-162722 01,958

MICROWAVES POWER TRANSMISSION
Planar Near-Field Measurements of Low-Sidelobe Antennas.
PB94-219235 02,001

MICROZONATION
De Facto Microzonation through the Use of Soils Factors in Design Triggers.
PB96-141148 00,462

MIL-STD-1312
Review and Upgrading of Military Fastener Test Standard MIL-STD-1312.
PB95-154720 02,947

MILITARY FACILITIES
Present Worth Factors for Life-Cycle Cost Studies in the Department of Defense (1995).
PB95-105029 03,664

MILITARY STANDARDS
Review and Upgrading of Military Fastener Test Standard MIL-STD-1312.
PB95-154720 02,947

MILITARY VEHICLES
Ground Vehicle Control at NIST: From Teleoperation to Autonomy.
N94-34037/9 03,758

MILLIMETER WAVE EQUIPMENT
Dual-Frequency Millimeter-Wave Radiometer Antenna for Airborne Remote Sensing of Atmosphere and Ocean.
PB96-112289 02,009

MILLIMETER WAVES
Proposed High-Accuracy Superconducting Power Meter for Millimeter Waves.
PB94-212669 02,034

MIMD
Time-Perturbation Tuning of MIMD Programs.
PB94-164399 01,681

Time-Perturbation Tuning of MIMD Programs.
PB94-172566 01,684

Using Synthetic-Perturbation Techniques for Tuning Shared Memory Programs (Extended Abstract).
PB94-172657 01,685

MIMD (COMPUTERS)
Operating Principles of MultiKron II Performance Instrumentation for MIMD Computers.
PB95-189486 01,628

Scalability Test for Parallel Code.
PB96-146758 01,749

MIMD (MULTIPLE INSTRUCTION MULTIPLE DATA)
Synthetic-Perturbation Tuning of MIMD Programs.
PB94-185568 01,687

Simple Scalability Test for MIMD Code.
PB94-193638 01,688

MINERALIZATION
Calcium Phosphate Precipitation in Liposomal Suspensions.
PB94-172145 03,452

Critical Evaluation of the Purification of Biominerals by Hypochlorite Treatment.
PB95-150959 00,186

Remineralizing Dental Composites Based on Amorphous Calcium Phosphate.
PB96-147020 03,573

MINERALS
Procedure for the Study of Acidic Calcium Phosphate Precursor Phases in Enamel Mineral Formation.
PB95-164448 03,564

CRYSTMET: The NRCC Metals Crystallographic Data File.
PB97-109029 04,799

MINIMAL SURFACES
Singularities in Minimum Surface Energy Problems and Their Influence in Surface Motion.
PB94-199411 04,473

MINIMUM DETECTABLE ACTIVITY
Germanium Detector Optimization of MDA for Efficiency vs. Low Intrinsic Background.
PB94-199155 00,543

MINING EQUIPMENT
Environment Simulation for a Continuous Mining Machine.
PB94-203536 03,697

MIRAGE DETECTION
Thermal Wave NDE of Advanced Materials Using Mirage Effect Detection.
PB96-204516 04,191

MIRRORS
Simulations of Neutron Focusing with Curved Mirrors.
PB96-176649 02,200

MIS CAPACITORS
Development and Characterization of Insulating Layers on Silicon Carbide: Annual Report for February 14, 1988 to February 14, 1989.
PB94-155579 02,295

MIXERS
Milliwatt Mixer for Small Fluid Samples.
PB94-198819 02,634

MIXERS (ELECTRONICS)
Investigations of AM and PM Noise in X-Band Devices.
PB95-180022 02,062

Frequency Synthesis and Metrology at 10(-17) and Beyond.
PB97-113187 02,101

MIXING
Neutron Scattering Study of Shear Induced Turbidity in Polystyrene/Dioctyl Phthalate Solutions at High Shear Rates.
PB94-172624 01,197

MIXTURES
Prediction of the Thermal Conductivity of Refrigerants and Refrigerant Mixtures.
PB94-212107 03,258

Global Thermodynamic Behavior of Fluid Mixtures in the Critical Region.
PB94-212420 04,199

SANS and LS Studies of Polymer Mixtures Under Shear Flow.
PB95-107090 01,231

Thermophysical Property Computer Packages from NIST.
PB95-125787 04,203

Intrinsic Viscosity and the Polarizability of Particles Having a Wide Range of Shapes.
PB96-119318 03,170

MMIC (MONOLITHIC MICROWAVE INTEGRATED CIRCUITS)
Microwave Characterization of Flip-Chip MMIC Components.
PB96-176722 02,434

Microwave Characterization of Flip-Chip MMIC Interconnections.
PB96-176730 02,435

Electrical Measurements of Microwave Flip-Chip Interconnections.
PB96-176748 02,436

MOBILE COMMUNICATION SYSTEMS
Channel Coding for Code Excited Linear Prediction (CELP) Encoded Speech in Mobile Radio Applications.
PB95-143178 01,475

Error Protecting Characteristics of CDMA and Impacts on Speech.
PB96-122452 01,491

MOBILE HOMES
Wind Load Provisions of the Manufactured Home Construction and Safety Standards: A Review and Recommendations for Improvement.
PB94-206125 00,428

Manufactured Homes: Probability of Failure and the Need for Better Windstorm Protection through Improved Anchoring Systems.
PB95-143129 00,432

MOBILE PHASE COMPOSITIONS
Comparison of the Liquid Chromatographic Behavior of Selected Steroid Isomers Using Different Reversed-Phase Materials and Mobile Phase Compositions.
PB95-140976 00,574

MOBILE ROBOTS
Control System Architecture for a Remotely Operated Unmanned Land Vehicle.
PB95-163200 03,759

MODE COUPLING
Orientational Fluctuations, Diffuse Scattering, and Orientational Order in Solid C60.
PB97-119275 04,176

MODE LOCKED LASERS
Metrology Applications of Mode-Locked Erbium Fiber Lasers.
PB95-140158 04,256

Multiwavelength Birefringent-Cavity Mode-Locked Fibre Laser.
PB95-150496 04,262

MODEL TESTS
Model Precast Concrete Beam-to-Column Connections Subject to Cyclic Loading.
PB95-153094 00,438

Partially Prestressed and Debonded Precast Concrete Beam-Column Joints.
PB95-153102 00,439

Seismic Performance Behavior of Precast Concrete Beam-Column Joints.
PB95-153110 00,440

MODELS
Role of World Modeling and Value Judgment in Perception.
PB94-198264 01,581

Modelling the Leaching of Calcium Hydroxide from Cement Paste: Effects on Pore Space Percolation and Diffusivity.
PB94-198793 01,311

Simplified Cycle Simulation Model for the Performance Rating of Refrigerants and Refrigerant Mixtures.
PB94-199890 03,255

Product Models and Virtual Prototypes in Mechanical Engineering.
PB95-253563 02,783

Low-Frequency Model for Radio-Frequency Absorbers.
PB95-261939 04,424

Mapping Integration Definition for Function Modeling (IDEFO) Model into CASE Data Interchange Format (CDIF) Transfer File.
PB96-109533 01,741

Characterization of Two-Dimensional Dopant Profiles: Status and Review.
PB96-119300 02,400

Mechano-Chemical Model: Reaction Temperatures in a Concentrated Contact.
PB96-119466 03,227

Comparison of POSIX Open System Environment (OSE) and Open Distributed Processing (ODP) Reference Models.
PB96-131495 *01,820*

Machining Process Planning Activity Model for Systems Integration.
PB96-165428 *02,841*

Characterization of Two-Dimensional Dopant Profiles: Status and Review.
PB97-110134 *02,451*

MODEMS
High Resolution Time Interval Counter.
PB96-138607 *01,495*

MODERATORS
Experimental plan to determine the performance of the Oak Ridge National Laboratory Cold Neutron Moderator. Final report, September 1, 1993--November 30, 1993.
DE95011352 *03,778*

Thermal Hydraulic Tests of a Liquid Hydrogen Cold Neutron Source.
PB95-135570 *03,884*

Nuclear Heat Load Calculations for the NBSR Cold Neutron Source Using MCNP.
PB95-152955 *03,730*

MODERNIZATION
Learning to Change: Opportunities to Improve the Performance of Smaller Manufacturers.
PB94-166212 *00,010*

MODULATORS
Interdigitated Stacked P-I-N Multiple Quantum Well Modulator.
PB97-112296 *02,455*

MODULES
Integrating Automated Systems with Modular Architecture.
PB95-150231 *00,577*

MODULES OF ELASTICITY
Ultrasonic Measurement of Sheet Anisotropy and Formability.
PB95-153235 *03,213*

MODULUS OF ELASTICITY
Dynamic Shear Modulus Measurements with Four Independent Techniques in Nickel-Based Alloys.
PB94-198900 *03,320*

Dynamics vs. Static Young's Moduli: A Case Study.
PB94-213188 *03,210*

Hollow Clay Tile Prism Tests for Martin Marietta Energy Systems: Task 2 Testing.
PB94-217486 *00,352*

Method for Determining Both Magnetostriction and Elastic Modulus by Ferromagnetic Resonance.
PB95-150108 *02,974*

MOISTURE
Controlling Moisture in the Walls of Manufactured Housing.
PB95-105136 *00,355*

Measurements of Moisture Diffusivity for Porous Building Materials.
PB95-107397 *00,356*

Moisture and Water-Induced Crack Growth in Optical Materials.
PB95-153334 *04,267*

Sorption of Moisture on Epoxy and Alkyd Free Films and Coated Steel Panels.
PB95-162475 *03,192*

Water-Vapor Measurements of Low-Slope Roofing Materials.
PB95-251617 *00,399*

Water Adsorption at a Polyimide/Silicon Wafer Interface.
PB96-103197 *01,070*

Mathematical Analysis of Practices to Control Moisture in the Roof Cavities of Manufactured Houses.
PB97-106843 *00,278*

Experimental Verification of a Moisture and Heat Transfer Model in the Hygroscopic Regime.
PB97-111546 *00,309*

MOISTURE CONTENT
Analysis of Moisture Accumulation in a Wood-Frame Wall Subjected to Winter Climate.
PB94-199320 *00,338*

Heat and Moisture Transfer in Wood-Based Wall Construction: Measured versus Predicted.
PB95-200655 *00,391*

Amperometric Measurement of Moisture in Transformer Oil Using Karl Fischer Reagents.
PB96-146766 *00,623*

Empirical Validation of a Transient Computer Model for Combined Heat and Moisture Transfer.
PB97-111991 *00,416*

Parametric Study of Wall Moisture Contents Using a Revised Variable Indoor Relative Humidity Version of the 'Moist' Transient Heat and Moisture Transfer Model.
PB97-122535 *00,419*

MOISTURE TRANSFER
Manufactured Housing Walls That Provide Satisfactory Moisture Performance in All Climates.
PB95-178885 *00,383*

MOISTUREPROOFING
Manufactured Housing Walls That Provide Satisfactory Moisture Performance in All Climates.
PB95-178885 *00,383*

MOLAR ENTHALPY
Thermochemistry of the Hydrolysis of L-arginine to (L-citrulline + Ammonia) and of the Hydrolysis of L-arginine to (L-ornithine + Urea).
PB95-150801 *03,463*

MOLAR MASS
Adsorption of Polyacrylic Acids and Their Sodium Salts on Hydroxyapatite: Effect of Relative Molar Mass.
PB97-112510 *03,581*

MOLAR VOLUME
Apparent Molar Heat Capacities and Apparent Molar Volumes of Aqueous Glucose at Temperatures from 298.15 K to 327.01 K.
PB94-212800 *03,459*

MOLDING TECHNIQUES
Report on the Workshop on Manufacturing Polymer Composites by Liquid Molding. Held in Gaithersburg, Maryland on September 20-22, 1993.
PB94-160066 *03,131*

Effect of Heterogeneous Porous Media on Mold Filling in Resin Transfer Molding.
PB95-108676 *03,197*

MOLE FRACTION ERRORS
Nonlinear Correlation of High-Pressure Vapor-Liquid Equilibrium Data for Ethylene + n-Butane Showing Inconsistencies in Experimental Compositions.
PB96-161906 *01,141*

MOLECULAR ABSORPTION
Memory Function Approach to the Shape of Pressure Broadened Molecular Bands.
PB95-152930 *00,944*

MOLECULAR BEAM EPITAXY
Single-Photon Ionization and Detection of Ga, In, and As(sub n) Species in GaAs Growth.
PB95-152815 *00,591*

In-situ Monitoring of Molecular Beam Epitaxial Growth Using Single Photon Ionization.
PB95-202222 *01,023*

Laser Vacuum Ultraviolet Single Photon Ionization Probing of III-V Semiconductor Growth.
PB95-202370 *04,691*

Epitaxial Growth of Sb/GaSb Structures: An Example of V/III-V Heteroepitaxy.
PB95-202560 *04,693*

Single Photon Ionization, Laser Optical Probe Technique for Semiconductor Growth.
PB95-202776 *01,032*

Single-Photon Laser Ionization Time-of-Flight Mass Spectroscopy Detection in Molecular-Beam Epitaxy: Application to As4, As2, and Ga.
PB95-203337 *01,052*

Single Photon Laser Ionization as an In-situ Diagnostic for MBE growth.
PB96-102025 *01,059*

Stacked Series Arrays of High-Tc Trilayer Josephson Junctions.
PB96-102272 *04,705*

Buffer Layer Modulation-Doped Field-Effect-Transistor Interactions in the Al0.33Ga0.67As/GaAs Superlattice System.
PB96-102876 *02,380*

Laser Gas Ionization Technique Monitors MEB Crystal Growth.
PB96-112172 *01,076*

Parallel Monte Carlo Simulation of MBE Growth.
PB96-122841 *02,406*

In-situ Neutron Reflectivity of MBE Grown and Chemically Processed Surfaces and Interfaces.
PB96-146634 *02,416*

MOLECULAR BEAM SCATTERING
Dynamics of Hydrogen Interactions with Si(100) and Si(111) Surfaces.
PB96-159801 *04,082*

MOLECULAR BEAMS
Use of Extended Permutation-Inversion Groups in Constructing Hyperfine Hamiltonians for Symmetrical-Top Internal Rotor Molecules Like H3C-SiH3.
PB94-212032 *00,823*

MOLECULAR CHAINS
Molecular Weight Dependence of the Lamellar Domain Spacing of ABC Triblock Copolymers and Their Chain Conformation in Lamellar Domains.
PB95-161691 *01,254*

Small Angle Neutron Scattering Studies on Chain Asymmetry of Coextruded Poly(Vinyl Alcohol) Film.
PB95-164372 *01,262*

MOLECULAR CLOUDS
Extended CO(7 yields 6) Emission from Warm Gas in Orion.
PB96-102504 *00,090*

MOLECULAR CLUSTERS
High Resolution IR Studies of Polymolecular Clusters: Micromatrices and Unimolecular Ring Opening.
PB94-185691 *00,777*

High-Resolution Infrared Spectroscopy of DF Trimer: A Cyclic Ground State Structure and DF Stretch Induced Intramolecular Vibrational Coupling.
PB95-150678 *00,920*

Product State Correlations in the Reaction of O((1)D) and H2O in Bimolecular Collisions and in O3.H2O Clusters--Translation.
PB95-153011 *00,946*

MOLECULAR COLLISIONS
Three-Vector Correlation Theory for Orientation/Alignment Studies in Atomic and Molecular Collisions.
PB94-211109 *03,834*

N2(a'(sup 1)Sigma(sub g)(sup +)) Metastable Collisional Destruction and Rotational Excitation Transfer by N2.
PB95-151395 *00,933*

Product State Correlations in the Reaction of O((1)D) and H2O in Bimolecular Collisions and in O3.H2O Clusters--Translation.
PB95-153011 *00,946*

Collisional Alignment of CO2 Rotational Angular Momentum States in a Supersonic Expansion.
PB96-103171 *01,069*

MOLECULAR COMPOSITES
Phase Behavior of a Hydrogen Bonding Molecular Composite.
PB94-185188 *01,202*

MOLECULAR CONFORMATION
Molecular Weight Dependence of the Lamellar Domain Spacing of ABC Triblock Copolymers and Their Chain Conformation in Lamellar Domains.
PB95-161691 *01,254*

Small Angle Neutron Scattering Studies on Chain Asymmetry of Coextruded Poly(Vinyl Alcohol) Film.
PB95-164372 *01,262*

MOLECULAR DYNAMICS
Femtosecond Time-Resolved Wave Packet Motion in Molecular Multiphoton Ionization and Fragmentation.
PB94-198611 *00,790*

Neighbor Tables for Molecular Dynamics Simulations.
PB95-171948 *00,991*

Pulsed Laser Photolysis Time-Resolved FT-IR Emission Studies of Molecular Dynamics.
PB95-203162 *04,002*

Comparison of a Fixed-Charge and a Polarizable Water Model.
PB96-111620 *01,072*

Long-Lived Structures in Fragile Glass-Forming Liquids.
PB96-119565 *04,212*

Molecular Dynamics Investigation of the Surface/Bulk Equilibrium in an Ethanol-Water Solution.
PB97-113112 *01,183*

MOLECULAR EXCITATION
Electron Attachment to Excited Molecules(1).
PB96-122809 *01,087*

MOLECULAR IONS
Production and Spectroscopy of Small Polyatomic Molecular Ions Isolated in Solid Neon. (Reannouncement with New Availability Information).
AD-A234 043/8 *00,704*

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 6. CO4(-). (Reannouncement with New Availability Information).
AD-A238 415/4 *00,705*

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 7. CO(+), C2O2(+), and C2O2(-). (Reannouncement with New Availability Information).
AD-A239 729/7 *00,706*

Vibrational Spectra of Molecular Ions Isolated in Solid Neon: HCCH+ and HCC-. (Reannouncement with New Availability Information).
AD-A253 551/6 *00,707*

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 11. NO2(+), NO2(-), and NO3(-).
AD-A275 828/2 *00,708*

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. X. H2O(+), HDO(+), and D2O(+).
PB95-125670 *00,889*

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. XI. NO2(+), NO2(-), and NO3(-).
PB95-125688 *00,890*

Matrix Isolation Study of the Interaction of Excited Neon Atoms with BCl3: Infrared Spectra of BCl(sub 3, sup +), BCl(sub 2, sup +), and BCl(sub 3, sup -).
PB97-119143 *01,187*

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 13. Ions Derived from HBr and HI.
PB97-119234 *01,188*

MOLECULAR MEASURING MACHINE
Comparison of Finite Element and Analytic Calculations of the Resonant Modes and Frequencies of a Thick Shell Sphere.
PB94-160785 *02,626*

MOLECULAR MODELS
Effects of Variable Excluded Volume on the Dimensions of Off-Lattice Polymer Chains.
PB94-212941 *01,229*

MOLECULAR ORBITALS
Strong Hydrogen Bond in the Formic Acid-Formate Anion System.
PB94-198595 *00,788*

Analysis of Protein Metal Binding Selectivity in a Cluster Model.
PB94-212990 *00,845*

Molecular Orbital Calculations of Bond Rupture in Brittle Solids.
PB95-164059 *00,973*

Molecular Orbital Study of Water Enhanced Crack Growth Process.
PB95-164067 *03,240*

MOLECULAR PROPERTIES

Molecular Microwave Spectra Tables.
AD-A296 498/9 *00,720*

Collection of Results for the SPC/E Water Model.
PB96-147889 *01,127*

MOLECULAR SIEVES

Small Angle Neutron Scattering Study of the Structure and Formation of MCM-41 Mesoporous Molecular Sieves.
PB97-122337 *03,110*

MOLECULAR SPECTROSCOPY

Molecular Spectroscopy.
PB94-213337 *03,861*

Atomic, Molecular, and Optical Physics with X-rays.
PB94-213378 *03,863*

MOLECULAR STRUCTURE

Complementary Molecular Information on Phthalocyanine Compounds Derived from Laser Microprobe Mass Spectrometry and Micro-Raman Spectroscopy.
PB94-172269 *00,757*

Structure of Glycine-Water H-Bonded Complexes.
PB94-198603 *00,789*

Fluorescence Anisotropy Measurements on a Polymer Melt as a Function of Applied Shear Stress.
PB94-199296 *01,209*

Observations of Shear Induced Molecular Orientation in a Polymer Melt Using Fluorescence Anisotropy Measurements.
PB94-199304 *01,210*

Observations of Shear Stress and Molecular Orientation Using Fluorescence Anisotropy Measurements.
PB94-199312 *01,211*

Neutron Scattering by Multiblock Copolymers of Structure (A-B)N-A.
PB94-211547 *01,219*

Structure of Molecules on Surfaces as Determined Using Electron-Stimulated Desorption.
PB94-216165 *00,852*

Determination of the Molecular Parameters of NiH in Its (2)Delta Ground State by Laser Magnetic Resonance.
PB95-107116 *00,869*

Construction of Maximum-Entropy Density Maps, and Their Use in Phase Determination and Extension.
PB95-108593 *00,882*

Characterization of Chemically Modified Pore Surfaces by Small Angle Neutron Scattering.
PB95-126181 *00,898*

Structural Stabilization of Phase Separating PC/Polyester Blends through Interfacial Modification by Transesterification Reaction.
PB95-150454 *01,239*

Structural Heterogeneity in Epoxies.
PB95-151866 *01,243*

SANS Studies of Space-Time Organization of Structure in Polymer Blends.
PB95-153789 *01,251*

Octacalcium Phosphate Carboxylates. 2. Characterization and Structural Consideration.
PB95-161543 *00,955*

Localization of a Homopolymer Dissolved in a Lamellar Structure of a Block Copolymer Studied by Small-Angle Neutron Scattering.
PB95-161592 *01,253*

Elastic Scattering of Polymer Networks.
PB95-161816 *01,255*

Characterization of Molecular Network of Thermosets Using Neutron Scattering.
PB95-164109 *01,259*

Small-Angle Neutron Scattering of Poly(vinyl alcohol) Gels.
PB95-164117 *01,260*

Competition between Hydrodynamic Screening ('Draining') and Excluded Volume Interactions in an Isolated Polymer Chain.
PB95-175402 *01,265*

Comparison of a Fixed-Charge and a Polarizable Water Model.
PB96-111620 *01,072*

Long-Lived Structures in Fragile Glass-Forming Liquids.
PB96-119565 *04,212*

Slow Dynamics of Segregation in Hydrogen-Bonded Polymer Blends.
PB96-123591 *01,281*

Neutron Scattering Study of the Lattice Modes of Solid Cubane.
PB96-147152 *01,126*

New Generation of Fire Resistant Polymers. Part 1. Computer-Aided Molecular Design.
PB96-160593 *01,419*

Investigations of the Systematics of Crystal Packing Using the Cambridge Structural Database.
PB97-109144 *00,519*

MOLECULAR VIBRATION

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 6. CO4(-). (Reannouncement with New Availability Information).
AD-A238 415/4 *00,705*

High-Resolution IR Laser-Driven Vibrational Dynamics in Supersonic Jets: Weakly Bound Complexes and Intramolecular Energy Flow.
PB94-216751 *00,862*

Acceleration of Intramolecular Vibrational Redistribution by methyl Internal Rotation. A Chemical Timing Study of p-fluorotoluene and p-fluorotoluene-d3.
PB95-202982 *01,039*

MOLECULAR WEIGHT

Adsorption of Low-Molecular-Weight Sodium Polyacrylate on Hydroxyapatite.
PB94-172608 *00,139*

Effects of Molecular Weight and Thermal Stability on Polymer Gasification.
PB94-212610 *01,228*

Determination of the Weight Average Molecular Weight of Two Poly(Ethylene Oxides), SRM 1923 and SRM 1924.
PB94-217031 *01,230*

Molecular Weight Dependence of the Lamellar Domain Spacing of ABC Triblock Copolymers and Their Chain Conformation in Lamellar Domains.
PB95-161691 *01,254*

MOLECULE COLLISIONS

Energy Dependence of Collision Characteristics in Molecule-Surface Collisions.
PB94-198504 *00,786*

MOLECULE-MOLECULE COLLISIONS

Excitation Transfer in Barium by Collisions with Noble Gases.
PB96-200274 *01,163*

MOLYBDENUM

Texture Study of Two Molybdenum Shaped Charge Liners by Neutron Diffraction.
PB94-200177 *03,754*

Anomalous Odd- to Even-Mass Isotope Ratios in Resonance Ionization with Broad-Band Lasers.
PB94-211406 *03,839*

Analytical Method of Determining the Heat Capacity at High Temperatures from the Surface Temperature of a Cooling Sphere.
PB94-216124 *03,865*

Use of Sum Rules on the Energy-Loss Function for the Evaluation of Experimental Optical Data.
PB95-150736 *04,264*

Dynamic Technique for Measuring Normal Spectral Emissivity of Electrically Conducting Solids at High Temperatures with a High-Speed Spatial Scanning Pyrometer.
PB95-153045 *03,921*

Interfaces in Mo/Si Multilayers.
PB96-160668 *02,423*

MOLYBDENUM DISILICIDE

Creep Rupture of MoSi2/SiCp Composites.
PB95-152294 *03,154*

MOLYBDENUM DISULFIDE

Wear of Selected Materials and Composites Sliding against MoS2 Films.
PB94-172749 *03,231*

MOLYBDENUM-LANTHANUM

Atomic Energy Levels. As Derived From the Analyses of Optical Spectra. Volume 3.
AD-A280 279/1 *00,714*

MOLYBDENUM TO LANTHANUM

Ultraviolet Multiplet Table. Finding List for Spectra of the Elements Molybdenum to Lanthanum (Z = 42 to 57); Hafnium to Radium (Z = 72 to 88).
AD-A278 131/8 *00,709*

MOMENT PROBLEM

Distribution of Dielectric Relaxation Times and the Moment Problem.
PB96-112032 *04,727*

MONITORING

Through-the-Arc Sensing for Monitoring Arc Welding.
PB94-185899 *02,858*

Review of Cure Monitoring Techniques for On-Line Process Control.
PB94-216728 *03,145*

Guidance of the Legality of Keystroke Monitoring.
PB96-161237 *00,005*

Manager's Guide for Monitoring Data Integrity in Financial Systems.
PB96-165915 *00,003*

MONITORS

Monitoring Polymer Cure by Fluorescence Recovery After Photobleaching.
PB94-211422 *01,218*

MONOCHROMATOR

Soft X-ray Reflectometry Program at the National Institute of Standards and Technology.
PB96-160395 *04,368*

MONOCHROMATORS

Simple Variable Line Space Grating Monochromator for Synchrotron Light Source Beamlines.
PB96-156203 *04,065*

MONOLITHIC MICROWAVE INTEGRATED CIRCUITS

Microwave Characterization of Flip-Chip MMIC Components.
PB96-176722 *02,434*

Microwave Characterization of Flip-Chip MMIC Interconnections.
PB96-176730 *02,435*

Electrical Measurements of Microwave Flip-Chip Interconnections.
PB96-176748 *02,436*

MONOMERIZATION

DnaJ, DnaK, and GrpE Heat Shock Proteins are Required in 'ori'P1 DNA Replication Solely at the RepA Monomerization Step.
PB97-119382 *03,557*

MONOMERS

Neutron Reflectivity of End-Grafted Polymers: Concentration and Solvent Quality Dependence in Equilibrium Conditions.
PB94-185758 *01,206*

Modified Surface-Active Monomers for Adhesive Bonding to Dentin.
PB95-151163 *00,158*

Ring-Opening Dental Resin Systems Based on Cyclic Acetals.
PB95-162251 *00,162*

Synthesis and Polymerization of Difunctional and Multifunctional Monomers Capable of Cyclopolymerization.
PB95-163044 *01,257*

Evaluation of Methylene Lactone Monomers in Dental Resins.
PB95-164661 *00,164*

Ring-Opening Polymerication of a 2-Methylene Spiro Orthocarbonate Bearing a Pendant Methacrylate Group.
PB95-176145 *01,268*

MONOMOLECULAR FILMS

Silver Metalization of Octadecanethiol Monolayers Self-Assembled on Gold.
PB95-150744 *00,923*

UV-Photopatterning of Alkylthiolate Monolayers Self-Assembled on Gold and Silver.
PB95-150751 *C ,924*

Surface Geometry of BaO on W(100): A Surface-Extended X-Ray-Absorption Fine-Structure Study.
PB95-164414 *00,980*

Characterization of Cytochrome c/Alkanethiolate Structures Prepared by Self-Assembly on Gold.
PB95-164638 *00,987*

MONOPOLE ANTENNAS

Correction Factor for Nonplanar Incident Field in Monopole Calibrations.
PB95-108643 *02,002*

MONOTECTIC ALLOYS

Surface Energy Reduction in Fibrous Monotectic Structures.
PB95-140828 *03,150*

MONSEL-I COMPUTER CODE

MONSEL-II: Monte Carlo Simulation of SEM Signals for Linewidth Metrology.
PB96-102710 *02,379*

MONTE CARLO

Monte Carlo Simulation of Scanning Electron Microscope Signals.
PB96-200969 *02,444*

MONTE CARLO METHOD

Monte Carlo and Mean-Field Calculations of the Magnetocaloric Effect of Ferromagnetically Interacting Clusters.
PB94-172087 *03,201*

Effects of Variable Excluded Volume on the Dimensions of Off-Lattice Polymer Chains.
PB94-212941 *01,229*

Monte Carlo Electron Trajectory Simulation of X-Ray Emission from Films Supported on Substrates.
PB95-107207 *04,522*

Faster BKL Monte Carlo Simulations.
PB95-136370 *01,706*

Quantitative Measure of Efficiency of Monte Carlo Simulations.
PB95-180691 *01,011*

Faster Monte Carlo Simulations.
PB96-102074 *04,018*

Monte Carlo and Analytic Methods in the Transport of Electrons, Neutrons, and Alpha Particles.
PB96-111612 *04,033*

Parallel Monte Carlo Simulation of MBE Growth.
PB96-122841 *02,406*

Tree-Lookup for Partial Sums Or: How Can I Find This Stuff Quickly.
PB96-179411 *01,770*

MOONEY-RIVLIN EQUATION

Effect of Swelling on the Elasticity of Rubber: Localization Model Description.
PB94-211034 *01,216*

MORPHINE

Certification of Morphine and Codeine in a Human Urine Standard Reference Material.
PB95-176160 *03,499*

MORPHOLOGY
Shear-Excited Morphological States in a Triblock Copolymer.
PB94-172392 *01,196*

Temperature Dependence of the Morphology of Thin Diblock Copolymer Films as Revealed by Neutron Reflectivity.
PB94-172756 *01,199*

Morphology of Symmetric Diblock Copolymers as Revealed by Neutron Reflectivity.
PB95-140075 *01,234*

Morphological Estimation of Tip Geometry for Scanned Probe Microscopy.
PB95-203444 *02,662*

MORTALITY
Histopathology, Blood Chemistry, and Physiological Status of Normal and Moribund Striped Bass ('Morone saxatilis') Involved in Summer Mortality ('Die-Off') in the Sacramento-San Joaquin Delta of California.
PB94-198157 *00,034*

MORTARS (MATERIAL)
Water Permeability and Chloride Ion Diffusion in Portland Cement Mortars: Relationship to Sand Content and Critical Pore Diameter.
PB96-148036 *03,193*

MORTARS (MATERIALS)
Microstructural Features of Some Low Water/Solids, Silica Fume Mortars Cured at Different Temperatures.
PB94-160777 *00,330*

Interfacial Transport in Porous Media: Application to dc Electrical Conductivity of Mortars.
PB96-146816 *01,326*

MOS CAPACITORS
Development and Characterization of Insulating Layers on Silicon Carbide: Annual Report for February 14, 1988 to February 14, 1989.
PB94-155579 *02,295*

MOS GATE OXIDES
Assessing MOS Gate Oxide Reliability on Wafer Level with Ramped/Constant Voltage and Current Stress.
PB96-180112 *04,115*

MOSAIC
Approaches Using Virtual Environments with Mosaic.
PB95-169108 *01,599*

MOSAIC COMPUTER PROGRAM
Getting Started on Mosaic.
PB95-180360 *01,721*

MOSAIC SOFTWARE PACKAGE
World Wide Web and Mosaic: User's Guide.
PB94-207354 *02,722*

MOSFET
Numerical Simulation of Submicron Photolithographic Processing.
PB94-198561 *02,310*

Anomalous Behavior of a Quantized Hall Plateau in a High-Mobility Si Metal-Oxide-Semiconductor Field-Effect Transistor.
PB95-164174 *02,354*

MOTARS
Percolation and Pore Structure in Mortars and Concrete.
PB95-150439 *00,370*

MOTION
Adaptive, Predictive 2-D Feature Tracking Algorithm for Finding the Focus of Expansion.
PB94-218575 *01,588*

Three Dimensional Position Determination from Motion.
PB95-107108 *01,788*

Motion-Model-Based Boundary Extraction.
PB95-189502 *01,849*

MOTION SIMULATORS
Integration of Servo Control into a Large-Scale Control System Design: An Example from Coal Mining.
PB94-203429 *03,696*

Continuous Mining Machine Control Using the Real-Time Control System.
PB94-203528 *03,700*

Environment Simulation for a Continuous Mining Machine.
PB94-203536 *03,697*

MOUTHWASHES
Deposition of Loosely Bound and Firmly Bound Fluorides on Tooth Enamel by an Acidic Gel Containing Fluorosilicate and Monocalcium Phosphate Monohydrate.
PB95-150710 *03,559*

Interaction of Chlorhexidine Digluconate with and Adsorption of Chlorhexidine on Hydroxyapatite.
PB95-175907 *03,566*

MPI (MESSAGE-PASSING INTERFACE)
Experience with MPI: 'Converting Pvmmake to Mpimake under LAM' and 'MPI and Parallel Genetic Programming'.
PB96-141296 *01,748*

MRSEVS (MATERIAL REMOVAL SHAPE ELEMENT VOLUMES)
Issues Concerning Material Removal Shape Element Volumes (MRSEVs).
PB94-185493 *02,882*

MSEL
Materials Science and Engineering Laboratory Annual Report, 1993. NAS-NRC Assessment Panel, April 21-22, 1994.
PB94-162534 *02,969*

MSEL (MATERIALS SCIENCE AND ENGINEERING LABORATORY)
Materials Science and Engineering Laboratory Annual Report, 1994. NAS-NRC Assessment Panel, April 6-7, 1995.
PB95-196697 *02,976*

Materials Science and Engineering Laboratory Annual Report, 1995. Technical Activities.
PB96-214754 *03,009*

MULLITE
Crystal Structure and Compressibility of 3:2 Mullite.
PB95-175030 *03,682*

MULTI-ELEMENT ANALYSIS
Interpreting the Readings of Multi-Element Personnel Dosimeters in Terms of the Personal Dose Equivalent.
PB95-175428 *03,631*

MULTI-PHOTON PROCESSES
Resonance Enhanced Multiphoton Ionization Spectroscopy of the SnF Radical.
PB97-111223 *01,176*

MULTI-ZONE AIR FLOW
CONTAM88 Building Input Files for Multi-Zone Airflow and Contaminant Dispersal Modeling.
PB94-194388 *02,537*

MULTICHARGED IONS
Evaluation of Two-Photon Exchange Graphs for Highly-Charged Heliumlike Ions.
PB94-198918 *03,808*

Experimental Aspects and Z-Dependent Systematics in One- and Two-Electron Ions and Single Vacancy Systems.
PB94-199627 *03,815*

Relativistic and Quantum Electrodynamic Effects in Highly-Charged Ions.
PB94-212784 *03,854*

Atomic Branching Ratio Data for Carbon-Like Ions.
PB94-212842 *03,855*

Spectroscopic Data Tables for Highly-Ionized Atoms.
PB95-151585 *03,910*

Collisions of Electrons with Highly-Charged Ions.
PB96-200340 *04,791*

MULTICHIP MODULES
Wire Bonding to Multichip Modules and Other Soft Substrates.
PB96-123583 *02,079*

Wire Bonding to Multichip Modules and Other Soft Substrates.
PB96-135207 *02,082*

MULTICRITERIA
Development and Validation of Multicriteria Ratings: A Case Study.
PB95-126025 *00,004*

MULTIDIMENSIONAL SYSTEMS
Dynamics of Multi-DOF Stochastic Nonlinear Systems.
PB97-113245 *00,477*

MULTIJUNCTION THERMAL CONVERTERS
Development of Thin-Film Multijunction Thermal Converters at NIST.
PB97-112338 *02,286*

MULTIKRON II
Operating Principles of MultiKron II Performance Instrumentation for MIMD Computers.
PB95-189486 *01,628*

MULTILATERAL AGREEMENTS
GATT Standards Code Activities of the National Institute of Standards and Technology 1994.
PB96-106935 *00,497*

TBT Agreement Activities of the National Institute of Standards and Technology, 1995.
PB97-104178 *00,499*

MULTILAYER FILMS
Modeling Effects of Temperature Annealing on Giant Magnetoresistive Response in Discontinuous Multilayer NiFe/Ag Films.
PB97-112585 *04,157*

MULTILAYERS
Fracture in Multilayers.
PB96-163613 *02,988*

MULTIMEDIA
Porting Multimedia Applications to the Open System Environment.
PB94-172921 *02,721*

Preliminary Functional Specifications of a Prototype Electronic Research Notebook for NIST.
PB94-207750 *00,012*

Multimedia Tutorial on Phase Equilibria Diagrams.
PB96-200829 *03,088*

MULTIPATH TRANSMISSION
Analytical Estimation of Carrier Multipath Bias on GPS Position Measurements.
PB94-215712 *04,845*

MULTIPHOTON
Resonance Enhanced Multiphoton Ionization Spectroscopy of the PF Radical.
PB97-119119 *00,702*

MULTIPHOTON IONIZATION
Femtosecond Time-Resolved Wave Packet Motion in Molecular Multiphoton Ionization and Fragmentation.
PB94-198611 *00,790*

Electronic Spectra of CF2Cl and CFCl2 Radicals Observed by Resonance Enhanced Multiphoton Ionization.
PB95-151023 *00,927*

Femtosecond Time-Resolved Molecular Multiphoton Ionization: The Na2 System.
PB95-202305 *03,975*

Population Trapping in Short-Pulse Multiphoton Ionization.
PB96-164140 *04,371*

Resonance Enhanced Multiphoton Ionization Spectroscopy of the SnF Radical.
PB97-111223 *01,176*

MULTIPLE AUTONOMOUS UNDERSEA VEHICLES PROJECT
Intelligent Control for Multiple Autonomous Undersea Vehicles.
PB94-211877 *03,747*

MULTIPLE-INSTRUCTION MULTIPLE-DATA
Time-Perturbation Tuning of MIMD Programs.
PB94-164399 *01,681*

Time-Perturbation Tuning of MIMD Programs.
PB94-172566 *01,684*

Using Synthetic-Perturbation Techniques for Tuning Shared Memory Programs (Extended Abstract).
PB94-172657 *01,685*

Synthetic-Perturbation Tuning of MIMD Programs.
PB94-185568 *01,687*

MULTIPLE REFLECTION THEORY
Observation of the Transverse Second Harmonic Magneto-Optic Kerr Effect from Ni81Fe19 Thin Film Structures.
PB96-200332 *01,971*

MULTIPLE SCATTERING
Study of Multiple Scattering Background in Compton Scatter Imaging.
PB96-112222 *04,425*

MULTIPLET STRUCTURES
Charge-Transfer-Induced Multiplet Structure in the N4,5O2,3 Soft-X-ray Emission Spectrum of Lanthanum.
PB96-163746 *04,102*

MULTIPLET TABLE
Ultraviolet Multiplet Table. Finding List for Spectra of the Elements Molybdenum to Lanthanum (Z = 42 to 57); Hafnium to Radium (Z = 72 to 88).
AD-A278 131/8 *00,709*

Ultraviolet Multiplet Table.
AD-A278 446/0 *00,710*

MULTIPOINT COMMUNICATION
Strategy to Support Multipoint Communication Service Over Native ATM Service.
PB96-176672 *01,507*

MULTIPOLE EXCITATION
High-Order Multipole Excitation of a Bound Electron.
PB96-119789 *04,044*

MULTIPROCESSORS
Operating Principles of MultiKron Virtual Counter Performance Instrumentation for MIMD Computers.
PB96-131529 *01,632*

MULTIRANGE INSTRUMENTS
Modeling and Test Point Selection for a Thermal Transfer Standard.
PB95-161287 *01,896*

MULTIVARIATE DISTRIBUTIONS
Principal Points and Self-Consistent Points of Symmetric Multivariate Distributions.
PB96-135090 *03,446*

MULTIWAVE MIXING
Optical Sampling Using Nondegenerate Four-Wave Mixing in a Semiconductor Laser Amplifier.
PB96-123609 *04,348*

MULTIZONE ANALYSIS
Multizone Modeling of Three Residential Indoor Air Quality Control Options.
PB96-165782 *02,567*

MUMPS PROGRAMMING LANGUAGE
M (also known as MUMPS) Validation Test Suite, Version 8.3 (for Microcomputers).
PB94-502077 *01,699*

MUNICIPAL WASTES
Assessing the Credibility of the Calorific Content of Muncipal Solid Waste.
PB94-199882 *02,581*

MUON-CATALYZED FUSION
Comprehensive Theory of Nuclear Effects on the Intrinsic Sticking Probability. 1.
PB94-200623 *03,832*

Comprehensive Theory of Nuclear Effects on the Intrinsic Sticking Probability. 2.
PB94-200631 *03,833*

MUON SPIN ROTATIONS
Dynamics of Mu(+) in Sc and ScHx.
PB96-180021 *04,112*

MUTAGENESIS
Novel DNA N-Glycosylase Activity of E. coli T4 Endonuclease V That Excises 4,6-Diamino-5-Formamidopyrimidine from DNA, a UV-Radiation- and Hydroxyl Radical-Induced Product of Adenine.
PB96-160478 *03,549*

Pore-Forming Protein with a Metal-Actuated Switch.
PB96-176557 03,554

MUTAGENS
Tert-Butyl Hydroperoxide-Mediated DNA Base Damage in Cultured Mammalian Cells.
PB94-182003 03,644

Copper Ion-Mediated Modification of Bases in DNA in Vitro by Benzoyl Peroxide.
PB94-198231 03,645

Oxidative DNA Base Damage in Renal, Hepatic, and Pulmonary Chromatin of Rats After Intraperitoneal Injection of Cobalt (II) Acetate.
PB95-150025 03,647

MUTATION
Ionizing Radiation Causes Greater DNA Base Damage in Radiation-Sensitive Mutant M10 Cells That in Parent Mouse Lymphoma L5178Y Cells.
PB95-175915 03,632

N-GAS MODEL
Further Development of the N-Gas Mathematical Model: An Approach for Predicting the Toxic Potency of Complex Combustion Mixtures.
PB96-123260 03,650

N-HEXANE
Enhancement of R123 Pool Boiling by the Addition of N-Hexane.
PB96-165956 02,605

NACELLES
Flow of Alternative Agents in Piping.
PB95-202420 00,022

NANOANALYSIS
Microanalysis to Nanoanalysis: Measuring Composition at High Spatial Resolution.
PB95-107173 00,563

NANOCOMPOSITES
In situ Characterization of Vapor Phase Growth of Iron Oxide-Silica Nanocomposites: Part 1. 2-D Planar Laser-Induced Fluorescence and Mie Imaging.
PB97-112478 03,185

NANOCRYSTALLINE CERAMIC
Bulk Modulus and Young's Modulus of Nanocrystalline gamma-Alumina.
PB96-204185 03,092

NANOCRYSTALLINE MATERIALS
Small Angle Neutrons Scattering from Nanocrystalline Palladium as a Function of Annealing.
PB95-176103 03,354

Inelastic Neutron Scattering Study of Hydrogen in Nanocrystalline Pd.
PB96-146857 03,366

NANOCRYSTALS
Vibrational Excitations and the Position of Hydrogen in Nanocrystalline Palladium.
PB96-111828 04,035

NANOELECTRONICS
Integration of Scanning Tunneling Microscope Nanolithography and Electronics Device Processing.
PB95-153359 02,341

NANOHARDNESS
Force Calibrations in the Nanonewton Regime.
PB95-168696 03,949

NANOLITHOGRAPHY
Integration of Scanning Tunneling Microscope Nanolithography and Electronics Device Processing.
PB95-153359 02,341

NANOMATERIALS
Viewpoint: Nanocrystalline and Nanophase Materials.
PB94-185865 04,454

NIST Workshop on Nanostructured Material (1st): Report of an Industrial Workshop Conducted by the National Institute of Standards and Technology. Held in Gaithersburg, Maryland on May 14-15, 1992.
PB94-218567 02,973

X-ray Powder Diffraction from Carbon Nanotubes and Nanoparticles.
PB96-102975 03,064

NANOPARTICULATES
Growth and Nucleation of Hydrogenated Amorphous Silicon on Silicon (100) Surfaces.
PB96-176516 02,991

NANOSCALE PORES
Vitrification and Crystallization of Organic Liquids Confined to Nanoscale Pores.
PB97-112304 03,392

NANOSTRUCTURE
NIST Metrology for Soft X-ray Multilayer Optics.
PB96-160379 04,088

Nanostructure Fabrication via Laser-Focused Atomic Deposition (Invited).
PB96-204094 04,132

NANOSTRUCTURES
NIST Workshop on Nanostructured Material (1st): Report of an Industrial Workshop Conducted by the National Institute of Standards and Technology. Held in Gaithersburg, Maryland on May 14-15, 1992.
PB94-218567 02,973

Nanostructure Fabrication via Direct Writing with Atoms Focused in Laser Fields.
PB95-150272 04,564

Laser-Focused Atomic Deposition.
PB95-161618 04,604

Laser Focused Atomic Deposition.
PB95-180659 04,685

Construction of Silicon Nanocolumns with the Scanning Tunneling Microscope.
PB95-203063 04,696

Using Atom Optics to Fabricate Nanostructures.
PB96-141247 04,757

Excitons in Complex Quantum Nanostructures.
PB97-118343 01,184

NAPHTHALENE
Investigating the 3.3 Micron Infrared Fluorescence from Naphthalene Following Ultraviolet Excitation.
N95-15839/0 00,724

NASA STANDARD REFERENCE MODEL
Hierarchical Ada Robot Programming System (HARPS): A Complete and Working Telerobot Control System Based on the NASREM Model.
PB94-213162 02,934

NASREM (NASA STANDARD REFERENCE MODEL)
Hierarchical Ada Robot Programming System (HARPS): A Complete and Working Telerobot Control System Based on the NASREM Model.
PB94-213162 02,934

NATIONAL ARCHIVES AND RECORDS
Electronic Access: Blueprint for the National Archives and Records Administration.
PB95-219218 02,731

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION
User Study: Informational Needs of Remote National Archives and Records Administration Customers.
PB95-154738 02,725

NATIONAL BUREAU OF STANDARDS
Standard Materials. A Descriptive List with Prices.
AD-A278 140/9 00,500

NATIONAL GOVERNMENT
Self Monitoring Accounting Systems.
PB95-216602 00,007

NATIONAL INFORMATION INFRASTRUCTURE
Information Infrastructure: Reaching Society's Goals. A Report of the Information Infrastructure Task Force Committee on Applications and Technology.
ED-376 823 00,131

Information Infrastructure: Reaching Society's Goals. Report of the Information Infrastructure Task Force Committee on Applications and Technology.
PB94-214756 01,469

Report on the Workshop on Advanced Digital Video in the National Information Infrastructure. Held in Washington, D.C. on May 10-11, 1994.
PB95-103677 01,472

Framework for National Information Infrastructure Services.
PB95-103719 02,723

Information Technology Engineering and Measurement Model: Adding Lane Markings to the Information Superhighway.
PB95-143145 01,474

Standards Policy and Information Infrastructure.
PB95-231882 01,485

Electronic Access to Standards on the Information Highway.
PB96-131578 01,494

NATIONAL INSTITUTE FOR STANDARDS AND TECHNOLOGY
Publications of the National Institute of Standards and Technology 1992 Catalog.
PB95-200747 00,014

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY
Abstract and Index Collection in the Research Information Center of the National Institute of Standards and Technology.
PB94-152204 02,744

Ceramics Technical Activities, 1993 (NAS-NRC Assessment Panel April 21-22, 1994).
PB94-162591 03,031

NIST Support to the Next Generation Controller Program: 1991 Final Technical Report.
PB94-163490 02,808

NIST Serial Holdings, 1994.
PB94-178068 02,745

Study of Federal Agency Needs for Information Technology Security.
PB94-193653 01,579

Graphical Analysis of the CCRL Portland Cement Proficiency Sample Database (Samples 1-72). (Part 1. Univariant Analysis of Portland Cement).
PB94-196557 01,308

National Voluntary Laboratory Accreditation Program 1995 Directory.
PB95-174454 00,483

Abstract and Index Collection in the Research Information Center of the National Institute of Standards and Technology.
PB95-232633 02,741

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, April to June 1995 with 1995 EEEL Events Calendar.
PB96-137187 01,941

Publications of the National Institute of Standards and Technology 1993 Catalog.
PB96-183215 00,017

Proposed Coating Technology Consortium. (National Coil Coaters Association Fall Conference). Held in Rosemont, Illinois in September 1992.
PB97-110431 03,129

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY (NIST)
Journal of Research of the National Institute of Standards and Technology, March/April 1995. Volume 100, Number 2.
PB96-126180 04,349

NATIONAL INSTITUTE OF STANDARDS AND TECHNOLOGY PRODUCT TESTING
National Voluntary Laboratory Accreditation Program 1996 Directory.
PB96-162714 00,485

NATIONAL INTERESTS
Putting the Information Infrastructure to Work: Report of the Information Infrastructure Task Force Committee on Applications and Technology.
PB94-163383 00,001

White Papers Prepared for the White House: Construction Industry Workshop on National Construction Goals. Held on December 14-16, 1994.
PB95-216891 01,299

NATIONAL MARINE MAMMAL TISSUE BANK
Development of the National Marine Mammal Tissue Bank.
PB95-161402 02,586

NATIONAL SECURITY
Impact of the FCC's Open Network Architecture on NS/NP Telecommunications Security.
PB95-189445 01,483

NATIONAL TYPE EVALUATION PROGRAM
National Type Evaluation Program: Index of Device Evaluations by Company. NCWM Publication 5 Part A (Second Edition).
PB94-160835 02,889

NATIONAL VOLUNTARY ACCREDITATION PROGRAM
Proficiency Tests for the NIST Airborne Asbestos Program, 1990.
PB94-188836 00,535

National Voluntary Laboratory Accreditation Program 1995 Directory.
PB95-174454 00,483

NATIONAL VOLUNTARY LABORATORY ACCREDITATION PROGRAM
NVLAP Procedures U.S. Code of Federal Regulations. Title 15, Subtitle A, Chapter 2, Part 7. (Effective December 1984; Amended September 1990).
PB94-160850 02,627

National Voluntary Laboratory Accreditation Program: Procedures and General Requirements.
PB94-178225 02,630

National Voluntary Laboratory Accreditation Program 1994 Directory.
PB94-178969 00,482

National Voluntary Laboratory Accreditation Program: Energy Efficient Lighting Products.
PB94-219060 02,642

National Voluntary Laboratory Accreditation Program: Ionizing Radiation Dosimetry.
PB95-128658 03,623

National Voluntary Laboratory Accreditation Program: POSIX. Portable Operating System Interface.
PB95-189478 02,661

Airborne Asbestos Analysis: National Voluntary Laboratory Accreditation Program.
PB96-147392 02,566

NATIONAL VOLUNTARY LABORATORY ACCREDITION PROGRAM (NVLAP)
National Voluntary Laboratory Accreditation Program 1996 Directory.
PB96-162714 00,485

NATURAL CONVECTION
Review of Flows Driven By Natural Convection in Adiabatic Shafts.
PB96-147897 01,416

Natural Convection from an Array of Electronic Packages Mounted on a Horizontal Board in a Narrow Aspect Ratio Enclosure.
PB96-164017 02,087

NATURAL EMISSIONS
Radiocarbon Measurements of Atmospheric Volatile Organic Compounds: Quantifying the Biogenic Contribution.
PB97-122352 02,574

NATURAL GAS
Low Temperature H(sub 2)S Separation Using Membrane Reactor with Redox Catalyst.
DE94008991 02,471

Thermophysical Properties of Fluids for the Gas Industry. Final Report, February 1, 1988-August 31, 1993.
PB94-146677 02,472

Constituents and Physical Properties of the C6+ Fraction of Natural Gas. Topical Report, April-June 1994.
PB95-136644 02,483

Sliding Vane Flow Conditioner Tests in a 100 Diameter Long 10 inch Natural Gas Orifice Meter at Pacific Gas and Electric. Topical Report, 1990-1992.
PB95-256335 *02,493*

Thermophysical Properties of Fluids for the Gas Industry.
PB96-122437 *02,494*

Development of Gas Standards from Solid 1,4-dichlorobenzene.
PB96-155486 *02,496*

NATURAL GAS LIQUIDS
New Data and Correlations for the Custody Transfer of Natural Gas Liquids.
PB96-176664 *02,499*

NATURAL GAS PIPELINES
Assessment of Technology for Detection of Stress Corrosion Cracking in Gas Pipelines. Final Report, July 1993-March 1994.
PB94-206646 *02,475*

NATURAL GAS WELLS
Investigation of Oil and Gas Well Fires and Flares.
PB94-193976 *03,695*

Development of Hazard Assessment and Suppression Technology for Oil and Gas Well Blowout and Diverter Fires.
PB96-122965 *01,408*

NATURAL LANGUAGE PROCESSING
Bringing Natural Language Information Retrieval Out of the Closet.
PB94-172335 *02,720*

Lab Report Special Section: Natural Language Processing and Information Retrieval Group Information Access and User Interfaces Division, National Institute of Standards and Technology.
PB97-118665 *02,742*

NATURAL RUBBER
Localization Model of Rubber Elasticity: Comparison with Torsional Data for Natural Rubber Networks in the Dry State.
PB95-107033 *03,195*

NAVAL VESSELS
Characterization of the Hydrogen Induced Cold Cracking Susceptibility at Simulated Weld Zones in HSLA-100 Steel.
PB94-174505 *03,746*

Optical Fiber Sensors: Accelerating Applications in Navy Ships.
PB94-186848 *02,632*

NAVIGATION SATELLITES
Preliminary Comparison of Time Transfers via LASSO, GPS and Two-Way Satellite.
PB95-151098 *01,529*

NAVY
NIST and the Navy: Past, Present and Future.
PB96-119649 *03,655*

NBSR REACTOR
NIST Reactor: Summary of Activities October 1992 through September 1993.
PB94-161502 *04,437*

Thermal Hydraulic Tests of a Liquid Hydrogen Cold Neutron Source.
PB95-135570 *03,884*

Liquid-Hydrogen Cold Neutron Source for the NBSR.
PB95-151619 *03,729*

Nuclear Heat Load Calculations for the NBSR Cold Neutron Source Using MCNP.
PB95-152955 *03,730*

Cold Neutron Gain Calculations for the NBSR Using MCNP.
PB95-163978 *03,731*

NIST Reactor: Summary of Activities, October 1993 through September 1994.
PB95-220430 *04,700*

MCNP Model of the National Bureau of Standards Reactor (NBSR) Core.
PB96-138599 *03,733*

NCS1 SYSTEM
Journal of Research of the National Institute of Standards and Technology. January/February 1994. Volume 99, Number 1.
PB94-169737 *02,019*

Null-Balanced Total-Power Radiometer System NCS1.
PB94-169778 *02,021*

Derivation of the System Equation for Null-Balanced Total-Power Radiometer System NCS1.
PB94-169786 *02,022*

Evaluation of Uncertainties of the Null-Balanced Total-Power Radiometer System NCS1.
PB94-169794 *02,023*

NEAR-AZEOTROPES
Role of Refrigerant Mixtures as Alternatives to CFCs.
PB94-199775 *03,252*

NEAR-CRITICAL DILUTE MIXTURE THEORY
Supercritical Solubility of Solids from Near-Critical Dilute-Mixture Theory.
PB94-211703 *00,819*

NEAR FIELD
Spherical-Wave Source-Scattering Matrix Analysis of Antennas and Antenna-Antenna Interactions.
PB96-111166 *02,008*

NEAR FIELDS
Development of Near-Field Test Procedures for Communication Satellite Antennas.
PB96-135082 *02,010*

NEAR INFRARED RADIATION
Infrared and Near-Infrared Spectra of HCC and DCC Trapped in Solid Neon.
AD-A295 578/9 *03,773*

High-Efficiency, High-Power Difference-Frequency Generation of 0.9-1.5 mu m Light in BBO.
PB95-202255 *04,317*

NEAR INFRARED SPECTROSCOPY
NIR-Spectroscopic Investigation of Water Sorption Characteristics of Dental Resins and Composites.
PB95-151171 *00,189*

NEIGHBOR TABLES
Neighbor Tables for Molecular Dynamics Simulations.
PB95-171948 *00,991*

NEODYMIUM BARIUM COPPER NIOBATES
Crystal Structure and Magnetic Ordering of the Rare-Earth and Cu Moments in RBa2Cu2NbO8(R=Nd,Pr).
PB95-140554 *04,546*

NEODYMIUM BARIUM TITANATES
Substitution-Induced Midgap States in the Mixed Oxides RxBa1-ChiTiO3-Delta, with R=Y, La, and Nd.
PB95-140505 *04,541*

NEODYMIUM CERIUM CUPRATES
Phonon Density of States in R2CuO4 and Superconducting R1.85Ce0.15CuO4 (R = Nd, Pr).
PB95-150686 *04,574*

NEODYMIUM CUPRATES
Phonon Density of States in R2CuO4 and Superconducting R1.85Ce0.15CuO4 (R = Nd, Pr).
PB95-150686 *04,574*

Field Dependence of the Magnetic Ordering of Cu in R2CuO4 (R = Nd, Sm).
PB95-164521 *04,633*

Observation of Noncollinear Magnetic Structure for the Cu Spins in Nd2CuO4-Type Systems.
PB95-164539 *04,634*

NEODYMIUM GALLATES
Dielectric Properties of Single Crystals of Al2O3, LaAlO3, SrTiO3, and MgO at Cryogenic Temperatures.
PB95-180477 *02,266*

NEODYMIUM IONS
Rb-Like Spectra: Pd X to Nd XXIV.
PB95-150645 *03,897*

NEODYMIUM LASERS
Integrated Optic Laser Emitting at 906, 1057, and 1358 nm.
PB94-216280 *02,135*

Integrated Optic Laser Emitting at 905, 1057, 1356 nm.
PB94-216298 *02,136*

Linewidth Narrowing in an Imbalanced Y-Branch Waveguide Laser.
PB95-140844 *04,258*

Nd:LiTaO3 Waveguide Laser.
PB95-140851 *04,259*

Passively Q-Switched Nd-Doped Waveguide Laser.
PB95-180048 *04,308*

NEON
Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 7. CO(+), C2O2(+), and C2O2(-). (Reannouncement with New Availability Information).
AD-A239 729/7 *00,706*

Vibrational Spectra of Molecular Ions Isolated in Solid Neon: HCCH+ and HCC-. (Reannouncement with New Availability Information).
AD-A253 551/6 *00,707*

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 11. NO2(+), NO2(-), and NO3(-).
AD-A275 828/2 *00,708*

Infrared and Near-Infrared Spectra of HCC and DCC Trapped in Solid Neon.
AD-A295 578/9 *03,773*

Matrix Isolation Study of the Interaction of Excited Neon Atoms with BCl3: Infrared Spectra of BCl(sub 3, sup +), BCl(sub 2, sup +), and BCl(sub 3, sup -).
PB97-119143 *01,187*

NEON ATOMS
Matrix Isolation Study of the Interaction of Excited Neon Atoms with O3: Infrared Spectrum of O((sub 3)(-)) and Evidence for the Stabilization of O2...O((sub 4)(+)).
PB97-112403 *04,155*

NEON MATRICES
Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 6. CO4(-). (Reannouncement with New Availability Information).
AD-A238 415/4 *00,705*

NEPHELOMETERS
Radiometric Model of the Transmission Cell-Reciprocal Nephelometer.
PB95-150132 *00,124*

NEPTUNIUM 237
Intercomparison Study of (237)Np Determination in Artificial Urine Samples.
PB96-102645 *03,633*

NETWORK ANALYSIS
Accuracy and Repeatability in Time Domain Network Analysis.
PB95-202644 *02,064*

Hardware Measurement Techniques for High-Speed Networks.
PB96-160551 *01,500*

NETWORK ANALYZERS
Multi-State Two-Port: An Alternative Transfer Standard.
PB95-168530 *02,049*

Time Domain Network Analysis Using the Multiline TRL Calibration.
PB95-202925 *02,065*

Two-Tier Multiline TRL for Calibration of Low-Cost Network Analyzers.
PB96-157888 *01,947*

NETWORK CONTROL
Context Analysis of the Network Management Domain. Conducted as Part of the Domain Analysis Case Study.
PB94-142528 *01,465*

NETWORK MANAGEMENT
Integrated Network Management.
PB94-199247 *01,583*

NETWORKS
Network Brokers Handbook: An Entrepreneurial Guide to Cooperative Strategies for Manufacturing Competitiveness.
PB95-219325 *00,490*

NEURAL NETS
Analysis of a Biologically Motivated Neural Network for Character Recognition.
PB94-172277 *00,182*

Prediction of Geometric-Thermal Machine Tool Errors by Artificial Neural Networks.
PB94-186673 *02,943*

Comparison of FFT Fingerprint Filtering Methods for Neural Network Classification.
PB95-136362 *01,840*

Self-Organizing Neural Network Character Recognition on a Massively Parallel Computer.
PB95-163994 *01,845*

Binary Decision Clustering for Neural Network Based Optical Character Recognition.
PB95-171971 *01,848*

Improving Neural Network Performance for Character and Fingerprint Classification by Altering Network Dynamics.
PB95-267803 *01,851*

Effect of Training Dynamics on Neural Network Performance.
PB95-267845 *01,852*

Improving Neural Network Performance for Character and Fingerprint Classification by Altering Network Dynamics.
PB96-123195 *01,856*

Binary Decision Clustering for Neural-Network-Based Optical Character Recognition.
PB96-186184 *01,857*

Fault Diagnosis of an Air-Handling Unit Using Artificial Neural Networks.
PB97-121321 *00,283*

NEURAL NETWORKS
Self-Organizing Neural Network Character Recognition Using Adaptive Filtering and Feature Extraction.
PB96-119797 *01,855*

Micromachined Display Output for a Cellular Neural Network.
PB96-156070 *02,422*

NEURON DIFFRACTION
Structure and Conductivity of Layered Oxides (Ba,Sr)n+1(Sn,Sb)nO3n+1.
PB96-102439 *04,707*

NEUTRON ACTIVATION ANALYSIS
Determination of Boron and Lithium in Diverse Biological Matrices Using Neutron Activation - Mass Spectrometry (NA-MS).
PB94-212289 *00,554*

High-Sensitivity Determination of Iodine Isotopic Ratios by Thermal and Fast Neutron Activation.
PB94-213386 *00,555*

Scattering and Absorption Effects in Neutron Beam Activation Analysis Experiments.
PB94-216140 *00,557*

Trace Elements Associated with Proteins. Neutron Activation Analysis Combined with Biological Isolation Techniques.
PB95-163101 *00,597*

Reactor Radiation Technical Activities, 1994. NAS-NRC Assessment Panel, April 6-7, 1995.
PB95-209888 *03,732*

Neutron Techniques in Materials Science and Related Disciplines.
PB96-119698 *02,980*

Determination of 21 Elements by INAA for Certification of SRM 1570a, Spinach.
PB96-167242 *00,698*

New NIST Rapid Pneumatic Tube System.
PB96-167259 *03,738*

Reactor Radiation Technical Activities, 1995.
PB96-193644 *03,741*

Unique Quality Assurance Aspects of INAA for Reference Material Homogeneity and Certification.
PB96-200811 *00,699*

NEUTRON BEAMS
Neutron Focusing Lens Using Polycapillary Fibers.
PB95-141206 *03,889*

Neutron Focusing Lens Using Polycapillary Fibers.
PB95-153078 *03,922*

Mass Assay and Uniformity Test of Boron Targets by Neutron Beam Methods.
PB97-119085 *04,175*

NEUTRON CAPTURE GAMMA RAYS
Grazing Incidence Prompt Gamma Emissions and Resonance-Enhanced Neutron Standing Waves in a Thin-Film.
PB95-150470 *03,892*

Use of Neutron Beams for Chemical Analysis at NIST.
PB97-112437 *00,652*

NEUTRON CROSS SECTIONS
Neutron Standard Cross Sections in Reactor Physics: Need and Status.
PB94-199510 *03,813*

Measurement of the (93)Nb(n,2n) (92m)Nb Cross Section in a (235)U Fission Spectrum.
PB95-163986 *03,945*

DETAN 95: Computer Code for Calculating Spectrum-Averaged Cross Sections and Detector Responses in Neutron Spectra.
PB95-242384 *04,014*

NEUTRON DECAY
Current Results and Future Prospects for a Neutron Lifetime Determination Using Trapped Protons.
PB94-199742 *03,817*

NEUTRON DEPTH PROFILING
Effect of Splitting on Estimation of Emission Rate Profiles from Neutron Depth Profiling Spectra.
PB95-152245 *03,916*

Modeling Detector Response for Neutron Depth Profiling.
PB96-157813 *04,066*

NEUTRON DIFFRACTION
Determination of the Residual Stresses Near the Ends of Skip Welds Using Neutron Diffraction and X-ray Diffraction Procedures.
PB95-253589 *02,868*

Characterization of the Structure of LaD2.50 by Neutron Powder Diffraction.
PB96-176797 *04,783*

Neutron Diffraction Texture Study of Deformed Uranium Plates.
PB97-111587 *03,010*

Colossal Magnetoresistance without Mn(3+)/Mn(4-) Double Exchange in the Stoichiometric Pyrochlore Tl2Mn2O7.
PB97-113070 *04,160*

NEUTRON DIFFRACTIONS
Determination of Anomalous Superexchange in MnCl2 and Its Graphite Intercalation Compound.
PB97-122568 *00,666*

NEUTRON DOSIMETRY
Measurement of Absorbed Dose of Neutrons, and of Mixtures of Neutrons and gamma rays.
AD-A286 647/3 *03,710*

Neutron Energy Deposition on the Nanometer Scale.
PB95-152260 *03,624*

NEUTRON ENERGY
Measurements of the (235)U(n,f) Cross Section in the 3 to 30 MeV Neutron Energy Region.
PB97-119051 *04,172*

NEUTRON FOCUSING
Neutron Focusing Lens Using Polycapillary Fibers.
PB95-141206 *03,889*

NEUTRON FOCUSING LENSES
Neutron Focusing Lens Using Polycapillary Fibers.
PB95-153078 *03,922*

NEUTRON GUIDES
Transmission Properties of Short Curved Neutron Guides. Part 1. Acceptance Diagram Analysis and Calculations.
PB96-102199 *04,021*

Analytical Applications of Guided Neutron Beams.
PB96-112347 *04,041*

NEUTRON INTERFEROMETRY
Multi-Stage, Position Stabilized Vibration Isolation System for Neutron Interferometry.
PB95-175022 *03,955*

NEUTRON LEAKAGE
Neutron Leakage Benchmark for Criticality Safety Research.
PB95-126132 *03,723*

NEUTRON LIFETIME
Current Results and Future Prospects for a Neutron Lifetime Determination Using Trapped Protons.
PB94-199742 *03,817*

Preparation and Characterization of (6)LiF and (10)B Reference Deposits for the Measurement of the Neutron Lifetime.
PB95-108692 *03,874*

NEUTRON MEASUREMENT
Neutron Measurement Intercomparisons Sponsored by CCEMRI, Section 3 (Neutron Measurements).
PB94-199916 *03,819*

NEUTRON MONOCHROMATORS
Acceptance Diagram Analysis of the Performance of Vertically Curved Neutron Monochromators.
PB94-200425 *03,827*

NEUTRON PHYSICS
Some Aspects of Fundamental Neutron Physics.
PB95-126298 *03,882*

NEUTRON POLARIZERS
Supermirror Transmission Polarizers for Neutrons.
PB94-216215 *03,866*

NEUTRON RADIOGRAPHY
Protection Against Neutron Radiation Up to 30 Million Electron Volts.
AD-A286 681/2 *03,611*

NEUTRON REACTIONS
Intermediate Structure in the Neutron-Induced Fission Cross Section of 236U.
PB94-185741 *03,802*

Neutron Standard Cross Sections in Reactor Physics: Need and Status.
PB94-199510 *03,813*

Measurement of the (235)U(n,f) Reaction from Thermal to 1 keV.
PB95-140422 *03,886*

Preparation of 2-Dimensional Ultra Thin Polystyrene Film by Water Casting Method.
PB95-162806 *04,619*

Measurement of the (93)Nb(n,2n) (92m)Nb Cross Section in a (235)U Fission Spectrum.
PB95-163986 *03,945*

NEUTRON REFLECTION
Analytic Calculation of Polarized Neutron Reflectivity from Superconductors.
PB95-164224 *04,629*

Simulations of Neutron Focusing with Curved Mirrors.
PB96-176649 *02,200*

NEUTRON REFLECTIVITY
Neutron Reflectivity Study of the Density Profile of a Model End-Grafted Polymer Brush: Influence of Solvent Quality.
PB95-202735 *01,274*

Extending the Angular Range of Neutron Reflectivity Measurements from Planar Lipid Bilayers: Applications to a Model Biological Membrane.
PB96-122569 *03,476*

Magnetic Structure Determination for Annealed Ni80Fe20/Ag Multilayers Using Polarized-Neutron Reflectivity.
PB96-176615 *03,739*

Compatibilization of Polymer Blends by Complexation. 2. Kinetics of Interfacial Mixing.
PB97-111900 *01,295*

NEUTRON SCATTERING
Small-Angle Neutron Scattering Characterization of Processing/Microstructure Relationships in the Sintering of Crystalline and Glassy Ceramics. (Reannouncement with New Availability Information).
AD-A249 510/9 *03,025*

Neutron Scattering Study of Shear Induced Turbidity in Polystyrene/Dioctyl Phthalate Solutions at High Shear Rates.
PB94-172624 *01,197*

Time Dependent Small Angle Neutron Scattering Behavior in Triblock Copolymers Under Steady Shear.
PB94-172632 *01,198*

Neutron Scattering by Multiblock Copolymers of Structure (A-B)N-A.
PB94-211547 *01,219*

Small-Angle X-Ray and Neutron Scattering Study of Block Copolymer/Homopolymer Mixtures.
PB94-211729 *01,221*

Crossover to Strong Shear in a Low-Molecular-Weight Critical Polymer Blend.
PB94-211976 *01,222*

Magnetic Neutron Scattering (Invited).
PB95-150074 *04,557*

SANS Study of the Plastic Deformation Mechanism in Polyethylene.
PB95-151841 *01,242*

Analysis of the Effectiveness of Oscillating Radial Collimators in Neutron Scattering Applications.
PB95-152252 *03,917*

Thermodynamic Interactions and Correlations in Mixtures of Two Homopolymers and a Block Copolymers by Small Angle Neutron Scattering.
PB95-152872 *01,247*

SANS Studies of Space-Time Organization of Structure in Polymer Blends.
PB95-153789 *01,251*

Time-Resolved Small-Angle Neutron Scattering Study of Spinodal Decomposition in Deuterated and Protonated Polybutadiene Blends. 1. Effect of Initial Thermal Fluctuations.
PB95-161196 *01,252*

Localization of a Homopolymer Dissolved in a Lamellar Structure of a Block Copolymer Studied by Small-Angle Neutron Scattering.
PB95-161592 *01,253*

Elastic Scattering of Polymer Networks.
PB95-161816 *01,255*

Neutron Scattering Study of Shear Induced Turbidity in Polystyrene Dissolved in Dioctyl Phthalate.
PB95-161865 *01,256*

Characterization of Molecular Network of Thermosets Using Neutron Scattering.
PB95-164109 *01,259*

Small-Angle Neutron Scattering of Poly(vinyl alcohol) Gels.
PB95-164117 *01,260*

Characterization of Polyquinoline Blends Using Small Angle Scattering.
PB95-164125 *01,261*

Small Angle Neutron Scattering Studies on Chain Asymmetry of Coextruded Poly(Vinyl Alcohol) Film.
PB95-164372 *01,262*

Small Angle Neutron Scattering Study on Poly(N-Isopropyl Acrylamide) Gels Near Their Volume-Phase Transition Temperature.
PB95-164380 *01,263*

Small-Angle Neutron Scattering Study on Weakly Charged Temperature Sensitive Polymer Gels.
PB95-164398 *01,264*

Partial Scattered Intensities from a Binary Suspension of Polystyrene and Silica.
PB95-175618 *00,996*

Neutron Scattering by Hydrogen in Cold Neutron Prompt Gamma-Activation Analysis.
PB95-175972 *00,603*

Small Angle Neutrons Scattering from Nanocrystalline Palladium as a Function of Annealing.
PB95-176103 *03,354*

Neutron Scattering Study of the Orientation of a Liquid Crystalline Polymer by Shear Flow.
PB95-180196 *01,270*

Water Adsorption at Polymer/Silicon Wafer Interfaces.
PB95-181178 *01,022*

Lattice Dynamics of Semiconducting, Metallic, and Superconducting Ba1-xKxBiO3 Studied by Inelastic Neutron Scattering.
PB96-102447 *04,708*

Small Angle Neutron Scattering Study of the Structure and Formation of Ordered Mesopores in Silica.
PB96-111919 *03,069*

Effects of Target Temperature on Analytical Sensitivities of Cold-Neutron Capture Prompt gamma-ray Activation Analysis.
PB96-112131 *00,616*

Structure of a Triglyceride Microemulsion: A Small Angle Neutron Scattering Study.
PB96-112255 *01,077*

Small Angle Neutron Scattering Studies of Structural Characteristics of Argarose Gels.
PB96-112305 *03,475*

Vortex Dynamics and Melting in Niobium.
PB96-112362 *02,073*

Anisotropy of the Surfaces of Pores in Plasma Sprayed Alumina Deposits.
PB96-123211 *03,126*

Slow Dynamics of Segregation in Hydrogen-Bonded Polymer Blends.
PB96-123591 *01,281*

Inelastic Neutron Scattering Study of Hydrogen in Nanocrystalline Pd.
PB96-146857 *03,366*

Neutron Scattering Study of the Lattice Modes of Solid Cubane.
PB96-147152 *01,126*

Analysis of Small-Angle Scattering Data Dominated by Multiple Scattering for Systems Containing Eccentrically Shaped Particles or Pores.
PB96-160411 *03,075*

Low-Energy Vibrations and Octahedral Site Occupation in Nb95V5H(D)y.
PB96-160734 *01,133*

Neutron Spectroscopic Comparison of beta-Phase Rare Earth Hydrides.
PB96-160742 *01,134*

Influence of Shear on the Ordering Temperature of a Triblock Copolymer Melt.
PB96-163753 *01,288*

Small-Angle Neutron Scattering (SANS) Study of Worm-Like Micelles Under Shear.
PB96-176698 *04,111*

Isolated Spin Pairs and Two-Dimensional Magnetism in SrCr(sub 9p)Ga(sub 12-9p)O19.
PB97-112387 *04,154*

Neutron Scattering Study of Antiferromagnetic Order in the Magnetic Superconductors RNi2B2C.
PB97-112411 *04,812*

Measurements of the (237)Np(n,f) Cross Section.
PB97-119069 *04,173*

Small Angle Neutron Scattering Study of the Structure and Formation of MCM-41 Mesoporous Molecular Sieves.
PB97-122337 *03,110*

NEUTRON SOURCES
Thermal Hydraulic Tests of a Liquid Hydrogen Cold Neutron Source.
PB95-135570 *03,884*

Liquid-Hydrogen Cold Neutron Source for the NBSR.
PB95-151619 03,729

Nuclear Heat Load Calculations for the NBSR Cold Neutron Source Using MCNP.
PB95-152955 03,730

Cold Neutron Gain Calculations for the NBSR Using MCNP.
PB95-163978 03,731

In-situ Neutron Reflectivity of MBE Grown and Chemically Processed Surfaces and Interfaces.
PB96-146634 02,416

NEUTRON SPECTRA
DETAN 95: Computer Code for Calculating Spectrum-Averaged Cross Sections and Detector Responses in Neutron Spectra.
PB95-242384 04,014

NEUTRON SPECTROSCOPY
Neutron and Raman Spectroscopies of 134 and 134a Hydrofluorocarbons Encaged in Na-X Zeolite.
PB96-186168 03,001

NEUTRON STANDARDS
Measurement of the (10)B(n, alpha1gamma)(7)Li Cross Section in the 0.3 to 4 MeV Neutron Energy Interval.
PB96-161799 04,098

NEUTRON STANDING WAVES
Grazing Incidence Prompt Gamma Emissions and Resonance-Enhanced Neutron Standing Waves in a Thin-Film.
PB95-150470 03,892

NEUTRON TRANSPORT
Slab Transmission and Reflection for Point Source and Point Detector.
PB94-211265 03,838

Neutron Focusing Lens Using Polycapillary Fibers.
PB95-153078 03,922

NEUTRON VELOCITY SELECTORS
Acceptance Diagram Analysis of the Performance of Multidisk Neutron Velocity Selectors.
PB94-200417 03,826

NEUTRONS
Polarizability of the Nucleon.
PB94-211760 03,846

Measurement of the Neutron Lifetime.
PB96-161708 04,094

Diffraction of Neutron Standing Waves in Thin Films with Resonance Enhancement.
PB97-113278 04,164

NICKEL
Temperature Dependence and Anharmonicity of Phonons on Ni(110) and Cu(110) Using Molecular Dynamics Simulations.
PB94-185477 04,449

Nickel(II)-Mediated Oxidative DNA Base Damage in Renal and Hepatic Chromatin of Pregnant Rats and Their Fetuses. Possible Relevance to Carcinogenesis.
PB94-212628 03,646

Measurements of Thermophysical Properties of Nickel Near Its Melting Temperature by a Microsecond-Resolution Transient Technique.
PB96-102579 04,210

NICKEL 63
63Ni Half-Life: A New Experimental Determination and Critical Review.
PB97-111603 00,700

Nickel-63 Standardization: 1968-1995.
PB97-111819 00,701

NICKEL ALLOYS
Dynamic Shear Modulus Measurements with Four Independent Techniques in Nickel-Based Alloys.
PB94-198900 03,320

Diagnosis and Treatment of an Oral Base-Metal Contact Lesion Following Negative Dermatologic Patch Tests.
PB95-180626 00,172

Chemical Aspects of Tool Wear in Single Point Diamond Turning.
PB97-112601 03,021

NICKEL ALUMINIDES
LMTO/CVM and LAPW/CVM Calculations of the Nickel Aluminide/Nickel Titanium Pseudobinary Phase Diagram.
PB94-199353 03,323

NICKEL ALUMINUM TITANIUM
LMTO/CVM and LAPW/CVM Calculations of the Nickel Aluminide/Nickel Titanium Pseudobinary Phase Diagram.
PB94-199353 03,323

NICKEL BASE ALLOYS
Evaluation of the Environmentally Induced Fracture Resistance of Ductile Nickel Aluminide. Technical Report Number 1, Final report. October-December 1990.
DE94017331 03,306

Evaluation of the Electrochemical Behavior of Ductile Nickel Aluminide and Nickel in a pH 7.9 Solution. Technical Report Number 3, April-June 1991.
DE94017351 03,307

NICKEL BASE SUPERALLOY
Fatigue Crack Thresholds of a Nickel-Iron Alloy for Superconductor Sheaths at 4 K.
PB96-190343 03,223

NICKEL-CADMIUM BATTERIES
Rechargeable Batteries for Personal/Portable.
PB96-164231 02,459

NICKEL COMPOUNDS
One-Electron Oxidation of Nickel Porphyrins. Effect of Structure and Medium on Formation of Nickel(III) Porphyrin or Nickel(II) Porphyrin pi-Radical Cation.
PB95-107058 00,865

Site of One-Electron Reduction of Ni(II) Porphyrins. Formation of Ni(I) Porphyrin of Ni(II) Porphyrin pi-Radical Anion.
PB95-107066 00,866

NICKEL HYDRIDES
Determination of the Molecular Parameters of NiH in Its (2)Delta Ground State by Laser Magnetic Resonance.
PB95-107116 00,869

NICKEL INTERMETALLICS
Disorder Trapping in Ni2TiAl.
PB94-198942 03,322

NICKEL MANGANESE ANTIMONIDES
Resonant-Photoemission Investigation of the Heusler Alloys Ni2MnSb and NiMnSb.
PB95-162384 04,612

NICKEL OXIDES
Structural and Magnetic Ordering in Iron Oxide/Nickel Oxide Multilayers by X-ray and Neutron Diffraction (Invited).
PB94-172558 04,442

NICKEL SILICIDES
Local Partial Densities of States in Ni and Co Silicides Studied by Soft X-Ray Emission Spectroscopy.
PB94-212412 04,504

NICKEL TITANIUM
LMTO/CVM and LAPW/CVM Calculations of the Nickel Aluminide/Nickel Titanium Pseudobinary Phase Diagram.
PB94-199353 03,323

NICKEL VANADIUM
Effects of Elastic Stress on Phase Equilibrium in the Ni-V System.
PB94-172707 03,313

NII (NATIONAL INFORMATION INFRASTRUCTURE)
Putting the Information Infrastructure to Work: Report of the Information Infrastructure Task Force Committee on Applications and Technology.
PB94-163383 00,001

Information Infrastructure: Reaching Society's Goals. Report of the Information Infrastructure Task Force Committee on Applications and Technology.
PB94-214756 01,469

Report on the Workshop on Advanced Digital Video in the National Information Infrastructure. Held in Washington, D.C. on May 10-11, 1994.
PB95-103677 01,472

Unpredictable Certainty. Information Infrastructure through 2000.
PB96-182266 00,016

NIOBATES
Electric Field Effects on Crack Growth in a Lead Magnesium Niobate.
PB95-107322 03,339

NIOBIUM
Intrinsic Stress in DC Sputtered Niobium.
PB94-199031 04,468

Effect of Microstructure on Phase Formation in the Reaction of Nb/Al Multilayer Thin Films.
PB95-168415 03,352

First Phase Formation Kinetics in the Reaction of Nb/Al.
PB95-168456 03,353

Niobium Microbolometers for Far-Infrared Detection.
PB96-111729 02,184

Vortex Dynamics and Melting in Niobium.
PB96-112362 02,073

Metallic-Barrier Junctions for Programmable Josephson Voltage Standards.
PB96-200134 02,089

Superconductor- Normal-Superconductor Junctions for Digital/Analog Converters.
PB96-200233 02,092

Superconductor- Normal-Superconductor Junctions for Programmable Voltage Standards.
PB96-200241 02,093

Radiance Temperatures at 1500 nm of Niobium and Molybdenum at Their Melting Points by a Pulse-Heating Technique.
PB97-118699 04,167

NIOBIUM 93 TARGET
Measurement of the (93)Nb(n,2n) (92m)Nb Cross Section in a (235)U Fission Spectrum.
PB95-163986 03,945

NIOBIUM ALLOYS
Magnetic Characteristics and Measurements of Filamentary Nb-Ti Wire for the Superconducting Super Collider.
DE94005988 03,775

Transverse stress effect on the critical current of internal tin and bronze process Nb(sub 3)Sn superconductors.
DE95016659 04,434

Thermodynamic Calculation of the Ternary Ti-Al-Nb System.
PB94-212636 03,336

Thin Film Reaction Kinetics of Niobium/Aluminum Multilayers.
PB95-175295 04,651

Journal of Research of the National Institute of Standards and Technology, September/October 1993. Volume 98, Number 5.
PB96-169057 03,368

NIOBIUM ALUMINIDES
Thin Film Reaction Kinetics of Niobium/Aluminum Multilayers.
PB95-175295 04,651

NIOBIUM BASE ALLOYS
VAMAS interlaboratory comparisons of critical current vs. strain in Nb(sub 3)Sn.
DE95016656 04,433

NIOBIUM COMPOUNDS
Low-Energy Vibrations and Octahedral Site Occupation in Nb95V5H(D)y.
PB96-160734 01,133

NIOBIUM INTERMETALLICS
Coherent Precipitates in the BCC/Orthorhombic Two Phase Field of the Ti-Al-Nb System.
PB94-198694 03,317

NIOBIUM IONS
Spectrum and Energy Levels of Five-Times-Ionized Niobium (Nb VI).
PB94-185246 04,226

NIOBIUM NITRIDES
Use of Ion Scattering Spectroscopy to Monitor the Nb Target Nitridation during Reactive Sputtering.
PB94-172525 00,761

NIOBIUM STANNIDES
Electromechanical Properties of Superconductors for DOE Fusion Applications.
PB94-139672 02,250

Flux Expulsion at Intermediate Fields in Type-II Superconductors.
PB94-212230 04,502

Volume Magnetic Hysteresis Loss of Nb3Sn Superconductors as a Function of Wire Length.
PB95-153722 04,597

Superconductor Critical Current Standards for Fusion Applications. Final Progress Report, October 1993-July 1994.
PB95-169538 02,222

Reduction of Interfilament Contact Loss in Nb3Sn Superconductor Wires.
PB95-175535 02,223

Experimental Aspects of Flux Expulsion in Type-II Superconductors.
PB95-175725 04,660

Simple and Repeatable Technique for Measuring the Critical Current of Nb3Sn Wires.
PB96-119409 02,229

VAMAS Intercomparison of Critical Current Measurements on NB3Sn Superconductors: A Summary Report.
PB96-119763 04,043

NIOBIUM STANNOIDES
II-5: Thermal Contraction of Materials Used in Nb3Sn Critical Current Measurements.
PB96-147186 04,769

NIOBIUM TEN
Volume Magnetic Hysteresis Loss of Nb3Sn Superconductors as a Function of Wire Length.
PB95-153722 04,597

NIST
NIST Serial Holdings, 1994.
PB94-178068 02,745

NIST-7 FREQUENCY STANDARD
Velocity Distribution of Atomic Beams by Gated Optical Pumping.
PB95-180519 01,542

Hybrid Digital/Analog Servo for the NIST-7 Frequency Standard.
PB95-180618 01,544

NIST-7 STANDARD
NIST-7, the New US Primary Frequency Standard.
PB95-153458 01,534

NIST REFERENCE MATERIALS
What Is a 'Standard Reference Material' - What Is Any Reference Material.
PB96-186135 03,000

NITRAMINES
Thermal Decomposition Pathways in Nitramine Propellants.
AD-A295 896/5 03,753

Spectroscopic Study of Reaction Intermediates and Mechanisms in Nitramine Decomposition and Combustion.
AD-A296 061/5 03,774

NITRATE IONS
Vibrational Spectra of Molecular Ions Isolated in Solid Neon. XI. NO2(+), NO2(-), and NO3(-).
PB95-125688 00,890

NITRIC OXIDE
Reaction of NO with Superoxide.
PB94-212198 00,830

Reaction of Nitric Oxide with Organic Peroxyl Radicals.
PB95-141107 00,910

Laser-Induced Desorption of NO from Si(111): Effects of Coverage on NO Vibrational Populations.
PB95-162319 00,959

NITRIC OXIDE COMPLEXES
Fragment State Correlations in the Dissociation of NO.HF(v=1).
PB95-164430 *00,982*

NITRITE IONS
Vibrational Spectra of Molecular Ions Isolated in Solid Neon. XI. NO2(+), NO2(-), and NO3(-).
PB95-125688 *00,890*

NITROANILINES
Inelastic Neutron Scattering Studies of Nonlinear Optical Materials: p-Nitroaniline Adsorbed in ALPO-5.
PB95-107223 *00,874*

NITROGEN
Beneficial Effects of Nitrogen Atomization on an Austenitic Stainless Steel.
PB94-212396 *03,209*

Reduction of Dinitrogen to Ammonia in Aqueous Solution Mediated by Colloidal Metals.
PB95-107074 *00,867*

Operational Mode and Gas Species Effects on Rotational Drag in Pneumatic Dead Weight Pressure Gages.
PB95-140182 *00,903*

N2(a'(sup 1)Sigma(sub g)(sup +)) Metastable Collisional Destruction and Rotational Excitation Transfer by N2.
PB95-151395 *00,933*

High Resolution Angle Resolved Photoelectron Spectroscopy Study of N2.
PB95-151494 *03,907*

Photoelectron Study of Electronic Autoionization in Rotationally Cooled N2: The n=6 Member of the Hopfield Series.
PB95-163531 *00,971*

Modified Effective Range Theory as an Alternative to Low-Energy Close-Coupling Calculations.
PB95-202701 *03,988*

Ion Kinetics and Symmetric Charge-Transfer Collisions in Low-Current, Diffuse (Townsend) Discharges in Argon and Nitrogen.
PB96-123658 *04,051*

NITROGEN COMPLEXES
Slit Jet Infrared Spectroscopy of Hydrogen Bonded N2HF Isotopomers: Rotational Rydberg-Klein-Rees Analysis and H/D Dependent Vibrational Predissociation Rates.
PB95-161873 *00,956*

Rotational-RKR Inversion of Intermolecular Stretching Potentials: Extension to Linear Hydrogen Bonded Complexes.
PB95-203014 *01,041*

NITROGEN COMPOUNDS
High-Resolution Infrared Overtone Spectroscopy of N2-HF: Vibrational Red Shifts and Predissociation Rate as a Function of HF Stretching Quanta.
PB96-102298 *01,061*

NITROGEN DIOXIDE
Vibrational Spectra of Molecular Ions Isolated in Solid Neon. XI. NO2(+), NO2(-), and NO3(-).
PB95-125688 *00,890*

Asymptotic and Numerical Analysis of a Premixed Laminar Nitrogen Dioxide-Hydrogen Flame.
PB96-164256 *01,422*

NITROGEN FLOW FACILITY
Uncertainty Analysis of the NIST Nitrogen Flow Facility.
PB95-128906 *02,608*

NITROGEN HETEROCYCLIC COMPOUNDS
Oxidation of 10-Methylacridan, a Synthetic Analogue of NADH and Deprotonation of Its Cation Radical. Convergent Application of Laser Flash Photolysis and Direct and Redox Catalyzed Electrochemistry to the Kinetics of Deprotonation of the Cation Radical.
PB94-198371 *00,785*

NITROGEN IONS
Selected Ion Flow Tube-Laser Induced Fluorescence Instrument for Vibrationally State-Specific Ion-Molecule Reactions.
PB94-185444 *00,774*

Fine-Structure Intervals of (14)N(+) By Far-Infrared Laser Magnetic Resonance.
PB95-175162 *00,993*

NITROGEN-LIKE IONS
Atomic Branching Ratio Data for Nitrogen-Like Species.
PB96-190152 *04,122*

NITROGEN OXIDES
P-Type Doubling in the Infrared Spectrum of NO-HF.
PB94-211463 *00,817*

NO Production and Destruction in a Methane/Air Diffusion Flame.
PB97-122519 *01,443*

NITROMETHANE
Microwave Spectrum and Structure of CH3NO2-H20.
AD-A296 377/5 *00,719*

NOBLE GASES
Excitation Transfer in Barium by Collisions with Noble Gases.
PB96-200274 *01,163*

NODULAR IRON
Application of ODF to the Rietveld Profile Refinement of Polycrystalline Solid.
PB95-202388 *03,401*

NOISE
New Model of 1/F Noise in Baw Quartz Resonators.
PB96-112248 *02,383*

Non-Gaussian Noise Effects on Reliability of Multistable Systems.
PB96-122726 *04,213*

Telegraph Noise in Silver-Permalloy Giant Magnetoresistance Test Structures.
PB96-146717 *04,763*

Transitions to Chaos Induced by Additive and Multiplicative Noise.
PB96-155759 *03,750*

Spectrum of the Stochastically Forced Duffing-Holmes Oscillator.
PB96-155767 *00,216*

Necessary Condition for Homoclinic Chaos Induces by Additive Noise.
PB96-155775 *04,063*

Noise-Induced Transitions to Chaos.
PB96-156120 *00,217*

Deterministic and Stochastic Chaos.
PB96-156138 *00,218*

Exits in Multistable Systems Excited by Coin-Toss Square-Wave Dichotomous Noise: A Chaotic Dynamics Approach.
PB96-160650 *04,824*

Observation of Hot-Electron Shot Noise in a Metallic Resistor.
PB97-112007 *01,988*

NOISE ANALYSIS
Current Noise Reveals Protonation Kinetics and Number of Ionizable Sites in an Open Protein Ion Channel.
PB96-161674 *04,092*

Noise Analysis of Ionization Kinetics in a Protein Ion Channel.
PB96-161682 *04,093*

Current Fluctuations Reveal Protonation Dynamics and Number of Ionizable Residues in the alpha-Toxin Channel.
PB96-161732 *03,588*

Protonation Dynamics of the alpha-Toxin Ion Channel from Spectral Analysis of pH-Dependent Current Fluctuations.
PB96-161740 *03,652*

Protonation Dynamics in an Ion Channel Pore.
PB96-161757 *03,589*

NOISE CALIBRATION SYSTEM
Journal of Research of the National Institute of Standards and Technology. January/February 1994. Volume 99, Number 1.
PB94-169737 *02,019*

Null-Balanced Total-Power Radiometer System NCS1.
PB94-169778 *02,021*

Derivation of the System Equation for Null-Balanced Total-Power Radiometer System NCS1.
PB94-169786 *02,022*

Evaluation of Uncertainties of the Null-Balanced Total-Power Radiometer System NCS1.
PB94-169794 *02,023*

NOISE CALIBRATION SYSTEMS
Uncertainties of the NIST Coaxial Noise Calibration System.
PB96-111984 *02,070*

NOISE MEASUREMENT
Relative Accuracy of Isolated and Unisolated Noise Comparison Radiometers.
PB96-111851 *01,924*

NOISE REDUCTION
Slow Evolution from the Boundary: A New Stabilizing Constraint in Ill-Posed Continuation Problems.
PB96-122858 *03,418*

Noise Reduction in Low-Frequency SQUID Measurements with Laser-Driven Switching.
PB96-135165 *02,081*

NOISE STANDARDS
Practical Standards for PM and AM Noise at 5, 10 and 100 MHz.
PB95-181129 *01,546*

NOISE TEMPERATURE
Systematic Studies of the Effect of a Bandpass Filter on a Josephson-Junction Noise Thermometer.
PB95-162970 *03,939*

Systematic Studies of the Effect of a Post-Detection Filter on a Josephson-Junction Noise Thermometer.
PB95-162988 *03,940*

NOISE THERMOMETERS
Systematic Studies of the Effect of a Bandpass Filter on a Josephson-Junction Noise Thermometer.
PB95-162970 *03,939*

Systematic Studies of the Effect of a Post-Detection Filter on a Josephson-Junction Noise Thermometer.
PB95-162988 *03,940*

NON-ABRASIVE WEAR TESTING
Critical Factors in Non-Lubricated, Non-Abrasive Wear Testing.
PB95-140588 *03,236*

NON-GAUSSIAN EFFECTS
Non-Gaussian Noise Effects on Reliability of Multistable Systems.
PB96-122726 *04,213*

NON-NEWTONIAN FLUIDS
Density Dependence of Fluid Properties and Non-Newtonian Flows: The Weisenberg Effect.
PB96-161898 *01,140*

NONAQUEOUS ELECTROLYTES
Susceptibility Critical Exponent for a Nonaqueous Ionic Binary Mixture Near a Consolute Point.
PB95-152112 *00,938*

NONDEGENERATE STARS
Volume-Limited ROSAT Survey of Extreme Ultraviolet Emission from all Nondegenerate Stars within 10 Parsecs.
PB96-103189 *00,093*

NONDESTRUCTIVE EVALUATION
Ultrasonic NDE of Sprayed Ceramic Coatings.
PB96-201157 *02,761*

NONDESTRUCTIVE TESTING
Intelligent Processing of Materials.
PB94-172780 *02,811*

Recent Development in Nondestructive Testing of Concrete.
PB96-122445 *01,325*

Classified Bibliography: Insulation Condition Monitoring Methods, 1989-1995.
PB96-131586 *02,232*

NONDESTRUCTIVE TESTS
Detection of Voids in Grouted Ducts Using the Impact-Echo Method.
PB94-185121 *01,306*

International Institute of Welding: Report on 1992 Actions.
PB94-185873 *02,856*

International Institute of Welding: Report on 1993 Actions.
PB94-185881 *02,857*

Dynamic Shear Modulus Measurements with Four Independent Techniques in Nickel-Based Alloys.
PB94-198900 *03,320*

Assessment of Technology for Detection of Stress Corrosion Cracking in Gas Pipelines. Final Report, July 1993-March 1994.
PB94-206646 *02,475*

Review of Cure Monitoring Techniques for On-Line Process Control.
PB94-216728 *03,145*

Potential Drop in the Center-Cracked Panel with Asymmetric Crack Extension.
PB95-107330 *04,819*

Ultrasonic Measurement of Residual Stress in Railroad Wheel Rims.
PB95-140430 *04,849*

Nondestructive Evaluation and Materials Processing.
PB95-140455 *02,902*

Critical Factors in Non-Lubricated, Non-Abrasive Wear Testing.
PB95-140588 *03,236*

Noncontact Ultrasonic Inspection of Train Rails for Stress.
PB95-162673 *04,851*

Determination of Hydrogen in Titanium Alloy Jet Engine Compressor Blades by Cold Neutron Capture Prompt Gamma-ray Activation Analysis.
PB95-175956 *01,448*

Nondestructive Testing of Concrete: History and Challenges.
PB95-180139 *00,385*

Reactor Radiation Technical Activities, 1994. NAS-NRC Assessment Panel, April 6-7, 1995.
PB95-209888 *03,732*

Comparison of Techniques for Nondestructive Composition Measurements in CdZnTe Substrates.
PB96-103098 *02,703*

Residual Stress in Induction-Heated Railroad Wheels: Ultrasonic and Saw Cut Measurements. Report No. 28.
PB96-106992 *04,854*

Contributions of Out-of-Plane Material to a Scanned-Beam Laminography Image.
PB96-111786 *02,704*

Open-Ended Coaxial Probes for Nondestructive Testing of Substrates and Circuit Boards.
PB96-122825 *02,078*

Report on 1994 Actions of the International Institute of Welding.
PB96-138540 *02,873*

Gas-Coupled, Pulse-Echo Ultrasonic Crack Detection and Thickness Gaging.
PB96-147129 *04,847*

International Institute of Welding: Report on 1995 Actions.
PB96-158076 *02,874*

Application of Electromagnetic-Acoustic Transducers for Nondestructive Evaluation of Stresses in Steel Bridge Structures.
PB96-167978 *01,301*

Dynamometer-Induced Residual Stress in Railroad Wheels: Ultrasonic and Saw Cut Measurements. Report No. 30.
PB96-183199 *04,857*

Reactor Radiation Technical Activities, 1995.
PB96-193644 *03,741*

Development of a Method for Measuring Water-Stripping Resistance of Asphalt/Siliceous Aggregate Mixtures.
PB96-197249 *01,348*

Development of a Method for Measuring Water-Stripping Resistance of Asphalt/Siliceous Aggregate Mixtures.
PB96-202296 *01,329*

NONEQUILIBRIUM ENTROPY
Nonequilibrium Statistical Mechanics.
PB96-161781 *04,097*

NONEQUILIBRIUM MOLECULAR DYNAMICS
Simulation and SANS Studies of Gelation Under Shear.
PB96-167176 *01,150*

NONIONIZING RADIATION
Bibliography of the NIST Electromagnetic Fields Division Publications.
PB94-165990 *01,875*

NONLINEAR ALGEBRAIC EQUATIONS
Algebraic Approximation of Attractors for Galloping Oscillators.
PB95-162897 *04,820*

NONLINEAR DIFFERENTIAL EQUATIONS
Melnikov Function and Homoclinic Chaos Induced by Weak Perturbations.
PB95-180923 *03,414*

NONLINEAR DYNAMICS
Nonlinear Dynamics of Stiff Polymers.
PB96-122478 *01,278*

NONLINEAR EQUATIONS
Foias-Temam Approximations of Attractors for Galloping Oscillators.
PB94-198298 *04,817*

NONLINEAR OPTICS
Scaling of the Nonlinear Optical Cross Sections of GaAs-AlGaAs Multiple Quantum-Well Hetero n-i-p-i's.
PB96-102793 *02,183*

Appearance Intensities for Multiply Charged Ions in a Strong Laser Field.
PB96-160445 *04,089*

NONLINEAR SYSTEMS
Exponentially Rapid Coarsening and Buckling in Coherently Self-Stressed Thin Plates.
PB95-202347 *04,821*

NONMODEL ERRORS
Effects of Nonmodel Errors on Model-Based Testing.
PB96-123146 *02,604*

NONPAIRWISE ADDITIVE FORCES
Pairwise and Nonpairwise Additive Forces in Weakly Bound Complexes: High Resolution Infrared Spectroscopy of ArnDF (n=1,2,3).
PB96-200357 *04,125*

NORDIC COUNTRIES
Forum for International Cooperation on Fire Research.
PB95-162939 *04,869*

NORTH AMERICA
ISO/IEC Workshop on Worldwide Recognition of OSI Test Results Regional Progress - North America.
PB94-172202 *02,719*

Status of Construction and Construction Technologies.
PB94-186004 *00,318*

PB96-122569 *03,476*

Study of Laser Resonance Ionization Mass Spectrometry Using a Glow Discharge Source.
PB96-123203 *03,360*

Anionic Triphenylmethane Dye Solutions for Low-Dose Food Irradiation Dosimetry.
PB96-135173 *03,715*

Alcohol Solutions of Triphenyl-Tetrazolium Chloride as High-Dose Radiochromic Dosimeters.
PB96-135249 *03,716*

Oscillometric and Conductometric Analysis of Aqueous and Organic Dosimeter Solutions.
PB96-135256 *04,054*

Dosimetry Systems for Radiation Processing.
PB96-135280 *03,717*

Temperature and Relative Humidity Dependence of Radiochromic Film Dosimeter Response to Gamma and Electron Radiation.
PB96-135298 *03,718*

Real Time Monitoring of Electron Processors.
PB96-135306 *03,719*

Low-Frequency Excitations of Oriented DNA.
PB96-137799 *03,548*

MCNP Model of the National Bureau of Standards Reactor (NBSR) Core.
PB96-138599 *03,733*

Research and Development Activities in Electron Paramagnetic Resonance Dosimetry.
PB96-141288 *03,635*

Orientation Effects on ESR Analysis of Alanine-Polymer Dosimeters.
PB96-146725 *03,720*

Radiation-Chemical Reaction of 2,3,5-Triphenyl-Tetrazolium Chloride in Liquid and Solid State.
PB96-146733 *01,124*

Investigation of Applicability of Alanine and Radiochromic Detectors to Dosimetry of Proton Clinical Beams.
PB96-146782 *03,636*

Al L2,3 Core Excitons in AlxGa1-x as Studied by Soft-X-ray Reflection and Emission.
PB96-157839 *04,067*

Soft-X-ray-Emission Investigation of Cobalt Implanted Silicon Crystals.
PB96-157912 *04,069*

Soft-X-ray-Emission Spectra of Solid Kr and Xe.
PB96-157920 *04,070*

Soft-X-ray-Emission Studies of Bulk Fe3Si, FeSi, and FeSi2, and Implanted Iron Silicides.
PB96-157938 *04,071*

Cooper M(sub II,III) X-ray-Emission Spectra of Copper Oxides and the Bismuth Cuprate Superconductor.
PB96-158027 *04,077*

New NIST/ARPA National Soft X-ray Reflectometry Facility.
PB96-158092 *04,080*

Soft-X-ray Damage to p-terphenyl Coatings for Detectors.
PB96-159611 *04,364*

System for Intercomparing Standard Solutions of Beta-Particle Emitting Radionuclides.
PB96-159637 *03,707*

International Radon-in-Air Measurement Intercomparison Using a New Transfer Standard.
PB96-159751 *03,708*

External Gamma-ray Counting of Selected Tissues from a Thorotrast Patient.
PB96-160254 *03,637*

Phonon Relaxation in Soft-X-ray Emission of Insulators.
PB96-160296 *04,085*

New and Revised Half-Life Measurement Results.
PB96-160346 *00,695*

NIST Metrology for Soft X-ray Multilayer Optics.
PB96-160379 *04,088*

Soft X-ray Reflectometry Program at the National Institute of Standards and Technology.
PB96-160395 *04,368*

Instrumental Smearing Effects in Radially Symmetric Small-Angle Neutron Scattering by Numerical and Analytical Methods.
PB96-160429 *02,984*

Inter-Laboratory Trials of the EPR Method for the Detection of Irradiated Meats Containing Bone.
PB96-161690 *00,042*

Measurement of the Neutron Lifetime.
PB96-161708 *04,094*

Measurement of the (10)B(n, alpha1gamma)(7)Li Cross Section in the 0.3 to 4 MeV Neutron Energy Interval.
PB96-161799 *04,098*

Gas Absorption during Ion-Irradiation of a Polymer Target.
PB96-161864 *04,099*

Upgrade and Modernization Projects at the NBSR.
PB96-161872 *03,737*

International Marine-Atmospheric (222)Rn Measurement Intercomparison in Bermuda. Part 1. NIST Calibration and Methodology for Standardized Sample Additions.
PB96-175674 *00,114*

International Marine-Atmospheric (222)Rn Measurement Intercomparison in Bermuda. Part 2. Results for the Participating Laboratories.
PB96-175682 *00,115*

Realization of NIST 1995 Luminous Flux Scale Using the Integrating Sphere Method.
PB96-176433 *04,374*

Simulations of Neutron Focusing with Curved Mirrors.
PB96-176649 *02,200*

Design of a High-Flux Backscattering Spectrometer for Ultra-High Resolution Inelastic Neutron Measurements.
PB96-179577 *02,992*

Radiochromic Solid-State Polymerization Reaction.

63Ni Half-Life: A New Experimental Determination and Critical Review.
PB97-111603 *00,700*

Nickel-63 Standardization: 1968-1995.
PB97-111819 *00,701*

X-ray Reflectivity Determination of Interface Roughness Correlated with Transport Properties of (AlGa)As/GaAs High Electron Mobility Transistor Devices.
PB97-111868 *04,149*

Results of a NIST/VNIIOFI Comparison of Spectral-Radiance Measurements.
PB97-113021 *04,159*

Comparison of Filter Radiometer Spectral Responsivity with the NIST Spectral-Irradiance and Illuminance Scales.
PB97-113161 *04,162*

Diffraction of Neutron Standing Waves in Thin Films with Resonance Enhancement.
PB97-113278 *04,164*

Experimentally Measured Total X-ray Attenuation Coefficients Extracted from Previously Unprocessed Documents Held by the NIST Photon and Charged Particle Data Center.
PB97-114474 *04,165*

Simultaneous Measurement of Normal Spectral Emissivity by Spectral Radiometry and Laser Polarimetry at High Temperatures in Pulse-Heating Experiments: Application to Molybdenum and Tungsten.
PB97-118376 *02,694*

Colour Centres in LiF for Measurement of Absorbed Doses Up to 100 MGy.
PB97-118756 *04,169*

Effect of Formulation Changes on the Response to Ionizing Radiation of Radiochromic Dye Films.
PB97-119028 *04,171*

Results of the ASTM Nuclear Methods Intercomparison on NIST Apple and Peach Leaves Standard Reference Materials.
PB97-119036 *03,490*

Measurements of the (235)U(n,f) Cross Section in the 3 to 30 MeV Neutron Energy Region.
PB97-119051 *04,172*

Measurements of the (237)Np(n,f) Cross Section.
PB97-119069 *04,173*

Mass Assay and Uniformity Test of Boron Targets by Neutron Beam Methods.
PB97-119085 *04,175*

Novel Radiochromic Films for Clinical Dosimetry.
PB97-119259 *03,641*

Calibration and Performance of GafChromic DM-100 Radiochromic Dosemeters.
PB97-119291 *00,703*

Flat and Curved Crystal Spectrography for Mammographic X-ray Sources.
PB97-122246 *03,642*

Small Angle Neutron Scattering Study of the Structure and Formation of MCM-41 Mesoporous Molecular Sieves.
PB97-122337 *03,110*

Complex Time Dependence of the EPR Signal of Irradiated L-alpha-alanine.
PB97-122436 *04,180*

Overview of a Radiation Accident at an Industrial Accelerator Facility.
PB97-122485 *02,612*

Measuring Nondipolar Asymmetries of Photoelectron Angular Distributions.
PB97-122493 *01,193*

NUCLEAR POWER
Review of the USCEA/NIST Measurement Assurance Program for the Nuclear Power Industry.
PB95-126272 *03,712*

NUCLEAR POWER PLANTS
Proceedings of the Digital Systems Reliability and Nuclear Safety Workshop. Held in Rockville, Maryland on September 13-14, 1993.
NUREG/CP-0136 *03,728*

Assessing Functional Diversity by Program Slicing.
PB96-160890 *03,734*

Analysis of Standards for the Assurance of High Integrity Software.
PB96-161351 *03,735*

Control and Instrumentation: Standards for High-Integrity Software.
PB96-161369 *03,736*

Preliminary Processing of the Lotung LSST Data.
PB96-165972 *03,690*

Methodology for Developing and Implementing Alternative Temperature-Time Curves for Testing the Fire Resistance of Barriers for Nuclear Power Plant Applications.
PB96-193784 *03,742*

Estimation of System Damping at the Lotung Site by Application of System Identification.
PB96-214697 *01,351*

USCEA/NIST Measurement Assurance Programs for the Radiopharmaceutical and Nuclear Power Industries.
PB97-110514 *03,721*

NUCLEAR REACTORS
Reactor Radiation Technical Activities, 1994. NAS-NRC Assessment Panel, April 6-7, 1995.
PB95-209888 *03,732*

Upgrade and Modernization Projects at the NBSR.
PB96-161872 *03,737*

Reactor Radiation Technical Activities, 1995.
PB96-193644 *03,741*

NUCLEATE BOILING
Simultaneous Visual and Calorimetric Measurements of R11, R123, and R123/Alkylbenzene Nucleate Flow Boiling.
PB94-172426 *03,251*

Visual Measurement Technique for Analysis of Nucleate Flow Boiling.
PB95-143301 *03,262*

NUCLEATION
Controlled Nucleation in Aerosol Reactors for Supression of Agglomerate Formation.
PB95-151973 *00,672*

Surface Roughness Evaluation of Diamond Films Grown on Substrates with a High Density of Nucleation Sites.
PB95-162418 *03,018*

Growth and Nucleation of Hydrogenated Amorphous Silicon on Silicon (100) Surfaces.
PB96-176516 *02,991*

Epitaxial Nucleation and Growth of Chemically Derived Ba2YCu3O7-x Thin Films on (001) SrTiO3.
PB96-190186 *04,787*

NUCLEIC ACIDS
Salt-PEG Two-Phase Aqueous Systems to Purify Proteins and Nucleic Acid Mixtures.
PB94-200375 *03,527*

Nucleic Acid Database: Present and Future.
PB97-109078 *00,518*

NUCLEOTIDES
beta-D-Glucosyl-Hydroxymethyluracil: A Novel Modified Base Present in the DNA of the Parastic Protozoan T. brucei.
PB94-172319 *03,524*

NUETRON ATOMS
Gravitational Sisyphus Cooling of (87)Rb in a Magnetic Trap.
PB96-200704 *04,379*

NUETRON MEASUREMENTS
Design of a High-Flux Backscattering Spectrometer for Ultra-High Resolution Inelastic Neutron Measurements.
PB96-179577 *02,992*

NUMERICAL ANALYSIS
Convergence Properties of a Class of Rank-Two Updates. (NIST Reprint).
PB95-180097 *03,430*

Numerical Evaluation of Special Functions.
PB96-119557 *03,417*

NUMERICAL CONTROL
NIST RS274/NGC Interpreter Version 1.
PB94-187788 *02,814*

Issues Concerning Material Removal Shape Element Volumes (MRSEVs).
PB95-210167 *02,885*

NIST RS274KT Interpreter.
PB96-147954 *02,835*

NUMERICAL DATA BASES
Numeric Data Distribution: The Vital Role of Data Exchange in Today's World.
N95-15937/2 *02,622*

NUMERICAL SIMULATION
Gravity-Current Transport in Building Fires.
PB96-147046 *01,415*

NURSING HOMES
Evaluating Small Board and Care Homes: Sprinklered vs. Nonsprinklered Fire Protection.
PB94-206356 *00,195*

NUTRIENTS
Recently Developed NIST Food Related Standard Reference Materials.
PB94-198322 *00,035*

NUTRITION
Nutritional Status and Growth in Juvenile Rheumatoid Arthritis.
PB94-198470 *03,515*

NUTRITIVE VALUE
Mixed Diet Reference Materials for Nutrient Analysis of Foods: Preparation of SRM-1548 Total Diet.
PB95-151692 *03,593*

NVLAP (NATIONAL VOLUNTARY LABORATORY ACCREDITATION PROGRAM)
National Voluntary Laboratory Accreditation Program: Energy Efficient Lighting Products.

OFFICE BUILDINGS
Manual for Ventilation Assessment in Mechanically Ventilated Commercial Buildings.
PB94-145653 *00,239*

Source of Phenol Emissions Affecting the Indoor Air of an Office Building.
PB94-154382 *03,600*

Air Change Effectiveness Measurements in Two Modern Office Buildings.
PB94-185766 *00,243*

Environmental Evaluation of a New Federal Office Building.
PB94-199874 *02,538*

Fire Growth Analysis of the Fire of March 20, 1990, Pulaski Building, 20 Massachusetts Avenue, N.W., Washington, DC.
PB94-205952 *00,194*

Ventilation Rates in Office Buildings.
PB95-108825 *02,539*

Field Measurements of Ventilation and Ventilation Effectiveness in an Office/Library Building.
PB95-108833 *00,247*

Study of Ventilation and Carbon Dioxide in an Office Building.
PB95-150140 02,542

Assessing Ventilation Effectiveness in Mechanically Ventilated Office Buildings.
PB95-162079 00,255

Ventilation Effectiveness Measurements in Two Modern Office Buildings.
PB95-176012 02,553

Indoor Air Quality Commissioning of a New Office Building.
PB95-182309 00,262

Measurements of Outdoor Air Distribution in an Office Building.
PB95-210944 00,264

Workplan to Analyze the Energy Impacts of Envelope Airtightness in Office Buildings.
PB96-154463 00,273

Study of Ventilation Measurement in an Office Building.
PB96-155593 00,274

Development and Application of an Indoor Air Quality Commissioning Program in a New Office Building.
PB96-155601 00,275

Indoor Air Quality Commissioning of a New Office Building.
PB97-110142 00,279

Post-Occupancy Evaluation of the Forrestal Building.
PB97-111298 00,280

Survey of Fuel Loads in Contemporary Office Buildings.
PB97-114235 00,233

Evaluation of Survey Procedures for Determining Occupant Load Factors in Contemporary Office Buildings.
PB97-116222 00,238

Materials-Science Based Approach to Phenol Emissions from a Flooring Material in an Office Building.
PB97-118749 02,572

OFFICE EQUIPMENT

Office Work Station Heat Release Rate Study: Full Scale versus Bench Scale.
PB96-190178 01,428

OFFSET SUSCEPTIBILITY

Offset Susceptibility of Superconductors.
PB94-212263 04,503

OFFSHORE DRILLING

Composite Materials for Offshore Operations: Proceedings of the International Workshop (1st). Held in Houston, Texas on October 26-28, 1993.
PB96-109509 03,169

OFFSHORE STRUCTURES

Report of a Workshop on Requalification of Tubular Steel Joints in Offshore Structures. Held in Houston, Texas on September 5-6, 1995.
PB96-210760 03,699

OHM

New International Representations of the Volt and Ohm Effective January 1, 1990.
PB95-150777 01,890

OIL SPILLS

In situ Burning of Oil Spills: Mesoscale Experiments.
PB94-142973 01,355

In Situ Burning Oil Spill Workshop Proceedings. Held in Orlando, Florida on January 26-28, 1994.
PB95-104907 02,583

In situ Burning of Oil Spills: Mesoscale Experiments and Analysis.
PB95-163747 02,587

Smoke Emission from Burning Crude Oil.
PB96-122890 01,407

Smoke Plume Trajectory from In situ Burning of Crude Oil in Alaska: Field Experiments.
PB96-131560 02,594

Smoke Plume Trajectory from In situ Burning of Crude Oil: Field Experiments.
PB96-200993 02,597

OIL TANKERS

Stranding Experiments on Double Hull Tanker Structures.
PB96-123112 03,749

OIL WELLS

Ground-Based Smoke Sampling Techniques Training Course and Collaborative Local Smoke Sampling in Saudi Arabia.
PB94-143542 02,532

Investigation of Oil and Gas Well Fires and Flares.
PB94-193976 03,695

Flame Heights and Heat Release Rates of 1991 Kuwait Oil Field Fires.
PB96-119342 01,404

Development of Hazard Assessment and Suppression Technology for Oil and Gas Well Blowout and Diverter Fires.
PB96-122965 01,408

OILING POINT

Physical Properties of Some Purified Aliphatic Hydrocarbons.
AD-A297 265/1 00,657

OILS

National Standard Petroleum Oil Tables.
AD-A279 952/6 02,469

OLEORESINS

Preliminary Investigation of Oleoresin Capsicum.
PB96-179486 03,520

OLIGOMERS

Solid State (13)C NMR and Raman Studies of Cellulose Triacetate: Oligomers, Polymorphism, and Inferences about Chain Polarity.
PB96-176532 01,289

OLTIPRAZ

Determination of Oltipraz in Serum by High-Performanace Liquid Chromatography with Optical Absorbance and Mass Spectrometric Detection.
PB94-200201 03,493

OMEGA PHASE

Ordered omega-Derivatives in a Ti-37.5Al-2ONb at% Alloy.
PB94-211091 03,331

ON-LINE SYSTEMS

STEP On-Line Information Service (SOLIS). The IGES/PDES Organization.
PB95-137790 02,777

Electronic Access to Standards on the Information Highway.
PB96-131578 01,494

ONLINE SYSTEMS

Global Information Infrastructure: Agenda for Cooperation.
PB95-178604 01,482

OPEN CHANNEL FLOW

Probabilistic Computation of Poiseuille Flow Velocity Fields.
PB96-102520 04,209

OPEN DISTRIBUTED PROCESSING

Comparison of POSIX Open System Environment (OSE) and Open Distributed Processing (ODP) Reference Models.
PB96-131495 01,820

OPEN-ENDED PROBES

Open-Ended Coaxial Probes for Nondestructive Testing of Substrates and Circuit Boards.
PB96-122825 02,078

OPEN SYSTEM ENVIRONMENT

Porting Multimedia Applications to the Open System Environment.
PB94-172921 02,721

Guide on Open System Environment (OSE) Procurements.
PB95-169496 01,626

Comparison of POSIX Open System Environment (OSE) and Open Distributed Processing (ODP) Reference Models.
PB96-131495 01,820

Open System Environment (OSE): Architectural Framework for Information Infrastructure.
PB96-146360 00,002

Application Portability Profile (APP): The U.S. Government's Open System Environment Profile Version 3.0.
PB96-158712 01,753

OPEN SYSTEMS

Conference Report: International Conference on the Application of Standards for Open Systems (6th).
PB96-161211 01,762

OPEN SYSTEMS ENVIRONMENT

Open System Environment Implementors Workshop (OIW); Standardization Role Defined.
PB96-180047 01,828

OPEN SYSTEMS INTERCONNECTION

Formal Multi-Layer Test Methodology and Its Application to OSI.
PB94-172194 02,718

ISO/IEC Workshop on Worldwide Recognition of OSI Test Results Regional Progress - North America.
PB94-172202 02,719

IGOSS-Industry/Government Open Systems Specification.
PB94-207453 01,806

Conformance Testing for OSI Protocols.
PB96-102686 01,631

Lessons from the Establishment of the U.S. GOSIP Testing Program.
PB96-119359 01,817

Open Issues in OSI Protocol Development and Conformance Testing.
PB96-122908 01,818

Data Communications Strategy.
PB96-167846 02,738

OPEN SYSTEMS INTERCONNECTIONS

Supplement to Stable Implementation Agreements for Open Systems Interconnection Protocols. Version 3, September 1990. Change Page Index, Version 3, June 1990 (Stable) Change Pages Issued December 1990; Output from September 1990 OSI Workshop (NIST Special Publication 500-177).
PB94-164035 01,467

OPERATING SYSTEMS (COMPUTERS)

Portable Operating System Interface (POSIX). Part 2. Shell and Utilities. Category: Software Standard; Subcategory: Operating Systems.
FIPS PUB 189 01,797

Open Systems Software Standards in Concurrent Engineering.
PB96-160932 01,758

NIST POSIX Testing Program.
PB96-160973 01,821

OPERATIONS RESEARCH

Time Dependent Vector Dynamic Programming Algorithm for the Path Planning Problem.
PB94-215688 03,428

OPHTHALMIC APPLICATIONS

Comparison of NIST and Manufacturer Calibrations of (90)Sr+(90)Y Ophthalmic Applicators.
PB96-123708 03,634

OPHTHALMIC APPLICATORS

Extrapolation Chamber Measurements on (90)Sr + (90)Y Beta-Particle Ophthalmic Applicator Dose Rates.
PB95-153375 03,626

OPHTHALMOLOGY

Extrapolation Chamber Measurements on (90)Sr + (90)Y Beta-Particle Ophthalmic Applicator Dose Rates.
PB95-153375 03,626

Measurement of Radial Dose Distributions Around Small Beta Particle Emitters Using High Resolution Radiochromic Foil Dosimetry.
PB95-164604 03,518

OPTICAL ABSORPTION

Interdigitated Stacked P-I-N Multiple Quantum Well Modulator.
PB97-112296 02,455

OPTICAL BIOSENSORS

Optical Biosensor Using a Fluorescent, Swelling Sensing Element.
PB95-175899 03,541

OPTICAL CHARACTER RECOGNITION

Evaluating Form Designs for Optical Character Recognition.
PB94-168044 01,830

Second Census Optical Character Recognition Systems Conference.
PB94-188711 01,832

NIST Form-Based Handprint Recognition System.
PB94-217106 01,838

Binary Decision Clustering for Neural Network Based Optical Character Recognition.
PB95-171971 01,848

Method and Evaluation of Character Stroke Preservation on Handprint Recognition.
PB95-251724 01,850

Improving Neural Network Performance for Character and Fingerprint Classification by Altering Network Dynamics.
PB95-267803 01,851

Effect of Training Dynamics on Neural Network Performance.
PB95-267845 01,852

Improving Neural Network Performance for Character and Fingerprint Classification by Altering Network Dynamics.
PB96-123195 01,856

Binary Decision Clustering for Neural-Network-Based Optical Character Recognition.
PB96-186184 01,857

Generalized Form Registration Using Structure-Based Techniques.
PB96-191374 01,858

Component-Based Handprint Segmentation Using Adaptive Writing Style Model.
PB96-193669 01,859

OPTICAL CHARACTERIZATION

Optical Characterization of Materials and Devices for the Semiconductor Industry: Trends and Needs.
PB96-167192 02,431

OPTICAL COATINGS

XUV Characterization Comparison of Mo/Si Multilayer Coatings.
PB95-164000 04,278

OPTICAL COMMUNICATION

Lightwave Standards Development at NIST.
PB95-168563 01,480

Precise Laser-Based Measurements of Zero-Dispersion Wavelength in Single-Mode Fibers.
PB96-201124 01,511

OPTICAL CURRENT TRANSDUCERS

Optical Current Transducer for Calibration Studies.
PB94-185907 02,121

OPTICAL DATA

Use of Sum Rules on the Energy-Loss Function for the Evaluation of Experimental Optical Data.
PB95-150736 04,264

OPTICAL DATA STORAGE MATERIALS

Research on Methods for Determining Optical Disk Media Life Expectancy Estimates.
PB96-160304 01,633

OPTICAL DENSITY

Development of Neutral-Density Infrared Filters Using Metallic Thin Films.
PB96-180286 02,998

Optical Density Measurements of Laser Eye Protection Materials.
PB96-190301 00,190

OPTICAL DETECTION
Beamcon III, a Linearity Measurement Instrument for Optical Detectors.
PB96-113576 *04,337*

OPTICAL DETECTORS
Lightwave Standards Development at NIST.
PB95-168563 *01,480*

Spatial Uniformity of Optical Detector Responsivity.
PB95-168845 *02,162*

Optical Detector Nonlinearity: A Comparison of Five Methods.
PB95-169355 *04,291*

Accurate Measurement of Optical Detector Nonlinearity.
PB95-203576 *02,181*

Optical Detector Nonlinearity: Simulation.
PB96-165378 *02,199*

Precise Laser-Based Measurements of Zero-Dispersion Wavelength in Single-Mode Fibers.
PB96-201124 *01,511*

OPTICAL DISKS
Optical Storage Media Data Integrity Studies.
N95-24130/3 *01,620*

Design and Development of an Information Retrieval System for the EAMATE Data. Volume 2 of 2. Appendices.
PB94-168390 *00,487*

Standardization of Testing Methods for Optical Disk Media Characteristics and Related Activities at NIST.
PB95-108486 *01,624*

NIST Program for Investigating Error Reporting Capabilities of Optical Disk Drives.
PB96-160627 *01,635*

OPTICAL EQUIPMENT
Simple and Efficient Low-Temperature Sample Cell for Infrared Spectrophotometry.
PB94-199197 *00,545*

Video Microscopy Applied to Optical Fiber Geometry Measurements.
PB95-173068 *04,295*

OPTICAL FIBER SENSORS
Optical Fiber Sensors: Accelerating Applications in Navy Ships.
PB94-186848 *02,632*

Polarization Dependence of Response Functions in 3x3 Sagnac Optical Fiber Current Sensors.
PB95-162426 *02,154*

Effect of Semiconductor Laser Characteristics on Optical Fiber Sensor Performance.
PB95-169132 *02,167*

Self-Calibrating Fiber Optic Sensors: Potential Design Methods.
PB95-169298 *02,172*

Self Calibrating Fiber Optic Sensors: Potential Design Methods.
PB95-169306 *02,173*

Polarization Dependence of Response Functions in 3x3 Sagnac Optical Fiber Current Sensors.
PB96-122684 *02,189*

OPTICAL FIBERS
Technical Digest: Symposium on Optical Fiber Measurements (8th), 1994. Held in Boulder, Colorado on September 13-15, 1994.
PB94-207636 *04,231*

In situ On-Line Optical Fiber Sensor for Fluorescence Monitoring in Bioreactors.
PB94-212024 *03,587*

Complex Propagation Constants for Nonuniform Optical Waveguides: Calculations.
PB95-125910 *04,249*

Fiber Spot Size: A Simple Method of Calculation.
PB95-125936 *04,250*

LP11-Mode Leakage Loss in Coated Depressed Clad Fibers.
PB95-141115 *02,145*

Optical Fiber Geometry: Accurate Measurement of Cladding Diameter.
PB95-151940 *04,266*

Optical Fiber Geometry by Gray-Scale Analysis with Robust Regression.
PB95-161519 *04,272*

Bragg Gratings in Optical Fibers Produced by a Continuous-Wave Ultraviolet Source.
PB95-162020 *04,274*

Growth of Bragg Gratings Produced by Continuous-Wave Ultraviolet Light in Optical Fiber.
PB95-162038 *04,275*

Vector Theory of Diffraction by a Single-Mode Fiber: Application to Mode-Field Diameter Measurements.
PB95-164182 *04,279*

Interlaboratory Comparison of Polarization-Holding Parameter Measurements on High-Birefringence Optical Fiber.
PB95-168464 *04,280*

Low-Coherence Interferometric Measurement of Group Transit Times in Precision Optical Fibre Delay Lines.
PB95-168480 *02,158*

Lightwave Standards Development at NIST.
PB95-168563 *01,480*

Symbolic Programming with Series Expansions: Applications to Optical Waveguides.
PB95-168589 *04,283*

Comparison of UV-Induced Fluorescence and Bragg Grating Growth in Optical Fiber.
PB95-168597 *04,284*

Bent Rectangular Core Waveguides: An Accurate Perturbation Approach.
PB95-168803 *04,289*

Calculated Fiber Attenuation: A General Method Yielding Stationary Values.
PB95-175501 *04,298*

Fibre Splice Loss: A Simple Method of Calculation.
PB95-175519 *04,299*

Decrease of Fluorescence in Optical Fiber during Exposure to Pulsed or Continuous-Wave Ultraviolet Light.
PB95-203071 *04,320*

Polarization Insensitive 3x3 Sagnac Current Sensor Using Polarizing Spun High-Birefringence Fiber.
PB96-119276 *02,187*

Standard Reference Materials for Optical Fibers and Connectors.
PB96-119805 *04,344*

Decay of Bragg Gratings in Hydrogen-Loaded Optical Fibers.
PB96-122643 *04,345*

Fiber Coating Diameter: Toward a Glass Artifact Standard.
PB96-140389 *02,234*

Annealing of Bragg Gratings in Hydrogen-Loaded Optical Fiber.
PB96-155437 *04,361*

Comparison of UV Photosensitivity and Fluorescence during Fiber Grating Formation.
PB96-155445 *04,362*

Automated Measurement of Nonlinearity of Optical Fiber Power Meters.
PB96-176540 *04,110*

Precise Laser-Based Measurements of Zero-Dispersion Wavelength in Single-Mode Fibers.
PB96-201124 *01,511*

Technical Digest: Symposium on Optical Fiber Measurements (9th), 1996. Held in Boulder, Colorado on October 1-3, 1996.
PB97-108583 *04,383*

Anomalous Relation between Time and Frequency Domain PMD Measurements.
PB97-119390 *04,398*

OPTICAL FILTERS
Standard Reference Materials: Glass Filters as a Standard Reference Material for Spectrophotometry - Selection, Preparation, Certification, and Use of SRM 930 and SRM 1930.
PB94-188844 *00,536*

Determination of the Transmittance Uniformity of Optical Filter Standard Reference Materials.
PB95-261921 *02,182*

OPTICAL FLOW
Reliable Optical Flow Algorithm Using 3-D Hermite Polynomials.
PB94-145620 *01,829*

General Motion Model and Spatio-Temporal Filters for Computing Optical Flow.
PB95-171096 *01,847*

General Motion Model and Spatio-Temporal Filters for 3-D Motion Interpretations.
PB96-210703 *01,861*

OPTICAL FLOW (IMAGE ANALYSIS)
Visual-Motion Fixation Invariant.
PB94-206281 *01,836*

Real-Time Implementation of a Differential Range Finder.
PB95-108650 *01,839*

Real Time Differential Range Estimation Based on Time-Space Imagery Using PIPE.
PB95-161808 *01,844*

Calculating Time-to-Contact Using Real-Time Quantized Optical Flow.
PB95-210522 *01,604*

OPTICAL IMAGES
Greatly Enhanced Soot Scattering in Flickering Ch4/Air Diffusion Flames.
PB94-172988 *01,361*

OPTICAL INTERCONNECTIONS
Metrology and Data for Microelectronic Packaging and Interconnection: Results of a Joint Workshop on Materials Metrology and Data for Commercial Electrical and Optical Packaging and Interconnection Technologies. Held in Gaithersburg, Maryland on May 5-6, 1994. Volume 1. Results.
PB95-143111 *02,328*

OPTICAL INTERFERENCE
Interference in the Resonance Fluorescence of Two Trapped Atoms.
PB95-168514 *03,948*

Light Scattered from Two Atoms.
PB95-168753 *04,286*

OPTICAL INTERFEROMETERS
Test Optics Error Removal.
PB96-179536 *04,377*

Compensation for Errors Introduced by Nonzero Fringe Densities in Phase-Measuring Interferometers.
PB97-110506 *04,386*

OPTICAL LITHOGRAPHY
Improved Dose Metrology in Optical Lithography.
PB96-179510 *02,439*

OPTICAL MATERIALS
Moisture and Water-Induced Crack Growth in Optical Materials.
PB95-153334 *04,267*

OPTICAL MEASUREMENT
NIST Response to the Fifth CORM Report on the Pressing Problems and Projected Needs in Optical Radiation Measurements.
PB94-188240 *04,227*

Optical Metrology and More. Programs and Services of the Radiometric Physics Division, Physics Laboratory.
PB94-191707 *04,228*

Technical Digest: Symposium on Optical Fiber Measurements (8th), 1994. Held in Boulder, Colorado on September 13-15, 1994.
PB94-207636 *04,231*

Normal-Incidence Complex-Index Refractometry.
PB94-213097 *04,241*

Integrating Sphere Simulation: Application to Total Flux Scale Realization.
PB95-150173 *04,261*

Direct Dispersion Measurement of Highly-Erbium-Doped Optical Amplifiers Using a Low Coherence Reflectometer Coupled with Dispersive Fourier Spectroscopy.
PB95-150702 *04,263*

Guidelines for Refractive Index Measurements of Asbestos.
PB95-151189 *02,543*

Regimes of Surface Roughness Measurable with Light Scattering.
PB95-151213 *04,265*

Optical Fiber Geometry: Accurate Measurement of Cladding Diameter.
PB95-151940 *04,266*

Electrically Calibrated Pyroelectric Detector-Refinements for Improved Optical Power Measurements.
PB95-169066 *02,164*

Optical Power Meter Calibration Using Tunable Laser Diodes.
PB95-169256 *04,290*

New Method for Realizing a Luminous Flux Scale Using an Integrating Sphere with an External Source.
PB96-102843 *04,333*

Semiconductor Measurement Technology: Survey of Optical Characterization Methods for Materials, Processing, and Manufacturing in the Semiconductor Industry.
PB96-154596 *02,706*

Realization of NIST 1995 Luminous Flux Scale Using the Integrating Sphere Method.
PB96-176433 *04,374*

Technical Digest: Symposium on Optical Fiber Measurements (9th), 1996. Held in Boulder, Colorado on October 1-3, 1996.
PB97-108583 *04,383*

Numerical Reference Models for Optical Metrology Simulation.
PB97-111330 *04,392*

OPTICAL MEASURING INSTRUMENTS
Automated Optical Roughness Inspection.
PB95-152179 *02,905*

OPTICAL MEMORY (DATA STORAGE)
Optical Storage Media Data Integrity Studies.
N95-24130/3 *01,620*

OPTICAL METROLOGY
Model of an Optical Roughness-Measuring Instrument.
PB97-110209 *04,384*

OPTICAL MICROSCOPES
Optical Fiber Geometry: Accurate Measurement of Cladding Diameter.
PB95-151940 *04,266*

OPTICAL MOLASSES
Heterodyne Measurement of the Fluorescence Spectrum of Optical Molasses.
PB95-108411 *03,873*

Atoms in Optical Molasses.
PB95-108874 *03,875*

Atoms in Optical Molasses: Applications to Frequency Standards.
PB95-108882 *03,876*

Optical Molasses: Cold Atoms for Precision Measurements.
PB95-108890 *03,877*

Optical Molasses: The Coldest Atoms Ever.
PB95-108908 *03,878*

sigma+-sigma- Optical Molasses in a Longitudinal Magnetic Field.
PB95-161840 *03,934*

OPTICAL POWER
Electrically Calibrated Pyroelectric Detector-Refinements for Improved Optical Power Measurements.
PB95-169066 *02,164*

Optical Power Meter Calibration Using Tunable Laser Diodes.
PB95-169256 *04,290*

OPTICAL PROPERTIES
Lighting Quality and Light Source Size.
PB95-151783 *00,252*

Simultaneous Optical Measurement of Soot Volume Fraction, Temperature, and CO2 in Heptane Pool Fire.
PB96-102132 *01,397*

Mixing and Radiation Properties of Buoyant Luminous Flame Environments.
PB96-202254 *01,432*

OPTICAL PUMPING
Electronically Tunable Fiber Laser for Optical Pumping of (3)He and (4)He.
PB96-201165 *04,381*

OPTICAL PYROMETERS
Technologic Papers of the Bureau of Standards: Number 170. Pyrometric Practice.
AD-A279 282/8 *03,766*

OPTICAL RADAR
Model Minimum Performance Specifications for Lidar Speed Measurement Devices.
PB95-197455 *04,861*

Delivering the Same Optical Frequency at Two Places: Accurate Cancellation of Phase Noise Introduced by an Optical Fiber or Other Time-Varying Path.
PB96-102736 *04,332*

OPTICAL RANGE FINDERS
Real-Time Implementation of a Differential Range Finder.
PB95-108650 *01,839*

OPTICAL RETARDANCE
Standard Polarization Components: Progress Toward an Optical Retardance Standard.
PB96-119672 *04,342*

OPTICAL SAMPLING
High-Sensitivity Optical Sampling Using an Erbium-Doped Fiber Laser Strobe.
PB95-176111 *04,302*

Optical Sampling Using Nondegenerate Four-Wave Mixing in a Semiconductor Laser Amplifier.
PB96-122502 *02,076*

Millimeter-Resolution Optical Time-Domain Reflectometry Using a Four-Wave Mixing Sampling Gate.
PB96-122700 *02,190*

Optical Sampling Using Nondegenerate Four-Wave Mixing in a Semiconductor Laser Amplifier.
PB96-123609 *04,348*

OPTICAL SCATTERING
Optical Scattering from Moderately Rough Surfaces.
PB97-110415 *04,385*

OPTICAL SENSORS
Embossable Grating Couplers for Planar Waveguide Optical Sensors.
PB96-190277 *00,641*

OPTICAL STORAGE
Retinal-Protein Complexes as Optoelectronic Components.
PB95-150397 *02,146*

OPTICAL SURFACES
Rapid Post-Polishing of Diamond-Turned Optics.
PB95-175949 *04,301*

OPTICAL SYSTEMS
Glasses for Waveguide Lasers.
PB96-111950 *04,335*

OPTICAL TESTING
Visualization of Surface Figure by the Use of Zernike Polynomials.
PB96-137757 *04,351*

Test of a Slow Off-Axis Parabola at Its Center of Curvature.
PB96-138482 *04,352*

OPTICAL TESTS
Gas Phase Reactions Relevant to Chemical Vapor Deposition: Optical Diagnostics.
PB94-199338 *03,116*

OPTICAL THEOREMS
Generalized Optical Theorem for On-Axis Gaussian Beams.
PB97-122345 *04,177*

OPTICAL THERMOMETERS
Self-Calibrated Intelligent Optical Sensors and Systems.
PB96-200738 *04,380*

OPTICAL TRACKING
Adaptive, Predictive 2-D Feature Tracking Algorithm for Finding the Focus of Expansion.
PB94-218575 *01,588*

Visual Pursuit Systems.
PB95-143285 *01,841*

OPTICAL WAVEGUIDES
Modified Airy Function Method for the Analysis of Tunneling Problems in Optical Waveguides and Quantum Well Structures.
PB94-185824 *02,120*

Planar Waveguide Optical Sensors.
PB94-200185 *03,586*

Complex Propagation Constants for Nonuniform Optical Waveguides: Calculations.
PB95-125910 *04,249*

Modal Properties of Circular and Noncircular Optical Waveguides.
PB95-125944 *04,251*

Approximate Solution to the Scalar Wave Equation for Optical Waveguides.
PB95-126256 *04,254*

Bending-Induced Phase Shifts in Dual-Mode Planar Optical Waveguides.
PB95-161329 *04,271*

Mode Coupling and Loss on Tapered Optical Waveguides.
PB95-168571 *04,282*

Symbolic Programming with Series Expansions: Applications to Optical Waveguides.
PB95-168589 *04,283*

Improved Variational Analysis of Inhomogeneous Optical Waveguides Using Airy Functions.
PB95-168639 *04,285*

Bending-Induced Loss in Dual-Mode Rectangular Waveguides.
PB95-168795 *04,288*

Bent Rectangular Core Waveguides: An Accurate Perturbation Approach.
PB95-168803 *04,289*

Waveguide Polarizers Processed by Localized Plasma Etching.
PB95-169264 *02,171*

Modal Characteristics of Bent Dual Mode Planar Optical Waveguide.
PB95-180485 *04,311*

Using Secondary Ion Mass Spectrometry (SIMS) to Characterize Optical Waveguide Materials.
PB96-119599 *04,340*

Vector and Quasi-Vector Solutions for Optical Waveguide Modes Using Efficient Galerkin's Method with Hermite-Gauss Basis Functions.
PB96-141197 *04,357*

OPTICS
Atomic Energy Levels. As Derived From the Analyses of Optical Spectra. Volume 3.
AD-A280 279/1 *00,714*

Japan Technology Program Assessment: Precision Engineering/Precision Optics in Japan.

PB97-116040 *02,207*

ORDER-DISORDER TRANSFORMATIONS
Thermodynamic Constraints on Non-Equilibrium Solidification of Ordered Intermetallic Compounds.
PB94-198934 *03,321*

Fast-Ion Conduction and Disorder in Cation and Anion Arrays in Y2(ZryTi(1-y))2O7 Pyrochlores Induced by Zr Substitution: A Neutron Rietveld Analysis.
PB94-211869 *04,496*

Fast-Ion Conducting Y2(ZryTi1-y)2O7 Pyrochlores: Neutron Rietveld Analysis of Disorder Induced by Zr Substitution.
PB96-156104 *04,776*

ORDINARY DIFFERENTIAL EQUATIONS
Pressure Equations in Zone-Fire Modeling.
PB96-102967 *00,208*

ORGANIC COATINGS
Methodologies for Predicting the Service Lives of Coating Systems.
PB95-146387 *03,124*

ORGANIC COMPOUNDS
Interaction of Some Coupling Agents and Organic Compounds with Hydroxyapatite: Hydrogen Bonding, Adsorption and Adhesion.
PB94-172616 *00,140*

Glass Transition of Organic Liquids Confined to Small Pores.
PB94-212305 *00,833*

Melting Behavior of Organic Materials Confined in Porous Solids.
PB94-212313 *00,834*

Standard Reference Materials for the Determination of Trace Organic Constituents in Environmental Samples.
PB95-164026 *02,522*

Cambridge Structural Database (CSD): Current Activities and Future Plans.
PB97-109052 *00,516*

ORGANIC IONS
Temperature Dependence of the Rate Constants for Reactions of the Carbonate Radical with Organic and Inorganic Reductants.
PB94-212206 *00,831*

ORGANIC LIQUIDS
Glass Transition of Organic Liquids Confined to Small Pores.
PB94-212305 *00,833*

Melting Behavior of Organic Materials Confined in Porous Solids.
PB94-212313 *00,834*

Vitrification and Crystallization of Organic Liquids Confined to Nanoscale Pores.
PB97-112304 *03,392*

ORGANIZATIONS
Directory of Law Enforcement and Criminal Justice Associations and Research Centers.
PB96-178918 *04,872*

Standards Activities of Organizations in the United States.
PB97-124135 *00,006*

ORGANOMETALLIC COMPOUNDS
Liquid Chromatography: Laser-Enhanced Ionization Spectrometry for the Speciation of Organolead Compounds.
PB94-185253 *00,530*

Maximum Entropy as a Tool for the Determination of the C-Axis Profile of Layered Compounds.
PB94-199619 *00,800*

Total Surface Areas of Group IVA Organometallic Compounds: Predictors of Toxicity to Algae and Bacteria.
PB94-211331 *00,814*

Cambridge Structural Database (CSD): Current Activities and Future Plans.
PB97-109052 *00,516*

ORIENTATION
Fluorescence Anisotropy Measurements on a Polymer Melt as a Function of Applied Shear Stress.
PB94-199296 *01,209*

Observations of Shear Induced Molecular Orientation in a Polymer Melt Using Fluorescence Anisotropy Measurements.
PB94-199304 *01,210*

Observations of Shear Stress and Molecular Orientation Using Fluorescence Anisotropy Measurements.
PB94-199312 *01,211*

Neutron Scattering Study of the Orientation of a Liquid Crystalline Polymer by Shear Flow.
PB95-180196 *01,270*

ORIENTATIONAL DISORDER
Orientational Fluctuations, Diffuse Scattering, and Orientational Order in Solid C60.
PB97-119275 *04,176*

ORIFICE FLOW
Flow Conditioner Tests for Three Orifice Flowmeter Sizes.
PB95-105540 *04,201*

Flowmeter Installation Effects Due to a Generic Header.
PB96-210893 *02,606*

ORIFICE METERS
Comparing NIST-B 50 mm Orifice Meter Gas Data to the ANSI Equation.
PB95-169207 *02,949*

Sliding Vane Flow Conditioner Tests in a 100 Diameter Long 10 inch Natural Gas Orifice Meter at Pacific Gas and Electric. Topical Report, 1990-1992.
PB95-256335 *02,493*

ORIFICE PULSE TUBE REFRIGERATORS
Energy Flows in an Orifice Pulse Tube Refrigerator.
PB95-169082 *02,752*

ORIGIN OF REPLICATION
Function of DnaJ and DnaK as Chaperones in Origin-Specific DNA Binding by RepA.
PB95-151544 *03,533*

Deletion Analysis of the Mini-P1 Plasmid Origin of Replication and the Role of E.coli DnaA Protein.
PB95-163911 *03,539*

ORION NEBULA
Extended CO(7 yields 6) Emission from Warm Gas in Orion.
PB96-102504 *00,090*

Magnetic Fields in Star-Forming Regions: Observations.
PB96-123005 *00,100*

ORTHOPEDIC EQUIPMENT
Program Requirements to Advance the Technology of Custom Footwear Manufacturing.
PB95-147906 *02,883*

ORTHOPHOSPHACIDIUM ION
Crystal Structure of a New Monoclinic Form of Potassium Dihydrogen Phosphate Containing Orthophosphacidium Ion, (H4PO4)(sup+1).
PB96-111794 *04,725*

ORTHORHOMBIC LATTICES
Transformation of BCC and B2 High Temperature Phases to HCP and Orthorhombic Structures in the Ti-Al-Nb System. Part 1. Microstructural Predictions Based on a Subgroup Relation between Phases.
PB96-169065 *03,370*

Transformation of BCC and B2 High Temperature Phases to HCP and Orthorhombic Structures in the Ti-Al-Nb System. Part 2. Experimental TEM Study of Microstructures.
PB96-169073 *03,371*

OSCILLATING FLOW
Resistance Thermometers with Fast Response for Use in Rapidly Oscillating Gas Flows.
PB95-107298 *03,261*

Thermal Anemometry for Mass Flow Measurement in Oscillating Cryogenic Gas Flows.
PB96-176789 *04,218*

OSCILLATIONS
Foias-Temam Approximations of Attractors for Galloping Oscillators.
PB94-198298 *04,817*

High-Temperature High-Pressure Oscillating Tube Densimeter.
PB96-146618 *01,123*

Quadratic Response of a Chemical Reaction to External Oscillations.
PB96-161633 *01,138*

OSCILLATOR STRENGTH
Theory for Quantum-Dot Quantum Wells: Pair Correlation and Internal Quantum Confinement in Nanoheterostructures.
PB96-179445 *02,437*

OSCILLATOR STRENGTHS
Oscillator Strengths and Radiative Branching Ratios in Atomic Sr.
PB95-203493 *04,008*

OSCILLATORS
Precision Oscillators: Dependence of Frequency on Temperature, Humidity and Pressure.
PB94-198306 *02,031*

Algebraic Approximation of Attractors for Galloping Oscillators.
PB95-162897 *04,820*

Environmental Sensitivities of Quartz Oscillators.
PB96-103148 *02,271*

Noise Modeling and Reliability of Behavior Prediction for Multi-Stable Hydroelastic Systems.
PB96-111943 *04,822*

Local Oscillator Requirements and Strategies for the Next Generation of High-Stability Frequency Standards.
PB96-112230 *01,551*

Reducing Errors, Complexity, and Measurement Time of PM Noise Measurements.
PB96-119771 *02,075*

Chaotic Motions of Coupled Galloping Oscillators and Their Modeling as Diffusion Progresses.
PB96-122718 *04,823*

OSE
Porting Multimedia Applications to the Open System Environment.
PB94-172921 *02,721*

OSE (OPEN SYSTEM ENVIRONMENT)
Guide on Open System Environment (OSE) Procurements.
PB95-169496 *01,626*

Comparison of POSIX Open System Environment (OSE) and Open Distributed Processing (ODP) Reference Models.
PB96-131495 *01,820*

OSI
Formal Multi-Layer Test Methodology and Its Application to OSI.
PB94-172194 *02,718*

ISO/IEC Workshop on Worldwide Recognition of OSI Test Results Regional Progress - North America.
PB94-172202 *02,719*

OSI (OPEN SYSTEMS INTERCONNECTION)
IGOSS-Industry/Government Open Systems Specification.
PB94-207453 *01,806*

Conformance Testing for OSI Protocols.
PB96-102686 *01,631*

Lessons from the Establishment of the U.S. GOSIP Testing Program.
PB96-119359 *01,817*

Open Issues in OSI Protocol Development and Conformance Testing.
PB96-122908 *01,818*

OSMIUM
Analysis of the (5d(2)+5d6s)-5d6p Transition Arrays of Os VII and Ir VIII, and the 6s (2)S-6p (2)P Transitions of Ir IX.
PB96-159264 *01,954*

OSMOSIS
Non-Perturbative Relation between the Mutual Diffusion Coefficient, Suspension Viscosity, and Osmotic Compressibility: Application to Concentrated Protein Solutions.
PB96-102355 *01,062*

OSMOTIC PRESSURE
Determination of Osmotic Pressure and Fouling Resistances and Their Effects on Performance of Ultrafiltration Membranes.
PB94-212891 *00,841*

OTAVITE
Thermodynamic Properties of Synthetic Otavite, CdCO3(cr): Enthalpy Increment Measurements from 4.5 K to 350 K.
PB97-111447 *00,680*

OUT-OF-PLANE
Contributions of Out-of-Plane Material to a Scanned-Beam Laminography Image.
PB96-111786 *02,704*

OUTLIERS (STATISTICS)
Outlier-Resistant Methods for Estimation and Model Fitting.
PB95-203436 *03,444*

OVERCURRENT
Surging the Upside-Down House: Measurements and Modeling Results.
PB96-180138 *02,243*

OVERLAYS
Application of the Modified Voltage-Dividing Potentiometer to Overlay Metrology in a CMOS/Bulk Process.
PB94-181997 *02,302*

Electrical Test Structure for Overlay Metrology Referenced to Absolute Length Standards.
PB95-152278 *02,336*

New Test Structure for Nanometer-Level Overlay and Feature-Placement Metrology.
PB95-175345 *02,363*

Microelectronic Test Structures for Overlay Metrology.
PB96-164249 *02,430*

OVERVOLTAGE
Keeping Up with the Reality of Today's Surge Environment.
PB96-123633 *02,231*

OXAZOLE ORANGE
Enhanced Detection of PCR Products Through Use of TOTO and YOYO Intercalating Dyes with Laser Induced Fluorescence - Capillary Electrophoresis.
PB95-164653 *00,599*

OXIDATION
Oxidation of 10-Methylacridan, a Synthetic Analogue of NADH and Deprotonation of Its Cation Radical. Convergent Application of Laser Flash Photolysis and Direct and Redox Catalyzed Electrochemistry to the Kinetics of Deprotonation of the Cation Radical.
PB94-198371 *00,785*

X-Ray Photoelectron and Auger Electron Spectroscopy Study of Ultraviolet/Ozone Oxidized P2S5/(NH4)2S Treated GaAs(100) Surfaces.
PB94-200144 *04,479*

Changes in the Redox State of Iridium Oxide Clusters and Their Relation to Catalytic Water Oxidation: Radiolytic and Electrochemical Studies.
PB95-107017 *00,864*

One-Electron Oxidation of Nickel Porphyrins. Effect of Structure and Medium on Formation of Nickel(III) Porphyrin or Nickel(II) Porphyrin pi-Radical Cation.
PB95-107058 *00,865*

Metalloporphyrin Sensitized Photooxidation of Water to Oxygen on the Surface of Colloidal Iridium Oxides - Photochemical and Pulse Radiolytic Studies.
PB95-107082 *00,868*

Oxidation of Soot and Carbon Monoxide in Hydrocarbon Diffusion Flames.
PB95-150215 *01,382*

Neutron Reflectometry Studies of Surface Oxidation.
PB95-150421 *00,917*

Laser-Induced Fluorescence Measurements of OH. Concentrations in the Oxidation Region of Laminar, Hydrocarbon Diffusion Flames.
PB95-162160 *01,387*

Kinetics of the Reaction C2H + O2 from 193 to 350 K Using Laser Flash Kinetic Infrared Absorption Spectroscopy.
PB95-203055 *01,043*

Oxidation of SiC.
PB96-119516 *02,401*

Repair of Products of Oxidative DNA Base Damage in Human Cells.
PB96-190129 *03,555*

Oxidation of Caffeic Acid and Related Hydroxycinnamic Acids.
PB97-111975 *00,651*

Oxidation of Ferrous and Ferrocyanide Ions by Peroxyl Radicals.
PB97-122402 *01,191*

OXIDATION REDUCTION REACTIONS
Radiation Chemistry of Cyanine Dyes: Oxidation and Reduction of Merocyanine 540.
PB94-211661 *00,818*

Electron Transfer Reaction Rates and Equilibria of the Carbonate and Sulfate Radical Anions.
PB94-212180 *00,829*

OXIDE BREAKDOWN
Assessing MOS Gate Oxide Reliability on Wafer Level with Ramped/Constant Voltage and Current Stress.
PB96-180112 *04,115*

OXIDE FILMS
Spectroscopic Ellipsometry Determination of the Properties of the Thin Underlying Strained Si Layer and the Roughness at SiO2/Si Interface.
PB95-150157 *04,560*

Neutron Reflectometry Studies of Surface Oxidation.
PB95-150421 *00,917*

Optimization of ECR-Based PECVD Oxide Films for Superconducting Integrated Circuit Fabrication.
PB95-169165 02,051

Effects of Soxhlet Extraction on the Surface Oxide Layer of Silicon Nitride Powders.
PB95-175584 03,057

OXIDE REMOVAL
Effect of Annealing Ambient on the Removal of Oxide Precipitates in High-Dose Oxygen Implanted Silicon.
PB95-164356 02,356

OXIDES
High Temperature Reactions of Uranium Dioxide with Various Metal Oxides.
AD-A286 648/1 00,717

Description of Layered Structures: Applications to High Tc Superconductors.
PB95-162624 04,615

New Oxide Degradation Mechanism for Stresses in the Fowler-Nordheim Tunneling Regime.
PB96-200985 04,128

New Physics-Based Model for Time-Dependent- Dielectric-Breakdown.
PB96-201132 02,448

OXYGEN
Conductance Response of Pd/SnO2(110) Model Gas Sensors to H2 and O2.
PB95-125803 00,892

Product State Correlations in the Reaction of O((1)D) and H2O in Bimolecular Collisions and in O3.H2O Clusters--Translation.
PB95-153011 00,946

Development of a Standard Reference Material for Measurement of Interstitial Oxygen Concentration in Semiconductor Silicon by Infrared Absorption.
PB96-122668 02,404

Measurement of S2OF10, and S2O2F10 Production Rates from Spark and Negative Glow Corona Discharge in SF6/O2 Gas Mixtures.
PB96-123740 01,093

OXYGEN 17
Laser Magnetic-Resonance Measurement of the (3)P1 - (3)P2 Fine-Structure Splittings in (17)O and (18)O.
PB95-175170 00,994

OXYGEN 18
Laser Magnetic-Resonance Measurement of the (3)P1 - (3)P2 Fine-Structure Splittings in (17)O and (18)O.
PB95-175170 00,994

OXYGEN ATOMS
Atomic Oxygen Fine Structure Splittings with Tunable Far Infrared Spectroscopy.
PB95-152203 03,915

Laser Flash Photolysis/Time-Resolved FTIR Emission Study of a New Channel in the Reaction of CH3+O: Production of CO(v).
PB95-164281 00,974

Laser Magnetic-Resonance Measurement of the (3)P1 - (3)P2 Fine-Structure Splittings in (17)O and (18)O.
PB95-175170 00,994

OXYGEN COMPATIBILITY
Reaction Sensitivities of Al-Li Alloys and Alloy 2219 in Mechanical-Impact Tests.
PB94-172764 03,314

OXYGEN CONCENTRATION
Standard Reference Materials: Certification of a Standard Reference Material for the Determination of Interstitial Oxygen Concentration in Semiconductor Silicon by Infrared Spectrophotometry.
PB95-125076 02,326

OXYGEN IONS
Determination of Atomic Data Pertinent to the Fusion Energy Program. Progress Report for FY 92.
DE94004400 04,402

OXYGEN ISOTOPES
New IUPAC Guidelines for the Reporting of Stable Hydrogen, Carbon, and Oxygen Isotope-Ratio Data. Letter to the Editor.
PB95-261962 01,058

OXYGEN-LIKE IONS
Atomic Branching Ratio Data for Oxygen-Like Species.
PB95-180436 03,963

OZONE
Product State Correlations in the Reaction of O((1)D) and H2O in Bimolecular Collisions and in O3.H2O Clusters--Translation.
PB95-153011 00,946

OZONE DEPLETION
Thermodynamic Properties of Gas Phase Species of Importance to Ozone Depletion.
PB94-198215 00,126

P INVARIANCE
Long-Range Parity-Nonconserving Interaction.
PB95-202594 03,986

P-N JUNCTIONS
Junction Locations by Scanning Tunneling Microscopy: In-Air-Ambient Investigation of Passivated GaAs pn Junctions.
PB94-185964 02,306

PACKAGING
Performance of Plastic Packaging for Hazardous Materials Transportation. Part 1. Mechanical Properties.
AD-A301 258/0 02,580

Checking the Net Contents of Packaged Goods as Adopted by the 79th National Conference on Weights and Measures, 1994, Third Edition, Supplement 4.
PB95-182226 00,484

High-Speed Interconnection Characterization Using Time Domain Network Analysis.
PB96-148176 04,061

PACKED BEDS
Distributed measurements of tracer response on packed bed flows using a fiberoptic probe array. Final report.
DE95013079 00,667

PACKING MATERIALS
Volatile Corrosion Inhibitors.
AD-A310 087/2 03,114

PAFFENBARGER RESEARCH CENTER
Paffenbarger Research Center: The Cutting Edge of Dental Science.
PB94-216355 00,151

PALLADIUM
Magnetic Properties of Pd/Co Multilayers.
PB94-198751 04,465

Conductance Response of Pd/SnO2(110) Model Gas Sensors to H2 and O2.
PB95-125803 00,892

Fundamental Studies of Gas Sensor Response Mechanisms: Palladium on SnO2(110).
PB95-162731 00,963

Small Angle Neutrons Scattering from Nanocrystalline Palladium as a Function of Annealing.
PB95-176103 03,354

Vibrational Excitations and the Position of Hydrogen in Nanocrystalline Palladium.
PB96-111828 04,035

Inelastic Neutron Scattering Study of Hydrogen in Nanocrystalline Pd.
PB96-146857 03,366

PALLADIUM ALLOYS
New Alloys Show Extraordinary Resistance to Fracture and Wear.
PB95-151346 03,346

PALLADIUM IONS
Rb-Like Spectra: Pd X to Nd XXIV.
PB95-150645 03,897

PALLADIUM-LIKE IONS
Observation of Pd-Like Resonance Lines Through Pt(32+) and Zn-Like Resonance Lines of Er(38+) and Hf(42+).
PB95-150637 03,896

PANCREATIC RIBONUCLEASE
Crystal Packing Interactions of Two Different Crystal Forms of Bovine Ribonuclease A.
PB95-152823 00,943

PANELS
Test Procedures for Advanced Insulation Panels.
PB97-111892 00,415

PARAFFIN HYDROCARBONS
Physical Properties of Some Purified Aliphatic Hydrocarbons.
AD-A297 265/1 00,657

PARALLEL PROCESSING
Measuring Performance of Parallel Computers. Final Report.
DE94014586 01,665

Measuring Performance of Parallel Computers. Progress Report, 1989.
DE94014587 01,666

Distributed Supercomputing Software: Experiences with the Parallel Virtual Machine - PVM.
PB94-163086 01,680

Using Synthetic Perturbations and Statistical Screening to Assay Shared-Memory Programs.
PB96-103031 01,740

Parallel Monte Carlo Simulation of MBE Growth.
PB96-122841 02,406

Experience with MPI: 'Converting Pvmmake to Mpimake under LAM' and 'MPI and Parallel Genetic Programming'.
PB96-141296 01,748

Using S-Check, Alpha Release 1.0.
PB96-165964 01,767

Tree-Lookup for Partial Sums Or: How Can I Find This Stuff Quickly.
PB96-179411 01,770

Making Connections.
PB97-119044 01,785

PARALLEL PROCESSING (COMPUTERS)
Scalability Test for Parallel Code.
PB96-146758 01,749

PARALLEL PROGRAMMING
Computing Effects and Error for Large Synthetic Perturbation Screenings.
PB94-139623 01,675

Time-Perturbation Tuning of MIMD Programs.
PB94-164399 01,681

Using Synthetic-Perturbation Techniques for Tuning Shared Memory Programs (Extended Abstract).
PB94-172657 01,685

Synthetic-Perturbation Tuning of MIMD Programs.
PB94-185568 01,687

Simple Scalability Test for MIMD Code.
PB94-193638 01,688

PARALLEL VIRTUAL MACHINE
Performance Characteristics of Fast Elliptic Solvers on Parallel Platforms.
PB95-180832 01,723

PARAMETERS
Taguchi's Parameter Design: A Panel Discussion.
PB96-111802 03,445

PARAMETRIC PROCESSES
High-Order Multipole Excitation of a Bound Electron.
PB96-119789 04,044

PARITY
Long-Range Parity-Nonconserving Interaction.
PB95-202594 03,986

PARKING GARAGES
Diagnosis of Causes of Concrete Deterioration in the MLP-7A Parking Garage.
PB95-143095 01,318

PARSERS
SGML Parser Validation Procedures.
PB95-174959 01,717

Standard Generalized Markup Language Test Suite Evaluation Report.
PB96-154992 01,751

PARTIAL DIFFERENTIAL EQUATIONS
Overcoming Hoelder Continuity in Ill-Posed Continuation Problems.
PB95-202354 03,416

PARTIAL DISCHARGE
Behavior of Surface Partial Discharge on Aluminum Oxide Dielectrics.
PB96-123781 01,937

PARTIAL DISCHARGES
Performance Evaluation of a New Digital Partial Discharge Recording and Analysis System.
PB95-150389 01,888

Recent Developments at NIST on Optical Current Sensors and Partial Discharge Diagnostics.
PB95-151114 02,147

Observations of Partial Discharges in Hexane Under High Magnification.
PB95-163127 01,900

Importance of Unraveling Memory Propagation Effects in Interpreting Data on Partial Discharge Statistics.
PB95-163572 01,901

Nonstationary Behavior of Partial Discharge during Insulation Aging.
PB95-163580 01,902

Partial Discharge: Induced Aging of Cast Epoxies and Related Nonstationary Behavior of the Discharge Statistics.
PB95-163598 01,903

Physics and Chemistry of Partial Discharge and Corona: Recent Advances and Future Challenges.
PB95-181046 01,910

Continuous Recording and Stochastic Analysis of PD.
PB96-112156 01,925

Standardised Computer Data File Format for Storage, Transport, and Off-Line Processing of Partial Discharge Data.
PB96-122486 01,930

Physics and Chemistry of Partial Discharge and Corona - Recent Advances and Future Challenges.
PB96-123757 01,936

PARTIAL PRESSURE
Partial Pressure Analysis in Space Testing.
N95-14084/4 04,827

Characteristics of Partial Pressure Analyzers.
PB95-150876 00,582

Measurement of Very-Low Partial Pressures.
PB95-180998 02,659

Process Monitoring with Residual Gas Analyzers (RGAs): Limiting Factors.
PB95-181004 02,660

Partial Pressure Analysis in Space Testing.
PB96-103072 04,829

PARTIAL PRESSURE ANALYZERS
Characteristics of Partial Pressure Analyzers.
PB95-150876 00,582

PARTICLE ACCELERATOR TARGETS
Factorial Design Techniques Applied to Optimization of AMS Graphite Target Preparation.
PB95-151197 00,584

PARTICLE PRODUCTION
Modeling Ceramic Sub-Micron Particle Formation from the Vapor Using Detailed Chemical Kinetics: Comparison with In-situ Laser Diagnostics.
PB95-151965 00,671

Multiphoton Ionization Spectroscopy Measurements of Silicon Atoms during Vapor Phase Synthesis of Ceramic Particles.
PB95-151999 03,913

Experimental and Numerical Studies of Refractory Particle Formation in Flames: Application to Silica Growth.
PB95-152005 00,673

Simulation of Ceramic Particle Formation: Comparison with In-situ Measurements.
PB95-152013 *00,674*

PARTICLE SHAPE
Morphological Development of Second-Phase Particles in Elastically-Stressed Solids.
PB95-181111 *03,355*

PARTICLE SIZE
Particle Size Standards and Their Certification at NIST.
PB94-211695 *02,639*

Development of Adaptive Control Strategies for Inert Gas Atomization.
PB95-162335 *02,823*

Process Modeling and Control of Inert Gas Atomization.
PB95-162343 *02,824*

PARTICLE SIZE DISTRIBUTION
Experimental Optimization of Peak Shape with Application to Aerosol Generation.
PB94-185535 *00,501*

In-situ Fume Particle Size and Number Density Measurements from a Synthetic Smelt.
PB94-212040 *03,334*

Statistical Analysis of Parameters Affecting the Measurement of Particle-Size Distribution of Silicon Nitride Powders by Sedigraph (Trade Name).
PB94-216249 *03,042*

Parametric Investigation of Metal Powder Atomization Using Laser Diffraction.

Rare-Earth Isotopes as Tracers of Particulate Emissions: An Urban Scale Test.
PB94-161635 *02,535*

Computer Simulations of Binder Removal from 2-D and 3-D Model Particulate Bodies.
PB97-121339 *00,418*

PASCAL PROGRAMMING LANGUAGE
Validated Products List (Cobol, Fortran, ADA, Pascal, MUMPS, SQL).
PB94-937300 *01,700*

Validated Products List (Cobol, Fortran, ADA, Pascal, MUMPS, SQL).
PB95-937300 *01,738*

PASSENGERS
Fire Safety of Passenger Trains: A Review of Current Approaches and of New Concepts.
PB94-152006 *04,848*

PASSIVATION
Heavily Accumulated Surfaces of Mercury Cadmium Telluride Detectors: Theory and Experiment.
PB94-216074 *02,134*

PASSIVE CONTROL
Method of Estimating the Parameters of Tuned Mass Dampers for Seismic Applications.
PB96-167820 *00,473*

PATHS
Time Dependent Vector Dynamic Programming Algorithm for the Path Planning Problem.
PB94-215688 *03,428*

PATTERN RECOGNITION
Face Recognition Technology for Law Enforcement Applications.
PB94-207768 *01,837*

Pattern-Recognition Analysis of Low-Resolution X-Ray Fluorescence Spectra.
PB95-151924 *00,588*

PCASYS: A Pattern-Level Classification Automation System for Fingerprints.
PB95-267936 *01,853*

Human and Machine Recognition of Faces: A Survey.
PB96-111687 *01,854*

Using Logic to Specify Shapes and Spatial Relations in Design Grammars.
PB97-111579 *02,793*

PAVERS
Warping of Terrace Pavers at the U.S. Capitol Building.
PB96-193651 *00,411*

PDES (PRODUCT DATA EXCHANGE SPECIFICATION)
National PDES Testbed: An Overview.
PB95-125829 *02,775*

Capabilities for Product Data Exchange.
PB97-118764 *02,798*

PDES (PRODUCT DATA EXCHANGE USING STEP)
Security Considerations for SQL-Based Implementations of STEP.
PB94-139649 *02,766*

Guide to Configuration Management and the Revision Control System for Testbed Users.
PB94-150919 *01,678*

Summary and Notes of the Joint ISO/IGES/PDES Organization Technical Committee Meeting. Held in Albuquerque, New Mexico on October 15-20, 1989.
PB95-107314 *02,774*

Group 1 for the Process Engineering Data STEP Application Protocol.
PB97-116073 *02,797*

PEAKS OVER THRESHOLD METHOD
Estimates of Hurricane Wind Speeds by the 'Peaks Over Threshold' Method.
PB96-162540 *00,471*

Probabilistic Estimates of Design Load Factors for Wind-Sensitive Structures Using the 'Peaks Over Threshold' Approach.
PB96-183223 *00,474*

PEAKS OVER THRESHOLD METHODS
Extreme Wind Distribution Tails: A 'Peaks Over Threshold' Approach.
PB95-219416 *00,127*

PECULIAR STARS
Wavelengths and Isotope Shifts for Lines of Astrophysical Interest in the Spectrum of Doubly Ionized Mercury (Hg III).
PB95-140869 *03,887*

Search for Radio Emission from the 'Non-Magnetic' Chemically Peculiar Stars.
PB96-102249 *00,087*

X-ray Emission from Chemically Peculiar Stars.
PB96-102256 *00,088*

A-type and Chemically Peculiar Stars.
PB96-123286 *00,101*

Radio and X-ray Emissions from Chemically Peculiar B- and A-Type Stars: Observations and a Model.
PB96-123302 *00,103*

PEEL STRENGTH
Effects of Adhesive Thickness, Open Time, and Surface Cleanness on the Peel Strength of Adhesive-Bonded Seams of EPDM Rubber Roofing Membrane.
PB95-151338 *00,372*

PELTIER EFFECTS
NBS/NIST Peltier-Effect Microcalorimeter: A Four-Decade Review.
PB96-102769 *01,064*

PENDULUM IMPACT MACHINES
Proposed Changes to Charpy V-Notch Machine Certification Requirements.
PB96-135363 *02,955*

PENDULUMS
Chaos in a Computer-Animated Pendulum.
PB94-212651 *03,852*

PENICILLIN G
Thermodynamics of the Hydrolysis of Penicillin G and Ampicillin.
PB94-172467 *03,596*

PENS
Stylus Technique for the Direct Verification of Rockwell Diamond Intenders.
PB96-155569 *02,958*

PENTAFLUOROANILINE
Fluoride Elimination Upon Reaction of Pentafluoroaniline with e (sub eq')(sup -), H, and OH Radicals in Aqueous Solution.
PB97-111314 *01,177*

PENTAFLUORODIMETHYL ETHER
Vapor Pressure of Pentafluorodimethyl Ether.
PB96-201199 *00,677*

PENTAFLUOROETHANE
Viscosity of the Saturated Liquid Phase of Six Halogenated Compounds and Three Mixtures.
PB95-162368 *00,960*

Measurements of the Vapor Pressures of Difluoromethane, 1-Chloro-1,2,2,2-Tetrafluoroethane, and Pentafluoroethane.
PB95-169272 *03,270*

Vapour Pressures and Gas-Phase (p, rho n, T) Values for CF3CHF2(R125).
PB96-102090 *04,019*

PENTAFLUOROPROPANE
Vapor Pressure of 1,1,1,2,2-Pentafluoropropane.
PB97-113237 *00,684*

Thermodynamic Properties of CHF2-CF2-CHF, 1,1,2,2,3-Pentafluoropropane.
PB97-118392 *03,300*

PENTANES
Critical Properties and Vapor-Liquid Equilibria of the Binary System Propane + Neopentane.
PB95-175683 *00,999*

PEPPERS
Preliminary Investigation of Oleoresin Capsicum.
PB96-179486 *03,520*

PEPTIDES
Glucose Permease of Bacillus Subtilis Is a Single Polypeptide Chain That Functions to Energize the Sucrose Permease.
PB95-163192 *03,466*

PERCHLOROETHYLENE
Incinerability of Perchloroethylene and Chlorobenzene.
PB95-163457 *01,388*

Hydrogen Atom Attack on Perchloroethylene.
PB95-163473 *00,969*

PERCOLATION
Percolation and Pore Structure in Mortars and Concrete.
PB95-150439 *00,370*

Geometrical Percolation Threshold of Overlapping Ellipsoids.
PB96-102397 *03,167*

PERFORMANCE EVALUATION
Configuration and Performance Evaluation of a Real-Time Robot Control System: A Skeleton Approach.
PB95-163895 *01,598*

Performance of Compact Fluorescent Lamps at Different Ambient Temperatures.
PB95-175329 *00,258*

Interim Testing Artifact (ITA): A Performance Evaluation System for Coordinate Measuring Machines (CMMs). User Manual.
PB95-210589 *02,914*

Performance Testing of a Family of Type I Combination Appliance.
PB95-220521 *02,505*

4SIGHT Manual: A Computer Program for Modelling Degradation of Underground Low Level Waste Concrete Vaults.
PB95-231593 *03,726*

NIST SRM 9983 High-Rigidity Ball-Bar Stand. User Manual.
PB95-255840 *02,669*

Factors Affecting the Energy Consumption of Two Refrigerator-Freezers.
PB97-112312 *00,311*

Survey of the Components of Display-Measurement Standards.
PB97-122394 *02,209*

PERFORMANCE MEASUREMENT
Display-Measurement Round-Robin.
PB96-119227 *02,186*

PERFORMANCE STANDARDS
National Quality Assurance Program for Personnel Radiation Dosimetry: A Case History.
PB94-211273 *03,620*

Developing Rational Performance-Based Fire Safety Requirements in Model Building Codes.
PB95-175220 *00,200*

PERFORMANCE TESTING
Graded and Nongraded Regenerator Performance.
PB95-169090 *02,753*

Methodology for Developing and Implementing Alternative Temperature-Time Curves for Testing the Fire Resistance of Barriers for Nuclear Power Plant Applications.
PB96-193784 *03,742*

PERFORMANCE TESTS
Performance Standards: The Pro's and Con's.
PB94-216132 *02,896*

Using Emulators to Evaluate the Performance of Building Energy Management Systems.
PB95-175774 *00,259*

Reproducibility of Tests on Energy Management and Control Systems Using Building Emulators.
PB95-175980 *00,260*

Use of Building Emulators to Evaluate the Performance of Building Energy Management Systems.
PB96-111901 *00,269*

PERIODICALS
NIST Serial Holdings, 1994.
PB94-178068 *02,745*

Journal of Research of the National Institute of Standards and Technology, September/October 1994. Volume 99, Number 5.
PB95-169371 *04,293*

PB95-188926 *02,746*

Journal of Research of the National Institute of Standards and Technology, March/April 1995. Volume 100, Number 2.
PB96-126180 04,349

NIST Serial Holdings, 1996.
PB96-172523 02,748

PERMALLOYS (TRADEMARK)
Telegraph Noise in Silver-Permalloy Giant Magnetoresistance Test Structures.
PB96-146717 04,763

PERMANENT DENTAL RESTORATION
Properties and Interactions of Oral Structures and Restorative Materials. Annual Report for Period October 1, 1990 to September 30, 1991.
PB94-160843 03,558

PERMEABILITY
Controlling Moisture in the Walls of Manufactured Housing.
PB95-105136 00,355

Cross-Property Relations and Permeability Estimation in Model Porous Media.
PB95-150280 04,205

Calculation of the Thermal Conductivity and Gas Permeability in a Uniaxial Bundle of Fibers.
PB95-180931 03,058

Water-Vapor Measurements of Low-Slope Roofing Materials.
PB95-251617 00,399

PERMEATION
CO2/CH4 Transport in Polyperfluorosulfonate Ionomers: Effects of Polar Solvents on Permeation and Solubility.
PB96-163803 01,145

PERMEATION LEAKS
Commercial Helium Permeation Leak Standards: Their Properties and Reliability.
PB97-111413 04,146

PERMITTIVITY
Transmission/Reflection and Short-Circuit Line Methods for Measuring Permittivity and Permeability.
PB94-165537 02,211

Distribution of Dielectric Relaxation Times and the Moment Problem.
PB96-112032 04,727

PERMITTIVITY MEASUREMENTS
NIST 60-Millimeter Diameter Cylindrical Cavity Resonator: Performance Evaluation for Permittivity Measurements.
PB94-151776 02,251

PEROXIDASES
Potentiometric Enzyme-Amplified Flow Injection Analysis Detection System: Behavior of Free and Liposome-Released Peroxidase.
PB95-151833 03,534

PEROXY RADICALS
Kinetics of the Self-Reaction of Hydroxymethylperoxyl Radicals.
PB94-212164 00,827

PEROXYL RADICALS
Solvent Effects in the Reactions of Peroxyl Radicals with Organic Reductants. Evidence for Proton Transfer Mediated Electron Transfer.
PB95-107157 00,873

Reaction of Nitric Oxide with Organic Peroxyl Radicals.
PB95-141107 00,910

Oxidation of Ferrous and Ferrocyanide Ions by Peroxyl Radicals.
PB97-122402 01,191

PEROXYNITRITE RADICALS
Reaction of NO with Superoxide.
PB94-212198 00,830

PERSISTENCE LENGTH
Electrostatic Rigidity of Polyelectrolytes from Reparametrization Invariance.
PB96-180062 04,113

PERSONAL COMPUTERS
Vibration Laboratory Automation at NIST with Personal Computers.
PB95-108700 02,648

Keeping Time on Your PC.
PB95-161410 01,537

Precise Identification of Computer Viruses.
PB96-160825 01,613

PERSONAL DOSE EQUIVALENT
Angular Variation of the Personal Dose Equivalent, Hp(0.07), for Beta Radiation and Nearly Monoenergetic Electron Beams: Preliminary Results.
PB95-168472 03,630

PERSONNEL DOSIMETRY
National Quality Assurance Program for Personnel Radiation Dosimetry: A Case History.
PB94-211273 03,620

National Voluntary Laboratory Accreditation Program: Ionizing Radiation Dosimetry.
PB95-128658 03,623

Interpreting the Readings of Multi-Element Personnel Dosimeters in Terms of the Personal Dose Equivalent.
PB95-175428 03,631

PESTICIDES
Determination of Oltipraz in Serum by High-Performanace Liquid Chromatography with Optical Absorbance and Mass Spectrometric Detection.
PB94-200201 03,493

Comparison of Methods for Gas Chromatographic Determination of PCBs and Chlorinated Pesticides in Marine Reference Materials.
PB95-140091 02,584

NIST Standard Reference Materials (SRMs) for Polychlorinated Biphenyl (PCB) Determinations and Their Applicability to Toxaphene Measurements.
PB95-140109 02,585

Determination of PCBs and Chlorinated Hydrocarbons in Marine Mammal Tissues.
PB95-162640 03,744

Certification of Polychlorinated Biphenyl Congeners and Chlorinated Pesticides in a Whale Blubber Standard Reference Material.
PB96-103023 03,745

PETROCHEMISTRY
Framework for Information Technology Integration in Process Plant and Related Industries.
PB94-219086 02,772

PETROLEUM FRACTIONS
Viscosity of Defined and Undefined Hydrocarbon Liquids Calculated Using an Extended Corresponding-States Model.
PB96-167234 02,498

PF RADICALS
Resonance Enhanced Multiphoton Ionization Spectroscopy of the PF Radical.
PB97-119119 00,702

PH
Calorimetric Determination of the Standard Transformed Enthalpy of a Biochemical Reaction at Specified PH and pMg.
PB94-198249 03,454

PHARMACOLOGY
Modification of DNA Bases in Chromatin of Intact Target Human Cells by Activated Human Polymorphonuclear Leukocytes.
PB94-199833 03,526

Supercritical Fluid Extraction of Biological Products.
PB95-175204 00,040

PHASE DIAGRAMS
Effects of Elastic Stress on Phase Equilibrium in the Ni-V System.
PB94-172707 03,313

Statistical Thermodynamics of Phase Separation and Ion Partitioning in Aqueous Two-Phase Systems.
PB94-199387 01,212

Assessment of the Al-Sb System.
PB94-200474 03,329

Supercritical Solubility of Solids from Near-Critical Dilute-Mixture Theory.
PB94-211703 00,819

Inversion of the Phase Diagram from UCST to LCST in Deuterated Polybutadiene and Protonated Polybutadiene Blends.
PB94-212446 01,226

Crystal Chemistry and Phase Equilibria Studies of the BaO(BaCO3)-R2O3-CuO Systems. 4. Crystal Chemistry and Subsolidus Phase Relationship Studies of the CuO-Rich Region of the Ternary Diagrams, R=Lanthanides.
PB95-151759 00,936

Phase Composition, Viscosities, and Densities for Aqueous Two-Phase Systems Composed of Polyethylene Glycol and Various Salts at 25C.
PB95-164596 00,986

Vapor-Liquid Equilibria of Mixtures of Propane and Isomeric Hexanes.
PB95-175287 00,995

Critical Properties and Vapor-Liquid Equilibria of the Binary System Propane + Neopentane.
PB95-175683 00,999

Critical Lines for Type-III Aqueous Mixtures by Generalized Corresponding-States Models.
PB96-102371 01,063

Magnetic Dielectric Oxides: Subsolidus Phase Relations in the BaO: Fe2O3: TiO2 System.
PB96-176524 01,156

Multimedia Tutorial on Phase Equilibria Diagrams.
PB96-200829 03,088

PHASE EQUILIBRIA
Multimedia Tutorial on Phase Equilibria Diagrams.
PB96-200829 03,088

PHASE EQUILIBRIUM
Design of a High-Pressure Ebulliometer, with Vapor-Liquid Equilibrium Results for the Systems CHF2Cl + CF3-CH3 and CF3-CH2F + CH2F2.
PB97-113229 04,163

PHASE ERROR
Effect of Harmonic Distortion on Phase Errors in Frequency Distribution and Synthesis.
PB96-200779 01,563

PHASE FIELD MODELS
xi-Vector Formulation of Anisotropic Phase-Field Models: 3-D Asymptotics.
PB95-136628 04,536

Phase-Field Model for Solidification of a Eutectic Alloy.
PB95-147914 03,345

Xi-Vector Formulation of Anisotropic Phase-Field Models: 3-D Asymptotics.
PB97-122550 04,816

PHASE LOCKED SYSTEMS
Phase Locking in Two-Junction Systems of High-Temperature Superconductor-Normal Metal-Superconductor Junctions.
PB95-176053 02,060

Phase Locking in Two-Dimensional Arrays of Josephson Junctions: Effect of Critical-Current Nonuniformity.
PB96-102587 04,714

PHASE LOCKING
Stable Phase Locking in a Two-Cell Ladder Array of Josephson Junctions.
PB96-111679 04,722

Mutual Phase Locking in Systems of High-Tc Superconductor-Normal Metal-Superconductor Junctions.
PB96-135348 04,744

PHASE MODULATION
Investigations of AM and PM Noise in X-Band Devices.
PB95-180022 02,062

Practical Standards for PM and AM Noise at 5, 10 and 100 MHz.
PB95-181129 01,546

Secondary Standard for PM and AM Noise at 5, 10, and 100 MHz.
PB96-123187 01,554

Origin of l/f PM and AM Noise in Bipolar Junction Transistor Amplifiers.
PB96-200787 02,096

Reducing the 1/f AM and PM Noise in Electronics for Precision Frequency Metrology.
PB97-113195 02,102

PHASE MODULATORS
Ultralinear Small-Angle Phase Modulator.
PB95-168852 02,261

PHASE NOISE
Delivering the Same Optical Frequency at Two Places: Accurate Cancellation of Phase Noise Introduced by an Optical Fiber or Other Time-Varying Path.
PB96-102736 04,332

Reducing Errors, Complexity, and Measurement Time of PM Noise Measurements.
PB96-119771 02,075

Surface Transverse Wave Oscillators with Extremely Low Thermal Noise Floors.
PB96-186010 01,967

PHASE ORDERING
Evolution Equations for Phase Separation and Ordering in Binary Alloys.
PB96-119243 02,979

PHASE SEPARATION
Evolution Equations for Phase Separation and Ordering in Binary Alloys.
PB96-119243 02,979

Light-Scattering Studies on Phase Separation in a Binary Blend with Addition of Diblock Copolymers.
PB96-146865 01,286

Shear Suppression of Critical Fluctuations in a Diluted Polymer Blend.
PB96-204458 04,418

Dimensional Crossover in the Phase Separation Kinetics of Thin Polymer Blend Films.
PB97-113088 03,395

PHASE SEPARATION KINETICS
Phase Separation in Thin Film Polymer Blends With and Without Block Copolymer Additives.
PB96-204482 01,294

PHASE SEPARATION (MATERIALS)
Structural Stabilization of Phase Separating PC/Polyester Blends through Interfacial Modification by Transesterification Reaction.
PB95-150454 01,239

Anisotropic Phase Separation Kinetics in a Polymer Blend Solution Following Cessation of Shear Studied by Light Scattering.
PB95-151247 01,241

Real-Time Small-Angle X-Ray Scattering Study of the Early Stage of Phase Separation in the SiO2-BaO-K20 System.
PB95-163069 03,052

PHASE SHIFT
Phase Shifts and Intensity Dependence in Frequency-Modulation Spectroscopy.
PB96-103205 01,071

PHASE STABILITY (MATERIALS)
Convection and Morphological Stability During Directional Solidification.
N95-14548/8 03,310

PHASE STUDIES
Characterization of Phase and Surface Composition of Silicon Carbide Platelets.
PB94-216264 03,043

Crystal Structure of a New Sodium Zinc Arsenate Phase Solved by 'Simulated Annealing'.
PB95-107124 00,870

Thin Film Reaction Kinetics of Niobium/Aluminum Multilayers.
PB95-175295 04,651

Instrument for Evaluating Phase Behavior of Mixtures for Supercritical Fluid Experiments.
PB95-180758 00,606

PHASE TRANSFORMATIONS
Phase Behavior of a Hydrogen Bonding Molecular Composite.
PB94-185188 *01,202*

Effect of Transformation of Alloy on Transient and Residual Stresses in a Porcelain-Metal Strip.
PB94-198397 *00,143*

Phase-Field Model for Solidification of a Eutectic Alloy.
PB95-147914 *03,345*

Phase Transitions in Solid C70: Supercooling, Metastable Phases, and Impurity Effect.
PB95-150090 *00,914*

Comment on 'Phase Transitions in Antiferromagnetic Superlattices'.
PB95-152971 *04,587*

Small Angle Neutron Scattering Study on Poly(N-Isopropyl Acrylamide) Gels Near Their Volume-Phase Transition Temperature.
PB95-164380 *01,263*

New Data and Correlations for the Custody Transfer of Natural Gas Liquids.
PB96-176664 *02,499*

PHASE VELOCITY
Effect of Liftoff on Accuracu of Phase Velocity Measurements Made with Electromagnetic-Acoustic Transducers.
PB96-186044 *02,280*

PHENOLS
Source of Phenol Emissions Affecting the Indoor Air of an Office Building.
PB94-154382 *03,600*

Temperature Dependence of the Rate Constants for Reaction of Inorganic Radicals with Organic Reductants.
PB94-198280 *00,783*

Materials-Science Based Approach to Phenol Emissions from a Flooring Material in an Office Building.
PB97-118749 *02,572*

PHENYLALANINE/N-ACETYL- (ETHYL-ESTER)
Thermodynamics of the Hydrolysis of N-Acetyl-L-phenylalanine Ethyl Ester in Water and in Organic Solvents.
PB95-203386 *01,053*

PHENYLBUTADIENE
Lowest Excited Singlet State of Isolated 1-phenyl-1,3-butadiene and 1-phenyl-1,3,5-hexatriene.
PB95-202339 *01,026*

PHENYLHEXATRIENE
Lowest Excited Singlet State of Isolated 1-phenyl-1,3-butadiene and 1-phenyl-1,3,5-hexatriene.
PB95-202339 *01,026*

PHONETICS
Photonic Materials: A Report on the Results of a Workshop. Held in Gaithersburg, Maryland on August 26-27, 1992, Volume 1.
PB94-152733 *02,114*

PHONON DETECTORS
Hot-Electron Microcalorimeters for X-ray and Phonon Detection.
PB95-168993 *04,644*

Hot-Electron Microcalorimeters as High-Resolution X-ray Detectors.
PB96-123641 *04,739*

Hot-Electron Microcalorimeter for X-ray Detection Using a Superconducting Transition Edge Sensor with Electrothermal Feedback.
PB96-200399 *04,792*

PHONON DISPERSION
High-Energy Phonon Dispersion in La1.85Sr0.15CuO4.
PB96-138458 *04,748*

PHONON RESPONSE
Total-Dielectric-Function Approach to Electron and Phonon Response in Solids.
PB96-102884 *01,067*

PHONONS
Temperature Dependence and Anharmonicity of Phonons on Ni(110) and Cu(110) Using Molecular Dynamics Simulations.
PB94-185477 *04,449*

Anharmonic Phonons and the Isotope Effect in Superconductivity.
PB94-200557 *04,486*

Phonon Density of States in R2CuO4 and Superconducting R1.85Ce0.15CuO4 (R = Nd, Pr).
PB95-150686 *04,574*

High Resolution Inelastic Neutron Scattering Study of Phonon Self-Energy Effects in YBCO.
PB95-180881 *04,688*

Self-Biasing Cryogenic Particle Detector Utilizing Electrothermal Feedback and a SQUID Readout.
PB96-102538 *04,712*

Phonon Relaxation in Soft-X-ray Emission of Insulators.
PB96-160296 *04,085*

PHOSPHATE INORGANIC COMPOUNDS
Crystal Structure of a New Monoclinic Form of Potassium Dihydrogen Phosphate Containing Orthophosphacidium Ion, (H4PO4)(sup+1).
PB96-111794 *04,725*

PHOSPHATES
Modification of Deoxyribose-Phosphate Residues by Extracts of Ataxia Telangiectasia Cells.
PB94-212602 *03,458*

Cyclic Polyamine Ionophore for Use in a Dibasic Phosphate-Selective Electrode.
PB95-180121 *01,008*

PHOSPHOLIPIDS
Mixed Phospholipid Liposome Calcification.
PB94-211190 *03,457*

Self-Assembled Phospholipid/Alkanethiol Biomimetic Bilayers on Gold.
PB95-108460 *00,878*

Supported Phospholipid/Alkanthiol Biomimetic Membranes: Insulating Properties.
PB95-180782 *03,470*

Phospholipid/Alkanethiol Bilayers for Cell-Surface Receptor Studies by Surface Plasmon Resonance.
PB96-102900 *03,472*

PHOSPHOPROTEINS
Trace Elements Associated with Proteins. Neutron Activation Analysis Combined with Biological Isolation Techniques.
PB95-163101 *00,597*

PHOTOASSOCIATION
Nonadiabatic Effects in the Photoassociation of H2S.
PB95-151437 *00,934*

PHOTOCHEMICAL REACTIONS
Fragment Energy and Vector Correlations in the Overtone-Pumped Dissociation of HN3X(1)A'.
PB94-199908 *00,802*

Changes in the Redox State of Iridium Oxide Clusters and Their Relation to Catalytic Water Oxidation: Radiolytic and Electrochemical Studies.
PB95-107017 *00,864*

Bacteriorhodopsin Retains Its Light-Induced Proton-Pumping Function After Being Heated to 140C.
PB96-102728 *03,471*

PHOTOCHEMISTRY
Application of Photochemical Reaction in Electrochemical Detection of DNA Intercalation.
PB94-185733 *00,686*

PHOTODECOMPOSITION
Photodecomposition of Mo(CO)6/Si(111) 7x7: CO State-Resolved Evidence for Excited State Relaxation and Quenching.
PB95-180154 *01,009*

PHOTODESORPTION
Photodesorption Dynamics of CO from Si(111): The Role of Surface Defects.
PB96-111646 *03,066*

PHOTODETACHMENT
Resonant Two-Color Detachment of H(-) with Excitation of H(n=2).
PB95-202552 *03,984*

Relative Photoionization and Photodetachment Cross Sections for Particular Fine-Structure Transitions with Application to Cl 3s-subshell Photoionization.
PB95-203097 *03,998*

Short-Pulse Detachment of H(-) in the Presence of a Static Electric Field.
PB95-203477 *04,007*

PHOTODETECTORS
Accurate Characterization of High Speed Photodectors.
PB95-153763 *02,153*

Electrically Calibrated Pyroelectric Detector-Refinements for Improved Optical Power Measurements.
PB95-169066 *02,164*

Photodetector Frequency Response Measurements at NIST, US, and NPL, UK: Preliminary Results of a Standards Laboratory Comparison.
PB95-175592 *02,175*

PHOTODIODES
One Gigarad Passivating Nitrided Oxides for 100% Internal Quantum Efficiency Silicon Photodiodes.
PB94-185485 *02,119*

Silicon Photodiodes Optimized for EUV and Soft X-Ray Regions.
PB94-199478 *02,124*

Longterm Changes of Silicon Photodiodes and Their Use for Photometric Standardization.
PB94-211349 *04,234*

International Intercomparison of Detector Responsivity at 1300 and 1550 nm.
PB95-126017 *02,141*

Accurate Characterization of High Speed Photodectors.
PB95-153763 *02,153*

Photodetector Frequency Response Measurements at NIST, US, and NPL, UK: Preliminary Results of a Standards Laboratory Comparison.
PB95-175592 *02,175*

Comparison of Photodiode Frequency Response Measurements to 40 GHz between NPL and NIST.
PB96-111992 *04,038*

Stable Silicon Photodiodes for Absolute Intensity Measurements in the VUV and Soft X-ray Regions.
PB97-110175 *04,135*

PHOTODISSOCIATION
Multichannel Quantum Defect Half Collision Analysis of K2 Photodissociation Through the B1Pi(sub u) State.
PB94-211125 *00,812*

Asymptotic Wave Function Splitting Procedure for Propagating Spatially Extended Wave Functions: Application to Intense Field Photodissociation of H2(+).
PB94-211786 *03,847*

Vibrational Predissociation Dynamics of Overtone-Excited HN3.
PB95-125720 *00,691*

Nonadiabatic Effects in the Photoassociation of H2S.
PB95-151437 *00,934*

Photodissociation of Ammonia at 193.3nm: Rovibrational State Distribution of the NH2(A(2)A1) Fragment.
PB95-151775 *00,937*

PHOTOELECTRON SPECTROSCOPY
Photoelectron Spectroscopy of Negatively Charged Bismuth Clusters: Bi(-)2, Bi(-)3, and Bi(-)4.
PB95-108494 *00,880*

High Resolution Angle Resolved Photoelectron Spectroscopy Study of N2.
PB95-151494 *03,907*

Photoelectron Spectroscopy of Small Antimony Cluster Anions: Sb(-), Sb2(-), Sb3(-), and Sb4(-).
PB95-203139 *01,045*

PHOTOELECTRONS
Measuring Nondipolar Asymmetries of Photoelectron Angular Distributions.
PB97-122493 *01,193*

PHOTOEMISSION
Resonant-Photoemission Investigation of the Heusler Alloys Ni2MnSb and NiMnSb.
PB95-162384 *04,612*

Influence of Coadsorbed Potassium on the Electron-Stimulated Desorption of F(+), F(-), and F(*) from PF3 on Ru(0001).
PB96-157946 *04,072*

PHOTOGRAPHIC ANALYSIS
Photographic Response to X-Ray Irradiation. 1. Estimation of the Photographic Error Statistic and Development of Analytic Density-Intensity Equations.
PB94-200086 *03,821*

Photographic Response to X-Ray Irradiation. 2. Correlated Models.
PB94-200094 *03,822*

Photographic Response to X-Ray Irradiation. 3. Photographic Linearization of Beam-Foil Spectra.
PB94-200102 *03,823*

PHOTOGRAPHIC IMAGES
Human and Machine Recognition of Faces: A Survey.
PB96-111687 *01,854*

PHOTOIONIZATION
Vibrational Autoionization in H2: Vibrational Branching Ratios and Photoelectron Angular Distributions Near the v(+)=3 Threshold.
PB94-199577 *00,799*

Photoionization of Small Molecules Using Synchrotron Radiation.
PB94-211505 *03,841*

High-Energy Behavior of the Double Photoionization of Helium from 2 to 12 keV.
PB94-213279 *03,860*

High Resolution Angle Resolved Photoelectron Spectroscopy Study of N2.
PB95-151494 *03,907*

Vibronic Coupling and Other Many-Body Effects in the 4sigmag(-1) Photoionization Channel of CO2.
PB95-162509 *00,962*

Shape-Resonance-Enhanced Continuum-Continuum Coupling in Photoionization of CO2.
PB95-164471 *00,983*

Short-Range Correlation and Relaxation Effects on the (6p(2))(1)SO Autoionizing State of Atomic Barium.
PB95-202289 *03,973*

Relative Photoionization and Photodetachment Cross Sections for Particular Fine-Structure Transitions with Application to Cl 3s-subshell Photoionization.
PB95-203097 *03,998*

Intensity-Dependent Scattering Rings in High Order Above-Threshold Ionization.
PB96-110739 *04,032*

Experimental Determination of the Ionization Energy of IO(X(sup 2)II(sub 3/2)) and Estimations of Delta(sub f)H(sup deg)(sub 0)(IO(sup -)) and PA(IO).
PB96-146899 *00,694*

Ionization Energies, Appearance Energies and Thermochemistry of CF2O and FCO.
PB97-111538 *01,178*

PHOTOLITHOGRAPHY
Numerical Simulation of Submicron Photolithographic Processing.
PB94-198561 *02,310*

PHOTOLUMINESCENCE
Band-to-Band Photoluminescence and Luminescence Excitation in Extremely Heavily Carbon-Doped Epitaxial GaAs.
PB95-150413 *04,570*

Comparative Photoluminescence Measurement and Simulation of Vertical-Cavity Semiconductor Laser Structures.
PB95-169173 *02,169*

Measurement and Simulation of Photoluminescence Spectra from Vertical-Cavity Quantum-Well Laser Structures.
PB95-169181 *02,170*

Comparison of Techniques for Nondestructive Composition Measurements in CdZnTe Substrates.
PB96-103098 *02,703*

Cross-Sectional Photoluminescence and Its Application to Buried-Layer Semiconductor Structures.
PB96-141106 *02,415*

Photoluminescence Spectra of Epitaxial Single Crystal C60.
PB96-141205 *04,754*

PHOTOLYSIS

Metalloporphyrin Sensitized Photooxidation of Water to Oxygen on the Surface of Colloidal Iridium Oxides - Photochemical and Pulse Radiolytic Studies.
PB95-107082 *00,868*

PHOTOMASKS

Practical Photomask Linewidth Measurements.
PB95-108510 *02,324*

Accuracy in Integrated Circuit Dimensional Measurements.
PB95-180808 *02,368*

Improving Photomask Linewidth Measurement Accuracy via Emulated Stepper Aerial Image Measurement.
PB95-180816 *02,911*

PHOTOMETERS

Detector-Based Candela Scale and Related Photometric Calibration Procedures at NIST.
PB95-161949 *04,273*

Intercomparison of Photometric Units Maintained at NIST (USA) and PTB (Germany), 1993.
PB95-261913 *04,329*

Comparison of Filter Radiometer Spectral Responsivity with the NIST Spectral-Irradiance and Illuminance Scales.
PB97-113161 *04,162*

PHOTOMETRY

Longterm Changes of Silicon Photodiodes and Their Use for Photometric Standardization.
PB94-211349 *04,234*

National Measurement System for Radiometry, Photometry, and Pyrometry Base Upon Absolute Detectors.
PB97-108559 *04,382*

Characterization of Modified FEL Quartz-Halogen Lamps for Photometric Standards.
PB97-112544 *00,282*

PHOTON-ATOM COLLISIONS

Laser Assisted Collisions at Ultracold Temperatures.
PB95-161220 *03,929*

PHOTON-ATOM INTERACTIONS

Laser Focused Atomic Deposition.
PB95-180659 *04,685*

PHOTON BEAM EXCITATION

Barium Contributions to the Valence Electronic Structure of YBa2Cu3O7-delta, PrBa2Cu3O7-delta, and Other Barium-Containing Compounds.
PB96-158019 *04,076*

PHOTON CROSS SECTIONS

Bibliography of Photon Total Cross Section (Attenuation Coefficient) Measurements 10 eV to 13.5 GeV, 1907-1993.
PB94-193760 *03,804*

Experimentally Measured Total X-ray Attenuation Coefficients Extracted from Previously Unprocessed Documents Held by the NIST Photon and Charged Particle Data Center.
PB97-114474 *04,165*

PHOTON-ELECTRON COLLISIONS

Polarization Effects on Multiple Scattering Gamma Transport.
PB95-153615 *03,926*

PHOTON TRANSPORT

Slab Transmission and Reflection for Point Source and Point Detector.
PB94-211265 *03,838*

PHOTONIC BAND STRUCTURE

Photonic Band-Structure Effects for Low-Index-Contrast Two-Dimensional Lattices in the Near Infrared.
PB97-122469 *04,401*

PHOTONIC PROBES

Optically Linked Three-Loop Antenna System for Determining the Radiation Characteristics of an Electrically Small Source.
PB95-161915 *02,005*

PHOTONICS

Optically Sensed EM-Field Probes for Pulsed Fields.
PB94-212594 *02,130*

PHOTONS

Exposure-to-Absorbed-Dose Conversion for Human Adult Cortical Bone.
PB97-110381 *03,640*

Calculation of Photon Mass Energy-Transfer and Mass Energy-Absorption Coefficients.
PB97-110399 *04,137*

Electron-Photon Monte Carlo Calculations: The ETRAN Code.
PB97-110407 *04,138*

PHOTOOXIDATION

Ferric Ion Assisted Photooxidation of Halocetates.
PB97-112460 *00,521*

PHOTOPATTERNING

UV-Photopatterning of Alkylthiolate Monolayers Self-Assembled on Gold and Silver.
PB95-150751 *00,924*

PHOTOREFLECTANCE

Double-Modulation and Selective Excitation Photoreflectance for Wafer-Level Characterization of Quantum-Well Laser Structures.
PB96-167325 *04,372*

Double Modulation and Selective Excitation Photoreflectance for Characterizing Highly Luminescent Semiconductor Structures and Samples with Poor Surface Morphology.
PB97-111439 *02,452*

PHOTORESISTORS

Characterization of Interface Defects in Oxygen-Implanted Silicon Films.
PB94-216629 *02,322*

PHTHALIC ACID/ (DIOCTYL-ESTER)

Neutron Scattering Study of Shear Induced Turbidity in Polystyrene/Dioctyl Phthalate Solutions at High Shear Rates.
PB94-172624 *01,197*

PHTHALOCYANINES

Complementary Molecular Information on Phthalocyanine Compounds Derived from Laser Microprobe Mass Spectrometry and Micro-Raman Spectroscopy.
PB94-172269 *00,757*

PHYSICAL CHEMISTRY

Journal of Physical and Chemical Reference Data, Volume 22, No. 1, January/February 1993.
PB94-160975 *00,729*

Thermodynamic Properties of the Group IIA Elements.
PB94-160983 *00,730*

Spectroscopy and Structure of the Lithium Hydride Diatomic Molecules and Ions.
PB94-160991 *00,731*

Quantum Yields for the Photosensitized Formation of the Lowest Electronically Excited Singlet State of Molecular Oxygen in Solution.
PB94-161007 *00,732*

Journal of Physical and Chemical Reference Data, Volume 22, No. 2, March/April 1993.
PB94-162211 *00,733*

Wavelengths and Energy Level Classifications for the Spectra of Sulfur (S I through S XVI).
PB94-162229 *00,734*

Thermodynamic Properties of Alkenes (Mono-Olefins Larger Than C4).
PB94-162237 *00,735*

Thermodynamic Behavior of the CO2-H2O System from 400 to 1000 K, up to 100 MPa and 30% Mole Fraction of CO2.
PB94-162245 *00,736*

Thermodynamics of Enzyme-Catalyzed Reactions: Part 1. Oxidoreductases.
PB94-162252 *00,737*

Journal of Physical and Chemical Reference Data, Volume 22, No. 3, May/June 1993.
PB94-162260 *00,738*

Estimation of the Heat Capacities of Organic Liquids as a Function of Temperature Using Group Additivity. I. Hydrocarbon Compounds.
PB94-162278 *00,739*

Estimation of the Heat Capacities of Organic Liquids as a Function of Temperature Using Group Additivity. II. Compounds of Carbon, Hydrogen, Halogens, Nitrogen, Oxygen, and Sulfur.
PB94-162286 *00,740*

Thermodynamic and Thermophysical Properties of Organic Nitrogen Compounds. Part II. 1- and 2-Butanamine, 2-Methyl-1-Propanamine, 2-Methyl-2-Propanamine, Pyrrole, 1-, 2-, and 3-Methylpyrrole, Pyridine, 2-, 3-, and 4-Methylpyridine, Pyrrolidine, Piperidine, Indole, Quinoline, Isoquinoline, Acridine, Carbazole, Phenanthridine, 1- and 2-Naphthalenamine, and 9-Methylcarbazole.
PB94-162294 *00,741*

International Equations for the Saturation Properties of Ordinary Water Substance. Revised According to the International Temperature Scale of 1990. Addendum to Journal of Physical and Chemical Reference Data 16, 893 (1987).
PB94-162302 *00,742*

Journal of Physical and Chemical Reference Data, Volume 22, No. 4, July/August 1993.
PB94-162310 *00,743*

Estimation of the Thermodynamic Properties of C-H-N-O-S-Halogen Compounds at 298.15 K.
PB94-162328 *00,744*

Journal of Physical and Chemical Reference Data, Volume 22, No. 5, September/October 1993.
PB94-162336 *00,745*

Compilation of Energy Levels and Wavelengths for the Spectrum of Singly-Ionized Oxygen (O II).
PB94-162344 *00,746*

Energy Levels of Germanium, Ge I through Ge XXXII.
PB94-162351 *00,747*

Spectral Data and Grotrian Diagrams for Highly Ionized Chromium, Cr V through Cr XXIV.
PB94-162369 *00,748*

Journal of Physical and Chemical Reference Data, Volume 22, No. 6, November/December 1993.
PB94-168556 *00,749*

Thermodynamic Properties of Synthetic Sapphire (alpha-Al2O3), Standard Reference Material 720 and the Effect of Temperature-Scale Differences on Thermodynamic Properties.
PB94-168564 *00,750*

Thermodynamic Properties of Gaseous Silicon Monotelluride and the Bond Dissociation Enthalpy D(sub m)(SiTe) at T approaches 0.
PB94-168572 *00,751*

Disilicides of Tungsten, Molybdenum, Tantalum, Titanium, Cobalt, and Nickel, and Platinum Monosilicide: A Survey of Their Thermodynamic Properties.
PB94-168580 *00,752*

Evaluated Bimolecular Ion-Molecule Gas Phase Kinetics of Positive Ions for Use in Modeling Planetary Atmospheres, Cometary Comae, and Interstellar Clouds.
PB94-168598 *00,753*

Atomic Weights of the Elements 1991.
PB94-168606 *00,754*

PHYSICAL EQUILIBRIUM

Bibliography of the Physical Equilibria and Related Properties of Some Cryogenic Systems.
AD-A281 167/7 *03,769*

PHYSICAL PROPERTIES

Physical Properties of Some Purified Aliphatic Hydrocarbons.
AD-A297 265/1 *00,657*

Journal of Physical and Chemical Reference Data, Volume 22, No. 1, January/February 1993.
PB94-160975 *00,729*

Journal of Physical and Chemical Reference Data, Volume 22, No. 2, March/April 1993.
PB94-162211 *00,733*

Journal of Physical and Chemical Reference Data, Volume 22, No. 3, May/June 1993.

Journal of Physical and Chemical Reference Data, Volume 24, No. 4, July/August 1995.
PB96-145883 *01,112*

Journal of Physical and Chemical Reference Data, Volume 24, No. 5, September/October 1995.
PB96-145925 *01,116*

Journal of Physical and Chemical Reference Data, Volume 24, No. 6, November/December 1995.
PB96-145966 *01,120*

Environmental Aspects of Halon Replacements: Considerations for Advanced Agents and the Ozone Depletion Potential of CF3I.
PB97-122261 *03,301*

PHYSICAL RADIATION EFFECTS

Decomposition of Sulfur Hexafluoride by X-rays.
PB96-135314 *01,095*

PHYSICOCHEMICAL PROPERTIES

Octacalcium Phosphate Carboxylates. 2. Characterization and Structural Consideration.
PB95-161543 *00,955*

Formation of Hydroxyapatite in Cement Systems.
PB95-175261 *00,170*

PHYSICS
Physics Laboratory Technical Activities, 1993.
PB94-176088 *03,796*

Metrology Issues in Terahertz Physics and Technology.
PB96-128277 *01,939*

PHYSIOLOGIC CALCIFICATION
Experimental Validation of Radiopharmaceutical Absorbed Dose to Mineralized Bone Tissue.
PB94-199668 *03,617*

PHYTOPLANKTON
High-Performance Liquid Chromatography of Phytoplankton Pigments Using a Polymeric Reversed-Phase C18 Column.
PB95-151130 *00,583*

PIEZOELECTRIC CERAMICS
High-Sensitivity Acoustic Emission Sensor/Preamplifier Subsystems.
PB95-125704 *02,900*

PIEZOELECTRICITY
Piezoelectric and Pyroelectric Polymers.
PB95-153367 *01,250*

PIGMENTS
Molar Absorptivities of Bilirubin (NIST SRM 916A) and Its Neutral and Alkaline Azopigments.
PB94-211042 *03,456*

High-Performance Liquid Chromatography of Phytoplankton Pigments Using a Polymeric Reversed-Phase C18 Column.
PB95-151130 *00,583*

PIPE BENDS
Summary Report of NIST's Industry-Government Consortium Research Program on Flowmeter Installation Effects: The 45 Degree Elbow.
PB95-143061 *04,204*

PIPE ELBOWS
Effects of Pipe Elbows and Tube Bundles on Selected Types of Flowmeters.
PB96-160999 *01,135*

PIPE FLOW
Summary Report of NIST's Industry-Government Consortium Research Program on Flowmeter Installation Effects with Emphasis on the Research Period, January-September 1991: The Reducer.
PB94-160736 *04,196*

Summary Report of NIST's Industry-Government Consortium Research Program on Flowmeter Installation Effects: The 45 Degree Elbow.
PB95-143061 *04,204*

PIPE JOINTS
Analysis of Failed Dry Pipe Fire Suppression System Couplings from the Filene Center at Wolf Trap Farm Park for the Performing Arts.
PB94-164407 *00,331*

PIPELINES
Earthquake Resistant Construction of Gas and Liquid Fuel Pipeline Systems Serving, or Regulated By, the Federal Government.
PB94-161999 *04,846*

PIPES
Polyvinyl Chloride (PVC) Plastic Drain, Waste, and Vent Pipe and Fittings.
AD-A310 426/2 *00,326*

Acrylonitrile-Butadiene-Styrene (ABS) Plastic Drain, Waste, and Vent Pipe and Fittings.
AD-A310 724/0 *00,327*

PIPING SYSTEMS
Water Efficient Plumbing Fixtures through Standards and Test Methods.
PB95-125951 *00,248*

Comparison of Fire Sprinkler Piping Materials: Steel, Copper, Chlorinated Polyvinyl Chloride and Polybutylene, in Residential and Light Hazard Installations.
PB95-182267 *00,299*

PISTON GAGES
NIST Measurement Services: NIST Pressure Calibration Service.
PB94-164043 *02,892*

Intercomparison of the Effective Areas of a Pneumatic Piston Gauge Determined by Different Techniques.
PB94-212370 *02,640*

PLANAR NEAR-FIELD METHOD
Planar Near-Field Measurements and Microwave Holography for Measuring Aperture Distribution on a 60 GHz Active Array Antenna.
PB96-167366 *03,762*

PLANAR STRUCTURES
Planar Lenses for Field-Emitter Arrays.
PB96-103064 *02,112*

PLANE OXYGEN VIBRATION
q Dependence of Self-Energy Effects of the Plane Oxygen Vibration in YBa2Cu3O7.
PB96-138516 *01,096*

PLANE WAVES
Spatial Correlation Function for Fields in a Reverberation Chamber.
PB96-148077 *04,427*

PLANETARY ATMOSPHERES
Infrared Spectra of van der Waals Complexes of Importance in Planetary Atmospheres.
PB95-125738 *00,071*

Microwave Spectra of van der Waals Complexes of Importance in Planetary Atmospheres.
PB95-150611 *00,919*

Experimental Determination of the Rate Constant for the Reaction of C2H3 with H2 and Implications for the Partitioning of Hydrocarbons in Atmospheres of the Outer Planets.
PB97-122295 *00,112*

PLANETARY GRAVITATION
Integrated Laser Doppler Method for Measuring Planetary Gravity Fields.
PB94-198686 *03,681*

PLANETARY NEBULAE
IRAS Spectroscopic Observations of Young Planetary Nebulae.
PB95-152070 *00,072*

PLANNING
Integration of Real-Time Process Planning for Small-Batch Flexible Manufacturing.
PB95-151908 *02,822*

Computer-Aided Manufacturing Engineering Forum (1st). Technical Meeting Proceedings. Held in Gaithersburg, Maryland on March 21-22, 1995.
PB96-136965 *02,834*

Machining Process Planning Activity Model for Systems Integration.
PB96-165428 *02,841*

PLASMA
Electrical Measurements for Monitoring and Control of rf Plasma Processing.
PB96-161963 *04,369*

PLASMA CHEMISTRY
Plasma Chemistry in Disilane Discharges.
PB94-211075 *02,514*

Plasma Chemical Model for Decomposition of SF6 in a Negative Glow Corona Discharge.
PB95-181053 *01,020*

Plasma Chemistry in Silane/Germane and Disilane/Germane Mixtures.
PB95-202537 *01,027*

PLASMA DIAGNOSTICS
Spectroscopic Data for Fusion Edge Plasmas.
PB95-151569 *04,410*

Spectroscopic Diagnostics of Low Temperature Plasmas: Techniques and Required Data.
PB95-151577 *04,411*

Visible and UV Light from Highly Charged Ions: Exotic Matter Advancing Technology.
PB96-119391 *04,414*

PLASMA EDGE
Electron-Ion Collisions in the Plasma Edge.
PB96-111885 *04,037*

PLASMA ETCHING
Waveguide Polarizers Processed by Localized Plasma Etching.
PB95-169264 *02,171*

PLASMA SHEATH
Electrical Sensors for Monitoring rf Plasma Sheaths.
PB95-162962 *04,412*

PLASMA SPRAY
Ultrasonic NDE of Sprayed Ceramic Coatings.
PB96-201157 *02,761*

Characterization and Processing of Spray-Dried Zirconia Powders for Plasma Spray Application.
PB97-111231 *04,419*

PLASMA SPRAYED ALUMINA
Anisotropy of the Surfaces of Pores in Plasma Sprayed Alumina Deposits.
PB96-123211 *03,126*

PLASMAS (PHYSICS)
Two-Dimensional Self-Consistent Radio Frequency Plasma Simulations Relevant to the Gaseous Electronics Conference RF Reference Cell.
PB96-113436 *02,398*

PLASMIDS
Deletion Analysis of the Mini-P1 Plasmid Origin of Replication and the Role of E.coli DnaA Protein.
PB95-163911 *03,539*

PLASTIC CONCRETE
Study on the Reuse of Plastic Concrete Using Extended Set-Retarding Admixtures.
PB96-122130 *00,402*

PLASTIC DEFORMATION
SANS Study of the Plastic Deformation Mechanism in Polyethylene.
PB95-151841 *01,242*

PLASTIC PROPERTIES
Simulation of C60 Through the Plastic Transition Temperatures.
PB96-102546 *04,713*

PLASTICALLY POLARIZABLE MATERIALS
Shielding of Cracks in a Plastically Polarizable Material.
PB95-164257 *04,631*

PLASTICS
Weatherability of Plastic Materials.
AD-A301 675/5 *02,968*

Polyvinyl Chloride (PVC) Plastic Drain, Waste, and Vent Pipe and Fittings.
AD-A310 426/2 *00,326*

PLATELETS (MATERIALS)
Characterization of Phase and Surface Composition of Silicon Carbide Platelets.
PB94-216264 *03,043*

PLATFORM INTEROPERABILITY
Interoperability Experiments with CORBA and Persistent Object Base Systems.
PB96-183140 *01,772*

PLATINUM
Characterization of the Binding of Gallium, Platinum, and Uranium to Pseudomonas Fluorescens by Small-Angle X-ray Scattering and Transmission Electron Microscopy.
PB94-172509 *03,453*

Combined Low- and High-Angle X-Ray Structural Refinement of a Co/Pt(111) Multilayer Exhibiting Perpendicular Magnetic Anisotropy.
PB94-198355 *04,457*

PLATINUM ALLOYS
Fabrication of Platinum-Gold Alloys in Pre-Hispanic South America: Issues of Temperature and Microstructure Control.
PB94-211646 *03,333*

PLATINUM CONTAINING ALLOYS
Temperature Dependence of the Magnetic Excitations in Ordered and Disordered Fe72Pt28.
PB95-150223 *04,563*

PLATINUM IONS
Observation of Pd-Like Resonance Lines Through Pt(32+) and Zn-Like Resonance Lines of Er(38+) and Hf(42+).
PB95-150637 *03,896*

Rh I Isoelectronic Sequence Observed from Er(23+) to Pt(33+).
PB95-150652 *03,898*

Spectra of Ag I Isoelectronic Sequence Observed from Er(21+) to Au(32+).
PB95-150660 *03,899*

PLEIADES CLUSTER
IUE Observations of Solar-Type Stars in the Pleiades and the Hyades.
PB94-199437 *00,053*

PLUMES
Computational Model for the Rise and Dispersion of Wind-Blown, Buoyancy-Driven Plumes. Part 2. Linearly Stratified Atmosphere.
PB94-143427 *00,119*

Dispersion and Deposition of Smoke Plumes Generated in Massive Fires.
PB95-126066 *02,540*

Airborne Smoke Sampling Package for Field Measurements of Fires.
PB95-150041 *01,381*

Fire-Plume-Generated Ceiling Jet Characteristics and Convective Heat Transfer to Ceiling and Wall Surfaces in a Two-Layer Fire Environment: Uniform Temperature Ceiling and Walls.
PB95-164711 *00,382*

Some Factors Affecting the Design of a Calorimeter Hood and Exhaust.
PB96-102181 *00,302*

Smoke Plume Trajectory from In situ Burning of Crude Oil in Alaska: Field Experiments.
PB96-131560 *02,594*

PLYWOOD
Voluntary Product Standard PS 1-95 Construction and Industrial Plywood.
PB96-178900 *03,406*

PMGDM
Modified Surface-Active Monomers for Adhesive Bonding to Dentin.
PB95-151163 *00,158*

PMMA
Fire Growth Models for Materials.
PB94-195856 *01,367*

Thermal Stability of Internal Electric Field and Polarization Distribution in Blend of Polyvinylidene Fluoride and Polymethylmethacrylate.
PB95-151072 *01,240*

PNEUMATIC EQUIPMENT
Intercomparison of the Effective Areas of a Pneumatic Piston Gauge Determined by Different Techniques.
PB94-212370 *02,640*

PNEUMATIC TUBE TERMINAL
New NIST Rapid Pneumatic Tube System.
PB96-167259 *03,738*

POB
Persistent Object Base System Testing and Evaluation.
PB95-220588 *01,730*

POB (PERSISTENT OBJECT BASED SYSTEMS)
Persistent Object Base System Testing and Evaluation.
PB95-220588 *01,730*

Interoperability Experiments with CORBA and Persistent Object Base Systems.
PB96-183140 *01,772*

POINT CHARGES
Point Charges, Radiation Reaction, and Quantum Mechanics.
PB97-110563 *04,139*

POISSON RATIO
Hollow Clay Tile Prism Tests for Martin Marietta Energy Systems: Task 2 Testing.
PB94-217486 *00,352*

POISSON'S EQUATION
Scanning Capacitance Microscopy Measurements and Modeling: Progress Towards Dopant Profiling of Silicon.
PB96-180070 *01,964*

POLAR GASES
Virial Coefficients of Five Binary Mixtures of Fluorinated Methanes and Ethanes.
PB96-156054 *01,128*

POLARIMETRY
Polarimetric Calibration of Reciprocal-Antenna Radars.
PB96-200696 *02,016*

POLARIZATION
Thermal Pulse Study of the Polarization Distributions Produced in Polyvinylidene Fluoride by Corona Poling at Constant Current.
PB94-172293 *01,195*

Surface Magnetic Microstructural Analysis Using Scanning Electron Microscopy with Polarization Analysis (SEMPA).
PB95-162657 *03,938*

Anisotropy of Polarized X-ray Emission from Atoms and Molecules.
PB95-163002 *04,621*

Vector and Quasi-Vector Solutions for Optical Waveguide Modes Using Efficient Galerkin's Method with Hermite-Gauss Basis Functions.
PB96-141197 *04,357*

Time-Resolved Measurements of the Polarization State of Four-Wave Mixing Signals from GaAs Multiple Quantum Wells.
PB96-201058 *04,796*

Polarization Measurements on a Magnetic Quadrupole Line in Ne-Like Barium.
PB97-113104 *04,161*

Integrated Optical Polarization-Discriminating Receiver in Glass.
PB97-113179 *02,206*

POLARIZATION (CHARGE SEPARATION)
Hysteresis Measurements of Remanent Polarization and Coercive Field in Polymers.
PB94-199767 *04,475*

Thermal Stability of Internal Electric Field and Polarization Distribution in Blend of Polyvinylidene Fluoride and Polymethylmethacrylate.
PB95-151072 *01,240*

Piezoelectric and Pyroelectric Polymers.
PB95-153367 *01,250*

POLARIZATION MODE DISPERSION
Anomalous Relation between Time and Frequency Domain PMD Measurements.
PB97-119390 *04,398*

POLARIZATION PROFILES
Thermal Pulse Study of the Polarization Distributions Produced in Polyvinylidene Fluoride by Corona Poling at Constant Current.
PB94-172293 *01,195*

POLARIZATION (WAVES)
Polarization Effects on Multiple Scattering Gamma Transport.
PB95-153615 *03,926*

POLARIZED BEAMS
Uncertainty Intervals for Polarized Beam Scattering Asymmetry Statistics.
PB94-200342 *03,825*

Connection between Superelastic and Inelastic Electron-Atom Collisions Involving Polarized Collision Partners.
PB95-202297 *03,974*

POLARIZED ELECTROMAGNETIC RADIATION
Resonance and Threshold Effects in Polarized X-Ray Emission from Atoms and Molecules.
PB95-150298 *03,891*

POLARIZED INTERFEROMETER
New Refractometer by Combining a Variable Length Vacuum Cell and a Double-Pass Michelson Interferometer.
PB97-111926 *01,986*

POLARIZED LIGHT
Characteristics of Light Emission After Low-Energy Electron Impact Excitation of Caesium Atoms.
PB94-198587 *03,806*

Polarization of Light Emitted After Positron Impact Excitation of Alkali Atoms.
PB94-199734 *03,816*

National Voluntary Laboratory Accreditation Program: Bulk Asbestos Analysis.
PB95-138129 *02,541*

POLARIZED NEUTRON REFLECTOMETRY
New Exact Solution of the One-Dimensional Schrodinger Equation and Its Application to Polarized Neutron Reflectometry.
PB95-161832 *04,609*

Analytic Calculation of Polarized Neutron Reflectivity from Superconductors.
PB95-164224 *04,629*

POLARIZERS
Supermirror Transmission Polarizers for Neutrons.
PB94-216215 *03,866*

Waveguide Polarizers Processed by Localized Plasma Etching.
PB95-169264 *02,171*

POLE FIGURES
Texture Measurement of Sintered Alumina Using the March-Dollase Function.
PB96-179494 *04,784*

POLICE PATROL CARS
AutoBid 2.0: The Microcomputer System for Police Patrol Vehicle Selection.
PB96-154570 *04,871*

POLICE VEHICLES
Evaluating Investments in Law Enforcement Equipment: An Annotated Bibliography.
PB95-151379 *04,867*

POLICY FORMATION
Information Infrastructure: Reaching Society's Goals. A Report of the Information Infrastructure Task Force Committee on Applications and Technology.
ED-376 823 *00,131*

POLICY MAKING
Standards Policy and Information Infrastructure.
PB95-231882 *01,485*

POLISHING
Rapid Post-Polishing of Diamond-Turned Optics.
PB95-175949 *04,301*

POLLUTANTS
Standard Reference Materials for Dioxins and Other Environmental Pollutants.
PB94-198330 *02,518*

POLLUTION ABATEMENT
Opportunities for Innovation: Pollution Prevention.
PB95-147146 *02,520*

International Green Building Conference and Exposition (2nd). Held in Big Sky, Montana on August 13-15, 1995.
PB95-253605 *02,525*

International Green Building Conference and Exposition (3rd). Held in San Diego, California on November 17-19, 1996. (Reannouncement with new abstract).
PB97-121826 *02,531*

POLLUTION CONTROL EQUIPMENT
India: Environmental Technologies Export Market Plan.
PB97-114359 *02,529*

POLLUTION SAMPLING
Standard Reference Materials for the Determination of Polycyclic Aromatic Hydrocarbons in Environmental Samples - Current Activities.
PB95-151668 *00,586*

POLONIUM 208
Long-Term Stability of Carrier-Free Polonium Solution Standards.
PB94-185170 *00,685*

POLY (AMIDE/N-PROPYLACRYL)
Small Angle Neutron Scattering Study on Poly(N-Isopropyl Acrylamide) Gels Near Their Volume-Phase Transition Temperature.
PB95-164380 *01,263*

Small-Angle Neutron Scattering Study on Weakly Charged Temperature Sensitive Polymer Gels.
PB95-164398 *01,264*

POLY (P-PHENYLENE VINYLENE)
Inelastic-Neutron-Scattering Studies of Poly(p-phenylene vinylene).
PB95-180766 *01,014*

POLY (SULFONIC ACID/TETRAFLUORO)
Gas Transport Properties of Solution-Cast Perfluorosulfonic Acid Ionomer Films Containing Ionic Surfactants.
PB95-175998 *01,267*

POLYACRYLAMIDE GEL ELECTROPHORESIS
Resolution of DNA in the Presence of Mobility Modifying Polar and Nonpolar Compounds by Discontinuous Electrophoresis on Rehydratable Polyacrylamide Gels.
PB95-152799 *00,590*

POLYACRYLATES
Adsorption of Low-Molecular-Weight Sodium Polyacrylate on Hydroxyapatite.
PB94-172608 *00,139*

POLYACRYLIC ACID
Small-Angle Neutron Scattering Study on Weakly Charged Temperature Sensitive Polymer Gels.
PB95-164398 *01,264*

POLYACRYLICS
Adsorption of Polyacrylic Acids and Their Sodium Salts on Hydroxyapatite: Effect of Relative Molar Mass.
PB97-112510 *03,581*

POLYAMINES
Cyclic Polyamine Ionophore for Use in a Dibasic Phosphate-Selective Electrode.
PB95-180121 *01,008*

POLYAROMATIC CARCINOGENS
New Method for the Detection and Measurement of Polyaromatic Carcinogens and Related Compounds by DNA Intercalation.
PB96-167382 *03,481*

POLYATOMIC MOLECULES
Doppler-Free Spectroscopy of Large Polyatomic Molecules and van der Waals Complexes.
PB96-119581 *04,339*

POLYBASIC ORGANIC ACIDS
Polymeric Calcium Phosphate Cements Derived from Poly(methyl vinyl ether-maleic acid).
PB96-164264 *00,180*

POLYBUTADIENE
Shear-Excited Morphological States in a Triblock Copolymer.
PB94-172392 *01,196*

Time Dependent Small Angle Neutron Scattering Behavior in Triblock Copolymers Under Steady Shear.
PB94-172632 *01,198*

Effect of Cross-Links on the Miscibility of a Deuterated Polybutadiene and Protonated Polybutadiene Blend.
PB94-212438 *01,225*

Inversion of the Phase Diagram from UCST to LCST in Deuterated Polybutadiene and Protonated Polybutadiene Blends.
PB94-212446 *01,226*

Dynamic Light-Scattering Study of a Diluted Polymer Blend Near Its Critical Point.
PB95-151890 *01,245*

SANS Studies of Space-Time Organization of Structure in Polymer Blends.
PB95-153789 *01,251*

Time-Resolved Small-Angle Neutron Scattering Study of Spinodal Decomposition in Deuterated and Protonated Polybutadiene Blends. 1. Effect of Initial Thermal Fluctuations.
PB95-161196 *01,252*

POLYBUTYLENE
Comparison of Fire Sprinkler Piping Materials: Steel, Copper, Chlorinated Polyvinyl Chloride and Polybutylene, in Residential and Light Hazard Installations.
PB95-182267 *00,299*

POLYCHLORINATED BIPHENYLS
Comparison of Methods for Gas Chromatographic Determination of PCBs and Chlorinated Pesticides in Marine Reference Materials.
PB95-140091 *02,584*

NIST Standard Reference Materials (SRMs) for Polychlorinated Biphenyl (PCB) Determinations and Their Applicability to Toxaphene Measurements.
PB95-140109 *02,585*

Certification of Polychlorinated Biphenyl Congeners and Chlorinated Pesticides in a Whale Blubber Standard Reference Material.
PB96-103023 *03,745*

Quantitative Analysis of Selected PCB Congeners in Marine Matrix Reference Materials Using a Novel Cyanobiphenyl Stationary Phase.
PB96-111737 *02,591*

POLYCRYSTALLINE
Unconventional Ferromagnetic Transition in La(sub 1-x)Ca(sub x)MnO3.
PB97-112429 *04,156*

POLYCRYSTALS
Energy and Migration of Grain Boundaries in Polycrystals.
PB94-211638 *03,332*

Microstructural Evolution in Two-Dimensional Two-Phase Polycrystals.
PB94-211992 *04,498*

POLYCYCLIC AROMATIC HYDROCARBONS
Determination of Polycyclic Aromatic Hydrocarbons by Liquid Chromatography.
PB95-151650 *00,585*

Standard Reference Materials for the Determination of Polycyclic Aromatic Hydrocarbons in Environmental Samples - Current Activities.
PB95-151668 *00,586*

Liquid Chromatographic Determination of Polycyclic Aromatic Hydrocarbon Isomers of Molecular Weight 278 and 302 in Environmental Standard Reference Materials.
PB95-164042 *02,523*

Certification of Polycyclic Aromatic Hydrocarbons in a Marine Sediment Standard Reference Material.
PB96-111778 *02,592*

POLYDIACETYLENES
Novel Polydiacetylenes Derived from Liquid Crystalline Monomers.
PB95-140125 *01,235*

POLYELECTROLYTES
Polyelectrolytes as Dispersants in Colloidal Processing of Silicon Nitride Ceramics.
PB95-175568 *03,055*

Surface Chemical Interactions of Si3N4 with Polyelectrolyte Deflocculants.
PB95-175576 *03,056*

Electrostatic Rigidity of Polyelectrolytes from Reparametrization Invariance.
PB96-180062 *04,113*

POLYENES
Lowest Excited Singlet State of Isolated 1-phenyl-1,3-butadiene and 1-phenyl-1,3,5-hexatriene.
PB95-202339 *01,026*

POLYETHLENES
Certification of the Standard Reference Material 1473a, a Low Density Polyethylene Resin.
PB96-128251 *01,282*

POLYETHYLENE
Polyethylene Crystallized from an Entangled Solution Observed by Scanning Tunneling Microscopy.
PB95-107389 *01,232*

SANS Study of the Plastic Deformation Mechanism in Polyethylene.
PB95-151841 *01,242*

POLYETHYLENE GLYCOL
Two Phase Aqueous Extraction: Rheological Properties of Dextran, Polyethylene Glycol, Bovine Serum Albumin and Their Mixtures.
PB95-161998 *00,676*

Protein Extraction in a Spray Column Using a Polyethylene Glycol Maltodextrin Two-Phase Polymer System.
PB95-162228 *00,595*

Phase Composition, Viscosities, and Densities for Aqueous Two-Phase Systems Composed of Polyethylene Glycol and Various Salts at 25C.
PB95-164596 *00,986*

POLYETHYLENE PLASTICS
Performance of Plastic Packaging for Hazardous Materials Transportation. Part 1. Mechanical Properties.
AD-A301 258/0 *02,580*

POLYETHYLENES
Recertification of the Standard Reference Material 1475A, a Linear Polyethylene Resin.
PB94-161932 *02,628*

POLYIMIDE
Gas Absorption during Ion-Irradiation of a Polymer Target.
PB96-161864 *04,099*

POLYIMIDES
Water Adsorption at a Polyimide/Silicon Wafer Interface.
PB96-103197 *01,070*

POLYISOCYANURATE
Effect of Environmentally Exposures on the Properties of Polyisocyanurate Foam Insulation: Thermal Conductivity Measurements.
PB95-181210 *00,388*

POLYISOPRENE
SANS Studies of Space-Time Organization of Structure in Polymer Blends.
PB95-153789 *01,251*

POLYMER BLENDS
Thermodynamic Interactions in Model Polyolefin Blends Obtained by Small-Angle Neutron Scattering.
PB94-198496 *01,208*

Statistical Thermodynamics of Phase Separation and Ion Partitioning in Aqueous Two-Phase Systems.
PB94-199387 *01,212*

How Far Is Far from Critical Point in Polymer Blends. Lattice Cluster Theory Computations for Structured Monomer, Compressible Systems.
PB94-211141 *01,217*

Crossover to Strong Shear in a Low-Molecular-Weight Critical Polymer Blend.
PB94-211976 *01,222*

Effect of Cross-Links on the Miscibility of a Deuterated Polybutadiene and Protonated Polybutadiene Blend.
PB94-212438 *01,225*

Inversion of the Phase Diagram from UCST to LCST in Deuterated Polybutadiene and Protonated Polybutadiene Blends.
PB94-212446 *01,226*

Glass Temperature of Polymer Blends: Comparison of Both the Free Volume and the Entropy Predictions with Data.
PB95-140190 *01,236*

Structural Stabilization of Phase Separating PC/Polyester Blends through Interfacial Modification by Transesterification Reaction.
PB95-150454 *01,239*

Thermal Stability of Internal Electric Field and Polarization Distribution in Blend of Polyvinylidene Fluoride and Polymethylmethacrylate.
PB95-151072 *01,240*

Anisotropic Phase Separation Kinetics in a Polymer Blend Solution Following Cessation of Shear Studied by Light Scattering.
PB95-151247 *01,241*

SANS Study of the Plastic Deformation Mechanism in Polyethylene.
PB95-151841 *01,242*

Dynamic Light-Scattering Study of a Diluted Polymer Blend Near Its Critical Point.
PB95-151890 *01,245*

Thermodynamic Interactions and Correlations in Mixtures of Two Homopolymers and a Block Copolymers by Small Angle Neutron Scattering.
PB95-152872 *01,247*

SANS Studies of Space-Time Organization of Structure in Polymer Blends.
PB95-153789 *01,251*

Time-Resolved Small-Angle Neutron Scattering Study of Spinodal Decomposition in Deuterated and Protonated Polybutadiene Blends. 1. Effect of Initial Thermal Fluctuations.
PB95-161196 *01,252*

Characterization of Polyquinoline Blends Using Small Angle Scattering.
PB95-164125 *01,261*

Polymers Technical Activities 1994. NAC-NRC Assessment Panel, April 6-7, 1995.
PB95-209896 *01,275*

Modification of the Phase Stability of Polymer Blends by Diblock Copolymer Additivies.
PB96-123542 *03,172*

Slow Dynamics of Segregation in Hydrogen-Bonded Polymer Blends.
PB96-123591 *01,281*

Light-Scattering Studies on Phase Separation in a Binary Blend with Addition of Diblock Copolymers.
PB96-146865 *01,286*

Phase Separation in Thin Film Polymer Blends With and Without Block Copolymer Additives.
PB96-204482 *01,294*

Lattice Model of a Hydrogen-Bonded Polymer Blend.
PB97-112262 *03,391*

Relaxation After a Temperature Jump Within the One Phase Region of a Polymer Mixture.
PB97-112494 *03,394*

Morphology and Phase Separation Kinetics of a Compatibilized Blend.
PB97-119135 *01,297*

POLYMER BRUSH
Neutron Reflectivity Study of the Density Profile of a Model End-Grafted Polymer Brush: Influence of Solvent Quality.
PB95-202735 *01,274*

POLYMER BRUSHES
Terminally Anchored Chain Interphases: Their Chromatographic Properties.
PB95-181061 *01,272*

Terminally Anchored Chain Interphases: The Effect of Multicomponent, Polydisperse Solvents on Their Equilibrium Properties.
PB95-181079 *01,273*

POLYMER CHEMISTRY
Fluorescence Anisotropy Measurements on a Polymer Melt as a Function of Applied Shear Stress.
PB94-199296 *01,209*

Observations of Shear Induced Molecular Orientation in a Polymer Melt Using Fluorescence Anisotropy Measurements.
PB94-199304 *01,210*

Observations of Shear Stress and Molecular Orientation Using Fluorescence Anisotropy Measurements.
PB94-199312 *01,211*

POLYMER COMPOSITES
Materials Aspects of Fiber-Reinforced Polymer Composites in Infrastructure.
PB96-210695 *03,184*

POLYMER FILMS
Advances in the Measurement of Polymer CTE: Micrometer- to Atomic-Scale Measurements.
PB96-180229 *03,390*

POLYMER INTERFACE
Compatibilization of Polymer Blends by Complexation. 2. Kinetics of Interfacial Mixing.
PB97-111900 *01,295*

POLYMER MATRIX COMPOSITES
Selection of Appropriate Ultrasonic System Components for NDE of Thick Polymer-Composites.
PB94-185279 *03,133*

Review of Cure Monitoring Techniques for On-Line Process Control.
PB94-216728 *03,145*

Polymer Composites Workshop. Held in Winona, Minnesota on April 29-30, 1992 (Video).
PB94-780129 *03,147*

Appropriate Ultrasonic System Components for NDE of Thick Polymer Composites.
PB95-125696 *03,148*

Thermoacoustic Technique for Determining the Interface and/or Interply Strength in Polymeric Composites.
PB95-161824 *03,158*

Environmental Durability of Glass-Fiber Composites.
PB95-203220 *03,166*

POLYMER NETWORKS
Synthesis of Hybrid Organic-Inorganic Materials from Interpenetrating Polymer Network Chemistry.
PB96-180054 *02,994*

POLYMER PHYSICS
Book Review: Statistical Physics of Macromolecules.
PB96-123526 *01,280*

POLYMERASE CHAIN REACTION
Electrophoretic Separations of Polymerase Chain Reaction: Amplified DNA Fragments in DNA Typing Using a Capillary Electrophoresis-Lased Induced Fluorescence System.
PB95-163036 *03,536*

Enhanced Detection of PCR Products Through Use of TOTO and YOYO Intercalating Dyes with Laser Induced Fluorescence - Capillary Electrophoresis.
PB95-164653 *00,599*

POLYMERIC FILMS
Diffusion of Cations Beneath Organic Coatings on Steel Substrate.
PB94-215704 *03,119*

Grazing Incidence Prompt Gamma Emissions and Resonance-Enhanced Neutron Standing Waves in a Thin-Film.
PB95-150470 *03,892*

Gas Transport Properties of Solution-Cast Perfluorosulfonic Acid Ionomer Films Containing Ionic Surfactants.
PB95-175998 *01,267*

Thermal Conductivity of Polypyromellitimide Film with Alumina Filler Particles from 4.2 to 300 K.
PB96-200753 *01,292*

POLYMERIZATION
Fluorescence Monitoring of Polarity Change and Gelation during Epoxy Cure.
PB94-185543 *01,204*

Effect of Curing History on Ultimate Glass Transition Temperature and Network Structure of Crosslinking Polymers.
PB94-200052 *01,214*

Thermal Behavior of 4-Maleimidophenyl Glycidyl Ether Resins.
PB95-153151 *01,249*

Ring-Opening Dental Resin Systems Based on Cyclic Acetals.
PB95-162251 *00,162*

Synthesis and Polymerization of Difunctional and Multifunctional Monomers Capable of Cyclopolymerization.
PB95-163044 *01,257*

Evaluation of Methylene Lactone Monomers in Dental Resins.
PB95-164661 *00,164*

Ring-Opening Polymerication of a 2-Methylene Spiro Orthocarbonate Bearing a Pendant Methacrylate Group.
PB95-176145 *01,268*

Polymerization Initiation by N-p-Tolylglycine: Free-Radical Reactions Studied by Pulse and Steady-State Radiolysis.
PB95-180014 *01,269*

Radiochromic Solid-State Polymerization Reaction.
PB95-180683 *01,271*

POLYMERS
Weatherability of Plastic Materials.
AD-A301 675/5 *02,968*

Combustion of a Polymer (PMMA) Sphere in Microgravity.
N96-15569/2 *01,354*

In-Line Optical Monitoring of Injection Molding.
PB94-185105 *01,201*

Influence of Surface Interaction and Chain Stiffness on Polymer-Induced Entropic Forces and the Dimensions of Confined Polymers.
PB94-185469 *01,203*

Neutron Reflectivity of End-Grafted Polymers: Concentration and Solvent Quality Dependence in Equilibrium Conditions.
PB94-185758 *01,206*

Hysteresis Measurements of Remanent Polarization and Coercive Field in Polymers.
PB94-199767 *04,475*

Peeling a Polymer from a Surface or from a Line.
PB94-199809 *01,213*

Hypercubic Lattice SAW Exponents nu and gamma : 3.99 Dimensions Revisited.
PB94-211026 *01,215*

Clinical Perspective on Dentin Adhesives.
PB94-211240 *00,146*

Monitoring Polymer Cure by Fluorescence Recovery After Photobleaching.
PB94-211422 *01,218*

Polymer Liquid Crystalline Materials.
PB94-212339 *01,224*

Topological Influences on Polymer Adsorption and Desorption Dynamics.
PB94-212479 *01,227*

Effects of Molecular Weight and Thermal Stability on Polymer Gasification.
PB94-212610 *01,228*

Effects of Variable Excluded Volume on the Dimensions of Off-Lattice Polymer Chains.
PB94-212941 *01,229*

Physics Required for Prediction of Long Term Performance of Polymers and Their Composites.
PB94-219243 *03,146*

SANS and LS Studies of Polymer Mixtures Under Shear Flow.
PB95-107090 *01,231*

Response of a Terminally Anchored Polymer Chain to Simple Shear Flow.
PB95-108668 *01,233*

Glass Temperature of Polymer Blends: Comparison of Both the Free Volume and the Entropy Predictions with Data.
PB95-140190 *01,236*

Effect of Hydrodynamic Interactions on a Terminally Anchored Bead-Rod Model Chain.
PB95-141156 *01,237*

Investigation into the Flammability Properties of Honeycomb Composites.
PB95-143293 *03,152*

Effect of Electrode-Polymer Interfacial Layers on Polymer Conduction. Part 2. Device Summary.
PB95-151155 02,335

Localization of a Homopolymer Dissolved in a Lamellar Structure of a Block Copolymer Studied by Small-Angle Neutron Scattering.
PB95-161592 01,253

Elastic Scattering of Polymer Networks.
PB95-161816 01,255

Applications of Fluorescence Spectroscopy in Polymer Science and Technology.
PB95-163770 01,258

Small Angle Neutron Scattering Study on Poly(N-Isopropyl Acrylamide) Gels Near Their Volume-Phase Transition Temperature.
PB95-164380 01,263

Small-Angle Neutron Scattering Study on Weakly Charged Temperature Sensitive Polymer Gels.
PB95-164398 01,264

Competition between Hydrodynamic Screening ('Draining') and Excluded Volume Interactions in an Isolated Polymer Chain.
PB95-175402 01,265

Examination of the l/d Expansion Method from Exact Enumeration for a Self-Interacting Self-Avoiding Walk.
PB95-175733 01,266

Optical Biosensor Using a Fluorescent, Swelling Sensing Element.
PB95-175899 03,541

Neutron Scattering Study of the Orientation of a Liquid Crystalline Polymer by Shear Flow.
PB95-180196 01,270

Formation of Hydroxyapatite in a Polymeric Calcium Phosphate Cement.
PB95-180642 00,173

Terminally Anchored Chain Interphases: Their Chromatographic Properties.
PB95-181061 01,272

Terminally Anchored Chain Interphases: The Effect of Multicomponent, Polydisperse Solvents on Their Equilibrium Properties.
PB95-181079 01,273

Polymers Technical Activities 1994. NAC-NRC Assessment Panel, April 6-7, 1995.
PB95-209896 01,275

Self-Avoiding-Walk Contacts and Random-Walk Self-Intersections in Variable Dimensionality.
PB96-102231 01,276

Nonlinear Dynamics of Stiff Polymers.
PB96-122478 01,278

Polymer Combustion and Flammability: Role of the Condensed Phase.
PB96-123245 01,279

Flow-Induced Structure in Polymer. Chapter 1. An Introduction to Flow-Induced Structures in Polymers.
PB96-123369 03,387

Flow-Induced Structure in Polymers. Chapter 17. Phase-Separation Kinetics of a Polymer Blend Solution Studied by a Two-Step Shear Quench.
PB96-123377 03,388

Response to 'Draining in Dilute Polymer Solutions and Renormalization'.
PB96-146667 01,283

Orientation Effects on ESR Analysis of Alanine-Polymer Dosimeters.
PB96-146725 03,720

Thermodynamic Properties of Dilute and Semidilute Solutions of Regular Star Polymers.
PB96-146808 01,284

Preparation and Characterization of Cyclopolymerizable Resin Formulations.
PB96-146840 01,285

Influence of an Impenetrable Interface on a Polymer Glass-Transition Temperature.
PB96-146873 03,175

Shear-Induced Mixing in Polymer Blends.
PB96-148085 01,287

NIST Metrology Program on Electromagnetic Characterization of Materials.
PB96-156062 01,944

Effects of Sample Mounting on Flammability Properties of Intumescent Polymers.
PB96-159777 03,389

Hygrothermal Effects on the Performance of Polymers and Polymeric Composites: A Workshop Report. Held in Gaithersburg, Maryland on September 21-22, 1995.
PB96-183207 03,180

Polymers Technical Activities, 1995.
PB96-193719 01,291

Gas Phase Oxygen Effect on Chain Scission and Monomer Content in Bulk Poly(methyl methacrylate) Degraded by External Thermal Radiation.
PB96-204078 01,293

Swelling and Growth of Polymers, Membranes and Sponges.
PB97-118400 03,396

Materials and Fire Threat.
PB97-122311 01,442

POLYMETHYL METHACRYLATE

Combustion of a Polymer (PMMA) Sphere in Microgravity.
N96-15569/2 01,354

Grafted Interpenetrating Polymer Networks.
PB94-185055 01,200

Investigation of the Thermal Stability and Char-Forming Tendency of Cross-linked Poly(methyl methacrylate).
PB94-213501 03,380

Morphology of Symmetric Diblock Copolymers as Revealed by Neutron Reflectivity.
PB95-140075 01,234

POLYOLEFINS

Thermodynamic Interactions in Model Polyolefin Blends Obtained by Small-Angle Neutron Scattering.
PB94-198496 01,208

Thermodynamic Interactions and Correlations in Mixtures of Two Homopolymers and a Block Copolymers by Small Angle Neutron Scattering.
PB95-152872 01,247

POLYOXYETHYLENE

Determination of the Weight Average Molecular Weight of Two Poly(Ethylene Oxides), SRM 1923 and SRM 1924.
PB94-217031 01,230

Two Phase Aqueous Extraction: Rheological Properties of Dextran, Polyethylene Glycol, Bovine Serum Albumin and Their Mixtures.
PB95-161998 00,676

Phase Composition, Viscosities, and Densities for Aqueous Two-Phase Systems Composed of Polyethylene Glycol and Various Salts at 25C.
PB95-164596 00,986

POLYOXYPROPYLENE

Influence of Physical Aging on the Yield Response of Model DGEBA + Poly(propylene oxide) Epoxy Glasses.
PB95-126363 03,381

POLYPERFLUOROSULFONATE IONOMER

CO2/CH4 Transport in Polyperfluorosulfonate Ionomers: Effects of Polar Solvents on Permeation and Solubility.
PB96-163803 01,145

POLYQUINOLINES

Characterization of Polyquinoline Block Copolymer Using Small Angle Scattering.
PB95-151882 01,244

Characterization of Polyquinoline Blends Using Small Angle Scattering.
PB95-164125 01,261

POLYSTYRENE

Shear-Excited Morphological States in a Triblock Copolymer.
PB94-172392 01,196

Neutron Scattering Study of Shear Induced Turbidity in Polystyrene/Dioctyl Phthalate Solutions at High Shear Rates.
PB94-172624 01,197

Time Dependent Small Angle Neutron Scattering Behavior in Triblock Copolymers Under Steady Shear.
PB94-172632 01,198

Shear Dependence of Critical Fluctuations in Binary Polymer Mixtures by Small Angle Neutron Scattering.
PB94-211612 01,220

Small-Angle X-Ray and Neutron Scattering Study of Block Copolymer/Homopolymer Mixtures.
PB94-211729 01,221

Morphology of Symmetric Diblock Copolymers as Revealed by Neutron Reflectivity.
PB95-140075 01,234

Dynamic Light-Scattering Study of a Diluted Polymer Blend Near Its Critical Point.
PB95-151890 01,245

Neutron Scattering Study of Shear Induced Turbidity in Polystyrene Dissolved in Dioctyl Phthalate.
PB95-161865 01,256

Preparation of 2-Dimensional Ultra Thin Polystyrene Film by Water Casting Method.
PB95-162806 04,619

Partial Scattered Intensities from a Binary Suspension of Polystyrene and Silica.
PB95-175618 00,996

Dielectric Properties of Materials at Cryogenic Temperatures and Microwave Frequencies.
PB95-202610 02,369

Standard Reference Materials: Polystyrene Films for Calibrating the Wavelength Scale of Infrared Spectrophotometers - SRM 1921.
PB95-226866 03,386

Room-Temperature Thermal Conductivity of Expanded Polystyrene Board for a Standard Reference Material.
PB96-193693 00,412

POLYSULFIDES

Microbial Degradation of Polysulfides and Insights into Their Possible Occurrence in Coal.
PB95-163374 02,488

POLYTETRAFLUOROETHYLENE

45 deg/0 deg Reflectance Factors of Pressed Polytetrafluoroethylene (PTFE) Powder.
PB95-260758 04,328

POLYURETHANE FOAM

New Approach for Reducing the Toxicity of the Combustion Products from Flexible Polyurethane Foam.
PB96-123625 01,411

POLYVINYL ALCOHOL

New EPR Dosimeter Based on Polyvinylalcohol.
PB94-199700 03,619

Small-Angle Neutron Scattering of Poly(vinyl alcohol) Gels.
PB95-164117 01,260

Small Angle Neutron Scattering Studies on Chain Asymmetry of Coextruded Poly(Vinyl Alcohol) Film.
PB95-164372 01,262

POLYVINYL CHLORIDE

Polyvinyl Chloride (PVC) Plastic Drain, Waste, and Vent Pipe and Fittings.
AD-A310 426/2 00,326

POLYVINYLIDENE FLUORIDE

Thermal Pulse Study of the Polarization Distributions Produced in Polyvinylidene Fluoride by Corona Poling at Constant Current.
PB94-172293 01,195

POLYVINYLIDENE FLUORIDES

Thermal Stability of Internal Electric Field and Polarization Distribution in Blend of Polyvinylidene Fluoride and Polymethylmethacrylate.
PB95-151072 01,240

POOL BOILING

Enhancement of R123 Pool Boiling by the Addition of N-Hexane.
PB96-165956 02,605

POOL BUILDING

Calorimetric and Visual Measurements of R123 Pool Boiling on Four Enhanced Surfaces.
PB96-128129 04,053

POOL FIRES

Structure and Radiation Properties of Pool Fires.
PB94-193802 02,473

Estimate of Flame Radiance via a Single Location Measurement in Liquid Pool Flames.
PB94-211596 02,476

Measurement of Radiative Feedback to the Fuel Surface of a Pool Fire.
PB94-211604 02,477

Estimate of the Effect of Scale on Radiative Heat Loss Fraction and Combustion Efficiency.
PB95-150447 02,486

PORCELAIN

Influence of Tempering Method on Residual Stress in Dental Porcelain.
PB94-172012 00,138

Evaluation of Fracture Toughness and Residual Stress in Dental Porcelain by Indentation-Microfracture Method.
PB95-125613 00,154

Evaluation of Fracture Toughness and Residual Stress in Dental Porcelain by Indentation-Microfracture Method.
PB95-152831 00,159

PORE SIZE DISTRIBUTION

Evolution of the Pore Size Distribution in Final-Stage Sintering of Alumina Measured by Small-Angle X-ray Scattering. (Reannouncement with New Availability Information).
AD-A249 178/5 03,023

PORE STRUCTURE

Percolation and Pore Structure in Mortars and Concrete.
PB95-150439 00,370

PORE SURFACE AREA

Anisotropy of the Surfaces of Pores in Plasma Sprayed Alumina Deposits.
PB96-123211 03,126

POROSITY

Effect of Backfill and Atomizing Gas on the Powder Porosity and Mechanical Properties of 304L Stainless Steel.
PB94-185394 03,205

Imaging of Fine Porosity in a Colloidal Silica: Potassium Silicate Gel by Defocus Contrast Microscopy.
PB94-212750 03,039

Water Permeability and Chloride Ion Diffusion in Portland Cement Mortars: Relationship to Sand Content and Critical Pore Diameter.
PB96-148036 03,193

POROUS CERAMICS

Analysis of Small-Angle Scattering Data Dominated by Multiple Scattering for Systems Containing Eccentrically Shaped Particles or Pores.
PB96-160411 03,075

POROUS MATERIALS

Digitized Simulation of Mercury Intrusion Porosimetry.
PB94-172236 01,304

Analysis of SANS from Controlled Pore Glasses.
PB94-198843 03,035

Glass Transition of Organic Liquids Confined to Small Pores.
PB94-212305 00,833

Melting Behavior of Organic Materials Confined in Porous Solids.
PB94-212313 00,834

Measurements of Moisture Diffusivity for Porous Building Materials.
PB95-107397 00,356

Cross-Property Relations and Permeability Estimation in Model Porous Media.
PB95-150280 04,205

Interaction between Micro and Macroscopic Flow in RTM Preforms.
PB95-162012 *03,159*

Transport and Diffusion in Three-Dimensional Composite Media.
PB95-176129 *04,668*

Small Angle Neutron Scattering Study of the Structure and Formation of Ordered Mesopores in Silica.
PB96-111919 *03,069*

Small Angle Neutron Scattering Study of the Structure and Formation of MCM-41 Mesoporous Molecular Sieves.
PB97-122337 *03,110*

POROUS MEDIA

Characterization of Chemically Modified Pore Surfaces by Small Angle Neutron Scattering.
PB95-126181 *00,898*

Hydraulic Radius and Transport in Reconstructed Model Three-Dimensional Porous Media.
PB96-123419 *00,403*

Analysis of Transverse Flow in Aligned Fibrous Porous Media.
PB96-167200 *03,177*

PORPHYRINS

One-Electron Oxidation of Nickel Porphyrins. Effect of Structure and Medium on Formation of Nickel(III) Porphyrin or Nickel(II) Porphyrin pi-Radical Cation.
PB95-107058 *00,865*

Site of One-Electron Reduction of Ni(II) Porphyrins. Formation of Ni(I) Porphyrin of Ni(II) Porphyrin pi-Radical Anion.
PB95-107066 *00,866*

Metalloporphyrin Sensitized Photooxidation of Water to Oxygen on the Surface of Colloidal Iridium Oxides - Photochemical and Pulse Radiolytic Studies.
PB95-107082 *00,868*

PORTABLE OPERATING SYSTEM INTERFACE

National Voluntary Laboratory Accreditation Program: POSIX. Portable Operating System Interface.
PB95-189478 *02,661*

PORTABLE OPERATING SYSTEM INTERFACE FOR COMPUTING ENVIRONMENTS

Comparison of POSIX Open System Environment (OSE) and Open Distributed Processing (ODP) Reference Models.
PB96-131495 *01,820*

PORTABLE OPERATING SYSTEMS INTERFACE FOR COMPUTER ENVIRONMENTS

IEEE's POSIX: Making Progress.
PB96-160924 *01,757*

NIST POSIX Testing Program.
PB96-160973 *01,821*

PORTLAND CEMENT

Interaction between Naphthalene Sulfonate and Silica Fume in Portland Cement Pastes.
PB94-199759 *01,315*

Computer Simulation of the Diffusivity of Cement-Based Materials.
PB95-125985 *00,362*

Cement and Concrete Characterization by Scanning Electron Microscopy.
PB95-163168 *00,379*

PORTLAND CEMENT CLINKER

Quantitative Phase Abundance Analysis of Three Cement Clinker Reference Materials by Scanning Electron Microscopy.
PB94-173051 *00,333*

PORTLAND CEMENTS

Optimization of Highway Concrete Technology.
PB94-182995 *01,333*

Graphical Analysis of the CCRL Portland Cement Proficiency Sample Database (Samples 1-72). (Part 1. Univariant Analysis of Portland Cement).
PB94-196557 *01,308*

Quantitative X-Ray Powder Diffraction Methods for Clinker and Cement.
PB95-143079 *01,317*

Water Permeability and Chloride Ion Diffusion in Portland Cement Mortars: Relationship to Sand Content and Critical Pore Diameter.
PB96-148036 *03,193*

POSITION FINDING

Analytical Estimation of Carrier Multipath Bias on GPS Position Measurements.
PB94-215712 *04,845*

Three Dimensional Position Determination from Motion.
PB95-107108 *01,788*

POSITION (LOCATION)

Spatial Data Transfer Standard (SDTS). Category: Software Standard; Subcategory: Information Interchange. (FIPS PUB 173-1A).
FIPS PUB 173-1A *01,795*

Spatial Data Transfer Standard (SDTS). Category: Software Standard; Subcategory: Information Interchange. (FIPS PUB 173-1B).
FIPS PUB 173-1B *01,796*

POSITION SENSING

Image Gradient Evolution: A Visual Cue for Danger.
PB96-154562 *02,939*

POSITIONING

Microelectronic Test Structures for Overlay Metrology.
PB96-164249 *02,430*

POSITRON-ATOM COLLISIONS

Polarization of Light Emitted After Positron Impact Excitation of Alkali Atoms.
PB94-199734 *03,816*

POSITRON SOURCES

Laser-Cooled Positron Source.
PB95-169348 *03,954*

POSITRONIUM

Positronium in Relativistic Quantum Mechanics.
PB97-110571 *04,140*

POSIX (PORTABLE OPERATING SYSTEM INTERFACE)

National Voluntary Laboratory Accreditation Program: POSIX. Portable Operating System Interface.
PB95-189478 *02,661*

POSIX (PORTABLE OPERATING SYSTEM INTERFACE FOR COMPUTING ENVIRONMENTS)

Comparison of POSIX Open System Environment (OSE) and Open Distributed Processing (ODP) Reference Models.
PB96-131495 *01,820*

POSIX (PORTABLE OPERATING SYSTEMS INTERFACE FOR COMPUTER ENVIRONMENTS)

IEEE's POSIX: Making Progress.
PB96-160924 *01,757*

NIST POSIX Testing Program.
PB96-160973 *01,821*

POTASSIUM

Frozen Human Serum Reference Material for Standardization of Sodium and Potassium Measurements in Serum or Plasma by Ion-Selective Electrode Analyzers.
PB94-185337 *00,532*

Multichannel Quantum Defect Half Collision Analysis of K2 Photodissociation Through the B1Pi(sub u) State.
PB94-211125 *00,812*

POTASSIUM BARIUM BISMUTHATES

Optical Conductivity of Single Crystals of Ba1-xMxBiO3(M=K, Rb, x=0.04, 0.37).
PB94-185329 *04,447*

POTASSIUM CHLORIDE

Absolute Determination of Electrolytic Conductivity for Primary Standard KC1 Solutions from 0 to 50C.
PB94-172798 *00,765*

dc Method for the Absolute Determination of Conductivities of the Primary Standard KCl Solutions from 0C to 50C.
PB94-219342 *02,644*

POTASSIUM DIHYDROGEN PHOSPHATE

Crystal Structure of a New Monoclinic Form of Potassium Dihydrogen Phosphate Containing Orthophosphacidium Ion, (H4PO4)(sup+1).
PB96-111794 *04,725*

POTASSIUM INORGANIC COMPOUNDS

Crystal Structure of a New Monoclinic Form of Potassium Dihydrogen Phosphate Containing Orthophosphacidium Ion, (H4PO4)(sup+1).
PB96-111794 *04,725*

POTASSIUM IONS

Kinetic-Energy Distributions of K(+) in Argon and Neon in Uniform Electric Fields.
PB95-151122 *03,902*

POTASSIUM PHOSPHATES

Crystal Structure of Dicalcium Potassium Trihydrogen Bis(pyrophosphate) Trihydrate.
PB94-216561 *00,152*

POTASSIUM SILICATES

Imaging of Fine Porosity in a Colloidal Silica: Potassium Silicate Gel by Defocus Contrast Microscopy.
PB94-212750 *03,039*

POTASSIUM TANTALATE NIOBATES

Anomalous Dispersion and Thermal Expansion in Lightly-Doped KTa1-xNbxO3.
PB95-152302 *04,585*

POTASSIUM TANTALATES

Anomalous Dispersion and Thermal Expansion in Lightly-Doped KTa1-xNbxO3.
PB95-152302 *04,585*

POTENTIAL ENERGY

Equilibrium Pair Distribution Function of a Gas: Aspects Associated with the Presence of Bound States.
PB95-176046 *01,004*

POTENTIAL FUNCTIONS

Equilibrium Pair Distribution Function of a Gas: Aspects Associated with the Presence of Bound States.
PB95-176046 *01,004*

POTENTIOMETER

Enhanced Voltage-Dividing Potentiometer for High-Precision Feature Placement Metrology.
PB96-164025 *02,428*

POTENTIOMETERS

Integrated Thin-Film Micropotentiometers.
PB96-146709 *02,109*

POTENTIOMETRIC ANALYSIS

Potentiometric Enzyme-Amplified Flow Injection Analysis Detection System: Behavior of Free and Liposome-Released Peroxidase.
PB95-151833 *03,534*

POWDER METALLURGY

Effect of Backfill and Atomizing Gas on the Powder Porosity and Mechanical Properties of 304L Stainless Steel.
PB94-185394 *03,205*

POWDER METALS

Crystal Structure of a New Sodium Zinc Arsenate Phase Solved by 'Simulated Annealing'.
PB95-107124 *00,870*

Parametric Investigation of Metal Powder Atomization Using Laser Diffraction.
PB95-108577 *03,342*

POWDER (PARTICLES)

Introduction of a NIST Instrument Sensitivity Standard Reference Material for X-Ray Powder Diffraction.
PB94-200318 *00,807*

Statistical Analysis of Parameters Affecting the Measurement of Particle-Size Distribution of Silicon Nitride Powders by Sedigraph (Trade Name).
PB94-216249 *03,042*

Rapid Hot Pressing of Ultra-Fine PSZ Powders.
PB94-216587 *03,045*

Analysis of Physical Properties of Ceramic Powders in an International Interlaboratory Comparison Program.
PB95-161501 *03,050*

Effects of Soxhlet Extraction on the Surface Oxide Layer of Silicon Nitride Powders.
PB95-175584 *03,057*

45 deg/0 deg Reflectance Factors of Pressed Polytetrafluoroethylene (PTFE) Powder.
PB95-260758 *04,328*

Ceramic Powders Characterization: Results of an International Laboratory Study.
PB95-270039 *02,672*

POWDERS

X-ray Powder Diffraction from Carbon Nanotubes and Nanoparticles.
PB96-102975 *03,064*

POWDERS (PARTICLES)

Surface Chemistry of Silicon Nitride Powder in the Presence of Dissolved Ions.
PB96-111760 *01,073*

Electroacoustic Characterization of Particle Size and Zeta Potential in Moderately Concentrated Suspensions.
PB96-119425 *01,079*

POWER

Power Characteristics in GMAW: Experimental and Numerical Investigation.
PB96-190145 *03,296*

DC-MHz Wattmeter Based on RMS Voltage Measurements.
PB97-113211 *01,992*

POWER AMPLIFIERS

100 Ampere, 100 kHZ Transconductance Amplifier.
PB96-102629 *02,068*

100 A, 100 kHz Transconductance Amplifier.
PB96-200936 *02,098*

POWER MEASUREMENT

NIST Model PM2 Power Measurement System for 1 mW at 1 GHz.
PB94-135803 *02,018*

Coaxial Reference Standard for Microwave Power.
PB94-193786 *01,880*

New Coaxial Microwave Microcalorimeter Evaluation Technique.
PB95-153227 *01,892*

Method to Determine the Calorimetric Equivalence Correction for a Coaxial Microwave Microcalorimeter.
PB95-202404 *01,913*

Developing a NIST Coaxial Microwave Power Standard at 1 mW.
PB95-202412 *01,914*

Direct Comparison Transfer of Microwave Power Sensor Calibrations.
PB96-158654 *02,086*

Calibration Service for Coaxial Reference Standards for Microwave Power.
PB96-162722 *01,958*

Ultrasound Power Measurement Techniques at NIST.
PB96-179569 *02,684*

POWER METERS

Proposed High-Accuracy Superconducting Power Meter for Millimeter Waves.
PB94-212669 *02,034*

Optical Power Meter Calibration Using Tunable Laser Diodes.
PB95-169256 *04,290*

Optical Detector Nonlinearity: A Comparison of Five Methods.
PB95-169355 *04,291*

Optical Detector Nonlinearity: Simulation.
PB96-165378 *02,199*

POWER OSCILLATOR

Surface Transverse Wave Oscillators with Extremely Low Thermal Noise Floors.
PB96-186010 *01,967*

POWER REFERENCE SOURCES

NIST Power Reference Source.
PB94-211513 *00,148*

PRASEODYMIUM
Magnetic Structure and Spin Dynamics of the Pr and Cu in Pr2CuO4.
PB96-111836 *04,036*

PRASEODYMIUM BARIUM COPPER NIOBATES
Crystal Structure and Magnetic Ordering of the Rare-Earth and Cu Moments in RBa2Cu2NbO8(R=Nd,Pr).
PB95-140554 *04,546*

PRASEODYMIUM BARIUM CUPRATES
Magnetic Ordering of the Cu Spins in PrBa2Cu3O6+x.
PB95-140547 *04,545*

PRASEODYMIUM CERIUM CUPRATES
Phonon Density of States in R2CuO4 and Superconducting R1.85Ce0.15CuO4 (R = Nd, Pr).
PB95-150686 *04,574*

Magnetic Susceptibility of Pr2-xCexCuO4 Monocrystals and Polycrystals.
PB95-180253 *04,677*

PRASEODYMIUM CUPRATES
Dispersions of Magnetic Excitations of the Pr Ions in Pr2CuO4.
PB94-173044 *04,444*

Phonon Density of States in R2CuO4 and Superconducting R1.85Ce0.15CuO4 (R = Nd, Pr).
PB95-150686 *04,574*

PRASEODYMIUM GALLATES
Suitability of Metalorganic Chemical Vapor Deposition-Derived PrGaO3 Films as Buffer Layers for YBa2Cu3O7-x Pulsed Laser Deposition.
PB95-168670 *04,640*

PRE-MAIN SEQUENCE STARS
High Sensitivity Survey of Radio Continuum Emission in Herbig Ae/Be Stars.
PB94-185915 *00,051*

PRECAST CONCRETE
Model Precast Concrete Beam-to-Column Connections Subject to Cyclic Loading.
PB95-153094 *00,438*

Partially Prestressed and Debonded Precast Concrete Beam-Column Joints.
PB95-153102 *00,439*

Seismic Performance Behavior of Precast Concrete Beam-Column Joints.
PB95-153110 *00,440*

Performance of 1/3-Scale Model Precast Concrete Beam-Column Connections Subjected to Cyclic Inelastic Loads. Report No. 4.
PB95-179024 *00,444*

Simplified Design Procedure for Hybrid Precast Concrete Connections.
PB96-154836 *00,405*

PRECIPITATION (CHEMISTRY)
Study of the Hydroxycarbonate Precursor Route to the YBa2Cu3O7-x High Tc Superconductor.
PB95-140471 *04,540*

Membrane-Mediated Precipitation of Calcium Phosphate in Model Liposomes with Matrix Vesicle-Like Lipid Composition.
PB95-164547 *03,468*

Dynamics of Calcium Phosphate Precipitation.
PB96-147095 *03,574*

PRECIPITATION HARDENING
Effects of Spindle Dynamic Characteristics on Hard Turning.
PB96-122981 *02,699*

PRECISION
Critical Issues in Scanning Electron Microscope Metrology.
PB95-169405 *02,359*

Japan Technology Program Assessment: Precision Engineering/Precision Optics in Japan.
PB95-171112 *02,884*

Precision in Machining: Research Challenges.
PB95-242301 *02,953*

Integrated Inspection System for Improved Machine Performance.
PB96-160569 *02,959*

New Concepts of Precision Dimensional Measurement for Modern Manufacturing.
PB96-160684 *02,924*

Scanning Electron Microscope Metrology.
PB96-201090 *02,446*

PRECOOLING
Helium Refrigeration and Liquefaction Using a Liquid Hydrogen Refrigerator for Precooling.
AD-A286 683/8 *02,749*

PRECURSORS
Study of the Hydroxycarbonate Precursor Route to the YBa2Cu3O7-x High Tc Superconductor.
PB95-140471 *04,540*

Diamond and Graphite Precursors: Comments.
PB95-163051 *00,967*

PREDICATE LOGIC
Predicate Differences and the Analysis of Dependencies in Formal Specifications.
PB96-160940 *01,759*

Technique for Analyzing the Effects of Changes in Formal Specifications.
PB96-160957 *01,760*

PREDICTIONS
Prediction of Cracking in Reinforced Concrete Structures.
PB95-220448 *03,725*

PREFABRICATED BUILDINGS
Wind Load Provisions of the Manufactured Home Construction and Safety Standards: A Review and Recommendations for Improvement.
PB94-206125 *00,428*

Manufactured Homes: Probability of Failure and the Need for Better Windstorm Protection through Improved Anchoring Systems.
PB95-143129 *00,432*

Manufactured Housing Walls That Provide Satisfactory Moisture Performance in All Climates.
PB95-178885 *00,383*

Recommended Performance-Based Criteria for the Design of Manufactured Home Foundation Systems to Resist Wind and Seismic Loads.
PB96-128285 *00,460*

Mathematical Analysis of Practices to Control Moisture in the Roof Cavities of Manufactured Houses.
PB97-106843 *00,278*

PREFERRED CIRCUITS
Handbook Preferred Circuits Navy Aeronautical Electronic Equipment. Supplement Number 3.
AD-A278 782/8 *00,026*

Handbook Preferred Circuits Navy Aeronautical Electronic Equipment. Supplement Number 2.
AD-A278 783/6 *00,027*

Handbook Preferred Circuits Navy Aeronautical Electronic Equipment. Supplement Number 1.
AD-A278 784/4 *00,028*

PREFORMS
Interaction between Micro and Macroscopic Flow in RTM Preforms.
PB95-162012 *03,159*

PREISACH MODEL
Experimental Verification of a Vector Preisach Model.
PB95-163564 *04,626*

PRESENT WORTH
Present Worth Factors for Life-Cycle Cost Studies in the Department of Defense (1995).
PB95-105029 *03,664*

PRESSES
Equipment for Investigation of Cryogenic Compaction of Nanosize Silicon Nitride Powders. 1993 Report.
DE94013593 *03,028*

PRESSURE
Pressure Dependencies of Standard Resistors.
PB95-153516 *02,257*

Intercomparison between NPL (India) and NIST (USA) Pressure Standards in the Hydraulic Pressure Region Up to 26 MPa.
PB96-113543 *04,211*

PRESSURE BROADENING
Memory Function Approach to the Shape of Pressure Broadened Molecular Bands.
PB95-152930 *00,944*

PRESSURE CALIBRATION SERVICE
NIST Measurement Services: NIST Pressure Calibration Service.
PB94-164043 *02,892*

PRESSURE CONTACTS
High Current Pressure Contacts to Ag Pads on Thin Film Superconductors.
PB95-168621 *04,639*

PRESSURE DEPENDENCE
Pressure Equations in Zone-Fire Modeling.
PB96-102967 *00,208*

PRESSURE GAGES
Intercomparison of the Effective Areas of a Pneumatic Piston Gauge Determined by Different Techniques.
PB94-212370 *02,640*

Operational Mode and Gas Species Effects on Rotational Drag in Pneumatic Dead Weight Pressure Gages.
PB95-140182 *00,903*

PRESSURE GRADIENTS
Characteristics of Turbulence in a Boundary Layer with Zero Pressure Gradient.
AD-A278 249/8 *04,192*

Single-Phase Heat Transfer and Pressure Drop Characteristics of an Integral-Spine-Fin Within an Annulus.
PB94-194073 *03,805*

Heat Transfer in Thin, Compact Heat Exchangers with Circular, Rectangular, or Pin-Fin Flow Passages.
PB95-140943 *02,751*

Single-Phase Heat Transfer and Pressure Drop Characteristics of an Integral-Spine Fin Within an Annulus.
PB97-122386 *04,179*

PRESSURE MEASUREMENT
NIST Measurement Services: NIST Pressure Calibration Service.
PB94-164043 *02,892*

Measurement of CO Pressures in the Ultrahigh Vacuum Regime Using Resonance-Enhanced Multiphoton-Ionization Time-of-Flight Mass Spectroscopy.
PB94-216041 *03,864*

Look at Uncertainties over Twenty Decades of Pressure Measurement.
PB95-168506 *02,655*

PC-Based Spinning Rotor Gage Controller.
PB95-175832 *02,609*

Laser Photoionization Measurements of Pressure in Vacuum.
PB95-180600 *03,964*

Measurement of Very-Low Partial Pressures.
PB95-180998 *02,659*

Process Monitoring with Residual Gas Analyzers (RGAs): Limiting Factors.
PB95-181004 *02,660*

Executive Summary: Proceedings of the Workshop on the Measurement of Transient Pressure and Temperature.
PB96-160841 *02,679*

PRESSURE VAPOR TEMPERATURE
Virial Coefficients of Five Binary Mixtures of Fluorinated Methanes and Ethanes.
PB96-156054 *01,128*

PRESTRESSING
Partially Prestressed and Debonded Precast Concrete Beam-Column Joints.
PB95-153102 *00,439*

Seismic Performance Behavior of Precast Concrete Beam-Column Joints.
PB95-153110 *00,440*

PRETREATMENTS
Effects of Aluminum Oxalate/Glycine Pretreatment Solutions on Dentin Permeability.
PB95-164505 *03,565*

PRICES
Energy Prices and Discount Factors for Life-Cycle Cost Analysis 1994. Annual Supplement to NIST Handbook 135 and NBS Special Publication 709.
PB94-206018 *02,508*

Energy Price Indices and Discount Factors for Life-Cycle Cost Analysis 1995. Annual Supplement to NIST Handbook 135 and NBS Special Publication 709. (Revised).
PB95-105011 *02,509*

Energy Price Indices and Discount Factors for Life-Cycle Cost Analysis 1996. Annual Supplement to NIST Handbook 135 and NBS Special Publication 709. (Revised).
PB96-162441 *02,510*

Energy Price Indices and Discount Factors for Life-Cycle Cost Analysis 1997. Annual Supplement to NIST Handbook 135 and NBS Special Publication 709. (Revised).
PB96-210745 *02,512*

PRIMARY STANDARDS
NIST Measurement Services: NIST Pressure Calibration Service.
PB94-164043 *02,892*

Absolute Determination of Electrolytic Conductivity for Primary Standard KC1 Solutions from 0 to 50C.
PB94-172798 *00,765*

Automated, High-Precision Coulometric Titrimetry. Part 1. Engineering and Implementation.
PB95-150199 *00,575*

NIST-7, the New US Primary Frequency Standard.
PB95-153458 *01,534*

Error Analysis of the NIST Optically Pumped Primary Frequency Standard.
PB95-153482 *01,535*

Design Challenges in a Commercial Quantum Hall Effect-Based Resistance Standard.
PB95-171419 *02,263*

PRINCIPAL ANGLE
High-Accuracy Principal-Angle Scanning Spectroscopic Ellipsometry of Semiconductor Interfaces.
PB96-163787 *02,427*

PRINCIPAL COMPONENTS ANALYSIS
Representing a Large Collection of Curves: A Case for Principal Points.
PB95-152286 *03,438*

PRINCIPAL POINTS
Two Principal Points of Symmetric, Strongly Unimodal Distributions.
PB95-203360 *03,443*

Principal Points and Self-Consistent Points of Symmetric Multivariate Distributions.
PB96-135090 *03,446*

PRINTED CIRCUIT BOARDS
Microwave Characterization of Printed Circuit Transmission Lines.
PB96-122585 *02,077*

PRIVACY
Optical Performance of Commercial Windows.
PB95-208757 *00,392*

PROBABILISTIC ESTIMATION
Probabilistic Estimates of Design Load Factors for Wind-Sensitive Structures Using the 'Peaks Over Threshold' Approach.
PB96-183223 *00,474*

PROBABILITY DENSITY FUNCTIONS
Tomographic Reconstruction of the Moments of Local Probability Density Functions in Turbulent Flow Fields.
PB96-180195 *04,219*

PROBABILITY DISTRIBUTION FUNCTIONS
Fluctuations in Probability Distribution on Chaotic Attractors.
PB96-102330 *04,022*

PROBABILITY THEORY
Three-Axis Coil Probe Dimensions and Uncertainties during Measurement of Magnetic Fields from Appliances.
PB94-219359 *01,885*

Bounds on Frequency Response Estimates Derived from Uncertain Step Response Data.
PB96-122874 *03,419*

PROBE-POSITION ERRORS
Comparison of k-Correction and Taylor-Series Correction for Probe-Position Errors in Planar Near-Field Scanning.
PB96-147137 *02,012*

PROBE TIP CALIBRATION
Verification of Commercial Probe-Tip Calibrations.
PB95-161576 *02,347*

Calibrating On-Wafer Probes to the Probe Tips.
PB95-163945 *02,352*

LRM Probe-Tip Calibrations with Imperfect Resistors and Lossy Lines.
PB95-163952 *02,353*

Compensation for Substrate Permittivity in Probe-Tip Calibration.
PB95-203519 *01,915*

LRM Probe-Tip Calibrations Using Nonideal Standards.
PB96-135389 *02,411*

PROBES
Measurement of the Thermal Properties of Electrically Conducting Fluids Using Coated Transient Hot Wires.
DE94017816 *00,722*

User's Guide to NIST SRM 2084: CMM Probe Performance Standard.
PB94-206109 *02,709*

Two New Probes for a Coordinate Measuring Machine.
PB95-163093 *02,653*

PROBES (ELECTROMAGNETIC)
Standard Probes for Electromagnetic Field Measurements.
PB94-185436 *01,999*

Optically Sensed EM-Field Probes for Pulsed Fields.
PB94-212594 *02,130*

General Order 'N' Analytic Correction of Probe-Position Errors in Planar Near-Field Measurements.
PB96-200688 *01,562*

PROCEEDINGS
Proceedings of the Annual Manufacturing Technology Conference (2nd): Toward a Common Agenda. Held in Gaithersburg, Maryland on April 18-20, 1995.
PB96-112693 *02,887*

PROCESS CONTROL
NIST Support to the Next Generation Controller Program: 1991 Final Technical Report.
PB94-163490 *02,808*

Intelligent Processing of Materials, Technical Activities 1993 (NAS-NRC Assessment Panel, April 21-22, 1994).
PB94-164183 *02,809*

Intelligent Processing of Materials.
PB94-172780 *02,811*

Intelligent Processing of Hot Isostatic Pressing.
PB94-172913 *03,315*

Integration of Real-Time Process Planning for Small-Batch Flexible Manufacturing.
PB95-151908 *02,822*

Development of Adaptive Control Strategies for Inert Gas Atomization.
PB95-162335 *02,823*

Process Modeling and Control of Inert Gas Atomization.
PB95-162343 *02,824*

Analysis of Autocorrelations in Dynamic Processes.
PB95-181228 *02,826*

Machine Performance Standard Provides Opportunity to Improve Quality and Productivity.
PB96-154521 *02,837*

Unified Process Specification Language: Requirements for Modeling Process.
PB97-116123 *02,850*

PROCESS CONTROL (INDUSTRY)
Review of Cure Monitoring Techniques for On-Line Process Control.
PB94-216728 *03,145*

PROCESS MODELS
Product Realization Process Modeling: A Study of Requirements, Methods and Research Issues.
PB96-147962 *02,836*

PROCESSES
State-of-the-Art Survey of Methodologies for Representing Manufacturing Process Capabilities.
PB94-187655 *02,812*

PROCESSING & PERFORMANCE OF MATERIALS
Reference Tables for Thermocouples.
AD-A279 948/4 *02,614*

Low-Temperature Performance of Radiosonde Electric Hygrometer Elements.
AD-A295 319/8 *00,121*

Electromechanical properties of superconductors for DOE fusion applications.
DE95015476 *04,432*

VAMAS interlaboratory comparisons of critical current vs. strain in Nb(sub 3)Sn.
DE95016656 *04,433*

Transverse stress effect on the critical current of internal tin and bronze process Nb(sub 3)Sn superconductors.
DE95016659 *04,434*

Measurement Methods and Standards for Processing and Application of Thermal Barrier Coatings.
N95-26123/6 *01,447*

Report on the Workshop on Manufacturing Polymer Composites by Liquid Molding. Held in Gaithersburg, Maryland on September 20-22, 1993.
PB94-160066 *03,131*

Cylinder Wipe Air-Drying Intaglio Ink Vehicles for U.S. Currency Inks.
PB94-160801 *03,115*

Electrodeposition.
PB94-172517 *00,760*

Intelligent Processing of Materials.
PB94-172780 *02,811*

Thermophysical Property Data for Supercritical Fluid Extraction Design.
PB94-199221 *00,668*

Stability, Microstructural Evolution, Grain Growth, and Coarsening in a Two-Dimensional Two-Phase Microstructure.
PB94-199429 *03,325*

Hot-Deformation Apparatus for Thermomechanical Processing Simulation.
PB94-200136 *03,207*

Effects of Crystalline Anisotropy and Buoyancy-Driven Convection on Morphological Stability.
PB94-200441 *03,328*

Status of Electrocomposites.
PB94-212453 *03,143*

Coating of Fibers by Colloidal Techniques in Ceramic Composites.
PB94-216256 *03,196*

Rapid Hot Pressing of Ultra-Fine PSZ Powders.
PB94-216587 *03,045*

Optimization of Inert Gas Atomization.
PB95-107405 *01,377*

Parametric Investigation of Metal Powder Atomization Using Laser Diffraction.
PB95-108577 *03,342*

Effect of Heterogeneous Porous Media on Mold Filling in Resin Transfer Molding.
PB95-108676 *03,197*

Novel Polydiacetylenes Derived from Liquid Crystalline Monomers.
PB95-140125 *01,235*

New Materials, Advanced Ceramics and Standards.
PB95-140208 *03,047*

Nondestructive Evaluation and Materials Processing.
PB95-140455 *02,902*

Study of the Hydroxycarbonate Precursor Route to the YBa2Cu3O7-x High Tc Superconductor.
PB95-140471 *04,540*

Influence of Deposition Parameters on Properties of Laser Ablated YBa2Cu3O7-Delta Films.
PB95-140539 *04,544*

UV-Photopatterning of Alkylthiolate Monolayers Self-Assembled on Gold and Silver.
PB95-150751 *00,924*

Regimes of Surface Roughness Measurable with Light Scattering.
PB95-151213 *04,265*

Investigation into a Practical Grain Growth Model for Hot Isostatic Pressing.
PB95-151684 *03,347*

Deposit Forming Tendencies of Diesel Engine Oils-Correlation between the Two-Peak Method and Engine Tests.
PB95-152138 *01,452*

Ultrasonic Method for Reconstructing the Two-Dimensional Liquid-Solid Interface in Solidifying Bodies.
PB95-161782 *03,349*

Process Modeling and Control of Inert Gas Atomization.
PB95-162343 *02,824*

Fabrication of Flaw-Tolerant Aluminum-Titanate-Reinforced Alumina.
PB95-162533 *03,161*

Through-the-Arc Sensing for Real-Time Measurement of Gas Metal Arc Weld Quality.
PB95-162871 *02,863*

In-Space Welding: Visions and Realities.
PB95-163234 *04,830*

Polyelectrolytes as Dispersants in Colloidal Processing of Silicon Nitride Ceramics.
PB95-175568 *03,055*

Process Monitoring with Residual Gas Analyzers (RGAs): Limiting Factors.
PB95-181004 *02,660*

Novel YBa2Cu3O7-x and YBa2Cu3O7-x/Y4Ba3O9 Multilayer Films by Bias-Masked 'On-Axis' Magnetron Sputtering.
PB95-181186 *04,690*

IIW Commission V Quality Control and Quality Assurance of Welded Products Annual Report 1994/95.
PB95-198743 *02,866*

Structural Ceramics Database. Topical Report, June 1989-May 1991.
PB95-203758 *03,060*

Determination of the Residual Stresses Near the Ends of Skip Welds Using Neutron Diffraction and X-ray Diffraction Procedures.
PB95-253589 *02,868*

Simulation of C60 Through the Plastic Transition Temperatures.
PB96-102546 *04,713*

Electronics Packaging Materials Research at NIST.
PB96-122692 *02,405*

Radiance Temperatures (in the Wavelength Range 523-907 nm) of Group IVB Transition Metals Titanium, Zirconium, and Hafnium at Their Melting Points by a Pulse-Heating Technique.
PB96-135025 *02,677*

High-Temperature Furnace for In situ Small-Angle Neutron Scattering during Ceramic Processing.
PB96-148127 *03,743*

Hygrothermal Effects on the Performance of Polymers and Polymeric Composites: A Workshop Report. Held in Gaithersburg, Maryland on September 21-22, 1995.
PB96-183207 *03,180*

Mapping the Droplet Transfer Modes for an ER100S-1 GMAW Electrode.
PB96-190095 *03,295*

Kinetic-Energy-Enhanced Neutral Etching.
PB96-200613 *00,665*

Need for Advanced Characterization Techniques in Product Manufacturing: A Case Study on Ceramic Matrix Composites.
PB96-204060 *03,089*

Data Management for Error Compensation and Process Control.
PB97-110480 *02,847*

Characterization and Processing of Spray-Dried Zirconia Powders for Plasma Spray Application.
PB97-111231 *04,419*

Vitrification and Crystallization of Organic Liquids Confined to Nanoscale Pores.
PB97-112304 *03,392*

In situ Characterization of Vapor Phase Growth of Iron Oxide-Silica Nanocomposites: Part 1. 2-D Planar Laser-Induced Fluorescence and Mie Imaging.
PB97-112478 *03,185*

In-situ Studies of a Novel Sodium Flame Process for Synthesis of Fine Particles.
PB97-113047 *00,681*

Segmental Concentration Profiles of End-Tethered Polymers with Excluded-Volume and Surface Interactions.
PB97-119002 *00,654*

PROCUREMENT
Videoconferencing Procurement and Usage Guide.
PB94-217023 *01,470*

Asynchronous Transfer Mode Procurement and Usage Guide.
PB95-174967 *01,481*

Federal Implementation Guideline for Electronic Data Interchange. ASC X12 003050 Transaction Set 850 Award Instrument. Implementation Convention.
PB96-114913 *01,814*

Federal Implementation Guideline for Electronic Data Interchange. ASC X12 003050 Transaction Set 860 Modifications to Award Instrument. Implementation Convention.
PB96-114921 *01,815*

Federal Implementation Guideline for Electronic Data Interchange. ASC X12 003050 Transaction Set 843 Response to Request for Quotation. Implementation Convention.
PB96-168984 *01,822*

Federal Implementation Guideline for Electronic Data Interchange. ASC X12 003050 Transaction Set 855 Purchase Order Acknowledgment: Implementation Convention.
PB96-172374 *01,823*

Federal Implementaion Guideline for Eletronic Data Interchange. ASC X12 003050 Transaction Set 865 Purchase Order Change Acknowledgement/Request - Seller Initiated. Implementation Convention.
PB96-172549 *01,825*

PRODUCT DATA EXCHANGE SPECIFICATIONS
Capabilities for Product Data Exchange.
PB97-118764 *02,798*

PRODUCT DATA EXCHANGE USING STEP
Summary and Notes of the Joint ISO/IGES/PDES Organization Technical Committee Meeting. Held in Albuquerque, New Mexico on October 15-20, 1989.
PB95-107314 *02,774*

PRODUCT DEVELOPMENT
Models, Managing Models, Quality Models: An Example of Quality Management.
PB94-163466 *02,891*

Formulation of Position on U.S. Standards Role in Enterprise Integration.
PB95-105052 *02,773*

Proceedings Report of the International Invitation Workshop on Development Assurance. Held in Ellicott City, Maryland on June 16-17, 1994.
PB95-189494 *02,912*

Product Models and Virtual Prototypes in Mechanical Engineering.
PB95-253563 *02,783*

Product Realization Process Modeling: A Study of Requirements, Methods and Research Issues.
PB96-147962 *02,836*

Improving the Design Process by Predicting Downstream Values of Design Attributes.
PB97-113096 *02,795*

PRODUCT INSPECTION

Directory of U.S. Private Sector Product Certification Programs.
PB96-215074 *02,688*

PRODUCT MODELS

Procedure for Product Data Exchange Using STEP Developed in the AutoSTEP Pilot.
PB96-183058 *02,843*

PRODUCTION ENGINEERING

Design Engineering Research at NIST.
PB95-267860 *02,784*

PRODUCTION MANAGEMENT

Production Management Information Model for Discrete Manufacturing.
PB96-112008 *02,830*

Roadmap for the Computer Integrated Manufacturing (CIM) Application Framework.
PB96-122759 *02,832*

Conformance Testing and Specification Management.
PB97-113781 *02,849*

PROFICIENCY TESTING

Proficiency Testing as a Component of Quality Assurance in Construction Materials Laboratories.
PB94-185774 *00,334*

PROFICIENCY TESTS

Proficiency Tests for the NIST Airborne Asbestos Program, 1990.
PB94-188836 *00,535*

Proficiency Tests for the NIST Airborne Asbestos Program - 1991.
PB94-193828 *00,537*

Proficiency Tests for the NIST Airborne Asbestos Program - 1992.
PB94-194362 *00,539*

Proficiency Tests for the NIST Airborne Asbestos Program, 1993.
PB96-106463 *00,610*

PROFILE

Stylus Flight in Surface Profiling.
PB96-123138 *02,675*

PROFILES

Thermal Pulse Study of the Polarization Distributions Produced in Polyvinylidene Fluoride by Corona Poling at Constant Current.
PB94-172293 *01,195*

PROFILOMETERS

Ultrasonic Measurements of Surface Roughness.
PB94-172137 *04,181*

Measuring Matching Wear Scars on Balls and Flats.
PB95-151528 *03,153*

PROGRAM SLICING

Software Safety and Program Slicing.
PB95-125894 *01,703*

Unravel: A CASE Tool to Assist Evaluation of High Integrity Software. Volume 1. Requirements and Design.
PB95-267886 *01,736*

Unravel: A CASE Tool to Assist Evaluation of High Integrity Software. Volume 2. User Manual.
PB95-267894 *01,737*

Slicing in the Presence of Parameter Aliasing.
PB96-160858 *01,755*

Assessing Functional Diversity by Program Slicing.
PB96-160890 *03,734*

Program Slicing.
PB96-160981 *01,761*

PROGRAMMING ENVIRONMENTS

SQL Environments. Category: Software Standard; Subcategory: Database.
FIPS PUB 193 *01,801*

Introduction to the P1003.1g and CPI-C Network Application Programming Interfaces.
PB95-231726 *01,731*

PROGRAMMING LANGUAGES

COBOL. Category: Software Standard; Subcategory: Programming Language. Includes ANSI'S X3.23-1985, X3.23A-1989 and X3.23B-1993.
FIPS PUB 21-4 *01,670*

COBOL. Category: Software Standard; Subcategory: Programming Language. Part A.
FIPS PUB 21-4A *01,671*

COBOL. Category: Software Standard; Subcategory: Programming Language. Part B.
FIPS PUB 21-4B *01,672*

Dynamic Objects and Meta-Level Programming of an EXPRESS Language Environment.
PB96-190053 *01,774*

PROGRAMMING MANUALS

DETAN 95: Computer Code for Calculating Spectrum-Averaged Cross Sections and Detector Responses in Neutron Spectra.
PB95-242384 *04,014*

PROJECT MANAGEMENT

Framework for the Development and Assurance of High Integrity Software.
PB95-173084 *01,716*

PROMETHIUM

Hyperfine Structure Investigations and Identification of New Energy Levels in the Ionic Spectrum of (147)Pm.
PB96-180203 *04,117*

PROMPT GAMMA RADIATION

Grazing Incidence Prompt Gamma Emissions and Resonance-Enhanced Neutron Standing Waves in a Thin-Film.
PB95-150470 *03,892*

PROPANE

Critical Properties and Vapor-Liquid Equilibria of the Binary System Propane + Neopentane.
PB95-175683 *00,999*

PROPANES

Vapor-Liquid Equilibria of Mixtures of Propane and Isomeric Hexanes.
PB95-175287 *00,995*

Viscosity of 1,1,1,2,3,3-Hexafluoropropane and 1,1,1,3,3,3-Hexafluoropropane at Saturated-Liquid Conditions from 262 K to 353 K.
PB96-176680 *03,292*

PROPELLANTS

Thermal Decomposition Pathways in Nitramine Propellants.
AD-A295 896/5 *03,753*

PROPER NAMES

Prototype Information Retrieval System to Perform a Best-Match Search for Names.
PB95-181152 *02,740*

PROPERTIES

Metallurgy Technical Activities 1994 (NAS-NRC Assessment Panel, April 6-7, 1995).
PB96-136981 *02,981*

Guide to a Format for Data on Chemical Admixtures in a Materials Property Database.
PB96-165394 *01,327*

Guide to a Format for Data on Chemical Admixtures in a Materials Property Database. (Reannouncement with new abstract).
PB96-186192 *01,328*

PROPERTIES OF MATERIALS: ELECTRONIC/MAGNETIC/OPTICAL

Magnetic Characteristics and Measurements of Filamentary Nb-Ti Wire for the Superconducting Super Collider.
DE94005988 *03,775*

Filter Transmittance Measurements in the Infrared.
PB94-140589 *04,224*

Alternating-Field Susceptometry and Magnetic Susceptibility of Supercondoctors. Presented at Office of Naval Research Workshop on Magnetic Susceptibility of Superconductors and Other Spin Systems. Held in Berkeley Springs, West Virginia on 20 May 1991.
PB94-145984 *04,435*

Photonic Materials: A Report on the Results of a Workshop. Held in Gaithersburg, Maryland on August 26-27, 1992, Volume 1.
PB94-152733 *02,114*

Monte Carlo and Mean-Field Calculations of the Magnetocaloric Effect of Ferromagnetically Interacting Clusters.

2nu9 Band of Propyne-d3.
PB95-164513 *00,985*

Sub-Doppler, Infrared Laser Spectroscopy of the Propyne 2nu1 Band: Evidence of z-Axis Coriolis Dominated Intramolecular State Mixing in the Acetylenic CH Stretch Overtone.
PB95-202941 *01,037*

PROPYNE COMPLEXES

Infrared and Microwave Spectroscopy of the Argon - Propyne Dimer.
PB94-198892 *00,794*

PROSTHESIS FAILURE

Physicochemical Properties of Calcific Deposits Isolated from Porcine Bioprosthetic Heart Valves Removed from Patients Following 2-13 Years Function.
PB94-172863 *00,184*

PROTECTION

Using Technology to Manage and Protect Intellectual Property.
PB97-112395 *01,513*

PROTECTIVE COATINGS

Sorption of Moisture on Epoxy and Alkyd Free Films and Coated Steel Panels.
PB95-162475 *03,192*

PROTECTIVE EQUIPMENT

Evaluating Investments in Law Enforcement Equipment: An Annotated Bibliography.
PB95-151379 *04,867*

PROTECTIVE EYEWEAR

Optical Density Measurements of Laser Eye Protection Materials.
PB96-190301 *00,190*

PROTEIN EXPRESSION

Mapping Domains in Proteins: Dissection and Expression of 'Escherichia coli' Adenylyl Cyclase.
PB96-155460 *03,478*

PROTEIN MUTANTS

Escherichis coli Cyclic AMP Receptor Protein Mutants Provide Evidence for Ligand Contacts Important in Activation.
PB96-201017 *03,592*

PROTEINS

Salt-PEG Two-Phase Aqueous Systems to Purify Proteins and Nucleic Acid Mixtures.
PB94-200375 *03,527*

Determination of Osmotic Pressure and Fouling Resistances and Their Effects on Performance of Ultrafiltration Membranes.
PB94-212891 *00,841*

Characterization of the Adsorption-Fouling Layer Using Globular Proteins on Ultrafiltration Membranes.
PB94-212909 *00,842*

Energy Transduction between a Concentration Gradient and an Alternating Electric Field.
PB94-216363 *03,461*

Preparation of Immobilized Proteins Covalently Coupled Through Silane Coupling Agents to Inorganic Supports.
PB95-151403 *03,530*

Enzyme and Protein Mass Transfer Coefficient in Aqueous Two Phase Systems. 1. Spray Extraction Columns.
PB95-161162 *00,594*

Continuous Counter-Current Two Phase Aqueous Extraction.
PB95-161212 *00,675*

Protein Extraction in a Spray Column Using a Polyethylene Glycol Maltodextrin Two-Phase Polymer System.
PB95-162228 *00,595*

Non-Perturbative Relation between the Mutual Diffusion Coefficient, Suspension Viscosity, and Osmotic Compressibility: Application to Concentrated Protein Solutions.
PB96-102355 *01,062*

Determination of Total Protein Adsorbed on Solid (Membrane) Surface by a Hydrolysis Technique: Single Protein Adsorption.
PB96-167093 *03,552*

Protein Data Bank: Current Status and Future Challenges.
PB97-109060 *00,517*

PROTEOGLYCANS

Proteoglycan Inhibition of Calcium Phosphate Precipitation in Liposomal Suspensions.
PB94-211208 *00,658*

PROTHESIS

Physicochemical Characterization of Natural and Bioprosthetic Heart Valve Calcific Deposits: Implications for Prevention.
PB96-156039 *00,187*

PROTOCOLS

Conformance Assessment of Transport Layer Security Implementations.
PB94-164373 *01,576*

RDI-SIM ECMA Inter-Domain Routing Protocol Simulation Tool.
PB94-172301 *01,683*

Conformance Testing of a Lower Layer Security Protocol.
PB94-185402 *01,577*

Scientific Protocols in Statistical Standards for Environmental Studies.
PB94-185527 *02,517*

ISDN Conformance Testing Guidelines: Guidelines for Implementors of ISDN Customer Premises Equipment to Conform to Both National ISDN-1 and North American ISDN Users' Forum Layer 3 Basic Rate Interface Basic Call Control Abstract Test Suites.
PB94-219094 *01,471*

Comparing Remote Procedure Calls: Open Network Computing, Distributed Computing Environment and International Organization for Standardization.
PB95-194205 *01,724*

Conformance Testing for OSI Protocols.
PB96-102686 *01,631*

Lessons from the Establishment of the U.S. GOSIP Testing Program.
PB96-119359 *01,817*

Open Issues in OSI Protocol Development and Conformance Testing.
PB96-122908 *01,818*

X Window System, Version 11, Release 5.
PB96-169099 *01,769*

Strategy to Support Multipoint Communication Service Over Native ATM Service.
PB96-176672 *01,507*

PROTON ACCELERATORS

Investigation of Applicability of Alanine and Radiochromic Detectors to Dosimetry of Proton Clinical Beams.
PB96-146782 *03,636*

PROTON AFFINITY

Proton Affinity Ladders from Variable-Temperature Equilibrium Measurements. 1. A Re-Evaluation of the Upper Proton Affinity Range.
PB94-216603 *00,861*

PROTON DOSIMETRY

Electron and Proton Dosimetry with Custom-Developed Radiochromic Dye Films.
PB95-151106 *03,713*

PROTON IMAGING

NMR Characterization of Injection-Moulded Alumina Green Compacts. Part 2. T2-Weighted Proton Imaging.
PB96-201181 *01,165*

PROTON TRANSPORT

Proton Affinity Ladders from Variable-Temperature Equilibrium Measurements. 1. A Re-Evaluation of the Upper Proton Affinity Range.
PB94-216603 *00,861*

PROTONS

Polarizability of the Nucleon.
PB94-211760 *03,846*

Bacteriorhodopsin Retains Its Light-Induced Proton-Pumping Function After Being Heated to 140C.
PB96-102728 *03,471*

PROTOTYPES

Draft Guidelines for Pre-Qualification and Prototype Testing of Seismic Isolation Systems.
PB94-161940 *01,331*

Product Models and Virtual Prototypes in Mechanical Engineering.
PB95-253563 *02,783*

Overview of the Manufacturing Engineering Toolkit Prototype.
PB96-128228 *02,833*

PROTOZOAN DNA

beta-D-Glucosyl-Hydroxymethyluracil: A Novel Modified Base Present in the DNA of the Parastic Protozoan T. brucei.
PB94-172319 *03,524*

PSES (PROJECT SUPPORT ENVIRONMENTS)

Next Generation Computer Resources: Reference Model for Project Support Environments (Version 2.0).
PB94-143401 *01,677*

PSEUDOMONAS FLUORESCENS

Characterization of the Binding of Gallium, Platinum, and Uranium to Pseudomonas Fluorescens by Small-Angle X-ray Scattering and Transmission Electron Microscopy.
PB94-172509 *03,453*

L-threo-beta-Hydroxyhistidine, an Unprecedented Iron(III) Ion-Binding Amino Acid in a Pyoverdine-type Siderophore from Pseudomonas fluorescens 244.
PB94-211620 *00,553*

PSN (PUBLIC SWITCHED NETWORK)

Telecommunications Security Guidelines for Telecommunications Management Network. Computer Security.
PB96-139415 *01,496*

PSYCHOLOGICAL EFFECTS

Psychological Aspects of Lighting: A Review of the Work of CIE TC 3.16.
PB94-172160 *00,241*

Psychological Aspects of Lighting: A Review of the Work of CIE TC 3.16.
PB95-153276 *00,254*

PUBLIC BUILDINGS

Administration Standard for the Telecommunications Infrastructure of Federal Buildings. Category: Telecommunications Standard; Subcategory: Telecommunications Administration.
FIPS PUB 187 *01,461*

Federal Building Grounding and Bonding Requirements for Telecommunications. Category: Telecommunications Standard; Subcategory: Grounding and Bonding.
FIPS PUB 195 *01,802*

Implementation of Executive Order 12699: Seismic Safety of Federal and Federally Assisted or Regulated New Building Construction.
PB95-151809 *00,436*

PUBLIC DOMAIN

Obtaining and Installing a Public Domain TEX.
PB95-175741 *01,719*

PUBLIC KEY CERTIFICATES

Public Key Infrastructure Invitational Workshop. Held in McLean, Virginia on September 28, 1995.
PB96-166004 *01,616*

PUBLIC POLICIES

Learning to Change: Opportunities to Improve the Performance of Smaller Manufacturers.
PB94-166212 *00,010*

PUBLIC POLICY

Information Infrastructure: Reaching Society's Goals. A Report of the Information Infrastructure Task Force Committee on Applications and Technology.
ED-376 823 *00,131*

PUBLIC-PRIVATE PARTNERSHIPS

Montgomery Education Connection and Resource Education Awareness Partnership Making Connections between Local Schools and NIST Volunteers.
PB96-159769 *00,134*

PUBLIC SWITCHED NETWORK

Telecommunications Security Guidelines for Telecommunications Management Network. Computer Security.
PB96-139415 *01,496*

PUBLIC WORKS

National Construction Sector Goals: Industry Strategies for Implementation.
PB95-269817 *00,204*

PUBLISHING

CALS-Markup Requirements and Generic Style Specifications for Electronic Printed Output and Exchange of Text.
PB94-962200 *03,659*

CALS-Markup Requirements and Generic Style Specifications for Electronic Printed Output and Exchange of Text.
PB95-962200 *03,668*

PULL-OUT TEST

Interface Properties for Ceramic Composites from a Single Fiber Pull-Out Test.
PB94-199361 *03,135*

PULSE-ECHO ULTRASONIC EVALUATION

Pulse-Echo Ultrasonic Evaluation of the Integrity of Seams of Single-Ply Roof Membranes.
PB95-163804 *00,381*

PULSE GENERATORS

Aging, Warm-Up Time and Retrace; Important Characteristics of Standard Frequency Generators.
PB96-103122 *04,031*

PULSE HEATING

Dynamic Measurements of Thermophysical Properties of Metals and Alloys at High Temperatures by Subsecond Pulse Heating Techniques.
N94-25124/6 *03,309*

Millisecond-Resolution Pulse Heating System for Specific-Heat Measurements at High Temperatures.
PB94-199999 *02,635*

Measurement of the Heat of Fusion of Tungsten by a Microsecond-Resolution Transient Technique.
PB94-216686 *03,400*

Radiance Temperatures (in the Wavelength Range 523-907 nm) of Group IV B Transition Metals Titanium, Zirconium, and Hafnium at Their Melting Points by a Pulse-Heating Technique.
PB96-102207 *03,356*

Radiance Temperatures (in the Wavelength Range 523-907 nm) of Group IVB Transition Metals Titanium, Zirconium, and Hafnium at Their Melting Points by a Pulse-Heating Technique.
PB96-135025 *02,677*

PULSE PILEUP

Dead Time, Pileup, and Accurate Gamma-Ray Spectrometry.
PB96-167101 *00,697*

PULSE RADIOLYSIS

Fluoride Elimination Upon Reaction of Pentafluoroaniline with e (sub eq')(sup -), H, and OH Radicals in Aqueous Solution.
PB97-111314 *01,177*

PULSE SYNCHRONIZATION

Laser-Synchrotron Hybrid Experiments: A Photon to Tickle, A Photon to Poke.
PB96-157847 *03,704*

PULSE TRANSFORMERS

Electrical Breakdown in Transformer Oil in Large Gaps.
PB95-150579 *01,889*

PULSE TUBE REFRIGERATORS

Graded and Nongraded Regenerator Performance.
PB95-169090 *02,753*

PULSED GAS METAL ARC WELDING

Through-the-Arc Sensing for Monitoring Arc Welding.
PB94-185899 *02,858*

PULSED LASER DEPOSITION

Coexistence of Grains with Differing Orthorhombicity in High Quality YBa2Cu3O7-delta Thin Films.
PB96-135033 *04,742*

PULSES

Comment and Discussion on Digital Processing of PD Pulses.
PB96-122775 *01,932*

Radiation-Chemical Reaction of 2,3,5-Triphenyl-Tetrazolium Chloride in Liquid and Solid State.
PB96-146733 *01,124*

PUNCTURE RESISTANCE

Study to Determine the Most Important Parameters for Evaluating the Resistance of Soft Body Armor to Penetration by Edged Weapons.
PB94-158573 *03,757*

PURIFICATION

Salt-PEG Two-Phase Aqueous Systems to Purify Proteins and Nucleic Acid Mixtures.
PB94-200375 *03,527*

Critical Evaluation of the Purification of Biominerals by Hypochlorite Treatment.
PB95-150959 *00,186*

High-Performance Liquid Chromatography of Phytoplankton Pigments Using a Polymeric Reversed-Phase C18 Column.
PB95-151130 *00,583*

Protein Extraction in a Spray Column Using a Polyethylene Glycol Maltodextrin Two-Phase Polymer System.
PB95-162228 *00,595*

All-Metal Collection System for Preparative-Scale Gas Chromatography: Purification of Low-Boiling-Point Compounds.
PB96-123435 *00,619*

PURPLE MEMBRANES

Optical Properties of Triton X-100-Treated Purple Membranes Embedded in Gelatin Films.
PB96-123500 *03,546*

PVDF TRANSDUCERS

Design, Construction and Application of a Large Aperture Lens-Less Line-Focus PVDF Transducer.
PB97-122584 *02,765*

PVM (PARALLEL VIRTUAL MACHINE)

Performance Characteristics of Fast Elliptic Solvers on Parallel Platforms.
PB95-180832 *01,723*

PYCNOMETERS

Application of the Electronic Balance in High Precision Pycnometry.
PB94-187564 *00,534*

PYROELECTRIC DETECTORS

Electrically Calibrated Pyroelectric Detector-Refinements for Improved Optical Power Measurements.
PB95-169066 *02,164*

PYROELECTRICITY
Piezoelectric and Pyroelectric Polymers.
PB95-153367 *01,250*

PYROLYSIS
Thermal Decomposition of Hydroxy- and Methoxy-Substituted Anisoles.
PB94-173036 *00,767*

Behavior of Charring Materials in Simulated Fire Environments.
PB94-196045 *01,368*

Upward Flame Spread along the Vertical Corner Walls (October 1993).
PB94-206299 *00,340*

PYROMELLITIC DIANHYDRIDE
Effects of Surface-Active Resins on Dentin/Composite Bonds.
PB95-140448 *00,156*

PYROMETERS
Corrected Optical Pyrometer Readings.
AD-A279 949/2 *02,615*

High-Speed Spatial Scanning Pyrometer.
PB94-200003 *02,636*

PYROMETRY
National Measurement System for Radiometry, Photometry, and Pyrometry Base Upon Absolute Detectors.
PB97-108559 *04,382*

Issues in High-Speed Pyrometry.
PB97-118368 *02,693*

PYROPHOSPHATES
Selective Inhibition of Crystal Growth on Octacalcium Phosphate and Nonstoichiometric Hydroxyapatite by Pyrophosphate at Physiological Concentration.
PB94-211257 *00,147*

Crystal Structure of Dicalcium Potassium Trihydrogen Bis(pyrophosphate) Trihydrate.
PB94-216561 *00,152*

Crystal Structure of Decacalcium Tetrapotassium Hexakis (Pyrophosphate) Nonahydrate.
PB96-141064 *01,099*

PYRUVATES
Equilibrium and Calorimetric Investigation of the Hydrolysis of L-Tryptophan to (Indole + Pyruvate + Ammonia).
PB95-163317 *00,661*

PZT
Microstructure and Ferroelectric Properties of Lead Zirconate-Titanate Films Produced by Laser Evaporation.
PB94-199148 *04,470*

QUADRATIC PROGRAMMING
Interior-Point Method for Linear and Quadratic Programming Problems. (NIST Reprint).
PB95-180089 *03,429*

QUADRATIC RESPONSE
Quadratic Response of a Chemical Reaction to External Oscillations.
PB96-161633 *01,138*

QUALITY
Models, Managing Models, Quality Models: An Example of Quality Management.
PB94-163466 *02,891*

QUALITY ASSURANCE
Proficiency Testing as a Component of Quality Assurance in Construction Materials Laboratories.

QUARTZ RESONATORS
Ultralinear Small-Angle Phase Modulator.
PB95-168852 *02,261*

Relationship of AM to PM Noise in Selected RF Oscillators.
PB95-169009 *02,262*

New Model of 1/F Noise in Baw Quartz Resonators.
PB96-112248 *02,383*

Quest to Understand and Reduce I/f Noise in Amplifiers and Baw Quartz Oscillators.
PB96-200795 *02,097*

QUASARS
Discovery of an X-Ray Selected, Radio-Loud Quasar at z=3.9.
PB94-198652 *00,052*

Observations of 3C 273 with the Goddard High Resolution Spectrograph on the Hubble Space Telescope.
PB95-202321 *00,076*

QUASICRYSTALS
RDFs and Fe-Fe Pair Correlations in an AlCuFe Icosahedral Alloy by Double Isotopic Substitution.
PB94-172129 *04,439*

Neutron Scattering Structural Study of AlCuFe Quasicrystals Using Double Isotopic Substitution.
PB94-200458 *04,485*

Inelastic Neutron Scattering Measurements of Phonons in Icosahedral Al-Li-Cu.
PB95-126215 *04,532*

QUASIELASTIC COMPONENT
Unconventional Ferromagnetic Transition in La(sub 1-x)Ca(sub x)MnO3.
PB97-112429 *04,156*

QUATERNARY AMMONIUM SALTS
Use of Kinetic Energy Distributions to Determine the Relative Contributions of Gas Phase and Surface Fragmentation in KeV Ion Sputtering of a Quaternary Ammonium Salt.
PB95-126108 *00,570*

QUENCHING (COOLING)
Hot-Deformation Apparatus for Thermomechanical Processing Simulation.
PB94-200136 *03,207*

QUERY LANGUAGES
Object SQL: Language Extensions for Object Data Management.
PB95-125902 *01,704*

Coping with Different Retrieval Methods in Next Generation Networks.
PB95-168555 *02,726*

QUINUCLIDINYL BENZILATE
Determination of 3-Quinuclidinyl Benzilate (Qnb) and Its Major Metabolites in Urine by Isotope Dilution Gas Chromatography Mass Spectrometry.
PB94-199379 *03,492*

R-123 REFRIGERANT
Enhancement of R123 Pool Boiling by the Addition of N-Hexane.
PB96-165956 *02,605*

R 22
Role of R22 in Refrigerating and Air Conditioning Equipment.
PB94-199783 *03,253*

R-CURVES
Flat and Rising R-Curves for Elliptical Surface Cracks from Indentation and Superposed Flexure.
PB95-161295 *03,156*

R123
Criteria for Establishing Accurate Vapor Pressure Curves.
PB95-163812 *00,972*

R124
Viscosity of the Saturated Liquid Phase of Six Halogenated Compounds and Three Mixtures.
PB95-162368 *00,960*

R125
Viscosity of the Saturated Liquid Phase of Six Halogenated Compounds and Three Mixtures.
PB95-162368 *00,960*

R134A
Equation of State Formulation of the Thermodynamic Properties of R134a (1,1,1,2-Tetrafluoroethane).
PB94-212081 *03,256*

Thermal Conductivity of R134a.
PB94-213063 *03,857*

Polarized Transient Hot Wire Thermal Conductivity Measurements.
PB95-108817 *00,886*

Viscosity of the Saturated Liquid Phase of Six Halogenated Compounds and Three Mixtures.
PB95-162368 *00,960*

Criteria for Establishing Accurate Vapor Pressure Curves.
PB95-163812 *00,972*

Thermodynamic Properties of R134a(1,1,1,2-Tetrafluoroethane).
PB95-168704 *00,988*

Measurements of Molar Heat Capacity at Constant Volume (Cv) for 1,1,1,2-Tetrafluoroethane (R134a).
PB95-168878 *03,264*

Vapour Pressure Measurements on 1,1,1,2-Tetrafluoroethane (R134a) from 180 to 350 K.
PB95-168886 *03,265*

Measurement of the Thermal Properties of Electrically Conducting Fluids Using Coated Transient Hot Wires.
PB95-169058 *03,269*

Predictive Extended Corresponding States Model for Pure and Mixed Refrigerants Including an Equation of State for R134a.
PB95-175717 *03,275*

R142B
Polarized Transient Hot Wire Thermal Conductivity Measurements.
PB95-108817 *00,886*

R236EA
Dielectric Studies of Fluids with Reentrant Resonators.
PB95-153730 *00,952*

R32
Ebulliometric Measurement of the Vapor Pressure of Difluoromethane.
PB95-151361 *00,931*

Viscosity of the Saturated Liquid Phase of Six Halogenated Compounds and Three Mixtures.
PB95-162368 *00,960*

RADAR CROSS SECTIONS
RangeCAD and the NIST RCS Uncertainty Analysis.
PB94-218591 *01,870*

Proposed Analysis of RCS Measurement Uncertainty.
PB95-203568 *01,871*

Polarimetric Calibration of Reciprocal-Antenna Radars.
PB95-216925 *01,872*

Accurate Computations of Radar Cross Sections of Simple Objects.
PB96-138474 *04,426*

Polarimetric Calibration of Reciprocal-Antenna Radars.
PB96-200696 *02,016*

RADAR POLARIMETRY
Polarimetric Calibration of Reciprocal-Antenna Radars.
PB95-216925 *01,872*

RADIANCE
Improved Automated Current Control for Standard Lamps.
PB94-219367 *00,246*

Intercomparison of the ITS-90 Radiance Temperature Scales of the National Physical Laboratory (U.K.) and the National Institute of Standards and Technology.
PB96-113550 *02,674*

RADIANCE TEMPERATURES
Radiance Temperatures (in the Wavelength Range 523-907 nm) of Group IVB Transition Metals Titanium, Zirconium, and Hafnium at Their Melting Points by a Pulse-Heating Technique.
PB96-135025 *02,677*

Radiance Temperatures at 1500 nm of Niobium and Molybdenum at Their Melting Points by a Pulse-Heating Technique.
PB97-118699 *04,167*

RADIANT COOLING
Analytical Method of Determining the Heat Capacity at High Temperatures from the Surface Temperature of a Cooling Sphere.
PB94-216124 *03,865*

RADIANT HEATING
Water Droplet Evaporation from Radiantly Heated Solids.
PB95-217147 *00,394*

RADIATION
Protection Against Neutron Radiation Up to 30 Million Electron Volts.
AD-A286 681/2 *03,611*

RADIATION ACCIDENTS
Radiation Accident at an Industrial Accelerator Facility.
PB95-140117 *02,575*

RADIATION ATTENUATION
X-ray Attenuation Coefficients from 10 Kev to 100 Mev.
AD-A278 139/1 *03,765*

RADIATION COUNTERS
Self-Biasing Cryogenic Particle Detector Utilizing Electrothermal Feedback and a SQUID Readout.
PB96-102538 *04,712*

RADIATION DAMAGE
Irradiation Damage in Inorganic Insulation Materials for ITER Magnets: A Review.
PB95-147351 *03,705*

Quantitative Determination of Oxidative Base Damage in DNA by Stable Isotope-Dilution Mass Spectrometry.
PB96-200886 *03,483*

Colour Centres in LiF for Measurement of Absorbed Doses Up to 100 MGy.
PB97-118756 *04,169*

RADIATION DETECTION
Unique Quality Assurance Aspects of INAA for Reference Material Homogeneity and Certification.
PB96-200811 *00,699*

RADIATION DETECTORS
Thermal and Nonequilibrium Responses of Superconductors for Radiation Detectors.
PB95-164232 *02,156*

RADIATION DOSAGE
Report of the International Commission on Radiological Units and Measurements (ICRU), 1956.
AD-A279 120/0 *03,513*

Radiation Doses.
PB94-199676 *03,618*

National Quality Assurance Program for Personnel Radiation Dosimetry: A Case History.
PB94-211273 *03,620*

Updated Calculations for Routine Space-Shielding Radiation Dose Estimates: SHIELDOSE-2.
PB95-171039 *04,838*

Food Irradiation Dosimetry.
PB95-180675 *00,041*

RADIATION DOSES
Journal of Research of the National Institute of Standards and Technology. March/April 1994. Volume 99, Number 2.
PB94-219219 *02,000*

Sealed Water Calorimeter for Measuring Absorbed Dose.
PB94-219227 *03,517*

Extrapolation Chamber Measurements on (90)Sr + (90)Y Beta-Particle Ophthalmic Applicator Dose Rates.
PB95-153375 *03,626*

Crystal Structure of Annealed and As-Prepared HgBa2CaCu2O6+delta Superconductors.
PB95-161105 *03,927*

Measurement of Radial Dose Distributions Around Small Beta Particle Emitters Using High Resolution Radiochromic Foil Dosimetry.
PB95-164604 *03,518*

Comparison of NIST and Manufacturer Calibrations of (90)Sr+(90)Y Ophthalmic Applicators.
PB96-123708 *03,634*

RADIATION EFFECTS
Increased Pinning Energies and Critical Current Densities in Heavy-Ion-Irradiated Bi2Sr2CaCu2O8 Single Crystals.
PB95-175352 *04,654*

Decrease of Fluorescence in Optical Fiber during Exposure to Pulsed or Continuous-Wave Ultraviolet Light.
PB95-203071 *04,320*

RADIATION HAZARDS
Electron transport calculations with biomedical and environmental applications. Final report, December 23, 1992--January 31, 1994.
DE95007065 *03,613*

RADIATION INJURIES
Radiation Accident at an Industrial Accelerator Facility.
PB95-140117 *02,575*

RADIATION MEASUREMENT
Review of the USCEA/NIST Measurement Assurance Program for the Nuclear Power Industry.
PB95-126272 *03,712*

USCEA/NIST Measurement Assurance Programs for the Radiopharmaceutical and Nuclear Power Industries.
PB97-110514 *03,721*

RADIATION MEASURING INSTRUMENTS
Report of the International Commission on Radiological Units and Measurements (ICRU), 1956.
AD-A279 120/0 *03,513*

RADIATION MONITORS
Dosimetry Systems for Radiation Processing.
PB96-135280 *03,717*

RADIATION PROCESSING
ESR-Based Analysis in Radiation Processing.
PB95-161634 *03,931*

RADIATION PROTECTION
X-ray Protection.
AD-A279 132/5 *03,605*

X-ray Protection Design.
AD-A279 181/2 *03,606*

Protection Against Radiations from Radium, Cobalt-60, and Cesium-137.
AD-A279 261/2 *03,607*

Maximum Permissible Body Burdens and Maximum Permissible Concentrations of Radionuclides in Air and in Water for Occupational Exposure.
AD-A280 282/5 *03,610*

Protection Against Neutron Radiation Up to 30 Million Electron Volts.
AD-A286 681/2 *03,611*

RADIATION PYROMETERS
Radiance Temperature (in the Wavelength Range 519-906 nm) of Tungsten at Its Melting Point by a Pulse-Heating Technique.
PB94-172590 *03,397*

RADIATION REACTIONS
Point Charges, Radiation Reaction, and Quantum Mechanics.
PB97-110563 *04,139*

RADIATION SCATTERING
Characterization of the Binding of Gallium, Platinum, and Uranium to Pseudomonas Fluorescens by Small-Angle X-ray Scattering and Transmission Electron Microscopy.
PB94-172509 *03,453*

RADIATION SHIELDING
New Method for Shielding Electron Beams Used for Head and Neck Cancer Treatment.
PB94-211430 *03,621*

RADIATION SOURCES
Precision High Temperature Blackbodies.
PB95-140059 *03,885*

RADIATION THERAPY
DNA Base Damage in Lymphocytes of Cancer Patients Undergoing Radiation Therapy.
PB97-122444 *03,643*

RADIATION TOLERANCE
Ionizing Radiation Causes Greater DNA Base Damage in Radiation-Sensitive Mutant M10 Cells That in Parent Mouse Lymphoma L5178Y Cells.
PB95-175915 *03,632*

RADIATION TRANSPORT
Electron transport calculations with biomedical and environmental applications. Final report, December 23, 1992--January 31, 1994.
DE95007065 *03,613*

RADIATIVE HEAT TRANSFER
Structure and Radiation Properties of Pool Fires.
PB94-193802 *02,473*

Investigation of Oil and Gas Well Fires and Flares.
PB94-193976 *03,695*

Estimate of Flame Radiance via a Single Location Measurement in Liquid Pool Flames.
PB94-211596 *02,476*

Measurement of Radiative Feedback to the Fuel Surface of a Pool Fire.
PB94-211604 *02,477*

Computing Radiative Heat Transfer Occurring in a Zone Fire Model.
PB96-102306 *01,399*

Flame Heights and Heat Release Rates of 1991 Kuwait Oil Field Fires.
PB96-119342 *01,404*

RADIATIVE TRANSFER
Opacity Project and the Practical Utilization of Atomic Data.
PB94-212214 *00,059*

Stars, Atmospheres, Radiative Transfer.
PB96-119474 *00,095*

Relationship between Radiative and Magnetic Fluxes for Three Active Solar-Type Dwarfs.
PB96-119540 *00,097*

RADIATORS
Screened-Room Measurements on the NIST Spherical-Dipole Standard Radiator.
PB96-113568 *01,926*

RADICALS
Solvent Effects in the Reactions of Peroxyl Radicals with Organic Reductants. Evidence for Proton Transfer Mediated Electron Transfer.
PB95-107157 *00,873*

Temperature Dependence of the Rate Constants for Reaction of Dihalide and Azide Radicals with Inorganic Reductants.
PB95-162756 *00,964*

RADIO EMISSION
Optically Linked Three-Loop Antenna System for Determining the Radiation Characteristics of an Electrically Small Source.
PB95-161915 *02,005*

Search for Radio Emission from the 'Non-Magnetic' Chemically Peculiar Stars.
PB96-102249 *00,087*

RADIO EQUIPMENT
Rechargeable Batteries for Personal/Portable.
PB96-164231 *02,459*

RADIO FREQUENCIES
Low-Frequency Model for Radio-Frequency Absorbers.
PB95-261939 *04,424*

RADIO FREQUENCY DETECTION
Quantum-Limited Cooling and Detection of Radio-Frequency Oscillations by Laser-Cooled Ions.
PB96-112073 *04,039*

RADIO FREQUENCY DISCHARGE
Gaseous Electronics Conference Radio-Frequency Reference Cell: A Defined Parallel-Plate Radio-Frequency System for Experimental and Theoretical Studies of Plasma-Processing Discharges.
PB94-172327 *04,404*

Plasma Chemistry in Disilane Discharges.
PB94-211075 *02,514*

Kinetic-Energy Distributions of Ions Sampled from Argon Plasmas in a Parallel-Plate, Radio-Frequency Reference Call.
PB95-161964 *03,935*

Electrical Characterization of Radio-Frequency Discharges in the Gaseous Electronics Conference Reference Call.
PB95-164612 *01,905*

Effect of Electrode Material on Measured Ion Energy Distributions in Radio-Frequency Discharges.
PB96-102850 *04,026*

Evidence for Inelastic Processes for N(+)3 and N(+)4 from Ion Energy Distributions in He/N2 Radio Frequency Glow Discharges.
PB96-146683 *04,059*

RADIO FREQUENCY DISCHARGES
Influence of Electrode Material on Measured Ion Kinetic-Energy Distributions in Radio-Frequency Discharges.
PB96-123179 *01,935*

Optical and Mass Spectrometric Investigations of Ions and Neutral Species in SF6 Radio-Frequency Discharges.
PB97-111918 *01,985*

RADIO SOURCES (ASTRONOMY)
Rotational Modulation and Flares on RS Canum Venaticorum and BY Draconis Stars. XVIII. Coordinated VLA, ROSAT, and IUE Observations of RS CVn Binaries.
PB96-102322 *00,089*

Developments in Stellar Coronae.
PB96-176706 *00,107*

RADIO STARS
Class of Radio-Emitting Magnetic B Stars and a Wind-Fed Magnetosphere Model.
PB94-213451 *00,067*

Radio Emission from Chemically Peculiar Stars.
PB94-213469 *00,068*

RADIO WAVES
Ionospheric Radio Propagation.
AD-A286 619/2 *01,459*

RADIOACTIVE AIR POLLUTANTS
Maximum Permissible Amounts of Radioisotopes in the Human Body and Maximum Permissible Concentrations in Air and Water.
AD-A280 281/7 *03,609*

Maximum Permissible Body Burdens and Maximum Permissible Concentrations of Radionuclides in Air and in Water for Occupational Exposure.
AD-A280 282/5 *03,610*

RADIOACTIVE WASTE DISPOSAL
Expansion of Cementitious Materials Exposed to Sulfate Solutions.
PB94-185782 *02,577*

4SIGHT Manual: A Computer Program for Modelling Degradation of Underground Low Level Waste Concrete Vaults.
PB95-231593 *03,726*

Long-Term Performance of Engineered Concrete Barriers.
PB95-260816 *03,727*

RADIOACTIVE WASTE STORAGE
Information Retrieval Using Key Words and a Structured Review.
PB95-161121 *03,724*

RADIOACTIVE WATER POLLUTANTS
Maximum Permissible Amounts of Radioisotopes in the Human Body and Maximum Permissible Concentrations in Air and Water.
AD-A280 281/7 *03,609*

Maximum Permissible Body Burdens and Maximum Permissible Concentrations of Radionuclides in Air and in Water for Occupational Exposure.
AD-A280 282/5 *03,610*

RADIOACTIVITY
Summary of the Proceedings of the Workshop on Standard Phantoms for In-vivo Radioactivity Measurement.
PB94-212933 *03,622*

Dose Mapping of Radioactive Hot Particles Using Radiochromic Film.
PB95-162954 *03,714*

NBS/NIST Peltier-Effect Microcalorimeter: A Four-Decade Review.
PB96-102769 *01,064*

RADIOASSAY
Intercomparison Study of (237)Np Determination in Artificial Urine Samples.
PB96-102645 *03,633*

RADIOASSAYS
Radioassays of Yttrium-90 Used in Nuclear Medicine.
PB97-110100 *03,522*

RADIOCHROMIC DOSIMETERS
Electron and Proton Dosimetry with Custom-Developed Radiochromic Dye Films.
PB95-151106 *03,713*

Alcohol Solutions of Triphenyl-Tetrazolium Chloride as High-Dose Radiochromic Dosimeters.
PB96-135249 *03,716*

RADIOCHROMIC DYES
Electron and Proton Dosimetry with Custom-Developed Radiochromic Dye Films.
PB95-151106 *03,713*

RADIOCHROMIC FILMS
Use of a Radiochromic Detector for the Determination of Stereotactic Radiosurgery Dose Characteristics.
PB94-185642 *03,514*

Radiochromic Solid-State Polymerization Reaction.
PB95-180683 *01,271*

Effect of Formulation Changes on the Response to Ionizing Radiation of Radiochromic Dye Films.
PB97-119028 *04,171*

Novel Radiochromic Films for Clinical Dosimetry.
PB97-119259 *03,641*

Calibration and Performance of GafChromic DM-100 Radiochromic Dosemeters.
PB97-119291 *00,703*

RADIOCHROMIC FOILS
Measurement of Radial Dose Distributions Around Small Beta Particle Emitters Using High Resolution Radiochromic Foil Dosimetry.
PB95-164604 *03,518*

RADIOFREQUENCIES
Electrical Sensors for Monitoring rf Plasma Sheaths.
PB95-162962 *04,412*

RADIOFREQUENCY CHARGES
Ion Kinetic-Energy Distributions and Balmer-alpha (Halpha) Excitation in Ar-H2 Radio-Frequency Discharges.
PB96-102959 *04,029*

RADIOFREQUENCY DISCHARGES
Time-Resolved Balmer-Alpha Emission from Fast Hydrogen Atoms in Low Pressure, Radio-Frequency Discharges in Hydrogen.
PB96-102942 *04,028*

RADIOFREQUENCY OSCILLATORS
Relationship of AM to PM Noise in Selected RF Oscillators.
PB95-169009 *02,262*

RADIOIMMUNOASSAY
Supercritical Fluid Extraction-Immunoassay for the Rapid Screening of Cocaine in Hair.
PB96-167168 *00,637*

RADIOISOTOPES
Maximum Permissible Amounts of Radioisotopes in the Human Body and Maximum Permissible Concentrations in Air and Water.
AD-A280 281/7 *03,609*

Maximum Permissible Body Burdens and Maximum Permissible Concentrations of Radionuclides in Air and in Water for Occupational Exposure.
AD-A280 282/5 *03,610*

System for Intercomparing Standard Solutions of Beta-Particle Emitting Radionuclides.
PB96-159637 *03,707*

New and Revised Half-Life Measurement Results.
PB96-160346 *00,695*

RADIOLOGY
Report of the International Commission on Radiological Units and Measurements (ICRU), 1956.
AD-A279 120/0 *03,513*

Noninvasive High-Voltage Measurement in Mammography by Crystal Diffraction Spectroscopy.
PB95-153417 *00,160*

RADIOLYSIS
Radiation Chemistry of Cyanine Dyes: Oxidation and Reduction of Merocyanine 540.
PB94-211661 *00,818*

Site of One-Electron Reduction of Ni(II) Porphyrins. Formation of Ni(I) Porphyrin of Ni(II) Porphyrin pi-Radical Anion.
PB95-107066 *00,866*

Solvent Effects in the Reactions of Peroxyl Radicals with Organic Reductants. Evidence for Proton Transfer Mediated Electron Transfer.
PB95-107157 *00,873*

Unusual Spin-Trap Chemistry for the Reaction of Hydroxyl Radical with the Carcinogen N-Nitrosodimethylamine.
PB95-151643 *00,692*

Temperature Dependence of the Rate Constants for Reaction of Dihalide and Azide Radicals with Inorganic Reductants.
PB95-162756 *00,964*

Iodine Atoms and Iodomethane Radical Cations: Their Formation in the Pulse Radiolysis of Iodomethane in Organic Solvents, Their Complexes, and Their Reactivity with Organic Reductants.
PB95-162764 *00,965*

Radiation-Chemical Reaction of 2,3,5-Triphenyl-Tetrazolium Chloride in Liquid and Solid State.
PB96-146733 *01,124*

One-Electron Oxidation of Metalloporphycenes as Studied by Radiolytic Methods.
PB97-111967 *01,179*

RADIOMETERS

Dual Frequency mm-Wave Radiometer Antenna for Airborne Remote Sensing of Atmosphere and Ocean.
PB95-180378 *02,006*

Thermal Modeling of Absolute Cryogenic Radiometers.
PB95-181236 *04,316*

Relative Accuracy of Isolated and Unisolated Noise Comparison Radiometers.
PB96-111851 *01,924*

Dual-Frequency Millimeter-Wave Radiometer Antenna for Airborne Remote Sensing of Atmosphere and Ocean.
PB96-112289 *02,009*

Radiometer Equation for Noise Comparison Radiometers.
PB96-140363 *02,195*

Single-Port Technique for Adaptor Efficiency Evaluation.
PB96-176441 *02,088*

Organization and Implementation of Calibration in the EOS Project. Part 1.
PB96-179437 *04,841*

National Measurement System for Radiometry, Photometry, and Pyrometry Base Upon Absolute Detectors.
PB97-108559 *04,382*

Calibration in the Earth Observing System (EOS) Project. Part 2. Implementation.
PB97-112213 *04,842*

Comparison of Filter Radiometer Spectral Responsivity with the NIST Spectral-Irradiance and Illuminance Scales.
PB97-113161 *04,162*

RADIOMETRIC CORRECTION

Radiometric Model of the Transmission Cell-Reciprocal Nephelometer.
PB95-150132 *00,124*

RADIOMETRIC PHYSICS DIVISION

Optical Metrology and More. Programs and Services of the Radiometric Physics Division, Physics Laboratory.
PB94-191707 *04,228*

RADIOMETRY

NIST Response to the Fifth CORM Report on the Pressing Problems and Projected Needs in Optical Radiation Measurements.
PB94-188240 *04,227*

Optical Metrology and More. Programs and Services of the Radiometric Physics Division, Physics Laboratory.
PB94-191707 *04,228*

Development and Calibration of UV/VUV Radiometric Sources.
PB94-199098 *04,229*

Overview of Radiometric Program of the NIST Thermal Imaging Laboratory.
PB94-199163 *04,230*

Theoretical Analysis of the Coherence-Induced Spectral Shift Experiments of Kandpal, Vaishya, and Joshi.
PB94-219383 *00,561*

National Institute of Standards and Technology High-Accuracy Cryogenic Radiometer.
PB96-179585 *04,378*

Mode-Locked Lasers for High-Accuracy Radiometry.
PB96-204201 *04,134*

Results of a NIST/VNIIOFI Comparison of Spectral-Radiance Measurements.
PB97-113021 *04,159*

Realization of a Scale of Absolute Spectral Response Using the NIST High Accuracy Cryogenic Radiometer.
PB97-118640 *04,397*

RADIONUCLIDE MIGRATION

Modeling Radon Transport in Multistory Residential Buildings.
PB95-162087 *00,256*

RADIONUCLIDES

Liquid-Scintillation Counting Techniques for the Standardization of Radionuclides Used in Therapy.
PB97-110084 *03,709*

RADIOPHARMACEUTICALS

Experimental Validation of Radiopharmaceutical Absorbed Dose to Mineralized Bone Tissue.
PB94-199668 *03,617*

Radiation Doses.
PB94-199676 *03,618*

USCEA/NIST Measurement Assurance Programs for the Radiopharmaceutical and Nuclear Power Industries.
PB97-110514 *03,721*

RADIOSONDES

Low-Temperature Performance of Radiosonde Electric Hygrometer Elements.
AD-A295 319/8 *00,121*

RADIOSURGERY

Use of a Radiochromic Detector for the Determination of Stereotactic Radiosurgery Dose Characteristics.
PB94-185642 *03,514*

RADIOTHERAPY

Standard Reference Materials (SRM's) for Measuring Genetic Damage.
PB94-198827 *03,516*

New Method for Shielding Electron Beams Used for Head and Neck Cancer Treatment.
PB94-211430 *03,621*

Scattered Fractions of Dose from 18 and 25 MV X-ray Radiotherapy Linear Accelerators.
PB96-186101 *04,120*

RADIOTHERAPY DOSAGE

Use of a Radiochromic Detector for the Determination of Stereotactic Radiosurgery Dose Characteristics.
PB94-185642 *03,514*

RADIUM

Protection Against Radiations from Radium, Cobalt-60, and Cesium-137.
AD-A279 261/2 *03,607*

RADIUM IONS

Fine Structure of Negative Ions of Alkaline-Earth-Metal Atoms.
PB94-211182 *03,837*

RADON

Measurement and Determination of Radon Source Potential: A Literature Review.
PB94-165602 *02,576*

Systematics of Alpha-Particle Energy Spectra and Lineal Energy (Y) Spectra for Radon Daughters.
PB94-185139 *03,615*

Microdosimetry and Cellular Radiation Effects of Radon Progency in Human Bronchial Airways.
PB95-152344 *03,625*

Modeling Radon Transport in Multistory Residential Buildings.
PB95-162087 *00,256*

Computer Simulations of Airflow and Radon Transport in Four Large Buildings.
PB95-220422 *02,557*

Radon in the Lung.
PB97-110035 *03,638*

RADON 222

International Radon-in-Air Measurement Intercomparison Using a New Transfer Standard.
PB96-159751 *03,708*

RAIL TRANSPORTATION

New Concepts for Fire Protection of Passenger Rail Transportation Vehicles.
PB95-162046 *04,850*

New Concepts for Fire Protection of Passenger Rail Transportation Vehicles. (NIST Reprint).
PB95-180774 *04,863*

RAILROAD CARS

Ultrasonic Measurement of Residual Stress in Cast Steel Railroad Wheels.
PB95-169199 *04,852*

RAILROAD PASSENGER SERVICE

Concepts for Fire Protection of Passenger Rail Transportation Vehicles: Past, Present, and Future.
PB96-102868 *04,853*

RAILROAD TRACKS

Noncontact Ultrasonic Inspection of Train Rails for Stress.
PB95-162673 *04,851*

RAILROAD TRAINS

Residual Stress in Induction-Heated Railroad Wheels: Ultrasonic and Saw Cut Measurements. Report No. 28.
PB96-106992 *04,854*

Dynamometer-Induced Residual Stress in Railroad Wheels: Ultrasonic and Saw Cut Measurements. Report No. 30.
PB96-183199 *04,857*

RAILROAD TRUCKS

Ultrasonic Measurement of Residual Stress in Railroad Wheel Rims.
PB95-140430 *04,849*

Safety Assessment of Railroad Wheels by Residual Stress Measurements.
PB96-141114 *04,855*

Safety Assessment of Railroad Wheels Through Roll-by Detection of Tread Cracks.
PB96-141254 *04,856*

RAMAN EFFECT

Frequency Shifting of Pulsed Narrow-Band Laser Light in a Multipass Raman Cell.
PB95-203352 *04,321*

RAMAN SPECTRA

Octacalcium Phosphate. 3. Infrared and Raman Vibrational Spectra.
PB94-172244 *00,756*

Simultaneous Forward-Backward Raman Scattering Studies of D2 Broadened by D2, He, and Ar.
PB95-162459 *00,961*

Evolution of X-ray Resonance Raman Scattering into X-ray Fluorescence from the Excitation of Xenon Near the L3 Edge.
PB96-102751 *04,025*

RAMAN SPECTROSCOPY

Measurement of the Self Broadening of the H2Q(0-5) Raman Transitions from 295 to 1000 K.
PB95-108627 *00,884*

Lineshape Analysis of the Raman Spectrum of Diamond Films Grown by Hot-Filament and Microwave-Plasma Chemical-Vapor Deposition.
PB95-162392 *03,016*

Studies of Defects in Diamond Films and Particles by Raman and Luminescence Spectroscopies.
PB95-162400 *03,017*

Q Branch Lineshape Functions for CARS Thermometry.
PB96-160643 *01,132*

Development of the NIST Transient Pressure and Temperature Calibration Facility.
PB96-160833 *00,626*

Structural Analysis of Heparin by Raman Spectroscopy.
PB96-167226 *03,480*

Neutron and Raman Spectroscopies of 134 and 134a Hydrofluorocarbons Encaged in Na-X Zeolite.
PB96-186168 *03,001*

RAMSAUER EFFECT

Semiclassical Explanation of the Generalized Ramsauer-Townsend Minima in Electron-Atom Scattering.
PB95-153532 *03,925*

RANDOM WALK

Book Review: Aspects and Applications of the Random Walk.
PB96-123534 *04,215*

RANDOM WALKS

Self-Avoiding-Walk Contacts and Random-Walk Self-Intersections in Variable Dimensionality.
PB96-102231 *01,276*

RAPID RESPONSE MANUFACTURING

Visualization Applications for Manufacturing: A State-of-the-Art Survey. Final Report.
PB94-194552 *02,816*

RARE EARTH COMPOUNDS

Crystal Chemistry and Phase Equilibrium Studies of the BaO-R2O3-CuO Systems. 2. X-Ray Characterization and Standard Patterns of BaR2CuO4, R=Lanthanides.
PB95-151734 *04,582*

Crystal Chemistry and Phase Equilibria Studies of the BaO(BaCO3)-R2O3-CuO Systems. 4. Crystal Chemistry and Subsolidus Phase Relationship Studies of the CuO-Rich Region of the Ternary Diagrams, R=Lanthanides.
PB95-151759 *00,936*

RARE EARTH ELEMENTS

Rare-Earth Isotopes as Tracers of Particulate Emissions: An Urban Scale Test.
PB94-161635 *02,535*

Magnetic Rare Earth Artificial Metallic Superlattices.
PB95-162293 *04,611*

Neutron Spectroscopic Comparison of beta-Phase Rare Earth Hydrides.
PB96-160742 *01,134*

RARE GAS SOLIDS

Soft-X-ray-Emission Spectra of Solid Kr and Xe.
PB96-157920 *04,070*

RARE GASES

Charge Transfer and Collision-Induced Dissociation Reactions of CF(2+) and CF2(2+) with the Rare Gases at a Laboratory Collision Energy of 49 eV.
PB94-185584 *00,775*

Collision-Induced Neutral Loss Reactions of Molecular Dications.
PB94-185808 *00,780*

Dipole Moments in Rare Gas Interactions.
PB94-212982 *00,844*

Optimization of Inert Gas Atomization.
PB95-107405 *01,377*

RATE CONSTANTS

Rate Constants for the Decay and Reactions of the Lowest Electronically Excited Singlet State of Molecular Oxygen in Solution. An Expanded and Revised Compilation.
PB96-145826 *01,106*

RATINGS

Development and Validation of Multicriteria Ratings: A Case Study.
PB95-126025 *00,004*

RAYLEIGH SCATTERING

Rayleigh Scattering Limits for Low-Level Bidirectional Reflectance Distribution Function Measurements.
PB95-180030 *04,307*

RAYLEIGH WAVES

Interaction of Rayleigh Waves with a Rib Attached to a Plate.
PB94-199023 *04,184*

RCS (REVISION CONTROL SYSTEM)
Guide to Configuration Management and the Revision Control System for Testbed Users.
PB94-150919 *01,678*

RE134
Viscosity of the Saturated Liquid Phase of Six Halogenated Compounds and Three Mixtures.
PB95-162368 *00,960*

RE245
Viscosity of the Saturated Liquid Phase of Six Halogenated Compounds and Three Mixtures.
PB95-162368 *00,960*

REACTION KINETICS
Tables of Chemical Kinetics Homogeneous Reactions.
AD-A280 293/2 *00,715*

Thermal Decomposition of Hydroxy- and Methoxy-Substituted Anisoles.
PB94-173036 *00,767*

Octacalcium Phosphate Carboxylates IV. Kinetics of Formation and Solubility of Octacalcium Phosphate Succinate.
PB94-185600 *00,776*

Temperature Dependence of the Rate Constants for Reaction of Inorganic Radicals with Organic Reductants.
PB94-198280 *00,783*

Oxidation of 10-Methylacridan, a Synthetic Analogue of NADH and Deprotonation of Its Cation Radical. Convergent Application of Laser Flash Photolysis and Direct and Redox Catalyzed Electrochemistry to the Kinetics of Deprotonation of the Cation Radical.
PB94-198371 *00,785*

Gas Phase Reactions Relevant to Chemical Vapor Deposition: Optical Diagnostics.
PB94-199338 *03,116*

Gas Phase Reactions Relevant to Chemical Vapor Deposition: Numerical Modeling.

Development of Measurement Capabilities for the Thermophysical Properties of Energy-Related Fluids. Annual Report, December 1, 1990--November 30, 1991.
DE94004399 *02,470*

Development of Measurement Capabilities for the Thermophysical Properties of Energy-Related Fluids. Annual Report, December 1, 1993--November 30, 1994.
DE94017738 *03,246*

Thermophysical properties of HCFC alternatives. Quarterly report, 1 July 1994--30 September 1994.
DE95002261 *03,247*

Lean flammability limit as a fundamental refrigerant property. Phase 1, Interim technical report, 1 October 1994--31 March 1995.
DE95011238 *03,248*

Thermophysical properties of HCFC alternatives. Quarterly report, October 1--December 31, 1995.
DE96010433 *03,249*

Thermophysical properties of HCFC alternatives. Quarterly report, April 1--June 30, 1995.
DE96010579 *03,250*

Evaluation of GSA Maintenance Practices of Large Centrifugal Chillers and Review of GSA Refrigerant Management Practices.
PB94-143344 *02,502*

Simultaneous Visual and Calorimetric Measurements of R11, R123, and R123/Alkylbenzene Nucleate Flow Boiling.
PB94-172426 *03,251*

Thermodynamic Properties of CHF2-O-CHF2,Bis(difluoromethyl) Ether.
PB94-199569 *00,798*

Role of Refrigerant Mixtures as Alternatives to CFCs.
PB94-199775 *03,252*

Role of R22 in Refrigerating and Air Conditioning Equipment.
PB94-199783 *03,253*

Measurements of the Viscosities of Saturated and Compressed Fluid 1-chloro-1,2,2,2-tetrafluoroethane (R124) and Pentafluoroethane (R125) at Temperatures between 120 and 420 K.
PB94-199791 *03,254*

Simplified Cycle Simulation Model for the Performance Rating of Refrigerants and Refrigerant Mixtures.
PB94-199890 *03,255*

Equation of State Formulation of the Thermodynamic Properties of R134a (1,1,1,2-Tetrafluoroethane).
PB94-212081 *03,256*

Prediction of Viscosity of Refrigerants and Refrigerant Mixtures.
PB94-212099 *03,257*

Prediction of the Thermal Conductivity of Refrigerants and Refrigerant Mixtures.
PB94-212107 *03,258*

Causes of the Apparent Heat Transfer Degradation for Refrigerant Mixtures.
PB94-212701 *03,259*

Study of Heat Pump Performance Using Mixtures of R32/R134a and R32/R125/R134a as 'Drop-In' Working Fluids for R22 with and Without a Liquid-Suction Heat Exchanger.
PB94-218559 *02,503*

Refractive Indices of Fluids Related to Alternative Refrigerants.
PB94-219375 *03,260*

Vapor Pressure of 1,1-dichloro-2,2,2-trifluoroethane (R123).
PB95-126231 *00,899*

Visual Measurement Technique for Analysis of Nucleate Flow Boiling.
PB95-143301 *03,262*

Ebulliometric Measurement of the Vapor Pressure of Difluoromethane.
PB95-151361 *00,931*

Dielectric Studies of Fluids with Reentrant Resonators.
PB95-153730 *00,952*

Criteria for Establishing Accurate Vapor Pressure Curves.
PB95-163812 *00,972*

Ebulliometric Measurement of the Vapor Pressure of 1-Chloro-1,1-Difluoroethane and 1,1-Difluoroethane.
PB95-164489 *00,984*

Reference Data for the Thermophysical Properties of Cryogenic Fluids.
PB95-168688 *03,263*

Thermodynamic Properties of R134a(1,1,1,2-Tetrafluoroethane).
PB95-168704 *00,988*

Measurements of Molar Heat Capacity at Constant Volume (Cv) for 1,1,1,2-Tetrafluoroethane (R134a).
PB95-168878 *03,264*

Vapour Pressure Measurements on 1,1,1,2-Tetrafluoroethane (R134a) from 180 to 350 K.
PB95-168886 *03,265*

Annex 18: An International Study of Refrigerant Properties.
PB95-168936 *03,266*

Development of a Dual-Sinker Densimeter for High-Accuracy Fluid P-V-T Measurements.
PB95-168951 03,267

Measurements of the Vapor Pressures of Difluoromethane, 1-Chloro-1,2,2,2-Tetrafluoroethane, and Pentafluoroethane.
PB95-169272 03,270

Vapor Pressures and Gas-Phase PVT Data for 1-Chloro-1,2,2,2-Tetrafluoroethane (R124).
PB95-175154 03,271

Retention of Halocarbons on a Hexafluoropropylene Epoxide Modified Graphitized Carbon Black. Part 1. Methane-Based Compounds.
PB95-175196 03,272

Measurements of the Viscosities of Saturated and Compressed Liquid 1,1,1,2-Tetrafluoroethane (R134a), 2,2-Dichloro-1,1,1-Trifluoroethane (R123) and 1,1-Dichloro-1-Fluoroethane (R141b).
PB95-175386 03,273

Coexisting Densities, Vapor Pressures and Critical Densities of Refrigerants R-32 and R-152a, at 300 - 385 K.
PB95-175691 03,274

Predictive Extended Corresponding States Model for Pure and Mixed Refrigerants Including an Equation of State for R134a.
PB95-175717 03,275

Estimating the Virial Coefficients of Small Polar Molecules.
PB95-176236 03,276

Simple Method of Composition Shifting with a Distillation Column for a Heat Pump Employing a Zeotropic Refrigerant Mixture.
PB95-255824 02,603

Interaction Coefficients for 15 Mixtures of Flammable and Non-Flammable Components.
PB96-146626 03,281

Retention of Halocarbons on a Hexafluoropropylene Epoxide-Modified Graphitized Carbon Black. 4. Propane-Based Compounds.
PB96-164033 03,284

REFPROP Refrigerant Properties Database: Capabilities, Limitations, and Future Directions.
PB96-167150 01,149

Status of the Round Robin on the Transport Properties of R134a.
PB96-167218 01,152

Retention of Halocarbons on a Hexafluoropropylene Epoxide-Modified Graphitized Carbon Black. 3. Ethene-Based Compounds.
PB96-167309 03,286

Thermophysical Property Standard Reference Data from NIST.
PB96-167358 01,153

Study to Determine the Existence of an Azeotropic R-22 'Drop-In' Substitute.
PB96-167812 02,568

Viscosity of 1,1,1,2,3,3-Hexafluoropropane and 1,1,1,3,3,3-Hexafluoropropane at Saturated-Liquid Conditions from 262 K to 353 K.
PB96-176680 03,292

Report of the Refrigeration, Air Conditioning and Heat Pumps Technical Options Committee.
PB96-176755 03,293

International Standard Equation of State for the Thermodynamic Properties of Refrigerant 123 (2,2-Dichloro-1,1,1-Trifluoroethane).
PB96-176805 03,294

REFRIGERATING MACHINERY

Evaluation of GSA Maintenance Practices of Large Centrifugal Chillers and Review of GSA Refrigerant Management Practices.
PB94-143344 02,502

Role of R22 in Refrigerating and Air Conditioning Equipment.
PB94-199783 03,253

Effect of Inclination on the Performance of a Compact Brazed Plate Condenser and Evaporator.
PB96-136973 02,756

REFRIGERATION SYSTEMS

Design and Construction of a Liquid Hydrogen Temperature Refrigeration System.
AD-A286 618/4 02,619

Helium Refrigeration and Liquefaction Using a Liquid Hydrogen Refrigerator for Precooling.
AD-A286 683/8 02,749

Properties of Working Fluids for Thermoacoustic Refrigerators.
AD-A297 420/2 04,864

REFRIGERATORS

Resistance Thermometers with Fast Response for Use in Rapidly Oscillating Gas Flows.
PB95-107298 03,261

Electronic Microrefrigerator Based on a Normal-Insulator-Superconductor Tunnel Junction.
PB96-102827 04,718

Factors Affecting the Energy Consumption of Two Refrigerator-Freezers.
PB97-112312 00,311

REFUELING SYSTEM

Upgrade and Modernization Projects at the NBSR.
PB96-161872 03,737

REFUSE DERIVED FUELS

Sulfur Dioxide Capture in the Combustion of Mixtures of Lime, Refuse-Derived Fuel, and Coal.
PB94-155587 02,534

REGENERATORS

Graded and Nongraded Regenerator Performance.
PB95-169090 02,753

REGIONAL DEVELOPMENT

Aid for Smaller Businesses.
PB94-212461 00,492

REGISTRIES

SC4 Short Names Registry.
PB97-122410 02,799

REGULATIONS

National Center for Standards and Certification Information: Service and Programs.
N95-15938/0 02,717

Uniform Laws and Regulations in the Areas of Legal Metrology and Motor Fuel Quality, 1994 as Adopted by the 79th National Conference on Weights and Measures 1994.
PB95-174470 02,909

International Challenges in Defining the Public and Private Interest in Standards.
PB96-160361 00,498

REINFORCED CONCRETE

Corrosion Resistant Epoxy-Coated Reinforcing Steel.
PB94-185618 01,307

Strengthening Methodology for Lightly Reinforced Concrete Frames-II. Recommended Calculation Techniques for the Design of Infill Walls.
PB94-187648 00,426

Seismic Strengthening of Reinforced Concrete Frame Buildings.
PB95-108841 00,430

Enhancements to Program IDARC: Modeling Inelastic Behavior of Welded Connections in Steel Moment-Resisting Frames.
PB95-231601 00,452

Strengthening Methodology for Lightly Reinforced Concrete Frames: Recommended Design Guidelines for Strengthening with Infill Walls.
PB95-260725 00,454

Prediction of Potential Concrete Strength at Later Ages.
PB96-112180 01,324

REINFORCEMENT (STRUCTURAL)

Evaluation and Retrofit Standards for Existing Federally Owned and Leased Buildings.
PB95-150918 00,434

REINFORCEMENT (STRUCTURES)

Strengthening Methodology for Lightly Reinforced Concrete Frames-II. Recommended Calculation Techniques for the Design of Infill Walls.
PB94-187648 00,426

Seismic Strengthening of Reinforced Concrete Frame Buildings.
PB95-108841 00,430

Jacket Thickness Requirements for Seismic Retrofitting of Circular Bridge Columns.
PB95-163267 01,336

Seismic Safety of Federal Buildings. Initial Program: How Much Will It Cost.
PB95-182291 00,447

Strengthening Methodology for Lightly Reinforced Concrete Frames: Recommended Design Guidelines for Strengthening with Infill Walls.
PB95-260725 00,454

Strengthening Methodology for Lightly Reinforced Concrete Frames.
PB96-158050 00,466

REINFORCING FIBERS

Micro-Mechanical Aspects of Asperity-Controlled Friction in Fiber-Toughened Ceramic Composites.
PB94-199536 03,136

Elastic Properties of Uniaxial-Fiber Reinforced Composites: General Features.
PB94-200649 03,140

REINFORCING STEELS

Corrosion Resistant Epoxy-Coated Reinforcing Steel.
PB94-185618 01,307

Degradation of Powder Epoxy Coated Panels Immersed in a Saturated Calcium Hydroxide Solution Containing Sodium Chloride.
PB96-101050 01,344

REJUVENATION

Volume Recovery in Epoxy Glasses Subjected to Torsional Deformations: The Question of Rejuvenation.
PB95-140018 03,382

Torsional Relaxation and Volume Response during Physical Aging in Epoxy Glasses Subjected to Large Torsional Deformations.
PB95-140026 03,383

Using Torsional Dilatometry to Measure the Effects of Deformations on Physical Aging.
PB95-140901 03,384

RELATIVE HUMIDITY

Temperature and Relative Humidity Dependence of Radiochromic Film Dosimeter Response to Gamma and Electron Radiation.
PB96-135298 03,718

Parametric Study of Wall Moisture Contents Using a Revised Variable Indoor Relative Humidity Version of the 'Moist' Transient Heat and Moisture Transfer Model.
PB97-122535 00,419

RELAXATION (MECHANICS)

Operational Mode and Gas Species Effects on Rotational Drag in Pneumatic Dead Weight Pressure Gages.
PB95-140182 00,903

RELIABILITY

Numeric Data Distribution: The Vital Role of Data Exchange in Today's World.
N95-15937/2 02,622

Performance and Reliability of NIST 10-V Josephson Arrays.
PB96-148051 02,419

High Temperature Structural Reliability of Silicon Nitride.
PB97-110456 03,104

RELIABILITY ANALYSIS

Measurements of Properties of Materials in Electronic Packaging.
PB96-200837 01,973

REMANENT POLARIZATION

Hysteresis Measurements of Remanent Polarization and Coercive Field in Polymers.
PB94-199767 04,475

REMINERALIZATION

Remineralization of Root Lesions with Concentrated Calcium and Phosphate Solutions.
PB96-102140 03,567

Polymeric Calcium Phosphate Composites with Remineralization Potential.
PB96-155544 03,575

REMOTE CONSOLES

Concepts of the NIST EXPRESS Server.
PB95-180543 02,781

REMOTE PROCEDURE CALLS

Comparing Remote Procedure Calls: Open Network Computing, Distributed Computing Environment and International Organization for Standardization.
PB95-194205 01,724

REMOTE SENSORS

Activities of NIST (National Inst. Of Standards and Technology).
N94-23605/6 04,222

Dual-Frequency Millimeter-Wave Radiometer Antenna for Airborne Remote Sensing of Atmosphere and Ocean.
PB96-112289 02,009

REMOVAL

Computer Simulations of Binder Removal from 2-D and 3-D Model Particulate Bodies.
PB97-121339 00,418

RENOVATING

Corrosion Resistance of Materials for Renovation of the United States Botanic Garden Conservatory.
PB94-154390 00,032

REPARAMETRIZATION INVARIANCE

Electrostatic Rigidity of Polyelectrolytes from Reparametrization Invariance.
PB96-180062 04,113

REPLICATING

Replicate Measurements for Data Quality and Environmental Modeling.
PB94-172533 02,515

REPLICATION

DnaJ, DnaK, and GrpE Heat Shock Proteins are Required in 'ori'P1 DNA Replication Solely at the RepA Monomerization Step.
PB97-119382 03,557

REPORTING

Guidelines for Reporting Results of Computational Experiments. Report of the Ad hoc Committee.
PB94-212347 03,427

REPRESENTATIONS

Representing Designs with Logic Formulations of Spatial Relations.

Reactor Radiation Technical Activities, 1994. NAS-NRC Assessment Panel, April 6-7, 1995.
PB95-209888 *03,732*

Journal of Research of the National Institute of Standards and Technology, May/June 1995. Volume 100, Number 3.
PB95-261897 *02,670*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, April to June 1995 with 1995 EEEL Events Calendar.
PB96-106455 *01,923*

Publications and Presentation Abstracts, 1995. (Published by Paffenbarger Research Center and Center of Excellence for Materials Science Research).
PB96-119250 *03,568*

Metallurgy Technical Activities 1994 (NAS-NRC Assessment Panel, April 6-7, 1995).
PB96-136981 *02,981*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, July to September 1995 with 1996 EEEL Events Calendar.
PB96-147905 *01,942*

Publication and Presentation Abstracts, 1995.
PB96-164082 *03,576*

Publication and Presentation Abstracts, 1994.
PB96-176623 *03,577*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, July to September 1995 with 1996 EEEL Events Calendar.
PB96-183066 *01,965*

Materials Reliability. Technical Activities, 1995.
PB96-183082 *02,999*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, October to December 1995 with 1996 EEEL Events Calendar.
PB96-183116 *01,966*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, January to March 1996, with 1996 EEEL Events Calendar.
PB96-191390 *01,969*

Reactor Radiation Technical Activities, 1995.
PB96-193644 *03,741*

Ceramics Technical Activities, 1995.
PB96-193677 *03,087*

Metallurgy. Technical Activities, 1995.
PB96-195284 *03,003*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, October to December 1995, with 1996 EEEL Events Calendar.
PB96-202346 01,978

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, January to March 1996, with 1996 EEEL Events Calendar.
PB96-214622 01,981

Workshop Highlights.
PB97-109227 04,811

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, April to June 1996 with 1996-1998 EEEL Events Calendar.
PB97-113880 01,994

Publication and Presentation Abstracts, 1996.
PB97-122238 03,585

RESIDENTIAL BUILDING

Carbon Monoxide Dispersion in Residential Buildings: Literature Review and Technical Analysis.
PB97-114227 02,571

RESIDENTIAL BUILDING FIRES

EXITT: A Simulation Model of Occupant Decisions and Actions in Residential Fires.
PB94-213261 00,351

RESIDENTIAL BUILDINGS

Mathematical Modeling of Human Egress from Fires in Residential Buildings.
PB94-193778 00,337

Studies Assess Performance of Residential Detectors.
PB94-199262 00,290

EXITT: A Simulation Model of Occupant Decisions and Actions in Residential Fires.
PB94-213261 00,351

Indoor Air Quality Impacts of Residential HVAC Systems, Phase 1 Report: Computer Simulation Plan.
PB95-135596 00,249

Modeling Radon Transport in Multistory Residential Buildings.
PB95-162087 00,256

Performance of HUD-Affiliated Properties during the January 17, 1994 Northridge Earthquake.
PB95-174488 00,443

Application of a Multizone Airflow and Contaminant Dispersal Model to Indoor Air Quality Control in Residential Buildings.
PB95-180238 02,555

Santa Ana Fire Department Experiment at 1315 South Bristol, July 14, 1994.
PB95-188868 00,389

Measurements of Indoor Pollutant Emissions from EPA Phase II Wood Stoves.
PB95-198735 02,556

National Construction Sector Goals: Industry Strategies for Implementation.
PB95-269817 00,204

Santa Ana Fire Department Experiment at 1315 South Bristol, July 14, 1994. (Reprint).
PB96-102934 00,207

Surging the Upside-Down House: Looking into Upsetting Reference Voltages.
PB96-112313 02,385

Effectiveness of a Heat Recovery Ventilator, an Outdoor Air Intake Damper and an Electrostatic Particulate Filter at Controlling Indoor Air Quality in Residential Buildings.
PB96-146642 02,564

Santa Ana Fire Department Experiments at South Bristol Street.
PB96-154810 00,305

Sensitivity Analysis for Mathematical Modeling of Fires in Residential Buildings.
PB96-154968 00,215

Protecting Your Family from Fire.
PB96-156187 00,307

Multizone Modeling of Three Residential Indoor Air Quality Control Options.
PB96-165782 02,567

Surging the Upside-Down House: Measurements and Modeling Results.
PB96-180138 02,243

Distributions of Measurement Error for Three-Axis Magnetic Field Meters during Measurements Near Appliances.
PB96-180153 02,110

Full-Scale Room Fire Experiments Conducted at the University of Maryland.
PB97-116081 00,236

RESIDUAL GAS

Measurement of Very-Low Partial Pressures.
PB95-180998 02,659

Process Monitoring with Residual Gas Analyzers (RGAs): Limiting Factors.
PB95-181004 02,660

RESIDUAL GAS ANALYZERS

Process Monitoring with Residual Gas Analyzers (RGAs): Limiting Factors.
PB95-181004 02,660

RESIDUAL STRENGTH

Fracture Behavior of Large-Scale Thin-Sheet Aluminum Alloy.
N95-19494/0 03,311

RESIDUAL STRESS

Influence of Tempering Method on Residual Stress in Dental Porcelain.
PB94-172012 00,138

Evaluation of Fracture Toughness and Residual Stress in Dental Porcelain by Indentation-Microfracture Method.
PB95-125613 00,154

Evaluation of Fracture Toughness and Residual Stress in Dental Porcelain by Indentation-Microfracture Method.
PB95-152831 00,159

Residual Stresses in Aluminum-Mullite (alpha-Alumina) Composites.
PB95-152880 03,155

Ultrasonic Measurement of Residual Stress in Cast Steel Railroad Wheels.
PB95-169199 04,852

Determination of the Residual Stresses Near the Ends of Skip Welds Using Neutron Diffraction and X-ray Diffraction Procedures.
PB95-253589 02,868

Ultrasonic Methods.
PB96-190327 02,707

RESIN TRANSFER MOLDING

Effect of Heterogeneous Porous Media on Mold Filling in Resin Transfer Molding.
PB95-108676 03,197

Comparison of the Unidirectional and Radial In-Plane Flow of Fluids Through Woven Composite Reinforcements.
PB95-162004 02,698

Interaction between Micro and Macroscopic Flow in RTM Preforms.
PB95-162012 03,159

RESISTANCE

Electrical Characterization of Narrow Gap n-Type Bulk HgCdTe Single Crystals by Variable-Magnetic-Field Hall Measurements and Reduced-Conductivity-Tensor Analyses.
PB96-164199 01,146

RESISTANCE BRIDGES

Leakage Current Detection in Cryogenic Current Comparator Bridges.
PB94-172228 02,024

RESISTANCE MEASUREMENTS

Resistance Measurements from 10 M Omega to 1 T Omega at NIST.
PB97-119168 02,290

RESISTANCE STANDARD

Quantum Hall Effect-Based Resistance Standard: Capabilities and Implementation.
PB96-180096 04,114

Quantum Hall Effect-Based Resistance Standard (Quantum Hall Res).
PB96-200944 04,127

RESISTANCE STANDARDS

New International Representations of the Volt and Ohm Effective January 1, 1990.
PB95-150777 01,890

Design Challenges in a Commercial Quantum Hall Effect-Based Resistance Standard.
PB95-171419 02,263

RESISTANCE THERMOMETERS

Assessment of Uncertainties of Calibration of Resistance Thermometers at the National Institute of Standards and Technology.
PB94-142478 02,624

RESISTIVE DIVIDERS

Transient Errors in a Precision Resistive Divider.
PB97-111512 01,983

RESISTIVITY MAPPING

High-Spatial-Resolution Resistivity Mapping Applied to Mercury Cadmium Telluride.
PB94-212917 02,131

RESISTORS

Journal of Research of the National Institute of Standards and Technology. May/June 1994. Volume 99, Number 3.
PB94-219326 02,643

Sources of Uncertainty in a DVM-Based Measurement System for a Quantized Hall Resistance Standard.
PB94-219334 01,884

Pressure Dependencies of Standard Resistors.
PB95-153516 02,257

Bonding Wires to Quantized Hall Resistors.
PB96-102637 01,921

Automated Resistance Measurements at NIST.
PB96-119326 02,274

Constant Temperature and Humidity Chamber for Standard Resistors.
PB96-122494 02,275

Resistors.
PB97-111876 02,284

Observation of Hot-Electron Shot Noise in a Metallic Resistor.
PB97-112007 01,988

Automated Guarded Bridge for Calibration of Multimegohm Standard Resistors.
PB97-119150 02,289

Resistance Measurements from 10 M Omega to 1 T Omega at NIST.
PB97-119168 02,290

RESOI

Electron and Hole Trapping in Irradiated SIMOX, ZMR and BESOI Buried Oxides.
PB96-160320 01,956

RESOLUTION FUNCTIONS

Instrumental Smearing Effects in Radially Symmetric Small-Angle Neutron Scattering by Numerical and Analytical Methods.
PB96-160429 02,984

RESONANCE

Resonances in Two-Dimensional Array Oscillator Circuits.
PB96-102082 02,066

RESONANCE FLUORESCENCE

Heterodyne Measurement of the Fluorescence Spectrum of Optical Molasses.
PB95-108411 03,873

Measurements of Fluorescence from Cold Atoms: Localization in Three-Dimensional Standing Waves.
PB95-163879 03,943

Interference in the Resonance Fluorescence of Two Trapped Atoms.
PB95-168514 03,948

Resonance Fluorescence with Squeezed-Light Excitation.
PB95-203469 04,322

RESONANCE IONIZATION MASS SPECTROSCOPY

Atom-counting standards and Doppler-free resonance ionization mass spectroscopy. (Progress report).
DE94018562 00,723

Improvement of Ultrasensitive Techniques Isotopic Biasing in the RIS Process Ionization Efficiencies and Selectivities.
DE94018563 00,522

I: Improvement of Resonance Ionization Spectroscopy (RIS) Techniques; II: Atomic Data for RIS; III: Standards for Ultratrace Analysis. Progress Report.
DE94018565 00,523

National Institute of Standards and Technology Resonance Ionization Spectroscopy/Resonance Ionization Mass Spectroscopy Data Service.
PB94-172897 03,793

Comparative Strategies for Correction of Interferences in Isotope Dilution Mass Spectrometric Determination of Vanadium.
PB94-185261 00,531

Laser Ablation of Thin Films as a Free Atom Source for Pulsed RIMS.
PB94-198710 00,540

RESONANCE IONIZATION SPECTROSCOPY

National Institute of Standards and Technology Resonance Ionization Spectroscopy/Resonance Ionization Mass Spectroscopy Data Service.
PB94-172897 03,793

RESONANCE LINES

Observation of Pd-Like Resonance Lines Through Pt(32+) and Zn-Like Resonance Lines of Er(38+) and Hf(42+).
PB95-150637 03,896

RESONANT FREQUENCY

Elastic Constants of Isotropic Cylinders Using Resonant Ultrasound.
PB94-211919 04,497

RESONANT TUNNELING

Single-Atom Point Source for Electrons: Field-Emission Resonance Tunneling in Scanning Tunneling Microscopy.
PB95-125860 00,893

RESONAT FREQUENCY

Ultrasonic-Resonance Spectroscopy of Bulk and Layered Solids.
PB96-141338 04,759

RESONATORS

Tunable High Temperature Superconductor Microstrip Resonators.
PB95-168423 02,048

Characterization of a Tunable Thin Film Microwave YBa2Cu3O7-x/SrTiO3 Coplanar Capacitor.
PB95-175527 02,264

Ferroelectric Thin Film Characterization Using Superconducting Microstrip Resonators.
PB96-102389 02,270

Measurements of Permittivity and the Dielectric Loss Tangent of Low Loss Dielectric Materials with a Dielectric Resonator Operating on the Higher Order Te(sub 0 gamma delta) Modes.
PB96-111869 02,273

New Model of 1/F Noise in Baw Quartz Resonators.
PB96-112248 02,383

RESPONSE TIME (COMPUTERS)

Scalability Test for Parallel Code.
PB96-146758 01,749

RETARDATION

Measurement of the Atomic Na(3P) Lifetime and of Retardation in the Interaction between Two Atoms Bound in a Molecule.
PB97-122360 04,178

RETARDING
Controlled Nucleation in Aerosol Reactors for Supression of Agglomerate Formation.
PB95-151973 *00,672*

RETENTION
Comparison of the Liquid Chromatographic Behavior of Selected Steroid Isomers Using Different Reversed-Phase Materials and Mobile Phase Compositions.
PB95-140976 *00,574*

RETINOIDS
Liquid Chromatographic Method for the Determination of Carotenoids, Retinoids, and Tocopherols in Human Serum and in Food.
PB95-153599 *00,593*

RETROFITTING
How-To Suggestions for Implementing Executive Order 12941 on Seismic Safety of Existing Federal Buildings, A Handbook.
PB96-131552 *00,461*

REVERBERATION
Spatial Correlation Function for Fields in a Reverberation Chamber.
PB96-148077 *04,427*

Rapid Evaluation of Mode-Stirred Chambers Using Impulsive Waveforms.
PB96-210026 *01,979*

REVERBERATION CHAMBERS
Electronic Mode Stirring for Reverberation Chambers.
PB95-180329 *01,908*

TEM/Reverberating Chamber Electromagnetic Radiation Test Facility at Rome Laboratory.
PB96-155023 *03,675*

Band-Limited, White Gaussian Noise Excitation for Reverberation Chambers and Applications to Radiated Susceptibility Testing.
PB96-165410 *01,960*

REVIEWS
Thermal Conductivity of Metals and Alloys at Low Temperatures. A Review of the Literature.
AD-A279 180/4 *03,302*

Shock Tube Techniques in Chemical Kinetics.
PB95-163465 *00,968*

RHENIUM 186
Standardization and Decay Scheme of Rhenium-186.
PB94-200490 *03,830*

RHENIUM 188
Assay of the Eluent from the Alumina-Based Tungsten-188-Rhenium-188 Generator.
PB94-200482 *03,829*

RHEOLOGICAL PROPERTIES
Measurement of Rheological Properties of High Performance Concrete: State of the Art Report.
PB96-202338 *00,414*

RHEOLOGY
Rheology of Fresh Cement Paste.
PB95-163150 *00,378*

Non-Newtonian Flow between Concentric Cylinders Calculated from Thermophysical Properties Obtained from Simulations.
PB96-163761 *04,103*

Structure and Rheology of Hard-Sphere Systems.
PB96-167333 *00,662*

RHODIUM
Preparation and Certification of a Rhodium Standard Reference Material Solution.
PB94-185071 *00,529*

Evidence of Film-Induced Cleavage by Electrodeposited Rhodium.
PB95-162327 *03,191*

RHODIUM-LIKE IONS
Rh I Isoelectronic Sequence Observed from Er(23+) to Pt(33+).
PB95-150652 *03,898*

RHODOPSIN
Retinal-Protein Complexes as Optoelectronic Components.
PB95-150397 *02,146*

RIETVELD METHOD
Mathematical Aspects of Rietveld Refinement.
PB95-108601 *04,526*

Application of ODF to the Rietveld Profile Refinement of Polycrystalline Solid.
PB95-202388 *03,401*

RIETVELD REFINEMENT
Accurate Modeling of Size and Strain Broadening in the Rietveld Refinement: The 'Double-Voigt' Approach.
PB96-200225 *00,664*

RIGID POLYISOCYANURATE FOAM
Effects of Humidity and Elevated Temperature on the Density and Thermal Conductivity of a Rigid Polyisocyanurate Foam Co-Blown with CCl3F and CO2.
PB95-150462 *00,371*

Effects of Humidity and Elevated Temperature on the Density and Thermal Conductivity of a Rigid Polyisocyanurate Foam.
PB95-152021 *00,373*

RING LASERS
Multiwavelength Birefringent-Cavity Mode-Locked Fibre Laser.
PB95-150496 *04,262*

Frequency-Stabilized LNA Laser at 1.083 mum: Application to the Manipulation of Helium 4 Atoms.
PB95-176186 *04,304*

RISK
Least-Cost Energy Decisions for Buildings: Part 2. Uncertainty and Risk Video Training Workbook.
PB94-165982 *00,240*

RISK ANALYSIS
Computer Virus Attacks.
PB95-163655 *01,715*

Earthquake and Fire in Japan: When the Threat Became a Reality.
PB95-175238 *00,201*

RISK ASSESSMENT
Fire Hazard and Risk: Evaluating Alternative Technologies.
PB94-173077 *00,242*

Fire Service and Fire Sciences: A Winning Combination.
PB95-150264 *01,383*

Quantitative Evaluation of Building Fire Safety: New Tools for Assessing Fire and Building Code Provisions.
PB95-164588 *00,199*

New Concepts for Fire Protection of Passenger Rail Transportation Vehicles. (NIST Reprint).
PB95-180774 *04,363*

NIOSH Comments to DOL on Risk Estimates from the Cadmium Cohort Study by L. Stayner, February 7, 1992.
PB95-267779 *03,604*

Concepts for Fire Protection of Passenger Rail Transportation Vehicles: Past, Present, and Future.
PB96-102868 *04,853*

Review of Internatioanl Fire Risk Predictions Methods.
PB96-156195 *00,222*

RMS VOLTAGE
Electro-Optic-Based RMS Voltage Measurement Technique.
PB96-138490 *02,194*

ROAD FOLLOWING
Visual Road Following without 3-D Reconstruction.
PB95-161030 *01,591*

Unified Approach to Camera Fixation and Vision-Based Road Following.
PB95-162244 *01,594*

ROBOT CONTROL
Overview of NASREM: The NASA/NBS Standard Reference Model for Telerobot Control System Architecture.
PB94-194560 *04,831*

Configuration and Performance Evaluation of a Real-Time Robot Control System: A Skeleton Approach.
PB95-163895 *01,598*

Unified Telerobotic Architecture Project (UTAP) Standard Interface Environment (SIE), May 1995.
PB95-242350 *02,938*

ROBOT DYNAMICS
Integrated Mobile Robot System for Testing Vision Algorithms.
PB95-164133 *02,936*

Real-Time Obstacle Avoidance Using Central Flow Divergence and Peripheral Flow.
PB95-198677 *02,937*

ROBOTICS
Toward a Reference Model Architecture for Real-Time Intelligent Control Systems (ARTICS).
PB94-172046 *02,932*

Integration of Servo Control into a Large-Scale Control System Design: An Example from Coal Mining.
PB94-203429 *03,696*

Certainty Grid to Object Boundary Algorithm.
PB94-203510 *01,835*

Continuous Mining Machine Control Using the Real-Time Control System.
PB94-203528 *03,700*

Environment Simulation for a Continuous Mining Machine.
PB94-203536 *03,697*

Publications of the Intelligent Systems Division (Previously Robot Systems Division) Covering the Period January 1971-April 1994.
PB94-217098 *02,935*

Unified Approach to Camera Fixation and Vision-Based Road Following.
PB95-162244 *01,594*

Vehicle-Command Center Communications in a Robotic Vehicle System.
PB95-162723 *03,665*

Robotics Application to Highway Transportation. Volume 2. Literature Search.
PB95-170551 *01,337*

Robotics Application to Highway Transportation. Volume 3. Proposed Research Topics and Cost/Benefit Evaluations by CERF.
PB95-171633 *01,338*

Robotics Application to Highway Transportation. Volume 4. Proposals for Potential Research.
PB95-193173 *01,339*

Unified Telerobotic Architecture Project (UTAP) Standard Interface Environment (SIE), May 1995.
PB95-242350 *02,938*

Study of Potential Applications of Automation and Robotics Technology in Construction, Maintenance and Operation of Highway Systems: A Final Report. Volume 4.
PB95-251641 *01,340*

Study of Potential Applications of Automation and Robotics Technology in Construction, Maintenance and Operation of Highway Systems: A Final Report. Volume 1.
PB95-251682 *01,341*

Study of Potential Applications of Automation and Robotics Technology in Construction, Maintenance and Operation of Highway Systems: A Final Report. Volume 3.
PB95-251690 *01,342*

Study of Potential Applications of Automation and Robotics Technology in Construction, Maintenance and Operation of Highway Systems: A Final Report. Volume 2.
PB95-255865 *01,343*

Scale-Space-Based Visual-Motion-Cue for Autonomous Navigation.
PB96-183173 *02,940*

NIST Construction Automation Program Report No. 2. Proceedings of the NIST Construction Automation Workshop. Held in Gaithersburg, Maryland on March 30-31, 1995.
PB96-202239 *00,413*

ROBOTS
AMRF Composite Fabrication Workstation.
PB94-172681 *02,810*

World Model Registration for Effective Off-Line Programming of Robots.
PB94-173010 *02,933*

Mapping Processes to Processors for Space-Based Robot Systems.
PB95-151510 *04,833*

Visual Road Following without 3-D Reconstruction.
PB95-161030 *01,591*

Reconstruction during Camera Fixation.
PB95-162236 *01,593*

Novel Active-Vision-Based Motion Cues for Local Navigation.
PB96-193727 *02,941*

ROCK MECHANICS
Temperature and Frequency Dependence of Anelasticity in a Nickel Oscillator.
PB96-137732 *03,689*

ROCKET ENGINES
Bibliography of Books and Published Reports on Gas Turbines, Jet Propulsion, and Rocket Power Plants.
AD-A278 138/3 *01,445*

Bibliography of Books and Published Reports on Gas Turbines, Jet Propulsion, and Rocket Power Plants, January 1950 through December 1953.
AD-A278 213/4 *01,446*

ROCKWELL HARDNESS
Microform Calibration Uncertainties of Rockwell Diamond Indenters.
PB96-122114 *03,280*

Metrology Approach to Unifying Rockwell C Hardness Scales.
PB96-155551 *02,957*

Stylus Technique for the Direct Verification of Rockwell Diamond Intenders.
PB96-155569 *02,958*

RODS
Leady Axisymmetric Modes in Infinite Clad Rods. Part 1.
PB95-162905 *04,187*

Analytical Method for Determining Thermal Conductivity from Dynamic Experiments.
PB96-102744 *04,024*

ROOFING
Effects of Adhesive Thickness, Open Time, and Surface Cleanness on the Peel Strength of Adhesive-Bonded Seams of EPDM Rubber Roofing Membrane.
PB95-151338 *00,372*

Characteristics of Adhesive-Bonded Seams Sampled from EPDM Roof Membranes.
PB95-162491 *00,377*

Pulse-Echo Ultrasonic Evaluation of the Integrity of Seams of Single-Ply Roof Membranes.
PB95-163804 *00,381*

Water-Vapor Measurements of Low-Slope Roofing Materials.
PB95-251617 *00,399*

ROOFS
Performance Approach to the Development of Criteria for Low-Sloped Roof Membranes.
PB94-160751 *00,329*

Application of Thermal Analysis Techniques to the Characterization of EPDM Roofing Membrane Materials.
PB95-125845 *00,359*

Use of Thermal Mechanical Analysis to Characterize Ethylene-Propylene-Diene Terpolymer (EPDM) Roofing Membrane Materials.
PB95-125852 *00,360*

Performance of Tape-Bonded Seams of EPDM Membranes: Comparison of the Peel Creep-Rupture Response of Tape-Bonded and Liquid-Adhesive-Bonded Seams.
PB96-183249 *03,012*

Mathematical Analysis of Practices to Control Moisture in the Roof Cavities of Manufactured Houses.
PB97-106843 *00,278*

ROOM FIRES
Verification of a Model of Fire and Smoke Transport.
PB95-108718 *00,357*

ROOMS
Application of Thermodynamic and Detailed Chemical Kinetic Modeling to Understanding Combustion Product Generation in Enclosure Fires.
PB96-135322 *01,413*

ROOT CANAL FILLING MATERIALS
Periapical Tissue Reactions to a Calcium Phosphate Cement in the Teeth of Monkeys.
PB94-212008 *00,149*

ROTARY POWERS
Large Local-Field Corrections in Optical Rotatory Power of Quartz and Selenium.
PB97-122378 *04,400*

ROTATING CYLINDERS
Density Dependence of Fluid Properties and Non-Newtonian Flows: The Weisenberg Effect.
PB96-161898 *01,140*

ROTATION
Operational Mode and Gas Species Effects on Rotational Drag in Pneumatic Dead Weight Pressure Gages.
PB95-140182 *00,903*

State-Resolved Rotational Energy Transfer in Open Shell Collisions: Cl((2)P3/2)+HCl.
PB96-176607 *01,157*

Internal Droplet Circulation Induced by Surface-Driven Rotation.
PB97-119267 *02,500*

ROTATIONAL DRAG
Operational Mode and Gas Species Effects on Rotational Drag in Pneumatic Dead Weight Pressure Gages.
PB95-140182 *00,903*

ROTATIONAL SPECTRA
Rotational Spectrum of Copper Hydride Using Tunable Far Infrared Radiation.
PB94-198637 *00,792*

Rotational Far Infrared Spectrum of (13)CO.
PB95-152187 *00,941*

Laboratory Measurements for the Astrophysical Identification of MgH.
PB95-152195 *00,073*

Rotational Spectroscopy of the CoH Radical in Its Ground (3)Phi State by Far-Infrared Laser Magnetic Resonance: Determination of Molecular Parameters.
PB95-175048 *00,992*

Pure Rotational Spectra of CuH and CuD in Their Ground States Measured by Tunable Far-Infrared Spectroscopy.
PB95-176194 *01,005*

Rotational Spectrum of OH in the v=0-3 Levels of Its Ground State.
PB95-176202 *01,006*

ROTATIONAL STATES
Reanalysis of the (010), (020), (100), and (001) Rotational Levels of (32)S(16)O2.
PB95-125621 *00,887*

ROTOR DYNAMICS
PC-Based Spinning Rotor Gage Controller.
PB95-175832 *02,609*

ROUGHNESS
Evolution of a Turbulent Boundary Layer Induced by a Three-Dimensional Roughness Element.
PB94-212818 *04,200*

ROUTING
RDI-SIM ECMA Inter-Domain Routing Protocol Simulation Tool.
PB94-172301 *01,683*

RPC (REMOTE PROCEDURE CALLS)
Comparing Remote Procedure Calls: Open Network Computing, Distributed Computing Environment and International Organization for Standardization.
PB95-194205 *01,724*

RS CVN STARS
First Results from a Coordinated ROSAT, IUE, and VLA Study of RS CVn Systems.
PB94-213477 *00,069*

RUBIDIUM
High-Resolution Spectroscopy of Laser-Cooled Rubidium in a Vapor-Cell Trap.
PB95-153714 *04,268*

Optical Probing of Cold Trapped Atoms.
PB95-175469 *04,296*

RUBIDIUM 87
Reduction of Light-Assisted Collisional Loss Rate from a Low-Pressure Vapor-Cell Trap.
PB95-202248 *03,971*

RUBIDIUM ATOMS
Temperature of Optical Molasses for Two Different Atomic Angular Momenta.
PB95-126058 *03,881*

RUBIDIUM BARIUM BISMUTHATES
Optical Conductivity of Single Crystals of Ba1-xMxBiO3(M=K, Rb, x=0.04, 0.37).
PB94-185329 *04,447*

RUBIDIUM FREQUENCY STANDARDS
Ultra-High Stability Synthesizer for Diode Laser Pumped Rubidium.
PB94-216066 *01,527*

Diode-Laser Pumped, Rubidium Cell Frequency Standards.
PB95-163218 *01,538*

Improved Rubidium Frequency Standards Using Diode Lasers with AM and FM Noise Control.
PB95-176152 *04,303*

RUBIDIUM-LIKE IONS
Rb-Like Spectra: Pd X to Nd XXIV.
PB95-150645 *03,897*

RUBIDIUM POTASSIUM FULLERIDES
Neutron-Scattering Study of Librations and Intramolecular Phonons in Rb2.6K0.4C60.
PB95-162269 *00,958*

RULERS
Length Metrology of Complimentary Small Plastic Rulers.
PB96-161724 *04,096*

RUN TIME (COMPUTERS)
Faster BKL Monte Carlo Simulations.
PB95-136370 *01,706*

RUSSIAN FEDERATION
Proceedings of the Meeting of the Intergovernmental U.S.-Russian Business Development Committee's Standard Working Group (4th). Held in New York City, New York on March 27-29, 1995 and in Northbrook, Illinois on March 30-31, 1995.
PB95-255881 *00,496*

RUTHENIUM ALLOYS
New Alloys Show Extraordinary Resistance to Fracture and Wear.
PB95-151346 *03,346*

RUTHENIUM OXIDE
Thin-Film Ruthenium Oxide - Iridium Oxide Thermocouples.
PB97-110225 *00,520*

RYDBERG ATOMS
RIS Measurements of the AC Stark Shift.
PB96-158035 *04,078*

RYDBERG STATES
Verification of the Ponderomotive Approximation for the ac Stark Shift in Xe Rydberg Levels.
PB94-185709 *03,801*

New Rydberg States of Aluminum Monofluoride Observed by Resonance-Enhanced Multiphoton Ionization Spectroscopy.
PB94-199544 *00,797*

Resonance Enhanced Multiphoton Ionization Detection of GeF and GeCl Radicals.
PB94-212123 *00,825*

Experimental and Abinitio Studies of Electronic Structures of the CCl3 Radical and Cation.
PB94-212131 *00,826*

Multiphoton Ionization of SiH3 and SiD3 Radicals. 2. Three Photon Resonance-Enhanced Spectra Observed between 460 and 610 nm.
PB94-212487 *00,835*

New Electronic States of NH and ND Observed from 258 to 288 nm by Resonance Enhanced Multiphoton Ionization Spectroscopy.
PB94-212495 *00,836*

Multiphoton Ionization of SiH3 and SiD3 Radicals: Electronic Spectra, Vibrational Analyses of the Ground and Rydberg States, and Ionization Potential.
PB94-212503 *00,837*

Electronic Spectra of CF2Cl and CFCl2 Radicals Observed by Resonance Enhanced Multiphoton Ionization.
PB95-151023 *00,927*

Alignment in Two-Step Pulsed Laser Excitation of Rydberg Levels in Light Atoms: The Example of Sodium.
PB95-202883 *03,993*

Alignment Probing of Rydberg States by Stimulated Emission.
PB96-200316 *04,124*

SACRAMENTO (CALIFORNIA)
Histopathology, Blood Chemistry, and Physiological Status of Normal and Moribund Striped Bass ('Morone saxatilis') Involved in Summer Mortality ('Die-Off') in the Sacramento-San Joaquin Delta of California.
PB94-198157 *00,034*

SAFETY
Software Safety and Program Slicing.
PB95-125894 *01,703*

NIST Workshop on Gas Sensors: Strategies for Future Technologies. Proceedings of a Workshop. Held in Gaithersburg, Maryland on September 8-9, 1993.
PB95-210225 *00,507*

SAFETY ENGINEERING
Some Basics on Who's Who and What's What in Seismic Safety.
PB95-150926 *00,435*

Implementation of Executive Order 12699: Seismic Safety of Federal and Federally Assisted or Regulated New Building Construction.
PB95-151809 *00,436*

Concepts for Fire Protection of Passenger Rail Transportation Vehicles: Past, Present, and Future.
PB96-102868 *04,853*

Fire Safety Engineering Research in the United States.
PB96-151394 *00,213*

Elements of a Framework for Fire Safety Engineering.
PB96-151402 *00,214*

C++ in Safety Critical Systems.
PB96-154588 *01,750*

Internationalization of Fire Safety Engineering Research and Strategy.
PB96-156153 *00,220*

International Organization for Standardization: Current Activities in Fire Safety Engineering.
PB96-159660 *00,223*

SAFETY FACTORS
Predicting the Fire Performance of Buildings: Establishing Appropriate Calculation Methods for Regulatory Applications.
PB96-141239 *00,316*

SAFETY PROGRAMS
Control and Instrumentation: Standards for High-Integrity Software.
PB96-161369 *03,736*

SAGNAC CURRENT SENSOR
Polarization Insensitive 3x3 Sagnac Current Sensor Using Polarizing Spun High-Birefringence Fiber.
PB96-119276 *02,187*

SAGNAC EFFECT
Polarization Dependence of Response Functions in 3x3 Sagnac Optical Fiber Current Sensors.
PB96-122684 *02,189*

SALES
Method of Sale for CNG Paves Way to Greater Public Acceptance.
PB95-168449 *02,489*

SALIVA
Distribution of Fluoride in Saliva and Plaque Fluid After a 0.048 mol/L NaF Rinse.
PB95-151205 *03,561*

SALIVATION
Effects on Whole Saliva of Chewing Gums Containing Calcium Phosphates.
PB95-153169 *03,563*

SAMARIUM CUPRATES
Field Dependence of the Magnetic Ordering of Cu in R2CuO4 (R = Nd, Sm).
PB95-164521 *04,633*

Observation of Noncollinear Magnetic Structure for the Cu Spins in Nd2CuO4-Type Systems.
PB95-164539 *04,634*

SAMPLE CONCENTRATORS
Simple, Inexpensive Apparatus for Sample Concentration.
PB94-199205 *00,546*

SAMPLE PREPARATION
Introduction of a NIST Instrument Sensitivity Standard Reference Material for X-Ray Powder Diffraction.
PB94-200318 *00,807*

SAMPLING
Wideband Sampling Voltmeter.
PB97-113039 *01,990*

Pilot Studies for Improving Sampling Protocols.
PB97-118715 *02,530*

SAN FRANCISCO AIRPORT
Assessment of Site Response Analysis Procedures.
PB95-210928 *00,450*

SAN FRANCISCO BAY
Histopathology, Blood Chemistry, and Physiological Status of Normal and Moribund Striped Bass ('Morone saxatilis') Involved in Summer Mortality ('Die-Off') in the Sacramento-San Joaquin Delta of California.
PB94-198157 *00,034*

SANTA ANA (CALIFORNIA)
Santa Ana Fire Department Experiment at 1315 South Bristol, July 14, 1994.
PB95-188868 *00,389*

Santa Ana Fire Department Experiment at 1315 South Bristol, July 14, 1994. (Reprint).
PB96-102934 *00,207*

SATELLITE ANTENNAS
Development of Near-Field Test Procedures for Communication Satellite Antennas.
PB96-135082 *02,010*

SATELLITE ATMOSPHERES
Laboratory Studies of Low-Temperature Reactions of C2H with C2H2 and Implications for Atmospheric Models of Titan.
PB95-108726 *00,690*

SATELLITE COMMUNICATION
Error Protecting Characteristics of CDMA and Impacts on Speech.
PB96-122452 *01,491*

SATELLITE INSTRUMENTS
Semiconductor Measurement Technology: Improved Characterization and Evaluation Measurements for HgCdTe Detector Materials, Processes, and Devices Used on the GOES and TIROS Satellites.
PB94-188810 *02,122*

SATELLITE ORBITS
Frozen Orbits for Satellites Close to an Earth-Like Planet.
PB96-102165 *04,839*

SATELLITE THEORY
Frozen Orbits for Satellites Close to an Earth-Like Planet.
PB96-102165 *04,839*

SATELLITE TRACKING
Comparison of GPS Broadcast and DMA Precise Ephemerides.
N94-30660/2 *01,523*

SATURATION (CHEMISTRY)
Measurements of the Viscosities of Saturated and Compressed Fluid 1-chloro-1,2,2,2-tetrafluoroethane (R124) and Pentafluoroethane (R125) at Temperatures between 120 and 420 K.
PB94-199791 *03,254*

Measurements of the Viscosities of Saturated and Compressed Liquid 1,1,1,2-Tetrafluoroethane (R134a), 2,2-Dichloro-1,1,1-Trifluoroethane (R123) and 1,1-Dichloro-1-Fluoroethane (R141b).
PB95-175386 *03,273*

SATURATION SPECTROSCOPY
Optically Stabilized Tunable Diode-Laser System for Saturation Spectroscopy.
PB96-102819 *04,717*

SCALAR APPROXIMATION
Vector and Quasi-Vector Solutions for Optical Waveguide Modes Using Efficient Galerkin's Method with Hermite-Gauss Basis Functions.
PB96-141197 *04,357*

SCALE ERROR STANDARDS
Length Metrology of Complimentary Small Plastic Rulers.
PB96-161724 *04,096*

SCALE MODELS
Scaling Compartment Fires: Reduced- and Full-Scale Enclosure Burns.
PB96-175708 *00,224*

SCALES
Comparison of Filter Radiometer Spectral Responsivity with the NIST Spectral-Irradiance and Illuminance Scales.
PB97-113161 *04,162*

SCALING
Simple Scalability Test for MIMD Code.
PB94-193638 *01,688*

SCALING FACTOR
Estimate of the Effect of Scale on Radiative Heat Loss Fraction and Combustion Efficiency.
PB95-150447 *02,486*

SCALING LAWS
Design Equations and Scaling Laws for Linear Compressors with Flexure Springs.
PB95-168902 *02,948*

Critical Scaling Laws and a Classical Equation of State.
PB95-169249 *00,990*

SCANDIUM HYDRIDES
Neutron Spectroscopic Comparison of Rare-Earth/Hydrogen alpha-Phase Systems.
PB95-163523 *00,970*

SCANDIUM IONS
Dielectronic Capture Processes in the Electron-Impact Ionization of Sc(2+).
PB95-203113 *04,000*

SCANNED PROBE MICROSCOPY
Summary Report: Workshop on Industrial Applications of Scanned Probe Microscopy (2nd). A Workshop Co-Sponsored by NIST, SEMATECH, ASTM E42.14, and the American Vacuum Society. Held in Gaithersburg, Maryland on May 2-3, 1995.
PB96-131602 *00,509*

SCANNING
Scanning Capacitance Microscopy Measurements and Modeling: Progress Towards Dopant Profiling of Silicon.
PB96-148150 *04,773*

Fabrication Issues for the Prototype National Institute of Standards and Technology SRM 2090A Scanning Electron Microscope Magnification Calibration Standard.
PB96-160585 *01,131*

Scanning Capacitance Microscopy Measurements and Modeling for Dopant Profiling of Silicon.
PB96-164207 *04,781*

Scanning Electron Microscope Magnification Calibration Interlaboratory Study.
PB96-201082 *01,164*

SCANNING CAPACITANCE MICROSCOPY
2D-Scanning Capacitance Microscopy Measurements of Cross-Sectioned VLSI Teststructures.
PB96-163779 *04,104*

Scanning Capacitance Microscopy Measurements and Modeling: Progress Towards Dopant Profiling of Silicon.
PB96-180070 *01,964*

SCANNING ELECTION MICROSCOPY
Phase Identification in a Scanning Electron Microscope Using Backscattered Electron Kikuchi Patterns.
PB97-109128 *04,804*

SCANNING ELECTRON MICROSCOPES
Scanning Electron Microscopy Observations of Misfit Dislocations in Epitaxial In0.25Ga0.75As on GaAs(001).
PB96-200159 *03,004*

Monte Carlo Simulation of Scanning Electron Microscope Signals.
PB96-200969 *02,444*

Modification of a Commercial SEM with a Computer Controlled Cathode Stabilized Power Supply.
PB96-201066 *04,129*

SCANNING ELECTRON MICROSCOPY
Environmental Scanning Electron Microscope Imaging Examples Related to Particle Analysis.
PB94-172822 *00,766*

Quantitative Phase Abundance Analysis of Three Cement Clinker Reference Materials by Scanning Electron Microscopy.
PB94-173051 *00,333*

Measurement and Uncertainty of a Calibration Standard for the Scanning Electron Microscope.
PB94-219250 *00,560*

Monte Carlo Model for SEM Linewidth Metrology.
PB95-150058 *02,331*

Loading Device for Fracture Testing of Compact Tension Specimens in the Scanning Electron Microscope.
PB95-162434 *02,652*

Cement and Concrete Characterization by Scanning Electron Microscopy.
PB95-163168 *00,379*

Micromagnetic Scanning Microprobe System.
PB95-176178 *02,224*

Use of Monte Carlo Modeling for Interpreting Scanning Electron Microscope Linewidth Measurements.
PB96-137807 *02,413*

SEMPA Studies of Exchange Coupling in Magnetic Multilayers.
PB96-164074 *04,780*

Report on the NIST Low Accelerating Voltage SEM Magnification Standard Interlaboratory Study.
PB96-201074 *02,445*

SEM Linewidth Metrology of X-ray Lithography Masks.
PB96-201108 *02,447*

SCANNING PROBE METHODS
Characterization of Two-Dimensional Dopant Profiles: Status and Review.
PB96-119300 *02,400*

SCANNING TUNNELING MICROSCOPY
Polyethylene Crystallized from an Entangled Solution Observed by Scanning Tunneling Microscopy.
PB95-107389 *01,232*

Single-Atom Point Source for Electrons: Field-Emission Resonance Tunneling in Scanning Tunneling Microscopy.
PB95-125860 *00,893*

Scanning Tunneling Microscopy and Fabrication of Nanometer Scale Structures at the Liquid-Gold Interface.
PB95-140414 *00,904*

Morphological Estimation of Tip Geometry for Scanned Probe Microscopy.
PB95-203444 *02,662*

SCATTERED FRACTIONS OF DOSE
Scattered Fractions of Dose from 18 and 25 MV X-ray Radiotherapy Linear Accelerators.
PB96-186101 *04,120*

SCATTERING
Scattering Properties of the Leveled-Wave Model of Random Morphologies.
PB94-198835 *03,807*

SCATTERING-PARAMETER MEASUREMENT
Line-Reflect-Match Calibrations with Nonideal Microstrip Standards.
PB96-176599 *02,242*

SCATTERING PARAMETERS
Verification of Scattering Parameter Measurements.
PB95-163960 *01,904*

Comments on 'Conversions between S, Z, Y, h, ABCD, and T Parameters Which Are Valid for Complex Source and Load Impedances'.
PB96-102785 *02,069*

Two-Tier Multiline TRL for Calibration of Low-Cost Network Analyzers.
PB96-157888 *01,947*

SCHRODINGER EQUATION
New Exact Solution of the One-Dimensional Schrodinger Equation and Its Application to Polarized Neutron Reflectometry.
PB95-161832 *04,609*

Numerical Solution of the Nonlinear Schroedinger Equation for Small Samples of Trapped Neutral Atoms.
PB95-202578 *03,985*

SCIENTIFIC LITERATURE
Standard Samples and Reference Standards Issued by the National Bureau of Standards.
AD-A279 240/6 *02,613*

Preliminary List of References Containing Compilations of Data on Properties of Materials.
AD-A302 670/5 *03,243*

SCIENTIFIC VISUALIZATION
Visualization Applications for Manufacturing: A State-of-the-Art Survey. Final Report.
PB94-194552 *02,816*

SCINTILLATION COUNTERS
Measurement of Absorbed Dose of Neutrons, and of Mixtures of Neutrons and gamma rays.
AD-A286 647/3 *03,710*

SCINTILLATION COUNTING
Liquid-Scintillation Counting Techniques for the Standardization of Radionuclides Used in Therapy.
PB97-110084 *03,709*

SCREW FIXATION
Reinforcement of Cancellous Bone Screws with Calcium Phosphate Cement.
PB96-158001 *00,179*

SCREW THREADS
Screw-Thread Standards for Federal Services, 1957. Part 3.
AD-A279 121/8 *02,854*

Screw-Thread Standards for Federal Services, 1957. Part 1.
AD-A279 290/1 *02,855*

Screw-Thread Standards for Federal Services, 1957. Handbook H28 (1957), Part 2. Revised.
AD-A280 082/9 *03,599*

1950 Supplement to Screw-Thread Standards for Federal Services. 1944.
AD-A280 223/9 *03,656*

Variations in Size Measurements by Indicating Gaging Systems.
PB95-163614 *02,864*

SDNS (SECURE DATA NETWORK SYSTEM)
SDNS Security Management.
PB95-161170 *01,592*

SEALING COMPOUNDS
Formation of Hydroxyapatite in Cement Systems.
PB95-175261 *00,170*

SEAMS (JOINTS)
Effects of Adhesive Thickness, Open Time, and Surface Cleanness on the Peel Strength of Adhesive-Bonded Seams of EPDM Rubber Roofing Membrane.
PB95-151338 *00,372*

Characteristics of Adhesive-Bonded Seams Sampled from EPDM Roof Membranes.
PB95-162491 *00,377*

Pulse-Echo Ultrasonic Evaluation of the Integrity of Seams of Single-Ply Roof Membranes.
PB95-163804 *00,381*

SEARCH PROFILES
Coping with Different Retrieval Methods in Next Generation Networks.
PB95-168555 *02,726*

Move-to-Root Rule for Self-Organizing Trees with Markov Dependent Requests.
PB96-179528 *03,431*

SEARCHING
Tree-Lookup for Partial Sums Or: How Can I Find This Stuff Quickly.
PB96-179411 *01,770*

SECONDARY ION MASS SPECTROSCOPY
Use of Kinetic Energy Distributions to Determine the Relative Contributions of Gas Phase and Surface Fragmentation in KeV Ion Sputtering of a Quaternary Ammonium Salt.
PB95-126108 *00,570*

Molecular Ion Imaging and Dynamic Secondary Ion Mass Spectrometry of Organic Compounds.
PB95-126124 *00,571*

SECTORAL ANALYSIS
Information Infrastructure: Reaching Society's Goals. Report of the Information Infrastructure Task Force Committee on Applications and Technology.
PB94-214756 *01,469*

SECURE COMMUNICATIONS
Data Encryption Standard.
PB95-162376 *01,595*

Telecommunications Security Guidelines for Telecommunications Management Network. Computer Security.
PB96-139415 *01,496*

Introduction to Secure Telephone Terminals.
PB97-110498 *01,512*

SECURE DATA NETWORK SYSTEM
SDNS Security Management.
PB95-161170 *01,592*

SECURITY
Impact of the FCC's Open Network Architecture on NS/NP Telecommunications Security.
PB95-189445 *01,483*

SECURITY LABELS
Standard Security Label for Information Transfer; Category: Computer Security; Subcategory: Security Labels.
FIPS PUB 188 *01,571*

SEDIGRAPH METHOD
Statistical Analysis of Parameters Affecting the Measurement of Particle-Size Distribution of Silicon Nitride Powders by Sedigraph (Trade Name).
PB94-216249 *03,042*

SEDIMENTS
National Status and Trends Program Specimen Bank: Sampling Protocols, Analytical Methods, Results, and Archive Samples.
PB97-119226 *02,598*

SEE (SOFTWARE ENGINEERING ENVIRONMENT)
Guide to Software Engineering Environment Assessment and Evaluation.
PB94-140167 *01,676*

SEES (SOFTWARE ENGINEERING ENVIRONMENTS)
Making Sense of Software Engineering Environment Framework Standards.
PB95-105037 *01,701*

SEGMENT INSERTION
Inserting Line Segments into Triangulations and Tetrahedralizations.
PB95-198933 *03,415*

SEISMIC DESIGN
Standards of Seismic Safety for Existing Federally Owned or Leased Buildings and Commentary.
PB95-130209 *00,431*

Implementation of Executive Order 12699: Seismic Safety of Federal and Federally Assisted or Regulated New Building Construction.
PB95-151809 *00,436*

World of Building Codes.
PB95-203428 *00,449*

ICSSC Guidance on Implementing Executive Order 12941 on Seismic Safety of Existing Federally Owned or Leased Buildings.
PB96-128103 *00,459*

De Facto Microzonation through the Use of Soils Factors in Design Triggers.
PB96-141148 *00,462*

Executive Order 12941. Seismic Safety of Existing Federally Owned or Leased Buildings: It's History, Content and Objectives.
PB96-156021 *00,465*

Proceedings of a Workshop on Developing and Adopting Seismic Design and Construction Standards for Lifelines. Held in Denver, Colorado on September 25-27, 1991.
PB97-115794 *01,302*

SEISMIC EFFECTS
Dynamic Characteristics of Five Tall Buildings during Strong and Low-Amplitude Motions.
PB94-199981 *00,427*

Wind and Seismic Effects. Proceedings of the U.S.-Japan Cooperative Program in Natural Resources Panel on Wind and Seismic Effects (26th). Held in Gaithersburg, Maryland on May 17-20, 1994.
PB95-147385 *00,433*

Performance of Federal Buildings in the January 17, 1994 Northridge Earthquake.
PB95-231775 *00,453*

Recommended Performance-Based Criteria for the Design of Manufactured Home Foundation Systems to Resist Wind and Seismic Loads.
PB96-128285 *00,460*

January 17, 1995 Hyogoken-Nanbu (Kobe) Earthquake. Performance of Structures, Lifelines and Fire Protection Systems. Executive Summary and Paper.
PB97-104160 *00,475*

Wind and Seismic Effects: Proceedings of the Joint Meeting of the U.S.-Japan Cooperative Program in Natural Resources Panel on Wind and Seismic Effects (28th). Held in Gaithersburg, Maryland on May 14-17, 1996.
PB97-104376 *00,476*

SEISMIC ISOLATION SYSTEMS
Draft Guideline for Testing and Evaluation of Seismic Isolation Systems.
PB94-172947 *00,423*

Summary and Results of the NIST Workshop on Proposed Guidelines for Testing and Evaluation of Seismic Isolation Systems. Held in San Francisco, California on July 25, 1994.
PB96-154901 *00,463*

SEISMIC RETROFITTING
Jacket Thickness Requirements for Seismic Retrofitting of Circular Bridge Columns.
PB95-163267 *01,336*

SEISMIC SAFETY
Evaluation and Retrofit Standards for Existing Federally Owned and Leased Buildings.
PB95-150918 *00,434*

Some Basics on Who's Who and What's What in Seismic Safety.
PB95-150926 *00,435*

Lessons from the Loma Prieta Earthquake.
PB95-164091 *00,442*

Seismic Safety of Federal Buildings. Initial Program: How Much Will It Cost.
PB95-182291 *00,447*

SEISMIC WAVES
Assessment of Site Response Analysis Procedures.
PB95-210928 *00,450*

Response of Buildings to Ambient Vibration and the Loma Prieta Earthquake: A Comparison.
PB96-119607 *00,457*

Estimation of System Damping at the Lotung Site by Application of System Identification.
PB96-214697 *01,351*

SELECTION RULES
Comparison of the Liquid Chromatographic Behavior of Selected Steroid Isomers Using Different Reversed-Phase Materials and Mobile Phase Compositions.
PB95-140976 *00,574*

SELECTIVE DISSEMINATION OF INFORMATION
Computer Security Management and Planning in the U.S. Federal Government.
PB95-163432 *01,596*

Guidance to Federal Agencies on the Use of Trusted Systems.
PB95-163440 *01,597*

SELECTIVE ELECTRODES
Cyclic Polyamine Ionophore for Use in a Dibasic Phosphate-Selective Electrode.
PB95-180121 *01,008*

SELECTIVITY
Developing Measurement for Experimentation.
PB97-118707 *03,450*

SELENIUM
Thermodynamics of (Germanium + Selenium): A Review and Critical Assessment.
PB97-112536 *01,182*

Large Local-Field Corrections in Optical Rotatory Power of Quartz and Selenium.
PB97-122378 *04,400*

SELENIUM IONS
Absolute Cross-Section Measurements for Electron-Impact Single Ionization of Se(+) and Te(+).
PB95-202503 *03,980*

SELF ASSEMBLED MONOLAYERS
Silver Metalization of Octadecanethiol Monolayers Self-Assembled on Gold.
PB95-150744 *00,923*

UV-Photopatterning of Alkylthiolate Monolayers Self-Assembled on Gold and Silver.
PB95-150751 *00,924*

Surface Plasmon Microscopy of Biotin-Streptavidin Binding Reactions on UV-Photopatterned Alkanethiol Self-Assembled Monolayers.
PB96-176771 *01,158*

SELF-AVOIDING SURFACES
Self-Avoiding Surfaces, Topology, and Lattice Animals.
PB95-150512 *04,571*

SELF-AVOIDING WALKS
Examination of the l/d Expansion Method from Exact Enumeration for a Self-Interacting Self-Avoiding Walk.
PB95-175733 *01,266*

Self-Avoiding-Walk Contacts and Random-Walk Self-Intersections in Variable Dimensionality.
PB96-102231 *01,276*

SELF CALIBRATION
Self-Calibrating Fiber Optic Sensors: Potential Design Methods.
PB95-169298 *02,172*

Self Calibrating Fiber Optic Sensors: Potential Design Methods.
PB95-169306 *02,173*

Self-Calibrated Intelligent Optical Sensors and Systems.
PB96-200738 *04,380*

SELF ORGANIZING SYSTEMS
Move-to-Root Rule for Self-Organizing Trees with Markov Dependent Requests.
PB96-179528 *03,431*

SELF-PRESERVATION BEHAVIOR
Global Density Effects on the Self-Preservation Behavior of Turbulent Free Jets.
PB95-162301 *04,207*

SELF RECIPROCAL FUNCTION
Self-Reciprocal Fourier Functions.
PB96-200852 *01,974*

SELF-SETTING
Physical and Chemical Properties of Resin-Reinforced Calcium Phosphate Cements.
PB95-180212 *00,171*

SELF TESTS
Self-Calibrating Fiber Optic Sensors: Potential Design Methods.
PB95-169298 *02,172*

Self Calibrating Fiber Optic Sensors: Potential Design Methods.
PB95-169306 *02,173*

SEMICONDUCTOR DEVICES
Development and Characterization of Insulating Layers on Silicon Carbide: Annual Report for February 14, 1988 to February 14, 1989.
PB94-155579 *02,295*

Wire Bond Testing.
PB94-211653 *02,314*

Precision, Accuracy, Uncertainty and Traceability and Their Application to Submicrometer Dimensional Metrology.
PB94-213105 *02,319*

Physics for Device Simulations and Its Verification by Measurements.
PB95-141172 *02,327*

Exact Solution of the Steady-State Surface Temperature for a General Multilayer Structure.
PB95-152773 *02,337*

Electrical Test Structure for Improved Measurement of Feature Placement and Overlay in Integrated Circuit Fabrication Processes.
PB95-164273 *02,355*

Optical Characterization in Microelectronics Manufacturing.
PB95-169397 *02,358*

Status and Trends in Power Semiconductor Devices.
PB95-175097 *02,361*

Correlation of Optical, X-ray, and Electron Microscopy Measurements of Semiconductor Multilayer Structures.
PB95-175279 *02,174*

Electronics and Electrical Engineering Laboratory Technical Progress Bulletin Covering Laboratory Programs, October to December 1994 with 1995 EEEL Events Calendar.
PB95-208724 *02,372*

Semiconductor Measurement Technology: HOTPAC. Programs for Thermal Analysis Including Version 3.0 of the TXYZ Program, TXYZ30, and the Thermal MultiLayer Program, TML.
PB95-260766 *02,374*

Exact Recursion Relation Solution for the Steady-State Surface Temperature of a General Multilayer Structure.
PB96-102017 *02,376*

Semiconductor Measurement Technology: Test Structure Implementation Document: DC Parametric Test Structures and Test Methods for Monolithic Microwave Integrated Circuits (MMICs).
PB96-117692 *02,399*

Millimeter-Resolution Optical Time-Domain Reflectometry Using a Four-Wave Mixing Sampling Gate.
PB96-122700 *02,190*

Scanning Capacitance Microscopy Measurements and Modeling: Progress Towards Dopant Profiling of Silicon.
PB96-148150 *04,773*

Semiconductor Measurement Technology: Survey of Optical Characterization Methods for Materials, Processing, and Manufacturing in the Semiconductor Industry.
PB96-154596 *02,706*

National Semiconductor Metrology Program, Project Portfolio FY 1996.
PB96-195268 *04,789*

SEMICONDUCTOR INTERFACES
High-Accuracy Principal-Angle Scanning Spectroscopic Ellipsometry of Semiconductor Interfaces.
PB96-163787 *02,427*

SEMICONDUCTOR JUNCTIONS
Junction Locations by Scanning Tunneling Microscopy: In-Air-Ambient Investigation of Passivated GaAs pn Junctions.
PB94-185964 *02,306*

SEMICONDUCTOR LASERS
Vertical-Cavity Optoelectronic Structures: CAD, Growth, and Structural Characterization.
PB95-153177 *02,148*

Vertical-Cavity Semiconductor Structures: Materials Characterization.
PB95-153185 *02,149*

Vertical-Cavity Semiconductor Lasers: Structural Characterization, CAD, and DFB Structures.
PB95-153193 *02,150*

Effect of Semiconductor Laser Characteristics on Optical Fiber Sensor Performance.
PB95-169132 *02,167*

High-Sensitivity Spectroscopy with Diode Lasers.
PB95-175477 *04,297*

Diode Laser as a Spectroscopic Tool.
PB95-175485 *00,600*

Stabilization of 3.3 and 5.1 m Lead-Salt Diode Lasers by Optical Feedback.
PB95-180709 *04,313*

Low-Noise High-Speed Diode Laser Current Controller.
PB95-202826 *02,178*

Narrow-Band Tunable Diode Laser System with Grating Feedback, and a Saturated Absorption Spectrometer for Cs and Rb.
PB95-202891 *04,319*

SEMICONDUCTOR MATERIALS
National Semiconductor Metrology Program, Project Portfolio FY 1996.
PB96-195268 *04,789*

SEMICONDUCTORS
Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, October to December 1994 with 1995 EEEL Events Calendar.
PB95-231841 *01,918*

Nonequilibrium Total-Dielectric-Function Approach to the Electron Boltzmann Equation for Inelastic Scattering in Doped Polar Semiconductors.
PB96-138532 *04,416*

Cross-Sectional Photoluminescence and Its Application to Buried-Layer Semiconductor Structures.
PB96-141106 *02,415*

Methodology for the Certification of Reference Specimens for Determination of Oxygen Concentration in Semiconductor Silicon by Infrared Spectrophotometry.
PB96-155478 *02,421*

Soft-X-ray-Emission Investigation of Cobalt Implanted Silicon Crystals.
PB96-157912 *04,069*

Using Collocation in Three Dimensions and Solving a Model Semiconductor Problem.
PB96-159249 *01,952*

Business and Manufacturing Motivations for the Developing of Analytical Technology and Metrology for Semiconductors.
PB96-161948 *04,778*

President's Column 'Editorial'.
PB96-164090 *02,239*

Optical Characterization of Materials and Devices for the Semiconductor Industry: Trends and Needs.
PB96-167192 *02,431*

Novel Magnetic Field Characterization Techniques for Compound Semiconductor Materials and Devices.
PB96-176458 *02,433*

Hybrid Optical-Electrical Overlay Test Structure.
PB96-204136 *02,450*

Double Modulation and Selective Excitation Photoreflectance for Characterizing Highly Luminescent Semiconductor Structures and Samples with Poor Surface Morphology.
PB97-111439 *02,452*

Application of the Collocation Method in Three Dimensions to a Model Semiconductor Problem.
PB97-122428 *02,457*

SEMICONDUCTORS (MATERIALS)

Lattice Dynamics of Semiconducting, Metallic, and Superconducting Ba1-xKxBiO3 Studied by Inelastic Neutron Scattering.
PB96-102447 *04,708*

Development of a Standard Reference Material for Measurement of Interstitial Oxygen Concentration in Semiconductor Silicon by Infrared Absorption.
PB96-122668 *02,404*

SENICONDUCTOR DEVICES

Scanning Capacitance Microscopy Measurements and Modeling for Dopant Profiling of Silicon.
PB96-164207 *04,781*

SENSITIVITY

Influence of the Filament Potential Wave Form on the Sensitivity of Glass-Envelope Bayard-Alpert Gages.
PB95-175014 *02,657*

Environmental Sensitivities of Quartz Oscillators.
PB96-103148 *02,271*

Developing Measurement for Experimentation.
PB97-118707 *03,450*

SENSITIVITY ANALYSIS

Sensitivity Analysis for Mathematical Modeling of Fires in Residential Buildings.
PB96-154968 *00,215*

SENSORS

Intelligent Processing of Hot Isostatic Pressing.
PB94-172913 *03,315*

In-Line Optical Monitoring of Injection Molding.
PB94-185105 *01,201*

Polarization Insensitive 3x3 Sagnac Current Sensor Using Polarizing Spun High-Birefringence Fiber.
PB96-119276 *02,187*

Contact Tube Wear Detection in Gas Metal Arc Welding.
PB96-135330 *02,872*

SEPARATION MATRICES

Intercomparison of DNA Sizing Ladders in Electrophoretic Separation Matrices and Their Potential for Accurate Typing of the D1S80 Locus.
PB96-200928 *03,485*

SEPARATION PROCESSES

Low Temperature H(sub 2)S Separation Using Membrane Reactor with Redox Catalyst.
DE94008991 *02,471*

Development of Engineered Stationary Phases for the Separation of Carotenoid Isomers.
PB95-150249 *00,578*

Shape Selectivity Assessment of Stationary Phases in Gas Chromatography.
PB95-150256 *00,579*

Supercritical Fluid Extraction of Biological Products.
PB95-175204 *00,040*

SEQUENCE DELETION

Deletion Analysis of the Mini-P1 Plasmid Origin of Replication and the Role of E.coli DnaA Protein.
PB95-163911 *03,539*

SERIAL SECTIONING

Serial Sectioning of Hardened Cement Paste for Scanning Electron Microscopy.
PB94-172640 *01,305*

SERIES EXPANSION

Examination of the l/d Expansion Method from Exact Enumeration for a Self-Interacting Self-Avoiding Walk.
PB95-175733 *01,266*

Self-Avoiding-Walk Contacts and Random-Walk Self-Intersections in Variable Dimensionality.
PB96-102231 *01,276*

SERUM ALBUMIN

Two Phase Aqueous Extraction: Rheological Properties of Dextran, Polyethylene Glycol, Bovine Serum Albumin and Their Mixtures.
PB95-161998 *00,676*

SERUMS

Methods for Analysis of Cancer Chemopreventive Agents in Human Serum.
PB95-200648 *03,502*

Liquid Chromatographic Determination of Carotenoids in Human Serum Using an Engineered C30 and a C18 Stationary Phase.
PB97-119333 *03,512*

SERVICE LIFE

Suggestions for a Logically-Consistent Structure for Service Life Prediction Standards.
PB95-125795 *00,358*

Methodologies for Predicting the Service Lives of Coating Systems.
PB95-146387 *03,124*

Survey of Concrete Transport Properties and Their Measurement.
PB95-220489 *00,396*

SERVOCONTROL

Integration of Servo Control into a Large-Scale Control System Design: An Example from Coal Mining.
PB94-203429 *03,696*

SEWAGE

Water Efficient Plumbing Fixtures through Standards and Test Methods.
PB95-125951 *00,248*

SGML (STANDARD GENERALIZED MARKUP LANGUAGE)

SGML Environment for STEP.
PB95-143103 *02,778*

SGML Parser Validation Procedures.
PB95-174959 *01,717*

Standard Generalized Markup Language Test Suite Evaluation Report.
PB96-154992 *01,751*

SHAPE

Using Logic to Specify Shapes and Spatial Relations in Design Grammars.
PB97-111579 *02,793*

SHAPE RECOVERY

Physics-Based Vision: Principles and Practice, Shape Recovery (Book Review).
PB95-164075 *01,846*

SHAPE SELECTIVITY

Shape Selectivity Assessment of Stationary Phases in Gas Chromatography.
PB95-150256 *00,579*

Selectivity Trends in Packed Column Supercritical Fluid Chromatography with C18 Stationary Phases.
PB96-138581 *00,622*

SHAPED CHARGES

Texture Study of Two Molybdenum Shaped Charge Liners by Neutron Diffraction.
PB94-200177 *03,754*

Microstructure Study of Molybdenum Liners by Neutron Diffraction.
PB95-202396 *03,756*

SHAPIRO STEPS

Effect of Thermal Noise on Shapiro Steps in High-Tc Josephson Weak Links.
PB94-212677 *04,506*

Terahertz Shapiro Steps in High Temperature SNS Josephson Junctions.
PB95-169140 *02,168*

Large-Amplitude Shapiro Steps and Self-Field Effects in High-Tc Josephson Weak Links.
PB95-180410 *04,682*

SHARED MEMORY PROGRAMS

Using Synthetic Perturbations and Statistical Screening to Assay Shared-Memory Programs.
PB96-103031 *01,740*

SHEAR

Shear-Induced Martensitic-Like Transformation in a Block Copolymer Melt.
PB96-119508 *01,277*

Simulation and SANS Studies of Gelation Under Shear.
PB96-167176 *01,150*

Small-Angle Neutron-Scattering Study of Dense Sheared Silica Gels.
PB96-167184 *01,151*

SHEAR ALIGNMENT

Small-Angle Neutron Scattering (SANS) Study of Worm-Like Micelles Under Shear.
PB96-176698 *04,111*

SHEAR FLOW

Crossover to Strong Shear in a Low-Molecular-Weight Critical Polymer Blend.
PB94-211976 *01,222*

SANS and LS Studies of Polymer Mixtures Under Shear Flow.
PB95-107090 *01,231*

Response of a Terminally Anchored Polymer Chain to Simple Shear Flow.
PB95-108668 *01,233*

Anisotropic Phase Separation Kinetics in a Polymer Blend Solution Following Cessation of Shear Studied by Light Scattering.
PB95-151247 *01,241*

Neutron Scattering Study of the Orientation of a Liquid Crystalline Polymer by Shear Flow.
PB95-180196 *01,270*

Shear-Induced Mixing in Polymer Blends.
PB96-148085 *01,287*

SHEAR PROPERTIES

Dynamic Shear Modulus Measurements with Four Independent Techniques in Nickel-Based Alloys.
PB94-198900 *03,320*

SHEAR RATE

Shear-Excited Morphological States in a Triblock Copolymer.
PB94-172392 *01,196*

Shear Dependence of Critical Fluctuations in Binary Polymer Mixtures by Small Angle Neutron Scattering.
PB94-211612 *01,220*

SHEAR STRESS

Fluorescence Anisotropy Measurements on a Polymer Melt as a Function of Applied Shear Stress.
PB94-199296 *01,209*

Observations of Shear Induced Molecular Orientation in a Polymer Melt Using Fluorescence Anisotropy Measurements.
PB94-199304 *01,210*

Observations of Shear Stress and Molecular Orientation Using Fluorescence Anisotropy Measurements.
PB94-199312 *01,211*

SHEAR THINNING

Structure and Rheology of Hard-Sphere Systems.
PB96-167333 *00,662*

SHEET METAL

Determination of Sheet Steel Formability Using Wide Band Electromagnetic-Acoustic Transducers.
PB96-186036 *02,279*

SHEETS

Fracture Testing of Large-Scale Thin-Sheet Aluminum Alloy.
AD-A306 625/5 *03,305*

SHIELDING

Shielding of Cracks in a Plastically Polarizable Material.
PB95-164257 *04,631*

SHIELDOSE-2 COMPUTER PROGRAM

Updated Calculations for Routine Space-Shielding Radiation Dose Estimates: SHIELDOSE-2.
PB95-171039 *04,838*

SHIELDS

Standard Source Method for Reducing Antenna Factor Errors in Shielded Room Measurements.
PB96-183157 *02,013*

SHIP FIRES

Materials and Fire Threat.
PB97-122311 *01,442*

SHOCK TESTS

Testing the Sensitivity of Accelerometers Using Mechanical Shock Pulses Under NIST Special Publication 250 Test No. 24040S.
PB96-179544 *02,683*

SHOCK TUBES

Shock Tube Techniques in Chemical Kinetics.
PB95-163465 *00,968*

SHOT NOISE

Observation of Hot-Electron Shot Noise in a Metallic Resistor.
PB97-112007 *01,988*

SHRINKAGE

Reduction of Marginal Gaps in Composite Restorations by Use of Glass-Ceramic Inserts.
PB96-102405 *00,174*

Modelling Drying Shrinkage of Cement Paste and Mortar. Part 1. Structural Models from Angstroms to Millimeters.
PB96-135132 *03,074*

SIALON

Cavitation Damage During Flexural Creep of SiAlON-YAG Ceramics.
PB94-200110 *03,036*

SIDELOBES

Planar Near-Field Measurements of Low-Sidelobe Antennas.
PB94-219235 *02,001*

Comparison of Ultralow-Sidelobe-Antenna Far-Field Patterns Using the Planar-Near-Field Method and the Far-Field Method.
PB96-200373 *02,015*

SIGNAL CONDITIONING

Bounds on Least-Squares Four-Parameter Sine-Fit Errors Due to Harmonic Distortion and Noise.
PB96-141304 *01,609*

SIGNAL ESTIMATION

Compensation of Markov Estimator Errors in Time-Jittered Sampling of Nonmonotonic Signals.
PB95-150983 *01,590*

SIGNAL GENERATORS

Reducing Errors, Complexity, and Measurement Time of PM Noise Measurements.
PB96-119771 *02,075*

SIGNAL PROCESSING

Approach to Setting Performance Requirements for Automated Evaluation of the Parameters of High-Voltage Impulses.
PB94-185634 *01,878*

Analysis of Scattering Asymmetry Statistics When Background Corrected Counts Are Negative.
PB94-200334 *03,824*

Uncertainty Intervals for Polarized Beam Scattering Asymmetry Statistics.
PB94-200342 *03,825*

Satellite Two-Way Time Transfer: Fundamentals and Recent Progress.
PB95-161089 *01,536*

Comment and Discussion on Digital Processing of PD Pulses.
PB96-122775 *01,932*

SIGNAL RECONSTRUCTION
Casual Regularizing Deconvolution Filter for Optimal Waveform Reconstruction.
PB95-203089 *01,603*

SIGNAL-TO-NOISE RATIO
Perception of Clamp Noise in Television Receivers.
PB96-119433 *01,489*

SIGNAL TRANSDUCTION
Energy Transduction between a Concentration Gradient and an Alternating Electric Field.
PB94-216363 *03,461*

SIGNAL TRANSMISSION
Preliminary Comparison of Time Transfers via LASSO, GPS and Two-Way Satellite.
PB95-151098 *01,529*

SIGNALS
Procedures for Document Facsimile Transmission Issued by General Services Administration, April 14, 1982. Federal Standard 1063.
FIPS PUB 148 *01,516*

Electronics and Electrical Engineering Laboratory Technical Publication Announcements Covering Laboratory Programs, October to December 1994 with 1995 EEEL Events Calendar.
PB95-231841 *01,918*

Accuracy in Time Domain Transmission Line Measurements.
PB96-148069 *04,060*

SILANE
Preparation of Immobilized Proteins Covalently Coupled Through Silane Coupling Agents to Inorganic Supports.
PB95-151403 *03,530*

SILANE/METHACRYLOXYPROPHYL TRIMETHOXY
Copolymerization of N-Phenyl Maleimide and gamma-Methacryloxypropyl Trimethoxysilane.
PB95-153144 *01,248*

SILANES
Plasma Chemistry in Disilane Discharges.
PB94-211075 *02,514*

Plasma Chemistry in Silane/Germane and Disilane/Germane Mixtures.
PB95-202537 *01,027*

SILCON DIOXIDE
New Physics-Based Model for Time-Dependent- Dielectric-Breakdown.
PB96-186093 *02,440*

SILICA
Small Angle Neutron Scattering Study of the Structure and Formation of Ordered Mesopores in Silica.
PB96-111919 *03,069*

SILICA FUME
Evolution of Porosity and Calcium Hydroxide in Laboratory Concretes Containing Silica Fume.
PB95-175063 *01,321*

SILICATES
Real-Time Small-Angle X-Ray Scattering Study of the Early Stage of Phase Separation in the SiO2-BaO-K20 System.
PB95-163069 *03,052*

SILICIDES
Tensile Creep of Silicide Composites.
PB96-200803 *03,183*

SILICON
Precision Comparison of the Lattice Parameters of Silicon Monocrystals.
PB94-169745 *04,438*

Vibrational Distributions of As2 in the Cracking of As4 on Si(100) and Si(111).
PB94-198314 *00,784*

Magnetic Dead Layer in Fe/Si Multilayer: Profile Refinement of Polarized Neutron Reflectivity Data.
PB94-198363 *04,458*

Status of a Silicon Lattice Measurement and Dissemination Exercise.
PB94-199635 *04,474*

Measurement of Boron at Silicon Wafer Surfaces by Neutron Depth Profiling.
PB94-211059 *04,487*

Atomic Theory of Fracture of Brittle Materials: Application to Covalent Semiconductors.
PB94-216553 *04,519*

New Values for Silicon Reference Materials, Certified for Isotope Abundance Ratios. Letter to the Editor.
PB94-219268 *00,863*

Standard Reference Materials: Certification of a Standard Reference Material for the Determination of Interstitial Oxygen Concentration in Semiconductor Silicon by Infrared Spectrophotometry.
PB95-125076 *02,326*

Nanoscale Study of the As-Grown Hydrogenated Amorphous Silicon Surface.
PB95-150595 *04,573*

Use of Sum Rules on the Energy-Loss Function for the Evaluation of Experimental Optical Data.
PB95-150736 *04,264*

Multiphoton Ionization Spectroscopy Measurements of Silicon Atoms during Vapor Phase Synthesis of Ceramic Particles.
PB95-151999 *03,913*

Direct Detection of Atomic Arsenic Desorption from Si(100).
PB95-202230 *01,024*

Nanoscale Study of the Hydrogenated Amorphous Silicon Surface.
PB96-103056 *04,720*

Photodesorption Dynamics of CO from Si(111): The Role of Surface Defects.
PB96-111646 *03,066*

Effect of Anneal Temperature on Si/Buried Oxide Interface Roughness on SIMOX.
PB96-112206 *02,382*

Silicon Surface Chemistry by IR Spectroscopy in the Mid- to Far-IR Region: H2O and Ethanol on Si(100).
PB96-138565 *01,097*

Scanning Capacitance Microscopy Measurements and Modeling: Progress Towards Dopant Profiling of Silicon.
PB96-148150 *04,773*

Semiconductor Measurement Technology: Survey of Optical Characterization Methods for Materials, Processing, and Manufacturing in the Semiconductor Industry.
PB96-154596 *02,706*

Methodology for the Certification of Reference Specimens for Determination of Oxygen Concentration in Semiconductor Silicon by Infrared Spectrophotometry.
PB96-155478 *02,421*

Effect of Single versus Multiple Implant Processing on Defect Types and Densities in SIMOX.
PB96-160353 *01,957*

Interfaces in Mo/Si Multilayers.
PB96-160668 *02,423*

Scanning Capacitance Microscopy Measurements and Modeling for Dopant Profiling of Silicon.
PB96-164207 *04,781*

Kinetic-Energy-Enhanced Neutral Etching.
PB96-200613 *00,665*

Electrical Test Structures Replicated in Silicon-on-Insulator Material.
PB97-111827 *02,454*

SILICON 28
Measurement of the J=2 less than 1 Fine-Structure Interval for (28)Si and (29)Si in the Ground (3)P State.
PB94-185097 *00,771*

SILICON 29
Measurement of the J=2 less than 1 Fine-Structure Interval for (28)Si and (29)Si in the Ground (3)P State.
PB94-185097 *00,771*

SILICON ADDITIONS
Lattice Position of Si in GaAs Determined by X-Ray Standing Wave Measurements.
PB95-164406 *04,632*

SILICON ATOMS
Multiphoton Ionization Spectroscopy Measurements of Silicon Atoms during Vapor Phase Synthesis of Ceramic Particles.
PB95-151999 *03,913*

SILICON CARBIDE
In situ-Toughened Silicon Carbide.
PB97-110332 *03,102*

SILICON CARBIDES
Review of Corrosion Behavior of Ceramic Heat Exchanger Materals: Corrosion Characteristics of Silicon Carbide and Silicon Nitride. Final Report, September 11, 1992--March 11, 1993.
DE93041307 *03,228*

Ceramic Characterization.
DE94013170 *03,026*

Development and Characterization of Insulating Layers on Silicon Carbide: Annual Report for February 14, 1988 to February 14, 1989.
PB94-155579 *02,295*

Analysis of Creep in a Si-SiC C-Ring by Finite Element Method.
PB94-200268 *03,037*

Coating of Fibers by Colloidal Techniques in Ceramic Composites.
PB94-216256 *03,196*

Characterization of Phase and Surface Composition of Silicon Carbide Platelets.
PB94-216264 *03,043*

Interface Modification and Characterization of Silicon Carbide Platelets Coated with Alumina Particles.
PB95-108734 *03,121*

Creep Rupture of MoSi2/SiCp Composites.
PB95-152294 *03,154*

Flat and Rising R-Curves for Elliptical Surface Cracks from Indentation and Superposed Flexure.
PB95-161295 *03,156*

Oxidation of SiC.
PB96-119516 *02,401*

Journal of Research of the National Institute of Standards and Technology, September/October 1993. Volume 98, Number 5.
PB96-169057 *03,368*

Corrosion Characteristics of Silicon Carbide and Silicon Nitride.
PB96-169081 *03,372*

SILICON COMPOUNDS
Wear Modeling of Si-Based Ceramics.
PB97-122501 *03,112*

SILICON DEFECTS
Stacking Fault Pyramid Formation and Energetics in Silicon-on-Insulator Material Formed by Multiple Cycles of Oxygen Implantation and Annealing.
PB96-160221 *04,083*

SILICON DIODES
One Gigarad Passivating Nitrided Oxides for 100% Internal Quantum Efficiency Silicon Photodiodes.
PB94-185485 *02,119*

Silicon Photodiodes Optimized for EUV and Soft X-Ray Regions.
PB94-199478 *02,124*

SILICON DIOXIDE
Contact Electrification Induced by Monolayer Modification of a Surface and Relation to Acid-Base Interactions.
PB94-185378 *03,034*

Experimental Investigation of the Validity of TDDB Voltage Acceleration Models.
PB94-185949 *02,304*

Field and Temperature Acceleration of Time-Dependent Dielectric Breakdown in Intrinsic Thin SiO2.
PB94-185956 *02,305*

Imaging of Fine Porosity in a Colloidal Silica: Potassium Silicate Gel by Defocus Contrast Microscopy.
PB94-212750 *03,039*

Characterization of Chemically Modified Pore Surfaces by Small Angle Neutron Scattering.
PB95-126181 *00,898*

Spectroscopic Ellipsometry Determination of the Properties of the Thin Underlying Strained Si Layer and the Roughness at SiO2/Si Interface.
PB95-150157 *04,560*

High Temperature Reliability of Thin Film SiO2.
PB95-150348 *02,333*

Modeling Ceramic Sub-Micron Particle Formation from the Vapor Using Detailed Chemical Kinetics: Comparison with In-situ Laser Diagnostics.
PB95-151965 *00,671*

Experimental and Numerical Studies of Refractory Particle Formation in Flames: Application to Silica Growth.
PB95-152005 *00,673*

Simulation of Ceramic Particle Formation: Comparison with In-situ Measurements.
PB95-152013 *00,674*

Room Temperature Thermal Conductivity of Fumed-Silica Insulation for a Standard Reference Material.
PB95-152039 *00,374*

Molecular Orbital Study of Water Enhanced Crack Growth Process.
PB95-164067 *03,240*

Optimization of ECR-Based PECVD Oxide Films for Superconducting Integrated Circuit Fabrication.
PB95-169165 *02,051*

Partial Scattered Intensities from a Binary Suspension of Polystyrene and Silica.
PB95-175618 *00,996*

TDDB Characterization of Thin SiO2 Films with Bimodal Failure Populations.
PB96-102926 *02,381*

Alkali-Silica Reaction and High Performance Concrete.
PB96-131537 *01,345*

Time-Dependent Dielectric Breakdown of Intrinsic SiO2 Films under Dynamic Stress.
PB96-179478 *02,438*

Electric Field Dependent Dielectric Breakdown of Intrinsic SiO2 Films Under Dynamic Stress.
PB96-204102 *02,449*

Characterization of Time-Dependent Dielectric Breakdown in Intrinsic Thin SiO2.
PB97-122527 *02,458*

SILICON FILMS
Laser Melting of Thin Silicon Films.
PB94-199239 *04,471*

Characterization of Interface Defects in Oxygen-Implanted Silicon Films.
PB94-216629 *02,322*

SILICON IONS
Electron-Impact Excitation of Si(3+)(3S yields 3P) Using a Merged-Beam Electron-Energy-Loss Technique.
PB95-151239 *03,904*

Absolute Cross Sections for Electron-Impact Single Ionization of Si(+) and Si(2+).
PB95-202529 *03,982*

SILICON ISLANDS
Mechanism of Defect Formation in Low-Dose Oxygen Implanted Silicon-on-Insulator Material.
PB97-111462 *02,453*

SILICON MEMBRANES
Lithium-Drift Technique for Making Submicron Thick Silicon Membranes.
PB95-161386 *02,260*

SILICON NANOCOLUMNS
Construction of Silicon Nanocolumns with the Scanning Tunneling Microscope.
PB95-203063 *04,696*

SILICON NITRIDE
Cavitation Contributes Substantially to Tensile Creep in Silicon Nitride.
PB96-122577 *03,171*

Chemically Assisted Machining of Si3N4.
PB96-122999 *03,072*

Transient Creep Behaviour of Hot Isostatically Pressed Silicon Nitride.
PB96-180278 *03,086*

Cavity Evolution during Tensil Creep of Si3N4.
PB96-204193 *03,376*

Tension/Compression Creep Asymmetry in Si3N4.
PB97-110258 *03,096*

High Temperature Structural Reliability of Silicon Nitride.
PB97-110456 *03,104*

SILICON NITRIDES
Review of Corrosion Behavior of Ceramic Heat Exchanger Materals: Corrosion Characteristics of Silicon Carbide and Silicon Nitride. Final Report, September 11, 1992--March 11, 1993.
DE93041307 *03,228*

Densification of Nano-Size Powders. 1994 Report.
DE94013486 *03,027*

Equipment for Investigation of Cryogenic Compaction of Nanosize Silicon Nitride Powders. 1993 Report.
DE94013593 *03,028*

Low temperature fabrication from nano-size ceramic powders.
DE95013505 *03,029*

Tensile Creep of Whisker Reinforced Silicon Nitride.
PB94-211984 *03,142*

Observed and Theoretical Creep Rates for an Alumina Ceramic and a Silicon Nitride Ceramic in Flexure.
PB94-212958 *03,040*

Statistical Analysis of Parameters Affecting the Measurement of Particle-Size Distribution of Silicon Nitride Powders by Sedigraph (Trade Name).
PB94-216249 *03,042*

Deposition of Colloidal Sintering-Aid Particles on Silicon Nitride.
PB94-216272 *03,044*

Tensile Creep of a Silicon Nitride Ceramic.
PB95-161303 *03,049*

Polyelectrolytes as Dispersants in Colloidal Processing of Silicon Nitride Ceramics.
PB95-175568 *03,055*

Surface Chemical Interactions of Si3N4 with Polyelectrolyte Deflocculants.
PB95-175576 *03,056*

Effects of Soxhlet Extraction on the Surface Oxide Layer of Silicon Nitride Powders.
PB95-175584 *03,057*

Interaction of Stoichiometry, Mechanical Stress, and Interface Trap Density in LPCVD Si-rich SiNx-Si Structures.
PB95-176301 *02,366*

Boundary Lubrication of Silicon Nitride.
PB95-213583 *03,226*

Silicon Nitride Boundary Lubrication: Lubrication Mechanism of Alcohols.
PB96-111703 *03,067*

Silicon Nitride Boundary Lubrication: Effect of Oxygenates.
PB96-111711 *03,068*

Surface Chemistry of Silicon Nitride Powder in the Presence of Dissolved Ions.
PB96-111760 *01,073*

Electrokinetic Sonic Analysis of Silicon Nitride Suspensions.
PB96-123575 *03,073*

Journal of Research of the National Institute of Standards and Technology, September/October 1993. Volume 98, Number 5.
PB96-169057 *03,368*

Corrosion Characteristics of Silicon Carbide and Silicon Nitride.
PB96-169081 *03,372*

Fracture Mechanism Maps: Their Applicability to Silicon Nitride.
PB96-204532 *03,094*

SILICON ON INSULATOR
Effect of Intermediate Thermal Processing on Microstructural Changes of Oxygen Implanted Silicon-on-Insulator Material.
PB96-160213 *02,982*

Stacking Fault Pyramid Formation and Energetics in Silicon-on-Insulator Material Formed by Multiple Cycles of Oxygen Implantation and Annealing.
PB96-160221 *04,083*

SILICON SOLAR CELLS
Atomic-scale characterization of hydrogenated amorphous-silicon films and devices. Annual subcontract report, 14 February 1994--14 April 1995.
DE95009287 *02,294*

SILVER
Cryogenic Properties of Silver.
PB94-203593 *03,330*

Silver Metalization of Octadecanethiol Monolayers Self-Assembled on Gold.
PB95-150744 *00,923*

UV-Photopatterning of Alkylthiolate Monolayers Self-Assembled on Gold and Silver.
PB95-150751 *00,924*

Low-Temperature Properties of Silver.
PB96-126198 *03,361*

Direct Comparison of Three PTB Silver Fixed-Point Cells with the NIST Silver Fixed-Point Cell.
PB96-161286 *00,628*

SILVER DEPOSITION
Silver Metalization of Octadecanethiol Monolayers Self-Assembled on Gold.
PB95-150744 *00,923*

SILVER ELECTRODES
Conformational Alterations of Bovine Insulin Adsorbed on a Silver Electrode.
PB96-161773 *00,510*

SILVER-LIKE IONS
Spectra of Ag I Isoelectronic Sequence Observed from Er(21+) to Au(32+).
PB95-150660 *03,899*

SILVER SPRING (MARYLAND)
Source of Phenol Emissions Affecting the Indoor Air of an Office Building.
PB94-154382 *03,600*

SILYL RADICALS
Multiphoton Ionization of SiH3 and SiD3 Radicals. 2. Three Photon Resonance-Enhanced Spectra Observed between 460 and 610 nm.
PB94-212487 *00,835*

Multiphoton Ionization of SiH3 and SiD3 Radicals: Electronic Spectra, Vibrational Analyses of the Ground and Rydberg States, and Ionization Potential.
PB94-212503 *00,837*

SIMA (SYSTEMS INTEGRATED FOR MANUFACTURING APPLICATIONS)
NIST SIMA Interactive Management Workshop. Held in Fort Belvoir, Virginia on November 14-16, 1994.
PB96-154877 *02,838*

SIMA (SYSTEMS INTEGRATION FOR MANUFACTURING APPLICATIONS)
Technical Program Description Systems Integration for Manufacturing (SIMA).
PB94-213758 *02,819*

Requisite Elements, Rationale, and Technology Overview for the Systems Intergration for Manufacturing Applications (SIMA) Program. Background Study.
PB96-112685 *02,831*

Systems Integration for Manufacturing Applications Program 1995 Annual Report.
PB96-193735 *02,844*

SIMD (COMPUTERS)
MasPar MP-1 as a Computer Arithmetic Laboratory.
PB95-189437 *01,627*

SIMOX
Electron Traps, Structural Change, and Hydrogen Related SIMOX Defects.
PB94-200391 *02,312*

Charge Trapping and Breakdown Mechanism in SIMOX.
PB94-216637 *02,323*

Effect of Annealing Ambient on the Removal of Oxide Precipitates in High-Dose Oxygen Implanted Silicon.
PB95-164356 *02,356*

Evidence for a Deep Electron Trap and Charge Compensation in Separation by Implanted Oxygen Oxides.
PB95-175337 *02,362*

Defect Pair Formation by Implantation-Induced Stresses in High-Dose Oxygen Implanted Silicon-on-Insulator Material.
PB95-175824 *02,364*

Effect of Anneal Temperature on Si/Buried Oxide Interface Roughness on SIMOX.
PB96-112206 *02,382*

Nano-Defects in Commercial Bonded SOI and SIMOX.
PB96-123674 *02,407*

Effect of Intermediate Thermal Processing on Microstructural Changes of Oxygen Implanted Silicon-on-Insulator Material.
PB96-160213 *02,982*

Effect of Single versus Multiple Implant Processing on Defect Types and Densities in SIMOX.
PB96-160353 *01,957*

SIMULATION
Hot-Deformation Apparatus for Thermomechanical Processing Simulation.
PB94-200136 *03,207*

Cellular Automaton Simulations of Cement Hydration and Microstructure Development.
PB95-175055 *01,320*

Faster Monte Carlo Simulations.
PB96-102074 *04,018*

Two-Dimensional Self-Consistent Radio Frequency Plasma Simulations Relevant to the Gaseous Electronics Conference RF Reference Cell.
PB96-113436 *02,398*

Collection of Results for the SPC/E Water Model.
PB96-147889 *01,127*

SINGLE CRYSTALS
Environmentally Enhanced Fracture of Ceramics.
PB95-125746 *03,046*

Epitaxial Integration of Single Crystal C60.
PB95-153490 *04,592*

Photoluminescence Spectra of Epitaxial Single Crystal C60.
PB96-141205 *04,754*

SINGLE ELECTRON TRANSISTORS
Combined Josephson and Charging Behavior of the Supercurrent in the Superconducting Single-Electron Transistor.
PB95-168522 *04,637*

Voltage Gain in the Single-Electron Transistor.
PB95-176335 *04,671*

SINGLE ELECTRON TUNNELING
Proposed Tests to Evaluate the Frequency-Dependent Capacitor Ratio for Single Electron Tunneling Experiment.
PB97-111454 *01,982*

SINGLE FIBER PULL-OUT TEST
Determination of Fiber-Matrix Interfacial Properties of Importance to Ceramic Composite Toughening.
PB95-125811 *03,149*

SINGLE ION DETECTORS
Superconducting Resonator and a Cryogenic GaAs Field-Effect Transistor Amplifier as a Single-Ion Detection System.
PB95-202727 *03,990*

SINGLE-PLY ROOF MEMBRANES
Pulse-Echo Ultrasonic Evaluation of the Integrity of Seams of Single-Ply Roof Membranes.
PB95-163804 *00,381*

SINTERING
Evolution of the Pore Size Distribution in Final-Stage Sintering of Alumina Measured by Small-Angle X-ray Scattering. (Reannouncement with New Availability Information).
AD-A249 178/5 *03,023*

Small-Angle Neutron Scattering Characterization of Processing/Microstructure Relationships in the Sintering of Crystalline and Glassy Ceramics. (Reannouncement with New Availability Information).
AD-A249 510/9 *03,025*

Controlled Nucleation in Aerosol Reactors for Supression of Agglomerate Formation.
PB95-151973 *00,672*

Effect of Sm2BaCuO5 on the Properties of Sintered (Bulk) YBa2Cu3O6+x.
PB96-119441 *04,733*

SINUSOIDAL SURFACES
Light Scattering by Sinusoidal Surfaces: Illumination Windows and Harmonics in Standards.
PB97-110548 *04,387*

Sinusoidal Surfaces as Standards for BRDF Instruments.
PB97-110597 *04,388*

Windowing Effects on Light Scattering by Sinusoidal Surfaces.
PB97-111215 *04,389*

SITE CHARACTERIZATION
Assessment of Site Response Analysis Procedures.
PB95-210928 *00,450*

SIZE DETERMINATION
Bibliography on Apparel Sizing and Related Issues.
PB94-161924 *02,806*

Parametric Investigation of Metal Powder Atomization Using Laser Diffraction.
PB95-108577 *03,342*

Ultrasonic Technique for Sizing Voids Using Area Functions.
PB95-151916 *02,904*

Variations in Size Measurements by Indicating Gaging Systems.
PB95-163614 *02,864*

SIZE (DIMENSIONS)
Lighting Quality and Light Source Size.
PB95-151783 *00,252*

SKY SURVEYS (ASTRONOMY)
Volume-Limited ROSAT Survey of Extreme Ultraviolet Emission from all Nondegenerate Stars within 10 Parsecs.
PB96-103189 *00,093*

Efficient Way of Identifying New Active Stars: A VLA Survey of X-ray Selected Active Stellar Candidates.
PB96-122882 *00,099*

Scientific Rationale and Present Implementation Strategy for the Far Ultraviolet Spectrograph Explorer (FUSE).
PB96-123328 *00,045*

Riass Coronathon: Joint X-ray and Ultraviolet Observations of Normal F-K Stars.
PB96-200217 *00,109*

SLI ARITHMETRIC
Basic Linear Algebra Operations in SLI Arithmetic.
PB96-165931 *03,421*

SLIDING FRICTION
Wear Model for Alumina Sliding Wear.
PB95-163796 *03,239*

Friction and Oxidative Wear of 440C Ball Bearing Steels Under High Load and Extreme Bulk Temperatures.
PB95-175253 *03,215*

SLIDING VANES
Sliding Vane Flow Conditioner Tests in a 100 Diameter Long 10 inch Natural Gas Orifice Meter at Pacific Gas and Electric. Topical Report, 1990-1992.
PB95-256335 *02,493*

SLOW ELECTRONS
Electron Attachment to Excited Molecules(1).
PB96-122809 *01,087*

SMALL ANGLE NEUTRON SCATTERING
High-Temperature Furnace for In situ Small-Angle Neutron Scattering during Ceramic Processing.
PB96-148127 *03,743*

Instrumental Smearing Effects in Radially Symmetric Small-Angle Neutron Scattering by Numerical and Analytical Methods.
PB96-160429 *02,984*

Simulation and SANS Studies of Gelation Under Shear.
PB96-167176 *01,150*

Small-Angle Neutron-Scattering Study of Dense Sheared Silica Gels.
PB96-167184 *01,151*

Structure and Rheology of Hard-Sphere Systems.
PB96-167333 *00,662*

Small Angle Neutron Scattering Study of a Clay Suspension Under Shear.
PB96-167374 *00,663*

Small-Angle Neutron Scattering (SANS) Study of Worm-Like Micelles Under Shear.
PB96-176698 *04,111*

SMALL ANGLE SCATTERING
Neutron Scattering by Multiblock Copolymers of Structure (A-B)N-A.
PB94-211547 *01,219*

Shear Dependence of Critical Fluctuations in Binary Polymer Mixtures by Small Angle Neutron Scattering.
PB94-211612 *01,220*

Small-Angle X-Ray and Neutron Scattering Study of Block Copolymer/Homopolymer Mixtures.
PB94-211729 *01,221*

Crossover to Strong Shear in a Low-Molecular-Weight Critical Polymer Blend.
PB94-211976 *01,222*

Characterization of Chemically Modified Pore Surfaces by Small Angle Neutron Scattering.
PB95-126181 *00,898*

Characterization of Polyquinoline Block Copolymer Using Small Angle Scattering.
PB95-151882 *01,244*

Hydration in Semicrystalline Polymers: Small-Angle Neutron Scattering Studies of the Effect of Drawing in Nylon-6 Fibers.
PB95-202990 *03,385*

SMALL BUSINESSES
Learning to Change: Opportunities to Improve the Performance of Smaller Manufacturers.
PB94-166212 *00,010*

Opportunities for Innovation: Pollution Prevention.
PB95-147146 *02,520*

Network Brokers Handbook: An Entrepreneurial Guide to Cooperative Strategies for Manufacturing Competitiveness.
PB95-219325 *00,490*

SMALL POLAR MOLECULES
Estimating the Virial Coefficients of Small Polar Molecules.
PB95-176236 *03,276*

SMART CLOCK
Smart Clock: A New Time.
PB95-151445 *01,530*

SMELTING
In-situ Fume Particle Size and Number Density Measurements from a Synthetic Smelt.
PB94-212040 *03,334*

SMOKE
Two Numerical Techniques for Light Scattering by Dielectric Agglomerated Structures.
PB94-140597 *04,225*

Ground-Based Smoke Sampling Techniques Training Course and Collaborative Local Smoke Sampling in Saudi Arabia.
PB94-143542 *02,532*

Effective Measurement Techniques for Heat, Smoke, and Toxic Fire Gases.
PB94-198439 *01,369*

Ultrafine Combustion Aerosol Generator.
PB94-200300 *01,373*

Overview of Smoke Control Technology.
PB94-212867 *00,348*

Preview of ASHRAE's Revised Smoke Control Manual.
PB94-212875 *00,349*

Smoke Control Systems for Elevator Fire Evacuation.
PB94-212883 *00,291*

Development of a New Small-Scale Smoke Toxicity Test Method and Its Comparison with Real-Scale Fire Tests.
PB94-213253 *00,350*

Verification of a Model of Fire and Smoke Transport.
PB95-108718 *00,357*

Dispersion and Deposition of Smoke Plumes Generated in Massive Fires.
PB95-126066 *02,540*

Simulating Smoke Movement through Long Vertical Shafts in Zone-Type Compartment Fire Models.
PB95-143152 *00,368*

Method of Predicting Smoke Movement in Atria with Application to Smoke Management.
PB95-154746 *00,376*

Smoke Plume Trajectory from In situ Burning of Crude Oil in Alaska: Field Experiments.
PB96-131560 *02,594*

Large Eddy Simulations of Smoke Movement in Three Dimensions.
PB96-190012 *01,426*

SMOKE CONTROL
Full Scale Smoke Control Tests at the Plaza Hotel Building.
PB94-212859 *00,347*

Overview of Smoke Control Technology.
PB94-212867 *00,348*

Preview of ASHRAE's Revised Smoke Control Manual.
PB94-212875 *00,349*

Smoke Control Systems for Elevator Fire Evacuation.
PB94-212883 *00,291*

Fire and Smoke Control: An Historical Perspective.
PB95-175808 *00,202*

SMOKE DETECTORS
Measurement of Room Conditions and Response of Sprinklers and Smoke Detectors during a Simulated Two-Bed Hospital Patient Room Fire.
PB94-213717 *00,292*

Analysis of High Bay Hangar Facilities for Detector Sensitivity and Placement.
PB96-190210 *01,429*

SMOKE GENERATORS
Generation and Characterization of Acetylene Smokes.
PB94-200292 *01,372*

SMOKE MANAGEMENT
Method of Predicting Smoke Movement in Atria with Application to Smoke Management.
PB95-154746 *00,376*

SMOKE PROPAGATION
Improvement in Predicting Smoke Movement in Compartmented Structures.
PB94-172418 *00,332*

SMOKE TRANSPORT
Verification of a Model of Fire and Smoke Transport.
PB95-108718 *00,357*

SMOKE YIELD
Airborne Smoke Sampling Package for Field Measurements of Fires.
PB95-150041 *01,381*

SNS JUNCTIONS
Mutual Phase Locking in Systems of High-Tc Superconductor-Normal Metal-Superconductor Junctions.
PB96-135348 *04,744*

SODIUM
Electron-atom collision studies using optically state selected beams. Progress report, May 15, 1987--May 14, 1988.
DE95004446 *03,776*

Electron-atom collision studies using optically state selected beams. Progress report, May 15, 1988--May 14, 1991.
DE95004447 *03,777*

Can Quantum Mechanical Description of Electron-Sodium Collisions Be Considered Complete. Present Status and Future Prospects for 3s <-> 3p Transitions.
PB94-185014 *00,768*

Frozen Human Serum Reference Material for Standardization of Sodium and Potassium Measurements in Serum or Plasma by Ion-Selective Electrode Analyzers.
PB94-185337 *00,532*

Density Matrix Calculation of Population Transfer between Vibrational Levels of Na2 by Stimulated Raman Scattering with Temporally Shifted Laser Beams.
PB94-198546 *00,787*

Femtosecond Time-Resolved Wave Packet Motion in Molecular Multiphoton Ionization and Fragmentation.
PB94-198611 *00,790*

Structures of Sodium Metal.
PB94-198850 *03,319*

Determination of Complex Scattering Amplitudes in Low-Energy Elastic Electron-Sodium Scattering.
PB94-216652 *03,869*

Hyperfine Effects and Associative Ionization of Ultracold Sodium.
PB95-151221 *03,903*

High-Precision Calculations of Cross Sections for Low-Energy Electron Scattering by Ground and Excited State of Sodium.
PB95-152161 *03,914*

Spin-Resolved Elastic Scattering of Electrons from Sodium.
PB95-161774 *03,933*

Connection between Superelastic and Inelastic Electron-Atom Collisions Involving Polarized Collision Partners.
PB95-202297 *03,974*

Femtosecond Time-Resolved Molecular Multiphoton Ionization: The Na2 System.
PB95-202305 *03,975*

Three-Vector Correlation Study of Orientation and Coherence Effects in Na(3p, (2)P1/2 inversely maps (2)P3/2)+He: Semiclassical and Quantum Calculations.
PB95-202453 *03,979*

Alignment in Two-Step Pulsed Laser Excitation of Rydberg Levels in Light Atoms: The Example of Sodium.
PB95-202883 *03,993*

Threshold Electron Excitation of Na.
PB95-202917 *03,994*

Improved Hyperfine Measurements of the Na NP Excited State Through Frequency-Controlled Dopplerless Spectroscopy in a Zeeman Magneto-Optic Laser Trap.
PB95-203840 *04,012*

In-situ Studies of a Novel Sodium Flame Process for Synthesis of Fine Particles.
PB97-113047 *00,681*

Optical and Modeling Studies of Sodium/Halide Reactions for the Formation of Titanium and Boron Nanoparticles.
PB97-113054 *00,682*

SODIUM ATOMS
Associative Ionization in Collisions of Slowed and Trapped Sodium.
PB95-125886 *03,880*

Localization of Atoms in a Three-Dimensional Standing Wave.
PB95-163887 *03,944*

SODIUM BROMIDE
Isopiestic Investigation of the Osmotic and Activity Coefficients of Aqueous NaBr and the Solubility of NaBr2H2O(cr) at 298.15 K: Thermodynamic Properties of the NaBr + H2O System over Wide Ranges of Temperature and Pressure.
PB97-110365 *01,175*

SODIUM CARBONATES
Automated, High Precision Coulometric Titrimetry. Part 2. Strong and Weak Acids and Bases.
PB95-150207 *00,576*

SODIUM CHLORIDES
Comparison of the Corrosion Rates of FeAl, Fe(sub 3)Al and Steel in Distilled Water and 0.5 M Sodium Chloride. Technical Report Number 2, January--March 1991.
DE94017332 *03,186*

SODIUM RUBIDIUM FULLERIDES
Rotational Dynamics of C60 in Na2RbC60.
PB95-153201 *00,948*

SODIUM TUNGSTATES
Rietveld Analysis of NaxWO3+x/2.yH2O, Which Has the Hexagonal Tungsten Bronze Structure.
PB95-107371 *04,524*

SODIUM ZINC ARSENATE
Crystal Structure of a New Sodium Zinc Arsenate Phase Solved by 'Simulated Annealing'.
PB95-107124 *00,870*

SOFT X RAY
New NIST/ARPA National Soft X-ray Reflectometry Facility.
PB96-158092 *04,080*

Soft-X-ray Damage to p-terphenyl Coatings for Detectors.
PB96-159611 *04,364*

Influence of Electrical Isolation on the Structure and Reflectivity of Multilayer Coatings Deposited on Dielectric Substrates.
PB96-159736 *04,365*

New Method for Achieving Accurate Thickness Control for Uniform and Graded Multilayer Coatings on Large Flat Substrates.
PB96-159744 *04,366*

SOFT X-RAY EMISSION
Barium Contributions to the Valence Electronic Structure of YBa2Cu3O7-delta, PrBa2Cu3O7-delta, and Other Barium-Containing Compounds.
PB96-158019 *04,076*

SOFT X-RAY EMISSION SPECTRA
Charge-Transfer-Induced Multiplet Structure in the N4,5O2,3 Soft-X-ray Emission Spectrum of Lanthanum.
PB96-163746 *04,102*

SOFTWARE
FORTRAN Compiler Validation System, Version 2.1.
PB94-500691 *01,698*

HAZARD I Fire Hazard Assessment Method (Version 1.2) (for Microcomputers).
PB94-501988 *00,196*

HAZARD I Fire Hazard Assessment Method, Version 1.2 (Upgrade Package) (for Microcomputers).
PB94-501996 *00,197*

M (also known as MUMPS) Validation Test Suite, Version 8.3 (for Microcomputers).
PB94-502077 *01,699*

Building Life Cycle Cost Computer Program (BLCC), Version 4.2-95 (for Microcomputers).

SOL-GEL GLASS

Bacteriorhodopsin Immobilized in Sol-Gel Glass.
PB95-151429 03,532

SOLAR ACTIVITY

Distant Future of Solar Activity: A Case Study of Beta Hydri. 3. Transition Region, Corona, and Stellar Wind.
PB94-185220 00,049

Distant Future of Solar Activity: A Case Study of beta Hydri. 3. Transition Region, Corona, and Stellar Wind.
PB95-153441 00,074

SOLDER JOINTS

SPC Artifact for Automated Solder Joint Inspection.
PB96-161716 04,095

SOLDERING

Lubrication Theory for Reactive Spreading of a Thin Drop.
PB95-189460 02,865

SOLDERS

Aging Effects on XRF Measurements of Solder Coatings.
PB95-140927 03,123

SOLID CLUSTERS

Vibrational Relaxation Measurements of Carbon Monoxide on Metal Clusters.
PB94-211810 00,820

Cs Cluster Binding to a GaAs Surface.
PB94-213006 00,846

SOLID FUELS

Minimum Mass Flux Requirements to Suppress Burning Surfaces with Water Sprays.
PB96-183181 01,425

SOLID LUBRICANTS

Control of Friction and Wear of Alpha-Alumina with a Composite Solid-Lubricant Coating.
PB95-125969 03,225

SOLID NEON

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. XI. NO2(+), NO2(-), and NO3(-).
PB95-125688 00,890

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 13. Ions Derived from HBr and HI.
PB97-119234 01,188

SOLID-PHASE ENTRAPMENT

Flow Immunoassay Using Solid-Phase Entrapment.
PB96-200951 00,642

SOLID PROPELLANT COMBUSTION

Solid Propellant Gas Generators: Proceedings of the 1995 Workshop. Held in Gaithersburg, Maryland on June 28-29, 1995.
PB96-131479 01,412

SOLID-SOLID INTERFACES

Generalized Plane Strain Analysis of a Bimaterial Composite Containing a Free Surface Normal to the Interface.
PB95-163341 03,164

Measuring Contact Charge Transfer at Interfaces: A New Experimental Technique.
PB95-164570 03,053

SOLID SOLUTIONS

Modeling the Evolution of Structure in Unstable Solid Solution Phases by Diffusional Mechanisms.
PB94-199403 03,324

Magnetic Dielectric Oxides: Subsolidus Phase Relations in the BaO: Fe2O3: TiO2 System.
PB96-176524 01,156

SOLIDIFICATION

Computation of Dendrites Using a Phase Field Model.
PB94-160744 04,436

In-Line Optical Monitoring of Injection Molding.
PB94-185105 01,201

Thermodynamic Constraints on Non-Equilibrium Solidification of Ordered Intermetallic Compounds.
PB94-198934 03,321

Disorder Trapping in Ni2TiAl.
PB94-198942 *03,322*

Asymptotic Behavior of Modulated Taylor-Couette Flows with a Crystalline Inner Cylinder.
PB94-199072 *04,469*

Effect of Modulated Taylor-Couette Flows on Crystal-Melt Interfaces: Theory and Initial Experiments.
PB94-216736 *04,521*

xi-Vector Formulation of Anisotropic Phase-Field Models: 3-D Asymptotics.
PB95-136628 *04,536*

Phase-Field Model for Solidification of a Eutectic Alloy.
PB95-147914 *03,345*

Morphological Stability.
PB95-153318 *04,591*

Ultrasonic Method for Reconstructing the Two-Dimensional Liquid-Solid Interface in Solidifying Bodies.
PB95-161782 *03,349*

Xi-Vector Formulation of Anisotropic Phase-Field Models: 3-D Asymptotics.
PB97-122550 *04,816*

SOLIDS

Vibrational Spectra of Molecular Ions Isolated in Solid Neon: HCCH+ and HCC-. (Reannouncement with New Availability Information).
AD-A253 551/6 *00,707*

Vibrational Spectra of Molecular Ions Isolated in Solid Neon. 11. NO2(+), NO2(-), and NO3(-).
AD-A275 828/2 *00,708*

Density of Solids and Liquids.
AD-A278 517/8 *00,711*

Survey of the Literature on Heat Transfer from Solid Surfaces to Cryogenic Fluids.
AD-A286 680/4 *04,193*

Infrared and Near-Infrared Spectra of HCC and DCC Trapped in Solid Neon.
AD-A295 578/9 *03,773*

Surface Forces and Adhesion between Dissimilar Materials Measured in Various Environments.
PB94-172970 *03,033*

Supercritical Solubility of Solids from Near-Critical Dilute-Mixture Theory.
PB94-211703 *00,819*

Observed Frustration in Confined Block Copolymers.
PB95-150033 *01,238*

Molecular Orbital Calculations of Bond Rupture in Brittle Solids.
PB95-164059 *00,973*

Water Droplet Evaporation from Radiantly Heated Solids.
PB95-217147 *00,394*

Total-Dielectric-Function Approach to Electron and Phonon Response in Solids.
PB96-102884 *01,067*

Shear-Induced Melting of Two-Dimensional Solids.
PB96-112057 *01,075*

Intrinsic Viscosity and the Polarizability of Particles Having a Wide Range of Shapes.
PB96-119318 *03,170*

Hemispherical Test Fixture for Measuring the Wavefields Generated in an Anisotropic Solid.
PB96-190087 *03,181*

SOLUBILITY

Octacalcium Phosphate Carboxylates IV. Kinetics of Formation and Solubility of Octacalcium Phosphate Succinate.
PB94-185600 *00,776*

Supercritical Solubility of Solids from Near-Critical Dilute-Mixture Theory.
PB94-211703 *00,819*

Effect of Ethanol on the Solubility of Dicalcium Phosphate Dihydrate in the System Ca(OH)2-H3PO4-H2O at 37C.
PB95-163507 *00,163*

Effect of Ethanol on the Solubility of Hydroxyapatite in the System Ca(OH)2-H3PO4-H2O at 25C and 33C.
PB95-169231 *00,169*

Solubility Measurement by Direct Injection of Supercritical-Fluid Solutions into a HPLC System.
PB95-175626 *00,997*

High-Pressure Equilibrium Cell for Solubility Measurements in Supercritical Fluids.
PB95-175634 *00,998*

CO2/CH4 Transport in Polyperfluorosulfonate Ionomers: Effects of Polar Solvents on Permeation and Solubility.
PB96-163803 *01,145*

Solubilities of Copper(II) and Chromium(III) beta-Diketonates in Supercritical Carbon Dioxide.
PB96-164215 *01,147*

SOLUBILITY PRODUCTS

Composition and Solubility Product of a Synthetic Calcium Hydroxyapatite.
PB96-180104 *02,995*

SOLUTES

Shape Selectivity in Reversed-Phase Liquid Chromatography for the Separation of Planar and Non-Planar Solutes.
PB95-162608 *00,596*

Solubility Measurement by Direct Injection of Supercritical-Fluid Solutions into a HPLC System.
PB95-175626 *00,997*

SOLUTIONS

Neutron Scattering Study of Shear Induced Turbidity in Polystyrene/Dioctyl Phthalate Solutions at High Shear Rates.
PB94-172624 *01,197*

Long-Term Stability of Carrier-Free Polonium Solution Standards.
PB94-185170 *00,685*

Neutron Scattering Study of Shear Induced Turbidity in Polystyrene Dissolved in Dioctyl Phthalate.
PB95-161865 *01,256*

Effects of Aluminum Oxalate/Glycine Pretreatment Solutions on Dentin Permeability.
PB95-164505 *03,565*

Competition between Hydrodynamic Screening ('Draining') and Excluded Volume Interactions in an Isolated Polymer Chain.
PB95-175402 *01,265*

SOLVENTS

Solvent Effects in the Reactions of Peroxyl Radicals with Organic Reductants. Evidence for Proton Transfer Mediated Electron Transfer.
PB95-107157 *00,873*

Terminally Anchored Chain Interphases: Their Chromatographic Properties.
PB95-181061 *01,272*

Terminally Anchored Chain Interphases: The Effect of Multicomponent, Polydisperse Solvents on Their Equilibrium Properties.
PB95-181079 *01,273*

Mixing Plate-Like and Rod-Like Molecules with Solvent: A Test of Flory-Huggins Lattice Statistics.
PB96-126206 *03,173*

SOMMERFELD CONSTANT

Fine-Structure Constant.
PB94-172996 *03,795*

SOOT

Greatly Enhanced Soot Scattering in Flickering Ch4/Air Diffusion Flames.
PB94-172988 *01,361*

Laser Imaging of Chemistry-Flowfield Interactions: Enhanced Soot Formation in Time-Varying Diffusion Flames.
PB94-185352 *01,364*

Fundamental Mechanisms for CO and Soot Formation.

Microwave Spectrum and Structure of CH3NO2-H20.
AD-A296 377/5 *00,719*

Molecular Microwave Spectra Tables.
AD-A296 498/9 *00,720*

Energy Levels of Germanium, Ge I through Ge XXXII.
PB94-162351 *00,747*

SPECTRAL COMPARATOR
Comparison of Filter Radiometer Spectral Responsivity with the NIST Spectral-Irradiance and Illuminance Scales.
PB97-113161 *04,162*

SPECTRAL EMISSION
High-Speed Spatial Scanning Pyrometer.
PB94-200003 *02,636*

Standards for Corrected Fluorescence Spectra.
PB95-150835 *00,581*

Dynamic Technique for Measuring Normal Spectral Emissivity of Electrically Conducting Solids at High Temperatures with a High-Speed Spatial Scanning Pyrometer.
PB95-153045 *03,921*

SPECTRAL EMITTANCE
Wavelength Dependence of Normal Spectral Emissivity of High-Temperature Metals at Their Melting Point.
PB94-200011 *03,398*

SPECTRAL ENERGY DISTRIBUTION
Penetration and Diffusion of Hard X-rays through Thick Barriers. III. Studies of Spectral Distributions.
AD-A292 502/2 *03,771*

SPECTRAL INTERFERENCE
Spectral Interference in the Determination of Arsenic in High-Purity Lead and Lead-Base Alloys Using Electrothermal Atomic Absorption Spectrometry and Zeeman-Effect Background Correction.
PB96-112099 *00,614*

SPECTRAL LINES
Isotope Shifts and Hyperfine Splittings of the 398.8-nm Yb I Line.
PB94-199585 *03,814*

Sobolev Approximation for Line Formation with Partial Frequency Redistribution.
PB95-202669 *00,078*

Magnetic Fields in Star-Forming Regions: Observations.
PB96-123005 *00,100*

Irradiances of Spectral Lines in Mercury Pencil Lamps.
PB96-176466 *04,375*

SPECTRAL RADIANCE
Results of a NIST/VNIIOFI Comparison of Spectral-Radiance Measurements.
PB97-113021 *04,159*

SPECTRAL RADIOMETRY
Simultaneous Measurement of Normal Spectral Emissivity by Spectral Radiometry and Laser Polarimetry at High Temperatures in Pulse-Heating Experiments: Application to Molybdenum and Tungsten.
PB97-118376 *02,694*

SPECTRAL REFLECTANCE
Spectrally Smooth Reflectances That Match.
PB95-176319 *04,306*

SPECTRAL RESOLUTION
Observing Stellar Coronae with the Goddard High Resolution Spectrograph. I. The dMe Star AU Microscopii.
PB96-102777 *00,092*

Redshifts in Stellar Transition Regions.
PB96-123310 *00,104*

SPECTRAL SHIFT
Theoretical Analysis of the Coherence-Induced Spectral Shift Experiments of Kandpal, Vaishya, and Joshi.
PB94-219383 *00,561*

Comments on the Paper 'Wolf Shifts and Their Physical Interpretation under Laboratory Conditions'.
PB94-219391 *04,246*

Reply to Professor Wolf's Comments on My Paper on Wolf Shifts.
PB94-219409 *04,247*

Wavelengths and Isotope Shifts for Lines of Astrophysical Interest in the Spectrum of Doubly Ionized Mercury (Hg III).
PB95-140869 *03,887*

Van der Waals Bond Lengths and Electronic Spectral Shifts of the Benzene-Kr and Benzene-Xe Complexes.
PB95-151387 *00,932*

SPECTROCHEMISTRY ANALYSIS
Microanalysis to Nanoanalysis: Measuring Composition at High Spatial Resolution.
PB95-107173 *00,563*

SPECTROGRAPHS
Scientific Rationale and Present Implementation Strategy for the Far Ultraviolet Spectrograph Explorer (FUSE).
PB96-123328 *00,045*

SPECTROGRAPHY
Flat and Curved Crystal Spectrography for Mammographic X-ray Sources.
PB97-122246 *03,642*

SPECTROMETERS
Stabilization and Precise Calibration of a Continuous-Wave Difference Frequency Spectrometer by Use of a Simple Transfer Cavity.
PB95-162350 *04,276*

Electron-Ion-X-ray Spectrometer System.
PB95-176137 *03,958*

Narrow-Band Tunable Diode Laser System with Grating Feedback, and a Saturated Absorption Spectrometer for Cs and Rb.
PB95-202891 *04,319*

Energy Calibration of X-ray Photoelectron Spectrometers: Results of an Interlaboratory Comparison to Evaluate a Proposed Calibration Procedure.
PB96-102918 *04,027*

Simple Variable Line Space Grating Monochromator for Synchrotron Light Source Beamlines.
PB96-156203 *04,065*

SPECTROMETRY
Crystal Diffraction Spectrometry for Accurate, Non-Invasive kV/Spectral Measurement for Improvement of Mammographic Image Quality.
AD-A297 943/3 *00,721*

Spectral Interference in the Determination of Arsenic in High-Purity Lead and Lead-Base Alloys Using Electrothermal Atomic Absorption Spectrometry and Zeeman-Effect Background Correction.
PB96-112099 *00,614*

Quantitative Determination of Oxidative Base Damage in DNA by Stable Isotope-Dilution Mass Spectrometry.
PB96-200886 *03,483*

SPECTROPHOTOMETERS
Standard Reference Materials: Glass Filters as a Standard Reference Material for Spectrophotometry - Selection, Preparation, Certification, and Use of SRM 930 and SRM 1930.
PB94-188844 *00,536*

SPECTRORADIOMETERS
Report on USDA Ultraviolet Spectroradiometers.
PB96-214648 *00,125*

Interface-Filter Characterization of Spectraradiometers and Colorimeters.
PB97-122212 *04,399*

SPECTROSCOPIC ANALYSIS
Spectroscopic Data for Fusion Edge Plasmas.
PB95-151569 *04,410*

Spectroscopic Diagnostics of Low Temperature Plasmas: Techniques and Required Data.
PB95-151577 *04,411*

Diode Laser as a Spectroscopic Tool.
PB95-175485 *00,600*

Spectroscopic Study of Quantized Breakdown Voltage States of the Quantum Hall Effect.
PB96-113584 *04,730*

SPECTROSCOPIC COUPLING
Atomic Transition Probabilities and Tests of the Spectroscopic Coupling Scheme for N I.
PB96-138466 *04,057*

SPECTROSCOPIC DATA
Comprehensive Spectroscopic Data Tabulations and Progress in the Compilation of Atomic Transition Probabilities.
PB95-151551 *03,909*

Spectroscopic Data Tables for Highly-Ionized Atoms.
PB95-151585 *03,910*

SPECTROSCOPIC ELLIPSOMETRY
High-Accuracy Principal-Angle Scanning Spectroscopic Ellipsometry of Semiconductor Interfaces.
PB96-163787 *02,427*

SPECTROSCOPY
Spectroscopic Study of Reaction Intermediates and Mechanisms in Nitramine Decomposition and Combustion.
AD-A296 061/5 *03,774*

Theoretical Analysis of the Coherence-Induced Spectral Shift Experiments of Kandpal, Vaishya, and Joshi.

Artificial Crack in Steel: An Ultrasonic-Resonance-Spectroscopy and Modeling Study.
PB96-141395 *03,241*

RIS Measurements of the AC Stark Shift.
PB96-158035 *04,078*

Use of Pressure for Quantum-Well Band-Structure Characterization.
PB96-164058 *04,779*

Energy Distributions of Neutrons Scattered from Solid C60 by the Beryllium Detector Method.
PB96-176631 *03,740*

Pairwise and Nonpairwise Additive Forces in Weakly Bound Complexes: High Resolution Infrared Spectroscopy of ArnDF (n=1,2,3).
PB96-200357 *04,125*

Vibrationally Resolved Photoelectron Angular Distributions and Branching Ratios for the Carbon Dioxide Molecule in the Wavelength Region 685-795 Angstrom.
PB96-201207 *04,131*

Laser Bandwidth Effects in Quantitative Cavity Ring-Down Spectroscopy.
PB97-112254 *04,394*

Resonance Enhanced Multiphoton Ionization Spectroscopy of the PF Radical.
PB97-119119 *00,702*

SPECTRUM ANALYSIS
Complementary Molecular Information on Phthalocyanine Compounds Derived from Laser Microprobe Mass Spectrometry and Micro-Raman Spectroscopy.
PB94-172269 *00,757*

Thermodynamic Properties of Gas Phase Species of Importance to Ozone Depletion.
PB94-198215 *00,126*

Modeling Polarization Curves and Impedance Spectra for Simple Electrode Systems.
PB94-198876 *03,188*

2-Tunneling Path Internal-Axis-Method-Like Treatment of the Microwave Spectrum of Divinyl Ether.
PB94-200466 *00,808*

Two-Dimensional POMMIE Carbon-Proton Chemical Shift Correlated (13)C NMR Spectrum Editing.
PB94-200508 *00,809*

Resonance Enhanced Multiphoton Ionization Spectroscopy of 2-Butene-1-yl (C4H7) between 455-485 nm.
PB95-151031 *00,670*

Applications of Fluorescence Spectroscopy in Polymer Science and Technology.
PB95-163770 *01,258*

SPECULAR REFLECTION
Specular and Diffuse Reflection Measurements of Electronic Displays.
PB97-119200 *02,208*

SPEECH
Error Protecting Characteristics of CDMA and Impacts on Speech.
PB96-122452 *01,491*

SPEECH RECOGNITION
Benchmarks for the Evaluation of Speech Recognizers.
PB94-211539 *01,566*

SPEED INDICATORS
Model Minimum Performance Specifications for Lidar Speed Measurement Devices.
PB95-197455 *04,861*

SPHERES
Analytical Method of Determining the Heat Capacity at High Temperatures from the Surface Temperature of a Cooling Sphere.
PB94-216124 *03,865*

Brownian Diffusion of Hard Spheres at Finite Concentrations.
PB95-164307 *00,975*

Forward Scattering of a Gaussian Beam by a Nonabsorbing Sphere.
PB97-112288 *04,395*

SPI
Using Synthetic-Perturbation Techniques for Tuning Shared Memory Programs (Extended Abstract).
PB94-172657 *01,685*

SPIN DYNAMICS
Magnetic Structure and Spin Dynamics of the Pr and Cu in Pr2CuO4.
PB96-111836 *04,036*

SPIN TRAP
Unusual Spin-Trap Chemistry for the Reaction of Hydroxyl Radical with the Carcinogen N-Nitrosodimethylamine.
PB95-151643 *00,692*

SPIN VALVES
Simulating Device Size Effects on Magnetization Pinning Mechanisms in Spin Valves.
PB97-112593 *04,158*

SPINACH
Determination of 21 Elements by INAA for Certification of SRM 1570a, Spinach.
PB96-167242 *00,698*

SPINDLES
Evaluation of a Tapered Roller Bearing Spindle for High-Precision Hard Turning Applications.
PB96-160494 *02,700*

SPINDT CATHODES
Planar Lenses for Field-Emitter Arrays.
PB96-103064 *02,112*

SPINNING ROTOR GAGE CONTROLLERS
PC-Based Spinning Rotor Gage Controller.
PB95-175832 *02,609*

SPINODAL
Physical Limit to the Stability of Superheated and Stretched Water.
PB96-122551 *01,083*

SPINODAL DECOMPOSITION
Time-Resolved Small-Angle Neutron Scattering Study of Spinodal Decomposition in Deuterated and Protonated Polybutadiene Blends. 1. Effect of Initial Thermal Fluctuations.
PB95-161196 *01,252*

Relaxation After a Temperature Jump Within the One Phase Region of a Polymer Mixture.
PB97-112494 *03,394*

Dimensional Crossover in the Phase Separation Kinetics of Thin Polymer Blend Films.
PB97-113088 *03,395*

SPINOR EQUATIONS
Spinor Equations in Relativistic Quantum Mechanics.
PB97-110605 *04,142*

SPIRALLY-REINFORCED BRIDGE COLUMNS
Evaluating the Seismic Performance of Lightly-Reinforced Circular Concrete Bridge Columns.
PB95-163259 *01,335*

SPLICES
Fibre Splice Loss: A Simple Method of Calculation.
PB95-175519 *04,299*

SPONGES
Swelling and Growth of Polymers, Membranes and Sponges.
PB97-118400 *03,396*

SPRAY COMBUSTION
Role of Combustion on Droplet Transport in Pressure-Atomized Spray Flames.
PB96-204433 *01,434*

SPRAY COOLING
Transient Cooling of a Hot Surface by Droplets Evaporation.
PB94-156957 *03,783*

SPRAY DRIED POWDER
Characterization and Processing of Spray-Dried Zirconia Powders for Plasma Spray Application.
PB97-111231 *04,419*

SPRAY EXTRACTION COLUMNS
Enzyme and Protein Mass Transfer Coefficient in Aqueous Two Phase Systems. 1. Spray Extraction Columns.
PB95-161162 *00,594*

SPRAYING
Measurement Methods and Standards for Processing and Application of Thermal Barrier Coatings.
N95-26123/6 *01,447*

Combustion of Methanol and Methanol/Dodecanol Spray Flames.
PB95-108544 *02,478*

Study of Droplet Transport in Alcohol-Based Spray Flames Using Phase/Doppler Interferometry.
PB95-108551 *02,479*

Structure of a Swirl-Stabilized Kerosene Spray Flame.
PB95-108569 *02,480*

SPRAYS
Turbulent Spray Burner for Assessing Halon Alternative Fire Suppressants.
PB95-153748 *01,385*

Water Mist Fire Suppression Workshop Summary.
PB95-161907 *02,853*

SPRINKLER SYSTEMS
Analysis of Failed Dry Pipe Fire Suppression System Couplings from the Filene Center at Wolf Trap Farm Park for the Performing Arts.
PB94-164407 *00,331*

Field Modeling: Simulating the Effect of Sloped Beamed Ceilings on Detector and Sprinkler Response.
PB96-122866 *01,406*

Analysis of High Bay Hangar Facilities for Detector Sensitivity and Placement.
PB96-190210 *01,429*

State of the Art Report on Seismic Design Requirements for Nonstructural Building Components.
PB96-193800 *00,308*

Interaction of an Isolated Sprinkler Spray and a Two-Layer Compartment Fire Environment. Phenomena and Model Simulations.
PB97-110076 *01,437*

SPRINKLERS
Application of Boundary Element Methods to a Transient Axis-Symmetric Heat Conduction Problem.
PB94-212693 *01,375*

Measurement of Room Conditions and Response of Sprinklers and Smoke Detectors during a Simulated Two-Bed Hospital Patient Room Fire.
PB94-213717 *00,292*

Sprinkler Fire Suppression Algorithm.
PB94-216181 *00,293*

Comparison of Fire Sprinkler Piping Materials: Steel, Copper, Chlorinated Polyvinyl Chloride and Polybutylene, in Residential and Light Hazard Installations.
PB95-182267 *00,299*

Evaluation of Sprinkler Activation Prediction Methods.
PB96-141056 *00,304*

Computing the Effect of Sprinkler Sprays on Fire Induced Gas Flow.
PB96-147111 *00,404*

SPRINKLING
Protection of Data Processing Equipment with Fine Water Sprays.
PB95-174975 *02,610*

SPT (SYNTHETIC PERTURBATION TUNING)
Synthetic-Perturbation Tuning of MIMD Programs.
PB94-185568 *01,687*

SPUTTERING
Pure Element Sputtering Yield Data: Appendix 4.
PB94-200037 *00,805*

Deposition Rates in Direct Current Diode Sputtering.
PB95-203345 *04,697*

SQA (SOFTWARE QUALITY ASSURANCE)
SQA Standards and Total Quality Management.
PB96-111844 *01,743*

SQA and TQM in Software Quality Improvement.
PB96-160791 *01,754*

SQIDS (DETECTORS)
Self-Biasing Cryogenic Particle Detector Utilizing Electrothermal Feedback and a SQUID Readout.
PB96-102538 *04,712*

SQL DATABASE LANGUAGE
Object SQL: Language Extensions for Object Data Management.
PB95-125902 *01,704*

SQL (STRUCTURED QUERY LANGUAGE)
SQL Environments. Category: Software Standard; Subcategory: Database.
FIPS PUB 193 *01,801*

SQUEEZED STATES (QUANTUM THEORY)
Squeezed Atomic States and Projection Noise in Spectroscopy.
PB95-176293 *03,960*

SQUID AMPLIFIERS
Two-Stage Integrated SQUID Amplifier with Series Array Output.
PB95-176277 *02,061*

SQUID (DETECTORS)
Physical Basis for Half-Integral Shapiro Steps in a DC SQUID.
PB96-102264 *04,704*

SQUID DEVICES
Series Array of DC SQUIDs.
PB95-163861 *02,046*

Kinetic-Inductance Infrared Detector Based on an Antenna-Coupled High-Tc SQUID.
PB95-169116 *02,165*

Two-Stage Integrated SQUID Amplifier with Series Array Output.
PB95-176277 *02,061*

Noise Reduction in Low-Frequency SQUID Measurements with Laser-Driven Switching.
PB96-135165 *02,081*

SRA
Process for Selecting Standard Reference Algorithms for Evaluating Coordinate Measurement Software.
PB94-173754 *02,629*

SRM 1165
Apparent Bias in the X-Ray Fluorescence Determination of Titanium in Selected NIST SRM Low Alloy Steels.
PB95-108759 *03,212*

SRM 1264
Apparent Bias in the X-Ray Fluorescence Determination of Titanium in Selected NIST SRM Low Alloy Steels.
PB95-108759 *03,212*

SRM 1548
Mixed Diet Reference Materials for Nutrient Analysis of Foods: Preparation of SRM-1548 Total Diet.
PB95-151692 *03,593*

STABILITY
Long-Term Stability of Carrier-Free Polonium Solution Standards.
PB94-185170 *00,685*

Stability/Instability of Gas Mixtures Containing 1,3-Butadiene in Treated Aluminum Gas Cylinders.
PB95-162285 *02,546*

Stability and Surface Energies of Wetted Grain Boundaries in Aluminum Oxide.
PB95-202750 *03,059*

Comments on the Stability of Bayard-Alpert Ionization Gages.
PB96-103080 *02,673*

STADARDS
International Institute of Welding: Report on 1995 Actions.
PB96-158076 *02,874*

STAINLESS STEEL
PC-Based Prototype Expert System for Data Management and Analysis of Creep and Fatigue of Selected Materials at Elevated Temperatures.
PB94-172251 *03,202*

Temperature-Induced Transition in Ductile Fracture Appearance of a Nitrogen-Strengthened Austenitic Stainless Steel.
PB96-190269 *03,221*

STAINLESS STEEL-304L
Effect of Backfill and Atomizing Gas on the Powder Porosity and Mechanical Properties of 304L Stainless Steel.
PB94-185394 *03,205*

STANDARD CROSS SECTION
Measurements of the (235)U(n,f) Cross Section in the 3 to 30 MeV Neutron Energy Region.
PB97-119051 *04,172*

STANDARD FOR THE EXCHANGE OF PRODUCT MODEL DATA
Challenges to the National Information Infrastructure: The Barriers to Product Data Sharing. National PDES Testbed Report Series.
PB95-136347 *02,776*

STEP On-Line Information Service (SOLIS). The IGES/PDES Organization.
PB95-137790 *02,777*

SGML Environment for STEP.
PB95-143103 *02,778*

Initial NIST Testing Policy for STEP: Beta Testing Program for AP 203 Implementations. National PDES Testbed Report Series.
PB95-154688 *02,779*

Machining Process Planning Activity Model for Systems Integration.
PB96-165428 *02,841*

Procedure for Product Data Exchange Using STEP Developed in the AutoSTEP Pilot.
PB96-183058 *02,843*

Interoperability Requirements for CAD Data Transfer in the AutoSTEP Project.
PB97-114268 *02,796*

Capabilities for Product Data Exchange.
PB97-118764 *02,798*

STANDARD FOR THE EXCHANGE OF PRODUCT MODEL DATA (STEP)

Extensions of the Prototype Application Protocol of Ready-to-Wear Apparel Pattern Making.
PB96-128194 *03,198*

STANDARD GENERALIZED MARKUP LANGUAGE

SGML Environment for STEP.
PB95-143103 *02,778*

SGML Parser Validation Procedures.
PB95-174959 *01,717*

STANDARD RADIATORS

Screened-Room Measurements on the NIST Spherical-Dipole Standard Radiator.
PB96-113568 *01,926*

STANDARD REFERENCE ALGORITHM

Process for Selecting Standard Reference Algorithms for Evaluating Coordinate Measurement Software.
PB94-173754 *02,629*

STANDARD REFERENCE DATA

Numeric Data Distribution: The Vital Role of Data Exchange in Today's World.
N95-15937/2 *02,622*

Journal of Physical and Chemical Reference Data, Volume 22, No. 1, January/February 1993.
PB94-160975 *00,729*

Thermodynamic Properties of the Group IIA Elements.
PB94-160983 *00,730*

Spectroscopy and Structure of the Lithium Hydride Diatomic Molecules and Ions.
PB94-160991 *00,731*

Quantum Yields for the Photosensitized Formation of the Lowest Electronically Excited Singlet State of Molecular Oxygen in Solution.
PB94-161007 *00,732*

Journal of Physical and Chemical Reference Data, Volume 22, No. 2, March/April 1993.
PB94-162211 *00,733*

Wavelengths and Energy Level Classifications for the Spectra of Sulfur (S I through S XVI).
PB94-162229 *00,734*

Thermodynamic Properties of Alkenes (Mono-Olefins Larger Than C4).
PB94-162237 *00,735*

Thermodynamic Behavior of the CO2-H2O System from 400 to 1000 K, up to 100 MPa and 30% Mole Fraction of CO2.
